

Mr. Michel Allain

Michel joined WIPO in September 2019 as Copyright IT manager. He is leading the development of IT tools for improving Copyright Management and especially WIPO Connect project.

Michel's career combines substantial experience in software development, strategic planning, and enterprise information systems at a global scale with a strong expertise in copyright management.

Prior to joining WIPO, Michel was Deputy CEO of ST-Groupe, a French IT company specialized in Copyright. Between 2013 and 2018, He served as Director General of FastTrack, the IT provider of CIS-Net (Cisac CMOs network).

Before, he spent 11 years as CIO of Sacem the French CMO. By the past, He also served in senior information technology positions at Daimler Chrysler and SODEXO.

Michel hold a Master in computer sciences from Paris Dauphine University and is graduated from IMD Lausanne.

Ms. Lili Chen

Lili is working as Senior Deployment Officer at the World Intellectual Property Organization (WIPO), Copyright and Creative Industries Sector, Copyright Management Division, in Geneva (Switzerland), in the area of deployment of the IT solution, WIPO Connect, facilitating the collective management of copyright and related rights to CMOs.

She has been working at WIPO since 2010 starting in Global Database division, then Hague information system division, currently Copyright Management Division.

Before joining WIPO, she worked as an IT expert in Canada and Italy, including the Canadian Federal Government and City of Ottawa in Ottawa, UNEP/SCBD in Montreal and FAO in Rome.

Lili obtained two Master of Science degrees, from McGill university in Canada and Wuhan University in China.
