A. INTRODUCTION

- 1. ThepresentdocumenthasbeenpreparedfollowingadecisionoftheStanding CommitteeontheLawofTrademarks,IndustrialDesignsandGeographicalIndications (SCT),takenatits fifthsession(Geneva,September11to15,2000)that,inordertocreatea betterunderstandingofthelegalissuesrelatedtotheprotectionofgeographicalindications, theInternationalBureaushouldprepareasupplementfordocumentSCT/5/3("Possibl e SolutionsforConflictsBetweenTrademarksandGeographicalIndicationsandforConflictsBetweenHomonymousGeographicalIndications"). Thissupplementshoulddealwiththe followingissues: Thehistoricalbackgroundoftheprotectionofgeographical indications; clarificationofthenatureoftherightsingeographicalindications; descriptionofthedifferent existingsystemsfortheprotectionofgeographicalindications; andinvestigationofthe problemsexistinginobtainingprotectionforgeog raphicalindicationsinothercountries.
 Thisdocumenthasbeenrevisedaccordingtothecommentsmadebydelegationsduringthe seventhsessionoftheSCT.
- 2. Theopeningportionofthepresentdocumentaddressesquestionsconcerning terminology. Geographical indications as a subject of intellectual property are characterized by a widerange of different concepts of protection. It is therefore important to clarify the terminology used. As an extstep, this document describes existing approaches to the protection of geographical indications on the national and regional levels. In that context, it will refer to the historical development of individual concepts of protection and address the question of the nature of the right sattached to geographical indications. That portion is followed by an investigation of the problems existing in obtaining protection for geographical indications in other countries. At the end, the document lists a number of a reasing ard of which it would appear worth while to develop a common international under standing.

B. TERMINOLOGY

"Indications of Source" and "Appellations of Origin"

- 3. The terminology traditionally applied intreaties in the field of geographical indications administered by WIPO distinguishes between "indications of source" and "appellations of origin."
- $4. \quad The term ``indication of source" is used in Articles 1 (2) and 10 of the Paris Convention for the Protection of Industrial Property of 1883 (``Paris Convention"). It is also used throughout the Madrid Agreement for the Repression of False or Deceptive Indications of Source on Goods of 1891 (``Madrid Agreement on Indications of Source"). There is no definition of ``indication of source" in those two treaties, but Article 1(1) of the Madrid Agreement on Indications of Source contains language which clarifies what is meant by the term. That Article reads as follows:$
 - "Allgoodsbearingafalseordeceptiveindicationbywhichoneofthecountriesto whichthisAgreementapplies ,oraplacesituatedtherein,isdirectlyorindirectly indicatedasbeingthecountryorplaceoforiginshallbeseizedonimportationintoany ofthesaidcountries."

¹____SCT/5/6Prov.,paragraph 130

Supprimé :
Supprimé :
Supprimé :

Consequentlyanindicationofsourcecanbedefinedasanindicationreferringtoa country, or toaplaceinthatcountry, asbeingthecountryorplaceoforiginofaproduct. It is important that the indication of source relates to the geographical originofaproduct and not to another kind of origin, for example, an enterprise that manufactures the product. This definition does not imply any special quality or characteristics of the product on which an indication of source is used. Examples of indications of source are the mention, on a product, then a meof acountry, or indication such as "made in"

5. Theterm"appellationoforigin"isdefinedintheLisbonAgreementfortheProtection ofAppellationsofOriginandtheirInternationalRegistration,of1958("LisbonAgreement"). TheLisbonAgreementestablishesani nternationalsystemofprotectionforappellationsof originwhicharealreadyprotectedunderthenationallawofoneoftheStatespartytothat Agreement.Protectionissubjecttotheinternationalregistrationofthatappellationoforigin. Article 2(1)oftheLisbonAgreementdefinestheterm"appellationoforigin"asfollows:

"Appellationoforigin" meansthegeographical name of a country, region, or locality, which serves to designate a productoriginating therein, the quality and characteristic which are due exclusively or essentially to the geographical environment, including natural and human factors."

csof

Underthisdefinition, an appellation of origin can be regarded as a special kind of indication of source, because the product for which an appellation of originisus edmust have quality and characteristics which are due exclusively oressentially to its origin. Examples for protected appellations of originare "Bordeaux" for wine, "Noix de Grenoble" for nuts, "Tequila" for spirit drinks, or "Jaffa" for oranges.

"GeographicalIndications"

6. TheAgreementonTrade -RelatedAspectsofIntellectualPropertyRightsof 1994 ("TRIPSAgreement")contains a section dealing with the protection of geographical indications (Part II, Section 3). Article 22.1 of the TRIPSA greement provides the following definition:

"Geographicalindicationsare, for the purposes of this Agreement, indications which identify a good as originating in the territory of a Member [of the World Trade Organization], or a region or locality in that territory, where a given quality, reputation or other characteristic of the good is essentially attributable to its geographical origin."

Thisdefinitionisapparentlybasedonthedefinitionofappellationofori gininArticle 2ofthe LisbonAgreement.However,itdeviatesfromArticle 2oftheLisbonAgreementinsome respects.Article 21.1oftheTRIPSAgreementdefinesgeographicalindicationsas "indications whichidentifyagood[...],"whereasArticle 2of theLisbonAgreementdefines appellationsoforiginas "the geographicalname of acountry, region, or locality, which servestodesignateaproduct[...]." 3Signsotherthangeographicalnames, for examplea

AlloftheseexamplesareappellationsoforiginregisteredundertheLisbonAgreement.
Emphasisadded

non-geographicalnameoranemblem, wouldnotbe coveredby Article 2ofthe Lisbon Agreement. However, they would fall into the category of signs that could constitute geographical indications under the TRIPS Agreement. Furthermore, the Lisbon Agreement requires that the quality and the characteristics of the producting uestion bedue exclusively, or essentially, to the geographical environment, including natural and human factors. The TRIPS Agreement covers goods which have a given quality, reputation or other characteristic that is essentially at tributable to their geographical origin. It is generally understood that goods which have "merely" acertain reputation, but not aspecific quality being due to their place of origin, are not covered by the definition of appellation of origin as provided by the Lisbon Agreement.

- 7. If the definitions of indication of source, appellation of originand geographical indication are compared with each other, the following can be observed. Indication of source is the broadest term. It comprises geographical indication and appellation of origin. Indications of source only require that the product on which the indication of source is used originate in a certain geographical area. Thus, the reare indications of source, which seem not to be covered by the definition of geographical indication under the TRIPS Agreement, namely indications of source whose use on products does not imply a particular quality, reputation or characteristic of those products. Geographical indications are more broadly defined than appellations of origin. In other words, all appellations of origin are geographical indications, but some geographical indications are not appellations of origin.
- 8. Forthepurposeofthepresentdocument, the term geographical indication will be used in the sense of Article 22.1 of the TRIPS Agreement, covering geographical indication (within the meaning of Article 22.1 of the TRIPS Agreement) and appellation of origin. However, it must be bornein mind that the terms "indication fsourc e," "appellation of origin" and "geographical indication" are used in different international legal instruments. Rights and obligations flowing from those instruments, exist only in relation to the category of "geographical indication" to which the instrument in question refers. Therefore, it may not always be possible to speak broadly of "geographical indications"; rather, a distinction must be made with in the context of the international agreement that is under consideration. This point will be further relevel oped in the portion of the document dealing with existing problems in obtaining protection for geographical indications in other countries.

C. EXISTINGAPPROACHES FORTHEPROTECTIONO FGEOGRAPHICAL INDICATIONS

9. Protectionofgeographi calindicationsonthenationalandregionallevelsis characterizedbytheexistenceofavarietyofdifferentlegalconcepts. Thoseconceptswere developedinaccordancewithdifferentnationallegaltraditionsandwithinaframeworkof specifichistori calandeconomicconditions. These differences have a direct bearing on important questions such as condition of protection, entitlement to use and scope of protection. In the following paragraphs, the main existing concepts of protection are introduced: Unfair competition and passing off, protected appellations of originand registered geographical indications, collective and certification trademarks, and administrative schemes of protection. The historical development of the different concepts and the nature of the rights involved will be touched upon. Given the large variety innational laws and regulations concerned with the protection of geographical indications, a division into four different categories is necessarily artificial and may not precise ely reflect the situation in every

WIPO/IP/CAI/03/INF.3	Supprimé :
page 6	

MemberState.ItisthereforepossiblethatamechanismofprotectionexistsinaMember Statethatdoesnotnecessarilyfallintoanyofthosefourcategoriesasdefined.

10. Furthermore, it is important to no tethat the mechanisms described do not necessarily applyonane x clusive basis. On the contrary, cumulative application of different means of protection is very common. Cumulative protection of geographical indications under different systems of protection is accentuated by the existence of different means of protection for different categories of products.

I. UNFAIR COMPETITIONAND PASSING OFF

- (a) UnfairCompetition
- 12. Atthenationallevel,protectionagainstunfaircompetitionhasdevelopeddifferentlyin differentcountries. However, there is at least one objective that is common to all different approaches, and that is to provide those intrade with an effective remedy against unlawful and dishonest business practices of their competitors. In some countries, specific statutes providing for the repression of unfair competitionals of ulfill the function of consumer protection.
- 13. Adetermination of whether a given commercial actis contrary to honest practices in industrial or commercial matters will have to be made in application of national laws for the protection against unfair competition. However, it is accepted that commercial practices which are misleading, or a relikely to mislead the public with respect to an enterprise or its activities, in particular, the geographical origin of products of fered by such enterprise, constitute an act of unfair competition.
- 14. Inordertoprevent theunauthorizeduseofageographicalindicationonthebasisofan actionagainstunfaircompetition,aplaintiffmustregularlyshowthattheuseofthe geographicalindicationinquestionbyanunauthorizedpartyismisleadingand,asthecase maybe, thatdamagesoralikelihoodofdamagesresultfromsuchuse.Suchanactioncan onlybesuccessfulifthegeographicalindicationinquestionhasacquireddistinctiveness;in otherwords,iftherelevantpublicassociatesgoodssoldunderthatgeographi calindication withadistinctgeographicaloriginand/orcertainqualitiesorreputation.
- 15. Furthermore,protectionofgeographicalindicationsunderunfaircompetitionlawmay besupplementedbyspecificstatutoryprovisionshavingastheiro bjecttheprotectionof

unregisteredgeographicalindications, for example, Sections 126to 129ofthe German Trademarks Actof 1994. Under these provisions, natural and legal persons having the right to use a given unregisteredgeographical indication are entitled to request courts to prevent use of that geographical indication by unauthorized parties and, as the case may be, to accord damages for such use. Sections 126to 129ofthe German Trademarks Actof 1994 are based on principles developed by the courts in applying the law against unfair competition in order to prevent unauthorized use of geographical indications, if such use would be misleading or would take unfair advantage of the reputation of a geographical indication.

(b) PassingOff

- 16. Countrieshavingacivil -lawtraditionthatprovideforsomekindofprotectionfor businessesagainstunlawfulcommercialactsfromcompetitorsusuallybasethatprotectionon generaltortlaw. ⁶Incountriesthatfollowthecommonlawtradition,th eactionofpassingoff isoftenconsideredasthebasisofprotectionagainstdishonestbusinesscompetitors. The passingoffactioncanbedescribedasalegalremedyforcasesinwhichthegoodsorservices ofonepersonarerepresentedasbeingthose ofsomebodyelse. ⁷Whatiscommontothese casesisthattheplaintifflosescustomersbecausethedefendantledthemtobelievethatthey werebuyingtheplaintiff'sgoods, whentheyactuallyobtainedthegoodsofthedefendant.
- 17. Verybroadly speaking,inordertopreventtheunauthorizeduseofageographical indicationthroughasuccessfulactionforpassingoff,aplaintiffmustestablishthatgoodwill orreputationisattachedtothegoodsonwhichthegeographicalindicationisregularly used andwhicharesuppliedbyhim,thatthedefendantmisrepresentstothepublicthatthegoods offeredbyhimoriginatefromtheplaintiffandthatheislikelytosufferdamagefromsucha misrepresentation.

(c) Conclusion

- 18. Nationallaws fortheprotectionagainstunfaircompetition, passing of fandunregistered geographical indications provide a course of action for traders against competitors who perform commercial acts which are considered to be contrary to honest business practices. With respect to geographical indications, it can be said that protection against unfair competitions erves to protect traders and producers from the unauthorized use of geographical indications by third parties rather than creating individual property right sinthem.
- 19. Anotherimportantcharacteristicsoftheprotectionofgeographicalindicationsunderthe lawagainstunfaircompetitionisthatimportantdeterminations, suchasthearea of production, standards of production and the circle of production accorded to geographical indication, are made by the courts in the course of legal proceedings. Protection accorded to geographical indications following a law suit based on passing of forunfair competition is only effective be tween the parties of the proceedings. The entitlement to protection of a given geographical indication must be demonstrated every time enforcement of the protection of that geographical indication is sought.

(c) Conclusion

24. Themostimportantspecificfeaturethatiscommontoprotectedappellationsoforigin andregisteredgeographicalindicationsappearstobethattheir legalprotectionisbasedonan actofpubliclaw(law,decree,ordinance)whichstandsattheconclusionofanadministrative procedure. Throughthisadministrativeprocedure, importantparameterssuchasthe demarcationoftheareaofproductionandpr oductionstandardsaredefined. Those parametersareappliedbylawenforcementagencies, eitherundercivilorundercriminallaw, whendeterminingwhetheragivenprotectedappellationoforiginorregisteredgeographical indicationisusedwithoutauth orizationorinamannercontrarytotheprescribedmodeofuse.

III. COLLECTIVEAND CERTIFICATION MARKS

25. Becauseofthegeneralprinciplethatindividualtrademarksmustnotbedescriptiveor deceptive, geographical terms cannot serve a sin dividualtrademarks, unless they have acquired distinctive character through use, or their use is fanciful and, therefore, is not deceiving a stotheorigin of the goods on which the trademarks are used. However, this rule does not apply to certification marks and collective marks.

(a) CertificationMarks

- 26. Certificationmarksaremarkswhichindicatethatthegoodsorservicesonwhichthey areusedhavespecificqualities,whichmayalsoincludegeographicalorigin.Theownerof thecertificationmarkundertakestocertifythatthegoodsorservicesonwhichthe certificationmarkisusedhavethosequalities.Asabasicrule,theownerofthecertification markdoesnothavetherighttousethemark.Thisprincipleisalsoreferredtoas the "anti-use byownerrule." ¹¹
- 27. Everyproducerwhocomplieswithstandardsofproductionasdefinedbytheownerof thecertificationmarkhastherighttousethatmark. Theownerofthecertificationmark, who maybeaprivateorpublicen tity, mustensurethatthegoodsorserviceson which the certificationmarkisused possess the certified quality. In order to carry out this certification function in an eutral and impartial manner, the owner of the certification mark hast of ile, together with the application for the registration of the certification mark, detailed regulations which prescribe, *interalia*, the characteristics certified by the mark, the authorized users and details concerning the certification and control. As already pointed out, in order to safeguard the objectivity of the owner of the certification mark, he is not allowed to use the certification mark himself. Dis regard of that rule regularly leads to the invalidity of the certification mark.
- 28. Theprotecti onofageographicalindicationintheformofacertificationmarkis enforcedundergeneraltrademarklaw.Inprinciple,anactionforinfringementofa certificationmarkisinitiatedbytheownerofthecertificationmark. ¹²Forexample,thismay bet hecasewherethedefendantusesacertificationmarkthatcertifiesaspecificgeographical originofgoods,forgoodsnothavingthatgeographicalorigin.

1	Supprimé :
١,	Supprimá :

(b) CollectiveMarks

- 29. Ithasbeenpointedoutthatitisdifficulttodistinguishcol lectivemarksfrom certificationmarks, and that the difference is one of form rather than one of substance.

 Collective marks are owned by a collective body such as, for example, a trade association or an association of producers or manufacturers, and se rveto indicate that the person who uses the collective mark is a member of that collectivity. Membership in the association that is the owner of the collective mark is, generally speaking, subject to compliance with certain rules, such as the geographica larea of production of the goods on which the collective mark is used, or standards of production of such goods. A further difference between the two categories of marks is that the owners of collective marks are regularly not barred from using the mark themselves.
- 30. Likeinthecaseofcertificationmarks,theprotectionofcollectivemarksisenforced undergeneraltrademarklaw. Anactionforinfringementmay be brought by the owner of the collective mark, for example in a case, where a collective mark is owned by an association of producers who are entitled to use the collective mark, and the mark is used by a person who is not a member of that association.

(c) Conclusion

- 31. Collectiveandcertificationmarksareusedinorder toindicatespecificqualitiesof goodssuchastheirgeographicalorigin.Whereastrademarksconsistingofdescriptive geographicaltermsareusuallyexcludedfromregistration,geographicaltermsaretypically admittedforregistrationascollectiveor certificationtrademarks.Aslongascollectiveand certificationmarksareusedinamannerthatrespectsthegeneralregulationsgoverningthat use,thereisnodangerofdeceptionastotherealoriginofthosegoods.

 14Oncea geographicalindicationi sprotectedasacollectiveorcertificationmark,thatgeographical indicationcanbeenforcedinaccordancewiththeapplicablerulesoftrademarklaw.
- 32. Itappearsthatitlies within the competence of the applicant for the registration of a certification or collective mark to define, in the regulations which govern the use of those marks, the delimitation of the area of production of the goods on which those marks are used and any applicable standard of production. This definition is part of the specification to be filed to gether with the application. Upon acceptance of the application, the specification becomes part of the registration.
- 33. Incontrasttoauthoritiesresponsiblefortheadministrationof suigeneris protection systemsforgeographicalindications, the competent authority for receiving the application for the registration of a certification or collective mark, typically anational trademark of fice, does not necessarily examined et ails of the application such as, fo rexample, the delimitation of the production area, the existence of a link between the indication for which registration is requested and the qualities of the producting uestion, or, as the case may be, whether such a link is existing at all. However, i tispossible for competitors and consumer storaise is sues concerning the specification of a certification mark and to challenge the validity of a registered certification mark by initiating an invalidation procedure.

McCarthy,page19 -186

See,forexample,WT OdocumentIP/C/W/134

IV. ADMINISTRATIVE SCHEMESFOR PROTECTION

- (a) General
- 34. Wheregeographicalindications are used on goods them arketing of which is subject to an administrative approval procedure, this procedure may be applied also for controlling the use of geographical indications applied to those goods. The example that comes readily to mind is wine sand spirits, the sale of which is regulated in many countries.
- 35. Underanadministrativeapprovalprocedureforproductlabels, the authority entrusted with the administration of that tscheme controls whether the product for which marketing authorization is sought complies with relevant legal requirements, including the permitted use of a geographical indication on the label of the product. If the requirements for approval are not met, for example, because the use of a given geographical indication on a specific product is not permitted, marketing approval is not granted and, consequently, the geographical indication cannot be used.

(b) Conclusion

36. Administrativeschemes oflabelcontrolareameansofensuringfairtradeand consumerprotection. Depending on the national system that is in place in a given country, the objective of fairtrade and consumer protection may be followed by different legal instruments, such as unfair competition acts, fair trading acts or marketing acts for certain products laying downst and ards of product presentation and marketing. The latter two examples have incommon that, as far as geographical indications are concerned, they do not enable the holders of the collective good will attached to a geographical indication to take individual action in order to protect that good will. Rather, they provide for an administrative mechanisma iming at preventing misleading use of geographical indication son products. Where such misleading use occurs despite the administrative procedures to be followed, usually criminal sanctions will apply.

V. CONCLUSIONOF PART C

- 37. Theabovediscussionofvariousexistingmeansofprotectionforgeographi cal indicationsshowsthatthesubjectisdeterminedbytwobasicpolicyconsiderations. One is the protection of consumers against misleading use of geographical indications, and the other is the protection of the owners of the collective good will attach edtogeographical indications against misrepresentations resulting in the misappropriation of that good will.
- 38. However, it becomes apparent that a clear cut distinction into legal categories for protection, depending on the policy objectivest obeattained, does not necessarily exist. Furthermore, one can frequently find co-existence of several types of protection for geographical indications in one and the same country, which of tend if fer with respect to various categories of products. Are flection of this variety of concepts may also be observed when it comes to the demarcation of the geographical area of production for goods for which geographical indications may legitimately be used. The competence for making that demarcation may lie with a wide range of different bodies, public, semi public or private, or tribunals.

I. BILATERAL AGREEMENTS

existinginobtaining protection in other countries.

40. Bilateralinternational agreements are typically concluded between two countries on the basis of reciprocity in order to increase protection of the countries' respective geographical indications. They may be independent reaties or form part of a wider trade agreement. They may simply provide for a prohibition of use of the other party's geographical indications for goods (usually listed in an annex to the agreement) not having that origin. Or they may go further and provide for the extra territorial application of the other country's national law concerning the protection of geographical indications. This latter as pect may be important in cases where a given geographical indication does not only indicate the geographical origin of certain goods, but also certain qualities that are due to that origin, such as is the case with protected appellations of origin.

geographical indications at the multilateral level and concludes with a description of problems

41. Bilateralinternationalagreementsmaycover awiderangeofproductsorbelimitedto specificgoodsonly. They have been concluded most frequently between Europeannations earlier in the 20 th century. However, they continuously appear to be important with regard to specific economic sectors and in particular, the wine industry.

E.g.,the "CrayfishAgreement" between France and South Africa from the 1930s (see Symposium on the International Protection of Geographical Indications , Somerset West, 1999, page 31)

II. MULTILATERAL AGREEMENTS

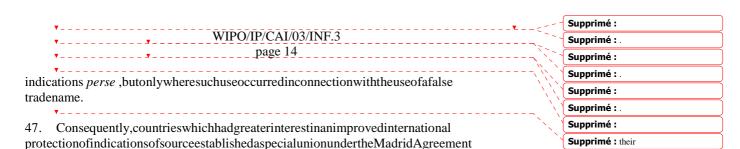

Asecondpossibilityforobtaininginternational protection for geographical indications is through the conclusion of, and the adherence to, multilateral agreements. The following is as ummary of the scope of protection that is provided for geographical indications under the following multilateral treaties: the Paris Convention, the Madrid Agreement on Indications of Source, the Lisbon Agreement, and the Agreement on Trade related Aspect sof Intellectual Property Rights (TRIPS Agreement).

(a) TheParisConvention

- 42. Article 1(2)oftheParisConventionenumeratesamongtheobjectsoftheprotection of industrial property indications of source and appellations of origin. Mor especific provisions concerning indications of source are contained in Articles 10 and 10 ter. 20
- 43. Aprovisionprohibitingtheuseofafalseindicationofsourceappearedasearlyasinthe originaltextoftheParisConventionof1883.Howeve r,thatprotectionwasratherlimited, sincetheprohibitionwasonlyapplicablewherethefalseindicationofsourcewasusedin conjunctionwithafictitiousornon -existingtradename.
- 44. Article 10oftheParisConventioninitscurrentvers ionsetsforththat,incasesof "directorindirectuseofafalseindicationofthesourceofthegoodsortheidentityofthe producer,manufacturerormerchant," Article 9oftheParisConventionshouldbeapplicable. Article 9providesthatgoodsbea ringafalseindicationofsourcearesubjecttoseizureupon importationintocountriespartytotheParisConvention,orwithinthecountrywherethe unlawfulaffixationoftheindicationofsourceoccurredorwithinthecountryofimportation. Thissei zureshalltakeplaceattherequestofthepublicprosecutor,oranyothercompetent authority,oranyinterestedparty. However, Article 9(5) and (6) of the Paris Convention allows that countriesparty to the Paris Convention whose national laws do not permitseizure on importation or inside the country to replace those remedies by either a prohibition of importation or by any other nationally available remedy.
- 45. Furthermore, Article 10ter(2) contains an undertaking of the Statesparty to the Paris Convention to allow federations and associations representing producers and tradecircles to bring actions in order to enforce the means of protection envisaged in Articles 9 and 10.
- $\begin{tabular}{ll} (b) & The Madrid Agreement for the Repression of False or Deceptive & Indications of Source on Goods & Indication of Source or Goods & I$
- 46. - Furthermore, Article 24.3 of the TRIPS Agreement provides that in implementing the Section of the TRIPS Agreement on geographical indications, a WTO Member shall not the property of the propediminish the protection of geographical indications that existed in that Member immediatelypriortothedateofentryintoforceoftheWTOAgreement.

ATTEMPTSTO REVISETHE MULTILATERAL SYSTEMOF PROTECTIONAFTER 1958

- Preparationin1974and1975o faNewMultilateralTreatyontheProtectionof GeographicalIndications
- 66. In 1974, WIPO started work on the preparation of a new multilateral treaty for the protectionofappellationsoforiginandindicationsofsource. Afterafirstsessio Committee of Experts in 1974, the International Bureau of WIPO prepared a draft treatywhich was submitted to the seconds ession of the Committee in 1975. The WIPO draft treaty intendedtoestablishanewdefinitionofgeographicalindicationfort hepurposesofasystem ofinternational registration. The new definition was broader than the definition of appellation oforiginundertheLisbonAgreement.
- 67. The substantive provisions of the draft treaty were dealt within two chapters. Thefirst chaptercontained a provision according to which the use of denominations, expressions or signswhichconstituteordirectlyorindirectlycontainfalseordeceptivegeographical indications a stothe source of products or services must be prohib

sourceofaproduct; (ii) the indication is declared by the filing State to be are ference to itself as the State of origin; (iii) the indication is used in the course of trade in relation to product soriginating in the State, and the said State certifies such use.

- Supprimé : Supprimé :
- 69. Inmostotherrespects, the system of the draft treaty was similar to the Lisbon Agreement. In particular, the procedure of international registration included the possibility of objections and provided for protection unlimited in time once the international registration had become effective. However, unlike the Lisbon Agreement, the grounds for objection were limited to the following: (i) the subject of the application for international registration consists neither of the official or usual name of the filing State or of that of a major circumscription of that State, nor of a denomination which serves to indicate the source of a product; (ii) the denomination in question is used in the course of trade in relation to products or iginating in any State; (iv) in the objecting State the denomination in question is regarded as a generic term by the general publicand is used as such in the course of trade; (v) certain requirements concerning the application have not been fulfilled.
- 70. Althoughunlimitedintime, continued protection would depend on the payment of maintenance fees. In addition, the draft treaty contained a chapter on sanctions, the right sto bring an action, and the settlement of disputes through diplomatic chan nels.
- 71. WhenpreparationsfortherevisionoftheParisConventionstartedinthelate1970s,and itbecameapparentthatthosepreparationsalsodealtwiththepossiblerevisionofthe provisionsoftheParisConventionthatdealwithgeograph icalindications,workonthedraft treatywasnotcontinued.
 - (b) RevisionoftheParisConvention
- 72. Asindicated, during the time the WIPO draft treatyon geographical indications was beingprepared, the process for the revision of the Paris Conventionwasinitiated.Inthe courseofthediscussionsontherevisionoftheParisConvention,aworkinggroupon $conflicts between an appellation of originand at rade mark prepared a proposal to include in {\tt conflicts} and {\tt conflicts} and {\tt conflicts} and {\tt conflicts} are a proposal to include in {\tt conflicts} and {\tt conflicts} are a proposal to include in {\tt conflicts} and {\tt conflicts} are a proposal to include in {\tt conflicts} and {\tt conflicts} are a proposal to include in {\tt conflicts} and {\tt conflicts} are a proposal to include in {\tt conflicts} and {\tt conflicts} are a proposal to include in {\tt conflicts} and {\tt conflicts} are a proposal to include in {\tt conflicts} are a propos$ theParisConventionanewarticleonthe protectionofappellationsoforiginandindications of source. Under the Rules of Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Revision of the Procedure of the Diplomatic Conference on the Procedure of the Diplomatic Conference on the Diplomatic ConfereParisConvention, the said proposal became a basic proposal for the revision of the Paris Convention. ²⁹Inthe proposal, the terminology used in the WIPO draft treaty of 1975 was adopted;thustheterm"geographicalindication"wasused.Thepurposeofthenewarticleof the Paris Convention, which was provisionally numbered Article 10quater, wastwofold. First, the article whould ensure more extensive protection of appellations of originand indications of source against their use a strade marks. Second, a special provision in favor of developing countries would be included, which would allow those countries to reservea certainnumberofpotentialgeographicalindicationsforthefuturesothat, eveniftheywere notyetusedasgeographicalindications, they could not be used a strademarks.

[Footnote continued from previous page]

should also be of a certain size and importance, a sexplained by the use of the adjective "major." In the latter connection, some restrictions are called for: the names of communes, for example, should not be able to be ne fit from absolute protection" (TAO/II/2, page 2 0). PR/DC/4

- $\begin{tabular}{ll} (c) & The 1990 Committee of Experts on the International Protection of Geographical Indications \end{tabular}$
- 82. In 1990, the WIPO Committee of Experts on the International Protection of Geographical Indications considered the establishment of an ewtreaty dealing with the international protection of geographical indications. ³² The main reasons for a perceived unsatisfactory situation concerning the international protection of geographical indications were the limited scope of the provisions of the Paris Convention, and the limited acceptance of the Madrid Agreement on Indications of Source and the Lisbon Agreement. It was felt that this situation could only be overcomethic theorem at indication and the limited acceptance of the Madrid Agreement on Indications of Source and the Lisbon Agreement. It was felt that this situation could only be overcomethic theorem at indication and the Indication of the Madrid Agreement of the Madrid Agreemen
- 83. InordertomakethetreatyattractivetoallStatespartytotheParisConvention,the replacementoftheconceptsof 'appellationoforigin' and 'indicationofsource' bythe notion of 'geographicalindication' was evoked. It was felt that this notion could cover all existing concepts of protection. Furthermore, an eed was perceived to establish ane winternational registration system, which would be more widely acceptable than the Agreement. To that end, a basic principle was that Contracting Parties should be free to choose the manner of protection of a geographical indication in its country of origin, rather than requiring a specific form of protection. In addition, then ewtreaty should provide for effective protection of geographical indications against degeneration into generic terms, and ensure effective enforcement of protection.
- 84. The Committee of Experts discussed the following three groups of issues per tinent to the establishment of an ewtreaty, namely: What should be the subject matter of protection? What should be the general principles of protection, including the conditions of protection, its

34 The work concerning the establishment of an ewtreaty was not continued, since the Committee of Experts on the International Protection of Geographica IIndications did not meet for any further session.

IV. PROBLEMS EXISTINGIN OBTAINING PROTECTIONIN OTHER COUNTRIES

(a) General

 $Since the adoption of the Paris Convention in 1883, considerable efforts were made in {\tt Convention} and {\tt Convention} and {\tt Convention} are also as a {\tt Convention} and {\tt Convention} are also as a {\tt Convention} and {\tt Convention} are also as a {\tt Convention} and {\tt Convention} are also as a {\tt Convention} and {\tt Convention} are also as a {\tt Convention} and {\tt Convention} are also as a {\tt Convention} and {\tt Convention} are also as a {\tt Convention} and {\tt Convention} are also as a {\tt Convention} and {\tt Convention} are also as a {\tt Convention} and {\tt Convention} are also as a {\tt Conven$ ordertodevelopthemu ltilateralframeworkfortheprotectionofgeographicalindications. However, those efforts produced rather modes tresults, either because newly adopted special agreementsunderArticle 19oftheParisConventionprovednottobesufficientlyattractive fortheadherenceofasignificantnumber of States, or because international negotiations aiming at the creation of new norms of protection remained unconcluded. In addressing the protectionofgeographicalindications, interalia bygrantingadditionalp rotectionto geographicalindications for wines and spirits (TRIPS Articles 23.1and 23.2)theTRIPS AgreementhasbroughtthatsubjectbacktotheattentionofalargenumberofStates.In particular, Article 23.4 states that, to facilitate the protectio nofgeographicalindicationsfor wines, negotiations shall be undertaken in the Council for TRIPS concerning the establishmentofamultilateralsystemofnotificationandregistrationofgeographical indicationsforwineseligibleforprotectioninthose WTOMembersparticipatinginthe system.

(b) Typeandscopeofprotection

87. Protectionofgeographicalindicationsthroughapplicationofprinciplesforthe protectionagainstunfaircompetitionappearstoconstituteagenerallyacceptedint ernational standardofprotectionforgeographicalindications,regardlessofthenatureoftheproductsfor whichtheyareused. ³⁵Onthemultilaterallevel,thisapproachhasdevelopedhistorically, startingoutfromthelimitedprohibitiontousefalse indicationsofsourceonlyincaseswhere theywereusedtogetherwithfalsetradenames(asprovidedforbytheoriginaltextofthe ParisConvention),evolvingtoaprohibitionoftheuseoffalseanddeceptiveindicationsof source(LisbonActofthePa risConventionandMadridAgreementonIndicationsofSource) andtoageneralprohibitionoftheuseofgeographicalindicationwhichconstitutesanactof unfaircompetitionwithinthemeaningofArticle 10bisoftheParisConvention (Article 22.2(b)of theTRIPSAgreement).

³³____GEO/CE/I/2,paragraph 64

GEO/CE/I/3,paragraph122

TRIPSArticle22.2

- 88. Oneofthemainfeaturesofaprotectionsystemforgeographicalindicationsbasedon protectionagainstunfaircompetitionisthatkeyelementsofthedefinitionofgeographical indications, suchasthearea of producti on, the specific qualities derived from the origin indicated by the geographical indication, or the degree of reputation that must be attached to a specific indication in order to make it aprotected geographical indication, are defined by a judge in the course of litigation over the right to use a given geographical indication. If those determinations are already difficult to make for a court located within the country of origin of a disputed geographical indication, this task becomes even more complex for a court located in a country that is not the country of origin.
- 89. Inmakingadecisionconcerningtheprotectionofagivengeographicalindication,the judgeinthecountryinwhichprotectionissoughtmustdecidewhethertheuseofadispu ted geographicalindicationismisleadingthepublicinthatcountryastothegeographicalorigin ofthegoods. Regularly, the local public will only be misled by the unauthorized use of a geographical indication, if it knows that the indication in quest ionisage ographical indication used to identify certain products having a specific geographical origin and/or specific characteristics and reputation.
- 90. The difficulties that may arise in cases where geographical indications are protected underprinciplesfortheprotectionagainstunfaircompetitionarecounterbalancedby advantagessuchastheabsenceofformalregistrationprocedures. However, beneficiaries of geographicalindicationsmayfindittooriskytorelymerelyonprinciplesfor theprevention ofunfaircompetition. Statutory means of protection, such as registered geographical indications, protected appellations of origin, or certification or collective marks present advantagesovertheunfaircompetition -typeofprotection,esp eciallyintermsofenforcement. UndertheLisbonAgreement, appellations of originas one kind of statutory means of protectionforgeographical indications, are protected under a multilateral system of registrationandprotection. It is also to be note dthatthescopeofprotectionforappellations oforiginprovidedundertheLisbonAgreementiswiderthanthescopeof"simple"protection forgeographicalindicationsunderunfaircompetitionlaw. Thus, not only misleadinguse, but alsouseofprotecte dappellationsoforigininconnectionwiththeindicationofthetrueplace of origin of the product (if the true place of origin is different from the place indicated by theprotectedappellationoforigin),intranslatedformoraccompaniedbytermssuc has"kind," "type," "make," imitation, "orthelikemustbeprevented.
- 91. Enforcementofgeographicalindicationsthatareprotectedonastatutorybasisis facilitatedbystrictdefinitionsoftheprotectedsubjectmatter,i.e.,areaofprodu ction, standardsofproduction(ifany)andpartiesentitledtousetheprotectedgeographical indications.
- 92. Nevertheless, due to the existence of a multitude of different approaches on the national and regional levels to this type of protection, and the reluctance of Statesto adopts pecific protection systems, protection on the international level remained somehow limited. Thus, the principle contained in Article 1(2) the Lisbon Agreement, i.e., to protect appellations of origin that are recognized and protected assuch in their countries of origin, may be seen as limiting the potential number of States that may be willing to adhere to that Agreement.
- 93. Furthermore, protection of geographical indications in countries where such prisprovided under special legal regimes on the national and regional levels is often subject to official government action. For example, Article 5(1) of the Lisbon Agreement provides that

WIPO/IP/CAI/03/INF.3
page 23

Supprimé :

Supprimé:

theinternationalregistrationofanappellationoforigin shallbeeffectedattherequestofthe OfficesoftheContractingParties. This stands in contrast to protection of geographical indications ascertification or collective marks, whose registration can be requested directly by the interested parties wit hout an official government action being necessary.

- 94. Itappearsthatthebaselineofprotectionforgeographicalindicationsisprotection againstcommercialpracticesthatareconsideredtobemisleadingorconstituteactsofunfair competition. ThiskindofprotectionisprovidedforbytheParisConventionandtheTRIPS Agreement(withtheexceptionoftheadditionalprotectionforgeographicalindicationsfor winesandspiritsprovidedforunderTRIPSArticle 23.1 and 23.2). However, the estandardof protectionavailableunderthisapproachremains limited, since important questions of definition and scope of protection are made on an adhoc basis and this creates considerable uncertainty.
- 95. Amoreenhancedscopeofprotection asprovidedundersystemsofstatutoryprotection hasnotobtainedacceptanceamongalargernumberofStatesand,therefore,hasbeenleft withoutwidespreadgeographicalcoverage.Althoughprotectionforgeographicalindications inadditiontoprotecti onagainstmisleadingandunfaircommercialactsisaddressedby Article 23oftheTRIPSAgreement,thatprovisionhasraisedanumberofissues:TRIPS Article 23isonlyconcernedwiththeprotectionofgeographicalindicationsforaspecifictype ofpro duct,i.e.,winesandspirits.Itdoesnotdealwiththequestionoftypeofprotectionin thecountryoforigin,orthemeansofobtainingprotectionabroad.Itprovidesforasystemof notificationandregistrationofgeographicalindicationsforwines eligibleforprotectionin thoseWTOMembersparticipatinginthesystem,butleavestheestablishmentofsucha systemtofurthernegotiations.
 - (c) GenericCharacterofCertainGeographicalIndications
- 96. Geographicalindicationsthatareno longerunderstoodbythepublicinaMemberState toindicateaspecificoriginofgoods,butdenoteaspecifickindorcategoryofproduct,may ceasetofunctionasdistinctivesigns. The transformation of a geographical indication into a generic termma yoccurindifferent countries, and at different times. This may lead to situations whereaspecific indication is considered to constitute a geographical indication in some countries (most notably, in its country of origin), whereas the same indication may be regarded as a generic terminother countries.
- 97. Theissueofgenericgeographicalindicationsgivesrisetomanydebates. Problems arisewheregoodsaretradedunderaspecificindicationthatisunderstooddifferentlyin differentcoun tries. Abalanceofinterestshastobeestablishedbetweentheconsumers and producersofthose countries in which age ographical indication is considered as indicating the

This statement does not take into account the special case of geographical indications for wines and spirit sdeal twith by TRIPS Article 23.

Paragraph 34oftheReport(1996)oftheCouncilforTRIPS(WTODocumentIP/C/8)states:

constitutes, in this territory, age ographical indication?" The question that may characterize the latter approach would be: "Canaparticular sign constitute age ographical indication in a given territory if, at the same time, it is claimed that this sign constitutes, in that territory, a trademark?" Due to the variety of legal concepts existing in the field of geographical indications, it is more complex to illustrate the latter approach.

(i) Conflictsundertrademarklaw

103. Asageneralrule,trademarksmustnotbedescriptiveordeceptive. Consequently, trademarksthatconsistoforcontainageographicalindicationcannotbeprotectedifuseof suchtrademarkswouldbemisl eadingastothetrueoriginoftheproductsonwhichthe trademarkisused. Lawsontrademarks specifically exclude from registration geographical terms that can be understood to constitute are ference to the origin of the relevant goods. This exclusion from registration usually depends on an assessment whether age ographical term used as a trademark would be perceived by the publication dicate a connection between the origin of the goods and the trademark. However, it is possible to use geographical terms as trademark sifthose terms are arbitrary such as, for example, "Antarctica" for bananas, because that mark would not be understood to refer to the origin of the goods on which it is used. Moreover, it may be possible to use age ographical term as a rademark in cases where that trademark, despite being originally descriptive, has acquired a distinctive character (or secondary meaning) through use.

(ii) Conflictsunderthelawofgeographicalindications

- Unfaircompetitionandpassingoff

104. Thelawfortheprotectionagainstactsofunfaircompetitionorpassingoffismeantto providearemedyagainstillicitcommercialacts, suchas, for example, false ormisleading allegations in the course of trade. As already pointed out, the pla intiffina passing of faction or an action for unfair competitionagainst the alleged ly unauthorized use of a geographical indication must show, interalia, that such use of a geographical indication is misleading. This can only be done by demonstrating that the geographical indication in question has acquired good will or reputation.

105. Inaconflictovertheuseofageographicalindication, in which the protection of the geographicalindicationisbasedonthelawofunfaircompetitionandt headversepartvis claiming trademark rights in that indication, the question as to whether the use of the geographicalindicationbyanyofthetwopartieswouldbemisleading,again,isdecisive.If theuseofthetrademarkconsistingofthegeographic alindicationismisleadingastothe originofthegoodsonwhichitisused, suchusewould constitute un fair competition or passing of fand, thus, should not be allowed. In turn, this would entail the invalidity of the eotherhand, the use of that trademark is not misleading, the trademarkinguestion. If, onth caseforpassing of fismore likely to fail. This means of course that, at the same time, the use ofthetrademarkbytheadversaryconstitutestrademarkinfringement. Itshouldbenoted, however, that the situation may not present itself in such a clear -cutmanner.Thismaybethe case, for example, where due to limited geographical use, a given geographical indication had acquiredgoodwillonlyinalimitedarea, whereas a potentially confl ictingtrademarkisknown

Exampletake nfromWIPOpublication 760,page166

throughout acountry. In that situation, the result may well be cocertain conditions as to use and/or expansion of that use.

- Collectiveandcertificationmarks

106. Wheregeographicalindi cationsareprotectedascollectiveorcertificationmarks,their protectionisgovernedbytheapplicabletrademarklaw.Conflictsconcerningcompeting trademarkrightsareresolvedundertrademarklawinapplicationoftheprincipleofpriority. Dependingontherelevanttrademarklaw,priorityrightsmaybegrantedonthebasisofa priorapplication,prioruseor,undercertaincircumstances,toamarkthatwaspriorin becomingwellknown.However,situationsmayexistinwhichtheholderofacerti ficationor collectivemarkhastotoleratetheuseofthatmarkbycertainthirdparties.

- 107. Inconsiderationoftheseprinciples, the resolution of conflicts between geographical indications protected as collective or certification marks and "individual" trademarks does not seem to constitute a problem.
 - Protectedappellationsoforiginandregisteredgeographicalindications
- 108. Underasystemofappellationsoforiginorregisteredgeographicalindications, geographicalindications are protected as *suigeneris* rights. Such systems may provide explicitly for rules to be applied in cases of claims to one and the same geographical term based on a trade mark right and on the right to a protected appellation of originorare gistered geographical indication.
- 109. Dependingontheapplicablelegalregime, different solutions are possible. They may range from giving priority to registered geographical indications or protected appellations of originover competing trademarks, to the possible intermediary solution of competing registered geographical indications or protected appellations of origin, with the possible intermediary solution of competing registered geographical indications or protected appellations of origin, with the possible intermediary solution of competing registered geographical indications or protected appellation so for indications or protected appellation so for indications or protected appellation so for indication so for indica
- 110. Whetherornotpr iorityisgiventoatrademarkoveranappellationoforiginora registeredgeographicalindicationclaimingrightsinthesamesigndependsonanumberof factors. Itmaymakea difference whether the trademarkin question was registeredorused in good faith before the geographical indication was protected, or whether the trademarkin question has been used for along period of time and has acquired reputation and renown. In applying those factors, decisions concerning the relationship between trademar ks and appellations of origin or registeredgeographical indications are made on a case by case basis.

See,forexample,Article 15(2)oftheFirstCouncilDirectiveofDecember21,1988,to

approximatetheLawsofthe[EC]MemberStatesRelatingtoTradeMarks(89/104/EEC): "By

- Administrativeschemesforprotection
- 111. Administrativeschemesusedfortheprotectionofgeographicalindicationstypicallydo notdirectly addressconflictsbetweentrademarksandgeographicalindications. Those schemesoperateindependentlyfromadministrationswhichareresponsiblefortheregistration oftrademarks. They usually ensure that certain geographical indications cannot be use don specific products. This mechanism of protection for geographical indications may be used where protection provided under unfair competition law is considered to be insufficient.
- 112. Itisconceivablethat,underanadministrativesystemof protection,atrademarkthat containsorconsistsofageographicalindicationcannotbeusedonacertainproduct. However,suchadecisionwouldlikelybewithoutrelevanceastothevalidityofthe trademarkinquestion.
 - (iii) International agreements
- 113. Notmanyinternationalmultilateralagreementsonintellectualpropertyregulate expresslytherelationshipbetweentrademarksandgeographicalindications.Inthecontextof thispaper,twoagreementswillbelookedat,namelytheLisbon AgreementandtheTRIPS Agreement.
 - The LisbonAgreementfortheProtectionofAppellationsofOrigin andTheirInternationalRegistration
- 114. TheLisbonAgreementdoesnotaddressdirectlythequestionofconflictsbetween trademarksandgeogra phicalindications. The competent authority of a state party to the LisbonAgreement may declare, within one year from the receipt of the notification of the international registration, that it cannot ensure, in its country, protection for that appellatio origin (Article 5(3)). The grounds for such a declaration must be indicated. The Lisbon Agreement itself does not specify the grounds on which such a declaration may be based. It happens in practice that an internationally registered appellation origin is denied protection in a State party to the Lisbon Agreement because that appellation is considered to be ageneric termin that country, or because existing prior rights would conflict with that appellation.
- 115. Totheextentthatadec larationunderArticle 5(3)concerningagiveninternationally registeredappellationoforiginwasnotmade,thatappellationoforiginisprotectedin accordancewithArticle 3.Inaddition,Article 5(6)providesthat,ifanappellationthatis protectedinacountrypursuanttothenotificationofitsinternationalregistrationhasalready beenusedbythirdpartiesinthatcountryfromadatepriortosuchnotification,thirdparties maybegiventherighttousethatappellationoforiginforanaddit ionalperiodoftwoyears followingtheexpirationoftheoneyearperiodduringwhichadeclarationunderArticle 5(3) canberaised,beforesuchusehastobeterminated.
 - TheTRIPSAgreement
- 116. Article 22.3containsanobligationforWTOMemb ersboundtoapplytheTRIPS Agreementtorefuseorinvalidate, *exofficio* iftheirlegislationssopermitorattherequestof aninterestedparty,torefuseorinvalidatetheregistrationofatrademarkwhichcontainsor consistsofageographicalindica tionwithrespecttogoodsnotoriginatingintheterritory

indicated, if use of the indication in the trade mark for such goods in that Memberis of such a nature as to mislead the public as to the true place of origin.

- 117. Article 23providesad ditional protection for geographical indications for wines and spirits, and Article 23.2 sets for ththe conditions of this enhanced protection in relation to the registrationoftrademarks. Thus, WTOMembersapplying the TRIPS Agreement are under anoblig ationtorefuseorinvalidate, exofficio iftheirlegislationssopermitorattherequest ofaninterestedparty, the registration of a trademark for wines which contains or consists of a geographicalindicationidentifyingwinesorforspiritswhichcon tainsorconsistsofa geographical indication identifying spirits. Most notably, protection of geographicalindicationsforwinesandspiritsagainstregistrationastrademarksunderArticle 23.2hasto beprovidedwithoutregardastowhethertheuseof suchageographicalindicationasa trademarkforsuchgoodswouldmisleadthepublicastothetrueplaceoforigin. Forthis reason, the extended scope of protection under Article 23.2isalsoreferredtoas"additional" protection.
- 118. Article 24oftheTRIPSAgreementlistsanumberofexceptionstoaWTOMember's obligationtoprotectgeographicalindicationsinaccordancewithArticles 22and23ofthe Agreement. Two of the nine paragraphs of Article 24referexpresslytotrademarks,name Article 24.5 and Article 24.7. The former paragraph constitutes a substantive rule concerning therelationship between trademarks and geographical indications, whereas the latter paragraphrelatestocertainproceduralaspectsforclaimingrightsinge ographicalindications overtrademarksandrequestingtheinvalidationofsuchtrademarkrights. Furthermore, Article 24.3providesasageneralrulethat,inimplementingPart II.Section 3oftheTRIPS Agreement, WTOMembers shall not diminish the prote ctionofgeographicalindicationsthat existed in that Member immediately prior to the date of entry into force of the WTO Agreement.
- 119. Article 24.5stipulatesthat, whereatrademarkhasbeen applied for orregistereding ood faith, or wherer ights to atrademarkhave been acquired through useing ood faitheither before the date of application of the provisions on geographical indications of the TRIPS Agreement in a WTO Member, or before the geographical indication is protected in its country of origin, measures adopted to implement the said Section of the TRIPS Agreement shall not prejudice eligibility for or the validity of the registration of a trademark, or the right to use a trademark, on the basis that such a trademark is identical with, or similar to, a geographical indication.
- 120. ArequestunderPart II,Section 3oftheTRIPSAgreementinconnectionwiththeuse orregistrationofatrademark(presumablyarequestforprohibitiontouseorinvalidationof theregistration of atrademark conflicting with a geographical indication) must be made withinthetimelimitsprovidedforbyArticle 24.7.Thelimitsarefiveyearsaftertheadverse use of the protected indication has become generally known in that Member, or five years after the date of registration of the trade mark in that Member provided that the trade mark has a few forms of the trade mark in the trade mark has a few forms of the trade mark in the trade mark has a few forms of the trade mark in the tradebeen published by that date, if such date is earlier that the date on which the adverse use becamegenerallyknowninthatMember.Article 24.1statesthatWTO Membersagreeto enterintonegotiationsaimedatincreasingtheprotectionofindividualgeographical indicationsunderArticle 23,thattheprovisionsofArticle 24(4)through (8)shallnotbeused byaWTOMembertorefusetoconductnegotiationsorto concludebilateralormultilateral agreements, and that Members shall be willing to consider the continued applicability of these provisionstoindividualgeographicalindicationswhoseusewasthesubjectofsuch negotiations.

- 121. TheTRIPSAgre ementcreatesaframeworkforthesolutionofconflictsbetween geographicalindicationsandtrademarks,takingintoaccountthedateofentryintoforceofthe TRIPSAgreementforWTOMembers,thecommencementofprotectionofgeographical indicationsin theircountriesoforigin,andthetimeoftheacquisitionof bonafide trademark rightsinsignsidenticalwithorsimilartogeographicalindicationsandusedongoodsfor whichtherespectivegeographicalindicationisprotected. Togetherwiththeothe rexceptions in Article 24,the TRIPSAgreement provides for delicately balanced solutions for conflicts between geographical indications and trademarks.

ANNEXII

This Annex contains an overview on principles for thes olution of conflicts between geographical indications and trademarks, and for conflicts between homonymous geographical indications, which were proposed by international organizations.

THE INTERNATIONALAS SOCIATIONFORTHEPR OTECTIONOF INTELLECTUAL PROP ERTY(AIPPI) $^{\rm 44}$

Atits37 thCongress,whichtookplaceinMay1998inRiodeJaneiro,Brazil,the InternationalAssociationfortheProtectionofIntellectualPropertyadopted, *interalia*, a resolutiondealingwiththeissueofgeographicalindications(Res olutionQuestion Q 62). ThisResolutionwasadoptedinconsiderationofanearlierresolutiondealingwiththesame subjectandadopted,bytheAIPPIExecutiveCommittee,inCopenhagenin1994(Resolution Question 118).Asregardstherelationshipbetwee ngeographicalindicationsandtrademarks, thefollowingportionsoftheResolutionareofinterest:

- Definitionofthetermgeographicalindicationasindicationthatidentifiesagoodas originatingintheterritoryofastate,oraregionorlocalityin thatterritory,whereagiven quality,reputationorothercharacteristicofthatgoodisessentiallyattributabletoits geographicalorigin.ForthepurposeofthatResolution,geographicalindicationisunderstood toincludeappellationsoforigin(th irdrecital).
 - Affirmation of the principle that atrade mark can be refused protection, if it is identical or similar to a geographical indication of high reputation, even if the goods or services are not similar, if use of the trade mark would take unfair advantage of or be detrimental to the distinctive character of repute of the geographical indication (paragraph B.2.).
 - Noteistakenoftheprinciple"firstintime,firstinright"asapossible guidingprinciplefortheresolutionofconflictsbetweeng eographicalindicationsand trademarks(paragraph B.3.,secondsub -paragraph).
 - Recommendation that at least the principle of ``co -existence'' expressed in Article 5.3 of the Copenhagen Resolution should be applied, meaning a recommendation, in principle, of co-existence between a geographical indication and an earlier trade mark, unless the trade mark has acquired reputation or renown prior to the date the geographical indication has been established or recognized as such, in which case protection of the geographical indication should be denied. However, this should not preclude the use of the geographical indication to identify the geographical origin of the goods or service sunder the conditions specified in paragraph 3.1 of the Copenhagen Resolution (paragraph B.3., second sub-paragraph).

THEINTERNATIONAL TRADEMARKASSOCIATIO N(INTA) 45

arighttouseit(paragraph B.5.)

In 1997, the INTABoard of Director adopted a Resolution dealing with the protection of geographical indications and trademarks. In particular, the Resolution provides for the following:

 Supportoftheprincipleof"firsti ntime, firstin right"prioritywhenresolvingconflictsbetweengeographical indicationsandtrademarks.

INTERNATIONALLEAGUE OF COMPETITION LAW (LIDC)⁴⁶

The International League of Competition Law (LIDC) has adopted in November 1998 a Resolution concerning geographical indications. The Resolution addresses the issue of international protection of geographical indications. However, the relationship between geographical indications and trademarks, and between homonymous geographical indications is not specifically dealt with.

THEINTERNATIONALVI NEANDWINEOFFICE(OIV)

In1994,theGeneralAssemblyoftheInternationalVineandWineOffice(OIV) adoptedResolution -O.I.V./ECO 3/94,dealingwiththerelationshipbetweentrademarksand geographical indications(theResolutiondoesnotreferto"geographicalindications"assuch, butusesthemorespecificterminologyadoptedbytheOIV,namely"recognizedappellations oforigin,""recognizedgeographicalindications"and"recognizedtraditional denominations").

Resolution-O.I.V./ECO~3/94 invites Member States of the OIV "to implement appropriate legal instruments under their legislation and regulations in order to ensure an equal level of protection for recognized appellations of origin, recognized eographical indications, recognized traditional denominations and trademarks, in conformity with the principles set out [in the Resolution]. "In essence, the principles laid down by that Resolution are contained in the recital stother Resolution and provident of the following: "In the recital stother Resolution and provident of the recital stother Resolution and the recital stother Resolution and provident of the recital stother Resolution and t

TheInternationalTrademarkAssociationisaninternationalnon -governmental organizationof trademarkownersandassociatedprofessionals.

TheOIVisanintergovernmentalorganizationfoundedin1924,havingcurrently45 member
States.

- Consideration is given to the Paris Convention for the Protection of Industrial Property and the TRIPS Agreement (second and third recital).
- Thenecessity to provide an equal level of protection to geographical indications and trademarks (four threcital).
- The principle that the protection of trademarks and geographical indications is, in good faith, determined by the priority in recognition of the geographical indication in the country of origin, the registration of the tradem arkor their use in countries where rights derive from their use, in conformity with national legislation. Account will also be taken of the reputation and distinctive character of a geographical indication and of a trademark, in conformity with national or regional legislation (fifth recital).
- A trade mark or geographical indication cannot use the reputation or other intellectual property rights already acquired by one or the other of these in order to guarantee its own development (six threcital).
- Then ecessitytoavoidanyprejudice,diminutionorweakeningofa trademarkorgeographicalindication(seventhrecital).
- Thechoiceofatrademarkbyitsownerissubjecttothepertinentconditions oftrademarklawandthatthegeographicalindicationisth egeographicalname (recognizedappellationoforigin,recognizedgeographicalindication)ortraditional name(recognizedtraditionaldenomination)whichdesignatesthesourceoftheproduct (eighthrecital).
- Withoutprejudicetocasesunderdispute, the use of an identical or similar designation as both trademark and geographical indications hall not be permitted (ninth recital).

In 1999, the General Assembly of the OIV adopted Resolution ECO/3/99, dealing with homonymous geographical indications. In particular, the Resolution provides for the following:

- $\ Consideration of Article \ 23.3 of the TRIPS Agreement (first recital).$
- Definitionofthehomonymyofageographicalindicationasadenominationusedin severalcountriestodesignateawineorspirit beverageofviticulturaloriginhavingasimilar oridenticalspellingand/orpronunciation.

- $\ A recommendation that Member States of the OIV, when setting differentiation rules for homonymous names concerned by the Resolution, should consider the efollowing (recommendation): \\$
 - theofficialrecognitionusedinthecountryoforigin;
 - thelengthoftimethenamehasbeeninuse;
 - whethertheusageisingoodfaith;
 - $-\ the importance of presenting the homonymous labels to marketing;$
 - encouragementmentioningsufficientdistinguishinginformationtoavoid confusionofconsumers.
