BDD Test Cases:	› Scenario 1: View add applicant Given I am a Data Entry Officer When I focus on indicating the applicant information in the application form Then I can enter...		
Acceptance Criteria:	› 1. The person matching tool is invoked once 4 characters have been entered in the name field. 2. Where a person record is selected using the matching to...		

Description

As a Data Entry Officer

I want to provide details regarding registration Applicant(s)

So that information is recorded regarding the applicant(s) for examination

The applicant section of the application form enables the following data to be captured about applicants:

- Full name
- Telephone
- Address
- Zip/Post code
- City
- Country
- Telephone
- Fax
- E-mail address
- Website

Where there is more than one applicant then the user can save the applicant information and select to provide information for subsequent applicants. Where applicant information has

Office Reference:

Date of receipt of the international application by the Office (dd/month/yyyy)
