Traditional patent systems

- Local patent application followed within 12 months by multiple foreign applications claiming priority under Paris Convention:
 - multiple formality requirements
 - multiple searches
 - multiple publications
 - multiple examinations and prosecutions of applications
 - translations and national fees required at 12 months
- Some rationalization because of regional arrangements:
 - ARIPO, EAPO, EPO, OAPI

PCT system

Local patent application followed within 12 months by international application under the PCT, claiming Paris Convention priority, with “national phase” commencing at 30 months*:

- one set of formality requirements
- international search
- international publication
- international preliminary examination
- international application can be put in order before national phase
- translations and national fees required at 30 months,* and only if applicant wishes to proceed

* For exceptions, see http://www.wipo.int/pct/en/texts/reservations/res_incomp.html

Introduction-4

General remarks on the PCT system (1)

- The PCT system is a patent “filing” system, not a patent “granting” system. There is no “PCT patent”
- The PCT system provides for
 - an international phase comprising:
 - filing of the international application
 - international search and written opinion of the ISA
 - international publication and
 - international preliminary examination
 - a national/regional phase before designated Offices
- The decision on granting patents is taken exclusively by national or regional Offices in the national phase

General remarks on the PCT system (2)

- Only inventions may be protected via the PCT by applying for patents, utility models and similar titles.
- Design and trademark protection cannot be obtained via the PCT. There are separate international conventions dealing with these types of industrial property protection (the Hague Agreement and the Madrid Agreement and Protocol, respectively).
- The PCT is administered by WIPO as are other international treaties in the field of industrial property, such as the Paris Convention.

Non-applicability of time limit of 30 months under Article 22(1)

- The Offices of the following States have notified the International Bureau that they will not apply the 30 month time limit under Chapter I, as of 1 April 2002, for as long as modified Article 22(1) is not compatible with their national law:
 - LU Luxembourg
 - TZ United Republic of Tanzania
 - UG Uganda
- Where one of these States has been designated for the purposes of a regional patent, the applicable time limit is 31 months
- If no demand for international preliminary examination is filed before the expiration of 19 months in respect of above States, the national phase will have to be entered before the expiration of 20 or 21 months from the priority date

Basics of the PCT

- The international application
- The international filing date
- The applicant
- Competent RO and ISA

The international application

- Only one application filed, containing, by default, the designation of all States (for every kind of protection available) and usual priority claim(s)
- Has the effect of a regular national filing (including establishment of a priority date) in each designated State: the international filing date is the filing date in each designated State
- Filed in one language
- Filed with one office
- One set of formality requirements
- Delays national processing until 30 months from the priority date (for exceptions, see www.wipo.int/pct/en/texts/reservations/res_incomp.html)

Minimum requirements for an international filing date (Article 11(1)) (1)

- The application must contain at least:
 - an indication that it is intended as an international application
 - a request which has the effect of making all possible designations (Article 4 and Rules 3 and 4.9)
 - the name of the applicant (Rule 4.5)
 - a description (Rule 5)
 - a claim (Rule 6)

Basics-3
25.10.2013

WIPO | PCT
The International
Patent System

Minimum requirements for an international filing date (Article 11(1)) (2)

- Note that if:
 - none of the applicants have the right to file with the receiving Office for reasons of residence or nationality (Rules 18 and 19); or
 - the application is filed in a language not accepted by the receiving Office for that purpose (Rule 12.1),the receiving Office will transmit the application to the receiving Office of the International Bureau for further processing (Rule 19.4)

Basics-4
25.10.2013

WIPO | PCT
The International
Patent System

Not required for obtaining an international filing date

- Payment of fees
- Applicant's signature
- Title of the invention
- Abstract
- Drawings (for missing drawings, see Article 14(2) and Rule 20.5)
- Translation into language of search or publication

The PCT applicant (Article 9 and Rule 18)

- The applicant may be a natural person (e.g. the inventor) or a legal entity (e.g. company, university, NGO) (also for the US since 16 September 2012)
- It is possible to indicate different applicants for different designated States (Rule 4.5(d))
- At least one of the applicants must be a national or resident of a PCT Contracting State (Rule 18.3)

Where to file the international application (Rule 19)

- With a national Office
- With the International Bureau of WIPO, or
- With a regional Office

For details, see PCT Applicant's Guide, International Phase, General Information, Annexes B1 and B2

Choice of receiving Office

Considerations:

- Accepted filing languages
- Choice of International Searching Authorities
- Criteria for restoration of the priority right and fee to be paid
- Possibility to incorporate by reference
- Acceptance of pre-conversion files

Which ISA(s) is (are) competent (Rule 35)

- The competent ISA(s) is (are) specified by the RO
- If more than one is specified by the RO, the applicant has the choice:
 - in making that choice, the applicant must take into account the language(s) accepted by the ISA (a translation of the international application for the purposes of international search may be required in certain cases (Rule 12.3))
- If the international application is filed with RO/IB, the competent ISAs will be those which would have been competent if the international application had been filed with (any of) the national or regional Office(s) which, on the basis of applicant's nationality or residence, could be a competent RO
- Choice of ISA to be indicated in the request (Box No. VII)

Elements making up the international application

- Request (Article 3(2))
- Description (Article 3(2))
- One or more claims (Article 3(2))
- Abstract (may be filed later without affecting the international filing date) (Articles 3(2) and 3(3))
- Drawings (where applicable) — later submission may, subject to certain conditions, result in a later international filing date (Articles 3(2) and 14(2))
- Sequence listing part of description (where applicable) (Rule 5.2(a))
- Indications containing references to deposited microorganisms or other biological material (some designated Offices (e.g. Japan) require that they be in the description or in the international application on the international filing date) (Rule 13*bis*)

Elements which may accompany the international application

- Translation of the international application for the purposes of international search or international publication — may be furnished later without affecting the international filing date (Rules 12.3 and 12.4)
- Separate power of attorney or copy of general power of attorney — may be filed later without affecting the international filing date (Rules 90.4 and 90.5)
- Priority document(s) — may be furnished until the date of international publication (Rule 17.1)
- Sequence listing in electronic form complying with the Standard set out in Annex C of the Administrative Instructions—may be furnished later directly to the ISA without affecting the international filing date but subject to a late furnishing fee (Rule 13*ter*)
- Separate indications concerning deposited biological material that are not part of the international application, for ex., Form PCT/RO/134 (Rule 13*bis*)

WIPO | PCT
The International
Patent System

Filing-3
19.05.2015

The request (1)

- Electronic filing of the international application
 - ePCT-Filing
 - PCT-SAFE fully electronic
 - Other filing means provided by the receiving Office

WIPO | PCT
The International
Patent System

Filing-4
19.05.2015

The request (2)

- Printed request form (Form PCT/RO/101)
 - Available on Internet
(<http://www.wipo.int/pct/en/forms>)
- Computer print-out (Rules 3.1 and 3.4, Section 102(h))
 - For integration with in-house computer systems
 - Layout and content shall correspond to the paper form (minor adjustments permitted)

Concept and operation of designation system (Rule 4.9)

- Automatic and all-inclusive designation of all PCT Contracting States
 - exceptions to the all-inclusive designation possible for DE, JP and KR (countries with particular rules on “self-designation”)
 - but only if the international application contains a priority claim to an earlier application filed in the State that is to be excluded
 - otherwise withdrawals of designations possible
- Choice of types of protection postponed until national phase entry (e.g. patent or utility model, national or regional patent)
- “Parent” information (continuation applications, patents of addition) may be included in PCT request form for search purposes

Signature of the request (1) (Rules 4.15, 26.2bis(a))

- In principle, the request must be signed by all persons (legal entity or natural persons) indicated as “applicant” or “applicant and inventor”

BUT: if only one of the applicants signs, the lack of signature of the other applicants will not be considered a defect

WARNING: Any notice of withdrawal would have to be signed by or on behalf of all applicants (including applicant/inventors)

NOTE: DOs are entitled to require confirmation of the international application by the signature of any applicant for the DO who has not signed the request

Signature of the request (2) (Rules 4.15, 26.2bis(a))

- Signature by a person not named as applicant
(FOR---ON BEHALF OF---AS AUTHORIZED SIGNATORY OF)
depends on national law applied by receiving Office:
 - either an officer or employee of a legal entity (an officer or employee who does not have to be a patent attorney or patent agent)
 - or a legal representative, if the applicant is a natural person who is incapacitated
 - or a legal representative, if the applicant is a bankrupt company
- A person indicated as “inventor only” need not sign the request

Signature of the request (3) (Rules 4.15, 26.2bis(a))

- If the request is not signed by the applicant(s) but by an agent, a separate power of attorney signed by all the applicant(s) must be filed (either original individual power or copy of general power)

BUT: if only a power of attorney signed by one applicant is filed, the lack of powers of attorney signed by the other applicants will not be considered a defect

NOTE: ROs may waive requirement that a separate power or a copy of a general power of attorney must be submitted

Physical requirements of the international application (Rule 11) (1)

- A4 size paper for all the sheets (Rule 11.5)
- Line spacing: 1 1/2 for pages of text in description, claims and abstract (Rule 11.9(c))
- Minimum and maximum margins for the sheets of text and drawings (Rule 11.6)
- Indication of the applicant's or agent's file reference (Rule 11.6(f) and Section 109)
 - 12 characters maximum
 - in the upper left-hand corner of the sheet
 - within 1.5 cm of the top of the sheet

Physical requirements of the international application (Rule 11) (2)

- Numbering of the sheets (Rule 11.7, Sections 207 and 311)
 - centered at the top or bottom of the sheets, not in the margin
 - 4 series: request
description, claims, abstract
drawings (if any)
sequence listing part of the description (if any)
- Special requirements for drawings (Rule 11.13)

Recommendation: no text matter in the drawings (avoids problems with translations for national phase)

Declarations referred to under Rule 4.17: Additional issues

- National forms should not be used for declarations in the international phase (for instance, a combined declaration of inventorship/ power of attorney) since they do not use the standardized wording
- When a declaration is furnished after the international filing date, no further page fee would be required
- If a defective declaration is not corrected during the international phase:
 - does not affect the processing of the declaration by the International Bureau
 - DOs/EOs may accept defective declaration
- No provision for the withdrawal of declarations

Agents (Rule 90)

■ Who can act as agent?

- any person (attorney, patent agent, etc.) who has the right to practice before the RO can act as agent and automatically has the right to practice before the IB, the ISA and the IPEA (Article 49);
- an agent who has the right to practice before the ISA and/or IPEA can be appointed specifically for the purposes of the procedure before that ISA or IPEA (Rule 90.1(b) and (c));

- an agent appointed by all the applicants

Common representatives (Rule 90)

- Who can act as common representative?
 - one of the applicants, who is entitled to file an international application (i.e., who is a resident or national of a PCT Contracting State), may be appointed by all the other applicants, or
 - where neither a common agent nor a common representative has been appointed, the first named applicant in the request who is entitled to file an international application with the RO with which the international application was filed is automatically “deemed” to be common representative

Agents and common representatives (Rule 90)

- Any act by or in relation to a common agent or a common representative has the effect of an act by or in relation to all the applicants, except for:
 - a withdrawal made by a “deemed” common representative (Rules 90.3(c) and 90*bis*.5; and,
 - where an RO does not require that powers of attorney have to be submitted (Rules 90.4 and 90.5), a withdrawal made by an agent or common representative who has not submitted powers signed by all applicants (Rule 90*bis*.5)

Appointment of agents and common representatives (Rules 90.4 to 90.6)

- Agents and common representatives may be appointed in any of the following ways:
 - in the request or, under Chapter II, in the demand;
 - in a separate power of attorney relating to a given international application;
 - in a general power of attorney relating to all international applications filed in the name of the applicant.
- General powers of attorney are to be filed with the RO or, where applicable, with the ISA or IPEA.
- For provisions on revocation of appointment of agents and renunciation by an agent of his appointment, see Rule 90.6

 - a separate power of attorney; and/or
- RO, ISA and IPEA may waive the requirement that
 - a copy of a general power of attorney has to be furnished
- Any Office or Authority that has waived the requirement in general may nevertheless require that a power of attorney be furnished in particular instances
- For the table of Offices that made such a waiver, see www.wipo.int/pct/en/texts/pdf/p_a_waivers.pdf

Agent of the appointed common representative

- Applicant A (e.g. corporate applicant), who has been appointed by the other applicants (e.g. applicants/inventors) as their common representative, appoints agent X
- Agent X can, on behalf of the appointed common representative, sign all documents for all applicants including any withdrawal (Rule 90.3(c)), provided that where a PCT Authority has waived the requirement that powers of attorney have to be submitted, such powers are on file

Priority Claims

- PCT requirements
- Priority documents
- Correction/Addition of priority claims
- Restoration of the right of priority

The right of priority (1) (Article 4 of the Paris Convention)

- Any filing of an application for a patent by an applicant in one member country, entitles that applicant (or his successor in title) to have certain rights when applying for patent protection in all other member countries within 12 months
- For prior art purposes, the later applications will be regarded as having been filed on the same date as the first application
- The right of priority can be based only on the first filed application on the subject matter (see Paris Convention Art.4C(4) for exception)

The right of priority (2) (Article 4 of the Paris Convention)

- Multiple and partial priorities may be claimed
- The later application must concern the same subject as the first application the priority of which is claimed
- Withdrawal, abandonment or rejection of the first application does not destroy its capacity to serve as a basis for priority

Claiming priority (PCT Article 8, Rule 4.10)

- The international application may contain a declaration claiming the priority of one or more earlier applications
 - filed in or, by way of a regional or international application, for any country party to the Paris Convention and/or
 - filed in any Member of the World Trade Organization (WTO) that is not party to the Paris Convention

Priority date (PCT Article 2(xi))

- The priority date for the purposes of computing time limits means:
 - where the international application contains a priority claim, the filing date of the application whose priority is claimed
 - where the international application contains several priority claims, the filing date of the earliest application whose priority is claimed
 - where the international application does not contain any priority claim, the international filing date

Correction/addition of priority claims

- What can be the problem?
 - missing priority claim
 - missing priority date
 - missing indications of the date, number or country of filing
 - filing date of earlier application more than 12 months before the international filing date
 - earlier filing not in a country party to the Paris Convention or a Member of WTO
- Applicable provisions:
 - Article 8
 - Rules 4.10, 26*bis*, 48.2(a)(vii) and 91

Correction/addition of priority claims affecting the priority date (Rule 26bis) (1)

■ Cases concerned:

- adding a priority claim with an earlier filing date than any priority claim present in the application
- correction of the filing date of the earliest priority claim

Correction/addition of priority claims affecting the priority date (Rule 26bis) (2)

■ Applicable time limit:

- within 4 months from the international filing date; or
- possibly later, if the earlier of the following two time limits expires later than the 4-month time limit:
 - 16 months from the priority date before the correction or addition
 - 16 months from the priority date after the correction or addition
- any correction received before the RO or IB has declared the priority claim to be void and not later than one month after the expiration of the above time limit, will be considered as timely received (Rule 26bis.2(b))

Correction/addition of priority claims not affecting the priority date (Rule 26bis) (1)

■ Cases concerned:

- corrections which do not affect the filing date of the priority claim
- adding a priority claim with a later filing date than the earliest priority claim present in the application (e.g. second priority claim)
- corrections of the filing date of a priority claim which is not the earliest one

Correction/addition of priority claims not affecting the priority date (Rule 26bis) (2)

■ Applicable time limit:

- Rule 26bis.1(a):
 - within 4 months from the international filing date; or
 - within 16 months from the priority date, whichever time limit expires later
 - any correction received before the RO or IB has declared the priority claim to be void and not later than one month after the expiration of the above time limit, will be considered as timely received (Rule 26bis.2(b))

NOTE: This does not apply to late additions of priority claims

- Rule 91: within 26 months from the priority date

Invitation to correct by RO or IB (1)

■ Forms:

- receiving Office: Form PCT/RO/110
- International Bureau: Form PCT/IB/316

■ Invitation (Rule 26*bis*.2(a)), is issued if:

- priority claim does not comply with requirements of Rule 4.10
- any indication in the priority claim is inconsistent with the corresponding indication appearing in the priority document
- International application has an international filing date outside the priority period

Invitation to correct by RO or IB (2)

- The RO will also draw the attention of the applicant to the possibility to request restoration of the priority right (Rule 26*bis*.3) if the international filing date is outside of the priority period but within a period of two months from the date of expiration of the priority period
- If the applicant does not correct the priority claim in response to the invitation, the priority claim concerned will be considered void, for the purposes of the procedure under the PCT (Rule 26*bis*.2(b))

Invitation to correct by RO or IB (3)

- However, a priority claim will not be considered void only because (Rule 26*bis*.2(c)):
 - the indication of the number of the earlier application is missing; or
 - an indication in the priority claim is not the same as the corresponding indication appearing on the priority document; or
 - the international filing date is outside of the priority period but within a period of two months from the date of expiration of the priority period

Invitation to correct by RO or IB (4)

- The finding that the priority claim is considered void for the purposes of the procedure under the PCT, would not prevent any designated Office from recognizing such a priority claim for the purposes of the national phase if so permitted or required by national law
- Warning to third parties: different priority dates may apply in different designated States (Rules 26*bis*.2(d) and 48.2(a)(ix))

Publication related to priority claims (1)

■ Information concerning a priority claim considered void or only not considered void because:

- the number was missing
- inconsistency with the indications on priority document
- the international filing date is outside of the priority period but with a period of two months from the date of expiration of the priority period

will be published by the International Bureau free of charge together with, where applicable, information furnished by the applicant concerning such priority claims

Restoration by RO Communication of documents to the IB

- **General Rule:** Obligation of the RO to forward to the IB all documents received from the applicant in relation to a request to restore the priority right
- **Exception:**
 - Upon reasoned request by the applicant or on its own decision, the RO may not forward information, if
 - it does not obviously serve the purpose of informing the public about the international application,
 - publication of or public access to such information would clearly prejudice the personal or economic interests of any person, and

Effects of restoration in the national phase (Rule 49*ter*.1)

- Effect of restoration by RO in the national phase:
 - RO restoration based on the “due care” criterion is effective in all DOs
 - RO restoration based on the “unintentional” criterion is effective in those DOs which apply that criterion (or a more lenient one)
 - RO restoration is not conclusively binding on DOs: limited review by DOs is possible
 - RO refusal to restore is not binding on DOs

- The description, claims or drawings do not comply with the prescribed requirements to such an extent that a meaningful search cannot be carried out in respect of any of the claims (Article 17(2)(a)(ii))

Written opinion of the ISA (Rule 43bis) (1)

- Initial preliminary non-binding opinion on:
 - novelty (not anticipated)
 - inventive step (not obvious)
 - industrial applicability
- A written opinion will be established for all international applications at the same time as the ISR
- The written opinion is sent to applicant and the International Bureau together with the ISR

Written opinion of the ISA (Rule 43bis) (2)

- The written opinion is made publicly available on PATENTSCOPE in its original language as of the date of publication of the international application
- No formal procedure for applicants to respond to written opinion of the ISA
- Possibility to submit informal comments to the International Bureau
 - They are made publicly available together with the written opinion in their original language
 - They are communicated to the DOs together with the IPRP (Chapter I) if and when it is sent
- Note: The IPRP Chapter I and its translation are established at 30 months from the priority date

Prior art for written opinion of the ISA (Rules 43bis.1(b) and 64.1)

- Prior art:
 - same as for international search purposes; BUT:
 - relevant date: everything made available to the public prior to the priority date
- The ISA may request a copy of a priority document from the International Bureau (Rule 66.7(a)); however, even if, at the time of establishment of the written opinion of the ISA, a copy cannot be made available to the ISA, the written opinion will nevertheless be established on the assumption that the priority date is the relevant prior art date, except if the applicant had failed to comply with his obligations under Rule 17.1

Objectives

- To address PCT applicants' concerns about new prior art being found once they have already incurred significant costs and entered national phase
- To reduce this risk by introducing optional supplementary searches in the PCT international phase
- To expand the scope of search in the international phase taking into account the growing linguistic diversity in prior art

Main Features

- An optional service for applicants,
 - it is currently offered by: AT, EP, FI, RU, SE, SG, XN and XV
 - more Authorities are expected to offer SIS in the future
- An applicant can request supplementary search by any Authority offering this service, except the one responsible for main international search
- Each Authority determines the scope and fees for its supplementary search
- Supplementary international search (SIS) covers only one invention – there is no option for paying additional fees

WIPO | PCT

SIS-3

Deciding When to Use the Service (1)

- The main international search report is intended to be of a high quality, sufficient for normal purposes
- Consequently, this service need not be used for every international application, but to give extra information in some cases where the applicant believes that this additional expense in the international phase will be worthwhile
- Before requesting supplementary search, applicants should consider:
 - the main international search report
 - the commercial value of particular application
 - the number of disclosures relevant to the particular technical field which are known to be made in languages that are not a speciality of the main ISA

WIPO | PCT
The International
Patent System

SIS-4
05.07.2016

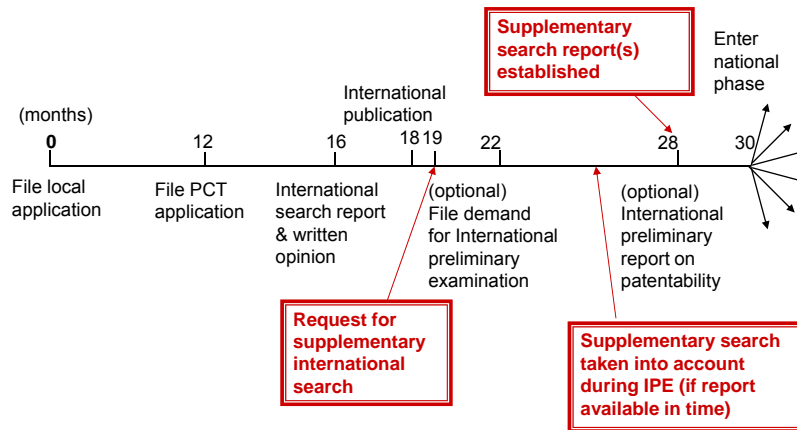

Deciding when to Use the Service (2)

- Interest in a search being carried out by a particular International Authority (free choice of SISA)
- Interest in a search being carried out in prior art documents in a particular language
- Interest in a particular subject matter not searched by the main ISA in accordance with Article 17(2) (e.g. methods of treatment, Rule 39.1(iv))

Timing and Fees

- The supplementary search request must be filed with the **International Bureau** within 19 months from the priority date
- Fees must be paid **in Swiss francs within 1 month** of filing the request:
 - supplementary search fee*
 - supplementary search handling fee*
- The Authority begins SIS on receipt of the request and international search report (ISR), or 22 months from the priority date, at latest, if the main ISR is late
- The SIS Report is established by 28 months from the priority date

Supplementary Search Request (1)

- The request must be filed using the supplementary search request Form PCT/IB/375, specifying
 - which Authority is to carry out the supplementary search
 - (in certain circumstances - see Unity of Invention) which claims are to be searched

- The request may need to be accompanied by:
 - a translation of the international application into a language accepted by the Authority*
 - any sequence listing in electronic format*

Supplementary Search Request (2)

- There is no requirement that an agent be appointed to represent the applicant before the Authority specified for supplementary international search; applicants may, however, appoint an agent if they so wish
- A late payment fee may also apply if fees are not paid within one month and the IB issues an invitation to pay fees (Form PCT/IB/377)
- The request is considered withdrawn if the fees for supplementary search are not paid

Unity of Invention

- Only one invention is searched – there is no option of paying additional fees for additional inventions
- Usually the first claimed invention is searched, but if the main ISA has found lack of unity of invention, the applicant may request supplementary search to focus on an invention other than the first
 - note that the Authority is not obliged to search inventions which have not been searched by the main ISA (Rule 45bis.5(d))
- The Authority is not obliged to follow the views of the main ISA on unity of invention
- A review procedure is available which is similar to the “protest” procedure for the main search

Scope of Search (1)

- Supplementary search is carried out on the claims as filed, usually on the first claimed invention (Article 19 and 34 amendments are not taken into account)
- The Authority is not required to search:
 - subject matter which it would not normally search in accordance with Article 17(2)
 - claims which have not been searched by the main ISA
 - any international application which is subject to a limitation set out in the Agreement between WIPO and the Authority defining the scope of their service (see www.wipo.int/pct/en/access/isa_ipea_agreements.html)
 - limitation of number of supplementary searches carried out
 - limitation of number of claims searched

WIPO | PCT
The International
Patent System

SIS-11
05.07.2016

Scope of Search (2)

- The range of prior art to be searched is determined by the Authority
 - the search may be either a new search which takes into account all PCT minimum documentation as well as documents held in other languages by that Authority or
 - the search may be a complement to the main search, typically including a subset of language-related documentation held by that Authority

Supplementary International Search Report

- The supplementary international search report (Form PCT/SISA/501) is very similar to the ISR, but:
 - it does not contain the classification of the international application or comments on the title and abstract
 - it need not contain citations of documents contained in the ISR unless cited in conjunction with a new reference not cited in the ISR
 - it may contain explanations regarding:
 - citations that are considered relevant (these are more detailed than references in the ISR)
 - the scope of the SIS (particularly where the ISR is late and assumptions have been made on the likely scope of main search)
- No written opinion is issued with the supplementary international search report

Refunds When No Search Is Carried Out

What is a demand?

- The demand is a request for International Preliminary Examination under Chapter II of the PCT
- International Preliminary Examination is an optional procedure that provides for continued examination of the PCT application before an International Preliminary Examining Authority (IPEA)
- Filing a demand constitutes the automatic “election” of all designated PCT Contracting States

Why file a demand? (1)

- Provides an opportunity during international preliminary examination to make amendments to the description, claims and drawings
- Can submit arguments to address patentability objections raised by the ISA
- International preliminary examination is the final opportunity to obtain a more positive patentability assessment during the international phase

Why file a demand? (2)

- Results in the establishment of an International Preliminary Report on Patentability (Chapter II)
- Likelihood of more favorable treatment in the national phase on the basis of a positive patentability report

Who is entitled to make a demand? (Article 31(2)(a) and Rule 54.2)

The applicant, or if there are two or more applicants, at least one of them,

- who is a resident or national of a PCT Contracting State, and
- whose international application has been filed with a receiving Office of or acting for a Contracting State (currently all States)

The demand form

- ePCT
- Electronic filing software provided by the IPEA
- Printed demand form (PCT/IPEA/401)
- Computer-generated demand (Rule 53.1(a) and Section 102(h) and (i))
 - Same requirements regarding layout and contents as for request form

The demand for international preliminary examination: contents (Rule 53)

- The demand must contain the following indications:
 - a petition
 - particulars enabling the international application to be identified (for example, the international application number)
 - the name of the applicant(s) under Chapter II
 - where appropriate, the name of the agent
 - the basis on which international preliminary examination should be carried out (a statement concerning amendments)
 - the language for the purposes of international preliminary examination
 - the signature of (at least one of) the applicant(s) or of the agent

Signature of demand (Rule 53.8)

- If these applicants have appointed an agent or a common representative, that agent or common representative may sign
- If there is no appointed agent or common representative, it is sufficient that the demand is signed by at least one of the applicants (see Rule 60.1(a-ter))
- Note that some Authorities do not require that a separate power of attorney or a copy of a general power of attorney is furnished (Rules 90.4 and 90.5)

Where to file the demand? (Rule 59) (1)

- Directly with the competent IPEA
 - specified by the RO
 - if more than one is specified by the RO, applicant has the choice
- In making his choice, the applicant must take into account
 - the language(s) accepted by the IPEA
 - that some IPEA(s) accept only international applications which have been searched by certain ISAs (that is the case, for example, of IPEA/EP)

Where to file the demand? (Rule 59) (2)

- If the international application was filed with IB as RO, the competent IPEAs will be those which would have been competent if the international application had been filed with (any of) the national Office(s) which, on the basis of applicant's nationality or residence, could be a competent RO
- Choice of IPEA should be indicated in the demand

Transmittal of demand to competent IPEA (Rule 59.3)

- Where a demand is submitted to a non-competent IPEA or to a RO, an ISA or the IB, that Authority or Office must:
 - mark the date of receipt on the demand and,
 - either forward it to the IB, which will in turn transmit it to the competent IPEA (or, if more than one, to the competent IPEA chosen by the applicant)
 - or transmit it directly to the competent IPEA (or, if more than one, to the competent IPEA chosen by the applicant)
- Any demand so transmitted to the competent IPEA will be considered to have been received on behalf of that Authority on the date on which it was received by the RO, ISA or IB or the non-competent IPEA concerned

 - 22 months from the priority date
- In respect of designated Offices for which the 20-month time limit under Article 22(1) continues to apply, prior to the expiration of 19 months from the priority date, in order to delay national phase from 20 to 30 months from the priority date

Demand-12
30.07.2014

When should a demand be filed? (Rule 54bis.1(a)) (2)

■ Recommendation:

Upon receipt of the international search report and the written opinion of the ISA, evaluate the cited prior art documents and decide whether to proceed further, and if so, file the demand as soon as possible thereafter together with any amendments/arguments in light of the written opinion, thus allowing maximum time prior to issuance of international preliminary examination report (i.e, usually 28 months from the priority date)

Defects under Chapter II (1)

- Defects whose correction results in a later filing date of the demand
 - no eligible applicant for filing the demand (Rule 54.2)
 - international application not identifiable (Rule 60.1(b))
- A demand filed after the expiration of 19 months from the priority date but within the applicable time limit under Rule 54bis.1(a), is valid but entry into the national phase will not be postponed until 30 months (Article 39(1)(a)) for LU, TZ and UG

Defects under Chapter II (2)

- Defects which can be corrected without any adverse consequences:
 - demand not filed with a competent IPEA (Rule 59.3)
 - form of the demand (Rule 53.1)
 - indications relating to applicants and agents (Rules 53.4 and 53.5)
 - language of the demand (Rule 55.1)
 - lack of at least one signature (Rules 53.8 and 60.1(a-ter))
 - amendments under Article 34 referred to but not furnished (Rule 53.9(a)(i))

ePCT and the filing of a demand

- ePCT private services can be used to prepare and file a demand
- Fields are automatically populated
- Automatic validations are done at the time of preparation
- All accompanying documents may be attached, e.g., Article 19 amendments, Article 34 amendments, translations, etc.
- The International Bureau automatically transmits the demand to the competent IPEA

Chapter II correction procedure

- Invitation by the IPEA to correct defects (Rule 60.1)
- Invitation by the IPEA to pay missing fees (Rule 58*bis*)
- Further possibilities:
 - request rectification of obvious mistakes before IPEA (Rule 91)
 - request review by and use opportunity to correct before the designated or elected Offices (Articles 25, 26 and 39(3))

International preliminary examination (1)

- Results in the establishment by the IPEA of a non-binding opinion on
 - novelty (not anticipated) (Article 33(2) and Rule 64)
 - inventive step (not obvious) (Article 33(3) and Rule 65)
 - industrial applicability (Article 33(4))
- International preliminary examination provides an opportunity to make amendments and to address patentability issues raised by the ISA

International Preliminary Examination (2)

- Only claims relating to the invention(s) searched by the ISA will be examined by the IPEA (Rules 66.1(e) and 66.2(a)(vi))

Start of international preliminary examination (Rule 69.1)

- When the IPEA is in possession of:
 - the demand
 - the international search report (or the declaration under Article 17(2)(a)) and the written opinion of the ISA
 - the preliminary examination and handling fees

provided that the IPEA shall not start the international preliminary examination before the expiration of the applicable time limit under Rule 54bis.1(a) unless the applicant expressly requests an earlier start
- If the demand contains a statement about amendments, when copies of these amendments are available (see Rule 69.1(c), (d) and (e))
- If international preliminary examination is to be carried out on the basis of a translation of the international application, when that translation is available (see Rule 55.2(c))

Finding of lack of unity of invention (Rule 68)

- Same criteria as for international search (Rule 13 and paragraphs 10.20 to 10.59 of the International Search and Preliminary Examination Guidelines)
- Invitation by the IPEA to restrict the claims or to pay additional fees (which can be paid under protest)
- Applicant can select invention as “main invention” and those inventions for which additional fees are paid

Prior art for IPE (Rule 64.1) (1)

- What is considered prior art?

Everything made available to the public anywhere in the world by means of written disclosure (including drawings and other illustrations) provided that such making available occurred prior to the relevant date

Prior art for IPE (Rule 64.1) (2)

■ What is the relevant date?

- the date of the earlier application of which priority is claimed unless the IPEA considers that the priority claim is not valid for reasons other than the fact that the international filing date is later than the date on which the priority period expired, but is within two months from that date; or
- the international filing date of the international application in all other cases

Mandatory top-up search (Rule 66.1 *ter*)

- Aims at uncovering any prior art not available at the time when the ISR was established, in particular “secret” prior art (patent applications published on or after the date of establishment of the ISR but which have an earlier priority date)
- Exceptions:
 - Only in respect of claims for which the IPEA establishes an IPRP Chapter II
 - Where a search would serve no useful purpose, e.g. where the IPEA considers that the documents cited in the ISR are sufficient to demonstrate lack of novelty of the entire subject matter

Written opinion of IPEA (Rules 66.2 and 66.6)

- The written opinion of the ISA is considered to be the written opinion of the IPEA (exception: IPEA decides not to accept written opinions by certain other ISAs)
- Where the written opinion of the ISA is taken as the written opinion of the IPEA, no second written opinion has to be issued
- If a second written opinion is issued, the applicant may respond within the time limit fixed in that second written opinion
- Possibility to request an interview with the examiner at the IPEA (Rule 66.6)

Requirement of unity of invention (Rule 13)

- An international application must relate to
 - one invention only or,
 - if there is more than one invention, those inventions must be so linked as to form a single general inventive concept (Rule 13.1).
- Inventions are considered linked so as to form a single general inventive concept only when there is a technical relationship involving one or more of the same or corresponding “special technical features”.
- The expression “special technical features” means those technical features that define a contribution which each of the inventions, considered as a whole, makes over the prior art (Rule 13.2).

(For further details and examples, see paragraphs 10.20 to 10.59 of the International Search and Preliminary Examination Guidelines)

Lack of unity of invention before ISA (1) (Article 17(3) and Rule 40)

- Where there are several inventions, the first claimed invention (“main invention”) is always searched; further inventions are searched only if additional search fees are paid.
- The ISA will:
 - specify the reasons for the finding of lack of unity of invention (ISA/EP will send together with this notification the results of a partial search on the main invention); and
 - invite the applicant to pay, within one month from the date of the invitation, additional search fees and, if the applicant wishes to pay the additional fees under protest, a protest fee where applicable

Patent System

Unity-3

Lack of unity of invention before ISA (2) (Article 17(3) and Rule 40)

- Failure to pay additional fees does not affect the application; however, the additional inventions will not be searched and the written opinion will not contain a preliminary opinion on the unsearched claims; subsequently, the claims relating to unsearched inventions need not be examined by the IPEA
- No provisions for filing divisional applications during the international phase. This may only be done in the national phase before certain DOs (refer to applicable national law)

Protest procedure before the ISA (1) (Rule 40.2)

- If the applicant pays any or all additional fees under protest, the ISA carries out the search on the additional inventions and, in parallel, reviews the invitation to pay additional fees
- Depending on the ISA, the review may be subject to the payment of a protest fee
- If, upon review, the ISA concludes that the protest was justified, the additional search fees paid will be refunded either totally or partially; the protest fee will only be refunded if the ISA finds that the protest was entirely justified

Protest procedure before the ISA (2) (Rule 40.2)

- The applicant may request that the text of the protest and the decision thereon be notified to the designated Offices. (Attention: the designated Offices may require that the applicant furnish a translation thereof)

Lack of unity of invention before IPEA (Article 34(3)(a) and Rule 68)

- Unity of invention based on same criteria as for international search (Rules 13 and 68)
- If IPEA considers there is lack of unity of invention, it invites the applicant to restrict the claims or pay additional examination fees
- Applicant can select part of the application to be examined as “main invention” and for which additional fees are paid
- Payment of additional fees may be made under protest, subject to the payment of a protest fee
- Decision on protest made in same manner as for international search

Protest procedure before the IPEA (1) (Rule 68.3)

- If the applicant pays any or all additional fees under protest, the IPEA carries out the international preliminary examination on the additional inventions and, in parallel, reviews the invitation to pay additional fees.
- Depending on the IPEA, the review may be subject to the payment of a protest fee.
- If, upon review, the IPEA concludes that the protest was justified, the additional examination fees concerned will be refunded either totally or partially; the protest fee will only be refunded if the IPEA finds that the protest was entirely justified.

Form of publication

- Published international applications are available at www.wipo.int/patentscope/search/en/structuredSearch.jsf
- Official notices (PCT Gazette) are available at www.wipo.int/pct/en/official_notices/index.htm

Frequency of international publication

- International publication of international applications and publication of the Official Notices takes place every Thursday,
 - except where that Thursday is a day on which the International Bureau is not open for official business, for example, Ascension Day or the Thursday that follows the first Sunday of September and certain Thursdays in the Christmas/New Year period.
- In such cases, inquire at the International Bureau as to what will be the publication date (possibly, but not always, the preceding Wednesday).

Technical preparations for international publication

- The technical preparations for international publication are normally completed 15 calendar days before the actual publication date

For example: if the publication date is: Thursday, 21 January 2016, technical preparations are completed on Wednesday, 6 January 2016

Consequently, any document that reaches the International Bureau on Tuesday, 5 January 2016, is still taken into account for international publication (for example, change of name or address, amendment of the claims under Article 19, withdrawal of the international application or of a designation or of a priority claim)

- Technical preparations may be completed more than 15 days before the publication date where that publication date is not the “usual” Thursday because the International Bureau is not open for business or where there are a number of official holidays falling within that 15-day period. If in doubt, inquire at the International Bureau as to what will be the date of completion of technical preparations

Effects of international publication

- The PCT published application becomes part of the prior art as of its international publication date (Rule 34.1(b)(ii))
- International publication entitles PCT applicants to provisional protection in the designated States, if such protection is granted for published national applications (Article 29)
 - Such protection may be made conditional
 - on the furnishing of a translation (which may be of the claims only)
 - on receipt by the designated Office of a copy of the international application as published under the PCT, and/or
 - in the case of early publication under Article 21(2)(b), on the expiration of 18 months from the priority date
 - For further information on the specific requirements of a given Office, see the *PCT Applicant's Guide*, International Phase, General Information (Annexes B1 and B2)

How to make amendments (Rules 46.5 and 66.8)

- Where claims are amended under Article 19 or 34, they have to be presented in the form of replacement sheets containing a complete set of claims
- Applicants must indicate the basis for the amendments in the application as filed, otherwise the IPRP (Ch.II) may be established as if the amendments had not been made
- In case of cancelation of certain claims, no renumbering of the remaining claims is required

- Any later time limits under the national law apply
- Different amendments possible for different DOs and EOs
- Generally, any claims fee due for the national phase will be calculated on the basis of the number of claims valid at the time of entry into the national phase

Decisions to be taken by the applicant

- Whether
 - to proceed with or drop the international application ?
- When
 - at the end of 30 months (in some cases 31 months or more)

 - which regional Offices

* LU, TZ and UG continue to apply a 20-month time limit

Time limit for entry in the national phase

The time limit applies irrespective of possible delays in the international phase due to:

 - If the drawings contain text matter to be translated, a set of drawings containing the translated text matter needs to be furnished

 - 2 months from the date of removal of the cause of the failure to meet the time limit to enter national phase; or
 - 12 months from the date of expiration of the time limit to enter national phase;whichever period expires first

Reinstatement of rights by DO/EOs (Rule 49.6) (3)

- The national law applicable by some of these Offices may nevertheless provide for other forms of protection against loss of rights - for further details, see for each DO/EO, the relevant National Chapter in the *PCT Applicant's Guide*, National Phase

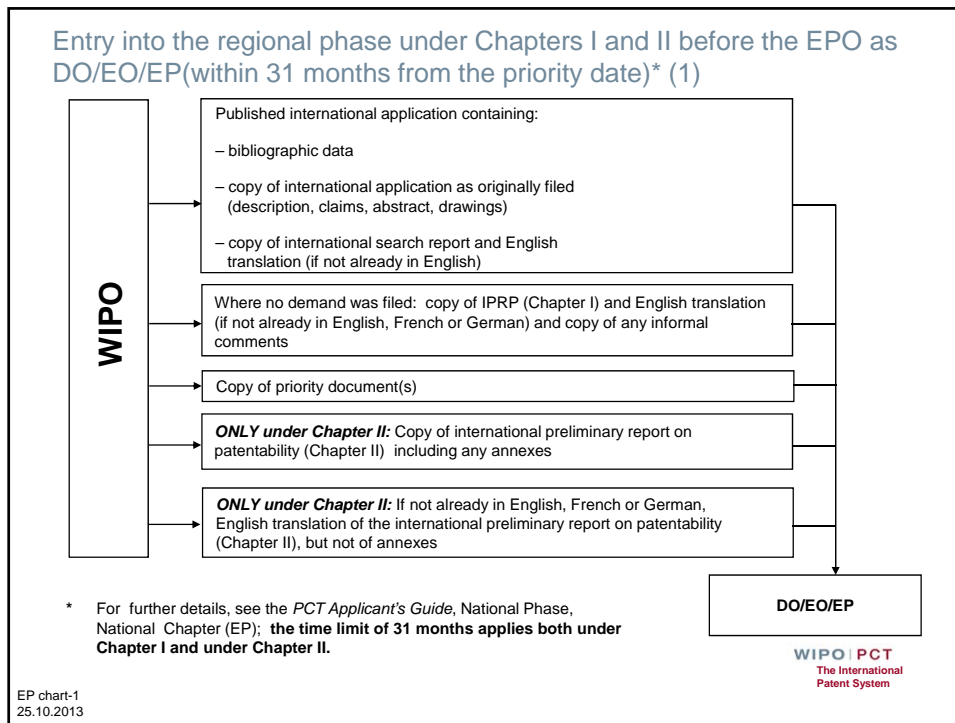

Additional cases of protection against loss of rights

- Other than the (minimum) protection under Rule 49.6: excuse of delays in meeting time limits by designated/elected Offices (Article 48 and Rule 82*bis*)
- Rectification by designated/elected Offices of errors made by RO or IB (Rule 82*ter*)
- Review by and opportunity to correct before the designated/elected Offices (Articles 24(2), 25, 26, 39(3) and 48, Rules 82*bis* and 82*ter*)

- withdrawal effective upon receipt by the RO or the IB
- withdrawal has no effect in DOs where national processing or examination has already started
- withdrawal of international application or designations:
 - effect ceases in each designated State concerned, with same consequences as withdrawal of a national application in that State
 - if notice of withdrawal received by the IB before completion of technical preparations for international publication, there will be no international publication (withdrawal can be made conditional on receipt in time to prevent publication)

Microbiological inventions

- Deposit of a sample in order to meet the requirement of full disclosure:
 - Many national laws require that, where a patent application refers to biological material which has not been made available to the public, a sample thereof be deposited with a recognized culture collection
- The Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure (Budapest Treaty)
 - provides for the recognition by its Contracting States of deposits made with any International Depositary Authority (IDA) under the Budapest Treaty
- The IDAs are recognized by all PCT Contracting States listed in Annex L of the *PCT Applicant's Guide*, whether they are Contracting States of the Budapest Treaty or not

When must the deposit be made?

- Many Offices require the deposit to be made before the filing date of the PCT application
- A late deposit, however, is no excuse for filing a PCT application claiming priority after the expiration of 12 months from the priority date (restoration of the right of priority may not work)
- Some Offices require that the deposit be made before the filing date of the application of which priority is claimed in the PCT application and that the priority application also makes reference to the deposited biological material, e.g. BY, CN, US

PCT Sequence Listing Standard (2)

- The Standard provides further details as to:
 - the symbols and the format which must be used for the presentation of nucleotide and/or amino acid sequences
 - with regard to other available information to be included in the sequence listing, the mandatory items which must, and the optional item which may, be included, and the order in which those items must appear
 - the presentation of features of sequences
 - the presentation of “free text”

PCT Sequence Listing Standard: presentation of free text (1)

- The Standard defines “free text” as a wording describing characteristics of the sequence which does not use “language neutral vocabulary”, that is, controlled vocabulary used in the sequence listing that represents scientific terms as prescribed by sequence database providers (including scientific names, qualifiers and their controlled vocabulary values, the symbols and the feature keys appearing in the Appendices to the Standard).
- Where the sequence listing part of the international application contains free text, that free text:
 - may, and preferably should, be in English (irrespective of the language of the main part of the description) (Rule 12.1(d))
 - must be repeated in the main part of the description (“Sequence Listing Free Text”) in the language thereof (ISA invites to furnish correction if not contained in main part of description as filed) (Rules 5.2(b) and 13ter.1(f))

- For the purposes of the national phase (Rule 49.5(a-bis)), no designated Office is entitled to require the applicant to furnish to it a translation of any text matter contained in the sequence listing part of the description if such text matter:
 - is presented in accordance with the Standard
 - is repeated in the main part of the description (and hence in any translation thereof)

Procedure where the sequence listing does not comply with the Standard (1)

- If the international application as filed does not contain:
 - a written sequence listing complying with the Standard; and/or
 - a sequence listing in electronic form complying with the Standard,the ISA invites the applicant to furnish to it a listing (in such format) complying with the Standard, unless such a listing is already available to it, and to pay to it, where applicable, a late furnishing fee (Rule 13*ter*.1(a) and (b))

Procedure where the sequence listing does not comply with the Standard (2)

- Any sequence listing which is not contained in the international application as filed but which is furnished subsequently must not go beyond the disclosure in the application as filed and must be accompanied by a statement to that effect (Rule 13*ter*.1(e))
- If the applicant does not comply with the invitation within the time limit fixed in the invitation, the ISA is not required to search the application to the extent that a meaningful search cannot be carried out without the listing (Rule 13*ter*.1(d))

Sequence listing for International Preliminary Examining Authority (Rule 13*ter*.2)

The requirements applicable in respect of the procedure before the ISA apply *mutatis mutandis* in respect of the procedure before the IPEA

Sequence listing for designated/elected Offices (Rule 13^{ter}.3)

- Once the processing of the international application has started before a designated/elected Office, the requirements applicable in respect of the procedure before the ISA (and IPEA) apply *mutatis mutandis* in respect of the procedure before that Office
- No designated/elected Office is entitled to require the applicant to furnish to it a sequence listing other than a sequence listing complying with the PCT Sequence Listing Standard

Sharing of Access Rights – eHandshake (1)

- First step in providing access to PCT applications
- Consists in the association and trusted recognition between different WIPO User Accounts
- eHandshakes do not directly result in shared access rights which have to be specifically assigned (default access rights options can be pre-defined)
- eHandshake screen is hosted in WIPO Accounts (your name at the top of the screen functions as a shortcut link, or select “My Account” from the cogwheel)

Sharing of Access Rights – eHandshake (2)

■ Request new eHandshake

- If you know the associate's customer ID, enter it in the corresponding field

The screenshot shows the 'eHandshakes' section of the WIPO PCT interface. On the left, there are navigation menus for 'WIPO ACCOUNTS', 'ePCT', 'FUNCTIONS', and 'HELP'. The main content area is titled 'eHandshakes' and includes a link for 'Initiate eHandshake'. Below this, it displays the current user's Customer ID as 'user_TT_LOMBARDI_TAMIRA_7595'. A section titled 'Request new eHandshake' prompts the user to 'Enter the Customer ID of the user to whom you want to send an eHandshake request:'. A text input field labeled 'Customer ID *' is provided, with a 'Request eHandshake' button below it.

- If you do not know the associate's customer ID, send yours by e-mail so that the associate can initiate the process

Types of Access Rights

■ eOwner

- Complete control over all aspects of the PCT application in ePCT
- May be the applicant, agent or other individual (e.g., paralegal, assistant, secretary) who actually filed the PCT application, or another individual to whom access rights were granted by an existing eOwner

■ eEditor

- Can do everything except assign access rights

■ eViewer

- “Look” but don’t “Touch”

Assigning and Managing Access Rights (1)

- An eOwner can assign/modify/remove access rights for other persons via the Workbench (e.g. for multiple applications) or via the Access Rights tab of each application

Assign New Rights

To assign rights to another person you must first have established an [eHandshake](#)

Assigning and Managing Access Rights (2)

- Access rights can be managed for multiple applications at the same time
- Access rights can be automatically assigned to default list of eHandshake users
- PCT applications should have more than one eOwner to facilitate access rights management and to ensure that at least one user has access to a PCT application
- Access rights should be removed for ePCT users no longer requiring access (e.g., change of applicant, change of agent, departure, etc.)
- Full history of all access rights modifications is available

Signatures

- ePCT access rights holders (eOwner or eEditor) are different from authorized signatories (applicant or agent)
- Applicant or agent may not necessarily be an eOwner or eEditor
- Applicant or agent signatures are required for ePCT-Filing and other PCT transactions, e.g., Rule 92*bis* changes, filing of Chapter II demand, Article 19 amendments, withdrawals
- Signature fields for the applicant or agent are indicated in ePCT

Workbench

- List of all PCT applications to which you have access (eOwner, eEditor, eViewer)
- The Workbench contains a number of columns
 - IA Number
 - IA Status
 - File Ref
 - [...]
- Various filter options can be applied to the Workbench
- Clicking on a PCT application will open up a detailed File View

File View (1)

- Access to the PCT file maintained by the International Bureau (documents plus up-to-date bibliographic data)
- Front-page preview
- My Comments (visible only to the current ePCT user)
- Warning (viewable to all users who have access rights)
- Information about the target date for international publication/republication
- Indications about the public availability of each document type
- Direct link to the PCT application in PATENTSCOPE (as of the publication date)
