Tips and Observations

- Stop questioning your skill, most men don't question theirs
- Sometimes done is better than perfectly done
- Growth = Goodbye comfort zone!
- You just might have the answer to a question that someone else is struggling with

IP Lessons

- Learn the rules about incorporating other's work into yours (permission and/or sufficient acknowledgement)
- Be clear on ownership when you collaborate or commission work (e.g. logos, artwork, photography, etc). Get it in writing!
- Learn your rights when others use your work
- Keep records of your work as you create
