

Le Système ePCT

ePCT for Applicants

ePCT Overview

- Getting started <http://pct.wipo.int/ePCT>
- ePCT private services and ePCT public services
- eOwnership of PCT applications
- eHandshakes and sharing of access rights
- Create an account
- File an application

What is ePCT?

- Online portal that provides PCT services for both applicants and Offices
- Available since May 2011
(10 languages since May 2015)
- Provides secure and direct interaction with PCT applications maintained by the International Bureau
- ePCT-Filing - Web-based filing of PCT applications
(since October 2013)
- Applicants can conduct most PCT transactions electronically with the International Bureau

ePCT modes

■ ePCT private services

- Authentication using both a WIPO User Account (username and password) and a digital certificate
- Access to full range of services and functions
- Access to PCT applications filed as of January 1, 2009, including before publication

■ ePCT public services

- Only a WIPO User Account (username and password) is required
- Limited functionality (document upload and third party observations) for all PCT applications regardless of filing date

ePCT public services (1)

- Create a WIPO User Account using the WIPO Accounts service

- <https://pct.wipo.int/wipoaccounts/ePCT/public/register.jsf>

- Documents can be uploaded for all PCT applications which are available in the electronic processing system of the International Bureau

- User Guide for Document Upload available

- http://www.wipo.int/export/sites/www/pct/en/epct/pdf/transition_to_epct_for_document_upload.pdf

ePCT public services (2)

The screenshot shows the ePCT public services interface for the application PCT/US2012/888890. The interface includes a navigation bar with tabs for 'ePCT', 'Search IA', 'My History', 'Portfolios', and the current application ID 'PCT/US2012/888890'. Below this, there are three tabs: 'File View', 'Upload Documents' (highlighted with a red circle), and 'Third Party Observations'. The main content area displays metadata for the application, including the International Filing Date (11 Apr 2012), Portfolio (FANTASTIC_INVENTIONS), and Processing Team at IB (PT01). Below the metadata, there are instructions: '1. Select document type >> 2. Add document >>'. A list of document types is shown, including 'Article 19 Amendments', 'Supplementary International Search', 'Other', 'Declarations under Rule 4.17', 'Corrections/Rectifications', and 'Withdrawal under Rule 90bis'. At the bottom of the list, there is a button labeled '+ Add Document (.pdf)' which is also highlighted with a red circle.

- + Other
- + Declarations under Rule 4.17
- + Corrections/Rectifications
- + Withdrawal under Rule 90bis

+ Add Document (.pdf)

ePCT Public Services

- Third Party Observations

- The Third Party Observation system enables applicants and third parties to submit observations for use by examining Offices
- Accessible through PatentScope

The screenshot displays the WIPO PatentScope interface for the patent 1. (WO2014147532) SKIN TREATMENT APPARATUS. The top navigation bar includes 'Search', 'Browse', 'Translate', 'Options', 'News', 'Login', and 'Help'. The breadcrumb trail is 'Home > IP Services > PATENTSCOPE'. The main content area shows the patent title and a row of tabs: 'PCT Biblio. Data', 'Description', 'Claims', 'National Phase', 'Notices', 'Drawings', and 'Documents'. Below the tabs, the text 'Latest bibliographic data on file with the International Bureau' is followed by a blue button labeled '⇒ Submit observation', which is circled in red. Below this, the publication details are listed: 'Pub. No.: WO/2014/147532', 'International Application No.: PCT/IB2014/059775', 'Publication Date: 25.09.2014', and 'International Filing Date: 14.03.2014'. The IPC classification is 'A61B 18/20 (2006.01), A61B 18/00 (2006.01)'.

- Accessible through ePCT

ePCT private services

- <http://pct.wipo.int/epct>
- Create a WIPO User Account using the WIPO Accounts service
- Obtain/Upload a “supported” certificate
 - WIPO digital certificate
 - EPO digital certificate (smart card)
 - JP SECOM digital certificate
 - KIPO digital certificate
- Note: USPTO digital certificates are NOT supported

WIPO Digital Certificate

- A small electronic file with data that identifies the user
- Available free-of-charge from WIPO, valid 2 years, renewable
- One-time opportunity to download the requested digital certificate (must be done within a week)
- Backup the digital certificate
 - You must back up your certificate

ePCT-Filing

- Web-based filing of PCT applications filed in any language
- Real-time validation of data against the electronic processing system of the International Bureau
- Available to all PCT applicants
- For filings with RO/IB and other participating Offices
- Request form can be prepared in all PCT languages (except for Arabic which will be added in the future)
- Specification in PDF format or XML/DOCX

eOwnership of PCT applications

- Right to access and manage a PCT application in ePCT
- Process is automatic when using ePCT-Filing
 - Access rights can be pre-assigned
- If ePCT-Filing is not used, additional steps are required to take eOwnership

Taking eOwnership

- At the time of electronic filing using PCT-SAFE or eOLF software
- Subsequent to electronic filing using a supported digital certificate
- Paper-filed applications or electronically-filed applications with non-supported digital certificate
- All other cases
- Multiple applications

Taking eOwnership PCT-SAFE or eOLF electronic filing

Taking eOwnership

PCT-SAFE or eOLF electronic filing

- Indications provided at the time of filing will be verified by the International Bureau against the record in ePCT
- eOwnership automatically assigned
- Timing depends on the receiving Office (RO)
 - Filings at RO/IB: more or less immediately after filing
 - Filing made at other ROs: only when the Record Copy is received at the International Bureau

Taking eOwnership

After electronic filing of an unpublished application

- Unpublished e-filed applications using a supported digital certificate
 - Both the e-filing and ePCT digital certificates must match
 - Enter the confirmation code in the bottom right-hand corner of Form PCT/IB/301
 - eOwnership automatically assigned

The International Bureau of WIPO 34, chemin des Colombettes 1211 Geneva 20, Switzerland	Authorized officer Bardini Ann e-mail pt04.pct@wipo.int Telephone No. +41 22 338 74 04

Request confirmation code

Cancel

eOwnership approval by the IB

- Only requests from persons on the file of a PCT application can be approved
 - Applicant, agent, person appointed as address for correspondence, person named on the transmittal receipt for e-filed applications
- If the International Bureau cannot match the request with a person on the file, form PCT/IB/345 containing the confirmation code will be sent to the address for correspondence
- The notification also contains the contact details of the requestor, so that the person at the address for correspondence can pass on the confirmation code if appropriate

Sharing of Access Rights – eHandshake (1)

- First step in providing access to PCT applications
- Consists in the association and trusted recognition between different WIPO User Accounts
- eHandshakes do not directly result in shared access rights which have to be specifically assigned (default access rights options can be pre-defined)
- eHandshake screen is hosted in WIPO Accounts (your name at the top of the screen functions as a shortcut link, or select “My Account” from the cogwheel)

Sharing of Access Rights – eHandshake (2)

■ Request new eHandshake

- If you know the associate's customer ID, enter it in the corresponding field

The screenshot displays the WIPO eHandshake interface. On the left, there are navigation menus for 'WIPO ACCOUNTS', 'ePCT', 'FUNCTIONS', and 'HELP'. The main content area is titled 'eHandshakes' and includes a section for 'Initiate eHandshake' which shows the user's Customer ID as 'user_TT_LOMBARDI_TAMIRA_7595'. Below this is a section for 'Request new eHandshake' with a text prompt: 'Enter the Customer ID of the user to whom you want to send an eHandshake request:'. A form field labeled 'Customer ID *' is highlighted with a red border, and a 'Request eHandshake' button is positioned below it.

- If you do not know the associate's customer ID, send yours by e-mail so that the associate can initiate the process

Types of Access Rights

- eOwner

- Complete control over all aspects of the PCT application

- eEditor

- Can do everything except assign access rights

- eViewer

- “Look” but don’t “Touch”

- Full history of all access rights modifications is available

- Assignment of access rights for multiple applications

- Access rights automatically assigned to default list of eHandshake users

Access rights and drafts

■ Access to Drafts

- The various types of access rights (eOwner, eEditor and eViewer) apply to all documents and drafts for an application.

■ Draft ePCT-Actions and eFilings

- eOwner and eEditor users may update and process draft actions created by other users that have access granted to them
 - A locking system prevents concurrent access
- It is possible to have one person draft and one person approve work

Assigning and Managing Access Rights

- An eOwner can give access rights to other persons, change the type of access right, and remove them via the Workbench or the Access Rights of each application

Assign New Rights

To assign rights to another person you must first have established an [eHandshake](#)

Users with existing rights	New Rights
Silke Weiss	eOwner
Anita-Eva Zandrini 	eOwner
Ann Bardini 	eViewer

Select eHandshake user(s) to add	New Rights
<input type="checkbox"/> Prefill my default access rights options 	
Atsushi SHIOMI	
Quan-Ling Sim	

Apply Changes Cancel

Workbench

- List of all PCT applications to which you have access (eOwner, eEditor, eViewer)
- The Workbench contains a number of columns
 - IA Number
 - IA Status
 - File Ref
 - [...]
- Various filter options can be applied to the Workbench
- Clicking on a PCT application will open up a detailed File View

File View

- Access to the PCT file maintained by the International Bureau (documents plus up-to-date bibliographic data)
- Front-page preview
- My Comments (visible only to the current ePCT user)
- Warning (viewable to all users who have access rights)
- Information about the target date for international publication
- Indications about the public availability of each document type
- Direct link to the PCT application in PATENTSCOPE (as of the publication date)

Notifications

■ Preferences

- Specify the events in the lifecycle of a PCT application for which you want to receive notifications
- Manner and type of notifications

■ Filters

- Received date, read date, date range

■ Clearing notifications

- Removing notifications from the list

My History

- All actions that “you” as a user have performed in ePCT
- Default view is for the last one week period
- There is also a similar History function within each PCT application which includes all actions by all ePCT users and some actions taken by the International Bureau

Portfolios

- User-defined personal folders for filing and grouping PCT applications
- PCT applications contained in portfolios are links to applications contained in the workbench
- Deletion of PCT applications from a portfolio only deletes the folder link, not the applications themselves

Actions (1)

- “Actions” can only be submitted to the International Bureau (currently)

The screenshot shows a software interface with a light blue header bar containing the text "Select Action". Below the header, there is a label "Select the action to submit to the IB :". To the right of this label is a dropdown menu with a light blue background and a small downward arrow on the right side. The dropdown menu is open, displaying a list of actions. The first item, "Select", is highlighted in a darker blue. The other items in the list are: "Declarations under Rule 4.17", "Licensing Availability Request", "Make international application available to DAS", "Observations on close prior art", "Obtain priority document from DAS", "Request for Early Publication", "Rule 92bis change request", "Submit Chapter II Demand", "Withdraw Chapter II Demand", "Withdraw Designation(s)", "Withdraw Election(s)", "Withdraw IA", and "Withdraw Priority Claim(s)". To the right of the dropdown menu is a small grey button with the text "OK".

- The user benefits from pre-filled bibliographic data and automated validations to avoid errors

Actions (2)

- Data submitted through “Actions” are directly imported for processing with no need for retyping (reduces potential transcription errors)
- All “Actions” are subject to review by the International Bureau
- “Actions” should be used instead of the equivalent document upload
- Option to save “Actions” as a draft

Upload Documents (1)

- Documents (PDF) can be uploaded for all PCT applications that are available in the electronic processing system of the International Bureau
- Simple, secure alternative to sending documents by mail or fax
- Types of document selectable for upload depend on the recipient selected

Upload Documents (2)

- Current date and time at the *recipient* Office is displayed in the interface and is set as the date of receipt of uploaded documents
- After upload, documents are visible in the File View in ePCT and the recipient Office is notified by the system
- As an alternative to document upload, where an equivalent ePCT “Action” exists, a link to the “Action” is displayed next to the document type

Upload Documents (3)

- PCT Document format requirements when uploading PDFs
 - Quality of documents uploaded are reflected in the PCT publication.
 - Documents **MUST** be Black and White Portrait
 - ePCT validates contents as much as possible
 - ePCT will reject or warn users to check conversion result

Upload Documents (4)

- PCT Document format requirements when uploading PDFs
 - Quality of documents uploaded are reflected in the PCT publication.
 - Documents **MUST** be Black and White Portrait
 - ePCT validates contents as much as possible
 - ePCT will reject or warn users to check conversion result

Upload Documents (5)

■ Black and white is NOT greyscale

Time Line

- Date and time in Geneva, Switzerland, is displayed at the top of the screen to facilitate awareness of deadlines
- Graphical representation of PCT time limits
- Summary of key dates
- E-mail alerts for most of these time limits can be set up in notification preferences

Bibliographic Data

- Up-to-date bibliographic data for the PCT application being viewed
- Preview of bibliographic data in publication front page layout
- Download of bibliographic data in PDF format
- Where the language of filing of an international application is Chinese, Japanese, Korean or Russian, bibliographic data is now available in those languages in addition to the English transliteration

Enter challenge phrase
(something you will remember
needed to revoke and renew certificate.)

Digital ID Subscriber Agreement

By applying for, submitting, or using a Digital ID, you are agreeing to the terms of the Symantec Subscriber Agreement.

Symantec Public Certification Services

Digital Certificate Subscriber Agreement

YOU MUST READ THIS DIGITAL CERTIFICATE SUBSCRIBER AGREEMENT ("AGREEMENT") BEFORE APPLYING FOR, ACCEPTING, OR USING THE INITIAL OR ANY SUBSEQUENT RENEWAL CERTIFICATE ("CERTIFICATE"). IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT, DO NOT APPLY FOR, ACCEPT, OR USE THE CERTIFICATE. BY ACCEPTING OR USING THE CERTIFICATE, YOU AGREE TO BECOME A PARTY TO, AND BE BOUND BY, THESE TERMS.

This Agreement details the terms and conditions regarding your application for a Certificate. If the Certification Authority (referred herein as "CA," as defined below) accepts your Certificate application, then this Agreement binds you, the "Subscriber" of the Certificate, and the CA into a legally-binding contract governing your use of the Certificate. (If the Subscriber is an entity, then "you" refers to that entity.) A Certificate is an electronic credential that uses public key cryptography. Each holder of a Certificate has a public/private key pair. The private key, which is held securely by the holder, is used for creating digital signatures. The public key, which may be widely distributed, is used to enable others to verify digital signatures created by the holder of the private key. In order to rely on a public key, it is necessary that it be certified by an entity called a Certification Authority. The CA binds a Subscriber's public key to his or her identity, certifies the public key and creates an electronic credential called the Certificate.

Some public key infrastructures may offer distinct classes of certification services. Each class of Certificates provides

Obtain WIPO Digital Certificate

- You will receive 2 emails
- Click the link in the second email and insert the PIN from the email to obtain your certificate

The screenshot shows a web form titled "WIPO Digital ID Services" with a sub-section "Pick Up Digital ID". The form contains the following text:

Important: To complete this step, you must use the same computer you used to submit the enrollment form.
You need the Personal Identification Number (PIN) to complete this step. You received it in an e-mail message that was sent immediately after you submitted the enrollment form. This was sent by the administrator to the e-mail address entered in the enrollment form.

Copy (Ctrl + c) the PIN number from the e-mail, paste (Ctrl + v) it into the box below, and click **SUBMIT**.

After you submit the PIN, it will take up to three minutes to generate the Digital ID. Do not interrupt the browser until there is a response.

Enter the Personal Identification Number (PIN):

Submit

At the bottom, there is a copyright notice: "Copyright © 1998-2010, VeriSign, Inc. All rights reserved." and the VeriSign Trust Network logo.

- The certificate is automatically installed in your browser

Upload certificate to WIPO account

ePCT Portal

The ePCT system offers two distinct types of online services:

- ePCT *public* services, requiring the creation of a standard WIPO user account, enable the upload of documents, access to documents previously uploaded by the account holder and the use of the third party observation service.
- ePCT *private* services, requiring additional authentication by uploading a digital certificate to a WIPO user account, provide a full suite of functions to authorized users for international applications filed as 1 January 2009.

WIPO's Secure Services

 **The security of your data depends on you using the system correctly.**

By uploading this digital certificate, you agree to take responsibility for ensuring the security of information in WIPO's system. Under these conditions, you cannot upload the certificate required to use WIPO's secure services.

- The WIPO account to be secured by this digital certificate will only be used by one person, namely, the account holder.
- Each digital certificate may only be associated with a single WIPO account at any given time.
- Both the digital certificate and the login details for the WIPO account must be kept secure and not be shared with anyone else.
- If you delegate "eOwner", "eEditor" or "eViewer" access rights to another person, you are responsible for ensuring that they are used as for maintaining such access rights, for example, if ownership of the application changes or if a person with access rights is no longer available.
- If you suspect that your account is being accessed by someone else, or if there are problems with access rights, you should report this to WIPO immediately.

IMPORTANT: You must make a backup of your digital certificate to be able to access ePCT private services after a system update. A step-by-step user guide is available at: <http://www.wipo.int/pct-safe/en/certificates.html>.

New account in demo

The screenshot shows the WIPO PCT demo interface. At the top left is the WIPO PCT logo with the text 'The International Patent System'. To the right is the word 'DEMO'. Further right, there is a user profile for 'Peter Waring' with a 'Logout' link and a 'CONTACT US' link. Below this is a dark red header with 'WORLD INTELLECTUAL PROPERTY ORGANIZATION'. The main content area shows the current time in Geneva, Switzerland, and a search bar for 'IA Number'. A navigation menu includes 'ePCT', 'eOwnership', 'Notifications', 'My History', 'Portfolios', 'Workbench', 'ePCT-Filing', and 'Draft Actions'. Below the menu is a 'Show Filter' button and a search results area showing 'Items 0 of 0' and '0 results found'. Two teal arrows point to the 'Workbench' and 'ePCT-Filing' buttons. At the bottom left, there is a 'Go to top' link. At the bottom right, there is a 'Version 2.12.011 # 100 | Terms of use' link.
