- Online Services
 - ARIPO IP Online Regional Database
 - ARIPO – WIPO Member States Module
 - Online Publication for ARIPO Member States
 - Online Filing and Correspondence – WIPOFILE
- Future Plans

IPO e-services Vision

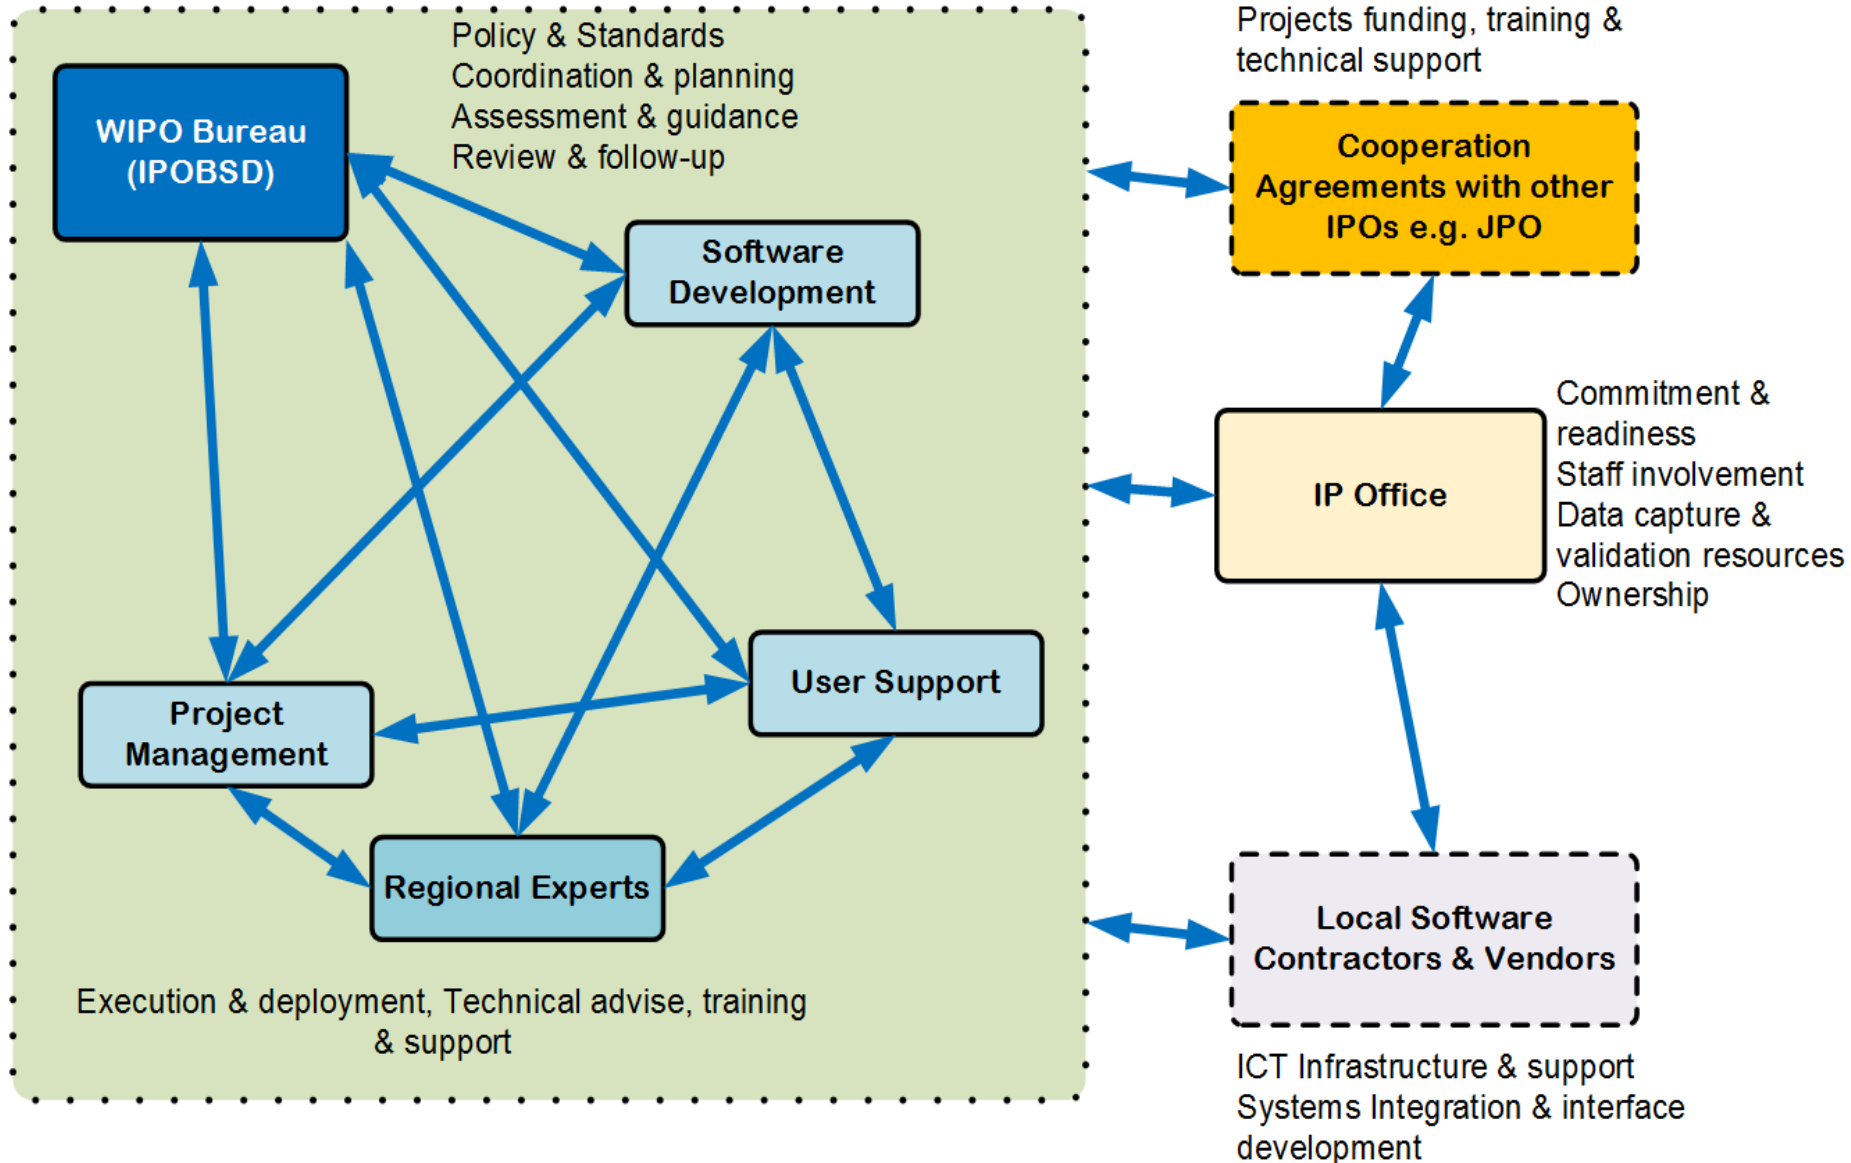

Model for Evaluation for Online Services Deployment

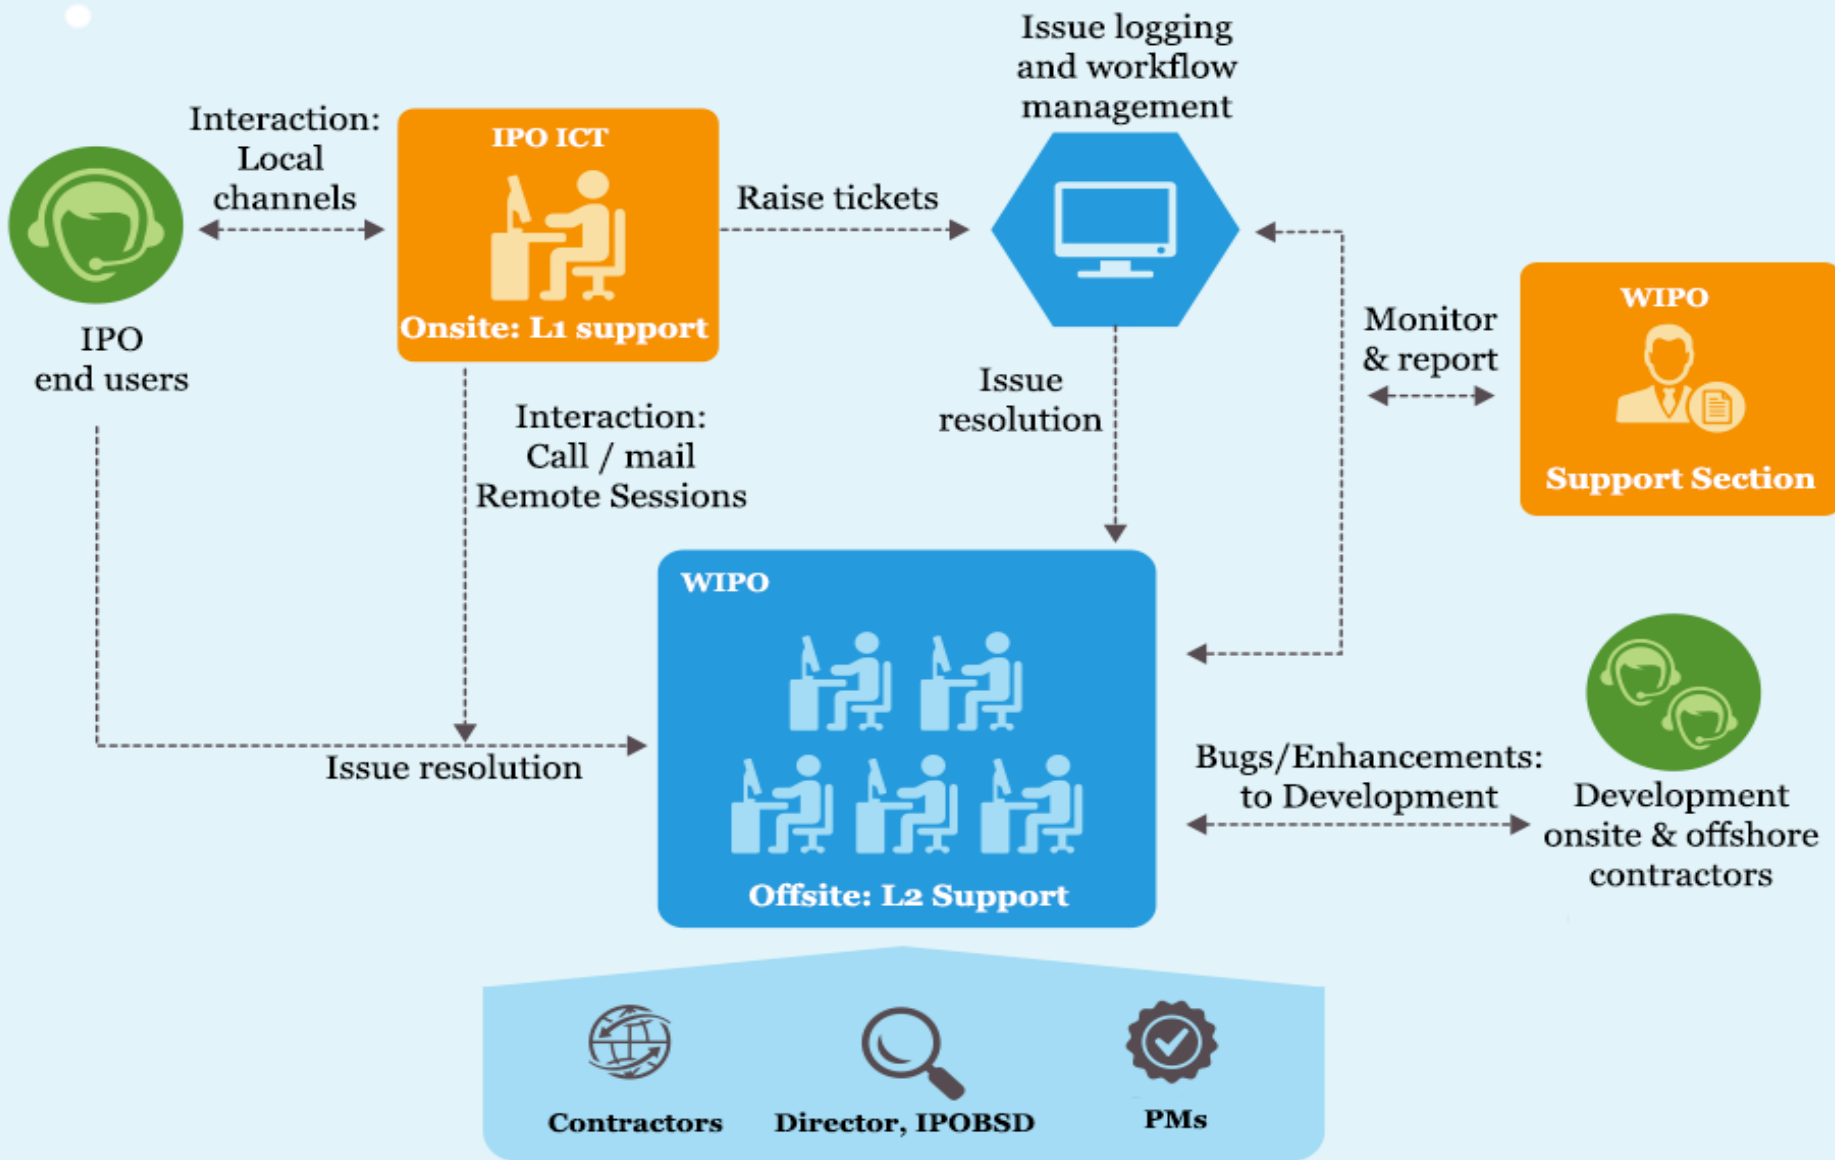

Establish a good foundation with the right staff, structures, budget and IT equipment	Use the IP Admin System to standardise workflows, respect legal requirements, record data and automate office functions	The IP Admin system should be the authoritative source of all information, replacing paper registers and used for all official communications and records	Paper dossiers are replaced with digitized documents, scanned and indexed on receipt	Applicants can interact with the office online and the public can search and access all relevant information online
Benefits:				
Reliability of systems	Standardization of work practices and conformity to legislation	Quality and efficiency of service	Quality and efficiency of service	More responsive to applicants, better outreach better information for all stakeholders

Cooperation Framework

Member States Support Framework

Fellowship Program

Build troubleshooting & analysis skills of IPO ICT staff
