LIMITATION OF GOODS AND SERVICES

The limitation you are requesting will reduce the list of goods and services in respect of some, or all the Contracting Parties designated in the international registration. The goods and services that are the subject of the limitation will remain in the main list of the international registration, but they will no longer be covered by the designated Contracting Party concerned. You may later request the recording of a subsequent designation for the goods and services that are the subject of the limitation. Request a partial cancellation to permanently remove the goods and services from the main list of your international registration. Request a renunciation if you wish to abandon the effects of your international registration (for all the goods and services) with respect to one or more (but not all) of the designated Contracting Parties.

GOODS AND SERVICES

The goods and services affected by the limitation will remain in the main list of the international registration and therefore, may continue to be taken into account in the calculation of the supplementary fees at the time of renewal. If these goods and services are to be permanently removed from the International Register, you must request the recording of a partial cancellation instead.

[More on how to request a cancellation.](#)

The classes of goods and services as currently recorded in the subject international registration are listed below.

- To limit the list of goods and services in a particular class click the "View/Modify Class" icon next to the class(es) concerned. This will display the list of goods and services as recorded in the International Register. Simply amend this list to indicate the new limited list of goods and services for that class. Do not list the goods and services you wish to delete. The new list of goods and services will be recorded in respect of the Contracting Parties indicated in Step 2.
- To delete an entire class from the list of goods and services in respect of the Contracting Parties indicated in Step 2, click on the "Remove entire class" icon next to the class(es) concerned.

Any classes listed below that are not modified or deleted will remain as recorded in the international registration [unchanged].

WIPO will not examine the limited list of goods and services. However, the Contracting Parties concerned will examine the limitation in accordance with their local laws and practices. Therefore, you may wish to use [the Madrid Goods & Services Manager \(MGS\)](#) to check whether the proposed new terms are acceptable in those Contracting Parties.
