The screenshot shows the WIPO IPCRECLASS web application interface. The main window is titled "Working List - IPCRECLASS - WIPO - Microsoft Internet Explorer". The browser address bar shows "http://www.wipo.int/ipcreclass/en/working_list/". The page header includes the WIPO logo and "IP SERVICES". The main navigation bar has tabs for "WORKING LIST", "RESULT LIST", "MANAGE", and "REPORT".

On the left side, there are sections for "Filters" (IPC version: 2011.01, Project number: C449), "Import result list zip file", and "References" (Patentscope, USPTO, DPMA). Below these is the "ipcreclass version: 1.0.4" and "Last modified: 2012.02.16".

The central area displays a "Reclassify Document" dialog box with fields for "IPC version: 2011-01-01", "Project revision: C449", "Responsible office: BR", "Stage: 1b", and "Publication reference: BR0003668 A 20001226". Below these fields is a table with columns: "IPC symbol", "IPC Version", "Level", "Position", "Value", "Action date", "Status", "Source", and "Gnr office".

Overlaid on this is the "IPC Symbol selection Window". It features the WIPO logo and "International Patent Classification (IPC) Official Publication". It has a "Scheme" dropdown set to "2012.01" and a "Current symbol" field containing "G05B 9/00". There are radio buttons for "Language" (English selected) and "View mode" (full selected).

The main content of the selection window is a table with columns: "Scheme", "RCL", "Compilation", and "Catchwords". The table lists various IPC symbols and their descriptions, such as "Internal feedback arrangements for obtaining particular characteristics, e.g. proportional, integral, differential" and "Safety arrangements".

At the bottom right of the "IPC Symbol selection Window", a button labeled "Return selected symbol" is circled in red. The background shows a table with columns "date", "Status", "Source", and "Gnr office", displaying a list of records.

IPCRECLASS project perspectives

Next steps: Towards production use

- Transition plan based on residual WL
- Production use : Mid-April for IPC 2012.01
- **Freeze of reclassification submissions April 10-13**
- Residual WL for previous IPC revisions to be prepared by EPO (2012.01 back to 2007.01),
- IPC reclassification web site reset,
- IPC 2013.01 reclassification 100% through IPCRECLASS
