Structure of ROSPATENT

Russian State Institute of Intellectual Property

The Institute is the unique high educational institution in Russia to educate and train specialists particularly in the area of legal protection and commercial use of intellectual property.

Russian State Institute of Intellectual Property

The Institute was established more than 40 years ago in order to train patent specialists, developers of new technologies, advertising and marketing specialists for enterprises.

Russian State Institute of Intellectual Property

Since 1998 the Institute has started educational programs for lawyers specialized in IP legal protection and

Since 1999 it has launched the programs for economists.

Russian State Institute of Intellectual Property

Goals of the Institute:

- Educating, upgrading and post-graduate training of different specialists especially in IP area;
- Train-the-trainer programs;
- Developing and applying new forms of education;
- Conducting studies and researches on IP-related matters at the request of government and business communities;
- Developing international cooperation (study visits, exchange of students, attendance to the conferences and seminars)
- Taking part in developing IP-related legislative acts and programs, as well as conducting scientific expertise of such drafts;
- Rendering to individuals and different entities education-related services, such as consultations, making analysis, methodological support etc

Russian State Institute of Intellectual Property

The Institute has three faculties:

1. LAW FACULTY
2. ECONOMICS AND MANAGEMENT FACULTY
3. ADDITIONAL (POSTGRADUAL) EDUCATION FACULTY
