

**TRADITIONAL KNOWLEDGE  
RESOURCE CLASSIFICATION**

# *Traditional Knowledge Digital Library*

- **Objective to prevent misappropriation of Indian TK at International level**
  - Reason of Misappropriation
    - Non-accessibility of Indian TK (prior art) to Patent Examiners
    - Language of India's TK incomprehensible for Patent Examiners
      - *A mandatory requirement for Patent grant , i.e. 'Novelty' could not be ascertained*
- **TKDL breaks the Language & Access barrier**
  - Converts Indian TK into five International Languages
    - English, Japanese, Spanish, German & French
- **Core of TKDL**
  - **Traditional Knowledge Resource Classification System**
    - linkage with IPC
      - akin to International Patent Classification
      - an abstracting & retrieval tool
      - recognised by committee of experts IPC Union, Geneva

# Prevention of Misappropriation of India's TK

- ▣ **Need for development of Classification tool**
  - **TK Codified or oral is unstructured as per modern terminology**
  - **Lack of access and non retrievable by search engines**
  - **Non available to Patent examiners despite being in public domain**
    - ▣ **prone to misappropriation**
    - ▣ **lack defensive as well as positive rights**

# Required Nature and Characteristics of Classification Tool

- **Dual purpose of Classification & Abstraction**
- **Must be independent of language**
  - **to create shift from locally understood to globally understood**
- **Wheel should not be re-invented, keep target audience in view, stakeholder(s) & examiners in IP system**
- **Simple and easily understandable**
- **Must create scientific and modern base i.e. terminology e.g.**
  - **plant names - local & botanical**
  - **disease names - local & modern**
- **Acceptable and agreed standards to be followed, such as IPC, ITC, NIC etc.**
- **Inference**
  - **IPC based** 

# Objectives of IPC

- ▣ **Primarily to provide an effective Classification & Search tool**
  - retrieval of patent information on a particular subject matter by patent examiner, R&D institutions, industries or any user of such information
    - ▣ to establish the novelty
    - ▣ evaluate the inventive step
    - ▣ assessments of latest developments in technologies
- ▣ **An instrument**
  - for an orderly arrangement of the patent documents
  - a basis for selective dissemination of information
  - a basis for investigating the state of the art in given fields of technology

# Structure of IPC

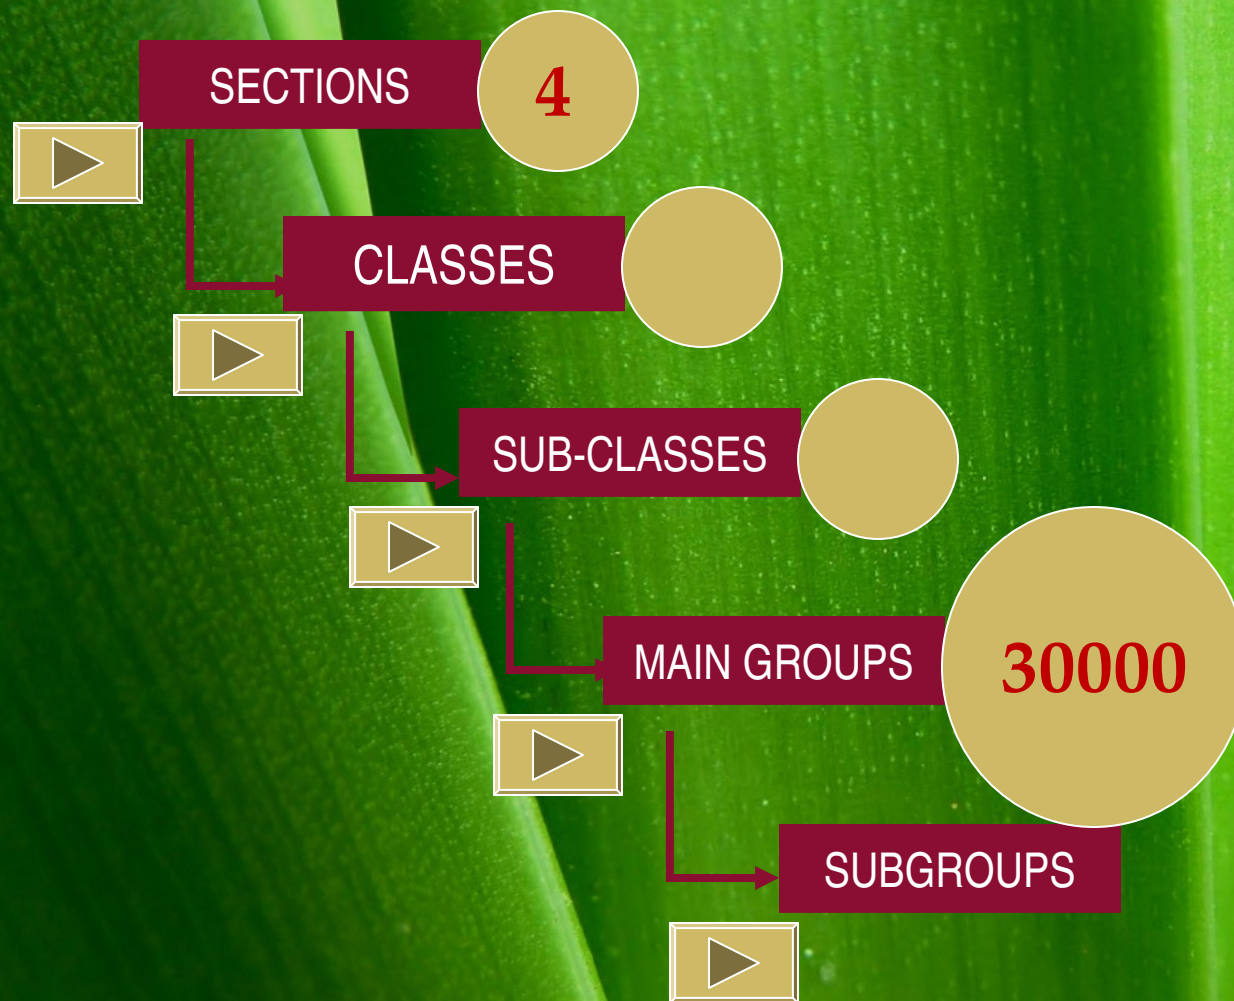

# Need of TKRC

- ▣ IPC had only one subgroup i.e. A 61 K 35/78 on medicinal plants
- 
- patent examiner (s) were unable to search TK patents for prior art
    - ▣ grant of several patents on India's TK where prior art exists

# Structure of TKRC

# Objectives of TKRC

- ▣ **Primarily to provide an effective Classification & Search tool**
  - ▣ **Retrieval of patent information in the area of Traditional Medicines, by patent examiner,**
    - ▣ **to establish the novelty**
    - ▣ **evaluate the inventive step**

## International Patent Classification (IPC) & Traditional Knowledge Resource Classification (TKRC)

| S. No. | Characteristics of Tool            | IPC   | TKRC  |
|--------|------------------------------------|---|---|
| 1.     | Objectives                         | to provide an effective search tool for retrieval of granted patents in a particular field of technology by patent examiner   | to provide an effective search tool for retrieval of Non Patent Literature on Indian Traditional Medicinal Systems by patent examiner                                   |
| 2.     | Classification Features            | a hierarchical system of language independent symbols to classify various technical fields  | a hierarchical system of language independent symbols to classify India's Traditional Systems of Medicine   |

# Section A – Ayurveda

## Classes : 4

- 01 – Pharmaceutical Preparations (*Kalpana*)
- 02 – Personal Hygiene Preparations
- 03 – Dietary (*food/food stuff or Beverages*)
- 04 – Biocides, Fumigatives (*Dhupana, krmighna*)

## Section A Class 01 – Pharmaceutical Preparations (*Kalpana*)

### ▣ Sub-Classes : 7

- 01A Based on *Audbhida* (Plants)
- 01B Based on *Jangama* (Animals)
- 01C Based on *Parthiva* (Minerals)
- 01D Characterised by *Roga* (Diseases)
- 01E Characterised by *Karma* (Action)
- 01F Mode of Administration
- 01G Miscellaneous

### ▣ Sub-Class: A01A – Pharmaceutical Preparations (*Kalpana*) Based on *Audbhida* (Plants)

|         |             |      |                                |
|---------|-------------|------|--------------------------------|
| ▣ Group | <b>A01A</b> | 1/00 | Whole medicinal plant          |
|         |             | 2/00 | Parts of medicinal plant used  |
|         |             | 3/00 | Characterised by Physical form |

## Section B – Unani

### Classes : 4

- 01 - Pharmacotherapy (*Ilaj bil Dava*)
- 02 - Dietotherapy (*Ilaj bil Ghiza*)
- 03 - Regimental Therapy (*Ilaj bil Tadbeer*)
- 04 - Surgery (*Ilaj bil Yad*)

### Class 01 – Pharmacotherapy (*Ilaj bil Dava*)

- **Sub-Classes : 8**
  - 01A Based on Medicinal Plants (*Nabatat*)
  - 01B Based on Animals and their products (*Hevanat*)
  - 01C Based on Metals/nonmetals/Minerals (*Maadinat*)
  - 01D Characterised by Diseases (*Amraz*)
  - 01E Action and properties of pharmaceutical Preparations
  - 01F Mode and time of Administration
  - 01G Characterised by Physical Form (Plants, Animals and Minerals)
  - 01H Temperament
- **Sub-Class: B01A – Pharmacotherapy (*Ilaj bil Dava*)**  
Preparations based on plants (*Nabatat*)

|                |      |      |                               |
|----------------|------|------|-------------------------------|
| ■ <b>Group</b> | B01A | 1/00 | Whole medicinal plant         |
|                |      | 2/00 | Parts of medicinal plant used |

# Section C – Siddha

## Classes : 3

- 01 – Pharmaceutical Preparations (*Marunthu Seimurai*)
- 02 – Personal Hygiene Preparations (*Noi illa neri murai*)
- 03 – Regimen (*Ozhukkam*)

## Section C Class 01 – Pharmaceutical Preparations (*Marunthu Seimurai*)

### ■ Sub-Classes : 7

- 01A Based on *Mooligai* (Plants)
- 01B Based on *Seevam* (Animals)
- 01C Based on *Thaathu* (Metals and Minerals)
- 01D Characterised by *Noigal* (Diseases)
- 01E Characterised by *Seigai* (Action)
- 01F Mode of Administration
- 01G Physical forms of Plants, Animals and Minerals

### ■ Sub-Class: C01A – Pharmaceutical Preparations (*Marunthu seimurai*) Based on Moologai (Plants)

- |         |      |      |                               |
|---------|------|------|-------------------------------|
| ■ Group | C01A | 1/00 | Whole medicinal plant         |
|         |      | 2/00 | Parts of medicinal plant used |

## TKRC Example for a Medicinal Plant Used in ISM

**Local Plant name:** *Asvagandha*

**Botanical Name:** *Withania somnifera*

# TKRC - Mineral Silver nitrate (*Kadikaram*) in Siddha

- Section C Siddha
- Class C01 Pharmaceutical preparations
- Subclass C01C Based on Minerals (*Thaathu*)
- Group C01C-1/00 Metals/Non-metals/minerals/precious stones and their salts
- Subgroup C01C-1/01 Silver nitrate (*Kadikaram*)
- IPC code: C01D 7/06

# TKRC - Disease in Unani

- **Section B** Unani
- **Class B01** Pharmacotherapy (*Ilaj bil Dava*)
- **Subclass B01D** Characterised by Diseases (Amraz)
- **Group B01D-5/00** Dental Diseases (Amraaz-e-Dandaan)
- **Subgroup B01D-5/10** Dental Caries (Taakkul-e-Asnaan)
  
- **IPC code: A61P 3/12**

# Section Y - Yoga

## Class

- Y01 Yoga
- Y02 Naturopathy

## Section Y Class 01 – Yoga

- **Sub-Classes : 6**
  - Y01A           Techniques
  - Y01B           Materials and Time of Practice
  - Y01C           Precautions and Contraindications
  - Y01D           Diseases
  - Y01E           Effects
  - Y01F           General

# Section Y – Groups & Sub-groups

## Y01A- Techniques

1/00

Related to Asanas

2/00

Related to Pranayamas

6/00

Related to Dhyana

7/00

Related to miscellaneous processes

## Y01B- Material and Time of Practice

1/00

Materials

2/00

Time of Practice

## Y01C- – Precautions and Contraindications

1/00

Precautions

2/00

Contraindications

## Section Y - Groups & Sub-groups

Y01D- – Diseases

1/00

Diseases of Eye (*Netra Roga*)

2/00

Diseases of Ear (*Karna Roga*)

3/01

Diseases of Nose (*Nasa Roga*)

9/00

Musculo-skeletal Diseases  
(*asthi- majja roga*)

Y01E- Effects

1/00

Physiological effects

2/00

Spiritual effects

Y01F- Y01F–General

1/00

Body Parts

2/00

Yogic Body Parts

3/00

Kind of Yoga

4/00

Miscellaneous (general)

# Yoga TKRC for Breathing Technique

- Section Y Yoga & Naturopathy
- Class Y01 Yoga
- Subclass Y01A Techniques
- Group Y01A-2/00 Related to Pranayamas
- Subgroup **Y01A-2/11** Bhramarikumbhaka

# TKRC – A Facilitating Tool for IPOs

**TKRC - based on IPC – developed by India- for 30,000 sub groups on**

**---- Ayurveda, Unani, Siddha & Yoga**

- **Quality of examination on Indian systems of medicine at international Patent offices is enhanced**
  - **Reduces the area of search by examiners for India's TK**
- No. of patent applications received on T K**
- 

**30,000**

The background of the slide is a close-up photograph of numerous green nasturtium leaves. The leaves are heart-shaped with a prominent central vein and several secondary veins radiating from the base. They are densely packed and fill the entire frame. A semi-transparent, light-colored horizontal band is overlaid across the middle of the image, containing the word "THANKS" in a bold, red, serif font.

**THANKS**

# International Patent Classification

a hierarchical system of language independent symbols, for the classification of patents and utility models, according to the different areas of technology to which they pertain

59 States -member (s) of the Strasbourg Union

IPC-70,000 groups,

Used by 100 Countries

# IPC & Medicinal Plants

# Stages of Formal Acceptance of Traditional Knowledge Resource Classification

**Feb 2001**

India drives agenda on inclusion of traditional knowledge at International Patent Classification Union

**Task force of five nations constituted by WIPO**

**Feb 2002**

Task force recommends creation of subclass in A61 linking Traditional Knowledge Resource Classification developed by India with International Patent Classification

Materials from Plants

# Stages of Formal Acceptance of Traditional Knowledge Classification

**Feb 2003**

**International Patent Classification Union adopted 200 subgroups for publication by July, 2005**

Sub  
Groups

**Accords formal recognition and acceptance of Traditional Knowledge as a distinct discipline at international level**

**Oct 2004**

**Deliberations on IPC-TKRC Concordance list of the new main group A61K 36/00**

# Formal Acceptance of Traditional Knowledge Classification by IPC Union

IPC Union Adopted 200 Sub Groups

IPC – Sub Groups : 70000

● IPC – Medicinal Plants  
till July 2005 : 1

● IPC – Medicinal Plants  
Sub Groups – Now : 200

## Features of new Main Group - A61K 36/00

- ▣ 200 Subgroups
- ▣ Modern classification system followed
- ▣ Alphabetical arrangement of families and genera within each taxonomic category
- ▣ Taxonomic categories up to Genus level
- ▣ Common names- convenience

## Subgroup categorisation - A61K 36/00

| S. No | IPC Categories  | IPC codes             | No. of Subgroups |
|-------|-----------------|-----------------------|------------------|
| 1.    | Algae           | A61K 36/02 to 36/05   | 4                |
| 2.    | Fungi & Lichens | A61K 36/06 to 36/09   | 10               |
| 3.    | Bryophyta       | A61K 36/10            | 1                |
|       | Pteridophytes   | A61K 36/11 to 36/126  | 3                |
|       | Gymnosperms     | A61K 36/13 to 36/17   | 5                |
|       | Angiosperms     | A61K 36/18            | 1                |
|       | Dicotyledons    | A61K 36/185 to 36/87  | 148              |
|       | Monocotyledons  | A61K 36/88 to 36/9068 | 35               |
| Total |                 |                       | 197              |

# Concordance between IPC & TKRC - Medicinal plants

| IPC Code      | Category                      | TKRC category                   | TKRC code  |
|---------------|-------------------------------|---------------------------------|------------|
| A 61 K 36/232 | <i>Angelica</i>               | <i>Angelica archangelica</i> L. | A01A-1/172 |
|               |                               | <i>Angelica glauca</i> Edgew.   | A01A-1/173 |
| A 61 K 36/233 | <i>Bupleurum</i>              | <i>Buplerum falcatum</i> L .    | A01A-1/343 |
| A 61K 36/676  | <i>Foeniculum</i><br>(fennel) | <i>Foeniculum vulgare</i> Mill. | A01A-1/872 |
| A 61K 36/264  | <i>Aristolochia</i>           | <i>Aristolochia indica</i> L.   | A01A-1/206 |

1. A61K 36/00 is upto maximum Genus level
2. TKRC is upto species level

## Concordance between IPC & TKRC – Drugs for Disorders

| S. No. | IPC        | IPC Category  | Description of TKRC                             | TKRC       |
|--------|------------|---|---|------------|
| 1      | A61P 15/00 | Drugs for genital or sexual disorders                               | Uterine tumour / Pseudocyesis / Molar pregnancy | A01D-12/12 |
| 2      | A61P 1/00  | Drugs for disorders of the alimentary tract or the digestive system | Diseases of ano-rectum                          | A61D-17/04 |
| 3      | A61P 11/00 | Drugs for disorders of respiratory system                           | Bronchial asthma                                | A01D-11/18 |
| 4      | A61P 25/00 | Drugs for disorders of the nervous system                           | Epilepsy  | A01D-8/05  |
| 5      | A61P 17/00 | Drugs for dermatological disorders                                  | Ring worm                                       | A01D-6/10  |

# Concordance between IPC & TKRC

## Anti-inflammatory & others

| S. No. | IPC        | Description of IPC                                      | Description of TKRC | TKRC        |
|--------|------------|---|---------------------|-------------|
| 1      | A61P 29/00 | Non-central Analgesics, antipyretic or antiinflammatory | Antipyretic         | A01E-1/56   |
| 2      | A61K 39/00 | General protective or anti-noxious agents               | Anti-poisons        | A01E-1/165  |
| 3      | A61P 29/00 | Non-central Analgesics, antipyretic or antiinflammatory | Antiinflammatory    | A01E- 1/123 |

# Basis

|                             |                              |                          |
|-----------------------------|------------------------------|--------------------------|
| <b>Activity</b>             | <b>Traditional medicine</b>  | <b>Modern medicine</b>   |
| <b>Medical view</b>         | <b>Philosopho scientific</b> | <b>Scientific</b>        |
| <b>Diagnosis</b>            | <b>Comprehensive</b>         | <b>Analytical</b>        |
| <b>Clinical distinction</b> | <b>Wholeness</b>             | <b>Local or systemic</b> |

# Objectives, Aims and Methodology

|                              |                                   |  |
|------------------------------|-----------------------------------|--|
| <b>Medicine</b>              | <b>Natural</b>                    | <b>Chemical derivatives of natural/synthetic</b> |
| <b>Study method</b>          | <b>Human experience</b>           | <b>Clinical trials/lab tests</b>                 |
| <b>Maintenance of health</b> | <b>Promotion &amp; Prevention</b> | <b>Vaccination &amp; Sanitary</b>                |
| <b>Treatment</b>             | <b>Individualized</b>             | <b>Standardized</b>                              |
| <b>Treatment Aim</b>         | <b>Cure of disease</b>            | <b>Symptom relief</b>                            |
| <b>Treatment View</b>        | <b>Natural</b>                    | <b>Invasive</b>                                  |

Despite of above difference of outlook, both the systems have many things in common

# Diagnostic Methodology and Identification Symptoms

| Disease | Symptoms in TM (Ayurveda)   | Symptoms in Modern Medicine  |
|---------|---|--|
| Fever   | Rise in body temperature, malaise/bodyache, loss of/diminished perspiration <sup>1</sup>      | An elevation of body temperature above the normal range (Oral temperature 98.6°F; 37°C) along with associated symptoms <sup>1</sup>  |
| Gout    | Disease starts from base of toe or thumb, with swelling and severe pricking pain <sup>2</sup> | Acute mono or polyarticular pain...The pain becomes progressively more severe and is often described as throbbing, crushing or excruciating...The meta tarsophalangeal joint of the great toe is involved most frequently <sup>2</sup> |

# Drugs (Substance) and its components

| Drug                                   | TM                                    | MM   |
|--|---------------------------------------|--|
| <i>Psoralia corylifolia</i> Linn.      | Seeds used in leucoderma              | Chemical compound psoralin extracted from seeds used in leucoderma                       |
