

## Roving Seminar on WIPO Services and Initiatives

London, United Kingdom April 30, 2018

## PARALLEL PROGRAM B (IP/LEGAL PROFESSION)

## Recent Developments And The Future Of WIPO Systems

#### **Developments of the PCT System**

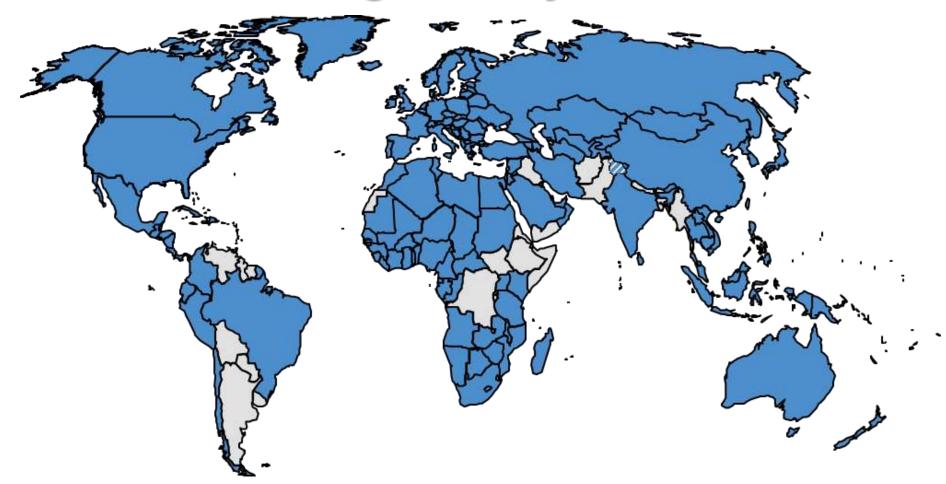

Mr. Michael Richardson, Director,
PCT Business Development Division,
PCT Legal and International Affairs Department,
Patents and Technology Sector (PTS), WIPO

London, April 30, 2018

#### PCT Coverage Today – 152 States

Recent accessions:

Kuwait (June 2016), Djibouti (June 2016), Cambodia(September 2016), Jordan (March 2017)

#### **UN Member States not yet in PCT**

Afghanistan

Andorra\*

Argentina\*\*

Bahamas

Bangladesh\*

Bhutan

**Bolivia** 

Burundi

Cape Verde

Democratic Republic of Congo

Eritrea

Ethiopia

Fiji

Guyana

Haiti

Iraq

Jamaica

Kiribati

Lebanon

**Maldives** 

Marshall Islands

Mauritius\*\*

Micronesia

Myanmar

Nauru

Nepal

Pakistan

Palau

Paraguay\*\*

Samoa

Solomon Islands

Somalia

South Sudan

Suriname\*

**Timor-Leste** 

Tonga

Tuvalu

Uruguay\*\*

Vanuatu

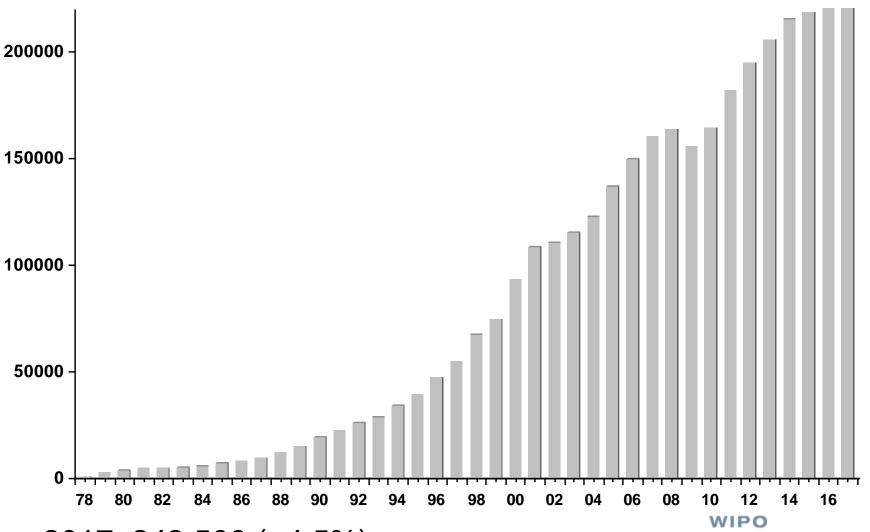

Venezuela

Yemen

(41)

Also in discussions with GCC Patent Office about linking its system to PCT

#### **PCT Applications**

2017: 243,500 (+4.5%)

#### **GB** in the PCT

- #7 filing nation
  - (5,567 international applications by GB residents in 2017, leading to around 21,000 national phase entries)
- 64% file to RO/GB
  - 25% to EP, 5% to IB, 6% other (mainly US)
- Top filers Unilever, Jaguar Land Rover, ARM

#### PCT Changes July 2016 (1)

2 additional protections/safeguards for applicants

- Mistakenly filed/submitted "sensitive" information
  - effectively remove from filed PCT applications and publicly accessible application-related documents "sensitive" information mistakenly submitted (amendments to PCT Rules 9, 48 & 94)
  - information sought to be removed must be:
    - irrelevant to the disclosure
    - prejudicial to personal or economic interests, and
    - no prevailing public interest in its access

### PCT Changes July 2016 (2)

- Missed time limits due to large-scale Internet outages
  - extension of *force majeure* excuse of delay provision to time limits missed due to "general unavailability of electronic communications services" (amended Rule 82 *quater*)
  - covers outages that affect widespread geographical areas or many individuals, as distinct from localized problems associated with a particular building or single user

CTUAL PROPERTY

#### PCT Changes July 2017 (1)

- designated Offices required to provide IB with timely national phase entry and related data (Rules 86 & 95)
  - PATENTSCOPE "National phase" tab will contain more information than it currently does
  - Information also made available to other patent information service providers

### PCT Changes July 2017 (2)

- PCT "Receiving Offices" required to forward any earlier search or classification results on priority applications to the PCT ISA (amendments to Rules 12bis, 23bis & 41)
  - Efficiency/work-sharing measure
  - Some exceptions, unlikely to be relevant to GB applicants

#### **2017 PCT Assembly**

- Reappointed all ISAs/IPEAs
- Appointed new ISA/IPEA Philippines IPO (#23)
- Clarified eligibility for fee reductions for nationals and residents of certain low-income countries

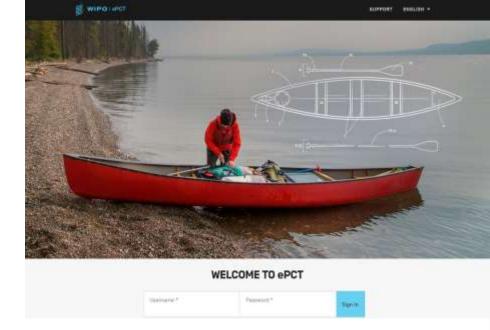

#### **PCT Working Group 2018**

- Workshops
  - potential fee reductions for universities
  - incorporation by reference of "correct" elements or parts
- Proposals
  - PCT fee reductions for universities (BR)
  - Further safeguards for outages of IT systems (EP)
  - Earlier start of Chapter II (EP)

#### **Electronic filing**

Moving away from PCT-SAFE/epoline

- Aim:
  - Secure processing via system always up to date
  - Exchange usable data eliminate transcription errors
- Browser-based interface
  - Web services being developed

### **Electronic Filing (2)**

- ePCT integrated in to HFS (EPO's forthcoming filing tool)
  - Aim for as much consistency as possible between Offices
  - Minimize requirements for multiple user accounts and file formats

#### Issues

- DOCX filing
- Color drawings
- Integration with patent management systems?
- National phase entry assistance?
- Centralized payment system?

#### **Other PCT Issues**

- Quality
  - Search and preliminary examination
  - Timeliness and accuracy of administrative actions
- IP5 collaborative search and examination
  - 500 PCT applications (100 from each Office) passed to other IP5 Offices for collaborative search
  - selected from requests by applicants
  - beginning July 1, 2018
  - 2 years of international phase tests, follow into national phase
- More effective exchange of information

#### **PCT Information and Training**

#### www.wipo.int/pct/en

- Applicant's Guide
- Monthly Newsletter
- Videos
- Distance learning course
- Webinars
- Seminar calendar

#### Want Something to Change?

Get involved

ePCT – contact <u>pct.eservices@wipo.int</u>

"The fact that the ePCT people at WIPO listen and attempt to improve their system is one of the reasons we like using ePCT."

- Generally talk to CIPA get CIPA to talk to us
- Or tell me now...

#### **Questions for You**

- PCT Inconveniences?
  - Cost?
  - Timeliness?
  - Quality/reliability/predictability?
- Decision-making on use of PCT
  - What factors determine whether you file a PCT application or not?
- "Magic wand"
  - features/functionalities you most wish PCT contained?
  - countries to add?
- Areas where more information or training needed?

#### **Developments of The Hague System**

Ms. Päivi Lähdesmäki Head, Development and Promotion Section The Hague Registry World Intellectual Property Organization (WIPO)

London, April 30, 2018

#### **Hague System: Current and**

### Foreseen Coverage

## The Expansion to Examining Jurisdictions:

What Impacts?

# Designating Japan, the Republic of Korea the United States of America and the Russian Federation

- «Examining jurisdictions» under the Hague System:
  - Some declarations may only be made by a CP with an Examining Office (Art.1(xvii) of the 1999 Act);
  - Specific elements required by USPTO, JPO, KIPO and ROSPATENT

#### **Obvious and Less Obvious Impacts**

- More elements/constraints at filing stage
  - ... but intelligent e-filing system keeps it simple
    - Prevention of omission or systemic mistakes
    - Facilitated declarations and claim
    - Links to national websites for guidance
- Substantive appreciation by those Offices
  - ... and that's the real game changer

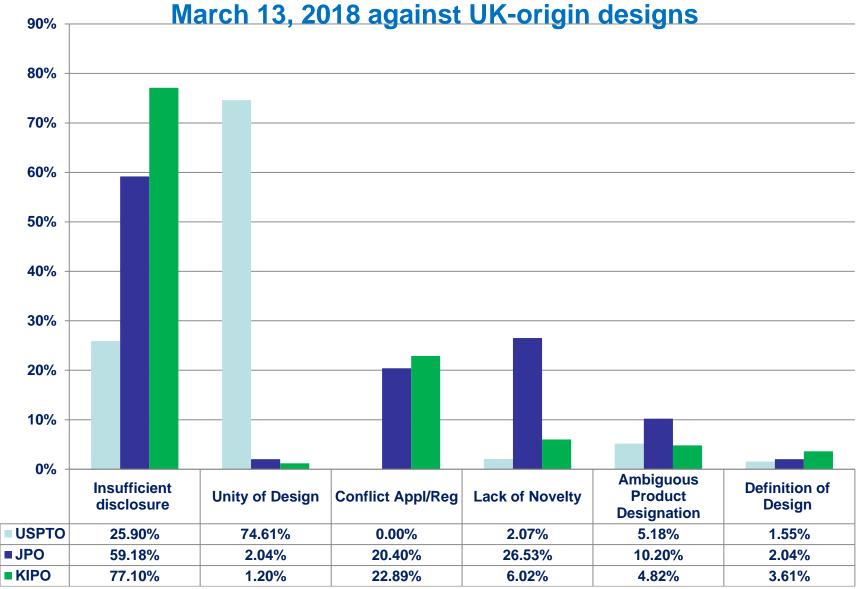

### **UK Filings in Examining Jurisdictions:**

**How Have They Been Faring?** 

### USPTO, JPO & KIPO - Refusal Grounds Representative sample of refusal recorded up to

Source: Internal WIPO statistics

## ISSUE COMMON TO ALL EXAMINING JURISDICTIONS:

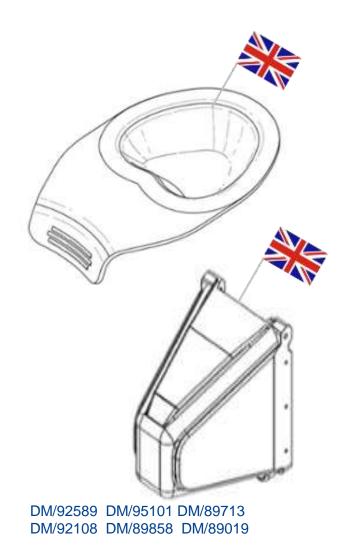

### HOW TO ACHIEVE APPROPRIATE DISCLOSURE?

## Don't confuse disclosure requirement and formal requirements!

- A single set of representations works for all Offices
- Offices cannot reject on formal grounds to:
  - Require, or oppose to surface shading or dotted line
  - Oppose to photographs, color or CADs
  - Require a description
  - Require a legend
- It's your liberty under the Hague to use these or not
- ... but using them or not has an impact on your disclosure

### Success Stories: These cases accepted by <u>all</u> of the US, JP and KR Offices!

#### WIPO | HAGUE

#### Hague – The International Design System

The Hague System for the International Registration of Industrial Designs provides a practical business solution for registering up to 100 designs in over 66 territories through filing one single international application.

#### Learn more:

Guidance on Preparing and Providing Reproductions in Order to Forestall Possible Refusals on the Ground of Insufficient Disclosure of an Industrial Design by Examining Offices

#### News

### **Provide Enough Views**

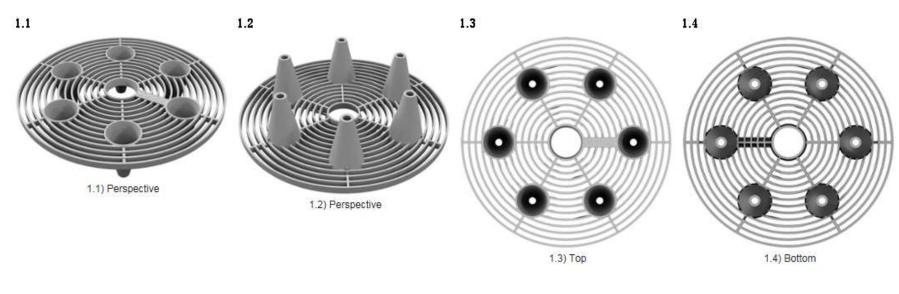

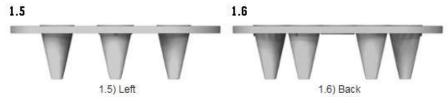

1.1) Perspective; 1.2) Front; 1.3) Left; 1.4) Right; 1.5) Back; 1.6) Top; 1.7) Bottom

DM/olt's Always, Safer with a Legend

## Use the «description» to justify absent views

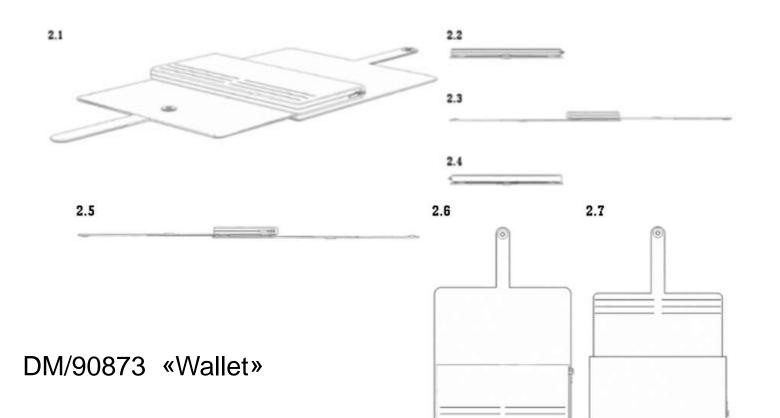

DM/088980: "front view is omitted because it is identical with the back view; right side view is omitted because it is identical with the left side view"

### **What Went Wrong Here?**

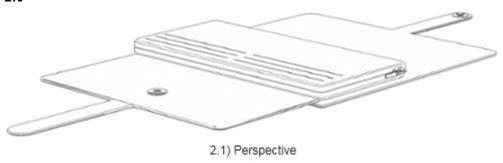

2.1) Perspective; 2.2)

Front; 2.3) Left; 2.4)

Back; 2.5) Right; 2.6) Top;

2.7) Bottom

#### JPO Refused because...

The design in this application for design registration is not a specific design because of the following reason:

The state of use and the method of use of "Wallet" as shown in the indication of product in this application for design registration cannot be derived from the reproductions, and the design is not specific.

(The method on how to fold "Wallet" and the state where it is folded are not clear. It is also not clear whether the lines shown on the surface of "Wallet" indicate a pattern or card slots.)

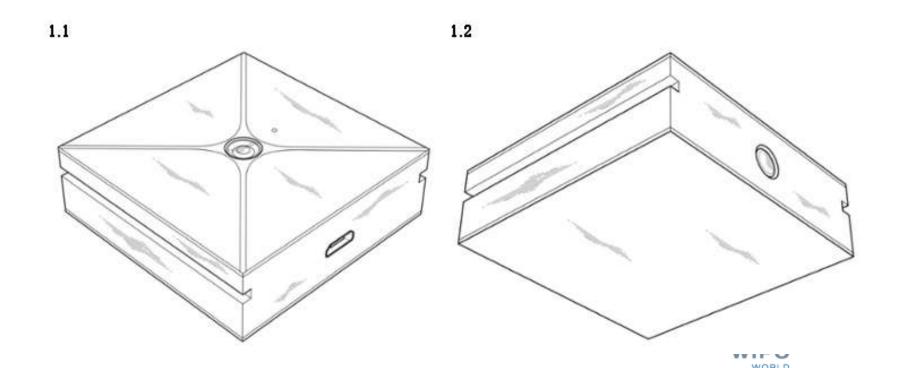

### Shading lines not explained = Refusal

### Refusal by JPO:

A single definite design cannot be identified.

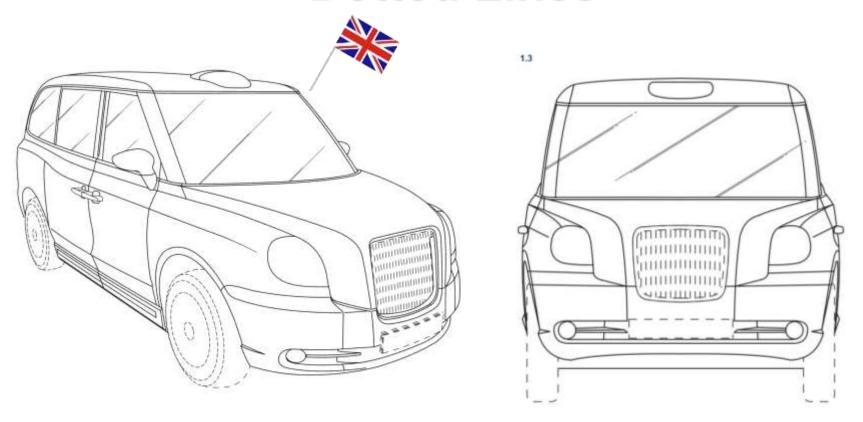

Thin lines are shown on the surface in the reproduction of this design; however, the meaning of these lines is not stated in DESCRIPTION.

Accordingly, it is unclear whether these thin lines constitute surface pattern or not.

LECTUAL PROPERTY

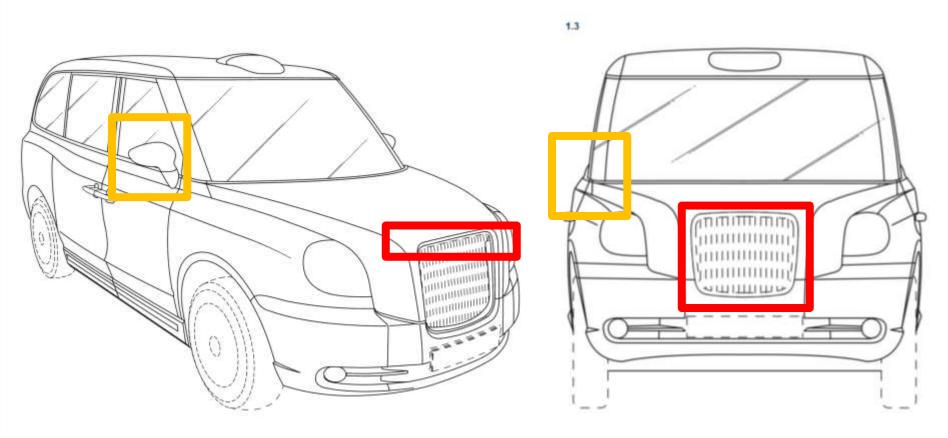

### Also Explain Presence of Dotted Lines

DM/91054 -

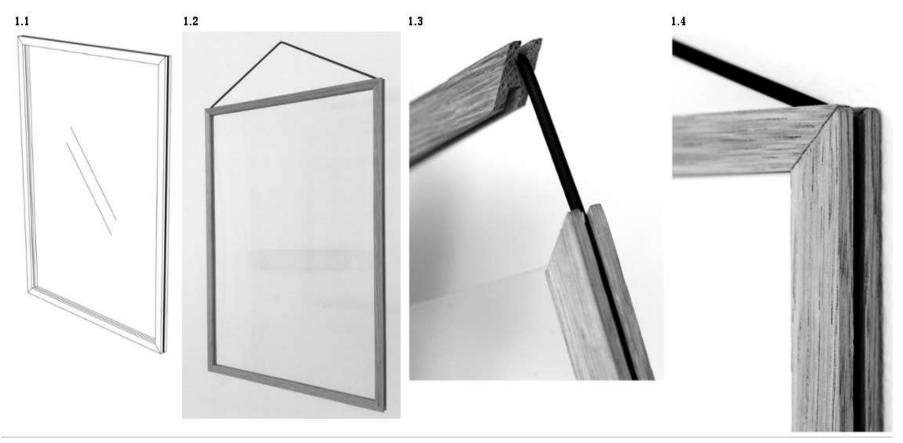

"No protection is sought for the matters shown in dotted lines"

#### Be consistent amongst all views

WIPO
WORLD
INTELLECTUAL PROPERTY
ORGANIZATION

#### **Avoid mixing reproduction styles**

High risk that Inconsistencies be detected and

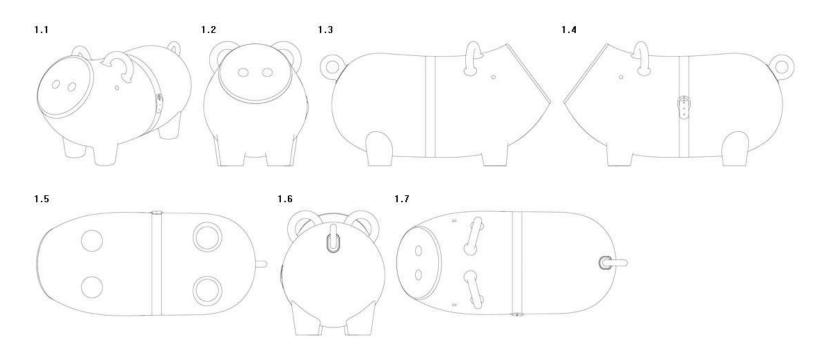

lead to a substantive refusal!

# ISSUE COMMON ALL: PRODUCT INDICATION

## Product indication: be as specific as possible

- JPO: «Toy» changed into «Riding Toy»
- Note: description did say «Toy to sit on in the form of a pig"...

### Couple More Things on Product Indication

- Japan and Korea: don't file «logos», etc...
- USA: be consistent with your claim
  - IB will help prevent formal mistakes only
  - The claim is for one design (the 1st by default)

# ISSUE SPECIFIC TO THE USA (AND NOW ALSO RUSSIA):

#### **UNITY OF DESIGN**

#### **Unity of Design**

Indistinct designs or obvious variations:

**DM/086900**: Designs 1-4, 7-11 "Toothbrushes";

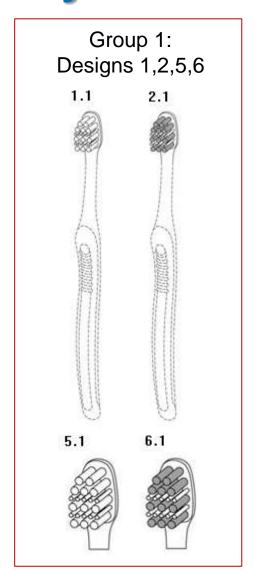

Designs 5-6 "Toothbrush heads"

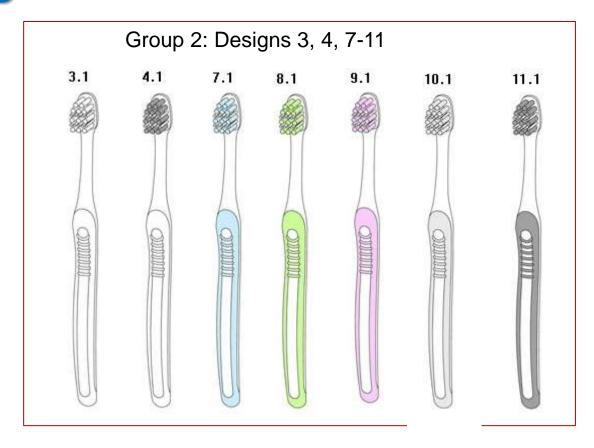

#### **Unity of Design**

#### Indistinct designs or obvious variations:

<u>Designs grouped together have the same</u> <u>basic design characteristics</u>:

- > similar in overall appearance
- similar in visual impression
- > similar in shape/ configuration

WORLD
INTELLECTUAL PROPERTY
ORGANIZATION

# ISSUES SPECIFIC TO JAPAN AND THE REPUBLIC OF KOREA:

# CONFLICT WITH OTHER APPLICATION AND LACK OF NOVELTY

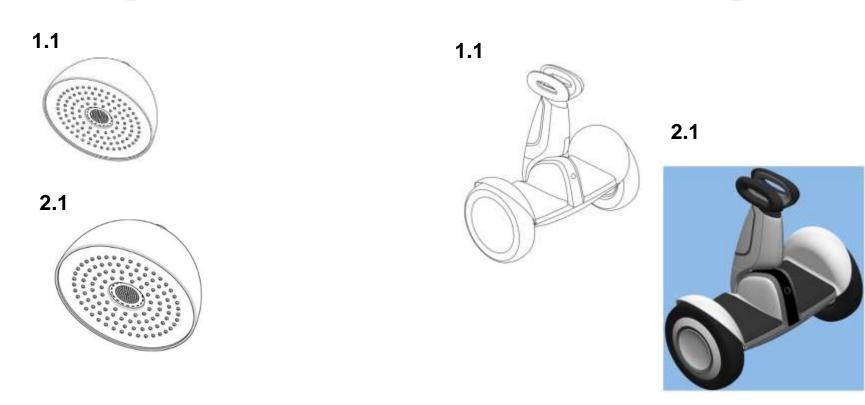

#### Surprise: it's almost never prior art

- What destroys your novelty in KR and JP is <u>almost</u> always your own design...
  - when designs are similar the destroy each other'snovelty
- That's easy to avoid!
  - Identify one as the «principal design»
  - Identify the others as «related designs»

# Identify the Principal and Related Designs in the dedicated e-filing tab

...think about it even if the first design was filed in another Hague or domestic application!

WORLD
INTELLECTUAL PROPERTY

#### **Priority Claim Issues**

- KR: Attach your priority document under dedicated tab
- JP: File your priority document with JPO
- RU: File your priority document with Rospatent

> Why don't you make the IA the priority application?

# CONCLUSION: MOST REFUSALS CAN BE EASILY OVERCOME... BUT COULD HAVE BEEN EASILY AVOIDED TOO!

### Shy, still? Here are a few incentives...

- In Japan:
  - Domestic applications must be single design only
  - But multiple design IRs are not refused!
- In all examining jurisdictions:
  - No provisional rights for domestic applications
  - But provisional rights for IRs from publication!

#### Success Stories from the UK

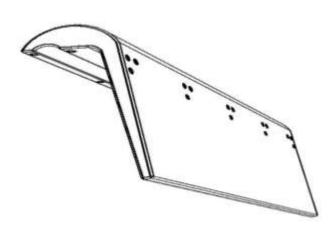

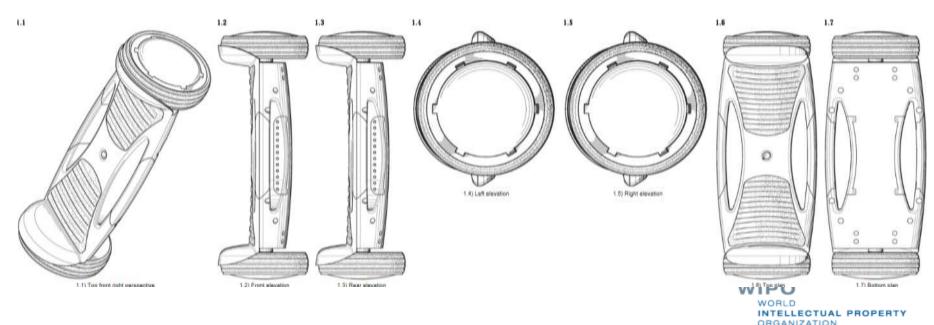

WIPO
WORLD
INTELLECTUAL PROPERTY
ORGANIZATION

#### A 34/35 Score...

#### DM/091 895

Designated Jurisdictions: AL, AM, AZ, BA, BN, BW, CH, EG, EM, GE, GH, IS, JP, KG, KR, LI, MC, MD, ME, MK, MN, NA, NO, OA, OM, RS, RW, SG, ST, SY, TJ, TM, TN, TR, UA

# Discussion: The Future of the Hague System; Going Global

Ms. Päivi Lähdesmäki Head, Development and Promotion Section The Hague Registry World Intellectual Property Organization (WIPO)

London April 30, 2018

#### **Hague System: Current and Foreseen Coverage**

#### **International Applications - 2017**

5,213 international applications were received containing 19,429 designs (max. 100 designs / application)

6.27 % decrease compared to the respective period in 2016 in the number of applications

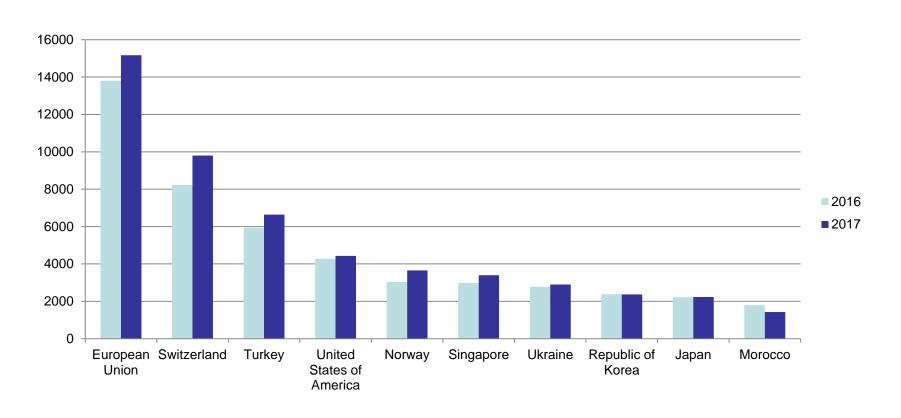

3.8% growth compared to the respective period in 2016 in the number of designs

#### **Going Global**

- 2018/2019: ASEAN countries, Belize, Canada, China, Israel, Madagascar, Mexico, Morocco,...
- China: 2016
  - 631,949 resident design filings; 18,395 non-resident filings;
  - 159,389 design filings abroad (source: WIPO IP Statistics Data Center)

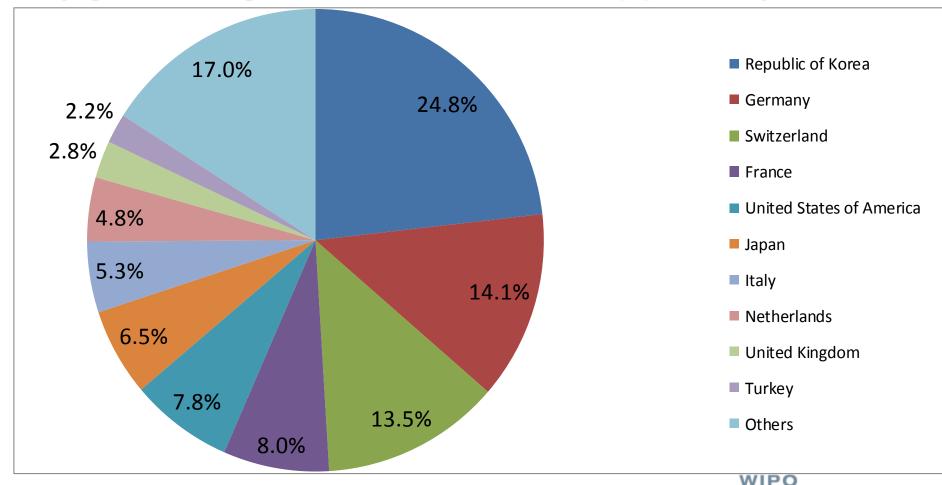

# Most designated Contracting Parties in 2017 (number of designs recorded)

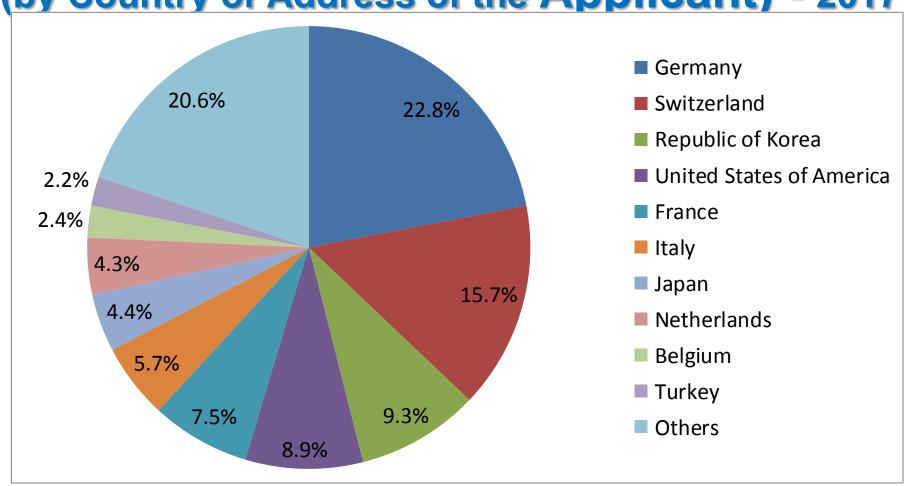

# Origin of Filers of International Applications (by Country of Address of the Applicant) - 2017

# Origin of Filers per Designs in International Applications

(by Country of Address of the Applicant) - 2017

#### **Developments of the Madrid System**

#### **Top Five Classes**

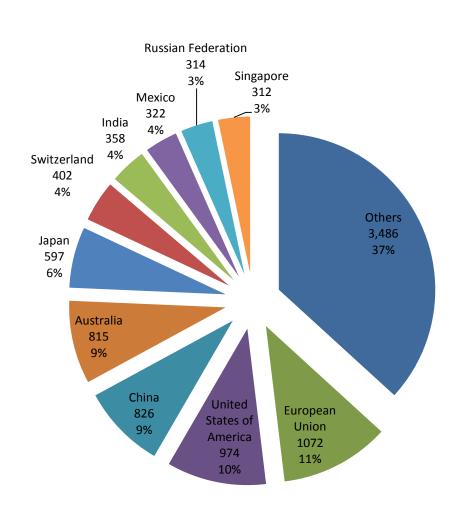

# International Applications and Registrations: United Kingdom

International Applications and Registrations by Office of Origin: UK

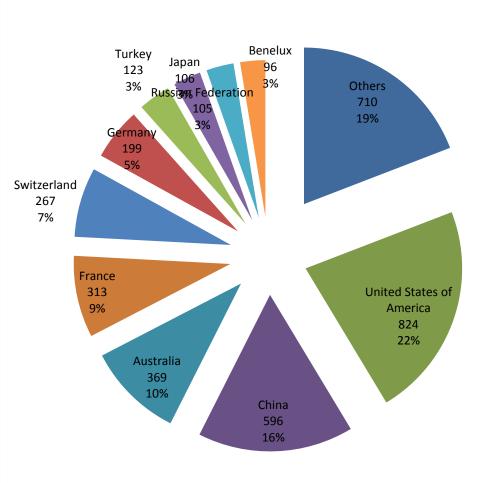

### Top Designated Contracting Parties: UK Holders

Designations in international registrations & subsequent designations by DCPs, Country of Holder: United Kingdom (2016)

# Designations of United Kingdom by Country of Holder

Designations of United Kingdom in international registrations & subsequent designations by Country of Holder (2016)

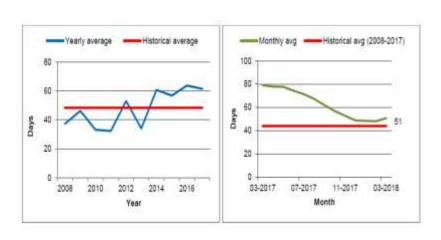

#### **Madrid System Pendency Rates**

- International applications 51 days
- Renewals 54 days
- Subsequent designations 21 days
- Decisions 19 days
- Modifications 47 days
- Corrections 180 days

#### **Recent Developments**

- Accession of Islamic Republic of Afghanistan
- Rule Changes in the Common Regulations
- Classification Guidelines
- WIPO Current Account
- <u>Madrid Monitor</u> integrates <u>ROMARIN</u> (the <u>WIPO Gazette</u>, <u>Madrid E-Alert</u> and <u>Real-time Status</u>
- Member Profiles Database
- Contact Madrid service (online form) Nov. 1, 2017
- Madrid System webinars

#### **Legal Developments**

#### Rules Changes in the Common Regulations – July 1, 2017

Introducing or changing the indication of the legal nature where the holder is a legal entity (Rule 25); new form MM9 and fee of CHF 150

#### Rules Changes in the Common Regulations – November 1, 2017

- Introducing a voluntary description of the mark in international applications and subsequent designations (Rule 9)
- Where an irregularity relating to MM18 form has not been remedied in a subsequent designation, WIPO will only abandon the designation of the US (Rule 24)

#### **Legal Developments**

#### Rules Changes in the Common Regulations – November 1, 2017

Where the dCPs are not able to send communications directly to the IR holders, WIPO can forward them to the holders (new Rule 23*bis*)

#### Rules Changes in the Common Regulations – February 1, 2019

Introducing division of IRs before the dCPs and the possible later merger of divided IRs (new Rules 27bis and 27ter)

#### **Working Group**

Replacement, transformation and new types of marks to be discussed

#### **Classification Guidelines**

- Purpose to decrease irregularities
- Describes WIPO classification practices
- Divided into three sections:

- Classification principles applied by WIPO
- Practical information on the acceptable format to list indications of goods and services

#### **WIPO Current Account Changes**

- No minimum number of transactions
- Initial payment of CHF 2,000
- Minimum balance notification sent to users if balance is less than CHF 200
- A form to open the account available on the website
- Email address required
- Account statement sent by email only

#### **E-Services**

#### Global Brand Database

- search
   existing
   marks from
   national &
   international
   sources
- trademarks, appellations of origin and official emblems
