

Introduction Matthew Bryan,  
Director, PCT Legal Division, Patents  
and Technology Sector (PTS), WIPO

## Roving Seminar on WIPO Services and Initiatives

Organized by the World Intellectual Property Organization (WIPO)

in partnership with the United States Patent and Trademark Office (USPTO) and Vanderbilt University Law School (VULS)

in cooperation with the American Intellectual Property Law Association (AIPLA) and with the support of the United States Chamber of Commerce (USCC) and the Tennessee State Bar Association

# Introduction to WIPO: Major Intellectual Property Economic Studies

Speaker : Mr. Christopher Ruggiero  
Senior Legal Officer, Section for, Coordination of  
Developed Countries, TDC, WIPO

E-mail: [Christopher.ruggiero@wipo.int](mailto:Christopher.ruggiero@wipo.int)

Nashville, USA  
April 13, 2016

# WIPO

***MISSION:** To lead the development of a balanced and effective international intellectual property (IP) system that enables innovation and creativity for the benefit of all.*

- **MEMBER STATES:** 188
- **OBSERVERS:** more than 390 (NGOs, IGOs, industry groups, etc.)
- **STAFF:** more than 1200
- **ADMINISTERED TREATIES:** 26
- **MAIN BODIES:** General Assembly, CC, WIPO CONFERENCE

# *WIPO is Service and Development oriented*

# ACCESS TO INTERNATIONAL MARKETS

USA

Geneva HQ

Russia

China

Japan

Singapore

Brazil

WIPO main offices

# WIPO: Provider of Premier Global IP Services

## Repositories of Information

- Databases e.g. Patentscope and Global Brand Database

## Platforms

- Common platform for e-data exchange among IPOs: IPAS, DAS
- Other platforms: WIPO GREEN and WIPO Re:Search

## Treatment of Information

- International Classification Systems (Organize into indexed, manageable structures for easy retrieval)
- Standards for IP Offices (Help streamline data processing)

# WIPO's Budget: 756,3 Million CHF for 2016 - 2017

## Budget by income

# PCT Income by Origin in 2014 (million CHF)

# Madrid Income by Origin in 2014 (million CHF)

# Major Economic Studies on IP

WIPO Unit – THE ECONOMICS AND STATISTICS DIVISION –  
Reflects the Growing Consensus on the importance of the Economic  
Dimension of IP.

The Division applies statistic and  
Economic analysis to the use of WIPO  
services.

This structure also improves WIPO  
economic insight on IP Development.

# Country Profile

# WIPO Systems New for the USA

- Patent Cooperation Treaty (PCT)
- Madrid System
- Alternative Dispute Resolution
- The Hague System
  - Second largest filer worldwide is Procter and Gamble (US), with 95 filings
  - Among the top five origins, the United States of America saw the fastest growth in the number of registered designs (+14.2%)

# Industrial Design Applications

# Framework of the Global Innovation Index (GII) 2015

# The GII

## RANKING 2014

1. SWITZERLAND
2. UNITED KINGDOM
3. SWEDEN
4. FINLAND
5. NETHERLANDS
- 6. UNITED STATES OF AMERICA**
7. SINGAPORE
8. DENMARK
9. LUXEMBOURG
10. HONG KONG (CHINA)
11. IRELAND
12. CANADA
13. GERMANY
14. NORWAY
15. ISRAEL

## RANKING 2015

1. SWITZERLAND
2. UNITED KINGDOM
3. SWEDEN
4. NETHERLANDS
- 5. UNITED STATES OF AMERICA**
6. FINLAND
7. SINGAPORE
8. IRELAND
9. LUXEMBURG
10. DENMARK
11. HONG KONG (CHINA)
12. GERMANY
13. ICELAND
14. KOREA, REPUBLIC OF
15. NEW ZEALAND

# United States in the GII 2015:

- Among world's five most-innovative nations, together with Switzerland, United Kingdom, Sweden and the Netherlands
- fall in Gross domestic expenditure on R&D and Business enterprise expenditure on R&D but above pre-crisis levels in 2013:

	2008	2009	2010	2011	2012	2013
GERD	100	99	99	101	105	n/a
BERD	100	96	94	97	103	n/a

- Among high-income countries, a major divider can be found in the quality of innovation. This is the area in which the USA and the United Kingdom largely as a result of their world-class universities, stay ahead
- Among the high-income economies, the United States of America (USA) tops the GII rankings in innovation quality.

# The United States in the GII\*

Strengths	Weaknesses
1.2.3 Cost of redundancy dismissal, salary weeks	2.2.2 Graduates in science & engineering, %
1.3.2 Ease of resolving insolvency	3.2.3 Gross capital formation, % GDP
2.2.1 Tertiary enrollment, % gross	5.2.3 GERD financed by abroad
4 Market sophistication (credit, Ease of getting credit)	6.2.1 Growth rate of PPP\$ GDP/worker, %
4.2 Investment	7.1.1 Domestic res trademark app./bn PPP\$ GDP
5.2.1 University/industry research collaboration	7.1.2 Madrid trademark app. holders/bn PPP\$ GDP
6 Knowledge & technology outputs	
6.1 Knowledge creation	
6.1.1 Domestic resident patent app./bn PPP\$ GDP

# The International Registration of Trademarks, Using the Madrid System

Roving Seminar on WIPO Services and Initiatives

Matthew Forno  
Senior Counsellor  
Information and Promotion Division  
Madrid Registry

**Nashville Tennessee**  
**United States of America**  
**April 13, 2016**

It begins with a trademark and a plan to export...

DAIMLER

ORKA GROUP  
"FASHION IS OUR BUSINESS"

SHISEIDO

MICROMAX

syngenta

DZAMA

TREASURY  
WINE ESTATES

SONY®

# Protection Options

...Then a choice must be made regarding the best way to protect your trademark/s abroad:

- The national route - file trademark application/s with the IP Office of each country in which you want protection
- The regional route - apply through a regional trademark registration system with effect in all member states (ARIPO, Benelux Office for IP, EUIPO and OAPI)
- The international route - file through the Madrid System

# The International Route

The international route through the Madrid System may be the preferred option when you:

- Seek protection in multiple markets, particularly if these are in different regions
- Want flexibility to add new markets as your export plans develop
- Have limited budget and/or time to spend on registration and management of your trademarks

# The Madrid System is Convenient

- Access a centralized filing and management procedure
- File one application, in one language and pay one set of fees for protection in multiple markets
- Expand protection to new markets as your business strategy evolves

# The Madrid System is Cost-effective

- File an international application, which is the equivalent of a bundle of national applications, effectively saving time and money
- Avoid paying for translations into multiple languages or working through the administrative procedures of multiple IP Offices

# The Madrid System offers Broad Geographic Coverage

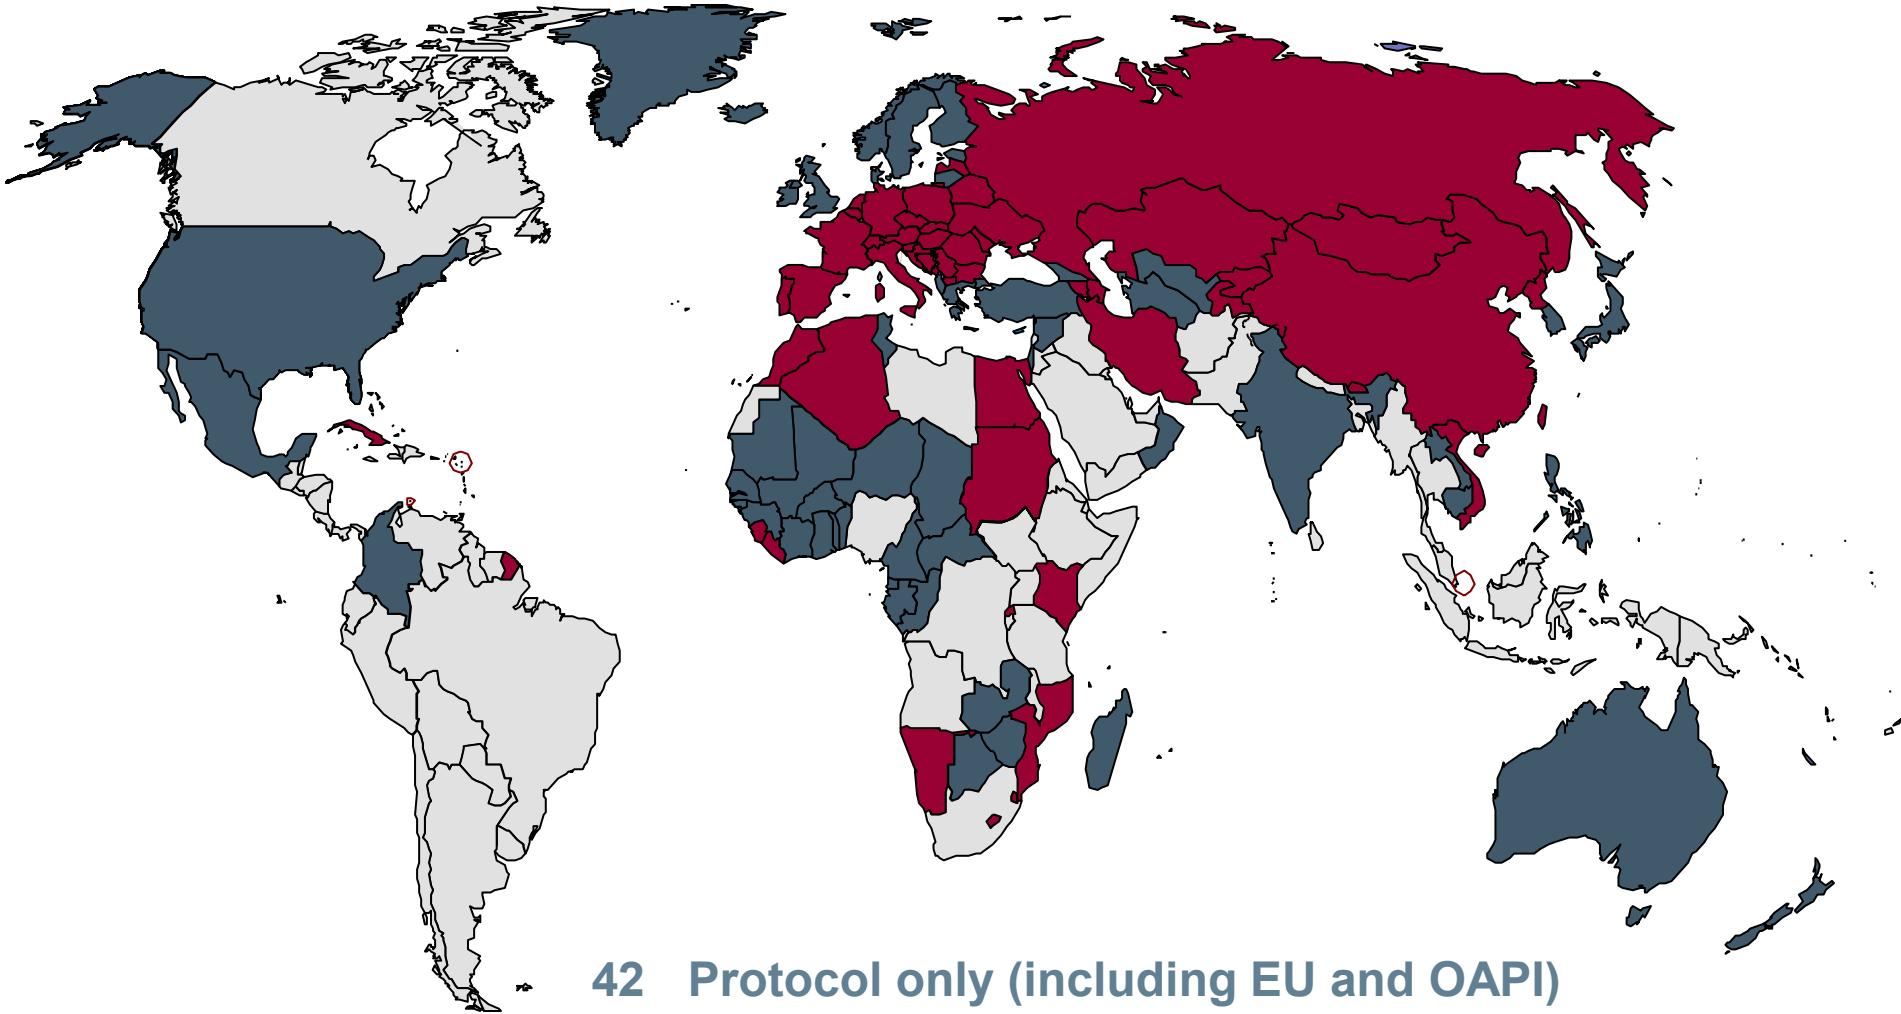

- Protect your trademark/s simultaneously in the 113 countries covered by the 97 members of the System
- Access markets that represent in excess of 80% of world trade, with potential for expansion as membership grows
- Recent accession include –
  - 2012: Colombia, Mexico, New Zealand and the Philippines
  - 2013: India, Rwanda and Tunisia
  - 2014: OAPI and Zimbabwe
  - 2015: Algeria, Cambodia, The Gambia and Lao PDR

# Madrid System Legal Framework

- Madrid Agreement (1891)
- Madrid Protocol (1989)
- Common Regulations
- Administrative Instructions
  
- Laws and Regulations of each Contracting Party

See [http://www.wipo.int/madrid/en/legal\\_texts/](http://www.wipo.int/madrid/en/legal_texts/)  
[http://www.wipo.int/madrid/en/members/ipoffices\\_info.html](http://www.wipo.int/madrid/en/members/ipoffices_info.html)

# Members of the Madrid System

**42** Protocol only (including EU and OAPI)

**55** Agreement and Protocol

**97** Members covering 113 countries

# How the Madrid System Works

## The International Trademark Registration Process

# Stage 1

## Application through your National or Regional IP Office (**Office of origin**)

- To be **entitled to use** the Madrid System, you must:
  - Have a real and effective industrial or commercial establishment in, or
  - Be domiciled in, or
  - Be a national of a member of the Madrid System
  
- Before filing an international application, you need to have registered or filed an application (**basic mark**) in your Office of origin
  
- Submit an **international application** through this same IP Office, which will certify and forward it to WIPO

## Stage 2

### Formal examination by WIPO

- WIPO conducts a **formalities examination** of your international application
- Once approved, the mark is **recorded in the International Register**
- WIPO sends a **certificate of international registration** and notifies the IP Offices, of the **designated Contracting Parties**, in which protection is sought
- The scope of protection is not known at this stage. It is only determined **after substantive examination** and decision by the IP Offices, as outlined in Stage 3

## Stage 3

### Substantive examination by IP Offices (Office of the designated Contracting Party)

- IP Offices make a **decision within 12 or 18 months** in accordance with their legislation. WIPO records the decisions and notifies you
- If an IP Office refuses to protect your mark, it will not affect the decisions of other offices. You can contest a refusal decision before the IP Office concerned
- If an IP Office accepts to protect your mark, it will issue **statement of grant of protection**
- The international registration is **valid for 10 years**. Renew directly with WIPO with effect in the designated Contracting Parties

# Costs

Fees are payable to WIPO in Swiss francs

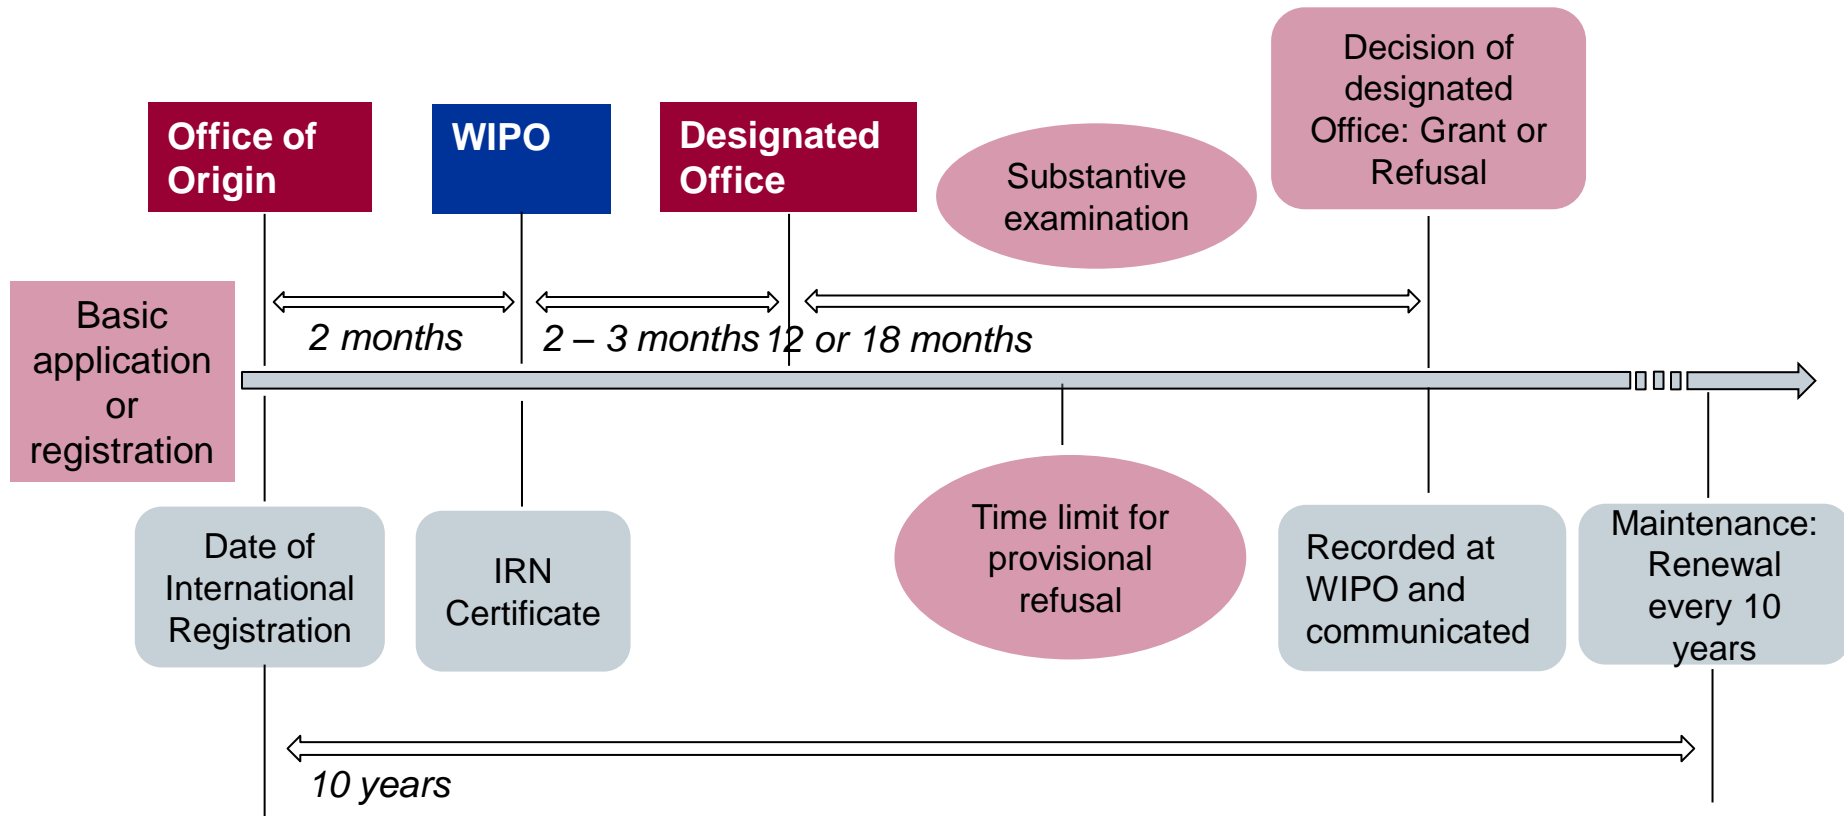

- Basic fee\*, which includes 3 classes of goods/services
  - 653 Swiss francs - b/w reproduction of mark
  - 903 Swiss francs - color reproduction of mark
  
- Fees for designating Contracting Parties (dCP)
  - Standard fees - complementary (100 Swiss francs per dCP and supplementary (100 Swiss francs per class beyond 3)  
OR
  - Individual fees where this is declared

\* Applicants from [Least Developed Countries](#) benefit from a 90% reduction in the basic fee

# The Patent Cooperation Treaty (PCT) – Current Status and Recent/Future Developments

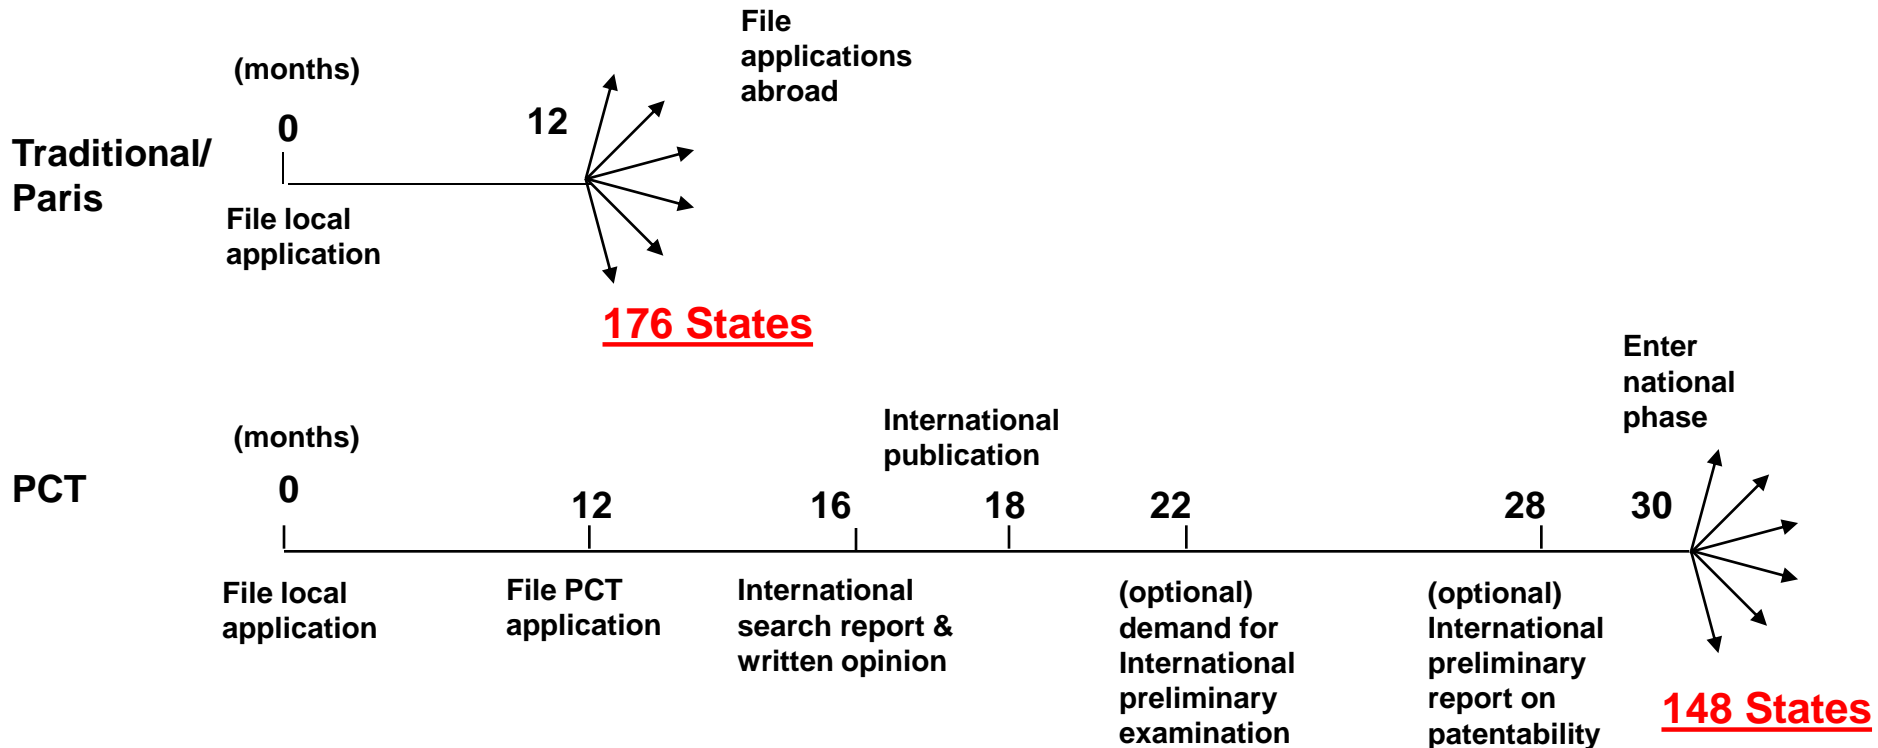

Roving Seminars: WIPO Services and Initiatives  
Nashville  
April 13, 2016

■ Speaker: Matthew Bryan, Director, PCT Legal Division

**WIPO**  
WORLD  
INTELLECTUAL PROPERTY  
ORGANIZATION

# Seeking patents multinationally: traditional patent system vs. PCT system

# The PCT “Market Share”

B6 Patent applications by filing route:  
Direct and PCT System, 2013

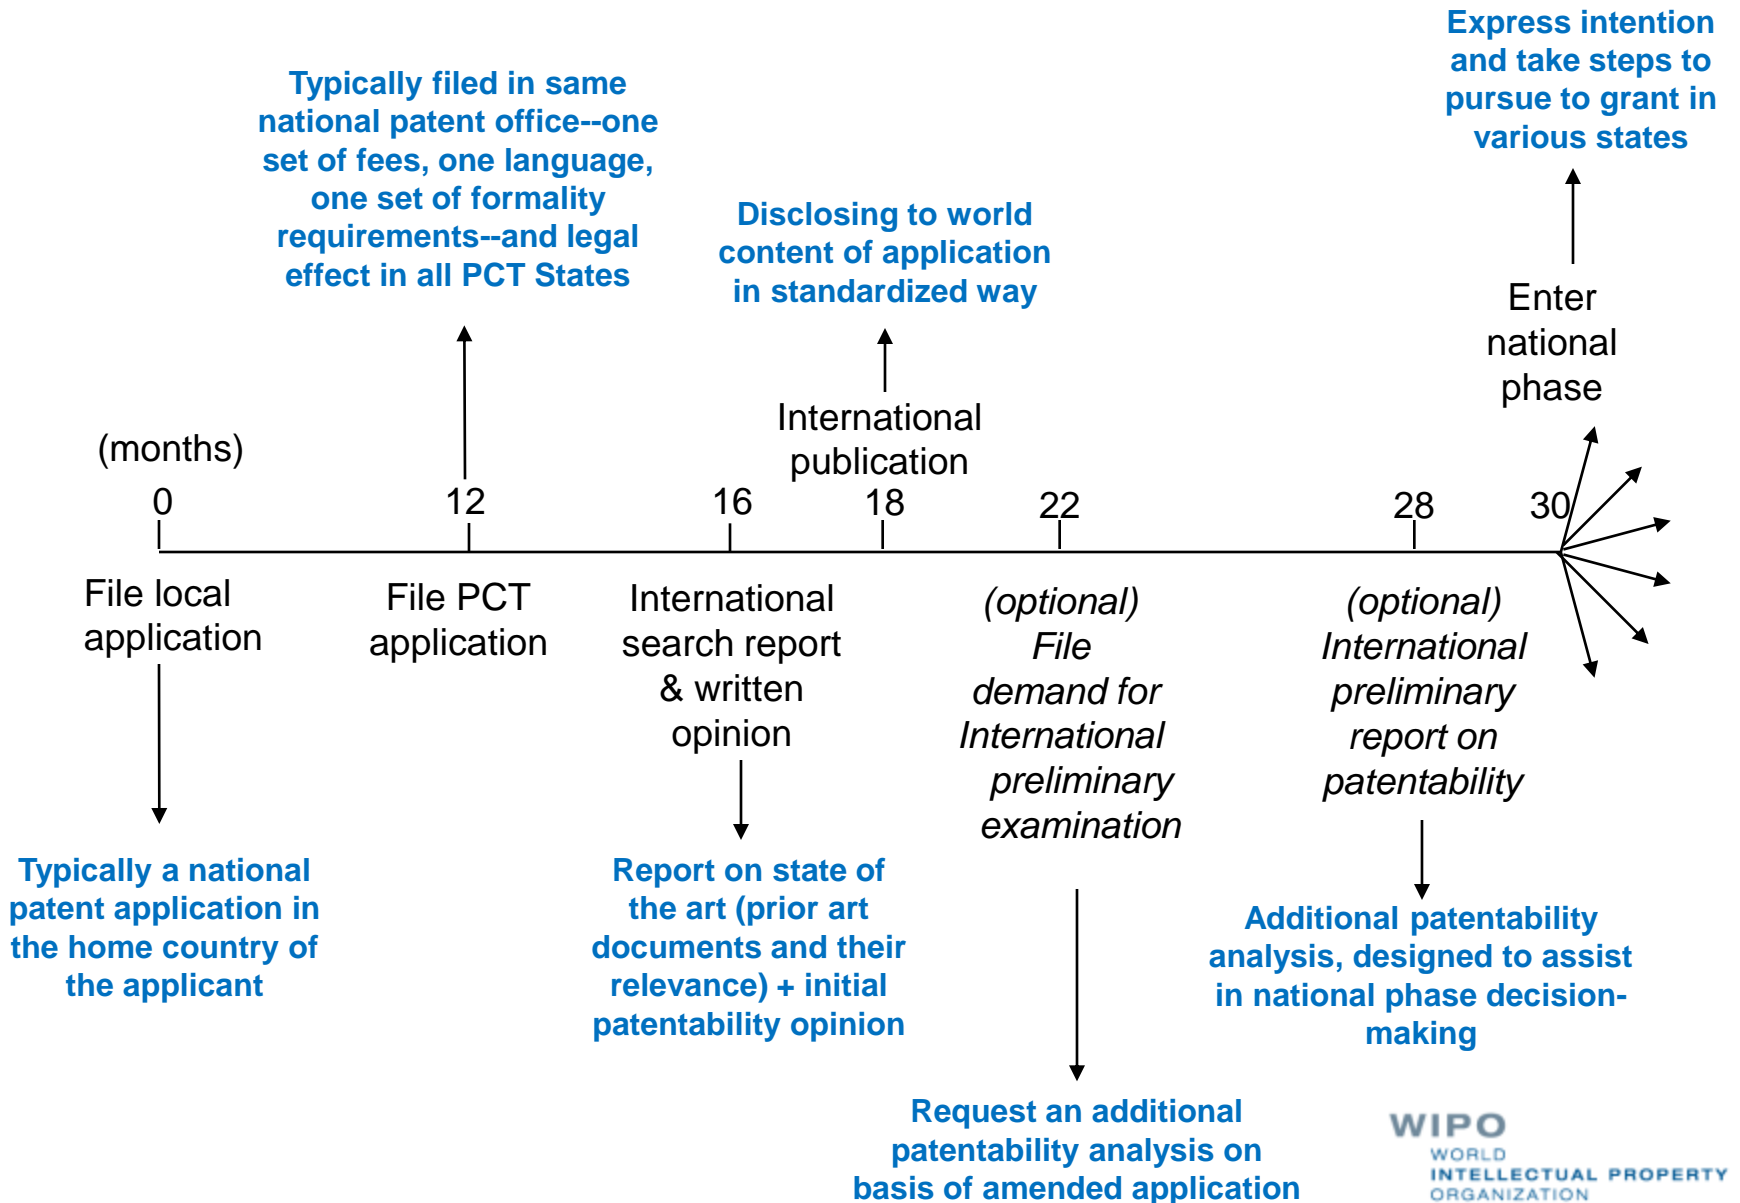

---

■ PCT national phase entries (non-residents): 55%  
■ Direct applications (non-residents): 45%

Source: WIPO statistics database, October 2014.

# The PCT System

# Advantages for PCT Users

The PCT, as the cornerstone of the international patent system, provides a worldwide system for simplified filing and processing of patent applications, which—

1. postpones the major costs associated with internationalizing a patent application
2. provides a strong basis for patenting decisions
3. harmonizes formal requirements
4. protects applicant from certain inadvertent errors
5. evolves to meet user needs
6. is used by the world's major corporations, universities and research institutions when they seek multinational patent protection
7. can result (if PCT reports are positive) in accelerated national phase processing in a number of countries

# PCT Testimonial

**Nokero**—which stands for "No Kerosene"—produces solar-powered lights which replace kerosene lamps and candles used in developing and least - developed countries. It has so far distributed over 1.4 million lights in 120 countries and is the only solar company to win the United States Patent and Trademark Office's Patents for Humanity Award.

*“When it comes to patenting, because we operate in so many different markets, we use WIPO’s Patent Cooperation Treaty (PCT). Every start-up has limited funds and the PCT is a great mechanism for delaying patent filing costs, allowing time to test the market and overcome any unforeseen technical problems. Without the PCT, protecting an invention in international markets would be a high-risk strategy with huge upfront costs.”*

FIG. 5

# PCT Testimonial

- Professor Shuji Nakamura—co-winner of the 2014 Nobel Prize for Physics for his work on blue LED technology—is quoted in a December 2014 *WIPO Magazine* article:

***“... The PCT is critical for these early stage technologies because it gives us the opportunity to protect our patents globally while allowing the market and the technology to mature further before determining which countries might be most valuable to commercial partners.”***

# PCT Testimonial

## Qualcomm:

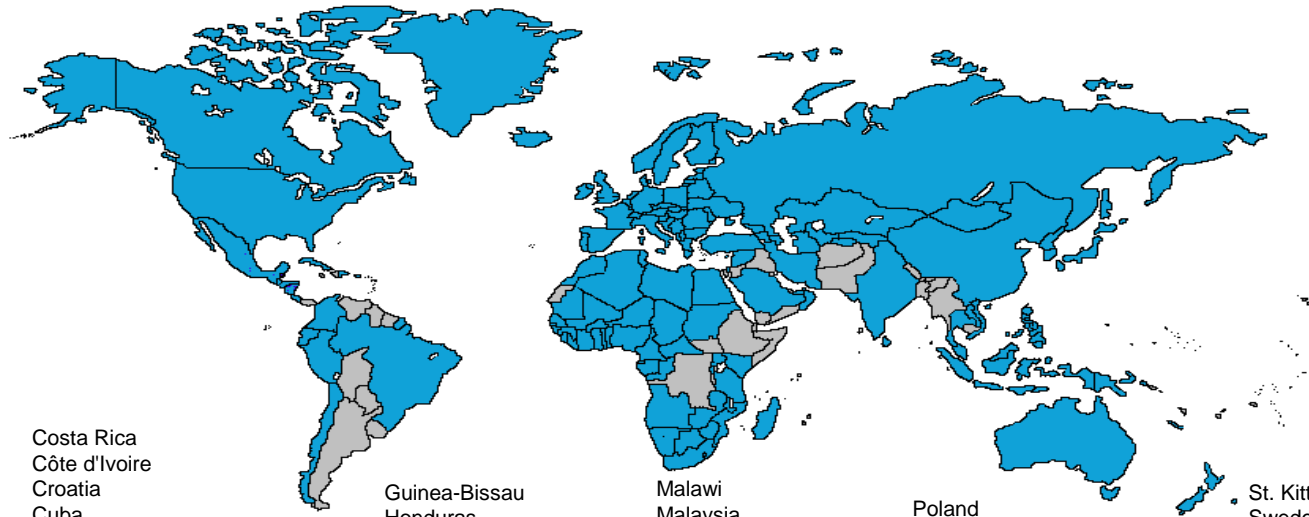

- Started in 1985 with 7 people
- Today more than 170 offices in more than 40 countries, and 33,000 employees
- \$25.3 billion in revenue in FY 2015
- #2 user of PCT in 2015: 2442 PCT applications published

# PCT International Searching Authorities

The ISAs are the following 21 offices:

Australia\*  
Austria  
Brazil  
Canada  
Chile  
China  
Egypt  
European Patent Office\*  
Finland  
India  
Israel\*  
Japan\*  
Nordic Patent Institute  
Republic of Korea\*  
Russian Federation\*  
Singapore \*(as of 1 April 2016)  
Spain  
Sweden  
Ukraine  
United States of America\*  
Visegrad Patent Institute (not yet operating)

\*Available to applicants  
filing with USPTO as RO  
(in some cases subject to  
certain conditions)

# PCT Assembly 2015

## ■ Outcomes

- Appointment of Visegrad Patent Institute as PCT ISA/IPEA (#21)
  - VPI=IP Offices of Poland, Hungary, Slovakia & Czech Republic
- Amendments to the PCT Regulations (entry into force: 1 July 2016)
  - legal basis and procedure for removing/withholding certain “sensitive information” from public access on applicant’s request (Rules 9, 48 & 94)
  - required transmittal by RO to IB of documents submitted in support of requests for restoration of priority right (Rules 26*bis* & 48)
  - “general unavailability of electronic communications services” as grounds for excuse of delay in meeting certain time limits (Rule 82*quater*)
  - language of communication with IB via ePCT opened to all publication languages (Rule 92)
- Amendments to the PCT Regulations (entry into force: 1 July 2017)
  - designated Offices required to provide IB with timely national phase entry and related data (Rules 86 & 95)
  - transmittal by RO of earlier search and/or classification results to ISA, where national law permits (Rules 12*bis*, 23*bis* & 41))

## ■ Documents:

- (PCT Assembly) [http://www.wipo.int/meetings/en/details.jsp?meeting\\_id=36343](http://www.wipo.int/meetings/en/details.jsp?meeting_id=36343)

# The PCT—1978 to 2016 (1)

- As filing tool: PCT has been extremely successful
  - preferred route for international patenting ( $\approx$ 218,000 applications in 2015, > 55% “market share”)
  - harmonization of formal and procedural requirements, beyond PCT
    - national laws; Patent Law Treaty (PLT)

# The PCT—1978 to 2016 (2)

- As worksharing tool: (which it was intended by its founders to be), PCT has not been as effective in practice
  - had it been successful up to now in this sense, it would have been of more assistance in addressing national quality of examination and (for some Offices) backlogs in processing
  - expectation by founders was: “flying start” for offices, which would complete, further check, and criticize ...
  - reality: many Offices start “from scratch”, perhaps not in complete isolation, but to a great degree ...
- What is needed: build more trust between patent offices, so that duplicative international phase and national phase processing can be reduced

# Continued areas of PCT focus (1)

## ■ Quality:

- Improve the quality and consistency of PCT international phase reports
- Develop quality metrics for measuring usefulness of international phase reports
- Develop quality feedback system for offices (e.g., DO to ISA)
- Explore collaborative search and examination
- Improve timeliness of PCT work

## ■ Help designated Offices to better understand reports

- Search strategies, standardized clauses, explanations of relevance of cited documents, etc.

## ■ Improve timeliness of actions in international phase

- ISAs/IPEAs, ROs (eSearchCopy)

## ■ Improve access to national search and examination reports

- PATENTSCOPE, WIPO-CASE, Global Dossier

## ■ Make progress against misleading invitations sent to PCT users

## WARNING: Requests for Payment of Fees

**It has come to the attention of the International Bureau that PCT applicants and agents are receiving invitations to pay fees that do not come from the International Bureau of WIPO and are unrelated to the processing of international applications under the PCT. Whatever registration services might be offered in such invitations, they bear no connection to WIPO or to any of its official publications.**

PCT applicants and agents should note that it is the International Bureau of WIPO alone which publishes all PCT applications promptly after the expiration of 18 months from the priority date (see PCT Article 21(2)(a)); there is no separate fee for such international publication, and the legal effects of international publication are set out in PCT Article 29.

The invitations often identify a particular PCT application by its international publication number (eg: WO 02 xxxxxx), publication date, title of the invention, international application number, priority information and IPC symbols; examples of such invitations can be viewed below.

### IIP – International Intellectual Property Office

Published on February 22, 2016

### IPTI – International Patents & Trademark Index

### Invitation not listed here? E-mail us a copy

- [Trademarks \(Madrid System\)](#)
- [Patents \(PCT System\)](#)

### Mitigating this unscrupulous practice

- WIPO invites its customers to use and adapt this standard text to notify applicants and inventors about such fee requests. [\[WORD\]](#)
- Circular letter addressed by WIPO Director General, Francis Gurry to all PCT Contracting States and Regional Organizations. [PDF](#)

### How to make a complaint?

# Continued areas of PCT focus (2)

- Helping developing countries benefit from the PCT
  - top 15 countries responsible for 92% of IAs filed in 2015
  - improve training for patent examiners (especially in developing and least developed countries), and better coordinate training already provided
- Making PCT accessible to applicants of all types from all Contracting States
  - fee reductions (SMEs, universities, research institutes, individual applicants)

# Continued areas of PCT focus (3)

- ePCT: electronic interface to entire PCT international phase process

- real time access to IB files and bibliographic data
- flexible applicant-controlled access rights system
- where possible, replace applicant letters with directly usable input in system
- notifications of significant events and approaching deadlines
- Online electronic preparation and filing with real-time validations (currently with 36 receiving offices, including IB, Algeria, Austria, Australia, Azerbaijan, Brazil, Brunei, Canada, Chile, Colombia, Cuba, Czech Republic, Denmark, EAPO, Estonia, EPO, Finland, Hungary, India, Iceland, Indonesia, Latvia, Malaysia, Mexico, New Zealand, Norway, Philippines, Poland, Portugal, Qatar, Russian Federation, Saudi Arabia, Sweden, Singapore, Turkey and South Africa)
- Multilingual (10 language) interface available
- Hoping to have RO/US authorization soon for use of reduced functionality “EFS-Web” mode of ePCT-Filing
- Bulk ePCT upload by IB possible for users
- Working on centralized fee payment mechanisms

# A few PCT best practices

- View and review filed application online asap after filing
- Request RO to prepare and transmit pdoc
- Submit any restoration of priority requests to RO/IB
- File *92bis* requests only with IB directly (never with RO)
- Submit any notice of withdrawal only to the IB directly (never to RO—unless before record copy has been transmitted)
- Review published application immediately after publication
- Always respect national phase entry time limit
- When you have a question or doubt, call or email PCT Infoline

# Other related developments

## ■ WIPO PEARL

- terminology portal, providing access to multilingual technical terms derived from patent documents
- helps promote accurate and consistent use of terms across different languages

## ■ PATENTSCOPE

- planning to release new functionality (July 2016) for searching chemical compounds (“Chemsearch”)
- Will recognize chemical compounds in patent text and drawings, and users can search by name, structure, INN or draw the structure

# PCT User Wishlist

- 1) Representation at PCT WG (through user associations)
- 2) Disseminate information about misleading invitations, including making complaints and taking actions
- 3) Encourage remaining countries to join PCT, for the benefit of all PCT users
- 4) Encourage receiving and designated Offices to do what is necessary to be able to withdraw incompatibilities with PCT Regulation provisions (such as those relating to incorporation by reference, restoration of priority and reinstatement after failing to failure to timely enter national phase)
- 5) Engage, when appropriate, in Collaborative Search and Examination 3<sup>rd</sup> pilot
- 6) Provide feedback on how PCT is working, suggestions for its improvement and ideas about how we can work together

# PCT training options

- 29 video segments on WIPO's Youtube channel and WIPO's PCT page about individual PCT topics
- PCT Distance learning course content available in the 10 PCT publication languages, and a 2<sup>nd</sup> detailed PCT DL course under preparation
- PCT Webinars
  - free updates on developments in PCT procedures, and PCT strategies—previous webinars are archived and freely available
  - upon request also for companies or law firms, for example, for focused training on how to use ePCT
- Videoconference and audio possibilities also available
- In-person PCT Seminars and training sessions: see PCT seminar calendar (<http://www.wipo.int/pct/en/seminar/seminar.pdf>)

# The Hague System for the International Registration of Industrial Designs

Betty Berendson  
Senior Information Officer  
Information and Promotion Section  
The Hague Registry

**Nashville,  
April 13, 2016**

# What is the Hague System?

## One to many relationships

- File a single international application for a single international registration (IR) in which one or more Contracting Parties (CP) are designated

## “Bundle of Rights”

- If no refusal, the resulting international registration has the effect of a grant of protection in each designated Contracting Party. Substantive issues are governed by the law of each designated Contracting Party.

# Hague System is a Procedural Arrangement

Issues such as:

the conditions for protection

the refusal procedure to be applied when deciding whether a design may be protected

the rights which result from protection

are governed by the law of each Contracting Party designated in an international registration

# The International Application

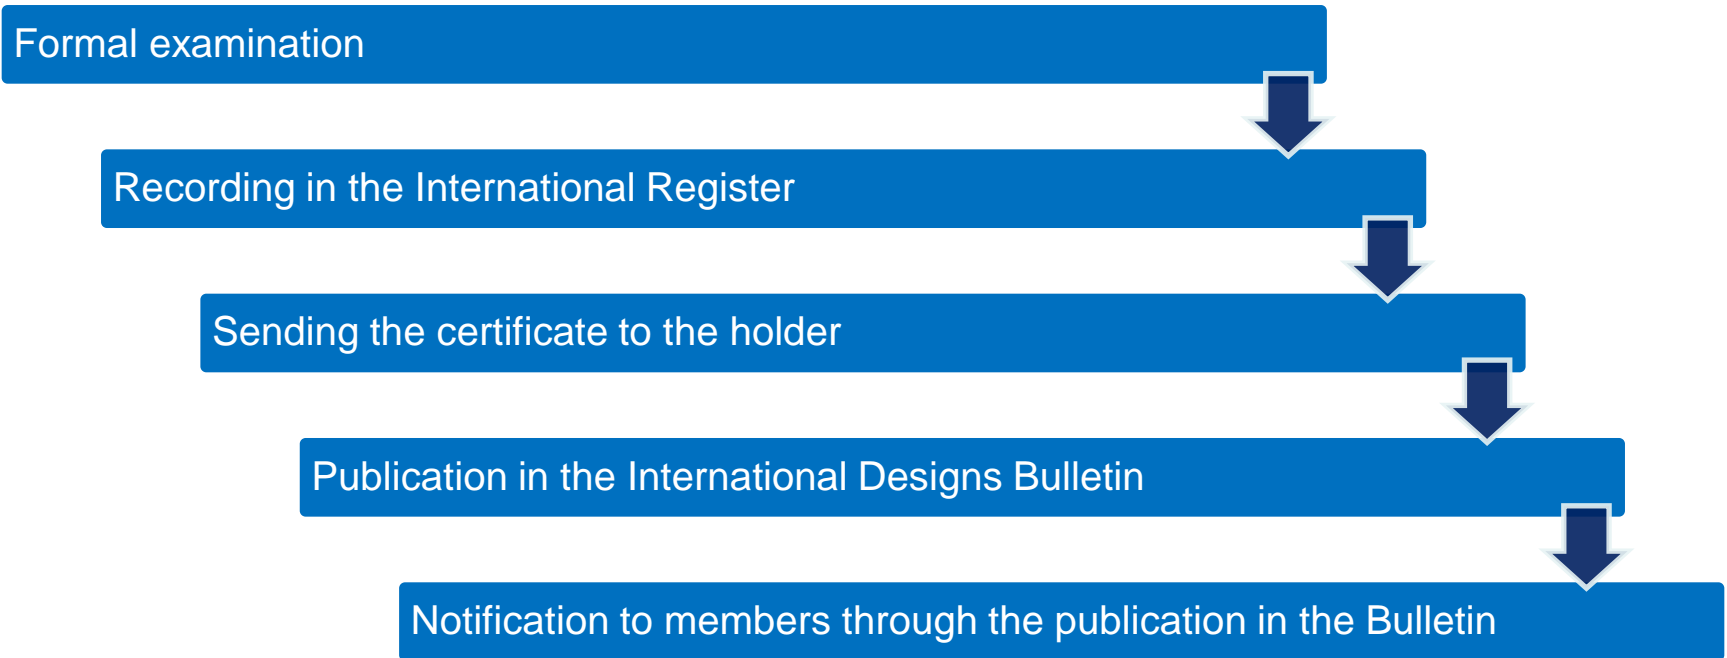

In English, French or Spanish

May be filed directly with the International Bureau through the E-filing interface but also on paper

May comprise several different designs up to a maximum of 100 if they belong to the same class of the International Classification (Locarno)

One set of fees (in CHF) is to be paid

# The Hague System Procedure: Role of the International Bureau

**If the International Bureau finds that the international application does not fulfill the applicable requirements, it invites the applicant to make the required corrections within three months from the date of invitation sent by the International Bureau**

# The Hague System Procedure: Role of the Designated Contracting Parties

## Refusal by a designated Contracting Party

on same substantive grounds as for national/regional filings

must be communicated within time limit

effect limited to territory of the member that has refused

## International registration (where not refused)

no refusal = same rights as a local design registration

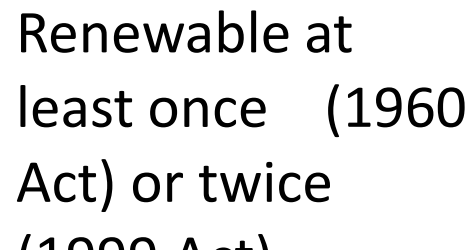

a bundle of independent national/regional rights

advantages of central management

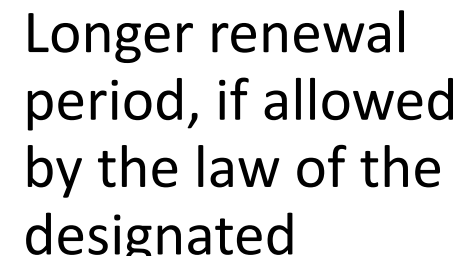

# The Hague System: Duration of Protection

Duration of protection: five years

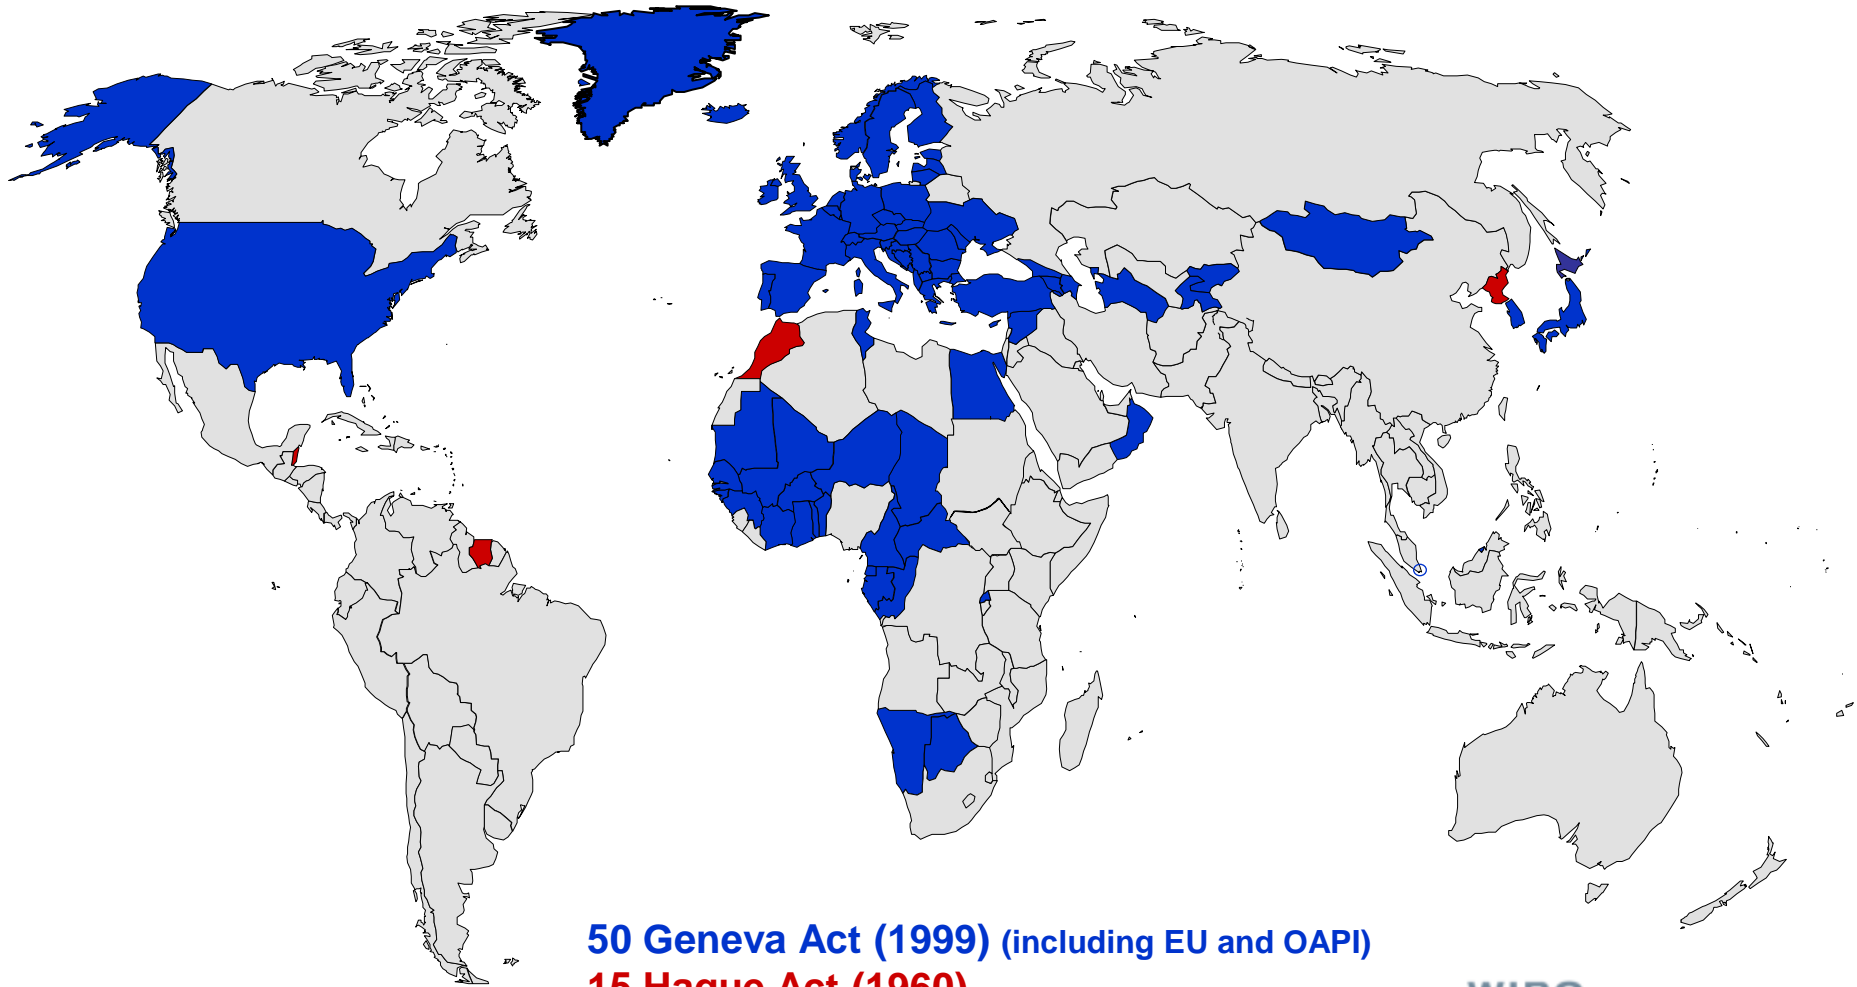

Renewable at least once (1960 Act) or twice (1999 Act)

Longer renewal period, if allowed by the law of the designated Contracting Party

# Hague Union

**50 Geneva Act (1999) (including EU and OAPI)**

**15 Hague Act (1960)**

---

**65 Contracting Parties**

# Resolving IP Disputes outside the Courts through WIPO ADR: WIPO's Arbitration and Mediation Center

Matthew Bryan  
Director  
Patent Cooperation Treaty Legal Division  
WIPO

**WIPO Services and Initiatives  
Nashville  
April 13, 2016**

# Top Ten Priorities in Choice of Dispute Resolution Clause (WIPO Survey)

# WIPO Arbitration and Mediation Center

- Facilitates the resolution of commercial disputes between private parties involving IP and technology, through procedures other than court litigation (alternative dispute resolution: ADR)
  - Offices in Geneva and Singapore
- ADR of IP disputes benefits from a specialized ADR provider
  - WIPO mediators, arbitrators and experts experienced in IP and technology - able to deliver informed results efficiently
- Competitive WIPO fees
- International neutrality
- Services include mediation, (expedited) arbitration, expert determination, and domain name dispute resolution

# WIPO ADR

## Mediation, Arbitration, Expert Determination

- **Mediation:** informal consensual process in which a neutral intermediary, the mediator, assists the parties in reaching a settlement of their dispute, based on the parties' respective interests. The mediator cannot impose a decision. The settlement agreement has force of contract. Mediation leaves open available court or agreed arbitration options.
- **Arbitration:** consensual procedure in which the parties submit their dispute to one or more chosen arbitrators, for a binding and final decision (award) based on the parties' rights and obligations and enforceable internationally. Arbitration normally forecloses court options.
- **Expert Determination:** consensual procedure in which the parties submit a specific matter (e.g., technical question) to one or more experts who make a determination on the matter, which can be binding unless the parties have agreed otherwise.

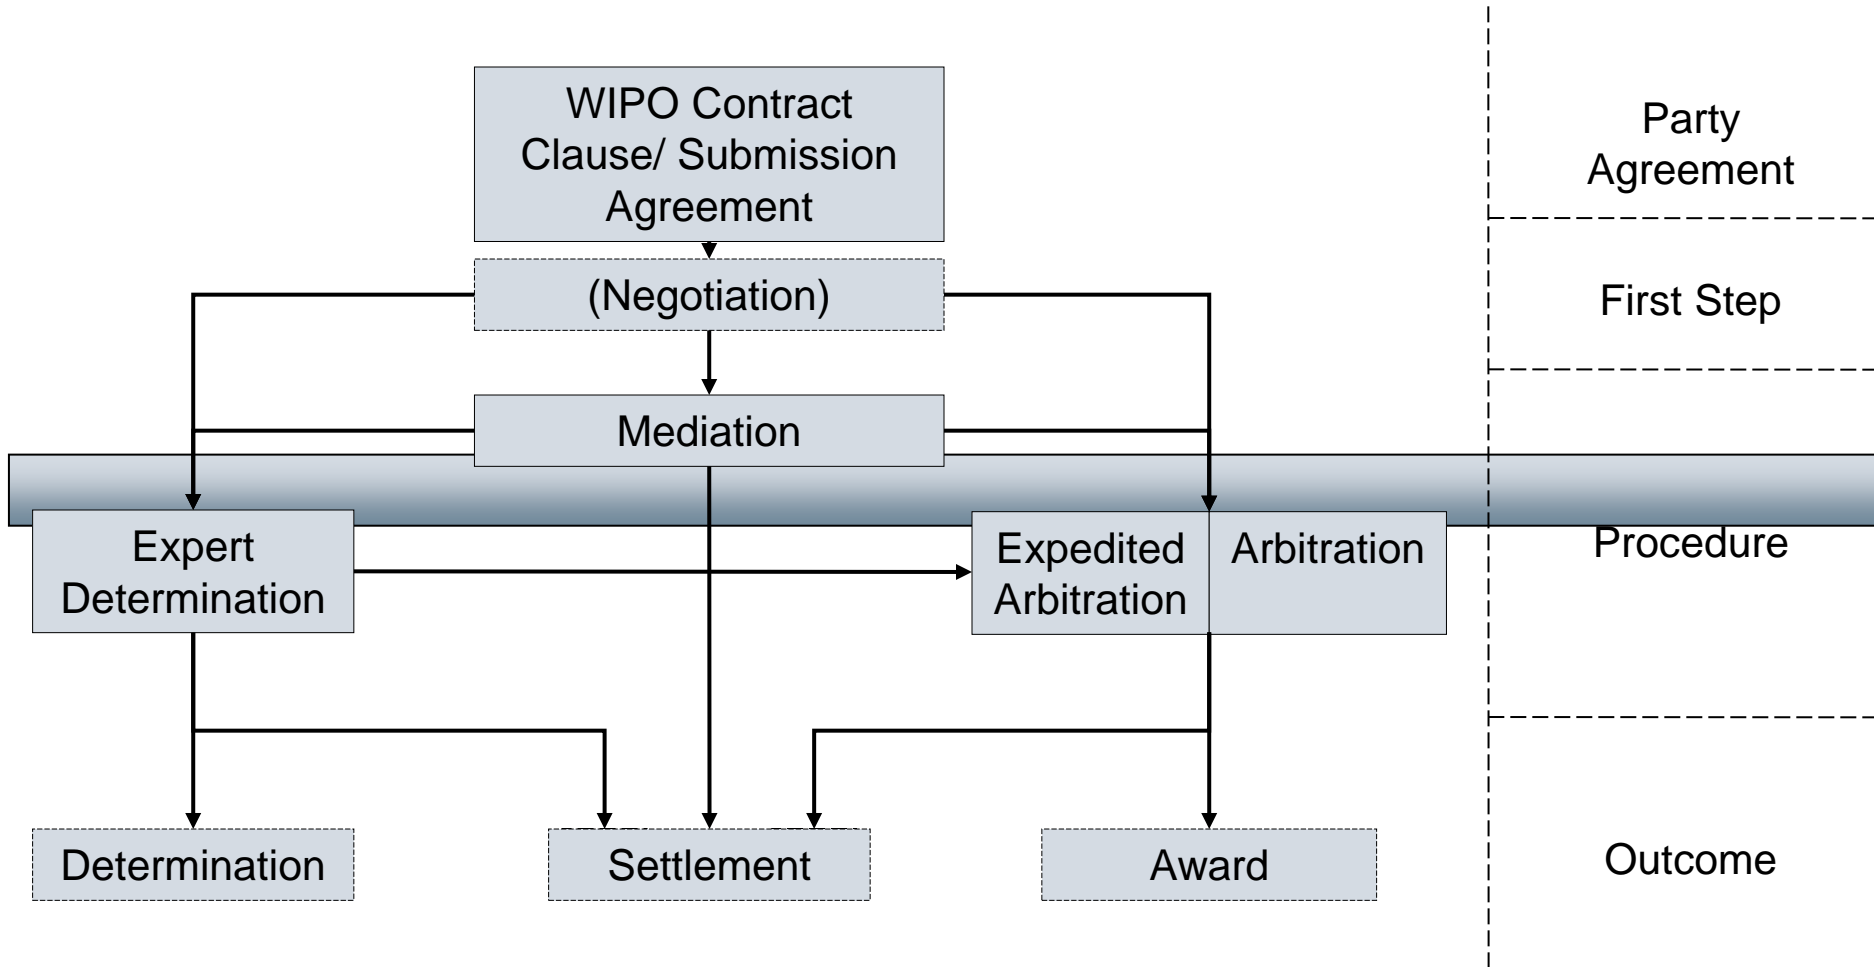

# Why Consider IP ADR?

- Cost of IP court litigation
  - *Calls for expedient solutions*
- Internationalization of creation/use of IP
  - *Calls for cross-border solutions; consolidate in one procedure*
- Technical and specialized nature of IP
  - *Calls for specific expertise of the neutral*
- Short product and market cycles in IP
  - *Calls for time-efficient procedures*
- Confidential nature of IP
  - *Calls for private procedures*
- Collaborative nature of IP creation and commercialization
  - *Calls for mechanisms that preserve relations*

# Routes to WIPO ADR

- ADR contract clause electing WIPO Rules
  - WIPO Mediation, and/or
  - WIPO (Expedited) Arbitration, and/or
  - WIPO Expert Determination
  - Model clauses: [www.wipo.int/amc/en/clauses/index.html](http://www.wipo.int/amc/en/clauses/index.html)
    - Parties can shape the process via the clause (e.g., location, language, law)
- ADR submission agreement electing WIPO Rules, e.g., in existing non-contractual disputes
- Court referrals

# WIPO ADR Options

# WIPO Model Clause Example: Mediation followed by Expedited Arbitration

"**Any dispute**, controversy or claim arising under, out of or relating to this contract and any subsequent amendments of this contract, including, without limitation, its formation, validity, binding effect, interpretation, performance, breach or termination, as well as non-contractual claims, **shall be submitted to mediation in accordance with the WIPO Mediation Rules**. The place of mediation shall be **[specify place]**. The language to be used in the mediation shall be **[specify language]**"

If, and to the extent that, **any such dispute**, controversy or claim **has not been settled pursuant to the mediation within [60][90] days of the commencement of the mediation**, it shall, **upon the filing of a Request for Arbitration by either party, be referred to and finally determined by arbitration in accordance with the WIPO Expedited Arbitration Rules**. Alternatively, if, before the expiration of the said period of [60][90] days, either party fails to participate or to continue to participate in the mediation, the dispute, controversy or claim shall, upon the filing of a Request for Arbitration by the other party, be referred to and finally determined by arbitration in accordance with the WIPO Expedited Arbitration Rules. The place of arbitration shall be **[specify place]**. The language to be used in the arbitral proceedings shall be **[specify language]**. The dispute, controversy or claim referred to arbitration shall be decided in accordance with **[specify jurisdiction] law**."

## WIPO Clause Generator

### Step 3 – Build your clause: WIPO Mediation followed, in the absence of a settlement, by Arbitration Clause

#### Mediation

The parties should determine where they want the mediation to take place.

##### Core Elements ?

Place of Mediation

Language of the Mediation

Duration of the Mediation Proceedings

##### Additional Elements ?

Qualifications of the Mediator

Conduct of the Mediation

The place of mediation shall be .

Clear

Next

Any dispute, controversy or claim arising under, out of or relating to this contract and any subsequent amendments of this contract, including, without limitation, its formation, validity, binding effect, interpretation, performance, breach or termination, as well as non-contractual claims, shall be submitted to mediation in accordance with the WIPO Mediation Rules.

The place of mediation shall be [specify place].

The language to be used in the mediation shall be [specify language].

If, and to the extent that, any such dispute, controversy or claim has not been settled pursuant to the mediation within [specify timeline] days of the commencement of the mediation, it shall, upon the filing of a Request for Arbitration by either party, be referred to and finally determined by arbitration in accordance with the WIPO Arbitration Rules. Alternatively, if, before the expiration of the said period of [specify timeline] days, either party fails to participate or to continue to participate in the mediation, the dispute, controversy or claim shall, upon the filing of a Request for Arbitration by the other party, be referred to and finally determined by arbitration in accordance with the WIPO Arbitration Rules.

The arbitral tribunal shall consist of [a sole arbitrator][three arbitrators].

The place of arbitration shall be [specify place].

The language to be used in the arbitral proceedings shall be [specify language].

The dispute, controversy or claim shall be decided in accordance with the law of [specify jurisdiction].

## WIPO Arbitration

## WIPO Expedited Arbitration

- One exchange of pleadings
- Shorter time limits
- Sole arbitrator
- Shorter hearings
- Fixed fees

# WIPO Mediation, Arbitration and Expert Determination Cases

- IP/IT disputes and commercial disputes
  - Contractual: patent licenses, software/ICT, R&D and technology transfer agreements, patent pools, distribution agreements, joint ventures, copyright collecting societies, trademark coexistence agreements, settlement agreements
  - Non-contractual: infringement of IP rights
- Domestic and international disputes (25/75%)
- Amounts in dispute from USD 50,000 to USD 1 billion

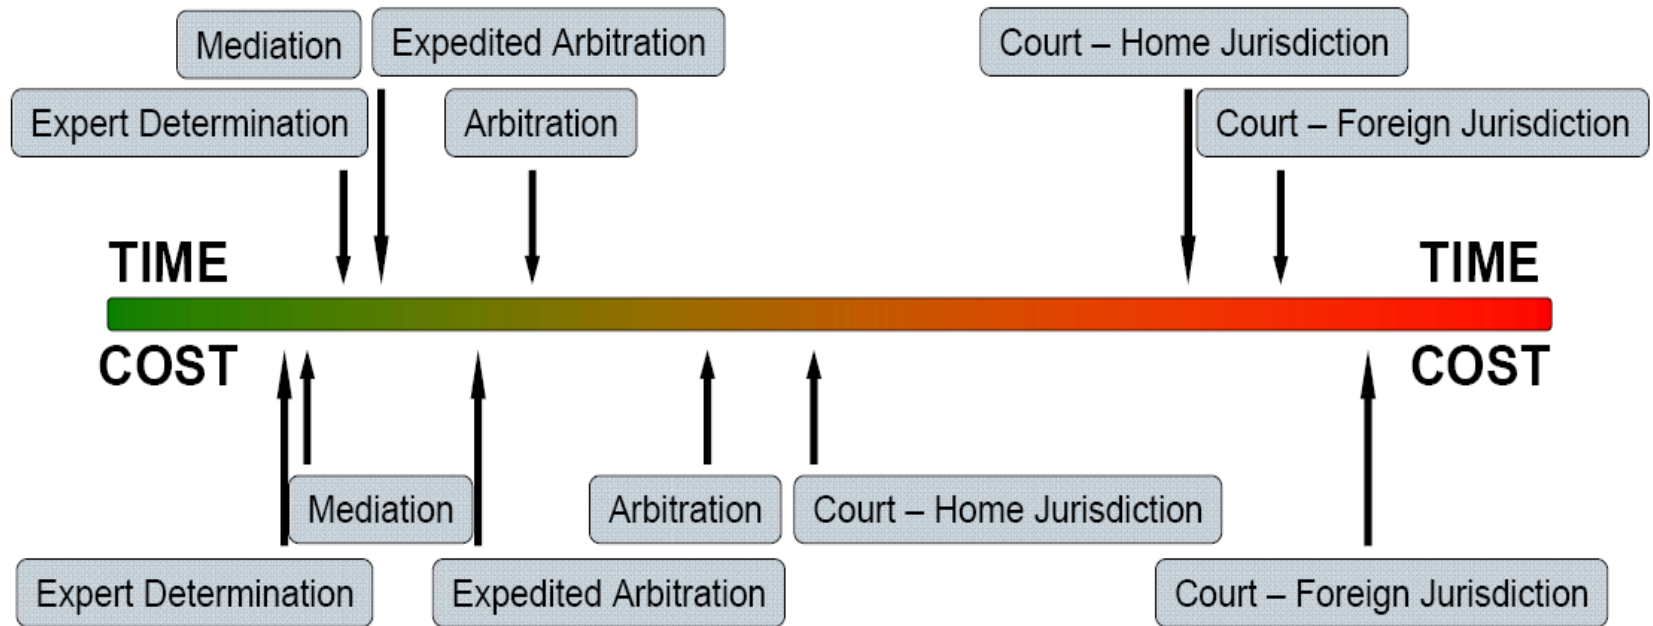

# Dispute Areas in WIPO Mediation and Arbitration Cases

# How Are Technology Disputes Resolved?

# Relative Time and Cost of Technology Dispute Resolution

# WIPO AMC Recent Developments

## (1)

### ■ Unilateral Request for WIPO Mediation

- In the absence of a mediation agreement, a party that wishes to propose submitting a dispute to mediation may submit a Request for Mediation to the Center
  - Art. 4 WIPO Mediation Rules (effective January 1, 2016)

### ■ WIPO Clause Generator

- Allows parties to develop tailored WIPO clauses and submission agreements on the basis of the WIPO models
  - Select ADR procedure(s) and core elements, such as place and language of proceedings and applicable law, and, if desired, additional elements, including qualifications of neutral

# WIPO AMC Recent Developments

## (2)

- WIPO Guide on Alternative Dispute Resolution Options for Intellectual Property Offices and Courts
  - Based on WIPO Center advisory and case experience, offers practical guidance to IP Offices and courts that wish to institutionalize ADR options for proceedings pending before them
- USPTO included the WIPO Center among listed ADR providers
  - Available at the option of parties to administer disputes before the Trademark Trial and Appeal Board (TTAB) and the Patent Trial and Appeal Board (PTAB)
- WIPO ADR for FRAND Disputes
  - Tailored model submission agreements that parties may use to refer a dispute concerning FRAND terms
  - Special list of mediators, arbitrators and experts for patents in standards

# Uniform Domain Name Dispute Resolution Policy (UDRP)

- 1999: WIPO-created international administrative ADR procedure
- Allows trademark owners to resolve “clear cut” cases of abusive domain name registration and use (“cybersquatting”)
- Operates outside the courts, but preserves party court option
- Uniform: applicable to all gTLDs “old” (.com, .net, .org, etc.) and “new” (.bike, .fail, .nyc, etc.)
- Applicable via mandatory “contract web” between ICANN, registrars, and registrants

# UDRP: Principal Advantages

- Significantly quicker and cheaper than court litigation
  - Two-month average; fixed fees (USD 1,500)
- Predictable criteria and results
- Decision (transfer) implemented directly by registrar
- Prevents consumer confusion/brand abuse

# The UDRP Test – Three Elements

- Trademark must be **identical or confusingly similar** to the domain name; and
- The registrant of the domain name must have **no rights or legitimate interests** in the domain name; and
- The domain name must have been registered and used **in bad faith**.

# Domain Name Dispute Filing with WIPO

- 16 years' experience as the global leader in domain name dispute resolution
  - 33,000+ cases covering 60,000+ domain names
    - 2015 total:
      - 2,754 cases (+4.6%) comprising 4,364 domain names from 113 countries and in 15 languages
      - 10.5% related to new gTLDs (including .XYZ, .CLUB and .EMAIL)
      - 13.7% involved ccTLDs
      - Top filing countries: US, FR, DE, GB, CH, NL, IT, ES, SE, DK
      - 313 new panelists appointed from 45 countries
      - Top complainant sectors: fashion (10%), banking/finance (9%), Internet/IT (9%), retail (8%), biotech/pharma (7%)
      - Top case filers: Hugo Boss, Philip Morris, Electrolux, Hoffman-La Roche, Volkswagen, LEGO, Michelin
  - Involving parties based in 177 countries
  - Multilingual case administration (21 languages to date)
  - Paperless filing: WIPO-initiated eUDRP

# WIPO Overview of WIPO Panel Views on Selected UDRP Questions, Second Edition ("WIPO Overview 2.0")

## 1. First UDRP Element

- 1.1 Does ownership of a registered trademark to which the domain name is identical or confusingly similar automatically satisfy the requirements under paragraph 4(a)(i) of the UDRP?
- 1.2 What is the test for identity or confusing similarity, and can the content of a website be relevant in determining this?
- 1.3 Is a domain name consisting of a trademark and a negative term confusingly similar to the complainant's trademark? ("sucks cases")
- 1.4 Does the complainant have UDRP-relevant trademark rights in a trademark that was registered, or in which the complainant acquired unregistered rights, after the domain name was registered?
- 1.5 Can a complainant show UDRP-relevant rights in a geographical term or identifier?
- 1.6 Can a complainant show UDRP-relevant rights in a personal name?
- 1.7 What needs to be shown for the complainant to successfully assert common law or unregistered trademark rights?
- 1.8 Can a trademark licensee or a related company to a trademark holder have rights in a trademark for the purpose of filing a UDRP case?
- 1.9 Is a domain name consisting of a trademark and a generic, descriptive or geographical term confusingly similar to a complainant's trademark?
- 1.10 Is a domain name which contains a common or obvious misspelling of a trademark (i.e., typosquatting) confusingly similar to a complainant's trademark?
- 1.11 Are disclaimed or design elements of a trademark considered in assessing identity or confusing similarity?

## 2. Second UDRP Element

- 2.1 Is the complainant required to prove that the respondent lacks rights or legitimate interests in the disputed domain name?
- 2.2 Does a respondent automatically have rights or legitimate interests in a domain name comprised of a dictionary word(s)?
- 2.3 Can a reseller/distributor of trademarked goods or services have rights or legitimate interests in a domain name which contains such trademark?
- 2.4 Can a criticism site generate rights or legitimate interests in the disputed domain name?
- 2.5 Can a fan site generate rights or legitimate interests in the disputed domain name?
- 2.6 Do parking and landing pages or pay-per-click (PPC) links generate rights or legitimate interests in the disputed domain name?
- 2.7 Does a respondent trademark corresponding to a disputed domain name automatically generate rights or legitimate interests?

## 3. Third UDRP Element

- 3.1 Can bad faith be found if the domain name was registered before the trademark was registered or before unregistered trademark rights were acquired?
- 3.2 Can there be use in bad faith when the domain name is not actively used and the domain name holder has taken no active steps to sell the domain name or to contact the trademark holder (passive holding)?
- 3.3 What constitutes a pattern of conduct of preventing a trademark holder from reflecting the mark in a corresponding domain name?
- 3.4 Can constructive notice, or a finding that a respondent "knew or should have known" about a trademark, or willful blindness, form a basis for finding bad faith?
- 3.5 What is the role of a disclaimer on the web page of a disputed domain name?
- 3.6 Can statements made in settlement discussions be relevant to showing bad faith?
- 3.7 Does the renewal of the registration of a domain name amount to a registration for the purposes of determining whether the domain name was registered in bad faith?
- 3.8 Can third-party or "automatically generated" material appearing on a website form a basis for finding registration and/or use in bad faith?
- 3.9 Can use of a privacy or proxy registration service form a basis for finding bad faith?
- 3.10 Can the use of "robots.txt" or similar mechanisms to prevent website content being accessed in an on-line archive form a basis for finding in bad faith?
- 3.11 Can tarnishment of a trademark form a basis for finding bad faith?

**Abstract:** (EN) A solar hybrid vehicle comprises a vehicle body, a vehicle energy configuration system, and a braking energy recycling device (11). The vehicle body collects solar energy with a solar energy collection system, the collected solar energy is stored in the vehicle energy configuration system, and the braking energy recycling device is connected to a storage battery pack (6). A sensor is disposed between the vehicle energy configuration system and the storage battery pack. The vehicle energy configuration system is connected to an on-board automatic control system, an external charging interface (15) and an electric motor (7). The present invention combines multiple technical solutions, reduces energy consumption, increases the utilization of solar energy, and is more aesthetic and user-friendly.

图 1 / Fig. 1

(FR) La présente invention concerne un véhicule hybride solaire comportant une carrosserie de véhicule, un système de configuration d'énergie de véhicule, et un dispositif de recyclage d'énergie au freinage (11). La carrosserie de véhicule collecte de l'énergie solaire grâce à un système de collecte d'énergie solaire, l'énergie collectée est stockée dans le système de configuration d'énergie de véhicule et le dispositif de recyclage d'énergie au freinage est connecté à un bloc d'éléments d'accumulateur (6). Un capteur est disposé entre le système de configuration d'énergie de véhicule et le bloc d'éléments d'accumulateur. Le système de configuration d'énergie de véhicule est connecté à un système de commande automatique embarqué, à une interface de charge externe (15) et à un moteur électrique (7). La présente invention est une combinaison de plusieurs solutions techniques, réduit la consommation d'énergie, accroît l'utilisation de l'énergie solaire, et est plus esthétique et conviviale.

太阳能混合动力汽车

技术领域

本发明涉及一种太阳能混合动力汽车，属于新能源汽车技术领域。

背景技术

随着国民经济的快速发展，越来越多的家庭已经或即将拥有汽车。但是，国际原油价格的一路飙升为我们敲响了能源紧缺的警钟。汽车在中国家庭中的普及要求我们在新能源汽车上取得实质性的技术突破。

目前，国内外众多科研机构、公司都在致力于新能源汽车的研究。其中，混合动力汽车是现有新能源汽车中最接近成熟的产品。混合动力汽车的性能可以超过传统的燃油汽车，但其电池蓄电量成为影响其发展的瓶颈，所以还不能完全取代燃油汽车。

在太阳能汽车的开发研究上，人们已经取得了较大的进展。近年来对太阳能收集转化技术的研究，也有效提高了太阳能的吸收利用率。太阳能汽车的车体玻璃对太阳能的有效吸收利用情况在很大程度上影响了汽车的整体性能。为此，人们在太阳能汽车上尝试使用可烘烤低辐射镀膜玻璃和太阳能薄膜电池来提高太阳能的吸收效率，并取得了一定的效果。

因此，借助技术的更新可以为市场提供更好的节能环保型太阳能混合动力汽车。

发明内容

本发明所要解决的技术问题在于克服现有技术的不足，提供一种太阳能混合动力汽车。

为实现上述的发明目的，本发明采用下述的技术方案：

一种太阳能混合动力汽车，包括汽车本体、太阳能采集系统、车体能量配置系统、车载自动控制系统和制动能量回收装置；

所述汽车本体通过所述太阳能采集系统收集太阳能；收集的太阳能储存在车体能量配置系统中，所述制动能量回收装置与蓄电池组连接；所述车体能量配置系统与所述蓄电池组之间设有传感器，所述车体能量配置系统分别与所述车载自动控制系统、外接充电接口和电动机相连；

所述太阳能采集系统包括太阳能天窗、可烘烤低辐射镀膜玻璃、太阳能薄膜电池以及车轮太阳能板，其中所述太阳能天窗为设置在所述汽车本体顶部的太阳能蜂窝吸光体；

在所述车体能量配置系统中，供电控制单元分别与光强检测单元、太阳能采集单元、能量存储单元、汽车用电单元连接，用于实时接收所述检测单元检测到的光强信号，并根据该光强信号控制所述太阳能采集单元、所述能量存储单元以及所述汽车用电单元的运行；

在所述汽车本体的车轮外侧分别设置有磁浮制动盘罩，所述磁浮制动盘罩的表面设置有车轮太阳能板；

Solar hybrid vehicles

TECHNICAL FIELD

The present invention relates to a solar hybrid vehicles, belonging to the technical field of new energy vehicles.

Background technique

With the rapid development of national economy, more and more families have been or are about to have a car. However, the international crude oil prices soaring to us sounded the alarm for the energy shortage. Car popular in Chinese families requires us to achieve substantial breakthroughs in the new energy vehicles.

At present, many domestic and foreign research institutes, companies are working on new energy vehicles. Among them, hybrid cars are the closest existing new energy vehicles mature product. Hybrid vehicles can exceed the performance of conventional fuel vehicles, but its battery capacity becomes a bottleneck affecting its development, so it can not fully replace fuel vehicles.

On the research and development of solar cars, people have made great progress. Recent studies on the conversion of solar collector technology, but also effectively improve the absorption and utilization of solar energy. Solar car body glass of solar energy effectively absorbed largely affected the overall performance of the car utilization. For this reason, people try to use the solar car can bake bend low emissivity coated glass and thin film solar cells to improve the absorption efficiency of solar energy, and have achieved some results.

Therefore, the use of updated technology may provide better energy saving solar hybrid vehicles to the market.

SUMMARY OF THE INVENTION

Technical problems to be solved by the present invention is to overcome the deficiencies of the prior art and to provide a solar hybrid vehicles.

# PATENTSCOPE what's new?

## Coverage improvements:

### ■ Q4 2014

- Inclusion in PATENTSCOPE of the complete full text of the national patent applications and grants from DPMA (more than 5'000'000 full text records)

### ■ Q1 2015

- Inclusion in PATENTSCOPE of the bibliographic data of the national patent collection of Portugal (100'000 records)

# German decompounder

- Special care has been taken to index efficiently compound words in German language
- Example: WO2014/00729  
***Gasballongetragener Flugroboter***
- With decompounding, any of the following queries will match the WO2014/00729 document:
  - “gasballon” AND “roboter”
  - “gasballon” AND “flugroboter”
  - “ballon” AND “roboter”
  - “getragener” AND “roboter”

# PATENTSCOPE what's next?

## ■ PATENTSCOPE CHEMSEARCH

- Recognize chemical compounds in patent texts and from embedded drawings included in patent texts
- Standardize all the different representations of chemical structures into Inchikeys
- Implement search functions for Inchikeys that can be used by non chemists

## ■ Coverage: Inclusion in PATENTSCOPE of

- UK full text, CN UMs (with full text), DK , FR, NZ , AU, old JP documents (between 1993 and 2003, and later after 1971)

WIPO is the global forum for intellectual property services, policy, information and cooperation.

## We deliver global services for protecting IP

File, manage or search patents, trademarks, designs and appellations of origin. Not there yet? Learn all about intellectual property and how to protect it.

### WIPO | PCT

The International Patent System

### WIPO | MADRID

The International Trademark System

### WIPO | HAGUE

The International Design System

## Alternative dispute resolution

Settle IP and technology disputes out of court using the fast, flexible and cost-effective services offered by the WIPO Arbitration and Mediation Center.

## Domain name disputes

Resolve cybersquatting and other disputes relating to trademark domain names.

## We shape international IP rules for a changing world

Follow policy discussions and negotiations on the future development of IP in our standing committees and meetings.

### Next meetings

Standing Committee on the Law of Patents

Jan 27–31

Intergovernmental Committee on IP and Genetic Resources, Traditional Knowledge and Folklore

Feb 3–7

[All upcoming meetings](#)

FEATURED

### WIPO Assemblies

The **52nd Series of Meetings of the Assemblies** of the Member States of WIPO took place in Geneva from December 10 to 12, 2013.

- [Documents](#) | [Videos on demand](#)

## We provide access to the world's IP information

Search technology and brand-related information in our free global databases. Download our other reference materials: publications, statistics, economic studies and more.

### PATENTSCOPE

35 million international and national patent documents

### Global Brand Database

11 million international and national records of trademarks, appellations of origin and emblems

### ROMARIN

International marks recorded under the Madrid System

### WIPO Lex

IP laws and treaties

FEATURED

### World IP Indicators

Latest statistical report shows IP filing activity is extending its run of pre-crisis level growth.

## News on IP Laws

December 10, 2013 [South Africa: The Intellectual Property Laws](#)  
 shall come into force on a date to be fixed by the Minister of Trade and Industry. The new laws will provide for the protection of indigenous knowledge and to create a legal framework for the protection of indigenous knowledge in South Africa. To that end, it amends the existing intellectual property laws, namely, the [Performers' Rights Act 1993](#) and the [Designs Act 1993](#).

October 18, 2013 [Philippines: The BOT Office Order No. 13-06, Series of 2013, on the Implementation of the Guidelines for Office Order No. 13-061, Series 2013, on Trademark Applications with Priority Right Claim](#), issued by the Bureau of Trademarks (BOT) on October 18, 2013, provides for the guidelines to ensure the accurate implementation of the Office Order No. 13-061, which became effective on May 2, 2013. These guidelines primarily refer to the pending trademark applications at the time the Order became effective, the requirement of a copy of the foreign application as a basis for claiming convention priority, the application of goods and services in the Philippines compulsorily covered by the applications used as basis for claiming convention priority, the national applications where fees are not paid in full, the notice of registration of foreign application to the IP office of the Philippines (the IPOPHL) and the conditions for exemption from conformity to the list of goods and services in the foreign registration for the trademark applications for goods and services in the Philippines.

## WIPO Lex

WIPO Lex is a one-stop **search facility** for national laws and treaties on intellectual property (IP) of WIPO, WTO and UN Members. It also features related information which elaborates, analyzes and interprets these laws and treaties. It provides streamlined access to reference material of key importance for optimal information on the global IP System.

## ■ Broad aims:

- Match-making for technology transfer and collaborations
- Reduce transaction costs
- Build on comparative advantages of multi-stakeholder approaches
- Demonstrate practical means for the global policy issues

## ■ Based on the recognition that:

- Users want access to technologies, not just patent rights
- Collaboration (e.g. training) is crucial to tech transfer

- A Global Database and Platform to bridge partners to use IP (including know-how and data) to facilitate R&D on neglected tropical diseases, tuberculosis, and malaria.
- Royalty-free for R&D, manufacture and sale in LDCs
- Over 90 partners (pharmaceutical industry, research institutes such as NIH, Universities)
- As of June 2015, 89 collaborations

# WIPO RE:SEARCH

Sharing Innovation in the Fight Against Neglected Tropical Diseases

# WIPO GREEN

- A global database allowing users to make green technologies available for licensing or partnership, enter technology needs, search for technologies and needs
- Started a pilot with Japan Intellectual Property Association in 2011
- Launched in November 2013
- as of September 2015, over 1800 offers
- Green tech providing companies in Germany, Japan, US etc.
- Partners include companies, universities, UN agencies, governments, IPOs, NGOs, etc.

# Partners of WIPO GREEN

[www.wipo.int/green](http://www.wipo.int/green)

[About WIPO GREEN](#)[WIPO GREEN Network](#)[WIPO GREEN Database](#)

WIPO GREEN is an interactive marketplace that promotes innovation and diffusion of green technologies. Use our database and network to connect with technology and service providers, or advertise your needs.

## WIPO GREEN database

Search for green technology and intellectual property assets. If you are a provider search for needs.

[Needs](#)[Technologies](#)[All technical fields](#)

# Six Areas of Green Technology Markets

Administrative,  
regulatory  
or design aspects

Agriculture /  
Forestry

Alternative energy  
production

Energy  
conservation

Transportation

Waste  
management

# The Challenge

International Transfer of wind power technology, 1988-2007,

OECD 2010

# Get Involved

- Become a Partner and shape the further development of WIPO GREEN
- Register to:
  - communicate your green innovation and technology needs
  - advertise your inventions, technologies, products and services
  - connect with the innovation and business communities globally

Thank you for your attention
