ORGANIZATION

IPC data status: IPCPUB

- IPC 2017.01 to 2023.01: active, no change

- IPC 2009.01 to 2016.01: active from mid January 2023 but without Definitions or Catchwords

- IPC1 to 2008.04: archived, will possibly be made active by the end of 2023

- CPC: 2023.02 loaded without any concordance issue

- FI: 2022.04 loaded with 384 concordance issues

IPC data status: categorization

■ IPCCAT: trained with WIPO Delta 2022,
will be retrained in September with patent documents
reclassified in IPC 2023.01

■ AI based reclassification in IPCWLMS will also be
retrained with most recent patent documents

IPC data status: AI based translation in IPCRMS

- English and French retraining with IPC 2023.01 data is done

- In 2023: Addition of Polish, Portuguese, Serbian, Slovak and Spanish languages.

IPCPUB improvements

- IPC Scheme PDF files produced with IPCPUB 9 for IPC 2009.01 onward: presentation consistency with active web version, smaller file size.
Note: IPC PDF preparation tool is no longer supported

- Transition to new WIPO Look & Feel: on hold, improvement proposals from IP offices are still possible and welcome
