

What can Technology do for IP Offices?

On the occasion of the 64th Series of Meetings of the Assemblies of the Member States of the World Intellectual Property Organization (WIPO), the WIPO Secretariat is pleased to invite you to a hybrid event:

Roundtable discussion on the importance of digital transformation for intellectual property (IP) offices and possible future collaborations

Heads of intellectual property offices will discuss how digital transformation and ICT (information and communication technology) is important for IP offices and what has been done so far. You will also hear about the gap between where they are and what is still to be achieved, and what kind of action and collaboration could fill such a gap.

The roundtable will be followed by an open discussion.
