PATENT COOPERATION TREATY

INTERIM COMMITTEE FOR TECHNICAL COOPERATION

Fifth Session

Geneva, October 29 to November 3, 1975

PROGRESS REPORT ON THE STATE OF COMPLETENESS
OF THE SEARCH FILES OF THE PROSPECTIVE PCT
AUTHORITIES IN RESPECT OF MINIMUM DOCUMENTATION
UNDER PCT RULE 34.1(c) (i) TO (v)

prepared by the International Bureau

Background

1. The PCT Interim Committee for Technical Cooperation (hereinafter referred to as "the Interim Committee"), at its fourth session, held in Geneva from November 14 to 19, 1974, asked the International Bureau to undertake a survey among the prospective International Searching Authorities, to ascertain the state of completeness of their search files.
2. The survey was carried out by means of the circular letter No. 2136, of February 28, 1975, containing a model for responses, so designed as to facilitate the indication of any significant gaps presently existing in each Office's documentation collections (see Annex A to this document).
3. This document reports on the results of the survey from the answers received up to July 10, 1975.

Results of the Survey

4. The following countries and the International Patent Institute have answered the circular letter No. 2136: Austria, Brazil, Germany (Federal Republic of), Japan, the Soviet Union, Sweden, the United States of America.
5. The answers received are listed below in the English alphabetical order of the names of the prospective International Searching Authorities. (hereinafter referred to as "the prospective Authorities").

International Searching Authority	Country of issue of the missing documents	Kind(s) of missing documents	Range of numbers	Range of dates	No. of documents
6. Austrian Patent Office	United Kingdom	Patents	524.679 - 550.300 551.001 - 551.100 551.801 - 552.400 553.001 - 553.800 554.201 - 555.200 555.501 - 556.200 556.601 - 557.400		
	Japan	Patents and patent applications English abstracts of patents and patent applications	missing completely	1.1.1920 - 1.1.1974	
7. Brazilian Patent Office (INPI)*	France	Patents and utility certificates, and applications therefor	2,000,000 - 2,155,500 (provision promised by INPI of France)		
	Germany and Germany (Fed. Rep. of) Japan	Patents Patents, patent applications and abstracts therefor in English	missing completely	1920-1950	
	Soviet Union	Patents, inventor's certificates and abstracts in English thereof	missing completely		
	United States of America	Patents		1.1.1920 - 1.7.1974	

* Above indications refer to patent documents needed for completing the INPI technical information bank's backlog collections of documents. These backlog collections are being introduced into the classified search files, as gradually reclassification lists become available, particularly in the framework of the CAPRI project of WIPO to be carried out in cooperation with INPADOC (International Cooperation in the classification of search files according to the International Patent Classification - see document P/EC/XI/5).

11. Soviet Union Patent Office

The State Committee for Inventions and Discoveries of the USSR Council of Ministers has communicated that present documentation collection has not any significant gaps in respect of the patent documents required to be included in the minimum documentation under PCT Rule 34.1(c) (i) to (v).

12. Swedish Patent Office

The Swedish Patent Office has communicated that gaps are present only in the patent documentation from Japan and the Soviet Union. For this documentation, the Swedish Patent Office has English language abstracts from 1972 onwards.

14. Certain prospective Authorities have not only given indications as to significant gaps in their documentation, but they have also presented information on documents they have in their search files, and documents they are negotiating to obtain. All answers received are therefore reproduced as Annexes B to I to this document.

15. It is recalled that PCT Rule 34.1(e) entitles any International Searching Authority whose official language, or one of whose official languages, is not Japanese or Russian, not to include in its documentation those patent documents of Japan and the Soviet Union, respectively, for which no abstracts in the English language are generally available. The answers to Circular 2136 show, however, that certain prospective Authorities already possess numerical collections of Japanese and Russian patent documents, which may be considered fairly complete.

16. Summing up, the following patent documents are necessary to fill existing gaps in the search file collections of present prospective Authorities:

- a) from France
approx. 3,500 patent specifications from 1939 - 1949 (for Japan)
- b) from the former Reichspatentamt of Germany and Germany (Federal Republic of)
approx. 15,200 patent specifications from 1944 - 1955 (for Japan)
approx. 30,000 - 40,000 Offenlegungsschriften published between October 23, 1969 and February 26, 1970 (for the U.S.A.)
approx. 440,000 patent specifications from 1920 - 1950 (for Brazil)
- c) from Switzerland
approx. 120,000 patent specifications, from 71.330 - 200.499 (for the IIB)
- d) from the United Kingdom
approx. 29,700 patent specifications, between 524.679 - 557.400 (for Austria)
- e) from the United States of America
approx. 3,000 patent specifications, from 1.326.899 - 1.329.999 (for the IIB)
approx. 32,500 patent specifications and reissues, from the years 1922 and 1923 (for Japan)
all patent specifications from 1920 to July 1, 1974 (approx. 2,500,000 patents) (for Brazil)

Subtotal a) - e): 3,183,900, approximately, in English, French and German languages.

- f) from Japan and the Soviet Union, taking into account the faculty offered by PCT Rule 34.1(e) in the case of non-existence of English language abstracts of the corresponding patent documents:

- i) from Japan
approx. 52,400 English abstracts from the Japanese Patent Center (for Germany (Fed. Rep. of))
approx. 167,000 patent documents and the corresponding number of English abstracts from Derwent (U.K.)
and the Japanese Patent Center (for Austria, Brazil, Sweden and the IIB)
approx. (900 examined patent applications) for the U.S.A.
(200 unexamined patent applications)

Subtotal f)i): 1,389,500 approximately, in Japanese, and English abstracts.

- ii) from the Soviet Union
approx. 139,000 patent documents and the corresponding number of English abstracts from Derwent (U.K.)
(for Brazil, Sweden and the IIB)

Subtotal f)ii): 834,000 approximately, in Russian, and English (abstracts).

Grand total a) - f): 5,407,400 documents, approximately - or 2,467,400 not considering the missing backlog collection of patent documents issued by Germany and Germany (Federal Republic of) and of US patents for Brazil.

Note: All numbers of missing abstracts (in English) have been repeated from document PCT/TCO/III/4, in which the cut-off date was July 1, 1971. A general revision of the inventory then presented was contemplated to take place only shortly before the expected entry into force of the PCT.

Follow-up steps

17. At its fourth session, the Interim Committee furthermore agreed that, after ascertaining the state of completeness of the search files of prospective Authorities, the International Bureau would inquire whether any existing gaps could be filled by obtaining the missing documents from the other Offices.
18. As far as Brazil is concerned, the International Bureau has been using its best efforts, in the framework for the implementation of the project for the modernization of the Brazilian patent system, to equip Brazil gradually with an information bank corresponding at least to the minimum documentation requirements of the PCT. For operational reasons, implementation is concentrating first on documents in the English, French and German languages.
19. On behalf of all prospective Authorities needing completion of their search files, the International Bureau should like to submit a request on this occasion to all countries from which the missing patent documents originated, and/or other countries in a position to provide the documents, for the furnishing of same documents under the most favorable terms.
20. The Interim Committee is requested to take note of this report and to provide its advice, if any, on further action to be undertaken by the International Bureau.

C.2136
PCT 21

February 28, 1975

Sir,

I have the honor to call to your attention that the Patent Cooperation Treaty (PCT) Interim Committee for Technical Cooperation at its fourth session held in Geneva from November 14 to 19, 1974, decided that the International Bureau shall send out a questionnaire to the prospective International Searching Authorities in order to ascertain whether the latter's search files are complete or whether they contain any gaps in respect of the patent documents required to be included in the minimum documentation under PCT Rule 34.1(c)(i) to (v). (See paragraphs 39 and 60(iv) of the Report of the fourth session, document PCT/TCO/IV/18).

In order to assist the International Bureau in implementing that decision, you are hereby kindly requested to indicate any gaps which presently exist in your Office's documentation collection in respect of the said patent documents. Only significant gaps need be indicated, unless more exact information is presently or readily available in your Office.

Your response should indicate these gaps by preferably using the model below:

- (a) the country of issue of the missing documents;
- (b) the kind(s) of missing documents; and
- (c) the range of numbers (and/or the range of dates) of the missing documents.

Country of issue of the missing documents	Kind(s) of the missing documents	Range of numbers (or range of dates) of the missing documents

In order to facilitate your response, your attention is drawn to the inventories of the patent documents to be included in the PCT minimum documentation set forth in document PCT/TCO/SS/I/2, particularly Annexes A to H, and in documents PCT/TCO/SS/III/4 and 4 Corr.

In respect of the patent documents of Japan and the Soviet Union, your attention is drawn to PCT Rule 34.1(e) and to document PCT/TCO/SS/III/4 containing a summary table which indicates the patent documents of Japan and the Soviet Union for which English language abstracts are generally available.

You are kindly requested to submit your response to the International Bureau by May 31, 1975.

Sincerely yours,

K. Pfanner

Re: C.2136-PCT 21

Annex I

Dear Mister Pfanner,

Thank you for your letter of February 28, 1975, in which you asked for some information on the completeness of the search files of the Austrian Patent Office with respect to Rule 34.1 (c) (i) to (v) PCT.

The documentation is complete as far as the documents issued by France, the former Reichspatentamt of Germany, the Federal Republic of Germany, Switzerland, the United Kingdom, and the United States of America are concerned.

There is only a minor gap of 29.700 specifications issued by the United-Kingdom-Patent-Office between No. 524.679 and No. 557.400 (Annex I). This minor lack of completeness is due to postal difficulties after the second world war and the Austrian Patent Office tries to fill in this gap in due course.

With respect to the documents of the Soviet Union and Japan the Interim Committee has recognised in its last session that there are considerable difficulties to indicate gaps at the present stage, in particular by the range of numbers of missing documents. However, I can give you the following information:

The Austrian Patent Office has a complete collection of the patent documents of the Soviet Union (Opisanie isobretenija up from Nr. 1). Furthermore, the Japanese patent documents are included in the collection of patent documents up from January 1, 1974.

Sincerely Yours

(Dr. Leberl)

Preparation of a list of gaps

Ref.: Circular No 3136 of February 28, 1975

Dear Dr. Bogsch,

In response to your questionnaire concerning gaps in the
PCT minimum documentation at the prospective International
Searching Authorities I have the honor to inform you of the
following:

The patent documents issued in and after 1920 by DT, FR, CH,
GB and US are classified and completely included in the search
file of the German Patent Office under PCT Rule 34.1 (i) to (v).

Moreover, the patent documents as issued by JA in and after
1935, and by SU in and after 1924, are completely available
at the library in numerical order. Out of the English-language
abstracts of patent documents published by JA and SU as specified
in document PCT/TCO/SS/III/4 Annex, pages 2 and 3, which the
International Searching Authorities whose official language
is not Japanese or Russian are required to include in their

documentation under PCT Rule 34.1 (e), the German Patent
Office completely possesses the abstracts prepared by
Derwent in a form that is suitable for searching purposes.
Only the abstracts of the Japan Patent Center are not
available.

I hope that this list will be useful for your further works
in respect of the PCT minimum documentation.

Sincerely yours,

Haertel

Re.: PCT Minimum documentation: patent documents

Dear Mr. Pfanner,

In reply to circular C 2136, I have the honor to inform you that, with respect to the patent documents mentioned in PCT-Rule 34.1 (c) (i) to (v), the content of the systematic documentation at the disposal of the IIB, differs from the PCT minimum documentation on the following points:

Country	Kind of missing documents	Range of numbers not included in the systematic documentation
CH	patents	about 120.000 documents within the range of numbers from 71.330 to 200.499 (these documents are stored at the IIB in numerical order).
US	patents	about 3.000 documents published in 1920 (from Nr. 1.326.899 to Nr. 1.329.999)
JA	patents	} Apart from some exceptions, not included in the systematic documentation
SU	patents inventors certificates
