- FI: 2022.04 loaded with 384 concordance issues.

IPC data status: categorization

■ IPCCAT: trained with WIPO Delta 2022,
will be soon retrained with patent documents reclassified
in IPC 2023.01.

■ AI-based reclassification in IPCWLMS will also be
retrained with most recent patent documents.

IPC data status: AI based translation in IPCRMS

■ English and French retraining with IPC 2023.01 data in progress

■ In 2023: Addition of Polish, Portuguese, Serbian, Slovak and Spanish languages

IPCPUB improvements

■ IPC Scheme PDF files produced with IPCPUB 9 for IPC-2009.01 onward: presentation consistency with active web version, smaller size.
Note: IPC PDF preparation tool is no longer supported.

■ Transition to new WIPO Look & Feel: on hold, improvement proposals from IP offices are still possible and welcome.
