

# PAPI survey part 2

Response ID:252 Data

## 1. Identification page

Please enter the two-letter country code corresponding to your Office or Organization.

Don't know your country code? [Please click here.](#)

RU

Please enter your email address so we can contact you if we have questions about your response.

## 2. Questions page

1. Please explain any other conditions or requirements for access to patent information besides those covered in Part 1 questions 3 (access mechanism) and 4 (who may access), such as limits on the number of queries, number of results, or data limits.

There are no daily limits concerning the number of queries and downloads.

2.

### Are fees required for access to particular types of information?

YES

If yes, please indicate for which information and explain the access procedure (e.g. how to create an account, what forms of payment are accepted, etc.).

Access to Russian Databases (Soviet documents, Design and Trademark Databases) is partially fee payable.

3. If your office uses multiple languages, are the online interfaces for different languages synchronized with the same capabilities and the same data, or do some interfaces have different capabilities or data than others?

Please indicate the reference language(s).

English

Russian

**Comments:** Rospatent/FIPS websites have Russian and English interfaces, however, the content is partially translated

4. Please indicate any differences in the data available in other languages (for example, in the frequency of updates, coverage, search tools, etc.).

	Differences for Language
Published applications	Not published
Granted patents	Not published
Legal Status information	Not published
Corrections	Not published
Priority information	Not published
Patent Term Extensions or Supplementary Protection Certificates	Not published
Patent family information	Not published
File inspection	Not published
Court decisions	Not published
Reassignments	Not published
Licensing information	Not published
Official Gazette	Not published

**Comments:** English version includes only English web-interface (headings and menu). The content is available only in Russian.

#### 5. Are documents available for download in a searchable text format?

Examples of searchable text formats include plain text documents, HTML, XML, and certain PDFs that are created with readable text. If a PDF was created from a scanned image with OCR (optical character recognition) applied, then select "PARTIAL" as text may not always be converted correctly.

This question refers only to the content of the document which can be represented as text. Do not consider images or figures in your answer. If a document has both images and text, answer "Yes" if all the text elements are searchable.

	YES	NO	PARTIAL (some text elements not searchable)
Published applications	X		
Granted patents	X		
Amendments, corrections, or other documents with updates	X		
File history		X	

**Comments:**

#### 6.

**Are updated versions of patent documents available online when changes are made after publication (e.g. "as granted" rather than "as filed")?**

YES

If yes, please explain how updated documents are presented in search results (e.g. with updated kind codes according to WIPO ST.50).

Information on updates or corrections regarding IPRs, as well as all the amendments are published in the official gazette. Revised editions of patent documents are available for inventions and utility models.

**7. Which parts of patent documents are updated online after publication? Mark all that apply.**

Other (Specify in comments)

**Comments:**

**8. Is the event history (list of relevant legal status information) for a given document available in online systems?**

	YES	NO	PARTIAL
Pre-grant events	X		
Post-grant events	X		

**Comments:** Post-grant events are available in the State register

**9. What are your current plans, if any, for using WIPO Standard ST.27 for patent legal status information? Check all that apply.**

We have definite plans to implement ST.27 in the future

**Comments:**

**10. Does your Office / Organization provide an authority file of published patent documents?**

YES, we currently provide an ST.37 compliant authority file accessible through the WIPO Authority File portal

**Comments:**

**11. If you do not provide an authority file to WIPO according to the recommendations of ST.37, can you indicate the reasons below? Check all that apply.**

**Comments:**

**12. Are the following features available in the online systems provided by your Office?**

See glossary above for definitions of search types.

	Patent Applications	Patent Grants	Legal Status data
Basic search			
Advanced search or Field combination search	X		
Semantic search or similarity search			
Machine translations			

**Comments:**

**13. Are the following fields available for search in the online systems in question? Check all that apply.**

**Comments:**

**14. For machine translations, please indicate which languages are translated.**

**From (original document languages)**

English

**To (translated output languages)**

Russian

**15. Which patent information is translated?**

Title

Abstract

**Comments:**

**16. Does your system provide guidance on what types of number formats are accepted when searching by application or publication numbers?**

Our system provides guidance on the search page

**Comments:** Pop-ups are also available

**17. What types of number formats are accepted when searching by application or publication numbers? Please check all that apply.**

Other number formats (Please specify in Comments)

**Comments:** Since search option is available only for national documents, only the number is acceptable without any codes

18. Are WIPO ST.3 two-letter codes or WIPO ST.16 document kind codes used as part of the search term when searching by application or publication number?

	required	optional	not accepted
ST.3 Office codes are			
ST.16 document codes are			

**Comments:** When using Advanced Search, within a single query, the number, country code and document type code can be specified in separate fields, together making up a standard record of the patent document number.

19. What kind of interface do users have to access your online systems for the available types of patent documents? For example, for published patent applications, granted patents, patent term extensions, fee payments.

The web pages or portals all share the same visual design (look and feel, layout, colors, graphical elements, etc)

**Comments:**

20. Do your online systems use the same web pages or portals for different types of industrial property rights provided by your Office? For example, patents for inventions, plant patents, design patents, inventors' certificates, utility certificates, utility models, patents of addition and others. Answer yes here even if there are multiple web pages or portals for different types of documents (application, legal status history, assignments, etc), as long as each type of IP right is available on the same web page or portal.

**Note-** this question is about different types of IP rights. Question 17 is about different types of patent documents.

YES

**Comments:**

21. If there are separate websites or portals for these other types of industrial property provided by your Office, please list them.

22. Do your online systems contain information on documents issued under international or regional IP protection systems, which have (potential) effect in your jurisdiction?

NO

**Comments:**

23. If so, what types of documents are available, e.g. PCT documents or translations?

24. Is international or regional data searchable in the same online systems as national documentation?

No, international / regional data is only available in other systems

**Comments:**

25. What functionality would you like to see in the systems provided by other Offices?

	For full descriptions	For legal status
Possibility to translate content into other languages	X	X
Search by bibliographic data fields	X	X
Full text search	X	X
Possibility to download documents in various formats	X	X
Alerting to data updates	X	X
Date of receipt of applications by your Office	X	X
Other (Specify in comments)		

**Comments:**

**26. What is your desired update frequency for data from other Offices?**

	For full descriptions	For legal status
Real time publication of all changes		X
Daily updates	X	
Weekly updates		
Other (Specify in comments)		

**Comments:**

**27. Should other Offices' systems support machine-to-machine communication (such as web services) for exchanging data with your Office?**

	YES	NO	NO PREFERENCE
For full applications	X		
For bibliographic data	X		
For legal status information	X		

**Comments:**

**28. Should Offices' systems provide search capabilities for both their national data sets and data published by other Offices (with an interface in the national language)?**

	YES	NO	NO PREFERENCE
For full applications			X
For bibliographic data	X		
For legal status information			X

**Comments:**

**29. User guide**

**Is there a user guide for searching (such as explanation of fields or**

## examples) available in the system?

YES

### URL where the guide is available-

<https://new.fips.ru/iiss/search.xhtml>

### 30. Is there a clear indication of which information in the official publication is issued by your Office / Organization and which information is from other sources (e.g. a disclaimer on externally provided information)?

Yes, our publications clearly indicate that it is published by Rospatent (RU in front of each number)

### 31. Please briefly describe your future plans with respect to your Office's online systems, their content and functionality. For example, if you have plans to expand their capabilities, merge existing systems, retire old systems, or a general timeline for such work, please include that information here.

By the end of 2022, it is planned to completely update the information systems. The functionality can be described after the systems are put into operation

### 32. In which of the following areas are WIPO recommendations the most needed and/or most effective? Check all that apply.

	For full applications	For legal status
Scope of published information		X
Frequency of updates	X	
Availability of information and/or interfaces in other languages		X
