

Assemblies of the Member States of WIPO

Fifty-First Series of Meetings Geneva, September 23 to October 2, 2013

INFORMATION PAPER ON EXTERNAL OFFICES

Addendum

Paragraphs 99(v) to 108 of document A/51/INF/6 set out considerations relating to the development of a redundancy capacity for certain WIPO information technology (IT) systems. As indicated by the Director General during the meeting of the Program and Budget Committee (PBC) from September 9 to 13, 2013, this issue is removed from consideration in relation to the question of the establishment of new external offices. The issue of redundancy capacity will be dealt with independently of the question of external offices at another time.
