Ushahidi

Ushahidi's Theory of Change

USHAHIDI	PARTNERS	SYSTEMS LEVEL CHANGE

Ushahidi provides tech and expertise... → To the right partners... → Who collect data from end users... → Data is then used to create impact

Mission-aligned organizations using the Ushahidi platform to raise citizen voices

Raising voices ultimately creates system change within three impact areas, at several levels:

- **Citizens** feel more included
- **Organisations** are more effective
- **Policies** are more inclusive
- **Open-source community** is strengthened

Seeds = Data
Land = Platforms e.g. Ushahidi
Farmers = People!
