UK IPO: The Quest for Digital

Graham Rivers-Brown
Deputy CTO & Chief Architect

What we're trying to solve (the business problem)

- Cope with demand
- Improve business agility
- Deliver services Digitally

- Shift to “One IPO”
 - Independent of Right

- Service first approach
 - Enterprise-wide Renewals service

Patents Search and Exam – 2009 to 2017

Trade Mark Applications – 1995 to 2017

Designs Applications – 2009 to 2017

What we're trying to solve (the technology problem)

- Disparate systems
- Disparate data

- Aging hardware
- Aging software

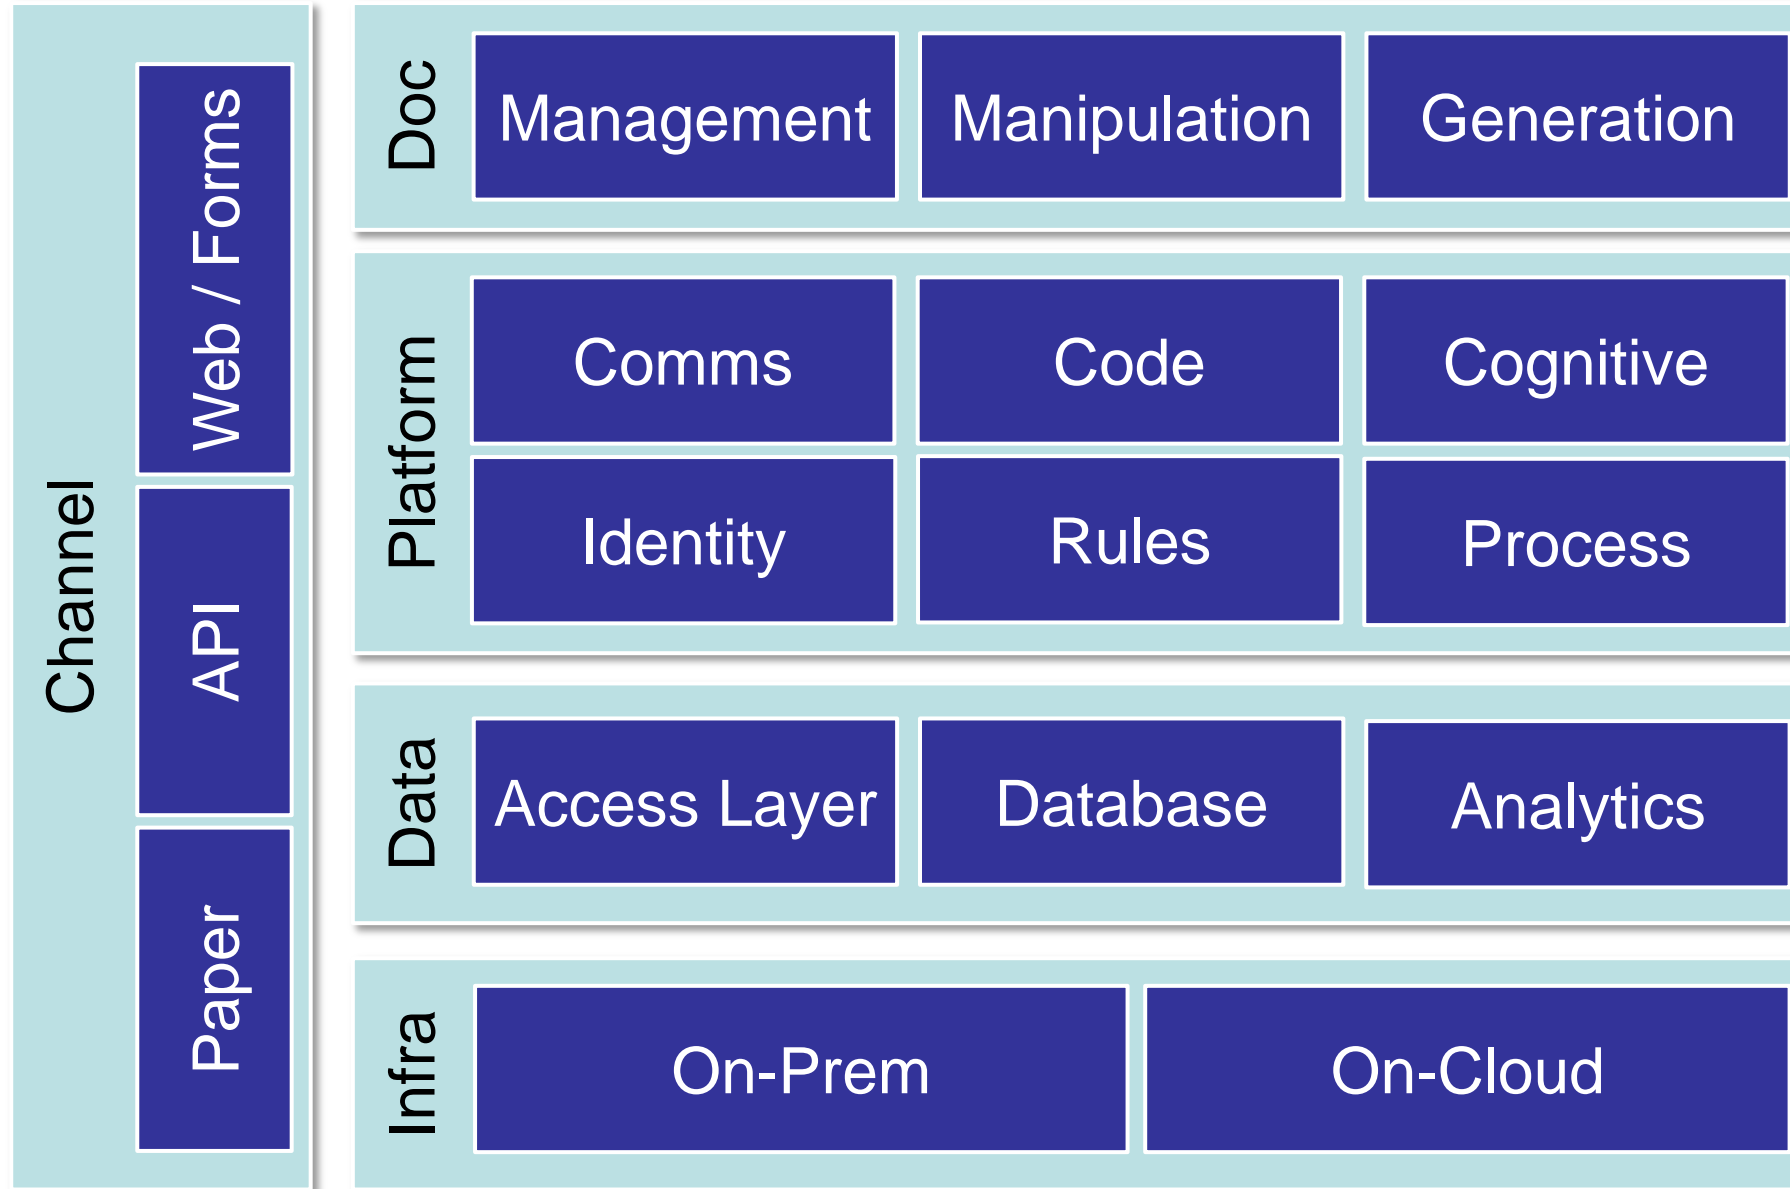

- Reliability and resiliency issues

- Poorly documented systems
- Many technologies = many skillsets

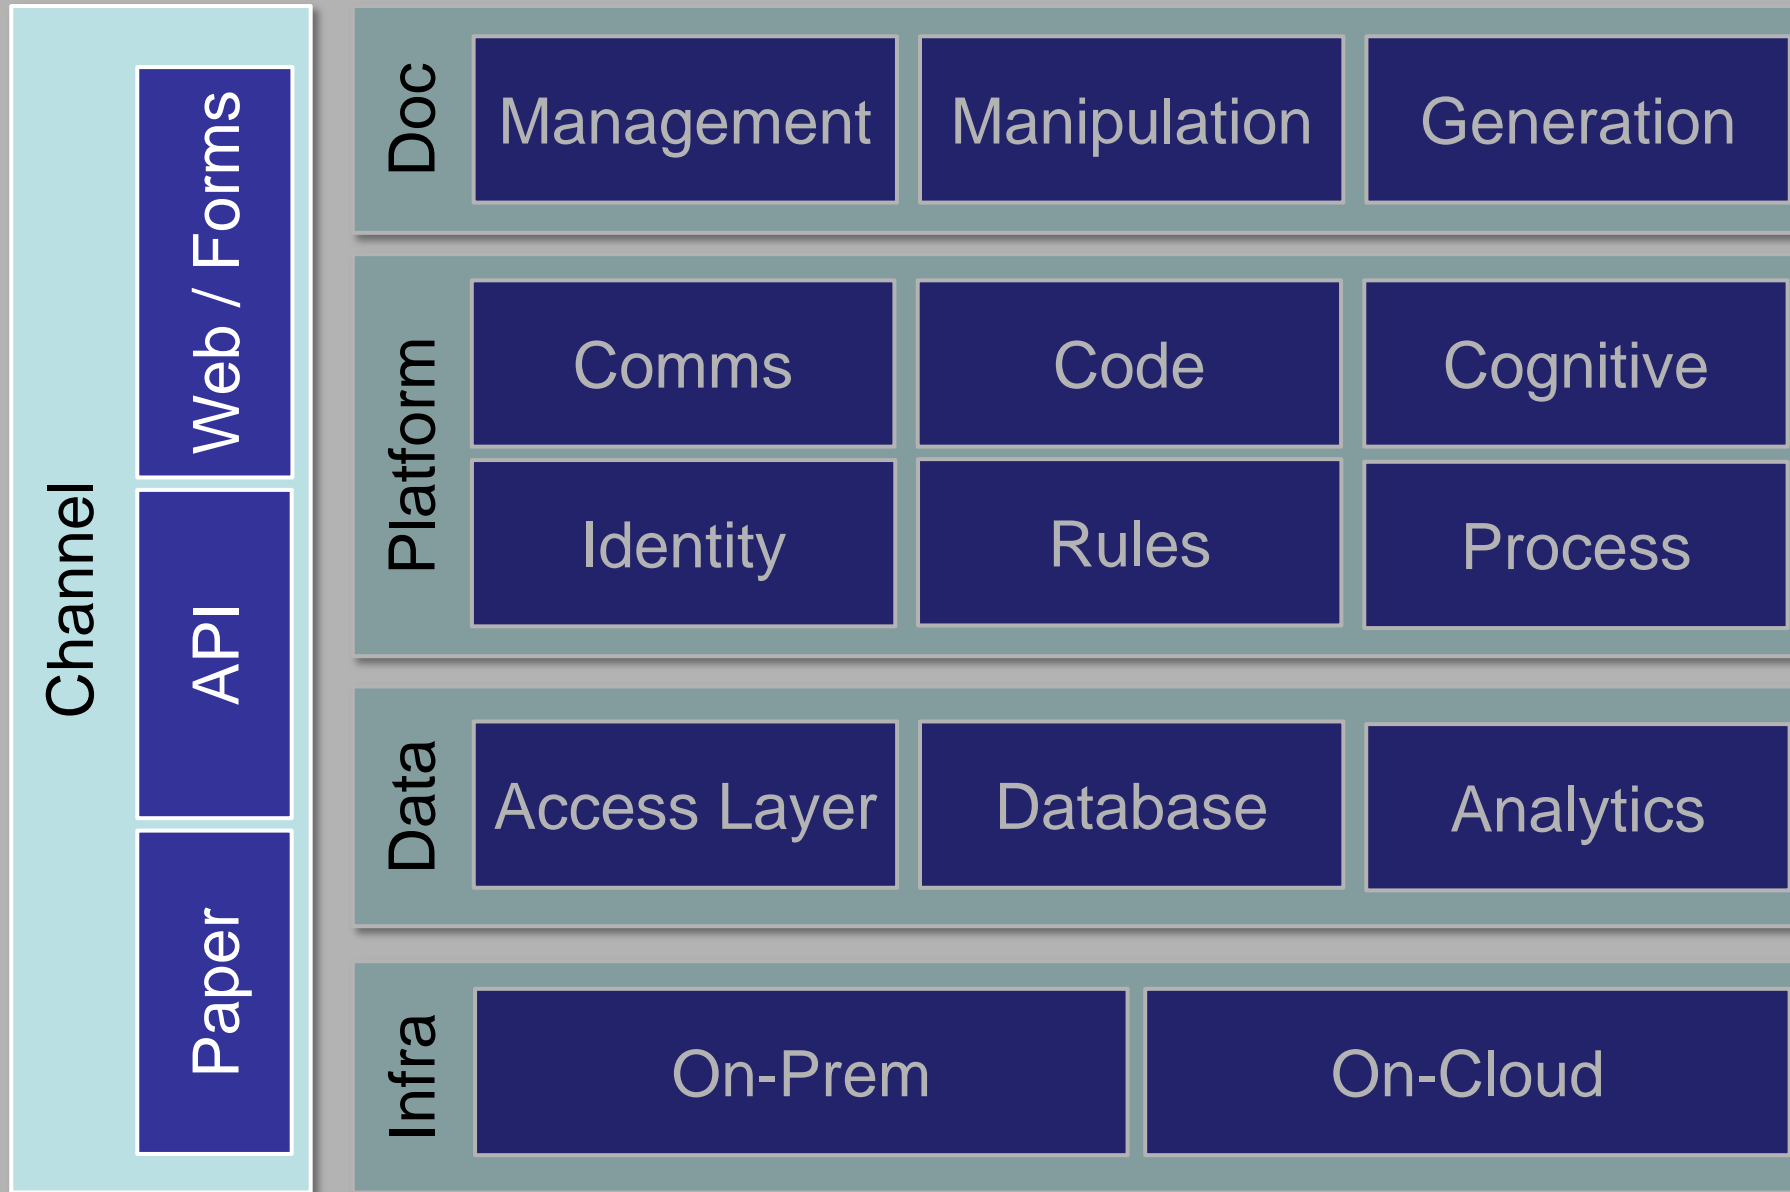

Not Our First Attempt

- 1st Generation
 - Hand-coded, grown organically
- 2nd Generation
 - Customise off-the-shelf
- 3rd Generation
 - Single Product/Solution
- 4th Generation
 - Component-based approach

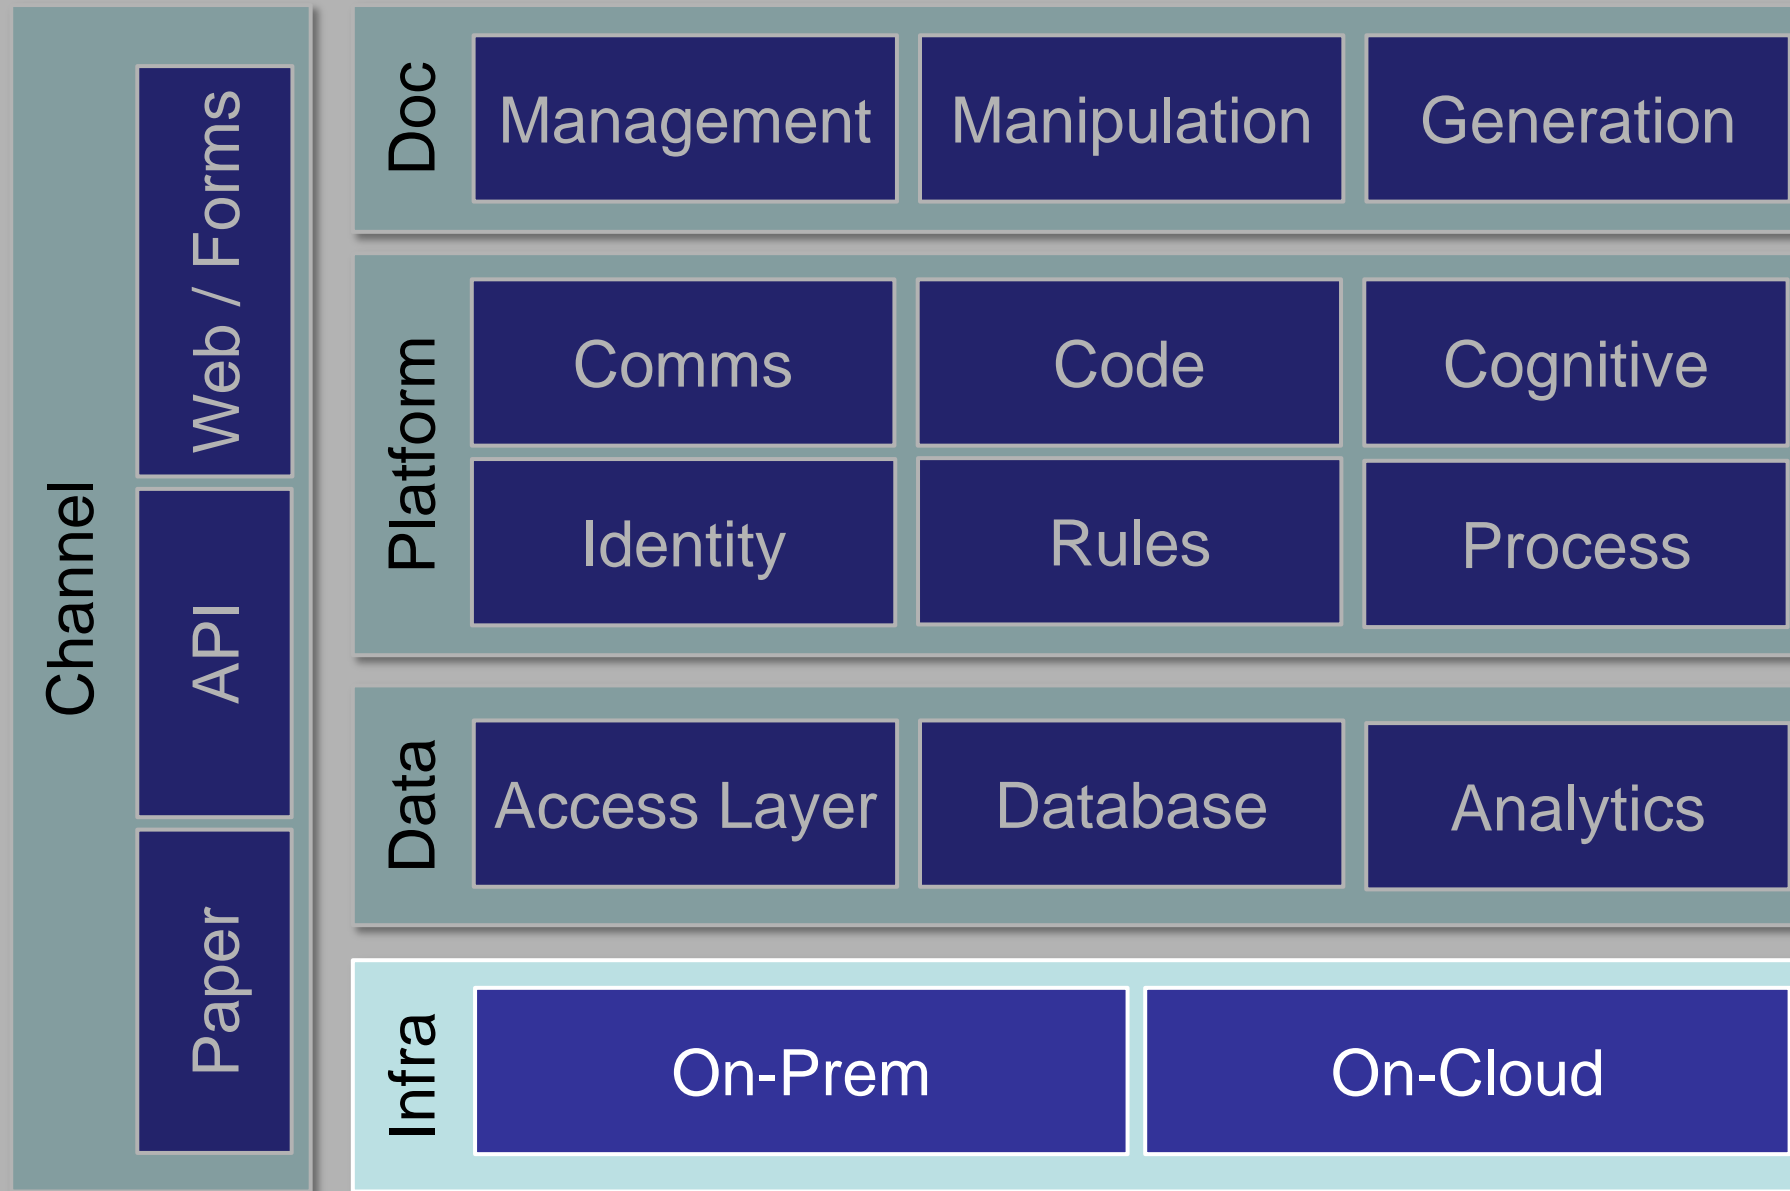

The Platform

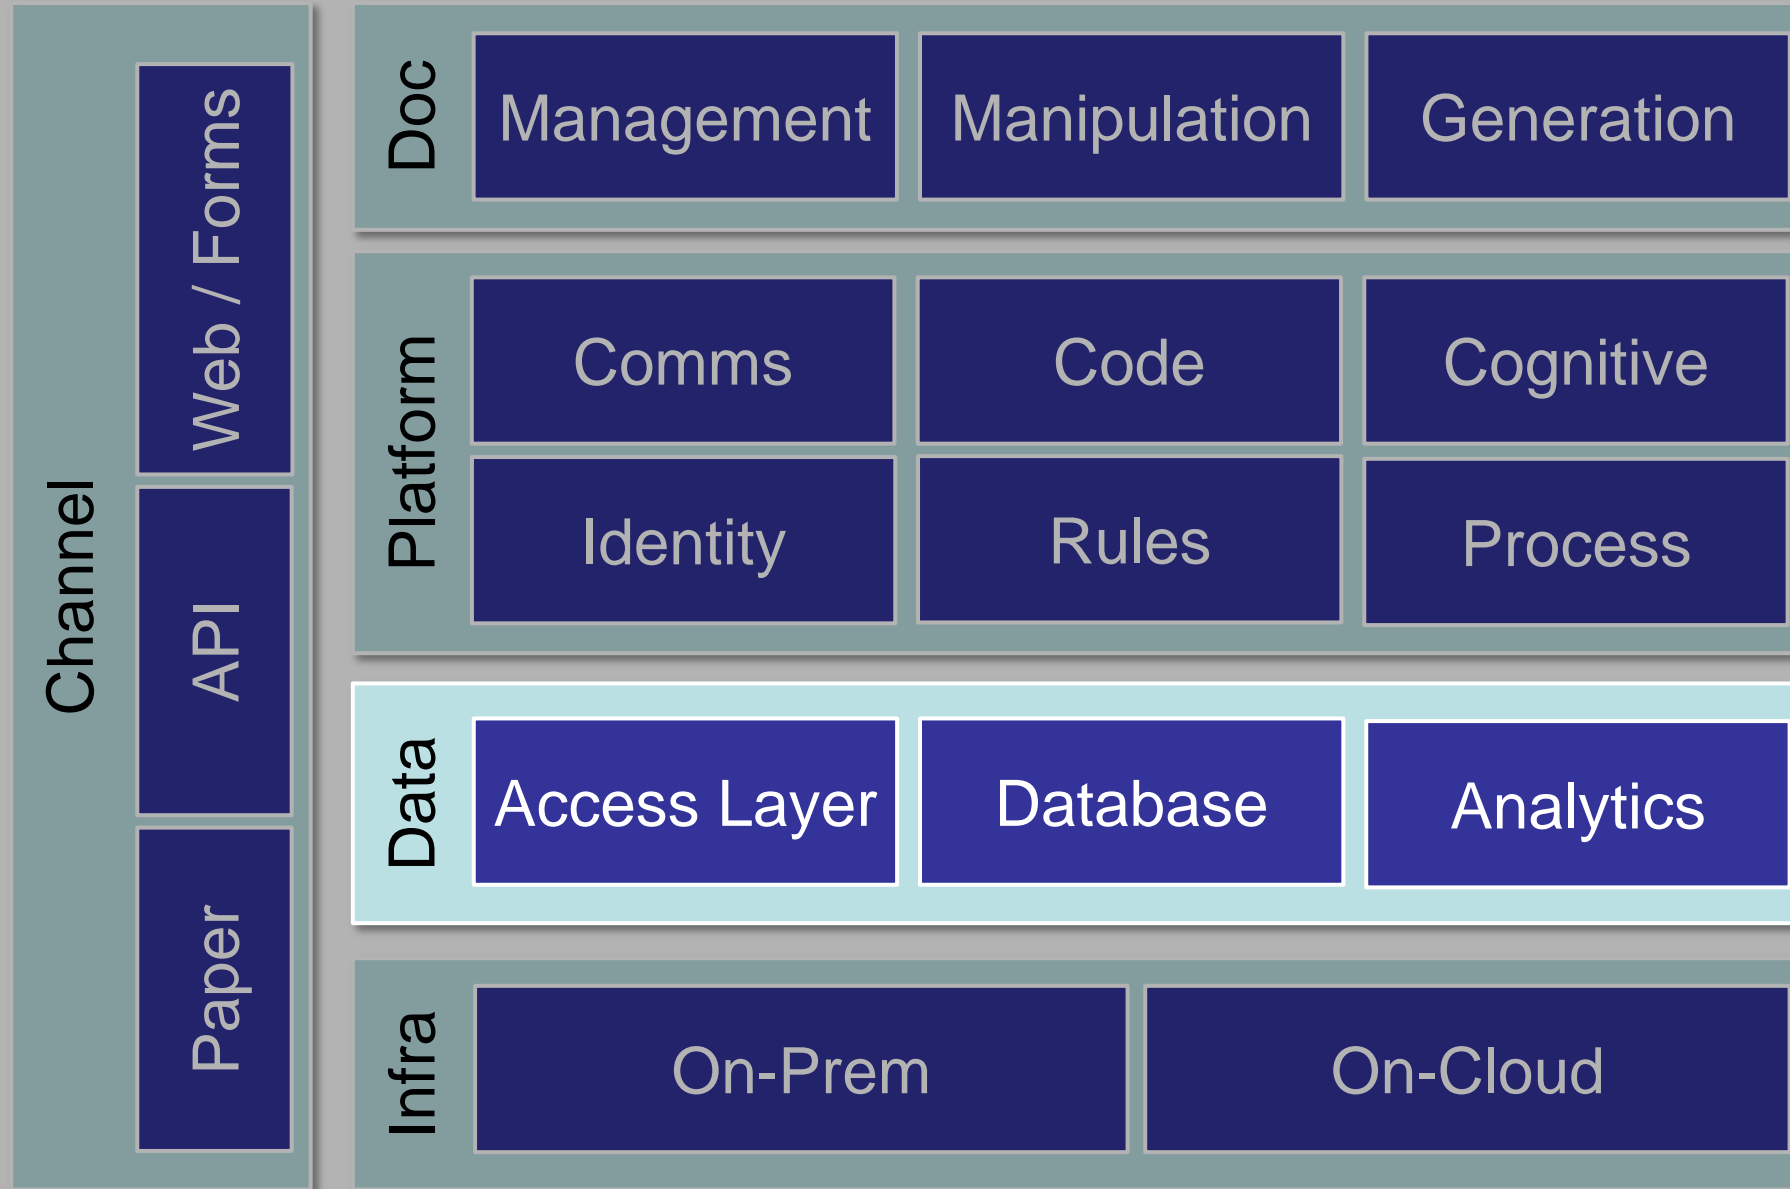

The Platform

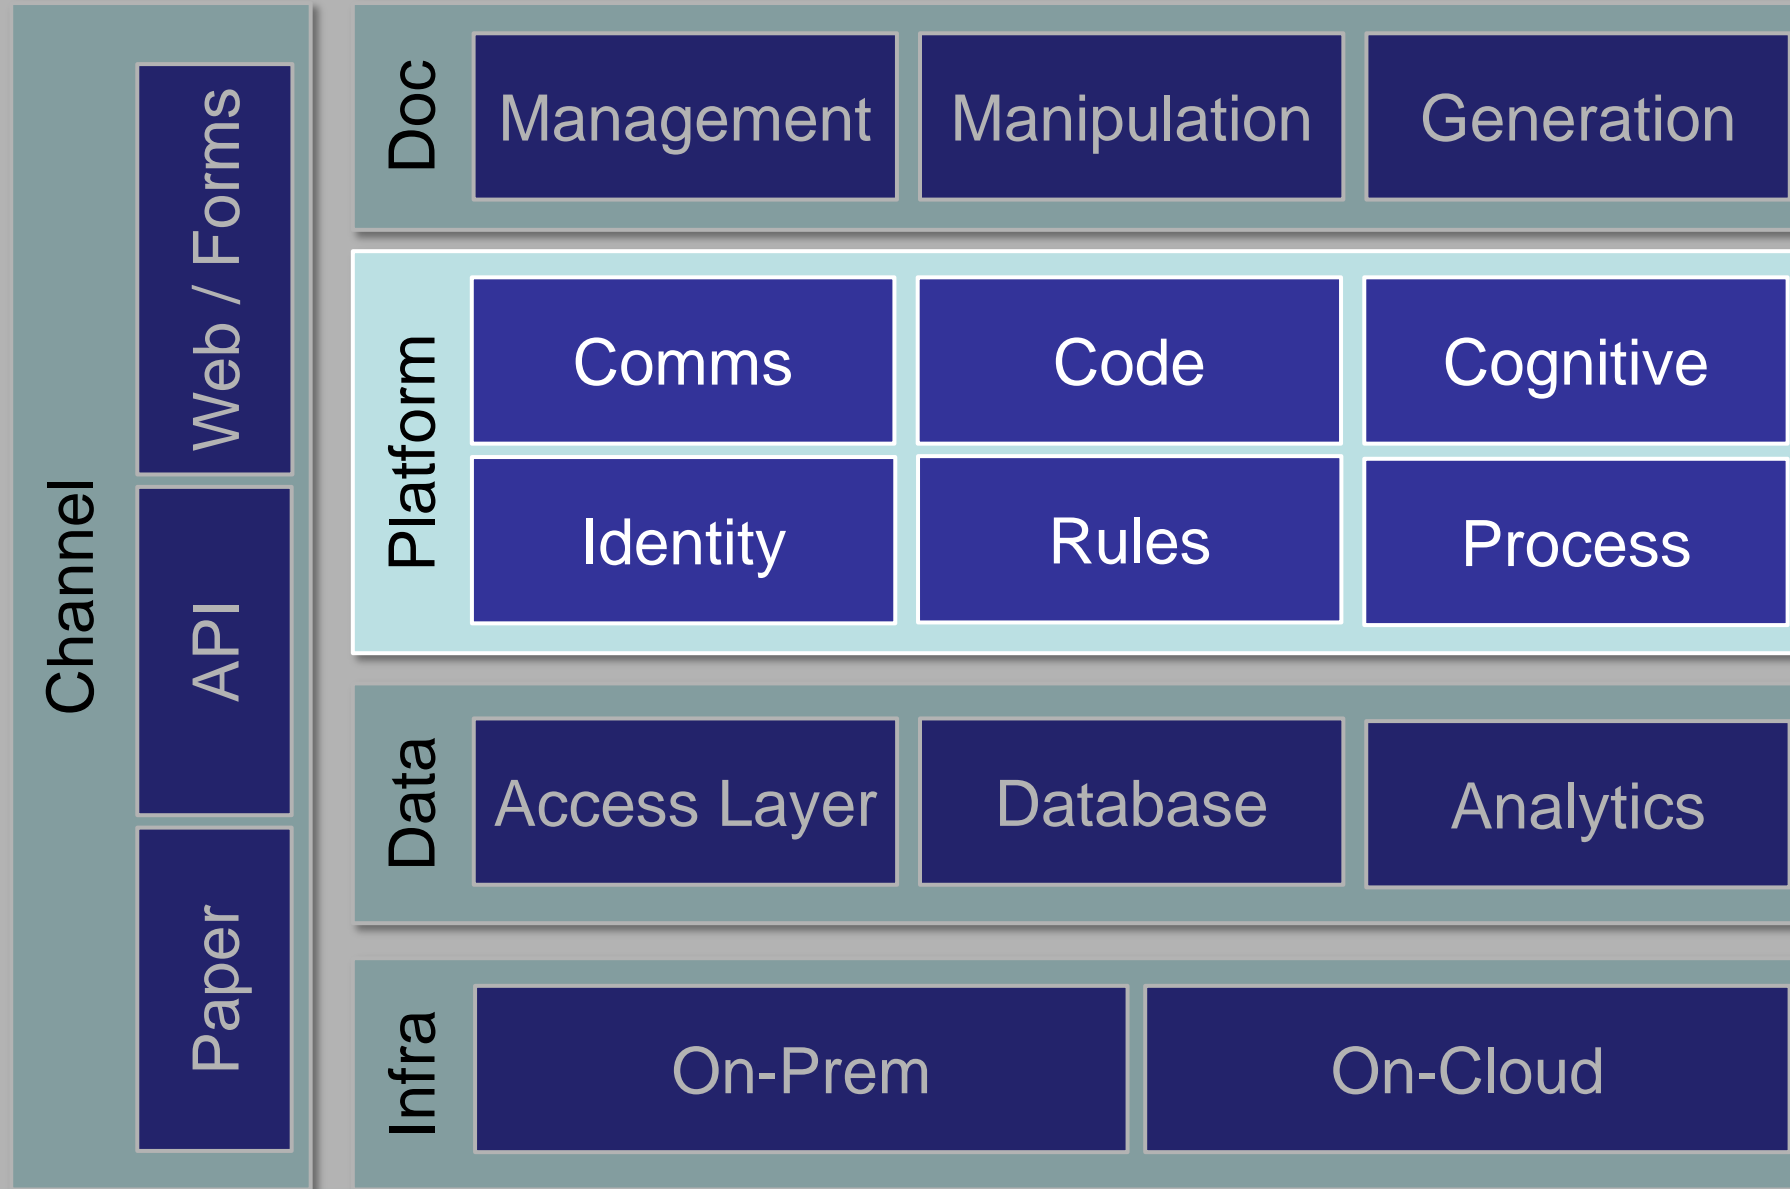

The Platform

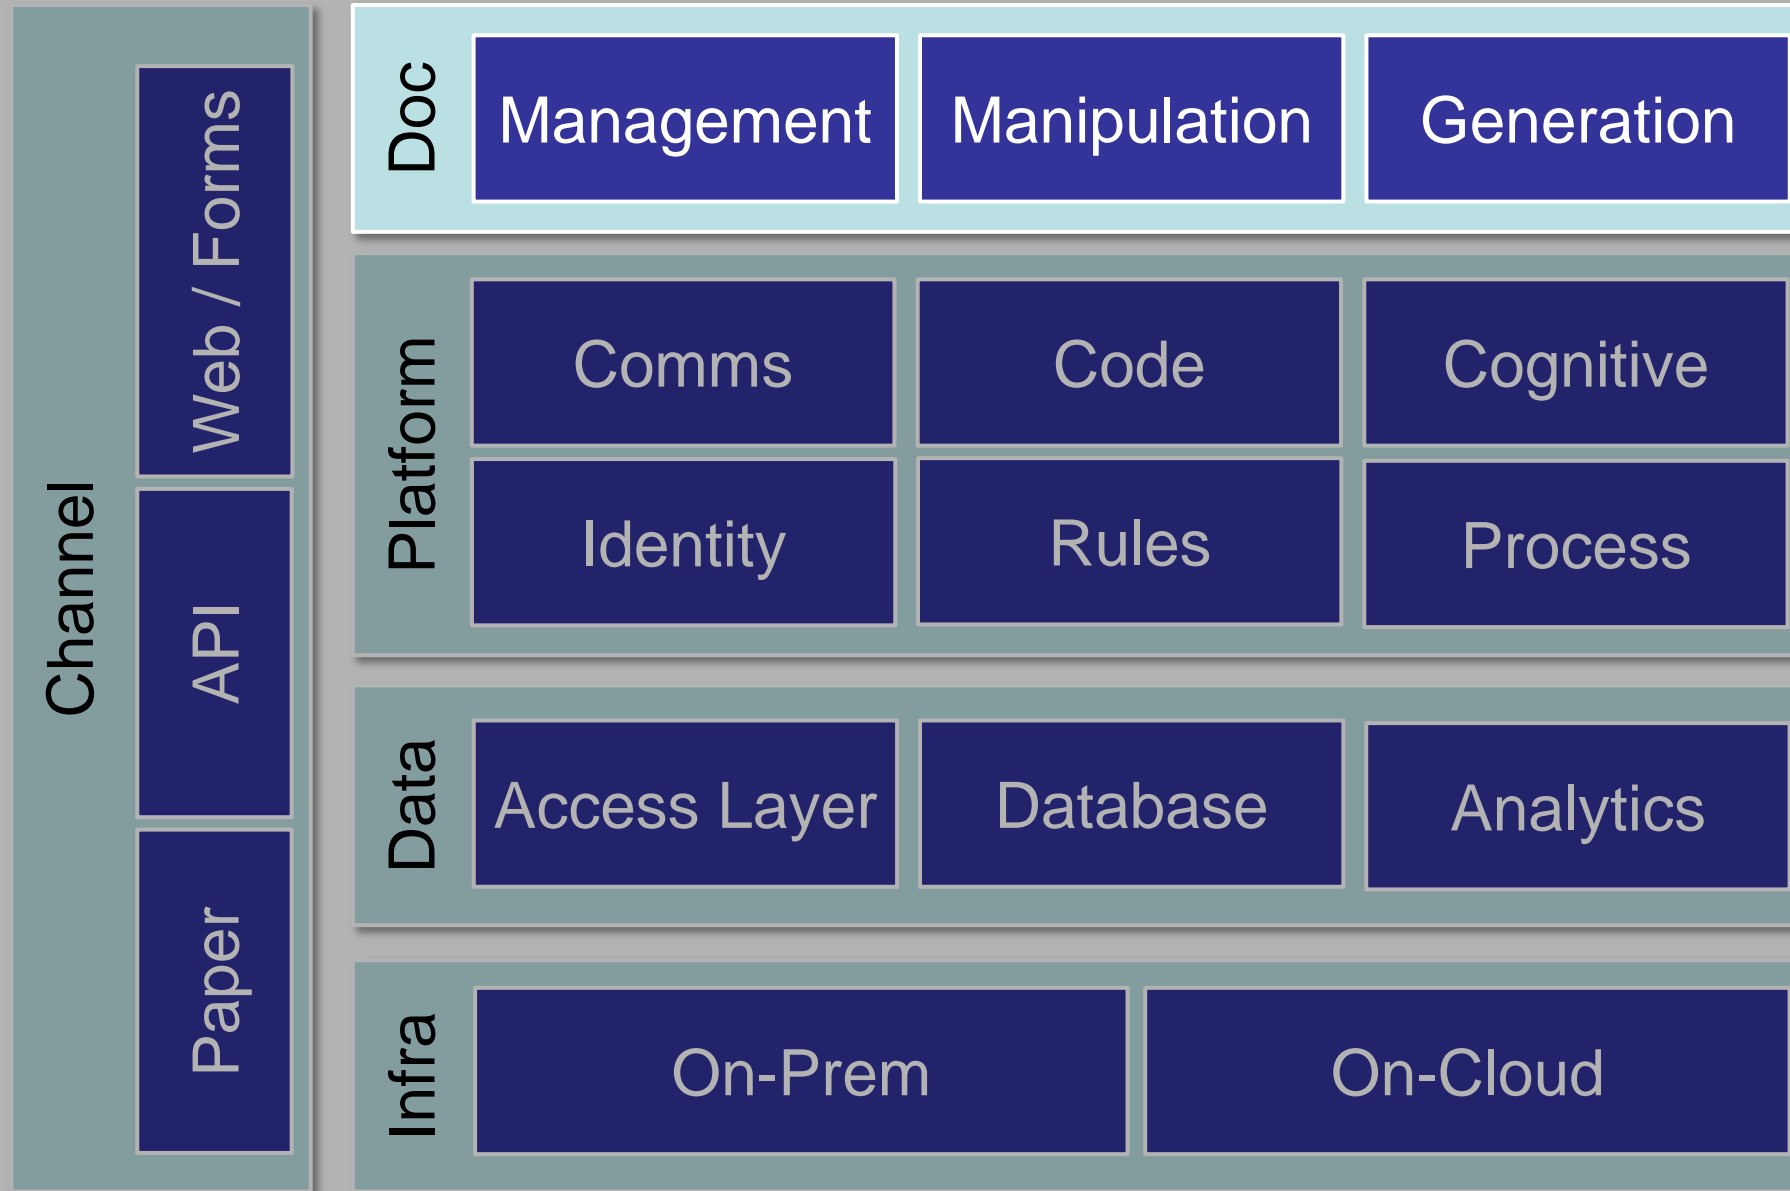

The Platform

The Platform

The Platform

What's Next

- Rolling out the platform for Trade Marks
 - Tactically to support BREXIT, iterate for Strategic benefits
- Rolling out Renewals on the new platform as an Enterprise service
- Technology
 - Containerisation (Docker / Kubernetes)
 - Mature Multi-Cloud
