Re.: Proposal for new catchwords for IPC revision projects C 342 and 353

Dear Mr. Farassopoulos,

With reference to your e-mail dated October 9, 2000, I have pleasure in submitting a proposal for the introduction of new catchwords in the catchword index for IPC revision project C 342 of the Austrian Patent Office.

IPC revision project C 353 relates merely to a clarification in the wording of Notes. Therefore we do not think a proposal for new catchwords is necessary in this case.

Encl.

Yours sincerely,
