Database description

Chemical Explorer is Minesoft's tool for simplifying searching chemical information from patent full text, images and R-group table compounds. The index is updated daily to cover new publications from over 100 patent-issuing authorities. The update speed ensures users have access to the latest information.

Chemical terminology such as names, including systematic names (e.g. International Union of Pure and Applied Chemistry (IUPAC)), trivial names (e.g. International Nonproprietary Name (INN)), trade names, CAS numbers, condensed line formulas, images (from United States Patent and Trademark Office (USPTO)), R-group table compounds (from USPTO) can be searched. Direct links to external sources are also included to enable further research. Full chemical structure drawing is supported, and the ability to import or export these chemical structures is included as well. Flexible search options include the ability to search by identity, similarity or substructure.

Chemical Explorer can be used in conjunction with PatBase and PatBase Express. Results from chemical structure searches on Chemical Explorer can be loaded directly to PatBase and PatBase Express for a detailed review of the patent text. Refer to the PatBase or PatBase Express reports for more information.

Jurisdiction file: Egypt

EGYPT - EG

Jurisdiction - General Information

Egypt has been a Contracting Party to the Paris Convention for the Protection of Industrial Property since July 1, 1951. It has also been a Contracting Party to the Patent Cooperation Treaty (PCT) since September 6, 2003.

Egypt is also part of the regional IP information platform [ARABPAT](#).

More legal information about intellectual property-related laws and regulations of Egypt can be found on [WIPO Lex](#).

Online Patent Register and Online Gazette

Egypt has an [Online Register](#) and an [Online Gazette](#).

Features and search functionalities

The online patent register has an **Arabic, English, French** and **Japanese interface**.

Through the patent register you can retrieve basic information on **PCT National Phase Entry** and **Legal Status**.

The patent register can also be searched by **PCT Application/Publication Number**, by **Applicant/Inventor Name**, and by **Priority Data**.

A national patent database is also available at this [link](#).

The online gazette is published monthly in Arabic. It is searchable by number and downloadable in PDF format. The current coverage is from 2000 to present.

Even though ARABPAT is still under development, the **Full Publications** of Egyptian patents can usually be retrieved [here](#). **Legal Status** information will progressively become available in the future. For more information about ARABPAT, consult the [detailed jurisdiction file](#).

Additional Information

Particularities of patent protection in Egypt

The official gazette contains all the decisions issued by the Egyptian Patent Office, e.g. acceptance, refusal, etc. The applicant has the right to oppose these decisions before an appeal committee.

Search tips

The "Search" tab allows searching in a limited number of fields, while the "Advanced Search" tab offers the possibility to add a large number of text, date and number fields.

Priority Data can be searched by number, eg., "102004002044.2" for priority DE 102004002044.2.

PCT Application/Publication Number can be searched in the format, eg., "WO/2010/090659".

An example of **Legal status** is, eg., "Registered" for patent n.26384.

Under the "Status" tab the **PCT National Phase Entry** is also reported.

An example of a **Full Publication** available on ARABPAT is, e.g., patent EG26384

The screenshot displays the WIPO eTISC user interface. At the top, a dark blue header contains the WIPO logo on the left and navigation links for 'Contact Us', 'Hello Mussadiq Hussain', and 'Log out' on the right. Below the header, a light gray sidebar on the left lists navigation options: Home, Patent Databases, Patent Registers, Patent Analytics, Technology Transfer, and eTISC. The main content area features the title 'WIPO eTISC' and a descriptive paragraph: 'WIPO eTISC is a social platform which provides a secure space for the Technology and Innovation Support Center (TISC) community and intellectual property (IP) users to interact with each other and share knowledge and ideas.' To the right of this text are links for 'My eTISC' and 'My Profile'. A secondary navigation bar below the main text includes links for Home, News, Events, Forum, Groups, Ask the Expert, Gallery, Members, and About. The user's name, 'Mussadiq Hussain', is displayed in a light gray box. Below this, a horizontal menu contains links for 'My News', 'My Events', 'My Forums', 'My Groups', 'My Photos', and 'My Videos'. A 'Create News' button is located to the right of this menu. The text 'No data found!' is centered below the menu. Red boxes highlight the 'My News' link and the 'Create News' button.
