## Traditional patent systems

- Local patent application followed within 12 months by multiple foreign applications claiming priority under Paris Convention:
  - multiple formality requirements
  - multiple searches
  - multiple publications
  - multiple examinations and prosecutions of applications
  - translations and national fees required at 12 months
- Some rationalization because of regional arrangements:
  - ARIPO, EAPO, EPO, OAPI

## Traditional patent system vs. PCT system

## PCT system

Local patent application followed within 12 months by international application under the PCT, claiming Paris Convention priority, with “national phase” commencing at 30 months\*:

- one set of formality requirements
- international search
- international publication
- international preliminary examination
- international application can be put in order before national phase
- translations and national fees required at 30 months,\* and only if applicant wishes to proceed

\* For exceptions, see [http://www.wipo.int/pct/en/texts/reservations/res\\_incomp.html](http://www.wipo.int/pct/en/texts/reservations/res_incomp.html)

## General remarks on the PCT system (1)

- The PCT system is a patent “filing” system, not a patent “granting” system. There is no “PCT patent”
- The PCT system provides for
  - an international phase comprising:
    - filing of the international application
    - international search and written opinion of the ISA
    - international publication and
    - international preliminary examination
  - a national/regional phase before designated Offices
- The decision on granting patents is taken exclusively by national or regional Offices in the national phase

## General remarks on the PCT system (2)

- Only inventions may be protected via the PCT by applying for patents, utility models and similar titles.
- Design and trademark protection cannot be obtained via the PCT. There are separate international conventions dealing with these types of industrial property protection (the Hague Agreement and the Madrid Agreement and Protocol, respectively).
- The PCT is administered by WIPO as are other international treaties in the field of industrial property, such as the Paris Convention.

## Non-applicability of time limit of 30 months under Article 22(1)

- The Offices of the following States have notified the International Bureau that they will not apply the 30 month time limit under Chapter I, as of 1 April 2002, for as long as modified Article 22(1) is not compatible with their national law:

LU	Luxembourg
TZ	United Republic of Tanzania
UG	Uganda

- Where one of these States has been designated for the purposes of a regional patent, the applicable time limit is 31 months
- If no demand for international preliminary examination is filed before the expiration of 19 months in respect of above States, the national phase will have to be entered before the expiration of 20 or 21 months from the priority date

## Basics of the PCT

- The international application
- The international filing date
- The applicant
- Competent RO and ISA

## The international application

- Only one application filed, containing, by default, the designation of all States (for every kind of protection available) and usual priority claim(s)
- Has the effect of a regular national filing (including establishment of a priority date) in each designated State: the international filing date is the filing date in each designated State
- Filed in one language
- Filed with one office
- One set of formality requirements
- Delays national processing until 30 months from the priority date (for exceptions, see [www.wipo.int/pct/en/texts/reservations/res\\_incomp.html](http://www.wipo.int/pct/en/texts/reservations/res_incomp.html))

## Minimum requirements for an international filing date (Article 11(1)) (1)

- The application must contain at least:
  - an indication that it is intended as an international application
  - a request which has the effect of making all possible designations (Article 4 and Rules 3 and 4.9)
  - the name of the applicant (Rule 4.5)
  - a description (Rule 5)
  - a claim (Rule 6)

## Minimum requirements for an international filing date (Article 11(1)) (2)

- Note that if:
  - none of the applicants have the right to file with the receiving Office for reasons of residence or nationality (Rules 18 and 19); or
  - the application is filed in a language not accepted by the receiving Office for that purpose (Rule 12.1),the receiving Office will transmit the application to the receiving Office of the International Bureau for further processing (Rule 19.4)

## Not required for obtaining an international filing date

- Payment of fees
- Applicant's signature
- Title of the invention
- Abstract
- Drawings (for missing drawings, see Article 14(2) and Rule 20.5)
- Translation into language of search or publication

## The PCT applicant (Article 9 and Rule 18)

- The applicant may be a natural person (e.g. the inventor) or a legal entity (e.g. company, university, NGO) (also for the US since 16 September 2012)
- It is possible to indicate different applicants for different designated States (Rule 4.5(d))
- At least one of the applicants must be a national or resident of a PCT Contracting State (Rule 18.3)

## Where to file the international application (Rule 19)

- With a national Office
- With the International Bureau of WIPO, or
- With a regional Office

For details, see PCT Applicant's Guide, International Phase, General Information, Annexes B1 and B2

## Choice of receiving Office

Considerations:

- Accepted filing languages
- Choice of International Searching Authorities
- Criteria for restoration of the priority right and fee to be paid
- Possibility to incorporate by reference
- Acceptance of pre-conversion files

## Which ISA(s) is (are) competent (Rule 35)

- The competent ISA(s) is (are) specified by the RO
- If more than one is specified by the RO, the applicant has the choice:
  - in making that choice, the applicant must take into account the language(s) accepted by the ISA (a translation of the international application for the purposes of international search may be required in certain cases (Rule 12.3))
- If the international application is filed with RO/IB, the competent ISAs will be those which would have been competent if the international application had been filed with (any of) the national or regional Office(s) which, on the basis of applicant's nationality or residence, could be a competent RO
- Choice of ISA to be indicated in the request (Box No. VII)

## Elements making up the international application

- Request (Article 3(2))
- Description (Article 3(2))
- One or more claims (Article 3(2))
- Abstract (may be filed later without affecting the international filing date) (Articles 3(2) and 3(3))
- Drawings (where applicable) — later submission may, subject to certain conditions, result in a later international filing date (Articles 3(2) and 14(2))
- Sequence listing part of description (where applicable) (Rule 5.2(a))
- Indications containing references to deposited microorganisms or other biological material (some designated Offices (e.g. Japan) require that they be in the description or in the international application on the international filing date) (Rule 13*bis*)

## Elements which may accompany the international application

- Translation of the international application for the purposes of international search or international publication — may be furnished later without affecting the international filing date (Rules 12.3 and 12.4)
- Separate power of attorney or copy of general power of attorney — may be filed later without affecting the international filing date (Rules 90.4 and 90.5)
- Priority document(s) — may be furnished until the date of international publication (Rule 17.1)
- Sequence listing in electronic form complying with the Standard set out in Annex C of the Administrative Instructions—may be furnished later directly to the ISA without affecting the international filing date but subject to a late furnishing fee (Rule 13*ter*)
- Separate indications concerning deposited biological material that are not part of the international application, for ex., Form PCT/RO/134 (Rule 13*bis*)

## The request (1)

- Electronic filing of the international application

  - PCT-SAFE fully electronic
  - Other filing means provided by the receiving Office

## The request (2)

- Printed request form (Form PCT/RO/101)
  - Available on Internet  
(<http://www.wipo.int/pct/en/forms>)
- Computer print-out (Rules 3.1 and 3.4, Section 102(h))
  - For integration with in-house computer systems
  - Layout and content shall correspond to the paper form (minor adjustments permitted)

## Concept and operation of designation system (Rule 4.9)

- Automatic and all-inclusive designation of all PCT Contracting States
  - exceptions to the all-inclusive designation possible for DE, JP and KR (countries with particular rules on “self-designation”)
    - but only if the international application contains a priority claim to an earlier application filed in the State that is to be excluded
  - otherwise withdrawals of designations possible
- Choice of types of protection postponed until national phase entry (e.g. patent or utility model, national or regional patent)
- “Parent” information (continuation applications, patents of addition) may be included in PCT request form for search purposes

## Use of Earlier Search Results (Rule 4.12)

- The applicant may request the ISA to take into account the results of an earlier search in carrying out the international search
  - How? by filling-in the appropriate box on the request form
- To the extent that the ISA takes such earlier search results into account, it may reduce the search fee
  - For further details see the agreements between the International Bureau and the ISAs/IPEAs at:  
[www.wipo.int/pct/en/access/isa\\_ipea\\_agreements.html](http://www.wipo.int/pct/en/access/isa_ipea_agreements.html)

## Transmittal of Earlier Search and/or Classification Results by ROs to ISAs (Rules 12*bis*, 23*bis* and 41) (1)

- Where the applicant does not request the ISA to take into account the results of an earlier search under Rule 4.12, ROs nevertheless forward the search/classification results from priority applications without the applicant's express permission
- Exceptions:
  - Applicants filing with RO/DE, RO/FI or RO/SE may request at the time of filing of the PCT application NOT to have earlier search results forwarded to the ISA, by checking the appropriate box on the request form

## Transmittal of Earlier Search and/or Classification Results by ROs to ISAs (Rules 12*bis*, 23*bis* and 41) (2)

### ■ Exceptions: (*cont.*)

- ROs which have notified the IB of incompatibility of such forwarding with their applicable national law will only forward earlier search and classification results to the ISA if the applicant expressly authorized the RO by checking the appropriate box on the request form (concerns the receiving Offices: AU, CH, CZ, FI, HU, IL, JP, NO, SE, SG and US)
- If priority of an earlier PCT application is claimed and the earlier international search was carried out by a different ISA, ROs will only forward earlier search and classification results to the ISA if the applicant expressly authorized the RO by checking the appropriate box on the request form

## Signature of the request (1) (Rules 4.15, 26.2*bis*(a))

- In principle, the request must be signed by all persons (legal entity or natural persons) indicated as “applicant” or “applicant and inventor”

BUT: if only one of the applicants signs, the lack of signature of the other applicants will not be considered a defect

WARNING: Any notice of withdrawal would have to be signed by or on behalf of all applicants (including applicant/inventors)

NOTE: DOs are entitled to require confirmation of the international application by the signature of any applicant for the DO who has not signed the request

## Signature of the request (2) (Rules 4.15, 26.2bis(a))

- Signature by a person not named as applicant (FOR---ON BEHALF OF---AS AUTHORIZED SIGNATORY OF) depends on national law applied by receiving Office:
  - either an officer or employee of a legal entity (an officer or employee who does not have to be a patent attorney or patent agent)
  - or a legal representative, if the applicant is a natural person who is incapacitated
  - or a legal representative, if the applicant is a bankrupt company
- A person indicated as “inventor only” need not sign the request

## Signature of the request (3) (Rules 4.15, 26.2bis(a))

- If the request is not signed by the applicant(s) but by an agent, a separate power of attorney signed by all the applicant(s) must be filed (either original individual power or copy of general power)

BUT: if only a power of attorney signed by one applicant is filed, the lack of powers of attorney signed by the other applicants will not be considered a defect

NOTE: ROs may waive requirement that a separate power or a copy of a general power of attorney must be submitted

- Minimum and maximum margins for the sheets of text and drawings (Rule 11.6)

## Declarations under Rule 4.17

- Purpose: possibility to anticipate certain national phase requirements during the international phase (Rule 51*bis*.2)
- Inclusion in request or subsequent filing is optional
- Declarations relate to the following matters (Rule 4.17):
  - identity of the inventor
  - applicant's entitlement to apply for and be granted a patent
  - applicant's entitlement to claim priority of an earlier application
  - declaration as to inventorship (for the US designation only)
  - non-prejudicial disclosures or exceptions to lack of novelty

## Formal requirements

- Declarations have to use standardized wording as prescribed in Sections 211 to 215 of the Administrative Instructions
- Where a declaration has been furnished, no documents or evidence as to that matter may be required by the designated/elected Office
  - unless that Office may reasonably doubt the veracity of the declaration; and/or
  - evidence concerning non-prejudicial disclosures or exceptions to lack of novelty may be required

## Declaration of inventorship (Rule 4.17(iv)) (only for US designation)

- New standardized wording since 16 September 2012 (see Section 214 of the AIs)
- All inventors need to be named in the same declaration
- Declaration must be signed and dated by all inventors
- Signatures may appear on different copies of the same complete declaration
- Signature does not have to be an original (fax copy)
- DO/US accepts a seal as signature when the international application is filed with receiving Offices which accept seals as signatures

## Addition/correction of declarations (Rule 26ter)

- Applicants may correct or add any of the declarations filed under Rule 4.17
- Time limit: until the expiration of 16 months from the priority date (or even later, provided that the declaration is received by the International Bureau before the technical preparations for international publication have been completed)
- The receiving Office or International Bureau may invite the applicant to correct any declaration that is not worded as required or, in the case of the declaration of inventorship (Rule 4.17(iv)), is not signed as required

## Declarations referred to under Rule 4.17: Additional issues

- National forms should not be used for declarations in the international phase (for instance, a combined declaration of inventorship/ power of attorney) since they do not use the standardized wording
- When a declaration is furnished after the international filing date, no further page fee would be required
- If a defective declaration is not corrected during the international phase:
  - does not affect the processing of the declaration by the International Bureau
  - DOs/EOs may accept defective declaration
- No provision for the withdrawal of declarations

## Agents (Rule 90)

### ■ Who can act as agent?

- any person (attorney, patent agent, etc.) who has the right to practice before the RO can act as agent and automatically has the right to practice before the IB, the ISA and the IPEA (Article 49);
- an agent who has the right to practice before the ISA and/or IPEA can be appointed specifically for the purposes of the procedure before that ISA or IPEA (Rule 90.1(b) and (c));
- sub-agents may be appointed by agents (Rule 90.1(d))

### ■ What is a common agent?

- an agent appointed by all the applicants

## Common representatives (Rule 90)

- Who can act as common representative?
  - one of the applicants, who is entitled to file an international application (i.e., who is a resident or national of a PCT Contracting State), may be appointed by all the other applicants, or
  - where neither a common agent nor a common representative has been appointed, the first named applicant in the request who is entitled to file an international application with the RO with which the international application was filed is automatically “deemed” to be common representative

## Agents and common representatives (Rule 90)

- Any act by or in relation to a common agent or a common representative has the effect of an act by or in relation to all the applicants, except for:
  - a withdrawal made by a “deemed” common representative (Rules 90.3(c) and 90*bis*.5; and,
  - where an RO does not require that powers of attorney have to be submitted (Rules 90.4 and 90.5), a withdrawal made by an agent or common representative who has not submitted powers signed by all applicants (Rule 90*bis*.5)

## Appointment of agents and common representatives (Rules 90.4 to 90.6)

- Agents and common representatives may be appointed in any of the following ways:
  - in the request or, under Chapter II, in the demand;
  - in a separate power of attorney relating to a given international application;
  - in a general power of attorney relating to all international applications filed in the name of the applicant.
- General powers of attorney are to be filed with the RO or, where applicable, with the ISA or IPEA.
- For provisions on revocation of appointment of agents and renunciation by an agent of his appointment, see Rule 90.6

## Waiver of requirement that a power of attorney be furnished (Rules 90.4(d) and 90.5(c))

- RO, ISA, IPEA and IB may waive the requirement that:
  - a separate power of attorney; and/or
- RO, ISA and IPEA may waive the requirement that
  - a copy of a general power of attorney has to be furnished
- Any Office or Authority that has waived the requirement in general may nevertheless require that a power of attorney be furnished in particular instances
- For the table of Offices that made such a waiver, see [www.wipo.int/pct/en/texts/waivers.html](http://www.wipo.int/pct/en/texts/waivers.html)

## Common agent

- Agent X is a common agent if he has been appointed by all applicants

## Appointed common representative (Rule 90.2(a))

- Applicants B and C appoint applicant A as their common representative
- A may be so appointed only if national or resident of a PCT Contracting State

## Agent of the appointed common representative

- Applicant A (e.g. corporate applicant), who has been appointed by the other applicants (e.g. applicants/inventors) as their common representative, appoints agent X
- Agent X can, on behalf of the appointed common representative, sign all documents for all applicants including any withdrawal (Rule 90.3(c)), provided that where a PCT Authority has waived the requirement that powers of attorney have to be submitted, such powers are on file

## “Deemed” common representative (Rule 90.2(b))

- There is no common agent and the applicants have not appointed a common representative. Consequently applicant A is the "deemed" common representative (i.e., the first applicant named in the Request, who has the right to file an international application with the receiving Office with which the international application was filed)
- Agent X, appointed only by applicant A, can sign all documents for all applicants except any withdrawal (Rules 90.3(c) and 90bis.5(a))

## Priority Claims

- PCT requirements
- Priority documents
- Correction/Addition of priority claims
- Restoration of the right of priority

## The right of priority (1) (Article 4 of the Paris Convention)

- Any filing of an application for a patent by an applicant in one member country, entitles that applicant (or his successor in title) to have certain rights when applying for patent protection in all other member countries within 12 months
- For prior art purposes, the later applications will be regarded as having been filed on the same date as the first application
- The right of priority can be based only on the first filed application on the subject matter (see Paris Convention Art.4C(4) for exception)

## The right of priority (2) (Article 4 of the Paris Convention)

- Multiple and partial priorities may be claimed
- The later application must concern the same subject as the first application the priority of which is claimed
- Withdrawal, abandonment or rejection of the first application does not destroy its capacity to serve as a basis for priority

## Claiming priority (PCT Article 8, Rule 4.10)

- The international application may contain a declaration claiming the priority of one or more earlier applications
  - filed in or, by way of a regional or international application, for any country party to the Paris Convention and/or
  - filed in any Member of the World Trade Organization (WTO) that is not party to the Paris Convention

## Priority date (PCT Article 2(xi))

- The priority date for the purposes of computing time limits means:
  - where the international application contains a priority claim, the filing date of the application whose priority is claimed
  - where the international application contains several priority claims, the filing date of the earliest application whose priority is claimed
  - where the international application does not contain any priority claim, the international filing date

## Contents of priority claims (Rule 4.10) (1)

- Earlier national application:
  - filing date
  - application number
  - country party to the Paris Convention or Member of WTO in which earlier application was filed
- Earlier regional application:
  - filing date
  - application number
  - authority entrusted with the granting of regional patents (in practice, the regional Office concerned)
  - where at least one country party to the regional patent treaty is neither party to the Paris Convention nor Member of WTO, at least one country party to that Convention or one Member of that Organization for which that earlier application was filed

## Contents of priority claims (Rule 4.10) (2)

- Earlier international application:
  - international filing date
  - international application number
  - receiving Office with which the earlier international application was filed

## Furnishing of priority documents (Rule 17.1)

- Where the priority of an earlier national, regional or international application is claimed, the applicant must provide a priority document for each corresponding earlier application (that is, a certified copy of the earlier application)
  - by furnishing such document directly to the receiving Office or the International Bureau (Rule 17.1(a)), or
  - by requesting the receiving Office to prepare such document and transmit it to the IB (Rule 17.1(b)), if the earlier application was filed with that Office, or
  - by requesting the IB to obtain the priority document from a digital library (Rule 17.1(b-bis)) (only for Offices participating in the Digital Access Service (DAS))

## Time limit for the furnishing of priority documents (Rule 17.1)

- Direct submission by the applicant to the RO:
  - within 16 months from the priority date
- Direct submission by the applicant to the IB:
  - before international publication
- Request to the RO to prepare and transmit the priority document to the IB:
  - within 16 months from the priority date
- Submission via DAS to IB:
  - The priority document must be made available to the IB via DAS and the request to the IB to retrieve the priority document must be made before international publication

## Digital Access Service for Priority Documents (DAS)

- Legal Basis:
  - PCT Rule 17.1(b-*bis*)
  - Administrative Instructions 715 and 716
- Applicants may request the IB to retrieve priority documents from digital libraries (may also be possible at some DOs)
- Participating Offices: AU, CN, DK, EE, ES, FI, GB, IB, JP, KR, MA, NZ, SE, US
- For detailed information on DAS, see: [www.wipo.int/das/en](http://www.wipo.int/das/en)

## Retrieval of priority documents via DAS

- Possibility to request the IB to retrieve a copy of the priority document of an earlier application, in electronic form, via DAS
- The service is available for earlier national applications filed with AU, CN, DK, EE, ES, FI, GB, JP, KR, MA, NZ, SE and US and for earlier international applications filed with AU, CN, DK, ES, FI, SE and RO/IB
- The Office with which the earlier national application was filed is known as the Office of First Filing (OFF) or the Depositing Office
- The Office that retrieves the document is known as the Office of Second Filing (OSF) or Accessing Office

## Main steps for the use of DAS

- Request the OFF to make the earlier application available via DAS
- The OFF (or, in some cases, the IB on behalf of the OFF) provides the applicant with an access code
- File the PCT international application and request the IB to retrieve the priority document via DAS by checking the appropriate box on the request form and include the access code
- The IB retrieves the priority document via DAS and sends a confirmation of retrieval to the applicant by means of the form PCT/IB/304

  - filing date of earlier application more than 12 months before the international filing date

## Correction/addition of priority claims affecting the priority date (Rule 26bis) (1)

### ■ Cases concerned:

- adding a priority claim with an earlier filing date than any priority claim present in the application
- correction of the filing date of the earliest priority claim

## Correction/addition of priority claims affecting the priority date (Rule 26bis) (2)

### ■ Applicable time limit:

- within 4 months from the international filing date; or
- possibly later, if the earlier of the following two time limits expires later than the 4-month time limit:
  - 16 months from the priority date before the correction or addition
  - 16 months from the priority date after the correction or addition
- any correction received before the RO or IB has declared the priority claim to be void and not later than one month after the expiration of the above time limit, will be considered as timely received (Rule 26bis.2(b))

NOTE: This does not apply to late additions of priority claims

## Correction/addition of priority claims not affecting the priority date (Rule 26bis) (1)

### ■ Cases concerned:

- corrections which do not affect the filing date of the priority claim
- adding a priority claim with a later filing date than the earliest priority claim present in the application (e.g. second priority claim)
- corrections of the filing date of a priority claim which is not the earliest one

## Correction/addition of priority claims not affecting the priority date (Rule 26bis) (2)

### ■ Applicable time limit:

- Rule 26bis.1(a):
  - within 4 months from the international filing date; or
  - within 16 months from the priority date, whichever time limit expires later
  - any correction received before the RO or IB has declared the priority claim to be void and not later than one month after the expiration of the above time limit, will be considered as timely received (Rule 26bis.2(b))

NOTE: This does not apply to late additions of priority claims

- Rule 91: within 26 months from the priority date

## Invitation to correct by RO or IB (1)

### ■ Forms:

- receiving Office: Form PCT/RO/110
- International Bureau: Form PCT/IB/316

### ■ Invitation (Rule 26*bis*.2(a)), is issued if:

- priority claim does not comply with requirements of Rule 4.10
- any indication in the priority claim is inconsistent with the corresponding indication appearing in the priority document
- International application has an international filing date outside the priority period

## Invitation to correct by RO or IB (2)

- The RO will also draw the attention of the applicant to the possibility to request restoration of the priority right (Rule 26*bis*.3) if the international filing date is outside of the priority period but within a period of two months from the date of expiration of the priority period
- If the applicant does not correct the priority claim in response to the invitation, the priority claim concerned will be considered void, for the purposes of the procedure under the PCT (Rule 26*bis*.2(b))

## Invitation to correct by RO or IB (3)

- However, a priority claim will not be considered void only because (Rule 26*bis*.2(c)):
  - the indication of the number of the earlier application is missing; or
  - an indication in the priority claim is not the same as the corresponding indication appearing on the priority document; or
  - the international filing date is outside of the priority period but within a period of two months from the date of expiration of the priority period

## Invitation to correct by RO or IB (4)

- The finding that the priority claim is considered void for the purposes of the procedure under the PCT, would not prevent any designated Office from recognizing such a priority claim for the purposes of the national phase if so permitted or required by national law
- Warning to third parties: different priority dates may apply in different designated States (Rules 26*bis*.2(d) and 48.2(a)(ix))

## Publication related to priority claims (1)

■ Information concerning a priority claim considered void or only not considered void because:

- the number was missing
- inconsistency with the indications on priority document
- the international filing date is outside of the priority period but with a period of two months from the date of expiration of the priority period

will be published by the International Bureau free of charge together with, where applicable, information furnished by the applicant concerning such priority claims  
(Rule 26bis.2(d))

After the expiration of the applicable time limit to correct or add a priority claim, applicant may request the International Bureau (Rule 26bis.2(e)) to publish information concerning the priority claim concerned:

- within 30 months from priority date; and
- subject to the payment of a fee

## Restoration of the right of priority - Competent Authorities

- RO during the international phase  
(Rule 26*bis*.3)
- DO during the national phase  
(Rule 49*ter*.2)

## Restoration of the right of priority Applicable criteria

- Applicable Rules: 26*bis*.3(a) and 49*ter*.2(a)
- Two possible criteria for restoration:
  - failure to file the application within the priority period occurred in spite of due care required by the circumstances having been taken
  - failure to file the application within the priority period was unintentional
- All Offices must apply at least one of these criteria and may apply both; designated Offices may also apply a more favorable criterion in accordance with their national law

## Restoration by RO (Rule 26bis.3)

### ■ Conditions:

- request to restore must be filed with the RO
- time limit: within a period of 2 months from the date of the expiration of the priority period
- filing of statement of reasons for failure to comply with the time limit
- statement should preferably be accompanied by a declaration or other evidence to support such statement
- where applicable, payment of the required fee

## Restoration by RO Communication of documents to the IB

- **General Rule:** Obligation of the RO to forward to the IB all documents received from the applicant in relation to a request to restore the priority right
- **Exception:**
  - Upon reasoned request by the applicant or on its own decision, the RO may not forward information, if
    - it does not obviously serve the purpose of informing the public about the international application,
    - publication of or public access to such information would clearly prejudice the personal or economic interests of any person, and
    - there is no prevailing public interest to have access to that information
  - The applicant may be required to submit replacement sheets

## Effects of refusal to restore by RO (Rule 26*bis*.3)

- Any priority claim to an earlier application filed less than 14 months before the international filing date
  - will not be declared void even if priority is not restored by the RO (Rule 26*bis*.2(c)(iii))
  - will serve as a basis to calculate time limits during the international phase
- The validity of such a priority claim in the national phase is not assured

## Effects of restoration in the national phase (Rule 49*ter*.1)

- Effect of restoration by RO in the national phase:
  - RO restoration based on the “due care” criterion is effective in all DOs
  - RO restoration based on the “unintentional” criterion is effective in those DOs which apply that criterion (or a more lenient one)
  - RO restoration is not conclusively binding on DOs: limited review by DOs is possible
  - RO refusal to restore is not binding on DOs

- Note time difference: if the document transmitted is due within a certain time limit, it is the expiration of that time limit in Geneva which will determine whether the document was filed on time (Rule 80.4(b))
- Mechanical failure or other problem associated with the fax transmission remains at the applicant's risk (Rule 92.4(c))

## Furnishing of priority document(s) in respect of PCT/IB applications (1)

- Where priority of an earlier national, regional or international (RO other than RO/IB) application is claimed in a PCT application filed with, or transmitted under Rule 19.4 to, RO/IB:
  - RO/IB cannot be requested to establish a certified copy of such application (“priority document”) since RO/IB is not the Office with which that earlier application was filed
  - if the relevant check-box in Box No. VI of the request is marked, RO/IB will delete the check-mark *ex officio*

## Furnishing of priority document(s) in respect of PCT/IB applications (2)

- the priority document must be obtained by the applicant from the national or regional Office or receiving Office concerned and furnished within the 16-month time limit – Note that, even if the Office concerned sends the priority document to IB on behalf of the applicant, the 16-month time limit applies (in other words, Rule 17.1(b) does not apply); and that, in order to meet the time limit, the document may be sent by fax to IB, subject to confirmation
- RO/IB may be requested to obtain the priority document via DAS to the extent that the Office with which the earlier application was filed participates in DAS (Rule 17.1(b-bis))

## Furnishing of priority document(s) in respect of PCT/IB applications (3)

- Where priority of an earlier PCT/IB application is claimed in a subsequent PCT/IB application, the relevant check-box in Box No. VI of the request may be marked and RO/IB will prepare and transmit to the IB the corresponding priority document (see Rules 17.1(b) and 21.2)

## Translation for the purposes of international search (Rules 12.3, 20.1(c) and (d))

- Where the international application is filed with RO/IB in a language which is not accepted by the ISA that is to carry out the international search, the applicant is required:
  - to furnish to RO/IB
  - within one month from the date of receipt of the international application by RO/IB
  - a translation of the international application into a language which is a language accepted by the ISA that is to carry out the international search and a language of publication

## Invitation to furnish required translation (Rule 12.3(c) and (e))

- Where, by the time RO/IB sends to the applicant the notification of the PCT number and of the international filing date, the applicant has not furnished the required translation, RO/IB will invite the applicant:
    - to furnish the required translation within one month from the date of receipt of the international application
    - in the event that the required translation is not furnished within that one month time limit, to furnish it (and to pay, where applicable, a late furnishing fee equal to 25% of the international filing fee) within
      - one month from the date of the invitation or
      - two months from the date of receipt of the international application by RO/IB,
- whichever time limit expires later

- Where the applicant has not, within the applicable time limit, furnished the required translation and/or paid, where applicable, the late furnishing fee, the international application will be considered withdrawn and RO/IB will so declare
  - Any translation and any payment received by RO/IB
    - before RO/IB makes the declaration that the international application is considered withdrawn and
    - before the expiration of 15 months from the priority date
- is considered to have been received before the expiration of the applicable time limit (that is, one month from the date of the invitation or two months from the date of receipt of the international application, whichever expires later)

## The International Searching Authority (1)

- Checks unity of invention (Rules 13 and 40)
- Checks title (Rule 37); checks abstract (Rule 38)
- Searches claimed invention (Article 15(3), Rule 33.3)
- Authorizes rectification of obvious mistakes if the mistake is:
  - in any part of the international application other than the request, (Rule 91.1(b)(ii)) or
  - in any paper submitted to that Authority (Rule 91.1(b)(iv))

## The International Searching Authority (2)

- Establishes international search report (ISR) (Rules 42 and 43) and/or declaration that no international search report will be established (Article 17(2))

## Prior art for international search (Article 15(2) and Rule 33)

### ■ Prior art:

- everything which has been made available to the public,
- anywhere in the world,
- by means of written disclosure,
- which is capable of being of assistance in determining that the claimed invention is or is not new and that it does or does not involve an inventive step,
- provided the making available to the public occurred prior to the international filing date.

### ■ PCT Minimum Documentation (Rule 34)

## International Search Report (ISR) (Rules 42 and 43)

### ■ Contains:

- IPC (International Patent Classification) symbols
- indications of the technical areas searched
- indications relating to any finding of lack of unity
- a list of the relevant prior art documents
- indications relating to any finding that a meaningful search could not be carried out in respect of certain (but not all) claims

### ■ Time limit to establish ISR and written opinion of the ISA:

- 3 months from the date of receipt of the search copy by the ISA (usually within approximately 16 months from the priority date if priority is claimed); or
- 9 months from the priority date, whichever time limit expires later

## Cases where no international search report will be established (1)

- The application relates to a subject matter which the ISA is not required to search, and in the particular case decides not to search (Article 17(2)(a)(i) and Rule 39.1)
- The description, claims or drawings do not comply with the prescribed requirements to such an extent that a meaningful search cannot be carried out in respect of any of the claims (Article 17(2)(a)(ii))
- The application contains the disclosure of a nucleotide and/or amino acid sequence, but:
  - no listing of that sequence is furnished,
  - the listing furnished does not comply with the Standard set out in Annex C of the Administrative Instructions or is not in electronic form (Rule 13*ter*.1(d)), or
  - the fee for late furnishing of the sequence listing has not been paid within the applicable time limit (Rule 13*ter*.1(d))

## Cases where no international search report will be established (2)

- Consequences:
  - the ISA will declare that no international search report has been established and that declaration will be published as part of the published international application (Rule 48.2(a)(v))
  - the application remains valid but the IPEA will not be obliged to carry out the international preliminary examination for lack of an international search report (Rule 66.1(e))

## Written opinion of the ISA (Rule 43bis) (1)

- Initial preliminary non-binding opinion on:
  - novelty (not anticipated)
  - inventive step (not obvious)
  - industrial applicability
- A written opinion will be established for all international applications at the same time as the ISR
- The written opinion is sent to applicant and the International Bureau together with the ISR

## Written opinion of the ISA (Rule 43bis) (2)

- The written opinion is made publicly available on PATENTSCOPE in its original language as of the date of publication of the international application
- No formal procedure for applicants to respond to written opinion of the ISA
- Possibility to submit informal comments to the International Bureau
  - They are made publicly available together with the written opinion in their original language
  - They are communicated to the DOs together with the IPRP (Chapter I) if and when it is sent
- Note: The IPRP Chapter I and its translation are established at 30 months from the priority date

## Prior art for written opinion of the ISA (Rules 43bis.1(b) and 64.1)

### ■ Prior art:

- same as for international search purposes; BUT:
- relevant date: everything made available to the public prior to the priority date

- The ISA may request a copy of a priority document from the International Bureau (Rule 66.7(a)); however, even if, at the time of establishment of the written opinion of the ISA, a copy cannot be made available to the ISA, the written opinion will nevertheless be established on the assumption that the priority date is the relevant prior art date, except if the applicant had failed to comply with his obligations under Rule 17.1

## International preliminary report on patentability (IPRP) (Chapter I of the PCT) (Rule 44bis)

- If applicant does not file a demand for international preliminary examination:

- IB establishes the IPRP (Chapter I) on the basis of the written opinion of the ISA
- IPRP (Chapter I) and its translation
  - are sent to designated Offices
  - are made publicly available on PATENTSCOPE (but not “published” like the international application and ISR) at the expiry of 30 months from the priority date

## Use of the written opinion of the ISA for the purposes of the Chapter II procedure (Rule 66.1 *bis*)

- If applicant files a demand for international preliminary examination:
  - written opinion of the ISA becomes written opinion of the IPEA (exception: IPEA decides not to accept written opinions by certain ISAs)
  - informal comments by applicant on written opinion of ISA will not be sent to IPEA (Article 34 amendments/arguments only)
  - if an international preliminary examination report is established, any informal comments submitted to the IB will not be sent to DOs or EOs

## Objectives

- To address PCT applicants' concerns about new prior art being found once they have already incurred significant costs and entered national phase
- To reduce this risk by introducing optional supplementary searches in the PCT international phase
- To expand the scope of search in the international phase taking into account the growing linguistic diversity in prior art

## Main Features

- An optional service for applicants,
  - it is currently offered by: AT, EP, FI, RU, SE, SG, TR, UA, XN and XV
  - more Authorities are expected to offer SIS in the future
- An applicant can request supplementary search by any Authority offering this service, except the one responsible for main international search
- Each Authority determines the scope and fees for its supplementary search
- Supplementary international search (SIS) covers only one invention – there is no option for paying additional fees

The International  
Patent System

## Deciding When to Use the Service (1)

- The main international search report is intended to be of a high quality, sufficient for normal purposes
- Consequently, this service need not be used for every international application, but to give extra information in some cases where the applicant believes that this additional expense in the international phase will be worthwhile
- Before requesting supplementary search, applicants should consider:
  - the main international search report
  - the commercial value of particular application
  - the number of disclosures relevant to the particular technical field which are known to be made in languages that are not a speciality of the main ISA

WIPO | PCT  
The International  
Patent System

Kyiv & Lviv  
presentation-153  
02.11.2017

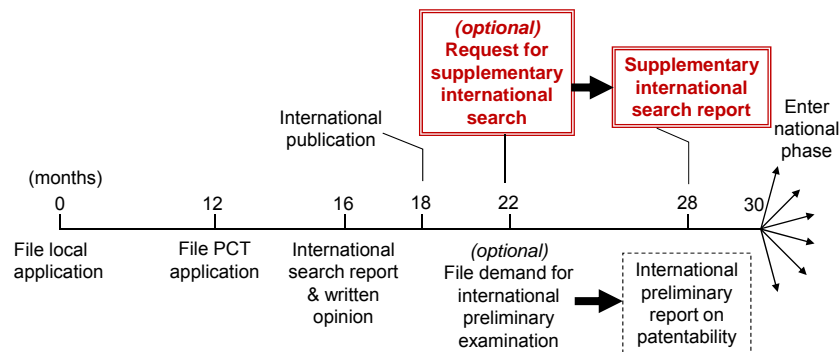

## Deciding when to Use the Service (2)

- Interest in a search being carried out by a particular International Authority (free choice of SISA)
- Interest in a search being carried out in prior art documents in a particular language
- Interest in a particular subject matter not searched by the main ISA in accordance with Article 17(2) (e.g. methods of treatment, Rule 39.1(iv))

## Timing and Fees

- The supplementary search request must be filed with the **International Bureau** within 22 months from the priority date
- Fees must be paid in **Swiss francs within 1 month** of filing the request:
  - supplementary search fee\*
  - supplementary search handling fee\*
- The Authority begins SIS on receipt of the SIS request and international search report (ISR) (at the latest at 22 months from the priority date, even if the main ISR has not yet been received)
- The SIS Report is established by 28 months from the priority date

## Supplementary Search Request (1)

- The request must be filed using the supplementary search request Form PCT/IB/375, specifying
  - which Authority is to carry out the supplementary search
  - (in certain circumstances - see Unity of Invention) which claims are to be searched
  
- The request may need to be accompanied by:
  - a translation of the international application into a language accepted by the Authority\*
  - any sequence listing in electronic format\*

## Supplementary Search Request (2)

- There is no requirement that an agent be appointed to represent the applicant before the Authority specified for supplementary international search; applicants may, however, appoint an agent if they so wish
- A late payment fee may also apply if fees are not paid within one month and the IB issues an invitation to pay fees (Form PCT/IB/377)
- The request is considered withdrawn if the fees for supplementary search are not paid

## Unity of Invention

- Only one invention is searched – there is no option of paying additional fees for additional inventions
- Usually the first claimed invention is searched, but if the main ISA has found lack of unity of invention, the applicant may request supplementary search to focus on an invention other than the first
  - note that the Authority is not obliged to search inventions which have not been searched by the main ISA (Rule 45bis.5(d))
- The Authority is not obliged to follow the views of the main ISA on unity of invention
- A review procedure is available which is similar to the “protest” procedure for the main search

## Scope of Search (1)

- Supplementary search is carried out on the claims as filed, usually on the first claimed invention (Article 19 and 34 amendments are not taken into account)
- The Authority is not required to search:
  - subject matter which it would not normally search in accordance with Article 17(2)
  - claims which have not been searched by the main ISA
  - any international application which is subject to a limitation set out in the Agreement between WIPO and the Authority defining the scope of their service (see [www.wipo.int/pct/en/access/isa\\_ipea\\_agreements.html](http://www.wipo.int/pct/en/access/isa_ipea_agreements.html))
    - limitation of number of supplementary searches carried out
    - limitation of number of claims searched

## Scope of Search (2)

- The range of prior art to be searched is determined by the Authority
  - the search may be either a new search which takes into account all PCT minimum documentation as well as documents held in other languages by that Authority or
  - the search may be a complement to the main search, typically including a subset of language-related documentation held by that Authority

## Supplementary International Search Report

- The supplementary international search report (Form PCT/SISA/501) is very similar to the ISR, but:
  - it does not contain the classification of the international application or comments on the title and abstract
  - it need not contain citations of documents contained in the ISR unless cited in conjunction with a new reference not cited in the ISR
  - it may contain explanations regarding:
    - citations that are considered relevant (these are more detailed than references in the ISR)
    - the scope of the SIS (particularly where the ISR is late and assumptions have been made on the likely scope of main search)
- No written opinion is issued with the supplementary international search report

## Further Processing of Report

- The supplementary international search report is transmitted to the applicant and to the IB
- The IB makes the report publicly available (if the international application has been published)
- If the report is not in English, it will be translated into English by the IB
- The IB sends the report and translations, where appropriate, to the IPEA and designated Offices

## Refunds When No Search Is Carried Out

- If the Authority **commences** work, but **no** search is carried out:

- for reasons equivalent to those available for the main international search (subject matter, lack of clarity or lack of sequence listing in electronic format) or
- because the main ISA has made an Article 17(2)(a) declaration

the supplementary search fee **will not** be refunded

- because of limitations specific to the scope of the service offered by the Authority, the supplementary search request is considered not to have been submitted and

the supplementary search fee **will** be refunded

## What is a demand?

- The demand is a request for International Preliminary Examination under Chapter II of the PCT
- International Preliminary Examination is an optional procedure that provides for continued examination of the PCT application before an International Preliminary Examining Authority (IPEA)
- Filing a demand constitutes the automatic “election” of all designated PCT Contracting States

## Why file a demand? (1)

- Provides an opportunity during international preliminary examination to make amendments to the description, claims and drawings
- Can submit arguments to address patentability objections raised by the ISA
- International preliminary examination is the final opportunity to obtain a more positive patentability assessment during the international phase

## Why file a demand? (2)

- Results in the establishment of an International Preliminary Report on Patentability (Chapter II)
- Likelihood of more favorable treatment in the national phase on the basis of a positive patentability report

## Who is entitled to make a demand? (Article 31(2)(a) and Rule 54.2)

The applicant, or if there are two or more applicants, at least one of them,

- who is a resident or national of a PCT Contracting State, and
- whose international application has been filed with a receiving Office of or acting for a Contracting State (currently all States)

## The demand form

- ePCT
- Electronic filing software provided by the IPEA
- Printed demand form (PCT/IPEA/401)
- Computer-generated demand (Rule 53.1(a) and Section 102(h) and (i))
  - Same requirements regarding layout and contents as for request form

## The demand for international preliminary examination: contents (Rule 53)

- The demand must contain the following indications:
  - a petition
  - particulars enabling the international application to be identified (for example, the international application number)
  - the name of the applicant(s) under Chapter II

  - the basis on which international preliminary examination should be carried out (a statement concerning amendments)
  - the language for the purposes of international preliminary examination
  - the signature of (at least one of) the applicant(s) or of the agent

## Signature of demand (Rule 53.8)

- Only the persons indicated as applicants for the States elected in the demand need to sign the demand
- If these applicants have appointed an agent or a common representative, that agent or common representative may sign
- If there is no appointed agent or common representative, it is sufficient that the demand is signed by at least one of the applicants (see Rule 60.1(a-ter))

## Where to file the demand? (Rule 59) (1)

- Directly with the competent IPEA
  - specified by the RO
  - if more than one is specified by the RO, applicant has the choice
- In making his choice, the applicant must take into account
  - the language(s) accepted by the IPEA
  - that some IPEA(s) accept only international applications which have been searched by certain ISAs (that is the case, for example, of IPEA/EP)

## Where to file the demand? (Rule 59) (2)

- If the international application was filed with IB as RO, the competent IPEAs will be those which would have been competent if the international application had been filed with (any of) the national Office(s) which, on the basis of applicant's nationality or residence, could be a competent RO
- Choice of IPEA should be indicated in the demand

## Transmittal of demand to competent IPEA (Rule 59.3)

- Where a demand is submitted to a non-competent IPEA or to a RO, an ISA or the IB, that Authority or Office must:
  - mark the date of receipt on the demand and,
  - either forward it to the IB, which will in turn transmit it to the competent IPEA (or, if more than one, to the competent IPEA chosen by the applicant)
  - or transmit it directly to the competent IPEA (or, if more than one, to the competent IPEA chosen by the applicant)
- Any demand so transmitted to the competent IPEA will be considered to have been received on behalf of that Authority on the date on which it was received by the RO, ISA or IB or the non-competent IPEA concerned

  - 3 months from the date of transmittal of the ISR and WO of the ISA
  - 22 months from the priority date
- In respect of designated Offices for which the 20-month time limit under Article 22(1) continues to apply, prior to the expiration of 19 months from the priority date, in order to delay national phase from 20 to 30 months from the priority date
  - Only applies to LU, TZ and UG

## When should a demand be filed? (Rule 54bis.1(a)) (2)

### ■ Recommendation:

Upon receipt of the international search report and the written opinion of the ISA, evaluate the cited prior art documents and decide whether to proceed further, and if so, file the demand as soon as possible thereafter together with any amendments/arguments in light of the written opinion, thus allowing maximum time prior to issuance of international preliminary examination report (i.e, usually 28 months from the priority date)

## Defects under Chapter II (1)

- Defects whose correction results in a later filing date of the demand
  - no eligible applicant for filing the demand (Rule 54.2)
  - international application not identifiable (Rule 60.1(b))
- A demand filed after the expiration of 19 months from the priority date but within the applicable time limit under Rule 54bis.1(a), is valid but entry into the national phase will not be postponed until 30 months (Article 39(1)(a)) for LU, TZ and UG

## Defects under Chapter II (2)

- Defects which can be corrected without any adverse consequences:
  - demand not filed with a competent IPEA (Rule 59.3)
  - form of the demand (Rule 53.1)
  - indications relating to applicants and agents (Rules 53.4 and 53.5)
  - language of the demand (Rule 55.1)
  - lack of at least one signature (Rules 53.8 and 60.1(a-ter))
  - amendments under Article 34 referred to but not furnished (Rule 53.9(a)(i))

- Fields are automatically populated
- Automatic validations are done at the time of preparation
- All accompanying documents may be attached, e.g., Article 19 amendments, Article 34 amendments, translations, etc.
- The International Bureau automatically transmits the demand to the competent IPEA
- Fees and all subsequent correspondence are to be submitted directly to the IPEA

## Chapter II correction procedure

- Invitation by the IPEA to correct defects (Rule 60.1)
- Invitation by the IPEA to pay missing fees (Rule 58*bis*)
- Further possibilities:
  - request rectification of obvious mistakes before IPEA (Rule 91)
  - request review by and use opportunity to correct before the designated or elected Offices (Articles 25, 26 and 39(3))

## International preliminary examination (1)

- Results in the establishment by the IPEA of a non-binding opinion on
  - novelty (not anticipated) (Article 33(2) and Rule 64)
  - inventive step (not obvious) (Article 33(3) and Rule 65)
  - industrial applicability (Article 33(4))
- International preliminary examination provides an opportunity to make amendments and to address patentability issues raised by the ISA

## International Preliminary Examination (2)

- Only claims relating to the invention(s) searched by the ISA will be examined by the IPEA (Rules 66.1(e) and 66.2(a)(vi))

## Start of international preliminary examination (Rule 69.1)

- When the IPEA is in possession of:
  - the demand
  - the international search report (or the declaration under Article 17(2)(a)) and the written opinion of the ISA
  - the preliminary examination and handling fees

provided that the IPEA shall not start the international preliminary examination before the expiration of the applicable time limit under Rule 54bis.1(a) unless the applicant expressly requests an earlier start
- If the demand contains a statement about amendments, when copies of these amendments are available (see Rule 69.1(c), (d) and (e))
- If international preliminary examination is to be carried out on the basis of a translation of the international application, when that translation is available (see Rule 55.2(c))

## Finding of lack of unity of invention (Rule 68)

- Same criteria as for international search (Rule 13 and paragraphs 10.20 to 10.59 of the International Search and Preliminary Examination Guidelines)
- Invitation by the IPEA to restrict the claims or to pay additional fees (which can be paid under protest)
- Applicant can select invention as “main invention” and those inventions for which additional fees are paid

## Prior art for IPE (Rule 64.1) (1)

- What is considered prior art?

Everything made available to the public anywhere in the world by means of written disclosure (including drawings and other illustrations) provided that such making available occurred prior to the relevant date

## Prior art for IPE (Rule 64.1) (2)

- What is the relevant date?
  - the date of the earlier application of which priority is claimed unless the IPEA considers that the priority claim is not valid for reasons other than the fact that the international filing date is later than the date on which the priority period expired, but is within two months from that date; or
  - the international filing date of the international application in all other cases

## Mandatory top-up search (Rule 66.1 *ter*)

- Aims at uncovering any prior art not available at the time when the ISR was established, in particular “secret” prior art (patent applications published on or after the date of establishment of the ISR but which have an earlier priority date)
- Exceptions:
  - Only in respect of claims for which the IPEA establishes an IPRP Chapter II
  - Where a search would serve no useful purpose, e.g. where the IPEA considers that the documents cited in the ISR are sufficient to demonstrate lack of novelty of the entire subject matter

## Written opinion of IPEA (Rules 66.2 and 66.6)

- The written opinion of the ISA is considered to be the written opinion of the IPEA (exception: IPEA decides not to accept written opinions by certain other ISAs)
- Where the written opinion of the ISA is taken as the written opinion of the IPEA, no second written opinion has to be issued
- If a second written opinion is issued, the applicant may respond within the time limit fixed in that second written opinion
- Possibility to request an interview with the examiner at the IPEA (Rule 66.6)

  - 6 months from the time provided under Rule 69.1 for the start of the international preliminary examination
  - 6 months from date of receipt by IPEA of translation under Rule 55.2,

  - replacement sheets containing rectifications of obvious mistakes authorized under Rule 91 by the IPEA and accompanying letter
  - when referred to in the report, any sheet and letter concerning the rectification of an obvious mistake which has not been taken into account because it was not available in time (Rule 66.4*bis*)

    - considered to go beyond the disclosure in the international application or
    - not accompanied by a letter indicating the basis for the amendments
- Not annexed to the report: any other correspondence or copies of amendments superseded by later amendments

## Requirement of unity of invention (Rule 13)

- An international application must relate to
  - one invention only or,
    - if there is more than one invention, those inventions must be so linked as to form a single general inventive concept (Rule 13.1).
- Inventions are considered linked so as to form a single general inventive concept only when there is a technical relationship involving one or more of the same or corresponding “special technical features”.
- The expression “special technical features” means those technical features that define a contribution which each of the inventions, considered as a whole, makes over the prior art (Rule 13.2).

(For further details and examples, see paragraphs 10.20 to 10.59 of the International Search and Preliminary Examination Guidelines)

## Lack of unity of invention before ISA (1) (Article 17(3) and Rule 40)

- Where there are several inventions, the first claimed invention (“main invention”) is always searched; further inventions are searched only if additional search fees are paid.
- The ISA will:
  - specify the reasons for the finding of lack of unity of invention (ISA/EP will send together with this notification the results of a partial search on the main invention); and
  - invite the applicant to pay, within one month from the date of the invitation, additional search fees and, if the applicant wishes to pay the additional fees under protest, a protest fee where applicable

## Lack of unity of invention before ISA (2) (Article 17(3) and Rule 40)

- Failure to pay additional fees does not affect the application; however, the additional inventions will not be searched and the written opinion will not contain a preliminary opinion on the unsearched claims; subsequently, the claims relating to unsearched inventions need not be examined by the IPEA
- No provisions for filing divisional applications during the international phase. This may only be done in the national phase before certain DOs (refer to applicable national law)

## Protest procedure before the ISA (1) (Rule 40.2)

- If the applicant pays any or all additional fees under protest, the ISA carries out the search on the additional inventions and, in parallel, reviews the invitation to pay additional fees
- Depending on the ISA, the review may be subject to the payment of a protest fee
- If, upon review, the ISA concludes that the protest was justified, the additional search fees paid will be refunded either totally or partially; the protest fee will only be refunded if the ISA finds that the protest was entirely justified

## Lack of unity of invention before IPEA (Article 34(3)(a) and Rule 68)

- Unity of invention based on same criteria as for international search (Rules 13 and 68)
- If IPEA considers there is lack of unity of invention, it invites the applicant to restrict the claims or pay additional examination fees
- Applicant can select part of the application to be examined as “main invention” and for which additional fees are paid
- Payment of additional fees may be made under protest, subject to the payment of a protest fee

## Protest procedure before the IPEA (1) (Rule 68.3)

- If the applicant pays any or all additional fees under protest, the IPEA carries out the international preliminary examination on the additional inventions and, in parallel, reviews the invitation to pay additional fees.
- Depending on the IPEA, the review may be subject to the payment of a protest fee.
- If, upon review, the IPEA concludes that the protest was justified, the additional examination fees concerned will be refunded either totally or partially; the protest fee will only be refunded if the IPEA finds that the protest was entirely justified.

## Form of publication

- Published international applications are available at [www.wipo.int/patentscope/search/en/structuredSearch.jsf](http://www.wipo.int/patentscope/search/en/structuredSearch.jsf)
- Official notices (PCT Gazette) are available at [www.wipo.int/pct/en/official\\_notices/index.htm](http://www.wipo.int/pct/en/official_notices/index.htm)

## Frequency of international publication

- International publication of international applications and publication of the Official Notices takes place every Thursday,
  - except where that Thursday is a day on which the International Bureau is not open for official business, for example, Ascension Day or the Thursday that follows the first Sunday of September and certain Thursdays in the Christmas/New Year period.
- In such cases, inquire at the International Bureau as to what will be the publication date (possibly, but not always, the preceding Wednesday).

## Technical preparations for international publication

- The technical preparations for international publication are normally completed 15 calendar days before the actual publication date

For example: if the publication date is: Thursday, *19 January 2017*, technical preparations are completed on Wednesday, *4 January 2017*

Consequently, any document that reaches the International Bureau on Tuesday, *3 January 2017*, is still taken into account for international publication (for example, change of name or address, amendment of the claims under Article 19, withdrawal of the international application or of a designation or of a priority claim)

- Technical preparations may be completed more than 15 days before the publication date where that publication date is not the “usual” Thursday because the International Bureau is not open for business or where there are a number of official holidays falling within that 15-day period. If in doubt, inquire at the International Bureau as to what will be the date of completion of technical preparations

## Effects of international publication

- The PCT published application becomes part of the prior art as of its international publication date (Rule 34.1(b)(ii))
- International publication entitles PCT applicants to provisional protection in the designated States, if such protection is granted for published national applications (Article 29)
  - Such protection may be made conditional
    - on the furnishing of a translation (which may be of the claims only)
    - on receipt by the designated Office of a copy of the international application as published under the PCT, and/or
    - in the case of early publication under Article 21(2)(b), on the expiration of 18 months from the priority date
  - For further information on the specific requirements of a given Office, see the *PCT Applicant's Guide*, International Phase, General Information (Annexes B1 and B2)

## Postponing publication of the international application (Rule 90bis.3(d) and (e)) (2)

- Safeguard: the withdrawal should be made conditional on its being received by the International Bureau on time to postpone publication
- Consequences: all time limits computed on the basis of the priority date which have not yet expired are recalculated on the basis of any remaining priority date or the international filing date, in particular for:
  - international publication
  - filing of demand
  - entry into the national phase

## ■ Access to File

- General principles
- Access to files held by Offices and Authorities

## General principles

- The RO, ISA, IPEA, DO, EO and the IB all maintain their own files related to the international application
- Applicant or any person authorized by the applicant always has access to the international application file
- International applications are confidential in relation to third parties and other Offices until international publication
- DOs have access to documents in the IB file insofar as they relate to the Chapter I procedure
- EOs, in addition, have full access to IPEA file once the IPRP Chapter II is established

## Access to files held by the IB (1)

- Before publication of the IA: Only applicant or any person authorized by the applicant has access to the full file content (preferably via ePCT **with** strong authentication)
- All published PCT applications are available on PATENTSCOPE

## Access to files held by the IB (2)

- For access to other documents in the file of the IB by third parties after publication:
  - International applications filed after 1 January 2009:
    - The entire publicly available file content is on PATENTSCOPE
  - International applications filed on or after 1 July 1998 and before 1 January 2009:
    - Certain documents are available on PATENTSCOPE
    - Some documents are available in paper form only and are made available upon request against payment of a fee
  - International applications filed before 1 July 1998:  
No access to file content

## Access to files held by the IB (3)

### ■ Restrictions:

- Copies of the IPRP (Chapter I or II) or any translation thereof are only made publicly available on PATENTSCOPE after 30 months from the priority date
- No access:
  - Any document in the file relating to the Chapter II procedure (such as demand, written opinion by the IPEA, etc.), except for the IPRP Chapter II
  - Purely internal documents and communications between Offices
  - Information that has been omitted from publication under Rule 48.2(I)
  - Information that has been omitted from the file held by the IB under Rule 94.1(e)

## Access to files held by the IB (4)

### ■ Requirements to omit certain information from public file access under Rule 94.1(e)

- Reasoned request by the applicant to the IB
- Accompanied by replacement sheets and letter drawing attention to the differences between the replaced and the replacement sheet (where applicable)
- Time limit for a request under Rule 94.1: any time
- Information qualifies for omission from public file access , if
  - it does not obviously serve the purpose of informing the public about the international application,
  - public access to such information would clearly prejudice the personal or economic interests of any person, and
  - there is no prevailing public interest to have access to that information

## Access to files held by the IB (5)

- Requirements to omit certain information from public file access under Rule 94.1(e) (*continued*):
  - IB may also draw the applicant's attention to information which it believes could qualify for omission from public file access under Rule 94.1(e), and suggest to the applicant to make a request under Rule 94.1(e)
  - Where the IB grants a request under Rule 94.1(e), it also informs all Offices and Authorities which have that information in their files not to give access to that information either
  - Whether or not a request to omit certain information is granted, the request to omit such information in any document part of that request will not be made publicly available by the IB

## How to obtain third party access to files held by the IB (1)

- PATENTSCOPE [www.wipo.int/patentscope](http://www.wipo.int/patentscope)
  - Access to published international applications, the latest bibliographic data, certain documents and forms

## Warning – fraudulent requests for payment of registration fees

- PCT applicants and agents are receiving invitations to pay fees that do not come from the IB and are unrelated to the processing of international applications under the PCT
- Whatever registration services might be offered in such invitations, they bear no connection to WIPO or to any of its official publications
- The services offered do not give applicants any added value, since they are provided by the IB for no additional charge ([www.wipo.int/pctdb](http://www.wipo.int/pctdb))

## Amendments under the PCT

- Amendments under Article 19
- Amendments under Article 34
- How to make amendments
- Amendments upon National Phase Entry

## Amendments under Article 19 (Rule 46) (1)

- One opportunity to amend the claims only after receipt of the international search report and written opinion of the ISA
- Amended claims must not go beyond disclosure of the international application as filed (Article 19(2)) (compliance with that requirement is, however, not checked at this point)
- Amended claims may be accompanied by a statement (Article 19(1), Rule 46.4)
- Normally must be filed within two months from the date of transmittal of the international search report and written opinion of the ISA (Rule 46.1)

## Amendments under Article 19 (Rule 46) (2)

- Filed directly with the IB (Rule 46.2)
- Generally used to better define provisional protection, where available
- Published as part of the international application at 18 months, together with the claims as originally filed (Rule 48.2(f))

## Amendments under Article 34 (Rules 53.9 and 66.3 to 66.9) (1)

- Description, claims and drawings may be amended in connection with the international preliminary examination under Chapter II
- They should be filed
  - together with the demand for international preliminary examination so that examination will be based on the application as amended (Rule 53.9); or
  - at least before the expiration of the time limit to file a demand (Rule 54*bis*.1(a))
- Attention: amendments need not be taken into account by the examiner if they are received after he has begun to draw up another written opinion or the report (Rule 66.4*bis*)

## Amendments under Article 34 (Rules 53.9 and 66.3 to 66.9) (2)

- Amendments shall not go beyond the disclosure of the international application as filed (Article 34(2)(b))
- If an amendment goes beyond the disclosure in the international application as filed, the international preliminary examination report shall be established as if that amendment had not been made, and the report shall so indicate
- The report shall also indicate the reasons why the amendment is considered to go beyond the disclosure in the international application as filed (Rule 70.2(c))

## Comparison between types of amendments during international phase

### Chapter I (Article 19)

- have effect in all DOs
- claims only
- filed upon receipt of the ISR and written opinion of ISA
- filed directly with IB (not ISA)
- formality examination by IB
- published as part of the international application by IB
- serve as basis for examination by IPEA unless reversed

### Chapter II (Article 34)

- have effect in all EOs
- description, claims, drawings
- filed best together with the demand, or during examination by IPEA
- filed directly with IPEA
- formality and substantive examination by IPEA
- are confidential between IPEA and the applicant, are not published during the international phase
- serve as basis for examination by IPEA unless superseded

## How to make amendments (Rules 46.5 and 66.8)

- Where claims are amended under Article 19 or 34, they have to be presented in the form of replacement sheets containing a complete set of claims
- Applicants must indicate the basis for the amendments in the application as filed, otherwise the IPRP (Ch.II) may be established as if the amendments had not been made
- In case of cancelation of certain claims, no renumbering of the remaining claims is required
- An accompanying letter explaining what has been amended is required
- Further details: Administrative Instructions Section 205

## Replacement sheets for amendments under Article 19

- May not be filed with the receiving Office
- Must be filed directly with the IB preferably using ePCT
- Requests for rectification of obvious mistakes (Rule 91) are to be distinguished from Article 19 amendments and are sent directly to the ISA

WIPO | PCT  
The International  
Patent System

Kyiv & Lviv

## Replacement sheets containing amendments under Article 34

- Can be filed in ePCT when preparing the demand
- Otherwise, must be filed directly with the competent IPEA
- Requests for rectification of obvious mistakes (Rule 91) are to be distinguished from Article 34 amendments

## Amendments upon entry into the national phase (Articles 28 and 41 and Rules 52 and 78)

- Description, claims and drawings may be amended
- Time limit = normally at least one month from the date of fulfillment of the requirements for entry into the national phase (i.e. not from the time limit under Article 22 or 39(1))
- Any later time limits under the national law apply
- Different amendments possible for different DOs and EOs
- Generally, any claims fee due for the national phase will be calculated on the basis of the number of claims valid at the time of entry into the national phase

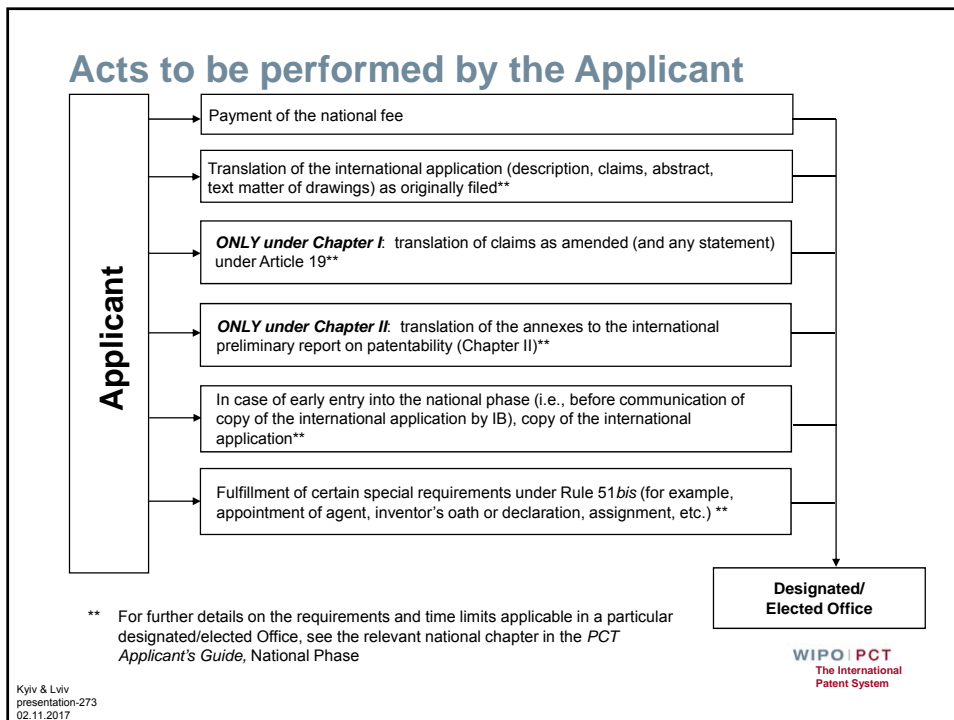

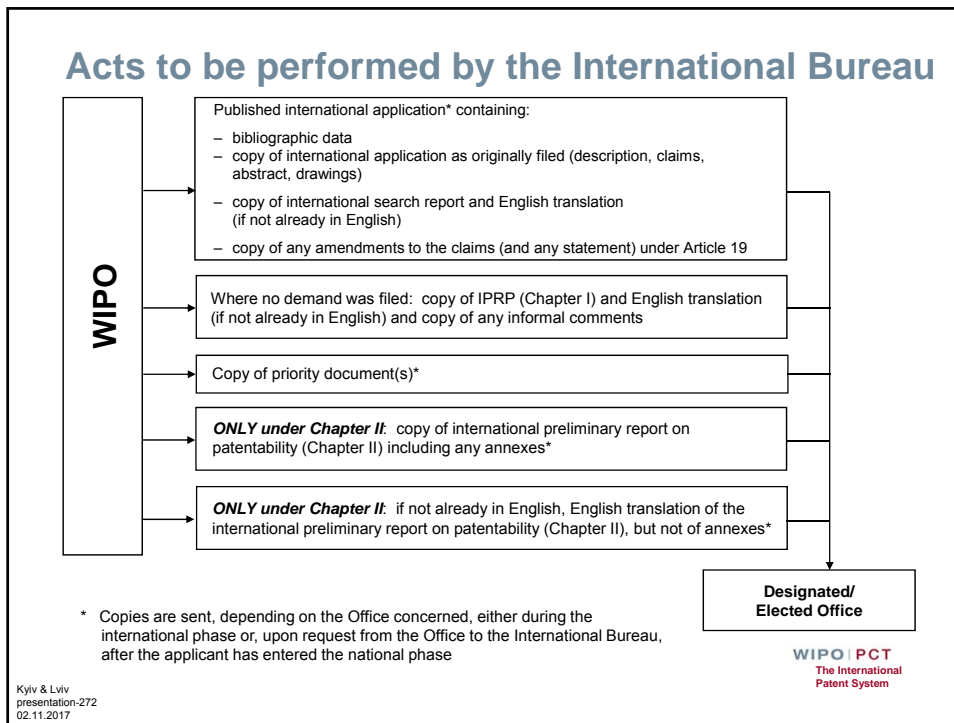

## Decisions to be taken by the applicant

- Whether
  - to proceed with or drop the international application ?
- When
  - at the end of 30 months (in some cases 31 months or more)
    - under Chapter I ?\*
    - under Chapter II ?
  - early entry ?
- Where (choice limited to designated/elected Offices)
  - which national Offices
  - which regional Offices

\* LU, TZ and UG continue to apply a 20-month time limit

## Time limit for entry in the national phase

The time limit applies irrespective of possible delays in the international phase due to:

- late international search report and written opinion of the ISA
- international preliminary examination delayed
- late international preliminary report on patentability (Chapter II)
- late translation of international preliminary report on patentability (Chapter II)

## Special national requirements (Art. 27 and Rule 51*bis*.1)

- Time limit under Rule 51*bis*.3:
  - If requirements are not fulfilled within the time limit for entry into national phase under Art. 22 or 39:
    - Invitation by DO
    - At least 2 months from the invitation

## Examples of special requirements under Rule 51*bis*.1 (1)

- Oath or declaration by the inventor (US only):
 

Where the corresponding declaration has been furnished during the international phase or directly to the DO/EO, no documents or evidence as to that matter may be required by DO/EO/US unless that Office may reasonably doubt the veracity of the declaration
- Assignment documents (of the priority rights or of the application):
 

Where the corresponding declaration has been furnished during the international phase or directly to the DO/EO, no documents or evidence as to that matter may be required by the DO/EO unless that Office may reasonably doubt the veracity of the declaration

## Examples of special requirements under Rule 51 *bis*.1 (2)

- Translation of the priority document may only be required (Rule 51 *bis*.1(e)):
  - where the validity of the priority is relevant to the determination whether the invention is patentable
  - in cases of incorporation by reference
- Appointment of local agent and submission of power of attorney
- Translation or other documents relating to the international application in more than one copy
- Certified translation of the international application (only where the Office may reasonably doubt the accuracy of the translation)

## National requirements simplified for PCT applications (1)

- Priority document
  - The applicant does not need to furnish the priority document since the IB transmits copies to the DO/EOs
  - If the DO/EO did not receive a copy of the priority document from the IB, it must request a copy from the IB (not from the applicant)
- Drawings
  - If the drawings do not contain any text matter to be translated, a simple copy of the drawings as filed is required by a few DOs
  - If the drawings contain text matter to be translated, a set of drawings containing the translated text matter needs to be furnished

## National requirements simplified for PCT applications (2)

- No legalized or certified translation of the international application
  - Otherwise, a simple translation is required
  - A few Offices (such as, AU, GB, IN, NZ, SG, ZA) require a "verified" translation
- No special form required (but strongly recommended) for entry into national phase

## Communication with DOs/EOs (Rule 93bis)

- Any communication, notification, correspondence or other document relating to an international application will be communicated by the International Bureau to DOs/EOs only upon their request and at the time specified by the Offices
- Most DOs/EOs will receive the majority of documents concerned only after an applicant has entered the national phase before its Office
- Almost all PCT Contracting States now receive the DVD collections containing the full texts of the published international applications

## Furnishing by International Bureau of copies of priority documents (Rule 17.2(a))

- The International Bureau provides copies of priority documents to designated Offices:
  - upon request
  - after international publication, unless the applicant made a specific request for early processing under Article 23(2)
- Almost all Offices request a copy of the priority document only after the application entered the national phase
- Only the European Patent Office systematically receives copies of all priority documents

## Recommendations for preparing entry into the national phase (1)

- Leave sufficient time, where necessary, to prepare the translation of the international application
- Send your local agent, copies of the (relevant) documents on file: the published international application, the international search report and written opinion by the ISA, the international preliminary examination report, priority documents; note that none of these documents are required to be filed by the local agent at the local patent office

## Recommendations for preparing entry into the national phase (2)

- Where you would prefer avoiding paying additional claims fee or other fees that are applicable under any particular national law, prepare the application, and any amendments thereof, according to the national practice
- Even though several designated/elected Offices provide for longer time limits, it is preferable to docket the 30-month time limits for all Offices (See [www.wipo.int/pct/en/texts/reservations/res\\_incomp.html](http://www.wipo.int/pct/en/texts/reservations/res_incomp.html) for exceptions under Article 22(1))

## A few further tips to remember

- Remember to monitor time limits for entering national phase
  - they apply irrespective of delays in the international phase
- Make necessary indications that application is entering the national phase, i.e., that it is not a direct national filing
- Translation of the international application must be correct and complete (no subject matter may be added and/or deleted)
- Pay the required fees (amount may be different from that applicable to direct national filing)

## Reinstatement of rights by DO/EOs (Rule 49.6) (1)

- Available in certain DO/EOs, where the applicant has missed the time limit under Article 22 or 39(1) to enter the national phase:
  - unintentionally
    - or - at the option of the Office -*
  - in spite of due care required by the circumstances

## Reinstatement of rights by DO/EOs (Rule 49.6) (2)

- Applicants may submit a request for reinstatement and enter the national phase within:
  - 2 months from the date of removal of the cause of the failure to meet the time limit to enter national phase; or
  - 12 months from the date of expiration of the time limit to enter national phase;whichever period expires first

## Reinstatement of rights by DO/EOs (Rule 49.6) (3)

- Longer time limits and/or further requirements may apply depending on the applicable national law
- For further details, see for each DO/EO, the relevant National Chapter in the *PCT Applicant's Guide*, National Phase

## DO/EOs to which Rule 49.6 does not apply

- Notifications of incompatibility with respective national law were filed in accordance with Rule 49.6(f):

CA	Canada	LV	Latvia
CN	China	MX	Mexico
DE	Germany	NZ	New Zealand
IN	India	PH	Philippines
KR	Republic of Korea	PL	Poland

- The national law applicable by some of these Offices may nevertheless provide for other forms of protection against loss of rights - for further details, see for each DO/EO, the relevant National Chapter in the *PCT Applicant's Guide*, National Phase

## Additional cases of protection against loss of rights

- Other than the (minimum) protection under Rule 49.6: excuse of delays in meeting time limits by designated/elected Offices (Article 48 and Rule 82*bis*)
- Rectification by designated/elected Offices of errors made by RO or IB (Rule 82*ter*)
- Review by and opportunity to correct before the designated/elected Offices (Articles 24(2), 25, 26, 39(3) and 48, Rules 82*bis* and 82*ter*)

## Withdrawals under Chapter I (1) (Article 24(1)(i) and Rule 90*bis*)

### ■ What?

- international application, designations (also for certain kinds of protection), priority claim

### ■ When?

- before the expiration of 30 months from the priority date

### ■ How?

- by a notice of withdrawal (use of Form PCT/IB/372 recommended) signed by all applicants, their agent or the appointed common representative, and filed with the RO or the IB

## Withdrawals under Chapter I (2) (Article 24(1)(i) and Rule 90*bis*)

### ■ Effect:

- withdrawal effective upon receipt by the RO or the IB
- withdrawal has no effect in DOs where national processing or examination has already started
- withdrawal of international application or designations:
  - effect ceases in each designated State concerned, with same consequences as withdrawal of a national application in that State
  - if notice of withdrawal received by the IB before completion of technical preparations for international publication, there will be no international publication (withdrawal can be made conditional on receipt in time to prevent publication)
- withdrawal of priority claim: time limits which have not expired are re-computed on the basis of the revised priority date resulting from the withdrawal

### ■ What?

- international application, designations, demand, elections, priority claim

### ■ When?

- before the expiration of 30 months from the priority date

### ■ How?

## Withdrawals under Chapter II (2) (Article 37 and Rule 90*bis*)

### ■ Effect:

- withdrawal effective upon receipt by appropriate Authority (see above)
- withdrawal has no effect in DOs/EOs where national processing or examination has already started
- withdrawal of demand or elections: withdrawal after expiration of Chapter I time limit for entry into national phase is considered to be withdrawal of the international application in relation to the State(s) concerned
- withdrawal of priority claim: time limits which have not expired are re-computed on the basis of the revised priority date resulting from the withdrawal

## Microbiological inventions

- Deposit of a sample in order to meet the requirement of full disclosure:
  - Many national laws require that, where a patent application refers to biological material which has not been made available to the public, a sample thereof be deposited with a recognized culture collection
- The Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure (Budapest Treaty)
  - provides for the recognition by its Contracting States of deposits made with any International Depository Authority (IDA) under the Budapest Treaty
- The IDAs are recognized by all PCT Contracting States listed in Annex L of the *PCT Applicant's Guide*, whether they are Contracting States of the Budapest Treaty or not

## When must the deposit be made?

- Many Offices require the deposit to be made before the filing date of the PCT application
- A late deposit, however, is no excuse for filing a PCT application claiming priority after the expiration of 12 months from the priority date (restoration of the right of priority may not work)
- Some Offices require that the deposit be made before the filing date of the application of which priority is claimed in the PCT application and that the priority application also makes reference to the deposited biological material, e.g. BY, CN, US

## Reference to deposited biological material in a PCT application (Rule 13bis)

- Required in a PCT application only where the national law of a designated State provides for it. Usually needed for full disclosure of the invention.
- The *PCT Applicant's Guide*, Deposits of Biological Material (Annex L), contains information on the requirements of the designated States whose national law includes provisions on the deposit of biological material and indicates when and how reference to such deposited biological material should be made.

## Time limit for furnishing references to deposited biological material (Rule 13*bis*.4)

- At the time of filing, as part of the international application (in the description): references in accordance with Rule 13.*bis*.3(a)(i) to (iv)
- Within 16 months from the priority date, or before completion of technical preparations for international publication: any further references related to the deposited biological material not part of the international application
- In case of a request for early publication: before completion of technical preparations for international publication

## Reference to deposited biological material to be made in the description

- In accordance with Rule 13*bis*.3, the reference must include:
  - the name and address of the depositary institution
  - the date of deposit of the biological material with that institution
  - the accession number given to the deposit by that institution
  - any relevant information on the characteristics of the biological material
- Usually included in a paragraph at the beginning of the description
- Alternatively, Form PCT/RO/134 may be used for that purpose and be numbered as a sheet of the description

## Reference to deposited biological material separate from the description

- Statement concerning the “expert solution”
- In the case where the applicant is not the depositor, a statement by the depositor concerning the right of the applicant to make reference to the biological material and to make it available to the public
- Form BP/4: acknowledgement of receipt by the IDA
- Form BP/9: viability statement
- All the above documents will be published by the IB with the international application

## The “expert solution” (Rule 13bis.6)

- In respect of certain designated Offices, the applicant is entitled to request that a sample be issued only to an expert nominated by the requester
- A space is provided in form PCT/RO/134 to make such indication
- The request must reach the IB before the completion of technical preparations for the international publication of the application
- Some Offices also require the applicant to notify them directly before international publication takes place, e.g. DO/AU, DO/DE, DO/DK

## Applicant and depositor of the sample are not the same person

- In this case, DO/GB and DO/EP require
  - within the time limit of 16 months from the priority date or before technical preparations for international publication have been completed
  - the name and address of the depositor to be included in the reference and
  - a statement specifying that the depositor has authorized the applicant to refer to the deposited biological material in the application and has given his unreserved and irrevocable consent to the deposited material being made available to the public
- Failure to do so may result in the application being refused in the national phase for insufficient disclosure

## Which type of reference is covered by Rule 13bis?

- Only references to deposits under the Budapest Treaty will be treated as references to biological material under Rule 13bis
- Certificates on the Grant of Community Plant Variety Rights issued by the Community Plant Variety Office, a European Union Agency, are not covered by the Budapest Treaty and Rule 13bis
- References other than to biological material under Rule 13bis will not be published as part of the international application, but will be made available on PATENTSCOPE under “related documents on file at the International Bureau”

- Relevant provisions:
  - Rules 5.2 and 49.5(a-bis)
  - Section 208 and Annex C of the Administrative Instructions
- Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, the description must contain a sequence listing complying with the standard provided for in Annex C of the Administrative Instructions (“PCT Sequence Listing Standard”) (that standard has replaced the previously applicable various requirements of the ISAs, IPEAs and designated/elected Offices)

  - must be identical to the written sequence listing
  - must be accompanied by a statement to that effect
- A sequence listing which complies with the Standard must be accepted:
  - by all ROs, ISAs and IPEAs for the purposes of the international phase and
  - by all designated/elected Offices for the purposes of the national phase

## PCT Sequence Listing Standard (1)

- Basis: Section 208 and Annex C of the Administrative Instructions
- Where the sequence listing is filed together with the international application, it:
  - must be presented as a separate “Sequence Listing Part” of the description
  - must be placed at the end of the application
  - must begin on a new page
  - should preferably have independent page numbering

## PCT Sequence Listing Standard (2)

- The Standard provides further details as to:
  - the symbols and the format which must be used for the presentation of nucleotide and/or amino acid sequences
  - with regard to other available information to be included in the sequence listing, the mandatory items which must, and the optional item which may, be included, and the order in which those items must appear

## PCT Sequence Listing Standard: presentation of free text (1)

- The Standard defines “free text” as a wording describing characteristics of the sequence which does not use “language neutral vocabulary”, that is, controlled vocabulary used in the sequence listing that represents scientific terms as prescribed by sequence database providers (including scientific names, qualifiers and their controlled vocabulary values, the symbols and the feature keys appearing in the Appendices to the Standard).
- Where the sequence listing part of the international application contains free text, that free text:
  - may, and preferably should, be in English (irrespective of the language of the main part of the description) (Rule 12.1(d))
  - must be repeated in the main part of the description (“Sequence Listing Free Text”) in the language thereof (ISA invites to furnish correction if not contained in main part of description as filed) (Rules 5.2(b) and 13*ter*.1(f))

## Filing of sequence listings forming part of the international application

- No page fees are payable for sequence listings filed in ST.25 **text** format as part of an international application filed in electronic form
- Full page fees are payable for all pages of a sequence listing filed in **image** format as part of an international application in electronic form
- Full page fees are payable for sequence listings filed on paper
- **ATTENTION:** mixed mode filings (former Part 8 of the Administrative Instructions) no longer permissible

## Tables related to sequence listings

- Pages of tables relating to sequence listings count as regular pages of the description
- Full page fees are payable for pages containing tables related to sequence listings, irrespective of whether or not they are submitted in electronic form

## Filing of sequence listings not forming part of the international application

- Where a copy of a ST.25-compliant text format sequence listing has been furnished to the ISA under Rule 13*ter*.1 (for the purposes of international search only), the ISA will forward a copy of such a sequence listing to the International Bureau
- The International Bureau will make a copy of all sequence listings in text format received publicly available on PATENTSCOPE

## Procedure where the sequence listing does not comply with the Standard (1)

- If the international application as filed does not contain:
  - a written sequence listing complying with the Standard; and/or
  - a sequence listing in electronic form complying with the Standard,
 the ISA invites the applicant to furnish to it a listing (in such format) complying with the Standard, unless such a listing is already available to it, and to pay to it, where applicable, a late furnishing fee (Rule 13*ter*.1(a) and (b))

## Procedure where the sequence listing does not comply with the Standard (2)

- Any sequence listing which is not contained in the international application as filed but which is furnished subsequently must not go beyond the disclosure in the application as filed and must be accompanied by a statement to that effect (Rule 13*ter*.1(e))
- If the applicant does not comply with the invitation within the time limit fixed in the invitation, the ISA is not required to search the application to the extent that a meaningful search cannot be carried out without the listing (Rule 13*ter*.1(d))

## Sequence listing for International Preliminary Examining Authority (Rule 13*ter*.2)

The requirements applicable in respect of the procedure before the ISA apply *mutatis mutandis* in respect of the procedure before the IPEA

## Sequence listing for designated/elected Offices (Rule 13<sup>ter</sup>.3)

- Once the processing of the international application has started before a designated/elected Office, the requirements applicable in respect of the procedure before the ISA (and IPEA) apply *mutatis mutandis* in respect of the procedure before that Office
- No designated/elected Office is entitled to require the applicant to furnish to it a sequence listing other than a sequence listing complying with the PCT Sequence Listing Standard
