Geneva, September 23 to October 2, 1996**

ACTIVITIES IN THE YEAR 1995

Report of the Director General

Introduction

1. This document is a report on the activities of the International Bureau during the year 1995. Activities carried out during the first six months (January 1 to June 30) of that year were reported (document AB/XXVI/7) to the Governing Bodies when they met in September-October 1995.
2. The present document repeats the description of the activities contained in the said document and also covers the activities carried out during the remainder (July 1 to December 31) of that year. For the convenience of the reader, new paragraphs are marked with a vertical line in the margin.

ACTIVITIES IN THE YEAR 1995

PART I: GOVERNING BODIES

WIPO Budget Committee

3. The Committee held its twelfth session in Geneva from April 24 to 26.
4. The following 18 States members of the Committee were represented at the session: ALGERIA, BULGARIA, CANADA, CHILE, CHINA, FRANCE, GERMANY, INDIA, JAPAN, NETHERLANDS, PAKISTAN, PHILIPPINES, RUSSIAN FEDERATION, SWITZERLAND, UNITED KINGDOM, UNITED REPUBLIC OF TANZANIA, UNITED STATES OF AMERICA, URUGUAY.
5. The Committee reviewed the draft program and budget for the 1996-97 biennium and made recommendations to the Governing Bodies of WIPO which were to meet in September.
6. The Committee held its thirteenth session in Geneva on November 29 and 30.
7. The following 17 States members of the Committee were represented at the session: BRAZIL, BULGARIA, CANADA, CHILE, CHINA, FRANCE, GERMANY, INDIA, JAPAN, NETHERLANDS, PAKISTAN, PHILIPPINES, RUSSIAN FEDERATION, SWITZERLAND, UNITED KINGDOM, UNITED REPUBLIC OF TANZANIA, UNITED STATES OF AMERICA. The following 25 States members of WIPO were represented by observers: ARGENTINA, AUSTRIA, COLOMBIA, CÔTE D'IVOIRE, CROATIA, EGYPT, EL SALVADOR, GHANA, INDONESIA, ITALY, MADAGASCAR, MEXICO, MONGOLIA, NIGERIA, PARAGUAY, PERU, PORTUGAL, ROMANIA, SENEGAL, SINGAPORE, SLOVAKIA, SOUTH AFRICA, SPAIN, TRINIDAD AND TOBAGO, TUNISIA.
8. The Committee examined the financial implications of the proposed Agreement between WIPO and the World Trade Organization (WTO) (which was signed a month later in December, see paragraph 40).

WIPO Premises Committee

9. The Committee held its fourth session in Geneva on June 19 and 20.
10. The following 11 States members of the Committee were represented at the session: ARGENTINA, BRAZIL, CHINA, EGYPT, FRANCE, GERMANY, INDIA, NIGERIA, RUSSIAN FEDERATION, SWITZERLAND, UNITED STATES OF AMERICA.
11. The Committee reviewed a document which described the needs and the plans of the International Bureau for additional premises, and which proposed that a temporary extension of

the BIRPI building be constructed. The Committee invited the International Bureau to present a document to the Governing Bodies describing that proposal as well as the possibility of constructing a permanent extension of the BIRPI building, and comparing the advantages and disadvantages of each, so that a decision could be made by the Governing Bodies when they met later in September (see paragraph 33).

Intergovernmental Committee of the International Convention for the Protection of Performers, Producers of Phonograms and Broadcasting Organisations (Rome Convention)

12. The Intergovernmental Committee of the Rome Convention, convened by WIPO, the ILO and UNESCO, held its fifteenth ordinary session in Geneva from July 3 to 5. The following 10 member States of the Committee were represented: ARGENTINA, CHILE, COLOMBIA, FINLAND, FRANCE, GERMANY, JAPAN, MEXICO, SWEDEN, UNITED KINGDOM. Three States party to the Convention but not members of the Committee (AUSTRALIA, CZECH REPUBLIC, SPAIN), two States not party to the Convention (BOTSWANA, CROATIA) and the Commission of the European Communities (CEC) were represented as observers.

13. Representatives of the following six non-governmental organizations participated in an observer capacity: AEPO, CISAC, EBU, FIA, FIM, IFPI.

14. The meeting emphasized the need to accede to, and apply, the Rome Convention by as many countries as possible, and to protect the rights of the beneficiaries of the Convention in an efficient manner, as well as to continue the various training courses, publications and educational activities which WIPO, the ILO and UNESCO have undertaken so far. The future of the Rome Convention was examined and questioned, in view of the forthcoming session at WIPO (in September) of the Committee of Experts on a Possible Instrument for the Protection of the Rights of Performers and Producers of Phonograms.

15. The meeting also discussed the impact of the digital revolution and technological advancements on copyright and neighboring rights, as well as on performers' rights, new forms of delivery and distribution of copyright works and objects of neighboring rights, and the current trend towards globalization of digital networks.

16. The Committee requested the Secretariat to include on the agenda of the next meeting of the Committee, in 1997, the question of the impact of digital technology on neighboring rights under the Rome Convention, including on the employment and conditions of work of performers. A study on the said question should be prepared by the Secretariat.

Governing Bodies of WIPO and the Unions Administered by WIPO

17. From September 25 to October 3, the following Governing Bodies of WIPO held their twenty-sixth series of meetings in Geneva:

- (1) WIPO General Assembly, sixteenth session (12th ordinary);

19. The main subjects considered by the Governing Bodies and the main decisions that they adopted are summarized below.

20. Activities of WIPO from July 1, 1993, to June 30, 1995. All the delegations which spoke on this subject expressed satisfaction with the range and depth of the activities that had been carried out and the efficiency with which they were accomplished. Tribute was paid to the quantity and quality of the work done. In the view of those delegations, the objectives of the activities were attained, thanks to the professionalism and dedication of the International Bureau, under the guidance of the Director General.

21. Without exception, the development cooperation activities for the benefit of developing countries were given special mention. All the delegations of the recipient developing countries underlined the benefits that the Organization's development cooperation had brought, given the increasing role that intellectual property was universally recognized as playing in social, cultural and economic development. Such a role had recently been enhanced by the central position assigned to intellectual property rights in international trade and technology transfer. The wish was expressed that WIPO's development cooperation program be intensified and expanded so that developing countries could develop intellectual property systems compatible with regional and world trends, particularly with the obligations embodied in the Agreement on the Trade-Related Aspects of Intellectual Property Rights (TRIPS Agreement). A number of delegations of industrialized and developing countries reiterated their intention to continue supporting WIPO's development cooperation program with funds and in kind.

22. Regarded as particularly useful among development cooperation activities were those dealing with training (both general and specialized), assistance in the preparation of legislation, advice on ensuring that such legislation complied with treaty obligations, better management and administration of national intellectual property offices, computerization of those offices, patent information services to the public using CD-ROM technology, more effective enforcement of intellectual property rights and the teaching of intellectual property at university level. A number of delegations welcomed the higher allocation of resources from WIPO's regular budget for development cooperation activities in view of the expanded program of work envisaged for the biennium 1996-97.

23. Many delegations emphasized the importance that they attached to WIPO's work in both norm-setting and international registration activities. Selected for special commendation, together with expressions of support for the continuation of such work, were the preparations for a possible protocol to the Berne Convention and a possible new instrument for the protection of the rights of performers and producers of phonograms, a proposed treaty for the settlement of intellectual property disputes between States, as well as the WIPO Arbitration Center. Several delegations encouraged the continuation of work on the Patent Law Treaty, judging that such work should best, for the time being, focus on the new approach recommended by the Consultative Meeting in May 1995, without, however, losing sight of the original basic proposals. A few delegations mentioned the importance of advancing the work

on a possible new Act of the Hague Agreement Concerning the International Deposit of Industrial Designs. A number of delegations found the activities in the international registration Unions especially satisfactory, and remarked on the high rate of growth in the use of the PCT.

24. Program and Budget for the 1996-97 Biennium. The Governing Bodies approved the draft program and budget for the 1996-97 biennium, with an income and expenditure of about 300 million Swiss francs. The Governing Bodies also approved the allocation of an additional amount of six million Swiss francs to provide for increased assistance to developing countries. Many of the activities of the 1994-95 biennium would be continued in the new biennium. At the same time, the development cooperation activities would be significantly increased. In the 1996-97 biennium, the proportion of the income of contribution-financed Unions to that of fee-financed Unions was expected to be about 15% to 85%; a similar proportion was also applicable to the expenditures.

25. Draft Treaty on the Settlement of Disputes Between States in the Field of Intellectual Property. It was agreed that the Committee of Experts would meet again in the first part of 1996, and its results reported to the WIPO General Assembly or Coordination Committee in 1996, for a decision on whether a diplomatic conference for the conclusion of the said draft Treaty should be convened, and, if so, when.

26. Possible Protocol to the Berne Convention and Possible Instrument for the Protection of the Rights of Performers and Producers of Phonograms. The 1996-97 biennium will see the continuation of work on a Possible Protocol to the Berne Convention and on a Possible Instrument for the Protection of the Rights of Performers and Producers of Phonograms. It was agreed that if the Committees of Experts dealing with the two said draft treaties held the view, after their joint meeting in February 1996, that work is sufficiently advanced, the WIPO General Assembly would be convened in extraordinary sessions to decide on the convocation of one or two diplomatic conferences.

27. Patent Law Treaty. The Governing Bodies agreed to take a new approach in promoting the harmonization of patent laws. The subjects to be dealt with under the new approach would be matters concerning the formalities in respect of national and regional patent applications, such as signatures, changes in names and addresses, correction of mistakes, standardized forms. Two or more sessions of a Committee of Experts on this issue would be organized during the 1996-97 biennium. Decisions on the question of a diplomatic conference, such as the agenda and timing, would be made by the WIPO General Assembly once the Committee of Experts has concluded its work.

28. Treaty on the International Registration of Industrial Designs or Revision of the Hague Agreement on the Same Subject. The Governing Bodies decided that a session of the Committee of Experts on the preparation of a new treaty would meet in 1996. The new treaty might take the form of a revision of the existing Hague Agreement. The WIPO General Assembly and the Hague Union Assembly would decide whether or not a diplomatic conference for the adoption of that treaty would take place in 1997.

29. Other Normative and Related Activities for the Improvement of the Legal Protection of Intellectual Property. Besides the norm-making activities described above, WIPO would study various questions of special or topical interest, including the protection of well-known and

famous marks, business identifiers, the recording and indicating of trademark licenses, the legal effects of certain electronic communications in procedures before industrial property offices, the protection of inventions and creations made or used in outer space, enforcement of intellectual property rights, biotechnological inventions and trade secrets. WIPO would organize two or three global symposiums on topical subjects of intellectual property. Furthermore, the Governing Bodies agreed to create the WIPO Standing Advisory Committee on the Intellectual Property Aspects of the Global Information Infrastructure, which would meet once a year to consider the intellectual property aspects of the operation of the global information infrastructure (interactive digital networks, digital superhighways, etc.).

30. Cooperation with the World Trade Organization (WTO). The WIPO General Assembly decided that informal consultations between WIPO and WTO should continue and be conducted by the Chairman of the WIPO Coordination Committee, assisted by the International Bureau. In this process, the said Chairman would seek the guidance of the Member States of WIPO at informal meetings. Any provisional agreements thus reached on cooperation between the two Organizations should be approved by the Coordination Committee and reviewed by the General Assembly. It was agreed that the said Coordination Committee and the General Assembly would meet in 1995 to take any necessary action relating to notifications under the TRIPS Agreement required by January 1, 1996, and otherwise for the entire scope of cooperation between the two Organizations by March 9, 1996. The WIPO General Assembly also agreed to allocate additional financing of three million Swiss francs per year to meet the costs of additional activities to be undertaken in connection with the TRIPS Agreement and the envisaged WIPO cooperation with the WTO (see paragraphs 36 to 43).

31. Registration Systems. The fees of the PCT, Madrid and Hague systems were modified. In the case of the PCT system, the maximum number of designations for which fees are payable was increased from 10 to 11. To help alleviate the situation of applicants from certain States facing economic difficulties, the Governing Bodies approved a 75% reduction in PCT fees for any applicant who is a natural person and is a national of and resident in a State whose per capita national income is below US\$3,000. In the case of the Madrid and Hague systems, the fees were increased by 3%.

32. Implementation of the Madrid Protocol. Consequent upon the ratification of the Madrid Protocol by four countries, the Madrid Protocol entered into force on December 1, 1995. For the Protocol to enter into operation, it is necessary that, once the Protocol is in force, the Assembly of the Madrid Union adopt new Regulations (including fees), and fix the date of entry into force of those Regulations. The Governing Bodies decided that that Assembly would meet in January 1996, with a view to starting operations under the Protocol in April 1996.

33. Extension of the BIRPI Building. The Governing Bodies approved the proposal to construct a temporary extension of the BIRPI building. The latter building is located immediately adjacent to the WIPO headquarters building. The new extension would provide about 120 working places and was expected to be ready by September 1996.

34. Director General. The WIPO General Assembly appointed Dr. Arpad Bogsch unanimously and by acclamation Director General of WIPO for an additional period of two years. Those two years will expire on December 1, 1997.

35. Staff Matters. The WIPO Coordination Committee approved the extension of the appointment of Mr. François Curchod as Deputy Director General for a term of six years, that is, until November 30, 2001. The Governing Bodies also approved the Director General's intention to promote (with effect on October 1, 1995) to grade D.1 (Director grade) Mr. Philippe Favatier, Mr. Gary Smith and Mr. Philip Thomas.

36. From December 19 to 21, the following Governing Bodies of WIPO held their twenty-seventh series of meetings in Geneva:

- (1) WIPO General Assembly, seventeenth session (5th extraordinary);
- (2) WIPO Coordination Committee, thirty-fifth session (9th extraordinary);
- (3) Paris Union Assembly, twenty-fourth session (12th extraordinary);
- (4) Berne Union Assembly, eighteenth session (6th extraordinary).

37. The following 78 States and five intergovernmental organizations were represented at the meetings: ALGERIA, ARGENTINA, AUSTRALIA, AUSTRIA, BELARUS, BELGIUM, BRAZIL, BULGARIA, CANADA, CHILE, CHINA, COSTA RICA, CÔTE D'IVOIRE, CROATIA, CUBA, CZECH REPUBLIC, DENMARK, ECUADOR, EGYPT, EL SALVADOR, FINLAND, FRANCE, GERMANY, GREECE, GUATEMALA, GUINEA-BISSAU, HAITI, HOLY SEE, HONDURAS, HUNGARY, ICELAND, INDIA, INDONESIA, IRELAND, ISRAEL, ITALY, JAPAN, LATVIA, LEBANON, LITHUANIA, MADAGASCAR, MALTA, MAURITIUS, MEXICO, MONACO, MONGOLIA, MOROCCO, NETHERLANDS, NEW ZEALAND, NIGERIA, NORWAY, PAKISTAN, PARAGUAY, PERU, POLAND, PORTUGAL, REPUBLIC OF KOREA, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, SENEGAL, SLOVENIA, SOUTH AFRICA, SPAIN, SRI LANKA, SWEDEN, SWITZERLAND, THAILAND, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, TRINIDAD AND TOBAGO, TUNISIA, TURKMENISTAN, UKRAINE, UNITED KINGDOM, UNITED REPUBLIC OF TANZANIA, UNITED STATES OF AMERICA, VENEZUELA, VIET NAM, UN, UNESCO, WTO, OAPI, CEC.

38. The meetings were presided over by the Chairman of the WIPO General Assembly, the Chairman of the WIPO Coordination Committee, and the Chairman of the Paris Union Assembly who was also ad hoc Chairman of the Berne Union Assembly.

39. Upon recommendation of the WIPO Coordination Committee, the WIPO General Assembly unanimously approved the Agreement Between the World Intellectual Property Organization and the World Trade Organization, with the following statement: "Approval and implementation of the WIPO-WTO Agreement has no implications for current or future members of either WIPO or WTO concerning their recognition by other members of WIPO or WTO or their status with respect to WIPO or WTO." The text of the said Agreement is enclosed in Annex C.

40. In its deliberations, the General Assembly noted the contents of the report of the thirteenth session of the WIPO Budget Committee, which had been held on November 29 and 30 to examine the financial implications of the proposed agreement between WIPO and WTO, including an estimated amount of some 4.4 million Swiss francs for the 1996-1997 biennium, to be taken from the special reserve fund for additional premises and computerization.

In the said report, the Committee had noted the information contained in WIPO document WO/BC/XIII/2, which was also made available to the General Assembly.

41. The Paris Union Assembly unanimously adopted the following resolution: "The Assembly of the Paris Union resolves that the receipt, by the International Bureau from the WTO Secretariat, of a copy of any law or regulation that the WTO Secretariat received under Article 63.2 of the TRIPS Agreement shall have, for the purposes of Article 15(2) of the Paris Convention, the same effect as if that law or regulation had been communicated to the International Bureau under the said Article of the Paris Convention." Furthermore, the Paris Union Assembly unanimously adopted three decisions relating to the implementation of Article 3 of the Agreement between WIPO and WTO.

42. The Berne Union Assembly unanimously adopted the following resolution: "The Assembly of the Berne Union resolves that the receipt, by the International Bureau from the WTO Secretariat, of a copy of any law or regulation that the WTO Secretariat received under Article 63.2 of the TRIPS Agreement shall have, for the purposes of Article 24(2) of the Berne Convention, the same effect as if that law or regulation had been communicated to the International Bureau under the said Article of the Berne Convention."

43. The Agreement Between the World Intellectual Property Organization and the World Trade Organization bears the date of December 22, 1995, date on which it was signed by the Director General of WIPO and the Director-General of WTO; it entered into force on January 1, 1996.

46. A total of 120 training courses, seminars or other meetings were organized; 33 were at the global level, 36 at the regional level and 51 at the national level. Except where the programs focused entirely on technical subjects such as substantive examination of patents, those events always dealt also with the implications of several or all aspects of the Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS Agreement). Some seminars were organized which dealt exclusively with the TRIPS Agreement. In total, some 9,500 persons from the public and private sectors of 116 developing countries and seven developing territories attended these events and received training or information on different aspects of intellectual property. Of that number, 1,100 persons participated at the expense of WIPO, donor member States of WIPO or intergovernmental organizations, which bore their travel and living expenses; the other persons were local participants from the host countries.

47. During the same period, the International Bureau organized study visits for 89 government officials to industrialized or developing countries. Those visits enabled those officials to observe the experiences of other countries in dealing with various aspects of intellectual property, and to exchange views with their counterparts.

48. Advice and assistance on matters related to legislation and institution-building were provided by WIPO to 98 developing countries, one developing territory and nine intergovernmental organizations of developing countries. As in the case of the training courses, seminars and meetings, such advice and assistance also covered the implications, for the countries concerned, of several or all aspects of the TRIPS Agreement. In this respect, 200 advisory missions were organized to 75 developing countries. The missions were composed of WIPO officials and/or WIPO consultants specially recruited for that purpose.

49. In total, 276 consultants were recruited by WIPO either as members of the WIPO advisory missions or as speakers at courses or seminars. Of that number, 50% came from the private sector, while the rest were government officials from various countries, both developing and industrialized. Consultants from developing countries and territories accounted for some 36% of the said total number of consultants.

50. In all, 94 countries, one territory and 13 intergovernmental organizations contributed in different forms to one or more of the development cooperation activities which took place during the period under review. The different forms of contribution included, *inter alia*, the following: cash contributions in the form of funds in trust, payment for the travel and/or living expenses of participants in training courses or study visits, hosting a course or a meeting by making available a meeting room and secretariat support, receiving trainees and study visits, providing the services of experts as members of advisory missions or as speakers, providing patent documents and some equipment. The remainder of the costs were borne by WIPO.

51. Those contributing countries, territory and intergovernmental organizations were: ALGERIA, ARGENTINA, AUSTRALIA, AUSTRIA, BAHRAIN, BANGLADESH, BELGIUM, BENIN, BHUTAN, BOLIVIA, BRAZIL, BULGARIA, BURKINA FASO, CAMEROON, CANADA, CHILE, CHINA, COLOMBIA, CONGO, COSTA RICA, CÔTE D'IVOIRE, CUBA, CZECH REPUBLIC, DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA, DENMARK, ECUADOR, EGYPT, EL SALVADOR, ETHIOPIA, FIJI, FINLAND, FRANCE, GERMANY, GHANA, GUATEMALA, GUINEA, GUYANA, HONDURAS, HUNGARY, INDIA, INDONESIA, IRAN (ISLAMIC REPUBLIC OF), ISRAEL, ITALY, JAPAN, JORDAN, KUWAIT, LAOS, LESOTHO, LIBYA, MADAGASCAR, MALAWI, MALAYSIA, MALI, MAURITANIA, MEXICO, MONGOLIA, MOROCCO, NAMIBIA, NEPAL, NETHERLANDS, NEW ZEALAND, NIGER, NIGERIA, NORWAY, PAKISTAN, PARAGUAY, PERU, PHILIPPINES, PORTUGAL, REPUBLIC OF KOREA, RUSSIAN FEDERATION, SAINT LUCIA, SINGAPORE, SLOVENIA, SOUTH AFRICA, SPAIN, SRI LANKA, SWAZILAND, SWEDEN, SWITZERLAND, SYRIA, THAILAND, TOGO, TRINIDAD AND TOBAGO, TUNISIA, UNITED ARAB EMIRATES, UNITED KINGDOM, UNITED STATES OF AMERICA, URUGUAY, VENEZUELA, VIET NAM, ZAIRE, ZAMBIA, HONG KONG, ACCT, ARIPO, ASEAN, BBM, CEC, EPO, IBD, JUNAC, OAPI, OECS, PLACIEX, SELA, UNDP.

Fifteen of the 21 States members of the Working Group were represented, namely: AUSTRIA, BRAZIL, CANADA, CHILE, CHINA, FRANCE, GERMANY, JAPAN, PHILIPPINES, ROMANIA, SPAIN, SWITZERLAND, UNITED STATES OF AMERICA, URUGUAY, ZIMBABWE. Discussions were based on the reports on WIPO's activities in 1994 and the first six months of 1995. The Working Group reviewed and evaluated the progress of the Permanent Program for Development Cooperation Related to Industrial Property since the last session of the Permanent Committee held in June 1994, focusing on the main orientations of the Permanent Program as endorsed by the Permanent Committee at its 1994 session. All delegations that made statements expressed their appreciation for the development cooperation activities carried out during the period under review and underscored the importance they attached to those activities. The Working Group referred to the continuing importance of human resource development as one of the cornerstones of the Permanent Program and stressed the constant need for widening the scope of the training programs implemented by the International Bureau. Most of the delegations encouraged WIPO to pursue its efforts to open its training program to a wide range of officials from various government departments and ministries and from the private sector, as well as to keep those officials and participants informed of the new trends in the field of intellectual property protection and the trade-related issues involved. The Working Group expressed its appreciation of WIPO's activities in providing legal advice to developing countries on issues relating to industrial property, especially in view of the need to adapt national or regional legislation to conform to the provisions of the TRIPS Agreement, and encouraged the International Bureau to extend this assistance. The report of the Working Group was noted by the Governing Bodies of WIPO during their sessions later in September/October.

WIPO Permanent Committee for Development Cooperation Related to Copyright and Neighboring Rights

1083. The Permanent Committee consists of all States members of WIPO which have informed the Director General of their desire to be members. On December 31, 1995, the member States were the following: ALGERIA, ANGOLA, ARGENTINA, AUSTRALIA, AUSTRIA, BANGLADESH, BARBADOS, BELGIUM, BENIN, BRAZIL, BULGARIA, BURKINA FASO, CAMEROON, CANADA, CENTRAL AFRICAN REPUBLIC, CHAD, CHILE, CHINA, COLOMBIA, CONGO, COSTA RICA, CÔTE D'IVOIRE, CROATIA, CUBA, CYPRUS, DENMARK, EGYPT, EL SALVADOR, FIJI, FINLAND, FRANCE, GAMBIA, GEORGIA, GERMANY, GHANA, GUATEMALA, GUINEA, GUINEA-BISSAU, HAITI, HONDURAS, HUNGARY, INDIA, INDONESIA, ISRAEL, ITALY, JAMAICA, JAPAN, JORDAN, KENYA, LATVIA, LESOTHO, MALAWI, MALAYSIA, MALI, MAURITIUS, MEXICO, MONGOLIA, MOROCCO, NAMIBIA, NETHERLANDS, NEW ZEALAND, NICARAGUA, NIGER, NIGERIA, NORWAY, PAKISTAN, PANAMA, PARAGUAY, PERU, PHILIPPINES, POLAND, PORTUGAL, REPUBLIC OF KOREA, ROMANIA, RUSSIAN FEDERATION, SAINT LUCIA, SAUDI ARABIA, SENEGAL, SIERRA LEONE, SLOVENIA, SOMALIA, SPAIN, SRI LANKA, SUDAN, SURINAME, SWAZILAND, SWEDEN, SWITZERLAND, THAILAND, TOGO, TRINIDAD AND TOBAGO, TUNISIA, TURKEY, UGANDA, UKRAINE, UNITED ARAB EMIRATES, UNITED KINGDOM,

UNITED REPUBLIC OF TANZANIA, UNITED STATES OF AMERICA, URUGUAY, VENEZUELA, VIET NAM, YEMEN, ZAIRE, ZAMBIA, ZIMBABWE.

1084. The Working Group of the WIPO Permanent Committee for Development Cooperation Related to Copyright and Neighboring Rights held its second session in Geneva on September 12 and 14. Sixteen of the 21 States members of the Working Group were represented, namely: ARGENTINA, CANADA, CHINA, FINLAND, FRANCE, GHANA, HUNGARY, INDONESIA, JAPAN, MEXICO, PAKISTAN, REPUBLIC OF KOREA, SPAIN, SWITZERLAND, UNITED KINGDOM, UNITED STATES OF AMERICA. The Working Group reviewed and evaluated the activities of WIPO under the Permanent Program for Development Cooperation Related to Copyright and Neighboring Rights since the last session of the Permanent Committee in May 1994. All the delegations that took the floor expressed their appreciation of, and indicated their full support for, WIPO's cooperation activities in the field of copyright and neighboring rights in developing countries, including the development of human resources, of national and regional legislation and its enforcement as well as institution building. They noted the increased activities undertaken by WIPO since the last meeting of the Permanent Committee. The Working Group emphasized the need for WIPO to continue and strengthen its cooperation with developing countries in the development of human resources and in implementing national copyright and neighboring rights laws. The report of the Working Group was noted by the Governing Bodies of WIPO during their sessions later in September/October.

SETTING OF NORMS AND PROCEDURES FOR THE PROTECTION AND ENFORCEMENT OF INTELLECTUAL PROPERTY RIGHTS

Objective

1085. The objective is to make the protection and enforcement of intellectual property rights more effective throughout the world with due regard to the social, cultural and economic goals of the different countries, goals that correspond to the state of development in which each of them is. This objective may be obtained by the creation of new treaties, by adjusting (through revision or supplementing) existing treaty relations to new circumstances, by setting up new international procedures administered by WIPO or by giving advice, particularly through model laws, to the national or regional legislators, it being understood that model laws are in the nature of advice, and it is the right of any legislator to follow or not to follow them.

1086. In the field of treaty making, the objectives are the creation of a treaty on the settlement of intellectual property disputes between States, a treaty supplementing the Paris Convention in the field of marks, a protocol to the Berne Convention, an instrument (treaty) on the protection of the rights of performers and producers of phonograms, a treaty on the protection and international registration of geographical indications, and the finding of a solution to the question of how certain intergovernmental organizations deeply involved in the protection of intellectual property could acquire in respect of WIPO-administered treaties the same status or a similar status as States have.

1087. In the field of advice to legislators, the objective is that model laws be drafted and published in fields in which such advice seems to be particularly urgent. It is proposed that new model laws be prepared on patents (with due regard to the Patent Law Treaty) and on certain neighboring rights, respectively. Another objective is the establishment of guiding principles on certain electronic procedures concerning works, recordings and broadcasts.

1088. As far as the setting up of new international procedures to be administered is concerned, it is proposed that such procedures be set up for the voluntary numbering of literary and artistic works and for extra-judicial dispute settlement between private parties.

1090. The following 68 States and one intergovernmental organization participated as members in the session: ALGERIA, ANGOLA, ARGENTINA, AUSTRALIA, AUSTRIA, BANGLADESH, BELARUS, BELGIUM, BOLIVIA, BRAZIL, BULGARIA, CAMEROON, CANADA, CHILE, CHINA, COLOMBIA, COSTA RICA, CROATIA, CUBA, DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA, DENMARK, EGYPT, FINLAND, FRANCE, GERMANY, GHANA, HONDURAS, HUNGARY, INDIA, INDONESIA, IRAQ, IRELAND, ISRAEL, ITALY, JAPAN, KENYA, LUXEMBOURG, MADAGASCAR, MALAWI, MALAYSIA, MEXICO, MOROCCO, NETHERLANDS, NEW ZEALAND, NORWAY, PAKISTAN, PARAGUAY, PHILIPPINES, PORTUGAL, REPUBLIC OF KOREA, ROMANIA, RUSSIAN FEDERATION, SENEGAL, SLOVENIA, SPAIN, SUDAN, SWAZILAND, SWEDEN, SWITZERLAND, THAILAND, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, TUNISIA, TURKEY, UNITED ARAB EMIRATES, UNITED KINGDOM, UNITED STATES OF AMERICA, VENEZUELA, VIET NAM and the Commission of the European Communities. In addition, two other intergovernmental organizations (UNESCO, WTO) and two non-governmental organizations (ALAI, AIPPI) participated in the session as observers.

1091. The Committee worked on the basis of a draft Treaty on the Settlement of Disputes Between States in the Field of Intellectual Property prepared by the International Bureau. The draft Treaty was the result of the discussions held in the Committee since its first session in 1990.

1092. The Committee noted that its 1994 session took place before the adoption and entry into force of the Agreement Establishing the World Trade Organization (WTO) as well as other agreements and associated legal instruments, including the Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS) and the Understanding on Rules and Procedures Governing the Settlement of Disputes. This session was the first in which the Committee had the opportunity to consider the question of the relationship between the dispute settlement system envisaged in the draft Treaty and other dispute settlement systems,

particularly that of WTO. Most delegations were of the view that with the entry into force of those agreements and legal instruments, the work to develop a treaty within the framework of WIPO for the settlement of intellectual property disputes should nevertheless continue with the objective of finding appropriate solutions to the problem posed by the existence of two or more systems for the settlement of disputes. In this connection, the Committee considered not only the relevant provisions in the text of the draft Treaty, but also a proposal submitted by the European Communities and its members States as well as a number of proposals and suggestions put forward during the discussions. Different views were expressed during the discussions, particularly on whether the draft Treaty should have provisions governing the problem and, if so, their content.

1093. The status of intergovernmental organizations in the draft Treaty was also discussed. A proposal for the amendment of a number of provisions of the draft Treaty wherein such organizations are referred to, submitted in a previous session of the Committee by the Delegation of the European Communities, was considered again. In addition, the Delegation of the Netherlands reiterated its proposal for the inclusion of an additional article concerning an optional declaration of acceptance of submission of a dispute to the International Court of Justice.

1094. The Committee also noted in the course of the discussions that certain other questions also merited further consideration, including the question of the scope of participation in the panel procedure of an intergovernmental organization as well as of any other entity, constituted by States, that could not become or was not party to a source treaty but which entity had competence for or had exercised powers in respect of matters of intellectual property that had been transferred to it by those States. In addition, the relationship between the number of Contracting Parties required for a quorum and for the adoption by the Assembly and for the acceptance by the Contracting Parties of amendments to the draft Treaty as well as for its entry into force called for further consideration, especially to determine whether and to what extent Contracting Parties other than States should also be included in fixing that number. Finally, the Committee considered it useful to examine also the question whether a Contracting Party could seek through the procedures established under the proposed Treaty a declaration or opinion as to whether an obligation existed for, or had been breached by, that Party.

1095. Consequently, the Committee concluded that a further session of the Committee should be convened by the Director General and that the International Bureau should prepare for that session a new version of the draft Treaty and of the explanatory notes, taking into account the said questions, the suggestions that had been made, the discussions that had taken place and the conclusions that had been reached in the course of the present session. The Committee was also of the view that only the said questions should be considered at its next session, that the said session should be held during the first part of 1996, and that its results and recommendations should be the subject of a report by the Director General to the Governing Bodies at their September/October 1996 sessions.

Trademark Law Treaty (TLT)

1096. The TLT was open for signature at WIPO from October 28, 1994, to October 27, 1995. By the latter date, it had been signed by the following 50 States and one intergovernmental

organization: AUSTRIA, BELARUS, BELGIUM, BOSNIA AND HERZEGOVINA, CHINA, COSTA RICA, CÔTE D'IVOIRE, CUBA, CYPRUS, CZECH REPUBLIC, DENMARK, DOMINICAN REPUBLIC, FINLAND, FRANCE, GABON, GERMANY, GREECE, HUNGARY, INDONESIA, ISRAEL, ITALY, KENYA, LATVIA, LIECHTENSTEIN, LITHUANIA, LUXEMBOURG, MALTA, MEXICO, MONACO, MOROCCO, NETHERLANDS, POLAND, PORTUGAL, REPUBLIC OF MOLDOVA, RUSSIAN FEDERATION, SENEGAL, SLOVAKIA, SLOVENIA, SOUTH AFRICA, SPAIN, SWAZILAND, SWEDEN, SWITZERLAND, TOGO, TRINIDAD AND TOBAGO, TURKEY, UKRAINE, UNITED KINGDOM, UNITED STATES OF AMERICA, URUGUAY, European Communities.

1097. This Treaty will enter into force three months after five States have deposited their instruments of ratification or accession. On December 31, 1995, the Treaty had been ratified by the REPUBLIC OF MOLDOVA.

1098. The Records of the Diplomatic Conference for the Conclusion of the Trademark Law Treaty, held in Geneva from October 10 to 28, 1994, were published in English in May and in French in August.

Protocol to the Berne Convention for the Protection of Literary and Artistic Works

Instrument on the Protection of the Rights of Performers and Producers of Phonograms

1099. The fifth session of the Committee of Experts on a Possible Protocol to the Berne Convention and the fourth session of the Committee of Experts on a Possible Instrument for the Protection of the Rights of Performers and Producers of Phonograms (the two Committees are hereinafter referred to as the "Committee") met jointly at the headquarters of WIPO in Geneva from September 4 to 8 and 12.

1100. Experts from the following 65 States and one intergovernmental organization, members of the Committee, attended the meeting: ALBANIA, ALGERIA, ARGENTINA, AUSTRALIA, AUSTRIA, BANGLADESH, BELGIUM, BRAZIL, BULGARIA, CAMEROON, CANADA, CHILE, CHINA, COLOMBIA, CUBA, CYPRUS, CZECH REPUBLIC, DENMARK, EGYPT, FINLAND, FRANCE, GERMANY, GHANA, GREECE, HONDURAS, HUNGARY, INDIA, INDONESIA, IRELAND, ISRAEL, ITALY, JAPAN, MALTA, MEXICO, MOROCCO, NETHERLANDS, NICARAGUA, NIGERIA, NORWAY, PAKISTAN, PARAGUAY, PERU, PHILIPPINES, POLAND, PORTUGAL, REPUBLIC OF KOREA, ROMANIA, RUSSIAN FEDERATION, SENEGAL, SINGAPORE, SLOVAKIA, SLOVENIA, SOUTH AFRICA, SPAIN, SWEDEN, SWITZERLAND, THAILAND, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, TRINIDAD AND TOBAGO, TUNISIA, TURKEY, UNITED KINGDOM, UNITED STATES OF AMERICA, URUGUAY, VENEZUELA, EC.

1101. Representatives of the following four intergovernmental organizations attended the meeting in an observer capacity: UNESCO, WTO, ILO, ASBU.

1102. Representatives of the following 68 non-governmental organizations also attended the meeting in an observer capacity: AADI, ABA, ABU, ACT, AEPO, AER, AFM, AFMA, AFTRA, AIPLA, AIPPI, ALAI, ANDI, APP, ARTIS EEIG, BIEM, BSA, CBU, CCIA, CFC, CIPA, CISAC, CRIC, EAPA, EBLIDA, EBU, ECACC, ECIS, EIA, EIAJ, EUROBIT, EWC, FIA, FIAD, FIAPF, FILAIE, FIM, IAB, IAOA, IAWG, ICC, ICMP, ICSID, IFLA, IFPI, IFRRO, IIA, IIDA, IIP, IIPA, IPA, IPO, ISETU/FISTAV, ITI, IWG, JEIDA, LIDC, MPI, NAB, NANBA, NMPA, OTI, PEARLE, SOFTIC, SPA, STM, VSDA, WFMS.

1103. In March, the Director General of WIPO had invited the governments to submit proposals to the International Bureau, in writing, containing wherever possible actual treaty language, on the subjects before the Committee. The European Community and its Member States and the Governments of ARGENTINA, AUSTRALIA and the UNITED STATES OF AMERICA submitted such proposals, which were reproduced and distributed by the International Bureau along with a comparative table presenting the various proposals and comments divided and grouped according to the issues involved.

1104. To facilitate the Committee's work, the Chairman created a Work Program (WIPO document BCP/CE/V- INR/CE/IV/INF.2) dividing the issues before the Committee into the following groupings: Berne Protocol issues, New Instrument issues, common/parallel issues. Under these three groupings, the following questions were discussed.

- (i) Berne Protocol issues: computer programs and databases; non-voluntary licenses for the sound recording of musical works; non-voluntary licenses for primary broadcasting and satellite communication; duration of the protection of photographic works; communication to the public by satellite.
- (ii) New Instrument issues: moral rights of performers; economic rights of performers in their live performances; economic rights of performers in their fixed performances, and of producers of phonograms; term of protection; formalities.
- (iii) Common/parallel issues: distribution right, importation right and rental right; the "digital agenda" (reproduction by transmission, transmission right, digital transmission "on-demand"); possible sui generis rights for non-original databases; enforcement of rights and national treatment.

1105. The Committees adopted the following decisions concerning their future work:

"(1) The Director General should invite the government members of the Committees and the European Commission to send to the International Bureau by November 27, 1995, proposals in treaty language on subjects under consideration, other than protection of computer programs and original databases, to be circulated by the International Bureau as working documents for consideration at the next meetings of the Committees.

(2) The next meetings of both Committees should take place from January 11 to 19, 1996.

(3) The competent Governing Body of WIPO should be convened after the meetings of the two Committees in January 1996, should the work be sufficiently advanced, to decide on the convocation and date of one or more Diplomatic Conferences for the conclusion of the appropriate treaties.”

1106. At the September/October meetings of the Governing Bodies, it was decided that the WIPO budget for the 1996-97 biennium would include regional consultation meetings for developing countries as part of the preparatory work on the possible Protocol to the Berne Convention and possible new Instrument. The first such meeting (namely, the WIPO Regional Consultation Meeting for the Asian and Pacific Region on a Possible Protocol to the Berne Convention and on a Possible New Instrument for the Protection of the Rights of Performers and Producers of Phonograms and on the Legal Protection of Folklore) was held in Denpasar (Indonesia) in December (for more details, see paragraph 312).

International Registration of Geographical Indications

1107. A Symposium on the International Protection of Geographical Indications was held in Melbourne (Australia) on April 5 and 6. It was organized by WIPO in cooperation with the Government of AUSTRALIA and the Victorian Wine Industry Association (Melbourne).

1108. The Symposium was attended by some 120 participants from AUSTRALIA, BELGIUM, BRUNEI DARUSSALAM, CHINA, CROATIA, the CZECH REPUBLIC, FRANCE, the GAMBIA, GERMANY, HUNGARY, INDONESIA, LATVIA, MONACO, NEW ZEALAND, NORWAY, PORTUGAL, the REPUBLIC OF KOREA, SINGAPORE, SLOVENIA, SOUTH AFRICA, SPAIN, SWAZILAND, SWITZERLAND, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, the UNITED KINGDOM (HONG KONG), the UNITED STATES OF AMERICA, ZAMBIA, EC, OIV, AIPPI, FICPI and LAWASIA.

1109. Current questions concerning the protection of geographical indications at the national and international levels were dealt with, in particular the relationship between the protection of geographical indications and the protection of trademarks. Presentations were made by 10 WIPO consultants from Australia, Belgium, Brazil, France, the United Kingdom and the United States of America. Two WIPO officials participated in the Symposium.

Patent Law Treaty

1110. A Meeting of Non-Governmental Organizations Concerning the Patent Law Treaty (PLT) was held at the headquarters of WIPO on February 9, on the initiative of the International Federation of Industrial Property Attorneys (FICPI). The meeting was intended to provide non-governmental organizations that had participated in the first part of the Diplomatic Conference in 1991 with the opportunity to discuss their views regarding further preparations for the second part of the said Conference.

1111. The following eight non-governmental organizations were represented at the meeting: AIPPI, APAA, EPI, FICPI, ICC, JIPA, JPAA, UNICE.

1112. The representatives of the non-governmental organizations which were present at the meeting agreed to a common recommendation confirming their support for the PLT, and underlining the importance and need to continue the discussions and keep up the momentum of this work. They considered that the basis for continued discussions on the PLT should be the “basic proposal” as it stood, without any further deletions, after the conclusion of the first part of the Diplomatic Conference held in The Hague in June 1991 and the decision of the Paris Union Assembly in September 1992 to recommend to the Diplomatic Conference the deletion of certain articles.

1113. A Consultative Meeting for the Further Preparation of the Diplomatic Conference for the Conclusion of the Patent Law Treaty was held in Geneva from May 8 to 11.

1114. The following 97 States members of WIPO and/or the United Nations were present: ALGERIA, ARGENTINA, AUSTRALIA, AUSTRIA, AZERBAIJAN, BAHRAIN, BANGLADESH, BELARUS, BELGIUM, BHUTAN, BOLIVIA, BRAZIL, BURKINA FASO, CAMEROON, CANADA, CHILE, CHINA, COLOMBIA, CONGO, CÔTE D’IVOIRE, CUBA, CZECH REPUBLIC, DEMOCRATIC PEOPLE’S REPUBLIC OF KOREA, DENMARK, ECUADOR, EGYPT, EL SALVADOR, ESTONIA, ETHIOPIA, FINLAND, FRANCE, GABON, GEORGIA, GERMANY, GHANA, GUATEMALA, GUINEA, HONDURAS, HUNGARY, INDIA, INDONESIA, IRAN (ISLAMIC REPUBLIC OF), IRELAND, ISRAEL, ITALY, JAPAN, JORDAN, KENYA, LAOS, LATVIA, LEBANON, LESOTHO, LIBYA, LITHUANIA, MALAWI, MALI, MALTA, MEXICO, MONGOLIA, MOROCCO, NETHERLANDS, NORWAY, PAKISTAN, PANAMA, PARAGUAY, PERU, PHILIPPINES, POLAND, PORTUGAL, REPUBLIC OF KOREA, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, SAINT LUCIA, SENEGAL, SLOVAKIA, SLOVENIA, SOUTH AFRICA, SPAIN, SUDAN, SWAZILAND, SWEDEN, SWITZERLAND, TAJIKISTAN, THAILAND, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, TOGO, TRINIDAD AND TOBAGO, TURKEY, TURKMENISTAN, UKRAINE, UNITED ARAB EMIRATES, UNITED KINGDOM, UNITED STATES OF AMERICA, URUGUAY, VENEZUELA, ZIMBABWE.

1115. The following five intergovernmental organizations and 19 non-governmental organizations participated as observers: WTO, CEC, OAPI, OAU, EPO and ABA, AIPLA, AIPPI, APAA, ATRIP, CASRIP, CIPA, CNCPI, CNIPA, EPI, FICPI, ICC, JIPA, JPAA, MPI, NYIPLA, PIPA, UEPIP, UNICE.

1116. The Delegation of the United States of America declared in essence that it could support neither the continuation of the diplomatic conference on the PLT (which started in 1991) nor the continuation of negotiations on the basis of the so-called “basic proposal” which was before that diplomatic conference. Many delegations said that they would like to continue discussions on the basis of the “basic proposal.”

1117. After a thorough discussion, the Consultative Meeting unanimously adopted the following recommendation:

“The Consultative Meeting,

Considering that, in the absence of consensus on the basic proposal that was before the diplomatic conference in The Hague in 1991, a continuation of that conference may either not be the best approach or not be opportune,

Believing that harmonization of patent laws on a number of subjects is of the utmost benefit for patent protection of inventions,

Recommends to the Director General of WIPO to seek decisions from the September 1995 session of the General Assembly of WIPO and the Assembly of the Paris Union on another approach for promoting harmonization, particularly of matters concerning the formalities of national and regional patent applications including matters such as signatures, changes in names and addresses, change in ownership, correction of mistakes, observations in case of intended refusal, representation, address for service, contents of at least the request part of the application, and use of model international forms, and that two or more sessions of a committee of experts to discuss such matters should be organized by WIPO before the September 1997 sessions of the said Assemblies,

Is of the view that the question of having a diplomatic conference, with what agenda and when, should be considered in the said sessions of the said Assemblies.”

1118. The Committee of Experts on the Patent Law Treaty held its first session at the headquarters of WIPO in Geneva from December 11 to 15.

1119. The following 67 States members of WIPO and/or the Paris Union were represented at the session: ARGENTINA, AUSTRALIA, AUSTRIA, AZERBAIJAN, BELARUS, BELGIUM, BRAZIL, BULGARIA, CANADA, CHILE, CHINA, COLOMBIA, CROATIA, CUBA, CZECH REPUBLIC, DENMARK, DOMINICAN REPUBLIC, ECUADOR, EGYPT, EL SALVADOR, ESTONIA, FINLAND, FRANCE, GERMANY, HUNGARY, INDIA, INDONESIA, IRAN (ISLAMIC REPUBLIC OF), IRELAND, ISRAEL, ITALY, JAPAN, KENYA, MALAWI, MALI, MALTA, MEXICO, MONACO, MOROCCO, NETHERLANDS, NEW ZEALAND, NIGERIA, NORWAY, PARAGUAY, PERU, PHILIPPINES, PORTUGAL, REPUBLIC OF KOREA, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, SENEGAL, SINGAPORE, SLOVAKIA, SLOVENIA, SOUTH AFRICA, SPAIN, SWEDEN, SWITZERLAND, THAILAND, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, TRINIDAD AND TOBAGO, TURKEY, UKRAINE, UNITED KINGDOM, UNITED STATES OF AMERICA, VIET NAM.

1120. Representatives of four intergovernmental organizations (EC, EPO, OAU, WTO) and 24 non-governmental organizations (ABA, AIPLA, AIPPI, ASPIP, BDI, CASRIP, CIPA, CNCPI, CNIPA, CONOPA, EPI, FCPA, FICPI, IBA, ICC, IIPA, JIPA, JPAA, LIDC, MPI, NYIPLA, PIPA, UEPIP, UNICE) took part in the session in an observer capacity.

1121. All delegations underlined the importance of the harmonization of patent law and expressed their interest in the work of the Committee of Experts.

1122. The draft Treaty prepared by the International Bureau was comprised of nine Articles, entitled: Abbreviated Expressions, Application, Representation; Address for Service,

Signature, Request for Recordal of Change in Name or Address, Request for Recordal of Change in Ownership, Request for Correction of a Mistake, Opportunity to Make Observations, Amendments and Corrections in Case of Intended Refusal, Regulations. The Regulations were comprised of five Rules, entitled: Abbreviated Expressions, Manner of Indicating Names and Addresses, Details Concerning Representation, Details Concerning the Signature, Manner of Identification of an Application Without Its Application Number. In addition, the Committee of Experts reviewed six Model International Forms which were prepared on the following subjects: Application for the Grant of a Patent, Power of Attorney, Request for Recordal of Change(s) in Name(s) or Address(es), Request for Recordal of a Change in Ownership, Certificate of Transfer, Request for Correction of Mistake(s).

1123. Discussions were based on three working documents prepared by the International Bureau and entitled "Draft Patent Law Treaty and Draft Regulations," "Model International Forms" and "Notes."

1124. In general, the Committee of Experts was in favor of the draft Treaty, subject to several suggestions for improvement. In addition to suggestions concerning the provisions already contained in the draft Treaty, there were recommendations relating to the inclusion of additional items in the maximum list of allowable requirements for the request part of a patent application.

1125. As regards future work, the draft Treaty and the draft Regulations would be revised and expanded in light of the discussions of the first session. The Committee of Experts would hold two sessions in 1996. One session would be held from June 17 to 21, that is, before the meetings of the WIPO Governing Bodies, and the other from November 18 to 22, after those meetings. The next draft would include provisions relating to the filing date of an application and unity of invention. The Committee of Experts would have an opportunity to discuss, during its June session, which additional topics, if any, should be included in the preparatory documents for the November session. Any such suggestions would then be referred to the Governing Bodies for decision.

Voluntary International Numbering System for Certain Categories of Literary and Artistic Works and for Phonograms

1126. A Consultation Meeting on the Establishment of a Voluntary International Numbering System for Certain Categories of Literary and Artistic Works and for Phonograms was convened by WIPO on March 21, in Geneva.

1127. The following 16 international non-governmental organizations were represented: AEPO, AFMA, ALCS, APP, ARTIS EEIG, CISAC, EBU, FIA, FIAPF, FIM, ICMP, IFRRO, IPA, IPCC, ISO, STM.

1128. The purpose of the meeting was to give advice to the International Bureau on how preparatory work on a voluntary international numbering system should be continued and what other related measures might be necessary to ensure the appropriate protection and management of copyright and neighboring rights in the digital environment.

1129. There was agreement among the participants that work should continue on the establishment of a voluntary international numbering system and that more consultation meetings should be held in the future, involving a broader circle of interested parties, including users of numbering systems and also extending to other aspects of electronic copyright management systems. The meeting also recommended the setting up of a Standing Advisory Committee on the Intellectual Property Aspects of the Global Information Infrastructure, to cover various aspects, such as internationally harmonized legal rules and their application at the national level, computerized internationally harmonized systems for the identification of protected subject matter, internationally harmonized monitoring of the use of subject matter protected by copyright or other kinds of intellectual property, and internationally coordinated management and enforcement of rights.

1130. A WIPO Consultation Forum for Non-Governmental Organizations on the Protection and Management of Copyright and Neighboring Rights in Digital Systems was convened by WIPO on June 23, in Geneva.

1131. The following 17 international non-governmental organizations were represented: AEPO, APP, ARTIS-EEIG, BSA, CISAC, EBU, FIA, FIAPF, FIM, GESAC, ICMP, IFRRO, IPA, ISO, IVF, LX Internacional, STM.

1132. Representatives were provided the opportunity to discuss and share information concerning Source IDentification (SID) codes for the protection of compact discs, combinations of identifying numbers and databases, voluntary registration and deposit systems, possibly in conjunction with an on-line service, and possible legal regulation at the national and international levels regarding technical means for the protection of rights and management of copyright information in the digital environment. It was agreed that the next meeting of the Forum on this matter would not be set until after the joint sessions of the Committees of Experts meeting in September on a possible Protocol to the Berne Convention and a possible New Instrument for the Protection of Performers and Producers of Phonograms. The Forum was however of the opinion that, at its next meeting, the source and techniques of licensing multimedia productions should be one of the items on the agenda.

EXPLORATION OF INTELLECTUAL PROPERTY QUESTIONS IN POSSIBLE NEED OF NORM SETTING

Objective

1133. The objective is to create awareness of some of the topical questions in the field of intellectual property which do not seem to have found, in most countries, a satisfactory solution.

ActivitiesWell-Known Marks

1134. The Committee of Experts on Well-Known Marks held its first session in Geneva from November 13 to 16.

1135. The following 65 States members of WIPO and/or the Paris Union were represented at the session: ARGENTINA, AUSTRALIA, AUSTRIA, BELARUS, BELGIUM, BOLIVIA, BRUNEI DARUSSALAM, BULGARIA, CAMEROON, CANADA, CHINA, COLOMBIA, CÔTE D'IVOIRE, CROATIA, CUBA, DENMARK, EGYPT, EL SALVADOR, ESTONIA, FINLAND, FRANCE, GERMANY, GHANA, HONDURAS, HUNGARY, INDIA, INDONESIA, IRAN (ISLAMIC REPUBLIC OF), IRAQ, IRELAND, ITALY, JAPAN, KAZAKSTAN, KENYA, LATVIA, LESOTHO, LITHUANIA, MALAWI, MALAYSIA, MAURITIUS, MONACO, MOROCCO, NETHERLANDS, NORWAY, PERU, PHILIPPINES, PORTUGAL, REPUBLIC OF KOREA, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, RWANDA, SENEGAL, SLOVAKIA, SLOVENIA, SOUTH AFRICA, SPAIN, SWEDEN, SWITZERLAND, THAILAND, TURKEY, UNITED KINGDOM, UNITED STATES OF AMERICA, URUGUAY, VENEZUELA. The European Communities were also represented.

1136. Representatives of two intergovernmental organizations (BBM, OAPI) and 18 non-governmental organizations (AIM, AIPPI, APAA, ASPIP, ECACC, ECTA, FICPI, ICC, INTA, IWLA, JIPA, JPAA, JTA, LIDC, MPI, UEPIP, UNICE, UNIFAB) took part in the session in an observer capacity.

1137. Discussions were based on a document entitled "Protection of Well-Known Marks: Results of the Study by the International Bureau and Prospects for Improvement of the Existing Situation." This document was drawn up on the basis of a study by five consultants from China, Hungary, Japan, Spain and the United Kingdom which had been commissioned by the International Bureau in 1994, and was completed in the first half of 1995.

1138. The Committee of Experts considered the following questions: definition of well-known marks, more effective protection of well-known marks and lists of well-known marks.

Unfair Competition

1139. The International Bureau's study on the Protection Against Unfair Competition, already available in English, French and Spanish, was published in Russian in April. The study, which consisted of an analysis of the present world situation, addressed the need and legal basis for protection against unfair competition at the international and national levels, gave detailed definitions of the acts of unfair competition and described the existing systems of enforcement of the protection (by civil, criminal and administrative sanctions).

1140. The International Bureau also prepared draft model provisions on protection against unfair competition which were submitted to a group of four consultants from Japan, the Netherlands, Switzerland and the United States of America in a meeting convened by WIPO in

Geneva from January 17 to 19. The draft, revised according to the discussions held by the group, was sent by correspondence to the consultants in June for their comments.

WIPO Worldwide Symposium on Copyright in the Global Information Infrastructure

1141. From May 22 to 24, WIPO organized that Seminar, in cooperation with the Secretariat of Public Education of MEXICO, in Mexico City.

1142. The purpose of the Symposium was to provide a high-level, open, international forum for the exchange of ideas on the impact of digital technology on copyright.

1143. The Symposium was opened by the Director General of WIPO, who also acted as moderator at some working sessions, and by the Secretary of Public Education of MEXICO. Six hundred participants from both the government and private sectors of many countries in Latin America and other regions attended the Symposium. Discussions were based on papers presented by 24 invited speakers who were leading international experts in one or more aspects of the protection, exercise and enforcement of copyright and neighboring rights; they came from Argentina, Brazil, Canada, Chile, Colombia, Germany, Japan, Mexico, Spain, the United Kingdom, the United States of America, Venezuela, the Commission of the European Communities (CEC) and WIPO.

WIPO World Forum on the Protection of Intellectual Creations in the Information Society

1144. From October 18 to 20, WIPO organized that Forum in Naples, in cooperation with the Presidency of the Council of Ministers and the Ministry of Foreign Affairs of ITALY, with the assistance of the Italian Society of Authors and Publishers (SIAE).

1145. The purpose of the Forum was to: (i) discuss the need for new international norms in response to the challenges of digital technology; (ii) deal with the practical aspects of the protection and management of copyright and neighboring rights in a digital environment; (iii) review issues of private international law emerging as a result of the growing contradictions between the traditional principle of territoriality of copyright and neighboring rights and the transborder and global nature of international digital networks.

1146. Three hundred participants from government and private sectors, non-governmental organizations and academic circles of 40 countries attended the Forum, as well as a large number of local participants. There were five working sessions during which the members of various panels were invited by the moderators to give their views on topical questions and to participate in the ensuing debate with the audience. The panelists came from China, Egypt, France, Israel, Italy, Japan, the Netherlands, Sweden, the United States of America and the Commission of the European Communities (CEC), and from nine non-governmental organizations.

1147. The Forum was opened by the Director General of WIPO, who also acted as moderator in the second working session, the Mayor of Naples and the Deputy Minister of Labor.

1148. Keynote speeches were delivered in the first working session by a government official and two representatives of industry and filming, respectively. The other four working sessions dealt with the following themes: (i) norm-setting at the national and international levels; (ii) the exercise and enforcement of rights; (iii) private international law aspects of the global information infrastructure ; (iv) a review of WIPO's activities in the field of international harmonization of the protection and management of copyright.

WIPO ARBITRATION CENTER

Objective

1149. The Center offers to administer the procedures of mediation, arbitration and expedited arbitration for resolving intellectual property disputes to private parties who may, on a voluntary basis, wish to submit disputes to any of the procedures. The procedures are designed on the basis of, and in response to, current international developments in the area of extra-judicial dispute settlement. The Center makes available model contract clauses for recourse to the procedures and Rules governing the implementation of such procedures, pursuant to which it appoints, when the parties do not themselves agree on the persons to be appointed, mediators and arbitrators, and provides administrative support services for such procedures.

Activities

1150. On January 20, WIPO organized a Conference on Rules for Institutional Arbitration and Mediation at its headquarters in Geneva jointly with the Swiss Arbitration Association (ASA).

1151. The Conference was attended by 230 participants from the following 32 countries: ALGERIA, AUSTRIA, BAHRAIN, BELGIUM, CAMEROON, CROATIA, CZECH REPUBLIC, DENMARK, EGYPT, FRANCE, GERMANY, GREECE, HUNGARY, ISRAEL, ITALY, JAPAN, LUXEMBOURG, MOROCCO, NETHERLANDS, PAKISTAN, PORTUGAL, REPUBLIC OF KOREA, ROMANIA, RUSSIAN FEDERATION, SPAIN, SWEDEN, SWITZERLAND, UKRAINE, UNITED ARAB EMIRATES, UNITED KINGDOM, UNITED STATES OF AMERICA, YUGOSLAVIA. Among the participants were representatives from nine arbitration institutions.

1152. The purpose of the Conference was to examine the WIPO Mediation, Arbitration and Expedited Arbitration Rules, which became effective on October 1, 1994, in relation to the corresponding rules of other arbitration institutions, and to explain in what respects the WIPO Rules contained new or different approaches and why those approaches had been adopted. The speakers were the members of an expert group that was responsible for the preparation of the drafts of the WIPO Rules.

1153. On May 17 and 18 and May 19 and 20, respectively, WIPO organized two Training Programs on Mediation in Intellectual Property Disputes in Geneva.

1154. The first program was attended by 26 and the second by 31 participants. Those participants, representing arbitration institutes and industry, attorneys, patent and trademark agents or academics, came from the Americas, Asia and Europe. Three WIPO consultants from the United States of America and WIPO officials conducted the programs.

1155. Following those programs, an informal WIPO Mediation Interest Group was constituted by a number of participants in the said programs, with a view to promoting the use of mediation and practicing the mediation techniques. The Group met for the first time at WIPO on June 27. It was attended by eight participants and two WIPO officials.

1156. On November 15, the WIPO Arbitration Council held its second meeting at the headquarters of WIPO in Geneva. It was attended by five members of the Council. The Council reviewed the activities of the WIPO Arbitration Center that had taken place since its last meeting in September 1994. It also studied a draft proposal to introduce an emergency interim arbitral procedure, designed to make available interim relief such as a preliminary injunction, on an emergency basis, to parties wishing to avail themselves of such a facility. Pursuant to the proposed procedure, a standby panel of arbitrators would be constituted, who would be available for appointment on 24-hour notice, for the purpose of hearing an application for emergency interim relief. The Council made several observations on the draft proposal, which will be revised accordingly and will then be made available for comments from interested parties.

1157. WIPO Arbitration Consultative Commission. The WIPO Arbitration Consultative Commission was established by the Director General of WIPO in September 1994. Its function is to give opinions and advice to the WIPO Arbitration Center on non-routine issues in respect of which the Center is required to take a decision in the course of the administration of an arbitration, notably the challenge, release or replacement of an arbitrator and special questions concerning fees. The Commission had 39 members from 26 countries as of December 31.

1158. Arbitrators and Mediators. In 1995, the International Bureau received offers from specialists to serve as WIPO arbitrator or mediator for the WIPO Arbitration Center. The lists of WIPO arbitrators and mediators comprised, on December 31, some 530 persons from 52 countries, details of whose professional experience, qualifications and specializations are entered in a database.

1159. Promotion Meetings With Intergovernmental, Non-Governmental and Other Organizations. In 1995, the WIPO Arbitration Center was presented by WIPO officials in meetings held in Brussels, Chicago, Geneva, Ithaca, London, New Delhi, New York, Paris, San Francisco, Stockholm, Sydney, Washington, D.C., and Zurich.

1160. Publications. The WIPO Arbitration Center - Introductory Information, already available in English, French and Spanish, was published in Japanese in February and in Arabic in June. The WIPO Mediation Rules, Arbitration Rules, Expedited Arbitration Rules, already available in English, French and Spanish, were published in Arabic in July.

PERIODICALS, COLLECTION OF LAWS, STATISTICS

Objective

1161. The objective is to increase and spread general knowledge about developments in the field of intellectual property, and, in particular, about the legislation, frequency of use and practical administration of intellectual property. Such knowledge is useful, if not essential, to all those concerned with intellectual property.

ActivitiesPeriodicals and Other Publications

1162. Periodicals. From January, the official reviews of WIPO, Industrial Property and Copyright were merged into a single review under the title Industrial Property and Copyright. The French and Spanish editions of the new combined review had the titles La Propriété industrielle et le Droit d'auteur and Propiedad Industrial y Derecho de Autor. The English and French editions were published each month, while the Spanish edition was published every two months.

1163. The most important new texts contained in WIPO's collections of intellectual property legislation (international, bilateral and national, in the original languages and available English and/or French translations) were published in English and French in the corresponding language editions of the above-mentioned reviews.

1164. The published legislation was also included in the IPLEX annual series of quarterly CD-ROMs. The series further contained a "Treaties and Legislation" file, a "Ratification Situation" file and a "Glossary" file, and is provided with a search software, allowing for simultaneous display of texts in two languages on the screen, in English and French, and, where available, in Spanish and in German. Three discs of the series were issued in April, September and December (the latter contained 493 legislative texts from 61 countries). Each new disc replaced the previous one. On December 31, there were some 100 subscriptions to the series.

1165. The periodicals described below were published under the registration treaties: the PCT Gazette, published weekly in English and French since January, contained bibliographic data and an abstract of each published international application under the PCT. All international trademark registrations under the Madrid Agreement as well as related information were published monthly in French only in Les Marques internationales, within two months from registration. The industrial designs deposited under the Hague Agreement were published monthly in the bilingual English/French periodical International Designs Bulletin/Bulletin des dessins et modèles internationaux.

1166. Other publications. Special publications of the proceedings of certain symposiums or seminars, particularly those that are of interest to developing countries, as well as guides and manuals were also issued in the course of the period under review.

1167. The new (1995) edition of the WIPO General Information brochure was issued in Arabic, Chinese, English, French, German, Japanese, Portuguese, Russian and Spanish during the period under review.

1168. The CD-ROM Newsletter, which was issued in April in English and French, gave up-to-date information on WIPO publications in CD-ROM form. Those WIPO publications on CD-ROMs are listed in Annex D to this report.

1169. Annotated lists of selected forthcoming WIPO meetings and bimonthly bibliographic lists of printed materials newly acquired by the WIPO Library were also regularly issued.

1170. Sale and Distribution of WIPO Publications. In 1995, new WIPO publications and reprints or updates of existing ones in various language versions were made available to the public by the Publications Sales and Distribution Unit. The new publications and reprints are listed in Annex D to this report.

1171. Not counting the periodicals and the publications on CD-ROMs, a total of over 150 titles in English were available from the above-mentioned Unit. In addition to English, many of these publications were available in one or more of the following languages: Arabic, Chinese, French, German, Italian, Portuguese, Russian and Spanish. A new (1995) edition of the WIPO Catalogue of Publications, in which WIPO publications were listed, was published in English in March and in French in August. In 1995, some 40 new titles were published.

1172. The Organization's reviews and periodicals were sent to the States party to the treaties administered by WIPO on an official basis and on the basis of the provisions of the relevant treaties and their implementing regulations. WIPO periodicals were also distributed to interested intergovernmental and international non-governmental organizations and sold on a subscription basis to interested circles and persons. WIPO publications were sent free of charge on a selected basis to governmental institutions and officials in developing countries and a discount of 20% was offered to government departments and officials as well as universities and booksellers.

1173. WIPO also sold and distributed several manuals and guides with updating services as, for example, the Directory of National and Regional Industrial Property Offices, the Directory of National Copyright Administrations and the PCT Applicant's Guide.

Public Information

1174. In 1995, presentations on WIPO and its activities, in general or related to specific topics, were given by WIPO officials to organized groups visiting the Organization's headquarters. Such groups included, in particular, government officials, diplomats, university students and industry representatives from various countries. Informational materials on WIPO, both of general or specialized interest, were provided to requesting members of the public and special-interest organizations and institutions, either upon individual requests or at meetings, information fairs and congresses attended by WIPO officials.

1175. Interviews were given by the Director General and WIPO officials to newspaper, journal, television and radio correspondents in various countries, mostly while attending meetings organized by WIPO or while on mission.

DOCUMENTATION AND INFORMATION ACTIVITIES OF INDUSTRIAL PROPERTY OFFICES

Objective

1176. The objective is to encourage and institute close cooperation among national and regional industrial property offices, and among such offices and the International Bureau, in all matters concerning patent, trademark and industrial design documentation and information, including in particular the standardization of the form of documents and document carriers and of the indexing and classifying of patent documents, all this in order to facilitate the retrieval of the information contained in patent documents, the establishment of the state of the art and the searching for the purposes of patent examination. Those activities are planned and monitored by the WIPO Permanent Committee on Industrial Property Information (PCIPI).

Activities

WIPO Permanent Committee on Industrial Property Information (PCIPI)

Membership

1177. The WIPO Permanent Committee on Industrial Property Information (PCIPI) consists of the States members of the Paris Union which have informed the Director General of their desire to be members and of the States members of the PCT and IPC Unions. The following intergovernmental organizations are also members: ARIPO, BBDM, BBM, EPO, OAPI.

1178. In 1995, ALBANIA, AZERBAIJAN, PERU, TURKEY, TURKMENISTAN and VENEZUELA became members of the PCIPI. This new membership brought the number of members to 112 as of December 31, 1995: ALBANIA, ALGERIA, ARGENTINA, ARMENIA, AUSTRALIA, AUSTRIA, AZERBAIJAN, BARBADOS, BELARUS, BELGIUM, BENIN, BOLIVIA, BRAZIL, BULGARIA, BURKINA FASO, CAMEROON, CANADA, CENTRAL AFRICAN REPUBLIC, CHAD, CHILE, CHINA, CONGO, CÔTE D'IVOIRE, CROATIA, CUBA, CYPRUS, CZECH REPUBLIC, DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA, DENMARK, DOMINICAN REPUBLIC, EGYPT, ESTONIA, FINLAND, FRANCE, GABON, GEORGIA, GERMANY, GHANA, GREECE, GUINEA, HONDURAS, HUNGARY, ICELAND, IRAN (ISLAMIC REPUBLIC OF), IRELAND, ISRAEL, ITALY, JAPAN, KAZAKSTAN, KENYA, KYRGYZSTAN, LATVIA, LESOTHO, LIBERIA, LIECHTENSTEIN, LITHUANIA, LUXEMBOURG, MADAGASCAR, MALAWI, MALAYSIA, MALI, MAURITANIA, MEXICO, MONACO, MONGOLIA, MOROCCO, NETHERLANDS, NEW ZEALAND, NIGER, NORWAY, PERU, PHILIPPINES, POLAND, PORTUGAL, REPUBLIC OF KOREA, REPUBLIC OF MOLDOVA, ROMANIA,

RUSSIAN FEDERATION, RWANDA, SENEGAL, SINGAPORE, SLOVAKIA, SLOVENIA, SPAIN, SRI LANKA, SUDAN, SURINAME, SWAZILAND, SWEDEN, SWITZERLAND, TAJIKISTAN, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, TOGO, TRINIDAD AND TOBAGO, TUNISIA, TURKEY, TURKMENISTAN, UGANDA, UKRAINE, UNITED KINGDOM, UNITED REPUBLIC OF TANZANIA, UNITED STATES OF AMERICA, UZBEKISTAN, VENEZUELA, VIET NAM, YUGOSLAVIA, ZAMBIA, ARIPO, BBDM, BBM, EPO, OAPI.

1179. On December 31, 1995, the following three States had observer status in the PCIPI: COLOMBIA, INDIA, YEMEN. Four international organizations (EC, FICPI, FID, PDG) and the journal World Patent Information (WPI) also had observer status in the PCIPI.

Meetings

1180. The WIPO Permanent Committee on Industrial Property Information (PCIPI) held its fifth session in Geneva on September 26. The following 40 members of the Permanent Committee were represented at the session: AUSTRIA, BELARUS, BRAZIL, CANADA, CROATIA, CUBA, CYPRUS, CZECH REPUBLIC, DENMARK, EGYPT, FINLAND, FRANCE, GERMANY, GREECE, HUNGARY, ICELAND, IRELAND, JAPAN, KENYA, LATVIA, LITHUANIA, MALAWI, MEXICO, MONGOLIA, MOROCCO, NETHERLANDS, PORTUGAL, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, SENEGAL, SLOVAKIA, SLOVENIA, SPAIN, SWEDEN, SWITZERLAND, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, UNITED KINGDOM, UNITED STATES OF AMERICA, OAPI. The CEC and the PDG were represented by observers.

1181. The Permanent Committee approved the draft report of the Director General on its activities between July 1, 1993, and June 30, 1995, and unanimously endorsed his proposal for the PCIPI policy in the 1996-97 biennium which had been suggested by the PCIPI Executive Coordination Committee (PCIPI/EXEC), i.e., that the PCIPI should focus on ways and means to facilitate the international exchange of industrial property information, harmonize practices by industrial property offices in respect of procedures on electronic data carriers and address adequately the problems arising from the general trend of information technology.

1182. The PCIPI ad hoc Working Group on the Management of Industrial Property Information (PCIPI/MI) held its fifteenth session in Washington, D.C., from March 13 to 17. The following 22 members of the Working Group were represented at the session: AUSTRALIA, CANADA, CZECH REPUBLIC, DENMARK, FINLAND, FRANCE, GERMANY, HUNGARY, JAPAN, MEXICO, NETHERLANDS, NORWAY, POLAND, PORTUGAL, RUSSIAN FEDERATION, SLOVENIA, SPAIN, SWEDEN, SWITZERLAND, UNITED KINGDOM, UNITED STATES OF AMERICA, EPO. The PDG and the journal WPI were represented by observers.

1183. The Working Group discussed and approved the draft text of a "Statement of Principles" to govern the changeover from the use of paper to electronic data carriers for the exchange of patent documents. The Working Group also discussed finalization of the guidelines concerning specific technical requirements to be annexed to the said Statement.

1184. The PCIPI/MI held its sixteenth session in Geneva from May 15 to 19. The following 38 members of the Working Group were represented at the session: ALGERIA, AUSTRIA, BRAZIL, BULGARIA, CANADA, CHINA, CZECH REPUBLIC, DENMARK, EGYPT, FINLAND, FRANCE, GERMANY, HONDURAS, HUNGARY, IRELAND, JAPAN, KENYA, MEXICO, MOROCCO, NETHERLANDS, PHILIPPINES, POLAND, PORTUGAL, REPUBLIC OF KOREA, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, SLOVAKIA, SLOVENIA, SPAIN, SWEDEN, SWITZERLAND, TOGO, UNITED KINGDOM, UNITED STATES OF AMERICA, VIET NAM, EPO, OAPI. PERU, SENEGAL, the PDG and the journal WPI were represented by observers.

1185. The Delegation of the EPO informed the participants on the progress of the Electronic Application SYstem (EASY) project for the electronic filing of patent applications, and on the development of mixed-mode CD-ROM software under the MIXed-MOde Software Application (MIMOSA) project. The Delegation of Japan provided details on developments in the field of automation in the JPO, including the production of the new mixed-mode PAJ (Patent Abstracts of Japan) CD-ROM using MIMOSA software.

1186. The Working Group recommended the creation of a new task to monitor the changeover to CD-ROM by the PCIPI members and to determine new sets of technical guidelines as appropriate.

1187. The PCIPI/MI held its seventeenth session in Geneva from November 20 to 24. The following 30 members of the Working Group were represented at the session: ALGERIA, BRAZIL, BULGARIA, CANADA, CROATIA, CZECH REPUBLIC, DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA, DENMARK, FINLAND, FRANCE, GERMANY, HUNGARY, IRELAND, JAPAN, MOROCCO, NETHERLANDS, NORWAY, POLAND, PORTUGAL, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, SLOVENIA, SPAIN, SWAZILAND, SWEDEN, SWITZERLAND, UNITED KINGDOM, UNITED STATES OF AMERICA, EPO. CHILE, MALAWI, the PDG and the journal WPI were represented by observers.

1188. The Working Group received a progress report from the Delegation of the EPO on the EASY project for the electronic filing of patent applications and the mixed-mode CD-ROM software under the MIMOSA project. Details were provided by the Delegation of Japan on the progress in the production of the new mixed-mode PAJ CD-ROM using the MIMOSA software.

1189. The Working Group received information on a survey, conducted by the International Bureau, of practical questions associated with downloading of data from CD-ROMs in the context of library use, agreed on the importance of the task and recommended the continued monitoring of that information.

1190. Finally, the Working Group was provided with updated information by the Delegations of the Russian Federation and the United States of America on the steps being taken in their respective industrial property offices towards the implementation of the Statement of Principles relating to a changeover from paper to CD-ROM for the exchange of patent documents.

1191. The PCIPI Working Group on General Information (PCIPI/GI) held its fourteenth session in Geneva from April 3 to 7. The following 24 members of the Working Group were represented at the session: BELARUS, BULGARIA, CANADA, CROATIA, DENMARK, FINLAND, FRANCE, GERMANY, HUNGARY, JAPAN, MEXICO, NETHERLANDS, NORWAY, POLAND, PORTUGAL, REPUBLIC OF KOREA, ROMANIA, RUSSIAN FEDERATION, SPAIN, SWEDEN, SWITZERLAND, UNITED KINGDOM, UNITED STATES OF AMERICA, EPO. The PDG was represented by observers.

1192. The Working Group agreed on a revised text of WIPO Standard ST.9 (Recommendation Concerning Bibliographic Data on and Relating to Patents and SPCs) including the creation of some new INID (Internationally agreed Numbers for the Identification of (bibliographic) Data) codes, in order to cover the data elements relating to "supplementary protection certificates" (SPCs) for medicinal products or to equivalent industrial property rights.

1193. The Working Group also approved the revised wording of WIPO Standard ST.3 (Recommended Standard on Two-Letter Codes for the Representation of States, Other Entities and Intergovernmental Organizations), which provided, in a single list, two-letter alphabetical codes for any use requiring the identification of States, other entities and intergovernmental organizations. The revised Standard aimed at improving access to industrial property information.

1194. Furthermore, the Working Group discussed a draft WIPO recommendation for a new numbering system for patents, utility models and industrial designs applications, the numbers of which utilized a year designation, in order to meet any problems arising from designating the year 2000 in annual numbering series. The International Bureau was asked to prepare a second draft recommendation which would take account of the discussions.

1195. The PCIPI/GI held its fifteen session in Geneva from October 16 to 20. The following 24 members of the Working Group were represented at the session: AUSTRIA, BELARUS, BULGARIA, CANADA, DENMARK, FINLAND, FRANCE, GERMANY, HUNGARY, JAPAN, NORWAY, PORTUGAL, REPUBLIC OF KOREA, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, SLOVAKIA, SLOVENIA, SPAIN, SWEDEN, SWITZERLAND, UNITED KINGDOM, UNITED STATES OF AMERICA, EPO. The PDG was represented by observers.

1196. The Working Group completed the revision of WIPO Standard ST.80 (Recommendation Concerning Bibliographic Data Relating to Industrial Designs). The revised Standard provided improved coding possibilities meeting the requirements of the International Industrial Design Registry in publishing bibliographic data of international deposits under the Hague Agreement.

1197. The Working Group approved the new WIPO Standard ST.13 (Recommendation for the Numbering of Applications for Patents, Including Utility Models, and Industrial Designs). The new Standard recommended to industrial property offices wishing to change their present numbering systems or intending to introduce numbering systems for patent, utility model or industrial design applications, to apply a format comprised of a year designation of four digits according to the Gregorian calendar to indicate the year of filing, and a serial number of up to seven digits to identify an individual application. Furthermore, industrial property offices

wishing to indicate the type of industrial property right as part of the application number were recommended to use letter codes as provided in the Standard.

1198. The Working Group also approved a recommendation to use, in all search reports accompanying published patent applications, relevance indicators in order to indicate the respective claim or claims of the patent application to which the cited document was considered to be relevant. With this recommendation, the generally recognized practice of the International Searching Authorities under the PCT was transformed into a WIPO Standard for use by all industrial property offices.

1199. Finally, the Working Group agreed on some procedural matters for the completion of the revision of WIPO Standard ST.32 (Recommendation for the Markup of Patent Documents Using Standard Generalized Markup Language), which provided a format for the electronic exchange of patent documents by using generic identifiers (tags) for marking the logical elements of a patent document.

1200. The PCIPI Executive Coordination Committee (PCIPI/EXEC) held its sixteenth session in Geneva from May 15 to 19. The following 38 members of the Committee were represented at the session: ALGERIA, AUSTRIA, BRAZIL, BULGARIA, CANADA, CHINA, CZECH REPUBLIC, DENMARK, EGYPT, FINLAND, FRANCE, GERMANY, HONDURAS, HUNGARY, IRELAND, JAPAN, KENYA, MEXICO, MOROCCO, NETHERLANDS, PHILIPPINES, POLAND, PORTUGAL, REPUBLIC OF KOREA, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, SLOVAKIA, SLOVENIA, SPAIN, SWEDEN, SWITZERLAND, TOGO, UNITED KINGDOM, UNITED STATES OF AMERICA, VIET NAM, EPO, OAPI. PERU, SENEGAL, the PDG and the journal WPI were represented by observers.

1201. The Committee decided to include certain new tasks in the PCIPI working program for the 1996-97 biennium, adopted revisions of WIPO Standards ST.3 ST.9, accepted 22 requests for the revision of the International Patent Classification (IPC) in the IPC revision program for the 1996-97 biennium, and adopted the "Statement of Principles" recommended by the PCIPI/MI in March 1995, according to which all industrial property offices should be prepared, at the latest by the year 2000, to accept the changeover to electronic data carriers.

1202. The Committee adopted the report on the PCIPI activities of the 1994-95 biennium, which highlighted major accomplishments of the PCIPI bodies, e.g., new or revised WIPO Standards, implementation of new criteria for the selection of IPC revision projects, a comprehensive survey relating to the protection of industrial designs, agreements on a new format concerning the definition of "internal use" of downloaded data from CD-ROM and general principles on the changeover to electronic data carriers.

1203. The report also spelled out main issues to be dealt with in the 1996-97 biennium, for example, how industrial property information was best generated, stored, exchanged, disseminated and searched under circumstances where a vast amount of information needed to be efficiently handled.

1204. The PCIPI/EXEC held its seventeenth session in Geneva from November 20 to 24. The following 30 members of the Committee were represented at the session: ALGERIA, BRAZIL,

BULGARIA, CANADA, CROATIA, CZECH REPUBLIC, DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA, DENMARK, FINLAND, FRANCE, GERMANY, HUNGARY, IRELAND, JAPAN, MOROCCO, NETHERLANDS, NORWAY, POLAND, PORTUGAL, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, SLOVENIA, SPAIN, SWAZILAND, SWEDEN, SWITZERLAND, UNITED KINGDOM, UNITED STATES OF AMERICA, EPO. CHILE, MALAWI, the PDG and the journal WPI were represented by observers.

1205. The Delegation of Denmark gave a presentation on its Office's automation project, which comprised the introduction of a new cabling infrastructure and the development of a new generation of application systems. The Delegation of the United States of America presented an overview of the proposed introduction, in 1996, of pre-grant publications, under which two new publications would be introduced to disseminate information contained in pending applications. That Delegation also informed the Committee of the inclusion of bibliographic data and abstracts of US patents on the USPTO (United States Patent and Trademark Office) front page on the Internet.

1206. The Committee decided to include the following new tasks in the PCIPI working program for the 1996-97 biennium:

- (a) revision of WIPO Standard ST.60 (Recommendation Concerning Bibliographic Data Relating to Marks) in order to improve it by introducing a certain generic code for the regrouping of codes;
- (b) revision of the implementation of WIPO Standard ST.50 (Guidelines for Issuing Corrections, Alterations and Supplements Relating to Patent Information) and elaboration of provisions in order to achieve harmonization in applying republication codes and procedures used to announce corrections, alterations and supplements;
- (c) revision of WIPO Standards ST.23 and ST.24 concerning the presentation and filing of nucleotide and amino acid sequence listings to simplify the current rules.

1207. The Committee adopted revisions of WIPO Standards ST.32 (Recommendation for the Markup of Patent Documents Using SGML (Standard Generalized Markup Language)), ST.14 (Recommendation for the Inclusion of References Cited in Patent Documents) in order to add a new category of relevance indicators, and ST.80 (Recommendation Concerning Bibliographic Data Relating to Industrial Designs) in order to add and delete certain codes to follow the present practices of industrial property offices.

1208. The Committee agreed to create a centralized register in the form of an on-line database for making available information about the entry into the national phase of PCT international applications, and requested the EPO to start preliminary discussions with the offices concerned on the terms and conditions of the provision of such data.

1209. The PCIPI Working Group on Search Information (PCIPI/SI) held its fifteenth session in Geneva from June 12 to 23. The following 18 members of the Working Group were represented at the session: BELGIUM, CANADA, DENMARK, FINLAND, FRANCE, GERMANY, JAPAN, NORWAY, PORTUGAL, ROMANIA, RUSSIAN FEDERATION, SLOVENIA, SPAIN, SWEDEN, SWITZERLAND, UNITED KINGDOM, UNITED STATES OF AMERICA, EPO.

1210. The Working Group dealt with 47 IPC revision projects on the program for the 1994-95 biennium, of which 22 belonged to the mechanical field, 12 to the chemical field and 13 to the electrical field. Sixteen revision projects were completed.

1211. The Working Group finalized consideration of the classification request submitted by the Egyptian Patent Office and approved certain consequential changes to the IPC. The Working Group also considered questions relating to the official catchword indexes to the IPC and agreed to changes in the procedure of preparing thereof, so as to substantially improve their contents.

1212. The PCIPI/SI held its sixteenth session in Geneva from November 27 to December 8. The following 19 members of the Working Group were represented at the session: CANADA, CROATIA, DENMARK, FINLAND, FRANCE, GERMANY, JAPAN, KENYA, NORWAY, PORTUGAL, ROMANIA, RUSSIAN FEDERATION, SLOVENIA, SPAIN, SWEDEN, SWITZERLAND, UNITED KINGDOM, UNITED STATES OF AMERICA, EPO.

1213. The Working Group dealt with 52 IPC revision projects on the program for the 1994-95 biennium, of which 18 belonged to the mechanical field, 13 to the chemical field and 21 to the electrical field. Twelve revision projects were completed.

1214. The Working Group approved the completion of Task No. S-3 (which dealt with consideration of the insertion in function-oriented places of the IPC of references and notes to the relevant application places) on its program.

1215. The Working Group discussed selected patent documents that could be used for training in classifying and agreed on informative observations relating to some of them. The Working Group also adopted a procedure for adding new catchwords to the official catchword indexes to the IPC and approved the text of a note informing the user of catchwords referring to indexing codes.

WIPO Symposium on CD-ROMs for Patent Information

1216. On September 21 and 22, WIPO organized that Symposium at its headquarters in Geneva. The Symposium was attended by some 90 participants from BELGIUM, BRUNEI DARUSSALAM, BULGARIA, CAMEROON, CANADA, CHILE, CROATIA, CUBA, the CZECH REPUBLIC, EGYPT, FINLAND, FRANCE, GUATEMALA, HONDURAS, HUNGARY, ICELAND, INDIA, INDONESIA, IRAQ, JAPAN, KENYA, KYRGYZSTAN, LAOS, LITHUANIA, MALAWI, MALAYSIA, NORWAY, the PHILIPPINES, POLAND, the REPUBLIC OF MOLDOVA, ROMANIA, the RUSSIAN FEDERATION, SAUDI ARABIA, SENEGAL, SLOVAKIA, SLOVENIA, SPAIN, SWEDEN, THAILAND, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, the UNITED ARAB EMIRATES, the UNITED KINGDOM, VENEZUELA, VIET NAM, the EPO, the PDG and the journal WPI.

1217. The purpose of the Symposium was to discuss the experience of industrial property offices in the production, dissemination and use of patent information on CD-ROM, which had recently emerged as a major data carrier.

1218. Presentations were made by eight invited speakers who came from the EPO, the Chinese Patent Office (CPO), the Japanese Patent Office (JPO), the Mexican Institute of Industrial Property (IMPI), the Swedish Patent and Registration Office, the Swiss Federal Intellectual Property Office (FIPO), the United States Patent and Trademark Office (USPTO) and the British Library.

1219. The Symposium ended with a panel discussion during which the invited speakers were of the general agreement that CD-ROMs as a cost-effective and space-saving data medium were not only currently the best carrier for archive and dissemination, but were also useful as a search tool for patent information in certain circumstances, especially when associated with network and jukebox use. It was also observed that CD-ROMs would continue to remain an effective data carrier for patent information in the foreseeable future.

Publications

1220. The 1995 updates of the WIPO Handbook on Industrial Property Information and Documentation (IPID) (a loose-leaf publication comprising four volumes in English and French and one in Spanish) were published in Spanish in May, in English in June and in French in November. A new volume (Vol. II) was published in Spanish in September.

1221. In 1995, the monthly periodical JOPAL (Journal of Patent Associated Literature) continued to be published on a regular basis.

1222. A second JOPALROM disc containing information published in JOPAL up to the end of 1994 was issued in December 1995. The JOPALROM was provided free of charge to the national offices of the PCT Contracting States.

INTERNATIONAL CLASSIFICATIONS

International Patent Classification

Objective

1223. The objective is to continue the improvement of the International Patent Classification (IPC), an important tool in the orderly filing of patents and in the retrieval of technological information contained in patent documents. "Improvement" means (i) the covering of new fields of technology and (ii) the more precise description and classification of existing ones.

Activities

1224. The Committee of Experts of the IPC Union held its twenty-third session in Geneva from March 27 to 30. The following 16 members of the Committee were represented at the session: BELGIUM, CANADA, DENMARK, FINLAND, FRANCE, GERMANY, JAPAN, NETHERLANDS, NORWAY, PORTUGAL, RUSSIAN FEDERATION, SPAIN, SWEDEN, SWITZERLAND, UNITED KINGDOM, UNITED STATES OF AMERICA. The EPO was also represented.

1225. The Committee adopted amendments to the sixth edition of the IPC, submitted by the PCIPI Working Group on Search Information (PCIPI/SI), affecting one class and 17 subclasses of the IPC.

1226. The Committee expressed its satisfaction with the introduction of the new, stricter criteria, which would permit the PCIPI Executive Coordination Committee (PCIPI/EXEC) to better manage and control the IPC revision work and the resources available for that work, so as to ensure that the revision activity was directed to those areas that were most in need of revision.

1227. IPC. Following the entry into force of the current, sixth, edition of the IPC on January 1, 1995, a new brochure entitled IPC 6th edition - General Information was published in English and French in June, in Arabic, Portuguese, Russian and Spanish in July, and in German in September.

International Classification of Goods and Services for the Purposes of the Registration of Marks

Objective

1228. The objective is to continue the improvement of the Nice Classification of Goods and Services for the Purposes of the Registration of Marks ("Nice Classification"), an important tool in the registration and examination of trademarks and service marks. "Improvement" means (i) the covering of new products and services and (ii) the elimination of obsolete or vague designations and the more precise description and classification of existing ones. It also means the updating of the Nice Classification in various languages.

Activities

1229. The Preparatory Working Group of the Committee of Experts of the Nice Union held its fifteenth session in Geneva from March 6 to 10. The following 13 States members of the Working Group were represented at the session: AUSTRIA, DENMARK, FRANCE, GERMANY, JAPAN, NETHERLANDS, NORWAY, PORTUGAL, RUSSIAN FEDERATION, SPAIN, SWEDEN, UNITED KINGDOM, UNITED STATES OF AMERICA. The BBM was also represented. BRAZIL, CROATIA, LATVIA, MEXICO, ROMANIA, SLOVENIA and SOUTH AFRICA were represented by observers.

1230. The Working Group agreed to consider SWITZERLAND as a member of the Working Group, in accordance with the desire expressed by that country during the session.

1231. The Working Group agreed that some of the services covered by Class 42 of the Nice Classification should be transferred to three new classes, which would follow Class 42. The Working Group approved the headings of the modified Class and the three new classes, which would be submitted to the Committee of Experts of the Nice Union for adoption.

1232. The Committee of Experts of the Nice Union held its seventeenth session in Geneva from November 6 to 10. The following 21 States members of the Nice Union were represented at the session: AUSTRIA, CHINA, CROATIA, DENMARK, FINLAND, FRANCE, GERMANY, ITALY, JAPAN, NETHERLANDS, NORWAY, PORTUGAL, RUSSIAN FEDERATION, SLOVAKIA, SLOVENIA, SPAIN, SWEDEN, SWITZERLAND, TUNISIA, UNITED KINGDOM, UNITED STATES OF AMERICA. BELARUS, BRAZIL, CAMEROON, CÔTE D'IVOIRE, IRAN (ISLAMIC REPUBLIC OF), KENYA, LITHUANIA, ROMANIA, THAILAND, the BBM and the EC were represented by observers.

1233. The Committee adopted some 400 changes to be made to the sixth edition of the Nice Classification, which were divided into the following four categories: new items and related changes, clarifications, changes relating to scope, and precisions.

1234. The Committee approved the introduction in the Explanatory Note on Class 35 of wording on services.

1235. Finally, the Committee amended its Rules of Procedure, agreed that amendments and other changes to the sixth edition of the Nice Classification (with the exception of the changes to the wording of Classes 42 to 45) should enter into force on January 1, 1997, and also that the next revision period should last for five years.

1236. In 1995, training in the use of the Nice Classification was given by WIPO officials to government officials in IRAN (ISLAMIC REPUBLIC OF), MEXICO and TURKEY, and in Geneva to government officials from ROMANIA.

1237. The WIPO Classification Service for Marks, which gives advice (for a fee) in the form of classification reports, in respect of the correct classification of goods and services according to the Nice Classification, pursued its activities during the period under review. In 1995, a total of 206 classification reports were drawn up (in 1994: 152).

International Classification of the Figurative Elements of Marks

Objective

1238. The objective is to continue the improvement of the Vienna Classification of the Figurative Elements of Marks ("Vienna Classification"), an important tool in the registration and searching of marks that have figurative elements. "Improvement" means (i) the covering of new kinds of figurative elements and (ii) the elimination of obsolete or

vague designations and the more precise description and classification of the existing ones. It also means the updating of the Vienna Classification in various languages.

Activities

1239. In 1995, training in the use of the Vienna Classification was given by WIPO officials to government officials in COLOMBIA, COSTA RICA, ECUADOR, HONDURAS, INDIA, IRAN (ISLAMIC REPUBLIC OF), MALAYSIA, MEXICO, PARAGUAY and TURKEY, and in Geneva to government officials from ROMANIA .

1240. A Spanish version of the current, third, edition of the Vienna Classification, already available in French and German, was published in February.

International Classification for Industrial Designs

Objective

1241. The objective is to continue the improvement of the Locarno Classification for Industrial Designs ("Locarno Classification"), an important tool in the registration and searching of industrial designs. "Improvement" means (i) the covering of new kinds of goods in which designs are incorporated and (ii) the elimination of obsolete or vague designations and the more precise description and classification of the existing ones. It also means the updating of the Classification in various languages.

Activities

1242. In 1995, training in the use of the Locarno Classification was given by WIPO officials in Geneva to government officials from ROMANIA.

1243. The current, sixth, edition of the Locarno Classification was published in a bilingual version in Portuguese/French in December. It was also available in English, French and Italian/French.

PART III: REGISTRATION ACTIVITIES

PCT SYSTEM (PATENT COOPERATION TREATY)

Objective

1244. The objective is to provide the services that the International Bureau has to secure under the Patent Cooperation Treaty (the "PCT"). An additional objective is to further develop the PCT system.

Activities

1245. New Contracting States. As a result of the deposit of an instrument of accession to, or of declaration of the continued application of, the PCT, the following States became bound by the PCT on the dates indicated, bringing the number of Contracting States to 83 on January 1, 1996: ALBANIA, on October 4, 1995; AZERBAIJAN, on December 25, 1995; ICELAND, on March 23, 1995; LESOTHO, on October 21, 1995; MEXICO, on January 1, 1995; SINGAPORE, on February 23, 1995; THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, on August 10, 1995; TURKEY, on January 1, 1996; TURKMENISTAN, on December 25, 1991; UGANDA, on February 9, 1995.

Administration

1246. In 1995, the International Bureau as a receiving Office received 1,151 international applications from 32 countries, compared to 447 in 1994. Eight of those applications were considered withdrawn and the remaining 1,143 were subsequently transmitted as record copies to the International Bureau under Article 12 of the PCT.

1247. In 1995, the International Bureau received the "record copies*" of 38,906 international applications from the "receiving Offices," that is, the Offices with which the international applications are filed, including the International Bureau itself as a receiving Office. This number represented an increase of 14.08% over the corresponding figure of 34,104 in 1994.

1248. The number of record copies received by the International Bureau in each calendar year since the beginning of PCT operations was as follows:

* A "record copy" is the true copy of an international application filed with a "receiving Office" and transmitted to the International Bureau.

Number of Record Copies Received Since 1978

1249. The following table shows, by country of origin (that is, of residence or nationality of the applicant), the number of international applications whose record copies were received by the International Bureau¹ in 1995, and the corresponding percentages:

Footnotes relating to table on preceding page:

¹ Figures based on the number of record copies of international applications sent, under PCT Article 12, to the International Bureau by PCT receiving Offices (including the record copies transmitted by the International Bureau itself as a receiving Office).

² Of the international applications received, 4,953 (= 12.73%) were filed with the EPO as a receiving Office and 1,143 (= 2.94%) were filed with the International Bureau as a receiving Office; those applications are included in the figures concerning the country of origin of the applicant.

³ Residents of the following countries filed international applications with the International Bureau as a receiving Office: AUSTRALIA (6), AUSTRIA (3), BARBADOS (1), CANADA (43), CHINA (4), DENMARK (2), FINLAND (2), FRANCE (39), GERMANY (20), ICELAND (2), IRELAND (5), ITALY (42), JAPAN (12), LUXEMBOURG (7), MEXICO (2), NETHERLANDS (562), NEW ZEALAND (2), NORWAY (4), OAPI (2), REPUBLIC OF KOREA (5), ROMANIA (1), RUSSIAN FEDERATION (4), SINGAPORE (11), SLOVAKIA (2), SLOVENIA (2), SPAIN (2), SRI LANKA (1), SWEDEN (11), SWITZERLAND (104), UNITED KINGDOM (29), UNITED STATES OF AMERICA (211). Furthermore, nationals and residents of the following countries can file either with the EPO or with their national Offices (the figures appearing below in brackets after the name of the country show the numbers of records copies received from the national Office concerned (before the slant) and from the EPO (after the slant)): AUSTRIA (257/72), BELGIUM (45/117), DENMARK (517/35), FRANCE (1,669/106), GERMANY (1,816/3,218), GREECE (23/2), IRELAND (62/9), ITALY (220/308), LUXEMBOURG (4/20), MONACO (1/2), NETHERLANDS (431/304), PORTUGAL (6/0), SPAIN (152/16), SWEDEN (1,535/26), SWITZERLAND & LIECHTENSTEIN (305/377), UNITED KINGDOM (3,049/347).

⁴ Includes figures for HONG KONG and the ISLE OF MAN, since the national Office of the UNITED KINGDOM also acts as receiving Office for residents of HONG KONG and the ISLE OF MAN.

⁵ Includes figures for LIECHTENSTEIN, since the national Office of SWITZERLAND also acts as receiving Office for nationals and residents of LIECHTENSTEIN.

1250. In 1995, the average number of designations made per international application was 25.3 (19.5 in 1994). This figure was much higher than the number of States where patent protection would eventually be sought, because the applicants in respect of 46.1% (41.4% in 1994) of all international applications received by the International Bureau in 1995 used the possibility of paying the maximum of 10 designation fees while designating any number of (frequently all) PCT Contracting States in order to extend the effects of the international application to as many States as might be of interest to them, retaining the option of deciding at a later stage in which States they wished to proceed. (As from January 1, 1996, the maximum number of designation fees payable would be 11, see paragraph 1272 below.) The 25.3 designations had, on average, per international application, the effect of national or regional applications in 46.5 (38.7 in 1994) Contracting States. The difference between the number of designations and their effect as national or regional applications was due to the fact that each designation for a regional (European, ARIPO or OAPI) patent covered several States. In 1995, a European patent was sought in 37,588 international applications (32,823 in 1994), which represented 96.6% (96.2% in 1994) of the total.

1251. The following table shows the total number of designations made in the international applications, the record copies of which were received in 1995, broken down according to the designated States and the number of times a Contracting State was designated per 100 international applications (expressed as a percentage).

Footnotes relating to table on preceding pages:

¹ Two designations were counted where a State member of a regional patent system (ARIPO or EPO) was designated both for the national protection and for a regional (ARIPO or EPO) patent, which explained why the percentage indicated in connection with some States was above 100%.

² Included the simultaneous designation of LIECHTENSTEIN.

³ Included the simultaneous designation of BENIN, BURKINA FASO, CAMEROON, the CENTRAL AFRICAN REPUBLIC, CHAD, CONGO, CÔTE D'IVOIRE, GABON, GUINEA, MALI, MAURITANIA, NIGER, SENEGAL and TOGO.

1252. The languages of filing of the international applications whose record copies were received in 1995 by the International Bureau and the corresponding percentages were as follows:

<u>Language of Filing</u>	<u>Number of Applications</u>	<u>Percentage</u>
English	26,519	68.16
German	5,733	14.74
Japanese	2,526	6.49
French	1,895	4.87
Swedish	744	1.91

Total	<u>38,906</u>	<u>100.00</u>

1253. In 1995, 26,894 demands for international preliminary examination under Chapter II of the PCT were filed with the Offices indicated below, which acted as International Preliminary Examining Authorities (IPEAs). This represented an increase of 16.3% over 1994. In the following table, those demands are broken down according to the IPEA which received the demands, and the corresponding percentages are indicated.

<u>IPEA</u>	<u>Number of Demands</u>	<u>Percentage</u>
EPO	14,428	53.65
UNITED STATES OF AMERICA	8,178	30.41
SWEDEN	1,969	7.32
JAPAN	1,110	4.13
AUSTRALIA	864	3.21
AUSTRIA	138	0.51
RUSSIAN FEDERATION	127	0.47
CHINA	80	0.30
Total	<u>26,894</u>	<u>100.00</u>

1254. The growth of 16.3% in the number of demands for international preliminary examination in 1995 as compared to 1994 could be attributed to the fact that most of the Contracting States could now be elected for international preliminary examination and that applicants were increasingly (between 70 and 80% of all applicants) taking advantage of the benefits of the procedure under Chapter II of the PCT, which provided an opinion whether the invention met the PCT criteria for patentability and postponed by 10 more months the beginning of the national or regional procedures.

Use of Computers

1255. The DICAPS (“Document Imaging and Computer-Assisted Publication System”) project was designed to satisfy the following general requirements: storage, consultation and retrieval of application files (files in paper form would gradually be replaced by optical discs); automatic page setting, with drawings, of pamphlet front pages and of PCT Gazette pages; automatic printing of pamphlets on laser printers; distribution and mailing of pamphlets on magnetic and optical media, in particular on CD-ROMs. All functions of the system would be fully tested in 1996.

1256. PCT CD-ROM Products. The International Bureau continued improving its program of distribution and dissemination of industrial property information relating to its activities, on optical storage media, more particularly on CD-ROMs (SPACE-WORLD series).

1257. All international applications published since 1978 were available in CD-ROM format in the SPACE-WORLD series (a total of over 400 CD-ROMs). The CD-ROMs containing international applications published between 1978 and 1989 were available from WIPO, whereas the CD-ROMs containing the international applications published from 1990 onwards were sold by the EPO in Vienna.

1258. CD-ROM Workstations for PCT Contracting States. Pursuant to a decision of the Assembly of the PCT Union, in 1990, to offer each national office of the PCT Contracting States a workstation for reading and printing the published international applications on CD-ROM free of charge, most of the offices concerned had accepted the offer and received the workstation. In respect of new Contracting States, the decision was implemented on an ongoing basis.

1259. EASY Project. In 1995, discussions on technical and legal cooperation for continuing the development of the EASY (Electronic Application System) filing software were held between WIPO officials and officials of the European Patent Office (EPO), the United States Patent and Trademark Office (USPTO) and the Japanese Patent Office (JPO) in Geneva, Munich, The Hague and Washington, D.C. WIPO worked with the above-mentioned Offices, in the framework of the three Offices’ ongoing trilateral cooperation, on the development of an implementation guide which could be used by any software provider wishing to produce EASY-compatible application filing software.

1260. While the ultimate aim of the EASY project was to achieve complete on-line electronic filing of applications, leading to the elimination of paper filing, the project aimed initially at the development of a means to enable electronic filings on diskettes. It was expected that significant benefits and savings for applicants and patent offices would result from the preparation of patent applications using the EASY system, including immediate validation of data as they were entered, the use of help screens, reduction of paper used, and more streamlined and better quality publication of patent applications.

Information and Promotion Services

1261. Publications. In January, the PCT Gazette which was a fortnightly publication, in separate English and French editions, became a weekly publication. In 1995, it included entries relating to the 35,638 (30,003 in 1994) international applications which were published in the form of PCT pamphlets (in Chinese, English, French, German, Japanese, Russian or Spanish, depending on the language of filing) on the same day as the relevant issue of the PCT Gazette.

1262. In 1995, the numbers of international applications published as PCT pamphlets in each of the above-mentioned languages were as follows:

<u>Language of Publication</u>	<u>Number of Applications</u>	<u>Percentage</u>
English	26,004	72.96
German	5,082	14.26
Japanese	2,267	6.36
French	1,799	5.05
Russian	273	0.77
Spanish	129	0.36
Chinese	84	0.24
Total	<u>35,638</u>	<u>100.00</u>

1263. Two special issues of the PCT Gazette, containing consolidated general information relating to Contracting States, national and regional offices and international authorities, were published in January and July, respectively.

1264. The PCT Applicant's Guide, a five-binder loose-leaf publication of more than 1,000 pages for the users of the PCT system, continued to be updated on a regular basis by the International Bureau.

1265. The leaflet entitled Basic Facts about the Patent Cooperation Treaty (PCT) was updated and made available, on a regular basis and free of charge, in English, French, German, Japanese, Portuguese and Spanish.

1266. The PCT Newsletter, providing up-to-date news for users of the PCT, was published monthly during the period under review.

1267. In November, the International Bureau published a new book entitled The First Twenty-Five Years of the Patent Cooperation Treaty (PCT) 1970 - 1995. This book, which was introduced with an article by the Director General of WIPO, was written to commemorate the 25th anniversary of the signature of the PCT, in Washington, D.C., in 1970.

1268. Training and Promotion. In 1995, some 60 information and training seminars (representing about 100 training days for over 4,600 persons) dealing with the promotion, use and advantages of the PCT were organized for government officials, inventors, patent attorneys and other persons from the legal profession and industry in BELARUS, BELGIUM,

DENMARK, FRANCE, GERMANY, JAPAN, KYRGYZSTAN, LUXEMBOURG, SINGAPORE, SLOVAKIA, SLOVENIA, SOUTH AFRICA, SWITZERLAND, THAILAND, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, the UNITED KINGDOM and the UNITED STATES OF AMERICA.

1269. In addition to the activities enumerated above aimed at promoting the use of the PCT, government officials from the following countries and officials from the following intergovernmental organization and non-governmental organizations were briefed on the PCT and its operations, or were given training, at WIPO or at national industrial property offices, or during certain missions of WIPO officials: ALBANIA, ANGOLA, AZERBAIJAN, BELARUS, BOSNIA AND HERZEGOVINA, BOTSWANA, CHILE, COLOMBIA, CROATIA, CUBA, DENMARK, EGYPT, ESTONIA, FRANCE, GEORGIA, ICELAND, INDONESIA, ISRAEL, JAPAN, JORDAN, KAZAKSTAN, KUWAIT, LESOTHO, MADAGASCAR, MALAWI, MALAYSIA, MALTA, MEXICO, MOROCCO, SINGAPORE, SLOVAKIA, SLOVENIA, SOUTH AFRICA, SWITZERLAND, TAJIKISTAN, THAILAND, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, TRINIDAD AND TOBAGO, TURKEY, TURKMENISTAN, UGANDA, UNITED REPUBLIC OF TANZANIA, UNITED STATES OF AMERICA, URUGUAY, VIET NAM, EPO, AIPLA, AIPPI.

Development of the PCT System

1270. The PCT Committee for Technical Cooperation (PCT/CTC) held its eighteenth session in Geneva from May 15 to 19. The following 33 members of the Committee were represented at the session: AUSTRIA, BRAZIL, BULGARIA, CANADA, CHINA, CZECH REPUBLIC, DENMARK, FINLAND, FRANCE, GERMANY, HUNGARY, IRELAND, JAPAN, KENYA, MEXICO, NETHERLANDS, POLAND, PORTUGAL, REPUBLIC OF KOREA, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, SENEGAL, SLOVAKIA, SLOVENIA, SPAIN, SWEDEN, SWITZERLAND, TOGO, UNITED KINGDOM, UNITED STATES OF AMERICA, VIET NAM, EPO. OAPI was represented as a special observer. The PDG and the publishers of the journal WPI were represented by observers.

1271. The Committee considered the draft of a revised PCT Minimum Documentation List pursuant to Rule 34.1(b)(iii) of the Regulations under the PCT. The International Searching Authorities, which were represented at the session, approved the revised PCT list consisting of 135 periodicals and technical journals to be used for search and examination. The Committee agreed that the revised PCT list would take effect as from January 1, 1996.

1272. The Assembly of the PCT Union, at its twenty-third (tenth ordinary) session held in Geneva from September 25 to October 3, decided, with effect from January 1, 1996, to reduce by 75% PCT fees in respect of international applications filed by any applicant who was a natural person and who was a national of and resides in a State whose per capita national income was below US\$3,000. If there were several applicants, each must satisfy those criteria. The Assembly also decided to increase the maximum number of designated fees payable, with effect from January 1, 1996, from 10 to 11.

MADRID SYSTEM (MADRID (INTERNATIONAL REGISTRATION
OF MARKS) AGREEMENT AND MADRID PROTOCOL)

Objective

1273. The objective is to provide the services that the International Bureau has to secure under the Madrid Agreement Concerning the International Registration of Marks ("the Madrid Agreement") and under the Protocol of 1989 Relating to that Agreement ("the Protocol") should the Protocol enter into effect during the 1994-95 biennium.

Activities

1274. Madrid Agreement. New Member States. As a result of the deposit of an instrument of accession, the following four States became bound by the Madrid Agreement on the dates indicated, bringing the number of States party to the Madrid Agreement to 46 on December 31, 1995: ALBANIA, on October 4, 1995; AZERBAIJAN, on December 25, 1995; LATVIA, on January 1, 1995; LIBERIA, on December 25, 1995.

1275. Madrid Protocol. The Madrid Protocol, adopted at Madrid on June 27, 1989, entered into force on December 1, 1995, in conformity with its Article 14(4)(a), which stated that the said Protocol would enter into force three months after four instruments of ratification, acceptance, approval or accession had been deposited. Instruments of ratification or accession to the said Protocol were deposited on April 17, 1991, by SPAIN; on December 30, 1994, by SWEDEN; on April 6, 1995, by the UNITED KINGDOM; on September 1, 1995, by CHINA.

1276. New Member States. Pursuant to the deposit of an instrument of ratification, accession or acceptance, the following nine States became bound by the Madrid Protocol on the dates indicated: CHINA, on December 1, 1995; CUBA, on December 26, 1995; DENMARK, on February 13, 1996; FINLAND, on April 1, 1996; GERMANY, on March 20, 1996; NORWAY, on March 29, 1996; SPAIN, on December 1, 1995; SWEDEN, on December 1, 1995; UNITED KINGDOM, on December 1, 1995.

Administration

1277. In 1995, the International Bureau continued to perform its tasks under the Madrid Agreement. The total number of registrations effected was 18,890, and the total number of renewals 3,809, representing an increase of 8.0% and a decrease of 20.3%, respectively, compared to 1994 (the corresponding figures in 1994 were 17,486 and 4,583). The total number of registrations and renewals was therefore 23,699, as compared with 22,069 in 1994, representing an increase of 2.9%. The total number of changes recorded in the International Register of Marks was 37,442 (37,447 in 1994). The total number of refusals recorded was 55,564, as compared with 52,697 in 1994, representing an increase of 5.4%. As the average number of countries covered in each international registration was 10.4, the international registrations effected in 1995 had the equivalent effect of some 197,216 national registrations (some 175,000 in 1994).

1278. The following table breaks down the number of registrations and renewals effected in 1995 according to the country of origin of the mark or of the holder of the renewed registration, together with the corresponding percentages:

1279. Fee Increase. At the September/October sessions of the Governing Bodies, the Assembly of the Madrid Union approved a 3% fee increase in the Madrid system, with effect from April 1, 1996.*

1280. Coefficients. The Director General was informed by the following countries of the coefficients (2, 3 or 4) to be applied to them for the distribution, between the countries party to the Agreement, of the amounts deriving from the supplementary and complementary fees paid on international registration of a mark (see Article 8(2)(b) and (c), (5) and (6) of the Madrid Agreement and Rule 35 of the Regulations under the said Agreement): ALBANIA (2), AZERBAIJAN (4), BELARUS (4), LATVIA (3), LIBERIA (4).

1281. Distribution of Supplementary Fees and Complementary Fees Collected Under the Madrid Agreement. The following amounts were distributed to the trademark offices of the member States of the Madrid Union as those States' share of the distribution of supplementary fees and complementary fees in respect of 1995 (the countries quoted below are in decreasing order of the amounts distributed to their trademark offices):

<u>Trademark Offices by Country</u>	<u>Swiss Francs</u>

1282. A number of the member States of the Madrid Union used all or part of the above amounts for paying their contributions to the budgets of the Unions administered by WIPO.

Use of Computers

1283. The scanning (which started in 1990) of international trademark registration files into the archiving system using digital optical discs known as MINOS (Marks Information Optically Stored) continued in the period under review. On December 31, 3.6 million pages (representing some 313,216 international trademark registration files) had been scanned and stored on the optical discs.

1284. "BIBLIO discs," that is, ROMARIN (Read-Only Memory of Madrid Actualized Registry Information) CD-ROMs containing all the relevant data of each mark registered in the International Trademark Register and currently in force, including the figurative elements (if any) of the marks registered in the current year, continued to be issued on a monthly basis. Twelve such discs were issued in 1995.

1285. A complete database of figurative elements of marks whose international registration was in force had been provided once a year, since 1993, on a ROMARIN "IMAGES" disc. The third such disc was issued in February.

1286. ROMARIN-type CD-ROMs. In 1995, discussions continued between WIPO officials and officials of a number of national industrial property offices of member States of the Madrid Union, at their request, as well as with officials of BBM and the EPO, to assist the said offices in developing ROMARIN-type CD-ROMs (ROMARIN-clones) intended to contain the national and regional trademarks of certain countries and groups of countries, in particular, GERMANY, PORTUGAL, SPAIN, AUSTRIA/LIECHTENSTEIN and SWITZERLAND, as well as Central and Eastern European and Baltic States.

1287. Electronic exchange of data. Discussions were also held on the possible exchange of data by electronic means between the International Bureau and certain regional and national offices in the framework of the Madrid system.

Information and Promotion Services

1288. Publications. The review Les Marques internationales (in French), containing the publication of registrations of marks, renewals, changes, refusals and invalidations recorded in the International Trademark Register, continued to be published on a monthly basis. The review was available also on microfiche.

1289. Although the Guide to the International Registration of Marks, in English, French and German, continued to be available in a loose-leaf binder edition, an electronic version of the Guide (in English and French), in "hypertext" format, for use on personal computers, was issued in 1995.

1290. The text of the Madrid Agreement Concerning the International Registration of Marks and Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks was published in Chinese in October, in German in September and in Russian in December.

1291. Training and Promotion Meetings With Users and Potential Users of the Madrid System. In 1995, government officials from the following countries who visited WIPO were briefed on the Madrid Agreement and its operations and on the Madrid Protocol, or were provided with training, including the use of the ROMARIN CD-ROMs: ALBANIA, ARMENIA, BELARUS, BRAZIL, CHINA, CROATIA, CUBA, DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA, DENMARK, ECUADOR, GERMANY, INDIA, IRAN (ISLAMIC REPUBLIC OF), ISRAEL, ITALY, LATVIA, LEBANON, MONACO, PORTUGAL, REPUBLIC OF MOLDOVA, RUSSIAN FEDERATION, SLOVENIA, SPAIN, SWAZILAND, SWITZERLAND, TAJIKISTAN, TURKEY, TURKMENISTAN, UNITED KINGDOM, URUGUAY.

1292. In addition, officials of intergovernmental organizations, representatives of non-governmental organizations and members of the private sector were given briefings or explanations by WIPO officials and WIPO consultants on one or more aspects of the Madrid

system at seminars or meetings in FINLAND, FRANCE, GERMANY, JAPAN, SLOVENIA, SWEDEN, TURKEY, the UNITED KINGDOM and the UNITED STATES OF AMERICA.

Application of the Madrid Protocol

1293. MAPS (Madrid Agreement and Protocol System) Project. The MAPS project had been developed to take into account the administrative procedures under the Madrid Agreement and the Madrid Protocol. It replaced the SEMIRA system (System of Electronic Marks' Interrogation, Registration and Aministration) in October.

1294. The main purposes of MAPS were to:

(i) reduce and, eventually, eliminate the circulation of paper documents within the International Trademark Registry and between the Registry and the Finance Section, thereby, inter alia, speeding up the treatment of international applications, refusals, subsequent designations and other requests for change, and renewals, by allowing several operations to take place in parallel;

(ii) streamline and control the processing of international applications, refusals, subsequent designations and other requests for change, and renewals, by distributing the work to the workstations of the staff concerned, monitoring deadlines and prompting actions;

(iii) facilitate formality examination through built-in validity and consistency checks; provide for computer-assisted classification of the list of goods and services, computer-assisted translation of the list of goods and services and other elements to be translated in international applications, subsequent designations, limitations, partial cancellations and refusal or invalidation notifications; and largely automate outputs (irregularity letters, extracts, certificates, notifications and publications, as well as statistics and management information);

(iv) integrate all components of the Registry's computer system, including an image database, and establish an electronic interface with the computer system of the financial services (FINAUT);

(v) provide for electronic (paperless) communications with interested Offices of Contracting Parties and for access by Offices and the general public to the electronic Register.

1295. In 1995, the International Bureau finalized the draft Common Regulations under the Madrid Agreement and the Madrid Protocol, including a draft schedule of fees, for submission to an extraordinary session of the Assembly of the Madrid Union to take place in January 1996.

HAGUE SYSTEM (HAGUE (INTERNATIONAL DEPOSIT OF INDUSTRIAL DESIGNS) AGREEMENT)

Objective

1296. The objective is to provide the services that the International Bureau has to secure under the Hague Agreement Concerning the International Deposit of Industrial Designs ("the Hague Agreement"). An additional objective is to further develop the Hague system in order to simplify, to an even greater extent, the international deposit of industrial designs.

Activities

Administration

1297. In 1995, the International Bureau continued to perform its tasks under the Hague Agreement, in particular the registration and monthly publication (in the periodical International Designs Bulletin/Bulletin des dessins et modèles internationaux) of industrial designs deposited with it. The Bulletin was published in fully bilingual form as from No. 1/95 issued in March. The International Bureau further studied the possibility of producing a CD-ROM for registered industrial designs.

1298. In 1995, the total number of industrial design deposits registered by the International Bureau was 3,531, and the total number of renewals and prolongations 2,062, representing a decrease of 0.36% and an increase of 8.41%, respectively, in relation to the 1994 figures (3,544 and 1,902, respectively). The total number of deposits and renewals/prolongations represented an increase of 2.70% compared to 1994.

1299. The table below shows the international deposits and renewals/prolongations, by country of origin, recorded by the International Bureau in 1995.

1300. Fee Increase. At the September/October sessions of the Governing Bodies, the Assembly of the Hague Union approved a 3% fee increase in the Hague system, with effect from April 1, 1996.

1301. Distribution of State Fees Collected Under the Hague Agreement. The following amounts were distributed to the designs offices of the member States of the Hague Union as those States' share of the distribution of State fees in respect of 1995 (the countries quoted below are in decreasing order of the amounts distributed to their designs offices):

1302. A number of the member States of the Hague Union used all or part of the above amounts for paying their contributions to the budgets of the Unions administered by WIPO.

Information and Promotion Services

1303. In 1995, the International Bureau continued to make available the Guide to the International Deposit of Industrial Designs in English and French, in a loose-leaf binder edition.

1304. During that period, government officials from BRAZIL, CUBA, FRANCE, JAPAN, MALI, MONGOLIA, ROMANIA and SLOVENIA who visited WIPO were briefed or given training on the Hague system and its operations. In addition, government officials and members of the private sector were given briefings or training by WIPO officials on the Hague system at seminars held in SLOVENIA and in Geneva.

Development of the Hague System

1305. The Committee of Experts on the Development of the Hague Agreement Concerning the International Deposit of Industrial Designs held its fifth session in Geneva from June 13 to 16.

1306. Sixteen States members of the Hague Union were represented at the session: BELGIUM, CÔTE D'IVOIRE, EGYPT, FRANCE, GERMANY, HUNGARY, INDONESIA, ITALY, MOROCCO, NETHERLANDS, REPUBLIC OF MOLDOVA, ROMANIA, SENEGAL, SLOVENIA, SPAIN, SWITZERLAND. Eighteen States members of the Paris Union but not of the Hague Union were represented by observers: AUSTRALIA, BRAZIL, CZECH REPUBLIC, DENMARK, FINLAND, HONDURAS, JAPAN, LITHUANIA, MALI, MEXICO, MONGOLIA, NORWAY, PORTUGAL, REPUBLIC OF KOREA, RUSSIAN FEDERATION, SWEDEN, UNITED KINGDOM, UNITED STATES OF AMERICA. Representatives of BBDM and EC as well as the following 22 non-governmental organizations also took part in the session in an observer capacity: ABA, AIM, AIPLA, AIPPI, ALAI, APAA, CELIBRIDE, CNIPA, COMITEXIL, ECTA, FCPA, FICPI, ICSID, IFIA, JDPA, JIPA, JPAA, LIDC, TVS, UEPIP, UNICE, UNIFAB.

1307. The Committee of Experts considered the provisions of a draft new Act of the Hague Agreement Concerning the International Registration of Industrial Designs, and also a proposal submitted by the Delegation of Switzerland.

1308. The draft new Act had been drawn up with two main objectives in mind: the first was to broaden the geographical scope of the Hague system for the international registration of industrial designs, and the second to make the Hague system into a more effective instrument for the securing of protection for industrial designs in several countries at a time, especially for design-intensive industries such as the textile and fashion industries.

1309. The discussions showed that the two objectives were not always directly compatible: any broadening of geographical scope required allowance to be made for the demands of States

whose legislation provided for the substantive examination of applications for registration; those demands, however, (notably those relating to the length of the periods allowed for refusal of an international registration) were often contrary to the wishes of a number of industries--such as the textile and fashion industries--which needed to be given protection as rapidly as possible.

1310. With regard to the proposal by the Delegation of Switzerland for the inclusion of an Article Z in the new Act, under which rights and obligations deriving from the TRIPS Agreement would not be altered by the Hague Agreement, it was agreed that the International Bureau would look for the best possible means of expressing the principle, unanimously approved by the Committee of Experts, contained in the proposal.

1311. Faced with the difficulty of reconciling divergent viewpoints on the draft new Act, the International Bureau proposed considering the possibility of dividing the substantive provisions of the next draft into two "chapters" along the following lines. Chapter I would provide for the simple and quick system of protection for industrial designs desired by future Contracting Parties of the new text (new Act or new Treaty) that had no substantive examination system, or had one but did not intend to retain it. Chapter II would contain the additional requirements to be fully or partly met by applicants designating Contracting Parties of the new text that had a substantive examination system and did intend to retain it. Any Contracting Party would be free to make a declaration (Declaration A) to the effect that it could not be designated by applicants from Contracting Parties that applied some or all of the requirements of Chapter II. Any Contracting Party applying some or all of the requirements of Chapter II, for its part, would be free to make a declaration (Declaration B) to the effect that it could not be designated by applicants from Contracting Parties that had made Declaration A.

1312. In conclusion, it was agreed that the Committee of Experts would have to hold at least one more session prior to the Diplomatic Conference, and that the International Bureau would, for the next session of the Committee of Experts, draw up a new draft with several chapters, taking into consideration the remarks made in the course of the discussions.

1313. An Advisory Meeting of Users of the Hague System was convened by WIPO at its headquarters on June 16 and was attended by 46 participants from the national industrial property offices of AUSTRALIA, CÔTE D'IVOIRE, the CZECH REPUBLIC, DENMARK, EGYPT, FINLAND, FRANCE, GERMANY, HUNGARY, JAPAN, MONGOLIA, the REPUBLIC OF MOLDOVA, ROMANIA, SENEGAL, SLOVENIA, SWEDEN, SWITZERLAND and the UNITED STATES OF AMERICA, one regional office (BBDM), 12 non-governmental organizations (ABA, AIPLA, AIPPI, ALAI, APAA, CNCPI, CNIPA, ICSID, IFIA, JDPA, JIPA, JPAA) and representatives of depositors and industrial property agents.

1314. The International Bureau gave an overview of current developments regarding the Hague system, including the ongoing revision work, as well as of its plans concerning the possible electronic publication of international industrial designs on CD-ROM. The latter plans were received favorably.

LISBON (PROTECTION OF APPELLATIONS OF ORIGIN
AND THEIR INTERNATIONAL REGISTRATION) AGREEMENT

Objective

1315. The objective is to provide the services that the International Bureau has to secure under the Lisbon Agreement for the Protection of Appellations of Origin and their International Registration (hereafter referred to as "the Lisbon Agreement").

Activities

1316. The table below shows the international registrations effected by the International Bureau for the period 1967 to 1995, broken down by country of origin:

<u>Country of Origin</u>	<u>Total Registrations</u>
FRANCE	472
CZECH REPUBLIC	71

1317. All appellations of origin registered by the International Bureau under the Lisbon Agreement are contained in the above-mentioned ROMARIN CD-ROM series "BIBLIO" discs (see paragraphs 1284 and 1285) and all important bibliographic data are fully searchable.

* Registrations effected before December 31, 1992, when Czechoslovakia ceased to exist. By virtue of a Protocol concluded on October 7, 1993, out of the 108 registrations effected for Czechoslovakia, 107 were distributed between the CZECH REPUBLIC (70) and SLOVAKIA (37) and one registration was canceled upon request of the relevant administrations in the CZECH REPUBLIC and in SLOVAKIA.

PART IV: PROMOTION OF WORLDWIDE RECOGNITION OF AND RESPECT FOR
INTELLECTUAL PROPERTY; COOPERATION WITH STATES OTHER THAN
DEVELOPING COUNTRIES AND INTERNATIONAL ORGANIZATIONS

Objective

1318. The general objective is to promote the realization of the importance and the benefits of intellectual property--both industrial property and copyright--for the social, economic and cultural progress of any country.

1319. Natural avenues leading to such benefits consist of promoting adherences to the treaties administered by WIPO by countries not yet party to them, and WIPO cooperating with both States and with intergovernmental and non-governmental organizations.

Activities

PROMOTION OF ADHERENCES TO WIPO-ADMINISTERED TREATIES

1320. During the period under review, WIPO continued to promote accession by States to the above-mentioned treaties. In addition to the activities referred to below in relation to specific treaties, discussions on such accession took place during WIPO missions to various countries, particularly developing countries, in meetings with Permanent Missions of States in Geneva and in contacts with delegations of States at intergovernmental meetings. Notes concerning the advantages of accession to certain treaties were prepared and sent to the interested authorities of a number of countries.

Convention Establishing the World Intellectual Property Organization (WIPO)

1321. The following seven States became bound, on the dates indicated, by this Convention, pursuant to the deposit, in 1995, of an instrument of accession or continued application: AZERBAIJAN, on December 25, 1995; BAHRAIN, on June 22, 1995; CAMBODIA, on July 25, 1995; NIGERIA, on April 9, 1995; SAINT KITTS AND NEVIS, on November 16, 1995; SAINT VINCENT AND THE GRENADINES, on August 29, 1995; TURKMENISTAN, on December 25, 1991.

1322. As a result, the following 157 States were members of WIPO on December 31, 1995: ALBANIA, ALGERIA, ANDORRA, ANGOLA, ARGENTINA, ARMENIA, AUSTRALIA, AUSTRIA, AZERBAIJAN, BAHAMAS, BAHRAIN, BANGLADESH, BARBADOS, BELARUS, BELGIUM, BENIN, BHUTAN, BOLIVIA, BOSNIA AND HERZEGOVINA, BRAZIL, BRUNEI DARUSSALAM, BULGARIA, BURKINA FASO, BURUNDI, CAMBODIA, CAMEROON, CANADA, CENTRAL AFRICAN REPUBLIC, CHAD, CHILE, CHINA, COLOMBIA, CONGO, COSTA RICA, CÔTE D'IVOIRE, CROATIA, CUBA, CYPRUS, CZECH REPUBLIC, DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA, DENMARK, ECUADOR, EGYPT, EL SALVADOR, ESTONIA, FIJI, FINLAND, FRANCE, GABON, GAMBIA, GEORGIA, GERMANY, GHANA, GREECE, GUATEMALA, GUINEA, GUINEA-BISSAU, GUYANA, HAITI, HOLY SEE, HONDURAS, HUNGARY,

COOPERATION WITH STATES OTHER THAN DEVELOPING COUNTRIES
AND INTERNATIONAL ORGANIZATIONS*Intercountry

1361. Interstate Council for the Protection of Industrial Property (ICPIP). In March, two WIPO officials attended the fifth meeting of the Council, held in Kishinev. Nine States members of the Council, namely, ARMENIA, AZERBAIJAN, BELARUS, KAZAKSTAN, KYRGYZSTAN, the REPUBLIC OF MOLDOVA, the RUSSIAN FEDERATION, TAJIKISTAN and UKRAINE, were represented by plenipotentiary representatives. TURKMENISTAN, UZBEKISTAN, the Secretariat of the Commonwealth of Independent States (CIS), WIPO and the EPO were represented as observers. Discussions at the meeting dealt mainly with the measures to be taken for the ratification and implementation of the Eurasian Patent Convention, signed in Moscow on September 9, 1994. In that connection, the Council noted that Turkmenistan had acceded to the said Convention on March 1, 1995, and that other countries envisaged ratifying it in the near future. The draft Patent Regulations, Administrative Regulations and Financial Regulations, prepared by the CIS Secretariat, were distributed to the States members of the Council for comments.

1362. In April, the Executive Secretary of the CIS and another CIS official had discussions with the Director General and other WIPO officials in Geneva on questions relating to the entry into force of the Eurasian Patent Convention and on the strengthening of cooperation between WIPO and the CIS Secretariat in this regard.

1363. In June, three officials of the Interstate Council had discussions with the Director General and other WIPO officials in Geneva on the convening of the first meeting of the Administrative Council of that Council, and on WIPO's assistance in the elaboration of the Patent, Administrative and Financial Instructions under the Eurasian Patent Convention.

1364. In September, two WIPO officials participated, in the capacity of observers, in the fourth meeting of the Standing Working Group of Experts of the Interstate Council for the Protection of Industrial Property and the sixth meeting of the said Council, held in Baku. The meeting of the Group of Experts was attended by representatives of 10 CIS countries (AZERBAIJAN, BELARUS, GEORGIA, KAZAKSTAN, KYRGYZSTAN, REPUBLIC OF MOLDOVA, RUSSIAN FEDERATION, TAJIKISTAN, TURKMENISTAN, UKRAINE). The Group of Experts finalized the draft Patent Regulations, Financial Regulations and Administrative Regulations under the Eurasian Patent Convention, as well as the draft Schedule of Fees and the draft Headquarters Agreement to be concluded with the Russian Federation, and submitted those documents to the Interstate Council. The meeting of the Interstate Council was attended by plenipotentiary representatives of eight CIS countries (AZERBAIJAN, BELARUS, KAZAKSTAN, KYRGYZSTAN, REPUBLIC OF MOLDOVA, RUSSIAN FEDERATION, TAJIKISTAN, UKRAINE) and by observers from GEORGIA and TURKMENISTAN. The Interstate Council discussed, among other matters, the status of adherence to the Convention and the setting up of the Eurasian Patent Office, and approved the above-mentioned draft

documents, all those texts being subject to final consideration and adoption at a later stage by the Administrative Council of the newly established Eurasian Patent Organization (EAPO).

1365. In October, the first (extraordinary) session of the Administrative Council of the Eurasian Patent Organization (EAPO) was held at the headquarters of WIPO in Geneva. The session was convened and opened by the Director General as the depositary of the Eurasian Patent Convention (under which the EAPO was established). BELARUS, the RUSSIAN FEDERATION, TAJIKISTAN and TURKMENISTAN were represented at the session as member States by plenipotentiary representatives. ARMENIA, AZERBAIJAN, GEORGIA, KAZAKSTAN, KYRGYZSTAN, MONGOLIA, the REPUBLIC OF MOLDOVA, TURKEY, UKRAINE and VIET NAM were represented by observers. Two WIPO officials also attended the meeting in an advisory capacity. The meeting adopted the Provisional Rules of Procedure of the Administrative Council, appointed the President of the Eurasian Patent Office (a national of the Russian Federation) for a term of six years, and decided, among other things, that January 1, 1996, would be the date from which PCT Contracting States which are also party to the Eurasian Patent Convention could be designated for a Eurasian patent under the PCT.

1366. Also in October, two WIPO officials and a WIPO consultant from the Russian Federation participated in a session of the CIS Scientific, Consultative and Drafting Team, held in Leiden (Netherlands) as part of a series of meetings aimed at promoting the adoption of new market-oriented civil codes in the CIS countries.

1367. In late November and early December, in Moscow, two WIPO officials participated, in an advisory capacity, in the second session of the Administrative Council of the EAPO and in a meeting of its Working Group which preceded that session. Eleven CIS countries were represented at the meetings, namely, BELARUS, KAZAKSTAN, the RUSSIAN FEDERATION, TAJIKISTAN and TURKMENISTAN as Contracting States of the Eurasian Patent Convention, and ARMENIA, AZERBAIJAN, GEORGIA, KYRGYZSTAN, the REPUBLIC OF MOLDOVA and UKRAINE as observers. The EPO was represented as an observer at the session of the Council. The Council adopted several normative documents, which had been prepared by the Working Group, in particular, the Patent Regulations under Article 14 of the Eurasian Patent Convention, the Fee Statute and the Statute on Eurasian Patent Attorneys, as well as certain practical measures for putting the Convention into operation.

1368. Meetings. In January, a WIPO official attended, in Prague, the Vth Coordination Meeting of the European Communities' Regional Industrial Property Programme for Central and Eastern Europe (PHARE-RIPP) which was being implemented by the European Patent Office (EPO).

1369. In February, WIPO organized a WIPO Seminar on the Industrial Property System and Use of Patent Information for Technological Development, in Sofia, in cooperation with the Patent Office of the Republic of BULGARIA and with the financial assistance of the UNDP. The Seminar was attended by nine government officials from BELARUS, HUNGARY, ROMANIA and THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, as well as some 30 government officials and 80 patent agents and managers of enterprises from BULGARIA. 1601. Japan Patent Association (JPA)/Japan Patent Attorneys Association (JPAA). In February, two representatives of JPA and JPAA had discussions with WIPO officials in Geneva on the Japanese Patent Law.

1602. Latin American Federation of Producers of Phonograms and Videograms (FLAPF). In October, a WIPO official participated in the XIXth Congress of FLAPF, held in Rio de Janeiro.

1603. Law Association for Asia and the Pacific (LAWASIA). In March, a WIPO official spoke at a Conference on Intellectual Property Law in the Asia Pacific Region organized in Adelaide (Australia) by LAWASIA, with the cooperation of the Government of Australia.

1604. Licensing Executives Society International (LESI). In January, the President and three other representatives of LESI had discussions with the Director General and other WIPO officials in Geneva on matters of mutual interest including, in particular, the proposed Patent Law Treaty.

1605. Max Planck Institute for Foreign and International Patent, Copyright and Competition Law (MPI). In July, a WIPO official attended a Colloquium on the Relationship Between Intellectual Protection and Economic Law, and a Symposium on TRIPS, both organized by MPI in Ringberg (Germany). In September, an official of that Institute visited WIPO in Geneva and

received information from WIPO officials on the activities of the Organization, particularly those in favor of developing countries in the Asia-Pacific region.

1606. Online Information '95. In December, a WIPO official attended several meetings of that annual exhibition which took place in London.

1607. Organization for Cooperation Among European and American Nations (OCEAN). In April, a WIPO official participated as a speaker in an international conference on intellectual property organized by OCEAN in Paris.

1608. Patent and Trademark Institute of Canada (PTIC). In March, a WIPO official attended the Spring Meeting of PTIC in Ottawa.

1609. Patent Documentation Group (PDG). In March and September, WIPO officials attended meetings of the PDG's Working Group on the Impact of Patent Laws on Documentation, held in The Hague and Düsseldorf (Germany), respectively.

1610. Performing Right Society (PRS). In March, a WIPO official and a WIPO consultant from Switzerland discussed with PRS representatives questions of mutual interest, especially the collective management of copyright in developing countries.

1611. Pharmaceutical Trade Marks Group (PTMG). In March, a WIPO official spoke on the TLT and its Regulations at the 50th annual general meeting of PTMG, held in London.

1612. Seoul National University. In July, three researchers from the Center for Area Studies of that University were briefed by WIPO officials in Geneva on copyright issues relating to the digital dissemination and use of works.

1613. Society for the Administration of the Rights of Performing Artists and Musicians (ADAMI). In March and April, a WIPO official and a WIPO consultant from Switzerland (the latter in March only) had discussions with representatives of ADAMI in Paris on cooperation between WIPO and ADAMI for the benefit of developing countries. In June, the Secretary General and another representative of ADAMI had discussions with the Director General and other WIPO officials in Geneva on cooperation between the two organizations in assisting developing countries in the field of neighboring rights.

1614. Software Information Center (SOFTIC), Japan. In November, a WIPO official participated as a speaker in the fifth SOFTIC International Symposium on the Problems of Intellectual Property Rights in the Context of Information Networks, held in Tokyo.

1615. Software Publishers Alliance (SPA). In June, a WIPO official made a presentation on the impact of digital technology on copyright and the preparation of a possible Protocol to the Berne Convention at the sixth annual conference of SPA, in Cannes (France).

1616. Spanish Society of Performers (AIE). In November, the President of AIE had discussions with the Director General and other WIPO officials in Geneva on cooperation activities between WIPO and AIE, including the organization, in Madrid in April 1996, of a worldwide congress of performers and performers' societies.

1617. University of Amsterdam. In July, a WIPO official presented a paper at a Colloquium on the Future of Copyright in a Digital Environment, organized by that University in Amsterdam.

1618. University of Lausanne (Switzerland). In March, two WIPO officials attended a seminar on "Genetic Engineering: Patentability and Marketing," at the University of Lausanne.

1619. World Patent Information (WPI). In October, a WIPO official participated in the WPI Management Committee Meeting 1995, held in Luxembourg.

PART V: STAFF AND ADMINISTRATIVE SUPPORT ACTIVITIES

Staff and Support Activities

1620. Missions. In 1995, the Director General undertook missions to or attended meetings held in AUSTRIA, CANADA, ECUADOR, EGYPT, FRANCE, GERMANY, ITALY, KENYA, MEXICO, UKRAINE, the UNITED REPUBLIC OF TANZANIA and the UNITED STATES OF AMERICA.

1621. The following 127 countries were visited by WIPO officials or WIPO consultants either on advisory missions or to attend meetings: ALBANIA, ALGERIA, ANGOLA, ARGENTINA, AUSTRALIA, AUSTRIA, AZERBAIJAN, BAHRAIN, BANGLADESH, BARBADOS, BELARUS, BELGIUM, BENIN, BHUTAN, BOLIVIA, BOTSWANA, BRAZIL, BRUNEI DARUSSALAM, BULGARIA, BURKINA FASO, CAMBODIA, CAMEROON, CANADA, CENTRAL AFRICAN REPUBLIC, CHAD, CHILE, CHINA, COLOMBIA, CONGO, COSTA RICA, CÔTE D'IVOIRE, CUBA, CZECH REPUBLIC, DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA, DENMARK, DJIBOUTI, ECUADOR, EGYPT, EL SALVADOR, ERITREA, ESTONIA, ETHIOPIA, FIJI, FINLAND, FRANCE, GAMBIA, GERMANY, GHANA, GUATEMALA, GUINEA, GUINEA-BISSAU, GUYANA, HONDURAS, HUNGARY, INDIA, INDONESIA, IRAN (ISLAMIC REPUBLIC OF), ISRAEL, ITALY, JAMAICA, JAPAN, JORDAN, KAZAKSTAN, KENYA, KUWAIT, KYRGYZSTAN, LAOS, LATVIA, LEBANON, LESOTHO, LIBYA, LITHUANIA, LUXEMBOURG, MADAGASCAR, MALAWI, MALAYSIA, MALI, MAURITANIA, MAURITIUS, MEXICO, MONGOLIA, MOROCCO, NAMIBIA, NEPAL, NETHERLANDS, NICARAGUA, NIGER, NIGERIA, PAKISTAN, PARAGUAY, PERU, PHILIPPINES, POLAND, PORTUGAL, QATAR, REPUBLIC OF KOREA, REPUBLIC OF MOLDOVA, ROMANIA, RUSSIAN FEDERATION, SAINT LUCIA, SAUDI ARABIA, SINGAPORE, SLOVAKIA, SLOVENIA, SOUTH AFRICA, SPAIN, SRI LANKA, SWAZILAND, SWEDEN, SWITZERLAND, THAILAND, THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA, TOGO, TRINIDAD AND TOBAGO, TUNISIA, TURKEY, UKRAINE, UNITED ARAB EMIRATES, UNITED KINGDOM, UNITED REPUBLIC OF TANZANIA, UNITED STATES OF AMERICA, URUGUAY, UZBEKISTAN, VENEZUELA, VIET NAM, ZAMBIA, ZIMBABWE.

Staff

1622. As of December 31, 1995, the International Bureau had a total of 517 staff members, of which 57% were women. One hundred and eighty-three staff members were in the Professional and higher categories (35% of the total staff) and 334 in the General Service category. Altogether, 64 nationalities were represented in the International Bureau. Sixty new staff members (20 in the Professional and higher categories and 40 in the General Service category) joined WIPO during 1995, while 16 left the International Bureau.

1623. During 1995, 69 posts were advertised, of which 20 were in the Professional and higher categories and 49 in the General Service category. For advertised vacancies in the Professional and General Service categories, appointment boards were established to review candidatures, interview short-listed candidates and recommend to the Director General a name, or several names, among the candidates, for appointment. These boards consisted of four staff members,

one of whom was selected from among a list of names recommended by the WIPO Staff Council. Appointments were made on the basis of merit, due account being taken of candidatures from regions of the world which were insufficiently represented on the staff of the International Bureau.

1624. Practically all staff members participated in the United Nations Joint Staff Pension Fund (UNJSPF) on a compulsory basis. As of December 31, 1995, there were 608 participants from WIPO. Eighty-four new participants, including short-term employees, joined the Fund in the year under review, while 27 separations were registered.

1625. Staff members were provided with health insurance and professional accident insurance. Dependents and pensioners were also covered by the health insurance scheme. A non-professional accident insurance for staff members (including their dependents) and pensioners was provided on an optional basis at the expense of the staff members. At the end of 1995, 1,279 persons were covered by the main health insurance scheme and 426 opted for the non-professional accident insurance. All WIPO's insurance contracts were with international commercial insurance companies. During the year, 151 staff members attended work-related language courses in Chinese, English, French, Russian and Spanish. As far as working hours were concerned, about 83% of staff members used the flexible working hours system. Under that system, staff members had to be at work each day during the core times of 9 a.m. to 11.45 a.m. and 2.15 p.m. to 4.30 p.m. As the working week consisted of 40 hours, the remaining working time had to be spent in the working day's time frame of 7 a.m. to 7 p.m., according to the necessities of service and the choice of the staff members.

Recent Developments in Computerization

1626. Over the past several years, there had been a rapid development in the computerization of the International Bureau's internal management and computer-generated information systems. The objectives of the computerization were to make the performance of tasks more efficient, especially in the services, including the provision of information, under the international registration treaties, to member States, applicants and the public.

1627. A major part of the resources and efforts invested in the computerization of the International Bureau's work was concentrated on the registration activities. The fruits of such work are mainly described in those parts of the present document that deal with the PCT and the Madrid system. Computerization work of general relevance to the International Bureau as a whole is described below.

1628. With the completion, in 1994, of the optical fiber and other transmission links of the office-wide computer network, the changeover to the latest text processing and other office software commenced in 1995. The installation of new personal computers and printing equipment, and the training of staff in the use of the new text processing software started in May and were completed in September. Staff members received training in a specially equipped training room, based upon a user guide specifically developed to give guidance to users of the computerized text processing. This new system handled texts in English, French and Spanish, with other systems being developed to handle Arabic, Chinese and Russian, all based upon personal computers; the latter systems were operational by the end of 1995. In that

changeover, 210 professional and secretarial staff were trained, and 170 new personal computers, and nearly as many desktop printers, were installed.

1629. During the period under review, a study was started on the general question of office links, which encompassed the provision of internal and external E-mail facilities.

1630. In 1995, work was substantially completed in the adaptation of the WIPO computer systems, using the mainframe computer of the International Computing Centre (ICC), so that those systems conformed to the standardized operating system being implemented by the ICC. That adaptation, which was expected to be completed early in 1996, would provide greater security and reliability of those WIPO computer systems, used in the day-by-day work of the PCT and Madrid registration units, as well as in the recording of all WIPO financial transactions.

1631. A revised interface was put into place between the FINAUT (FINance AUTomation) system used in the Budget and Finance Department for its current work and the new MAPS (Madrid Agreement and Protocol System) computer system for the international registration of trademarks, with the aim of avoiding the double entry of data and enabling each system to exchange information.

1632. During the period under review, other computerization activities related to, *inter alia*, the establishment of a unified computerized inventory system, the possible computerization of the Meetings and Documents Service, the completion of a study on the further computerization needs in the payroll and personnel management areas, the automation project for the Publications Sales and Distribution Unit and the Library, and the extension of the office-wide computer network to the BIRPI building and to the offices in the temporary building that was being constructed (for details, see under "Premises," below).

Printing Facilities

1633. The Reproduction Service of the International Bureau was responsible for WIPO's printing requirements and included an internal printing plant located in the first basement of the WIPO building which was one of the most modern and well-equipped in Geneva. Constant monitoring of new technologies during 1995 enabled WIPO to maintain its pioneer position, to further increase its printing productivity and to make better use of existing resources. The internal printing plant used two types of printing technology: (i) offset printing machines, mostly used for internal documents and publications, combined with several high-performance assembly lines for the assembling and stapling of documents, and (ii) seven sophisticated high-speed photocopiers, mainly used for PCT pamphlets, which also automatically assembled and stapled the printed output.

1634. The high-speed photocopiers in operation were controlled by computerized touchscreens and leased by WIPO. Each machine was designed for continuous use and could handle a very high number of copies with its three paper holders which could be filled continuously. In order to make maximum use of these facilities, the printing plant worked an average 16 hours per day, on a two-shift basis, five days per week, and was manned by some 14 persons.

1635. During the period under review, 40,375 documents, each having an average of 50 pages (including 35,675 PCT pamphlets, each having an average of 34 pages) were printed in-house, totaling 1,488,325 pages of originals. This represented an increase of approximately 14% in the number of documents and PCT pamphlets as compared with 1994. Over 91 million pages in total were printed in 1995.

1636. The Service continued using the Optical Character Recognition (OCR) program and scanner which permitted the capturing of printed or typewritten texts without the need for retyping and allowed the texts to be further processed on the various word processing equipment throughout the International Bureau. In 1995, 5,338 pages were scanned in this way.

1637. The internal printing plant specialized in the rapid production of documents required by the International Bureau on a daily basis. For the printing of books or periodicals, WIPO relied on the services of outside printers; orders placed outside covered the entire range of the Organization's printing requirements and involved a great diversity of publications such as the monthly reviews Industrial Property and Copyright/La Propriété industrielle et le Droit d'auteur, PCT Newsletter, Les Marques internationales, Industrial Designs Bulletin, and the weekly PCT Gazette/Gazette du PCT, books, loose-leaf manuals, guides, posters, newsletters, information material, stationery and business cards.

1638. During the period under review, the Reproduction Service also handled the paper requirements for the entire Organization, both internally and, as far as the reviews were concerned, externally, as well as the installation and servicing of the 57 small photocopying machines in operation throughout the Organization.

Support Activities for Meetings and Documents

1639. The Meetings and Documents Service attended to 3,864 participants in 57 meetings organized at the headquarters of WIPO during the period under review, and prepared documents and other material for mailing or handing over to some 12,000 participants in 229 meetings outside Geneva.

1640. In 1995, the Meetings and Documents Service of the International Bureau made some 121,000 mailings containing documents or printed material to over 3,500 addressees worldwide.

The WIPO Library

1641. The library's collection in 1995 consisted of approximately 38,000 items. The material relating to intellectual property which was available at the library covered the following 13 serialized areas: WIPO and UPOV Documents; Industrial Property; Patents; Designs and Industrial Designs; Utility Models; Marks; Other Industrial Property Rights; Information Science, Documentation; Copyright, Literary and Artistic Property; Neighboring Rights; Communication Rights; New Varieties of Plants; Restrictive Trade Practices and Other Matters. Material was also available in the following three general areas: Legal, Economic and Social Sciences; International Organizations; General Works: Dictionaries, Encyclopaedias.

1642. The library also maintained a collection, in English and French, of intellectual property national and international legislation as published by WIPO, both on paper and on CD-ROM ("IPLEX"). A computerized library management system on a Local Area Network (LAN) had been available at the WIPO library since 1990, under the name OASIS (Open Access Strategic Information System). It contained seven modules, namely, Catalog, Acquisitions, Serial Control, On-line Public Access Catalog (OPAC), Extract and full Extract, and allowing, through Extract, a full-text retrieval search. There were one main file server and four workstations, one of which was available to the public. The system made possible the performance, for users of the library, of complex searches in publications and documents for various specific subjects in the whole field of intellectual property.

1643. The library published bimonthly bibliographical lists containing information on new acquisitions which, in 1995, were distributed in printed form and on diskette, free of charge, to many persons and institutions worldwide. In 1995, preliminary studies were carried out for the purpose of making the library catalog available on CD-ROM.

1644. The main subjects of automated searches in 1995 were: protection of software and multimedia; protection of biotechnological inventions; WIPO/WTO relationship under the TRIPS Agreement; North American Free Trade Agreement (NAFTA); Eurasian Patent Convention; Protocol to the Berne Convention; copyright on the transfer and availability of data on the information superhighways; Trademark Law Treaty; WIPO Arbitration Center; plant variety questions. In addition, historical research on national and international legislation, employee inventions and industrial property systems in newly independent States was also carried out.

1645. The users of the library in 1995 were 70% staff members and 30% outside users. The library handled some 600 queries per month, that is, a total of about 7,000 in 1995.

The Languages Division

1646. The work of the Languages Division consisted, in 1995, of primarily the translation of preparatory documents for meetings and meeting reports; the translation and, as needed, the editing of legislative texts (mainly national laws in the fields of industrial property and copyright and neighboring rights) to be published as inserts in WIPO's monthly reviews Industrial Property and Copyright and La Propriété industrielle et le Droit d'auteur; the translation of lectures to be delivered at seminars, colloquiums or training courses organized at the headquarters of WIPO or elsewhere, of draft laws and regulations submitted in the original language to the International Bureau for comments, of guides, studies and manuals prepared by the International Bureau, and of WIPO's semestral and annual activities reports. The Division provided translations into Arabic, Chinese, English, French, Russian and Spanish.

1647. The translation work load in 1995 could be roughly broken down as follows: French 42%, Spanish 24%, Arabic 10%, English 9%, Russian 9%, Chinese 6%. The demand increased by some 10% as regards French and by 300% as regards Chinese. There was also an increase of 48% compared to 1994, in the volume of the above-mentioned legislative texts (particularly Arabic, English and French) which were translated.

1648. In 1995, productivity increased in the Division by 10%, mainly through improvement of the organization and quality of the translation work, which enabled revisors to carry out themselves less revision and more translation work, and the development of translation aides such as glossaries. In this respect, an English-French Glossary on Industrial Property Information and Documentation (including about 1,200 terms), prepared by the French Translation Section, was issued in June. That Section also worked on the preparation of three additional glossaries on terminology relating to WIPO administration and finances, industrial property law, and new plant varieties, respectively, to be finalized in 1996.

Premises

1649. The WIPO premises consisted, in 1995, of the headquarters building (including the former headquarters building of BIRPI), the Centre administratif des Morillons (CAM) building, as well as some 110 working places in two nearby buildings (Procter and Gamble, and Union Carbide, which was replaced and taken over by the High Commissioner for Refugees (HCR) during the course of the year). Four depots for storage were also rented by WIPO: two in Meyrin for archives and office material, respectively, one in Collex for office furniture and material, and one in Villeneuve (Vaud) for material to be used at a later stage in the new extension of the BIRPI building (see below).

1650. To take account of the ever growing space requirements for offices, meeting rooms for delegates and parking, numerous discussions were held, in 1995, between the Director General and other WIPO officials and officials of the Governments of the Swiss Confederation and of the Canton and City of Geneva, as well as with consulting architects, on the possibilities of constructing a new building on an adjoining lot (the "Steiner lot").

1651. In view of the urgent need for further space, the construction of a temporary extension of the BIRPI building was proposed by the International Bureau and subsequently approved by the Governing Bodies at their September/October sessions. Construction work started immediately for the new extension, which would be adjacent to the WIPO headquarters and would provide about 120 working places. It was expected to be ready by September 1996.

1652. At the WIPO building (which was completed in 1978 and had thus been occupied for over 17 years), extensive work was carried out relating to the cabling required by the growing computerization demand, the linking of the various buildings in this respect and in that of telecommunications, the making available of computer sites and of space for new machines as well as the transformation of office space, in particular to accommodate the growing staff and equipment of the PCT Divisions and the receiving Office under the PCT. In 1995, 65 requests for the rearrangement of offices in the various WIPO premises were dealt with. In connection with the temporary extension of the BIRPI building, a study was undertaken by the Buildings Division, in cooperation with the Computerization Division, for extending the computer network to the BIRPI building and to the new offices to be provided in the temporary extension of that building.

1653. During the year, the possibility of replacing all or part of the elevators in the WIPO building was being studied and consultations with specialists were undertaken to that end. Extensive repair work for the waterproofing and insulation of the roof of Conference Room A

(the main Conference Room) was completed. In addition, several other projects were carried out, including the revision and improvement of security devices for the PCT, installation of an automatic barrier for parking spaces outside the BIRPI building, renovation and retiling of the cafeteria's kitchen floor (in the basement), and creation of a network connecting the BIRPI building and the temporary building (under construction) to the automatic diesel-powered emergency generator.

ANNEX A

WIPO DEVELOPMENT COOPERATION ACTIVITIES
FROM JANUARY 1 TO DECEMBER 31, 1995

This Annex contains two tables showing the main development cooperation activities of WIPO during the period under review, both in the field of industrial property and in the field of copyright and neighboring rights.

Table I lists, by region, the developing countries, territories and organizations of developing countries which benefited from such activities during the said period and shows, for each, the form or forms of cooperation.

Table II lists the countries and international organizations which have contributed, during this period, to development cooperation activities by providing funds, meeting facilities, experts or other support services.

Preamble	1
Article 1: Abbreviated Expressions	1
Article 2: Laws and Regulations	2
Article 3: Implementation of Article 6 ^{ter} of the Paris Convention for the Purposes of the TRIPS Agreement	3
Article 4: Legal-Technical Assistance and Technical Cooperation	4
Article 5: Final Clauses	4

Preamble

The World Intellectual Property Organization (WIPO) and the World Trade Organization (WTO),

Desiring to establish a mutually supportive relationship between them, and with a view to establishing appropriate arrangements for cooperation between them,

Agree as follows:

Article 1
Abbreviated Expressions

For the purposes of this Agreement:

- (i) "WIPO" means the World Intellectual Property Organization;
- (ii) "WTO" means the World Trade Organization;
- (iii) "International Bureau" means the International Bureau of WIPO;

* The Agreement Between the World Intellectual Property Organization and the World Trade Organization bears the date of December 22, 1995, date on which it was signed by the Director General of WIPO and the Director-General of the WTO; it entered into force on January 1, 1996.

(iv) "WTO Member" means a party to the Agreement Establishing the World Trade Organization;

(v) "the TRIPS Agreement" means the Agreement on Trade-Related Aspects of Intellectual Property Rights, Annex 1C to the Agreement Establishing the World Trade Organization;

(vi) "Paris Convention" means the Paris Convention for the Protection of Industrial Property of March 20, 1883, as revised;

(vii) "Paris Convention (1967)" means the Paris Convention for the Protection of Industrial Property of March 20, 1883, as revised at Stockholm on July 14, 1967;

(viii) "emblem" means, in the case of a WTO Member, any armorial bearing, flag and other State emblem of that WTO Member, or any official sign or hallmark indicating control and warranty adopted by it, and, in the case of an international intergovernmental organization, any armorial bearing, flag, other emblem, abbreviation or name of that organization.

Article 2
Laws and Regulations

(1) [*Accessibility of Laws and Regulations in the WIPO Collection by WTO Members and Their Nationals*] The International Bureau shall, on request, furnish to WTO Members and to nationals of WTO Members copies of laws and regulations, and copies of translations thereof, that exist in its collection, on the same terms as apply to the Member States of WIPO and to nationals of the Member States of WIPO, respectively.

(2) [*Accessibility of the Computerized Database*] WTO Members and nationals of WTO Members shall have access, on the same terms as apply to the Member States of WIPO and to nationals of the Member States of WIPO, respectively, to any computerized database of the International Bureau containing laws and regulations. The WTO Secretariat shall have access, free of any charge by WIPO, to any such database.

(3) [*Accessibility of Laws and Regulations in the WIPO Collection by the WTO Secretariat and the Council for TRIPS*] (a) Where, on the date of its initial notification of a law or regulation under Article 63.2 of the TRIPS Agreement, a WTO Member has already communicated that law or regulation, or a translation thereof, to the International Bureau and that WTO Member has sent to the WTO Secretariat a statement to that effect, and that law, regulation or translation actually exists in the collection of the International Bureau, the International Bureau shall, on request of the WTO Secretariat, give, free of charge, a copy of the said law, regulation or translation to the WTO Secretariat.

(b) Furthermore, if, for the purposes of carrying out its obligations under Article 68 of the TRIPS Agreement, such as monitoring the operation of the TRIPS Agreement or providing assistance in the context of dispute settlement procedures, the Council for TRIPS of the WTO requires a copy of a law or regulation, or a copy of a translation thereof, which had not previously been given to the WTO Secretariat under

subparagraph (a), and which exists in the collection of the International Bureau, the International Bureau shall, upon request of either the Council for TRIPS or the WTO Secretariat, give to the WTO Secretariat, free of charge, the requested copy.

(c) The International Bureau shall, on request, furnish to the WTO Secretariat on the same terms as apply to Member States of WIPO any additional copies of the laws, regulations and translations given under subparagraph (a) or (b), as well as copies of any other laws and regulations, and copies of translations thereof, which exist in the collection of the International Bureau.

(d) The International Bureau shall not put any restriction on the use that the WTO Secretariat may make of the copies of laws, regulations and translations transmitted under subparagraph (a), (b) or (c).

(4) [*Laws and Regulations Received by the WTO Secretariat from WTO Members*] (a) The WTO Secretariat shall transmit to the International Bureau, free of charge, a copy of the laws and regulations received by the WTO Secretariat from WTO Members under Article 63.2 of the TRIPS Agreement in the language or languages and in the form or forms in which they were received, and the International Bureau shall place such copies in its collection.

(b) The WTO Secretariat shall not put any restriction on the further use that the International Bureau may make of the copies of the laws and regulations transmitted under subparagraph (a).

(5) [*Translation of Laws and Regulations*] The International Bureau shall make available to developing country WTO Members which are not Member States of WIPO the same assistance for translation of laws and regulations for the purposes of Article 63.2 of the TRIPS Agreement as it makes available to Members of WIPO which are developing countries.

Article 3
Implementation of Article 6^{ter} of the Paris Convention
for the Purposes of the TRIPS Agreement

(1) [*General*] (a) The procedures relating to communication of emblems and transmittal of objections under the TRIPS Agreement shall be administered by the International Bureau in accordance with the procedures applicable under Article 6^{ter} of the Paris Convention (1967).

(b) The International Bureau shall not recommunicate to a State party to the Paris Convention which is a WTO Member an emblem which had already been communicated to it by the International Bureau under Article 6^{ter} of the Paris Convention prior to January 1, 1996, or, where that State became a WTO Member after January 1, 1996, prior to the date on which it became a WTO Member, and the International Bureau shall not transmit any objection received from the said WTO Member concerning the said emblem if the objection is received by the International Bureau more than 12 months after receipt of the communication of the said emblem under Article 6^{ter} of the Paris Convention by the said State.

(2) [*Objections*] Notwithstanding paragraph (1)(a), any objection received by the International Bureau from a WTO Member which concerns an emblem that had been communicated to the International Bureau by another WTO Member where at least one of the said WTO Members is not party to the Paris Convention, and any objection which concerns an emblem of an international intergovernmental organization and which is received by the International Bureau from a WTO Member not party to the Paris Convention or not bound under the Paris Convention to protect emblems of international intergovernmental organizations, shall be transmitted by the International Bureau to the WTO Member or international intergovernmental organization concerned regardless of the date on which the objection had been received by the International Bureau. The provisions of the preceding sentence shall not affect the time limit of 12 months for the lodging of an objection.

(3) [*Information to Be Provided to the WTO Secretariat*] The International Bureau shall provide to the WTO Secretariat information relating to any emblem communicated by a WTO Member to the International Bureau or communicated by the International Bureau to a WTO Member.

Article 4
Legal-Technical Assistance and Technical Cooperation

(1) [*Availability of Legal-Technical Assistance and Technical Cooperation*] The International Bureau shall make available to developing country WTO Members which are not Member States of WIPO the same legal-technical assistance relating to the TRIPS Agreement as it makes available to Member States of WIPO which are developing countries. The WTO Secretariat shall make available to Member States of WIPO which are developing countries and are not WTO Members the same technical cooperation relating to the TRIPS Agreement as it makes available to developing country WTO Members.

(2) [*Cooperation Between the International Bureau and the WTO Secretariat*] The International Bureau and the WTO Secretariat shall enhance cooperation in their legal-technical assistance and technical cooperation activities relating to the TRIPS Agreement for developing countries, so as to maximize the usefulness of those activities and ensure their mutually supportive nature.

(3) [*Exchange of Information*] For the purposes of paragraphs (1) and (2), the International Bureau and the WTO Secretariat shall keep in regular contact and exchange non-confidential information.

Article 5
Final Clauses

(1) [*Entry into Force of this Agreement*] This Agreement shall enter into force on January 1, 1996.

(2) [*Amendment of this Agreement*] This Agreement may be amended by common agreement of the parties to this Agreement.

(3) [*Termination of this Agreement*] If one of the parties to this Agreement gives the other party written notice to terminate this Agreement, this Agreement shall terminate one year after receipt of the notice by the other party, unless a longer period is specified in the notice or unless both parties agree on a longer or a shorter period.
