Transfer of Knowledge Division, INAPI, CHILE**

Second WIPO Inter-Regional Meeting on South-South  
Cooperation on Patents, Trademarks, Geographical  
Indications, Industrial Designs and Enforcement  
Cairo, May 6 to 8, 2013

# Our Institution >>

INAPI is the agency responsible for the management of industrial property rights in Chile, and furthermore of promoting the protection that industrial property affords, and to disseminate technological assets and its available information.

The Institute contributes to the innovation and entrepreneurship strategy promoted by the Government of Chile, creating an efficient system for the use and protection of intellectual property rights, while also promoting competition and transfer of knowledge to the society.

# Why we create INAPI proyectos?

- Low use of Industrial property rights by residents

In Chile, patent applications by residents have been on average nearly 10%.

- The industrial property is considered to as an end itself , not as means.

The typical question : I have the patent , What I do now?

- Weak use of rights such as utility models, industrial design, integrated circuits.

- Patent applications have low quality or do not meet requirements of the Industrial Property Law.

**In summary, lack of use of the I.P. system and their benefits.**

# INAPI Proyecta

[http:// www.inapiproyecta.cl](http://www.inapiproyecta.cl)
