London

Introduction

- 1. Ihavebeenaskedtospeaktoyoutodayonthesubjectoflimitationsandexceptionsto copyrightandrel atedrights.IntheUnitedKingdomandinWesternEuropemorewidely,this issueiscertainlyacontentiousone,withstronglyheldandconflictingviewsasbetweenright ownersontheoneside,and,ontheother,varioususergroups,rangingfromthosewith specializedinterestssuchasthelibrary,researchandeducationalsectors,thepress,and broadcasters,tothegeneralpublic.
- 2. Recently,theEuropeanUnion,ofwhichtheUnitedKingdomisamember,hasbeen engagedinformulatingaDire ctiveforharmonizingthelawsofitsMemberStatesinrelation tocopyrightinthe"InformationSociety,"thatis,thenewdigitalenvironmentandparticularly theInternet.OneaspectoftheDirectivedealswithexceptionstorights,andthishasproved byfaritsmostcontroversialelement,whichledtoenormouslobbyingcampaignsthroughout theEuropeanUnionbyinterestedpartiesonbothsidesofthequestion.Iamtoldthatthe Directiveisthemostlobbiedevertodate,onanysubject.Thelobbyin gcontinuedthroughout thenegotiationsontheDirectiveintheEuropeanUnionCouncilofMinisters,inwhichthe GovernmentsoftheEuropeanUnionMemberStatesarerepresented,andthroughboth readingsoftheDirectiveintheEuropeanParliament,withrightownersurgingthatthe Directivebeshiftedmoretowardstheirinterestsand,conversely,userspressingforittobe movedmoreintheirdirection.
- 3. Governments, then, have an important role to play indeciding what is a fair and reasonable balance between, on the one hand, the entirely necessary and justified rights of authors, performers and producers, and, on the other, the interests of others in society. Certainly, finding this balance, chiefly through exceptions and limitations, is something to which we attach considerable significance in the United Kingdom. As we see it, this balance is vital in making copyright law acceptable to society as a whole, and satisfactorily workable in practice. Without it, we think it would be harder or us to carry out our role of increasing awareness of, and respect for, in tellectual property among the publicat large.
- 4. Clearly, however, governments cannot be free simply to create anyexceptionor limitationtorights, regardless of itss copeandeffects, without compromising the very object of protecting copyright and related rights, that is, to enable authors, performers and producers to control use of their material and obtain proper economic rewards from this. If this is not possible forrightowners, then there is no incentive for further creativity and investment. Howthenaregovernmentstodeterminewhatisappropriateinmakinglimitationsand exceptions without impairing the protection of copyright and related rights? Over the years, aninternational standard has developed to assist governments in this respect. I refer, of course,towhathascometobeknownasthe"three -step-test,"whichwillformanimportant partofmypresentationtoday,andwhichIwillnowbegintoexam ine.

I. THETHREE -STEP-TEST

5. Thetesthasitsoriginsintheworkofthe 1967StockholmRevisionConferenceofthe BerneConvention.Surprisingly,priortothisConference,thereproductionright,themost basicoftherightsgrantedtoaut hors,hadnotinfactbeenexpresslystatedintheConvention, althoughithadgenerallybeenrecognizedinnationallaws.TheStockholmConference wishedtoremedythissituation,butitwasdifficultforittodosowithoutalsoacknowledging thatexcep tionstothereproductionrightalreadyexistedinnationallawsaroundtheworld.

Therefore, what the Conference decided was to introduce ageneral reproduction right into the Convention, and at the same time allow for exceptions to the right, but by mea nso fa provision which would not permit Contracting Parties to maintain or introduce exceptions so wide as to under mine the reproduction right.

- 6. The Stockholm Conference provision on exceptions to the reproduction right, the three-step-test, eventually passed into the 1971 Paris Act of the Berne Convention as Article 9(2). Sincethen, it has gained much greater significance. Firstly, by virtue of the 1994GATTAgreementonTrade -RelatedAspectsofIntellectualPropertyRights(TRIPS Agreement). Article 13 of the TRIPS Agreement in effect requires not only that national exceptionstothereproductionrightshouldcomplywiththethree -step-test, but also that exceptionstotheotherexclusiverightscoveredintheTRIPSAgreementmustmeetth etest. Sincethen, a similar approach has been followed in Article 10 of the 1996 WIPO Copyright Treaty(WCT)andinArticle16oftheWIPOPerformancesandPhonogramsTreaty(WPPT). Eachofthesetreatiesrequiresthatexceptionstoanyoftherightss pecificallycoveredinthe treatymeetthetest.Inaddition,theWCT,whichobligesContractingPartiestocomplywith allofthesubstantive provisions of the Berne Convention, requires that exceptions to the rightscoveredbyBernemustalsomeetthet est. Thus, at international level, the test now applies not only to exception stother eproduction right but also, for example, to exception sto rightsofdistributionandcommunicationtothepublic.
- 7. Letusnowbegintolookatthethree -step-testitself. The first steprequires that exceptions should be confined to "certain special cases." The second requires that exceptions "do not conflict with an ormal exploitation of a work" —oro faper formance or aphonogram, when, as in the WPPT, the test is applied to the sethings rather than copyright works. The third step of the test requires that exceptions "do not unreasonably prejudice the legitimate interests of the author," or, correspondingly, of the performer or phonogram producer. It should be noted that the three steps of the test are cumulative, that is, all of the mapply jointly to exceptions so that if an exception fails to comply with any one of the steps, it does not meet the test.
- 8. Ofcoursehavingthistestisoneth ing,butwhatdoesitactuallymean?Termssuchas "special,""normal"and"unreasonable"areallopentointerpretationratherthanbeing absoluteinmeaning.Therefore,Iwillnowtrytoexaminefurtherwhatisintendedbythe wordingusedinthetest. Indoingso,Iwilldrawinparticularontwosourcesofinformation. Oneiswhatis,inmyview,averygoodbookontheBerneConvention,publishedin1987to commemoratethecentenaryoftheConvention,andwrittenbyanAustralianlawyer, Mr. Sam Ricketson. ThisisacomprehensivecommentaryontheConvention,preparedfrom alegalandacademicperspective.
- 9. ThesecondsourceIshalldrawonisfromaratherdifferentbackground.Asyoumay know,theTRIPSAgreementincludesamechani smforresolvingdisputesbetweenWTO MembersaboutwhethertheirnationallawsareincompliancewiththeTRIPSAgreement.

 Lastyear,apanelappointedundertheTRIPSdisputesettlementproceduresreached conclusionsonadisputebetweentheEuropeanUn ion(EU)andtheUnitedStatesofAmerica

_

[&]quot;TheBerneConventionfortheProtectionofLiteraryandArtisticWorks:1886 -1986,"by SamRicketson,publishedbytheCentre forCommercialLawStudies,QueenMary& WestfieldCollege,UniversityofLondon,1987.

overanexceptiontocopyrightinthelawoftheUnitedStatesofAmerica,whichthe EuropeanUnionhadarguedtobeinconsistentwiththeTRIPSobligations,includingthe three-step-testinArticle13oftheTRIPS Agreement.Thepanel'sreport,whichwas circulatedtoWTOMembersinJunelastyear,isinterestingsince,sofarasIamaware,itis thefirsttimethatanyformofinternationaltribunalhassoughttointerpretthetest.Moreover, thepanelhadtoa pproachthetestfromapracticalandeconomicstandpoint,ratherthana legaloracademicone.

- 10. TheissueinthedisputebetweentheEuropeanUnionandtheUnitedStatesofAmerica isanexceptioninthecopyrightlawoftheUnitedStatesof Americatorightsinrespectofthe publicperformanceofmusicascoveredinArticles11and11 bisoftheBerneConvention, andmoreparticularlyanexceptionapplyingwheremusicisperformedindirectly,thatis,by causingabroadcastorothertransmiss ioncontainingmusictobeheardinpublic.Iwould emphasize,however,thatitisnotmypurposetodaytocommentinanywayonthesubstance ofthedisputebetweentheEuropeanUnionandtheUnitedStatesofAmerica,butsimply,to lookatthewayinwh ichtheTRIPSdisputepanelinterpretedthethree -step-test.
- Whatthendothesesourceshavetosayaboutthefirststepofthetest -thatexceptions shouldonlybemadein"certainspecialcases"? Ishould point out at the outset that words in bracketsinthisslidearemineratherthoseofRicketsonortheTRIPSPanel.Inessence, Ricketsonbelievesthatthefirststepmeansthatexceptionsshouldbeforaquitespecific purpose(thatis,theyshouldonlybemadein"certain"specificcases ,andnotinbroadcases, orinallcases), and that the purpose for which an exception is made must be "special" in the sense of being justified by a clear reason of public policy or other exceptional circumstance. Ricketsoncitestheneedsofeducation orresearchasbeingoneexampleofapublicpolicy $reason which might justify exceptions. It seems to methat the view of the TRIPS Panel is {\it the triangle of triangle of the triangle of triangle of the triangle of triangle of the triangle of triangle of$ somewhatdifferent. In essence, the TRIPSP anel appears to metohave interpreted the first meaningthatexceptionsmustbeclearlydefined(thatis,ofsureor"certain" scopeormeaning)andofnarrowscopeorreach(thatis"special"orexceptionalinqualityor degree).
- There are subtleties of Englishin volved in the setwointer 12. pretationsandIamnotsure howtheytranslateintootherlanguages, butmyownviewoftheterm" certain "iscloserto Rickets on `s, and If eel that the history of the Stockholm Conference supports his opinion.Conferencedidnotwishtoidentifyallofthecases I thinkthat"certain"wasusedbecausethe where exceptions might be permissible, since this would have been difficult and may well not have been comprehensive, for example in catering for situation sunknown at the time of the Conference. Itse emstome, therefore, that "certain" is an indication that exceptions may only bemadein somecases, which, although notidentified in the treaties, have to be specifically identified in national laws. On the other hand, it seems to methat the views of Ricketsonand the TRIPS Panelon "special" are closer, and both conclude that the remust be something exceptional or out of the ordinary in the purpose for which an exception is made, which in turnimpliesthatitwillbeofnarrowscope.
- 13. Beforeleavingthefirststepofthetest,itisperhapsworthalsonotingthattheTRIPS Paneldeclinedtocommentonwhetherthepublicpolicyreasonforwhichanexceptionis madehastobe"legitimate"inordertobeconsidered"special."ThePanelfelt that"special" doesnotrequirepassingjudgementonthelegitimacyofthereasonforanexceptionin nationallaw,butratherthatitisthenarrownessofscopeofanexceptionimpliedbytheterm "special"whichisrelevant.

- 14. Turningnowto thesecondstepofthetest —thatexceptions"donotconflictwitha normalexploitationofawork" —IamnotsurehowmuchtheinterpretationsofRicketsonand theTRIPSPanelassistussincebothoftheminvolvetermswhicharethemselvesrather subjective.Ricketsonfeelsthatcommonsensedictatesthatthesecondstepmeansthere shouldnotbeconflictbetweenanexceptionandthewaysinwhichanauthormight reasonablybeexpectedtoexploithisworkinthenormalcourseofevents.Hegoesonto indiatethatthecorollarytothisisthattherearecaseswhereanauthorwouldnotusually expecttoexploithiswork(andthereforewhereexceptionswouldbepermissible), suchas, for example, whereaworkisusedforthepurposeofjudicialproceedings.
- 15. TheoverallconclusionoftheTRIPSPanelonthesecondstepwasthatanexceptiontoa rightrisestothelevelofaconflictwithanormalexploitationoftheworkifuses,thatin principlearecoveredbytherightbutexemptedbytheexcep tion,enterintoeconomic competitionwiththewaysinwhichrightholdersnormallyextracteconomicvaluefromthat right,andtherebydeprivethemofsignificantortangiblecommercialgains.
- Inmyview, onething that is particularly inter estingaboutthePanel'sdeliberationsis thattheyconsiderthat"normalexploitation"ofaworkhastobejudgedforeachrightgranted undercopyrightindividually,ratherthaninthecontextofalloftherightsconferredby copyrightinawork. Thus, intheparticular caseatissue, the Panel did not believe that the factthatauthorscanobtainincomefromgivingpermissionfortheirworkstobeincludedina broadcastjustifiesorcounterbalancesthefactthattheyaredeprivedoffurtherincomeby an exceptionwhichpreventsthemfromexercisingtheirpublicperformancerightswhenthe samebroadcastiscausedtobeheardinpublic. Ipersonally amslightly une asyabout this conclusion, since it does seem to methat the recan be circumstances where althoughauseof aworkisinprincipleaneworadditionalusecoveredbyafurtherrightundercopyright, the useinquestionisactuallyverymuchthesameasoneforwhichrightownershavealready beenproperlycompensatedthroughexerciseofanothe rright.
- 17. ItisalsoworthnotingthattheTRIPSPanelfeltthatitisthe *potential*damagecausedby anexceptionwhichisrelevanttodecidingwhetheritconflictswithnormalexploitation, ratherthanthe *actual*damageoccurringatapartic ulartime.Thereasonforthisisthatactual damagecouldsimplybe,forexample,areflectionofthefactthatrightownersarecurrently notinapositioninpracticetoexercisetheirrights,whereasiftheywereabletodoso,they couldpotentially obtainsignificantincomefromauseofaworkcoveredbyanexception.
- Lookinglastlyatthethirdstepofthetest -thatexceptions"donotunreasonably prejudicethelegitimateinterestsoftheauthor" -bothRicketsonandtheTRIPSPanelcon sider thatthishingesontheterm"unreasonable."Ricketsonpointsoutthattheword "unreasonable" was included in the tests ince, in theory at least, any exception causes some prejudicetotheinterestsofauthors, sothatunless the term "prejudice" w asqualifiedinsome way,itwouldbedoubtfulwhetheranyexceptionsatallwouldbepermissible. Hethengoes ontoexplainthat, at the Stockholm Conference, the view was held that "unreasonable prejudice" might be countered by providing that authors a recompensatedforanexceptionby wayofgivingthemequitableremuneration. However, such an arrangement is in effect a compulsorylicenseofanauthor's rights, and, as Ricketson points out, this might well bein breachofthesecondstepofthetest -that exceptions or limitations should not conflict with a normalexploitationofawork. It seems to methat circumstances in which right owners are actually unable to exercise rights are relatively rare, and therefore I personally amextremely skepticala boutexceptionsinexchangeforremunerationwhicharetantamounttocompulsory licenses, and do not generally feel these areat all acceptable.

- 19. TheoverallconclusionoftheTRIPSPanelaboutthethirdstepofthetestisthat prejudicetoth elegitimateinterestsofrightholdersreachesanunreasonablelevelifan exceptioncauses,orhasthepotentialtocause,anunreasonablelossofincometotheright holder. Again, this interpretation may not assist us greatly in that is rather circula rbecause it itself uses the term "unreasonable." In practical terms, however, what the Panelwas driving at is that it is the scale of losses to right owners which is the determining factor in judging whether an exception is unreasonable, and again they emphasized that it is potential, rather than actual, losses which in their view are relevant.
- 20. Ihopethatthisexaminationofthemeaningofthethree -step-testhasbeenofsome value, although Irealize that there are many other points which could be discussed and that there are probably many questions which remain unanswered. Clearly, the task of the legislator inputting the three -step-test into practice is not an easy one, but the test is, as I have indicated, as tandard to which all part iest othe Berne Convention, the TRIPS Agreement, the WCT and the WPPT must seek to adhere. To those of you involved in framing exceptions in national law, I would recommend a full reading of the TRIPS Panel report in the European Union and the United States of America Case. Although this is lengthy, and one may not entirely agree with all of the Panel's views, the report does, I think, provide a comprehensive discussion of factors which need to be considered in assessing whether exceptions meet the three-step-test. Certainly, the Panel's views must surely merit careful study by all countries party to TRIPS.

II. EXCEPTIONSINNATION ALANDOTHERLEGISLA TION

- 21. Iwouldnowliketolookatexceptionsinpracticeinnationalandotherlaws, with particularreferencetothethree -step-test. Iamgoing to take as mystarting point the European Union (EU) Directive oncopyright in the Information Society which Imentioned at the beginning of mypresentation. Iapologize for using this as an example , but, naturally, I amfamiliar with it, and also Is us pect that the situation in the European Union does have parallels in other parts of the world. As Is aidearlier, the Directive addresses exceptions to rights, and this has been avery controversial spect. The Directive does not seek to harmonize exceptions completely within the European Union, but it does place constraints on the exception storights which European Union States may provide in the irrational laws, and in effects et supper limits one xceptions beyond which European Union States must not go.
- 22. Thus, one aspect of the Directive is that it permits European Union States to provide exceptions for certain purposes, although it does not require each European Union State to provide exceptions in any or all of these areas. In particular, European Union States will be permitted by the Directive to provide exceptions for the following purposes:
 - copyingforprivateuse;
 - copyinginlibraries,educationalestablishments,museumsandarc hives—examples heremightbecopyingforpreservationorconservationpurposesinmuseumsor archives,andtherecordingofbroadcastsforuseinschools;
 - illustrationforteachingorresearch;
 - usebypeoplewithdisabilities,forexample,toallowBraille copiestobemadefor theblind;
 - reportingofcurrentevents;
 - criticismorreview;
 - useinadministrativeorjudicialproceedingsorthelike;

WIPO/CR/MOW/01/2

page 7

- photographyorthelike, such as painting or broadcasting images of, works of art inpublic places, such as build ingsors culptures;
- advertisingtheexhibitionorsaleofworksofart;
- useforcaricature,parodyorpastiche.
- 23. Ishouldmakeclearthatthisisnotanexhaustivedescriptionoftheprovisionsofthe Directiveonexceptions. There are some o the roptional categories of exceptions be sides those Ihave highlighted, and, more importantly, each category of exceptions is much more closely defined in the Directive than in the abbreviated way Ihave presented them here, so as to set limits on national exceptions. For example, the provision in the Directive on exceptions for private use is a companied by a condition that fair compensation must be paid to right owners where this would be appropriate. But what Ihopethis part of my presentation shows is the sorts of a reason which exceptions exist in the 15 States of the European Union, and, as Is aid earlier, Iimagine that the remust be countries else where which either have, or have considered, exceptions in much the same areas.
- 24. AsIha vesaid,theDirectivedoesnotrequireallEuropeanUnionStatestoprovide exceptionsineachofthesecategories.Thelistofcategorieshastoaccommodatedifferent traditionsindifferentcountriesoftheEuropeanUnion.TheEuropeanUnionStatesdo notall haveexactlythesamesensitivitiesaboutexceptionstoconsider,andexceptionscanbevery muchareflectionofindividualnationalcircumstances.Forexample,intheUnitedKingdom wedonothaveanyexceptionsrelatingtocaricature,parodyo rpastiche,butIknowthatin FranceandsomeotherEuropeanUnionStatestheseareregardedasimportantandintegralto freedomofexpressioninthosecountries.Conversely,itseems,forexample,thatweinthe UnitedKingdomaremuchmoreconcerneda boutexceptionsforthelibraryandacademic communitiesthanaresomeotherEuropeanUnionStates.
- 25. AlthoughtheDirectivewillpermitEuropeanUnionStatestoprovidevariouscategories of exceptions, these categories are, as Ihavesaid, closely defined, and over and above this the Directive also places further obligations on European UnionStates. The Directive also requires European UnionStates to ensure, when they decide to make exceptions in any of the categories permitted by the Directive, that each exception only applies in a special case, which does not conflict with an ormal exploitation of a work or other protected subject -matter and does not unreasonably prejudice the legitimate interests of the rightholder. In other words, the three-step-test is directly reflected in the Directive.
- 26. The particular significance of this for European Union countries is that, should there be complaints, for example from right owners, about the nature and scope of exceptions in any of the European Union States, it will ultimately be for the European Court of Justice to determine whether exceptions in the European Union meet the three estep-test. Since the European Union States are also parties to TRIPS, this raises the possibility of their exceptions being scrutinized both by the European Court and a TRIPS dispute Panel, with the possibility that not necessarily the same conclusions would be reached.
- 27. ItremainstobeseentowhatextenttheEuropeanUnionStatesactuallyinco rporatethe three-step-testintheirownlawswhenimplementingtheDirective.Todate,themain tendencyappearstohavebeennottodothis,buttousethetestasaguidelinedeterminingthe wayinwhichparticularexceptionsareframedinnationallaw ,andIthinkthatthisisfairly commonpracticeoutsidetheEuropeanUnionalso.Inotherwords,stateshaveinmanycases sodraftedexceptionsthattheybelievetheyfallwithinthetest,withoutactuallyreferringtoor usingthelanguageofthetest .

- 28. Generally,thishasbeenourpracticeintheUnitedKingdom,althoughIthinkitcanbe saidthatelementsofthetestcanbefoundincertainofourexceptions.Forexample,inthe UnitedKingdom,thereareexceptionspermittingwhatis termed"fairdealing"withawork forpurposesofprivatestudy,research,criticism,reviewornewsreporting.Thisconceptis similar,althoughlesswide -ranging,thanthatof"fairuse"intheUnitedStates.Inmyview, thelimitationoftheseexcepti onsastowhatis"fair"verymuchcapturestheelementsofthe three-step-testconcernedwithavoidingconflictwithnormalexploitationandunreasonable prejudicetorightowners,sinceausewouldbeunlikelytoberegardedbythecourtsas"fair" ifit didthesethings.
- 29. Much closer reflections of the three -step-testcanalsobefoundinnationallaws.For example, as Iunderstandit, the chapter in the copyright law of Spain concerned with exceptionsendswithaprovisiontotheeffectth atthearticlesofthechaptersettingout exceptionsmaynotbesointerpretedastobeappliedinamannercapableofunreasonably prejudicingthelegitimateinterestsoftheauthororadverselyaffectingthenormalexploitation ofawork. ²Examples of suchdirectreflection of the test, can, Ithink, also be found in the copyrightlawofGreece. ³Itseemstomethat,ininstancessuchasthese,thelegislatorhasin effectsetoutthespecialcasesinwhichexceptionsapply,butthen,byincorporating theother twoelementsofthethree -step-testinthelaw,hasmadeitdirectlyincumbentonusers,and ultimatelythenationalcourts, to consider whether in practice the test is indeed metinany specificuseofaworkmadeunderthespecialcaseswheree xceptionsexist.Clearly, therefore, there are different approaches around the world which might be considered when decidinghowtoimplementthethree -step-testinnationallaws.

III. DIFFERENCESBETWEEN THEANALOGANDDIGIT ALENVIRONMENTS

- 30. Inthisfinalpartofmypresentation, Iamgoingtolookatdifferencesbetweenthe analoganddigitalenvironmentsintheirimplicationsforexceptionstorights. Ishouldmake clearthat Icertainly do not claim to know everything here, as we in the United Kingdom, like people in many countries, are still going through a process of determining what is appropriate in terms of exceptions in the new digital environment. Is uspectal so that we still need more practical experience of the operation of this environment before more definite conclusions can be reached.
- 31. Anyofyouwhowerepresentatthe1996DiplomaticConferenceonCertainCopyright andNeighboringRightsQuestionswhichledtotheadoptionoftheWCTandtheWPPTwill nodoubt recalltheintensedebatesabouthowfarthereproductionrightshouldextendinthe digitalenvironment,whichwentonrightuptotheendoftheConference.Somecountries clearlyfeltthatthekindsoftemporaryelectroniccopieswhichoccur,forexamp le,simplyto allowmaterialtobeviewedonscreen,shouldnotberegardedasreproductionsatall,since suchcopiesdonotrepresentarealorseparateactofexploitation.Othercountriessawno basicdifficultywithacomprehensivereproductionright extendingtocopiesofthiskind,or consideredthatthisalreadyexistedbyvirtueofthewidedefinitionofthereproductionright intheBerneConvention.Eventually,delicatecompromiseswerereachedasreflectedinthe

See, for example, Article 18(2) of Law No. 2121/1993 of Greece, as last amended by Law No. 2435 of 1996, published by WIPO in July 1997

² See Article 40 *bis* of the Consolidated Text of the Spanish Lawon Intellectual Property, as published by WIPO in September 1999.

9

agreedstatementtoArticle1(4)oftheWCT,indicatingthatthereproductionrightinArticle oftheBerneConventionfullyappliesinthedigitalenvironment,andthatactssuchas electronicstorageofworksindigitalformconstitutereproduction.

- 32. Theothersideto thiscoinwas,however,anunderstandingthatexceptionstothe reproductionrightpermittedunderArticle9oftheBerneConventionalsofullyapplyinthe digitalenvironment,astheagreedstatementtoArticle1(4)oftheWCTalsoreflects. Moreover,t heagreedstatementtoArticle10oftheWCTonexceptionssetsoutthe understandingthatcontractingpartiestothetreatyarepermitted"tocarryforwardand appropriatelyextendintothedigitalenvironmentlimitationsandexceptionsintheirnational lawswhichhavebeenconsideredacceptableundertheBerneConvention,"thatis,notonlyin thecaseofthereproductionrightbutalsootherrights.Similarunderstandingsapplyinthe caseoftheWPPT.
- 33. Thereare, Ithink, essentially two dimensions to considering what exceptions might apply in the digital environment. Firstly, whether any new exceptions are needed in this environment. Secondly, whether existing exceptions from the analog environment remain appropriate in the digital environment, or need to be restricted in some way in that environment. As I see it, the factors that might dictate are duction in scope of exceptions in the digital context are mainly the perfect reproductions that the technology allows, and the ease with which is chitenable smaterial to be disseminated to large numbers of people, again without any loss of quality. Some of the factors which might mean that new exceptions are desirable were raised at the 1996 Diplomatic Conference on Certain Copyright and Neighboring Rights Questions, such as the status of electronic copies which simply allow a work to be seen or heard.
- 34. Iwouldliketostartbylookingatpossiblenewexceptionsinthedigitalenvironment, as Ihaverecentlyhadexperiencewiththisi nthecontextoftheEuropeanUnionDirectiveon copyrightintheInformationSociety. TheDirectiveincludesthefollowingexception, which allEuropeanUnionStateswillhavetointroduce. This willbeanewexceptionforusinthe UnitedKingdom, and, I think, also for the other European UnionStates. This exception is that some kinds of temporary electronic copies which occur as part of the technical process of making Internet transmissions will be excepted from the reproduction right, the aspect covered in part (a) of the exception. It also requires that some kinds of temporary electronic copies simply enabling the use of awork will also be excepted from the reproduction right, part (b) of the exception. Is hould add that this exception is also ubject in the Directive to the three-step-test, so that when European Union States implement the exception in their national laws, they will need to ensure that they do so in amanner consistent with the test.
- 35. Onemajordrivingforcebehindt heexceptionistheunderstandableconcernof intermediariessuchasInternetserviceprovidersandtelecommunicationscompaniesthatthey mightunreasonablybeheldresponsibleforthemyriadoftemporaryelectroniccopies occurringinInternettransmissi ons,whentheyhavenoknowledgeof,orcontrolover, whetherthird -partiesareusingtheirsystemstoillegallydisseminatecopyrightmaterial. Part (a)oftheexceptionintheDirectivethereforeexemptscertainofthesecopies,butfrom thepointofvi ewoftheintermediaryonly.AsIseeit,apersonwhoactuallyinitiates unauthorizeduseofcopyrightmaterialintheInternetwouldnotbenefitfromtheexception, whichIthinkcanonlyberight.Moreover,theDirectivealsoprovidesthatrightowner scan stillobtaininjunctionsagainstintermediarieswheretheirservicesareusedbythird -partiesto infringecopyright.

- 36. Europeisnottheonlyplacewheretherehasbeenintensedebateabouttheposition of intermediariessuchasInternet serviceproviders. ThedebatehasalsooccurredintheUnited StatesofAmerica, anditmaybethatyouarefacingithere. IntheUnitedStatesofAmerica, theresultofthedebatewasratherdifferent, and Iwould characterizetheapproachtaken in the UnitedStatesofAmericaDigitalMillenniumCopyrightActasessentially being one of limiting the liability of intermediaries for copies occurring in their systems, provided that they comply with certain conditions, rather than one of exempting reproduc tions by intermediaries as in the European Union approach. Personally, Ithink that a liability limiting approach is equally valid, and its emstomethat whatever solution accountry adopts on the issue of intermediaries will depend very much on the way copyright law, and the law in general, function in that country interms of deciding who among various players is responsible, and to what extent, for unauthorized uses of material.
- 37. AsecondreasonbehindtheexceptionintheEuropeanUnionD irectiveistheconcern whichwasreflectedatthe1996DiplomaticConferenceonCertainCopyrightand NeighboringRightsQuestionsabouttreatingelectroniccopieswhichmerelyenableanend useofmaterial,suchaslisteningorviewing,asreproductions incopyrightterms.Part(b)of theexceptionintheDirectiveexemptssuchcopies,butitisimportanttonotethatitapplies onlyinthecontextoflawfulusesofmaterial.Iseenoreasonwhyanyonewhohasillegally obtainedaccesstocopyrightmate rialshouldbenefitfromtheexception.
- 38. Itseemstomealsotobepossibletoreachaconclusionthatanexceptionfortemporary electroniccopieswhichsimplyallowsmaterialtobeperceivedisnotnecessaryatall,but much,Ithink,depend sonthewayinwhichcopyrightlawfunctionsinaparticularcountry. Certainly,intheUnitedKingdom,wehaveneverseenaparticulardifficultywithcopiesof thiskind.Underourlegalsystematleast,itisextremelyunlikelythatarightownerwho has, say,agreedtotransmitmaterialtothepublic,couldthenobjectto,orclaimmoremoneyfor, thematerialbeingviewedorlistenedtobecausethisinvolvesreproduction.Inallprobability, therightownerwouldbeheldintheUnitedKingdomCourt stohaveimpliedlylicensedthe reproductionbyagreeingtotheconsumerhavingthematerialinthefullknowledgethatthe technologynecessitatesreproductionforthematerialtobeseenorheard.
- Turningnowtotheissueofwhetheranalog exceptionsremainappropriateinthedigital environment, timedoes not permit meto discuss this exhaustively, but let us look at some examples. Imentioned earlier that the European Union Directive will permit European UnionStatestomakeexceptionsa llowinglibrariestocopymaterial.IntheUnitedKingdomatleast, librariesarecurrentlyallowedtocopylimitedamountsofmaterial, and give copiestolibrary users who require them for purposes such as research or study. The Directive does not,however, allow exceptions to the rights of communication or making available to the public to bemadeforthebenefitoflibraries. The concernhere is that libraries should not be able, for example, to setupe lectronic databases of material which the gener alpubliccanaccessand copyatwill. This would be quite a different matter to allowing libraries to make limited copies and physically hand the set otheir clients as in the analog world, and would quite clearlybelikelytoconflictwiththenormalexp loitationofworks. Authors, publishers and databaseproducersareobviouslygoingtowanttooffersimilarelectronicservices themselves, and against payment.
- 40. Totakeanotherexample, Iindicatedearlierthatsome European Union Stateshav e exceptions allowing the use of awork of art for advertising its sale or exhibition. We have such an exception in the United Kingdom, but currently it extends only to making and distributing hard copies of the work, in printed catalogues or the like. However, those who

sellworksofartpointoutthattheywillalsowishtodosoovertheInternet,andwouldliketo seetheexceptionextendedtothatenvironment.Buthowfarshouldonego?Itseemstome thatitwouldbewrongifworksofartcouldbe advertisedontheInternetinsuchawaythat anyonecoulddownloadandobtainaperfectreproductionofthework.Clearly,thiscould underminethemarketthatexistsforartistsinthesaleofreproductionsoftheiroriginalwork.

- 41. Itseem stomealsothatparticularcareisnecessaryinthedigitalenvironmentover exceptionsinrespectofprivatecopying,especiallyasregardsmaterialsuchassoundor audiovisualrecordings. Asiswell -known,therearemanycountrieswhereprivatecopyi ngof phonogramsorvideosispermittedunderexceptions,butrightownersarecompensatedfor thisbywayofleviesonrecordingmediaorequipment. Often, this approach has been followed on the basisthat privatecopying in evitably takes place but right owners cannot in practice control this through exercise of their rights, and therefore the state has thought it preferable to legalize private copying and compensate rightowners in return. However, it seems to methat the position is very different int he digital environment.
- 42. Here,forthefirsttime,rightownersareinapositionofbeingabletocontrolmore directlywhatconsumerscandowiththeirmaterial.Recordcompaniesandotherswanttobe abletousetheInternettosellservic esdirectlytothepublic,whichmightsimplybeservices allowingthepublictolistentoparticularrecordings,oralternativelytodownloadthemand makecopiesforretention.Clearly,exceptionswhichallowprivatecopyingcouldseriously underminesu chservices.Inthesecircumstances,rightownersneedtobeabletoexercisethe reproductionrightforthemselves,eithertorestrictcopyingortobeabletochargethemarket rateformakingacopy.However,thisisnottosaythatIconsiderallpri vatecopying exceptionstobeunacceptableinthedigitalenvironment,butthatmuchgreatercarehastobe takentoensurethatprivatecopyingexceptionsdonotinterferewithwhataregoingto becomesomeofthemainwaysofexploitingcopyrightmateria linthatenvironment.
- 43. Ihavetalkedofconstraintsonexceptionsthatmightbenecessaryinthedigital environment, but Ithinkalsothatthere are cases where it is difficult to see why any change is desirable or justified as compared tow hat is permitted in the analogenvironment. For example, in the case of exception stopublic performance rights, it seems to me generally to make little difference whether a work is performed using analogor digital equipment. Moreover, I find it difficult to see how changes to exception sinthedigital environment could easily be justified in matters of public interest such as new sreporting, critic is morreview, or administrative or judicial proceedings.
- Beforeconcluding mypresentation, I would like to speak briefly about one aspect of exceptions in the digital environment which featured greatly in the debate on the European Union Copyright Directive. As you will no doubt know, both the WCT and the WPPT will be used to brequirethatprotectionisgivent otechnologicalmeasuresemployedbyrightownerstocontrol use of their material, which are another feature of digital technology, and which clearly are goingtobeofvitalimportancetorightownersinprovidingservicessuchasmusicon -line. The Dir ective provides for the protection of technological measures as required by the WIPO Treaties, but there has been alively debate in the European Union about precisely how farth is protectionshouldgo.ConsumersintheEuropeanUnionareveryconsciouso fthefactthat, if rightownersareabletocontroluseoftheirmaterialcompletelybymeansoftechnological measures, then the exceptions which exist incopyright law could no longer be of any value, sincethetechnicalmeasureswillnotallowusersto benefitfromthem.Ofcourse,onemight argue that this does not matter if, as in the United Kingdom, exceptions are simply defensesagainstinfringement, rather than conferring positive rights or freedoms on consumers. But

 $certainly consumers in the Un \\ited Kingdom, and in the European Union generally, do not see \\matters this way.$

- Tocutalongstoryshort, a solution was reached in the Directive such that European UnionStateswillbeabletointerveneifsituationsdevelopwhererightown ersusetechnical measures in such a way that consumers are unreasonably prevented from benefiting fromcopyrightexceptions. Itremains to be seen precisely how this will operate in practice, but it doesnotnecessarilymeanthatconsumerswillbegiven themeanstocircumvent technologicalmeasures which could well defeat the whole object of these. Rather, it might mean, for example, that right owners are required to take exceptions into account in the way technicalmeasuresareusedoraresimplyrequi rednottoapplythemincertaincircumstances. IhavementionedthisdebateinEuropebecauseittoohas,Ithink,occurredelsewhere.For example, its eems to me, looking at the United States of America Digital Millenniumnditionsorlimitationsontheprotectionoftechnological CopyrightActthatthisputco measures, and also provides the ability to review matters if there are difficulties in relation to the control of the controexceptions. You may well also face this debate in this region.
- 46. Thatconcludesmypr esentation.IamacutelyawarethatIhavebynomeanscovered everythingthatcouldbesaidaboutexceptionsandlimitations,butthatwouldtakeamuch longertime.Ihope,however,thatIhaveatleastgivenaninsightintothemainissues involved,a ndprovidedsomefoodforthought.

ANNEX

THE"THREE -STEP-TEST"

Requiresthatexceptionsandlimitations

(1) areconfinedto "certain special cases"

and

(2) "donotconflictwithanormalexploitationofa work" (performanceorphonog ram)

and

(3) "donotunreasonablyprejudicethelegitimate interestsoftheauthor" (performerorphonogram producer)

Thethreestepsare cumulative

MEANINGOFTHETHREE -STEP TEST(1)

Step1: "certainspecialcases"

Ricketson

Exceptionsmustbef oraquitespecificpurpose(that is,madein"certain"casesonlyandnotinbroad casesorinallcases)

and

thepurposeshouldbe"special"inthesense of being justified by some clear reason of public policy or other exceptional circumstance.

TripsPanel

Exceptionsmustbeclearlydefined(thatis,of "certain"scopeormeaning)

and

ofnarrowscopeandreach(thatis,exceptionalor "special"inqualityordegree)

MEANINGOFTHETHREE -STEPTEST (2)

Step2: "donotconflictwithanorma l exploitationofawork"

Ricketson

Exceptions should not conflict with the ways in which an authorm ight reasonably be expected to exploit his work in the normal course of events.

TRIPSPanel

Anexceptiontoarightrisestothelevelofa conflictwithanormalexploitationoftheworkif uses, that in principle are covered by the right but exempted by the exception, enter into economic competition with the ways in which right holders normally extracte conomic value from that right, and the reby deprive them of significant or tangible commercial gains.

MEANINGOFTHETHREE -STEPTEST (3)

Step3: "donotunreasonablyprejudicethe legitimateinterestsoftheauthor"

TRIPSPanel

Prejudicetothelegitimateinterestsofrightholders reachesanunreasonablelevelifanexception causesorhasthepotentialtocauseanunreasonable lossofincometotherightholder.

ExceptionsintheEuropeanUnion(EU) DirectiveonCopyrightintheInformationSociety

The Directive allows (but does not require) EC states to provide exceptions for certain purposes, such as:

- copyingforprivateuse;
- copyinginlibraries, educational establishments, museums and archives;
- illustrationforteachingorresearch;
- usebypersonswithdisabilities;
- reportingofcurrentevents;
- criticismorreview;
- useinadministrativeorjudicialproceedingsorthelike;
- photographyorthelikeofworksofartinpublicplaces, suchasbuildingsandsculptures;
- advertisingtheexhibitionorsaleofworksofart;
- useforcar icature,parodyorpastiche.

The Directive also requires that these exceptions:

"shallonlybeappliedincertainspecialcaseswhichdo notconflictwithanormalexploitationoftheworkor othersubjectmatteranddonotunreasonablyprejudice theleg itimateinterestsoftherightholder"

EuropeanUnionDirectiveonCopyright intheInformationSociety

TheDirectiverequiresthat:

- "Temporaryactsofreproduction, which are transientor incidental, which are an integral and essential part of a technological process, whose sole purpose is to enable:
- (a) atransmissioninanetworkbetweenthirdpartiesby anintermediary,or
- (b) alawfuluseofaworkorothersubjectmattertobe made, and which have no independent economic significance, shall be exemp ted from the reproduction right."

This exception is also subject to the three -step-test.
