EP authority file

Print Share

The EP authority file provides a sequential gap-free list of all patent document publication numbers issued by the European Patent Office under the [IP5 authority file specification](#) and WIPO standard ST.37.

For consistency checks the EP authority file also contains publication numbers for which no patent document has been issued (withdrawn, deleted) or no patent document is available (missing, reissued, international publications not republished).

For further details see [the definition file](#) of the EP authority file.

The EP authority file is updated every six months (last update: 30 June 2022) and available in three formats:

- XML format** (ZIP, 54 MB) according to the **DTD** (3 KB).
- CSV format** (ZIP, 29 MB) with semicolon-separated line items.
- JSON format** (ZIP, 101 MB)
