Traditional patent systems

- Local patent application followed within 12 months by multiple foreign applications claiming priority under Paris Convention:
 - multiple formality requirements
 - multiple searches
 - multiple publications
 - multiple examinations and prosecutions of applications
 - translations and national fees required at 12 months
- Some rationalization because of regional arrangements: ARIPO, EAPO, EPO, OAPI

PCT system

Local patent application followed within 12 months by international application under the PCT, claiming Paris Convention priority, with “national phase” commencing at 30 months*:

- ❑ one set of formality requirements
- ❑ international search
- ❑ international publication
- ❑ international preliminary examination
- ❑ international application can be put in order before national phase
- ❑ translations and national fees required at 30 months*, and only if applicant wishes to proceed

* For exceptions, see http://www.wipo.int/pct/en/texts/reservations/res_incomp.html

General remarks on the PCT system (1)

- The PCT system is a patent “filing” system, not a patent “granting” system. There is no “PCT patent”
- The PCT system provides for
 - an international phase comprising:
 - filing of the international application
 - international search and written opinion of the ISA
 - international publication and
 - international preliminary examination
 - a national/regional phase before designated Offices
- The decision on granting patents is taken exclusively by national or regional Offices in the national phase

General remarks on the PCT system (2)

- Only inventions may be protected via the PCT by applying for patents, utility models and similar titles.
- Design and trademark protection cannot be obtained via the PCT. There are separate international conventions dealing with these types of industrial property protection (the Hague Agreement and the Madrid Agreement and Protocol, respectively).
- The PCT is administered by WIPO as are other international treaties in the field of industrial property, such as the Paris Convention.

Non-applicability of time limit of 30 months under Article 22(1)

- The Offices of the following States have notified the International Bureau that they will not apply the 30 month time limit under Chapter I, as of 1 April 2002, for as long as modified Article 22(1) is not compatible with their national law:

LU Luxembourg
TZ United Republic of Tanzania
UG Uganda

- Where one of these States has been designated for the purposes of a regional patent, the applicable time limit is 31 months
- If no demand for international preliminary examination is filed before the expiration of 19 months in respect of above States, the national phase will have to be entered before the expiration of 20 or 21 months from the priority date

WIPO | PCT
The International
Patent System

■ Basics of the PCT

- The international application
- The international filing date
- The applicant
- Competent RO and ISA

The international application

- Only one application filed, containing, by default, the designation of all States (for every kind of protection available) and usual priority claim(s)
- Has the effect of a regular national filing (including establishment of a priority date) in each designated State: the international filing date is the filing date in each designated State
- Filed in one language
- Filed with one office
- One set of formality requirements
- Delays national processing until 30 months from the priority date (for exceptions, see www.wipo.int/pct/en/texts/reservations/res_incomp.html)

Minimum requirements for an international filing date (Article 11(1)) (1)

- The application must contain at least:
 - an indication that it is intended as an international application
 - a request which has the effect of making all possible designations (Article 4 and Rules 3 and 4.9)
 - the name of the applicant (Rule 4.5)
 - a description (Rule 5)
 - a claim (Rule 6)

Minimum requirements for an international filing date (Article 11(1)) (2)

- Note that if:
 - none of the applicants have the right to file with the receiving Office for reasons of residence or nationality (Rules 18 and 19); or
 - the application is filed in a language not accepted by the receiving Office for that purpose (Rule 12.1),the receiving Office will transmit the application to the receiving Office of the International Bureau for further processing (Rule 19.4)

Not required for obtaining an international filing date

- payment of fees
- applicant's signature
- title of the invention
- abstract
- drawings (for missing drawings, see Article 14(2) and Rule 20.5)
- translation into language of search or publication

The PCT applicant (Article 9 and Rule 18)

- The applicant may be a natural person (e.g. the inventor) or a legal entity (e.g. company, university, NGO) (also for the US since 16 September 2012)
- It is possible to indicate different applicants for different designated States (Rule 4.5(d))
- At least one of the applicants must be a national or resident of a PCT Contracting State (Rule 18.3)

Where to file the international application (Rule 19)

- with a national Office
- with the International Bureau of WIPO, or
- with a regional Office

For details, see PCT Applicant's Guide, International Phase, General Information, Annexes B1 and B2

Choice of receiving Office

Considerations:

- Accepted filing languages
- Choice of International Searching Authorities
- Criteria for restoration of the priority right and fee to be paid
- Possibility to incorporate by reference
- Acceptance of pre-conversion files

Which ISA(s) is (are) competent (Rule 35)

- The competent ISA(s) is (are) specified by the RO
- If more than one is specified by the RO, the applicant has the choice:
 - in making that choice, the applicant must take into account the language(s) accepted by the ISA (a translation of the international application for the purposes of international search may be required in certain cases (Rule 12.3))
- If the international application is filed with RO/IB, the competent ISAs will be those which would have been competent if the international application had been filed with (any of) the national or regional Office(s) which, on the basis of applicant's nationality or residence, could be a competent RO
- Choice of ISA to be indicated in the request (Box No. VII)

Elements making up the international application

- Request (Article 3(2))
- description (Article 3(2))
- one or more claims (Article 3(2))
- abstract (may be filed later without affecting the international filing date) (Articles 3(2) and 3(3))
- drawings (where applicable) — later submission may, subject to certain conditions, result in a later international filing date (Articles 3(2) and 14(2))
- sequence listing part of description (where applicable) (Rule 5.2(a))
- indications containing references to deposited microorganisms or other biological material (some designated Offices (e.g. Japan) require that they be in the description or in the international application on the international filing date) (Rule 13*bis*)

Elements which may accompany the international application

- translation of the international application for the purposes of international search or international publication — may be furnished later without affecting the international filing date (Rules 12.3 and 12.4)
- separate power of attorney or copy of general power of attorney — may be filed later without affecting the international filing date (Rules 90.4 and 90.5)
- priority document(s) — may be furnished until the date of international publication (Rule 17.1)
- sequence listing in electronic form complying with the Standard set out in Annex C of the Administrative Instructions—may be furnished later directly to the ISA without affecting the international filing date but subject to a late furnishing fee (Rule 13*ter*)
- separate indications concerning deposited biological material that are not part of the international application, for ex., Form PCT/RO/134 (Rule 13*bis*)

The request

- Printed request form (Form PCT/RO/101)
 - periodically updated
 - available on Internet (<http://www.wipo.int/pct/en/forms>)
 - may be obtained free of charge from the receiving Office or the International Bureau
- Computer-generated request (Rules 3.1 and 3.4, Section 102(h))
 - layout and contents must correspond to those of the printed form (no boxes may be omitted)
 - slight adjustments are permitted
 - any text printed in italics may be omitted
- PCT-SAFE (EASY mode) request (Rule 89*ter* and Section 102*bis*)
- Electronic filing of the international application in accordance with Part 7 and Annex F of the Administrative Instructions with ROs which accept the filing of international applications in electronic form

Concept and operation of designation system (Rule 4.9)

- Automatic and all-inclusive designation of all PCT Contracting States
 - exceptions to the all-inclusive designation possible for DE, JP and KR (countries with particular rules on “self-designation”)
 - but only if the international application contains a priority claim to an earlier application filed in the State that is to be excluded
 - otherwise withdrawals of designations possible
- Choice of types of protection postponed until national phase entry (e.g. patent or utility model, national or regional patent)
- “Parent” information (continuation applications, patents of addition) may be included in PCT request form for search purposes

WIPO | PCT
The International
Patent System

Filing-5
08.10.12

Signature of the request (1) (Rules 4.15, 26.2bis(a))

- In principle, the request must be signed by all persons (legal entity or natural persons) indicated as “applicant” or “applicant and inventor”

BUT: if only one of the applicants signs, the lack of signature of the other applicants will not be considered a defect

WARNING: Any notice of withdrawal would have to be signed by or on behalf of all applicants (including applicant/inventors)

NOTE: DOs are entitled to require confirmation of the international application by the signature of any applicant for the DO who has not signed the request

WIPO | PCT
The International
Patent System

Filing-6
08.10.12

Signature of the request (2) (Rules 4.15, 26.2bis(a))

- Signature by a person not named as applicant (FOR---ON BEHALF OF---AS AUTHORIZED SIGNATORY OF) depends on national law applied by receiving Office:
 - either an officer or employee of a legal entity (an officer or employee who does not have to be a patent attorney or patent agent)
 - or a legal representative, if the applicant is a natural person who is incapacitated
 - or a legal representative, if the applicant is a bankrupt company
- A person indicated as “inventor only” need not sign the request

WIPO | PCT
The International
Patent System

Filing-7
08.10.12

Signature of the request (3) (Rules 4.15, 26.2bis(a))

- If the request is not signed by the applicant(s) but by an agent, a separate power of attorney signed by all the applicant(s) must be filed (either original individual power or copy of general power)

BUT: if only a power of attorney signed by one applicant is filed, the lack of powers of attorney signed by the other applicants will not be considered a defect

NOTE: ROs may waive requirement that a separate power or a copy of a general power of attorney must be submitted

- Minimum and maximum margins for the sheets of text and drawings (Rule 11.6)
- Indication of the applicant's or agent's file reference (Rule 11.6(f) and Section 109)
 - 12 characters maximum
 - in the upper left-hand corner of the sheet
 - within 1.5 cm of the top of the sheet

Declarations under Rule 4.17

- Purpose: possibility to anticipate certain national phase requirements during the international phase (Rule 51 *bis*.2)
- Inclusion in request or subsequent filing is optional
- Declarations relate to the following matters (Rule 4.17):
 - identity of the inventor
 - applicant's entitlement to apply for and be granted a patent
 - applicant's entitlement to claim priority of an earlier application
 - declaration as to inventorship (for the US designation only)
 - non-prejudicial disclosures or exceptions to lack of novelty

Formal requirements

- Declarations have to use standardized wording as prescribed in Sections 211 to 215 of the Administrative Instructions
- Where a declaration has been furnished, no documents or evidence as to that matter may be required by the designated/elected Office
 - unless that Office may reasonably doubt the veracity of the declaration; and/or
 - evidence concerning non-prejudicial disclosures or exceptions to lack of novelty may be required

Declaration of inventorship (Rule 4.17(iv)) (only for US designation)

- New standardized wording since 16 September 2012 (see Section 214 of the AIs)
- All inventors need to be named in the same declaration
- Declaration must be signed and dated by all inventors
- Signatures may appear on different copies of the same complete declaration
- Signature does not have to be an original (fax copy)
- DO/US accepts a seal as signature when the international application is filed with receiving Offices which accept seals as signatures

Addition/correction of declarations (Rule 26*ter*)

- Applicants may correct or add any of the declarations filed under Rule 4.17
- Time limit: until the expiration of 16 months from the priority date (or even later, provided that the declaration is received by the International Bureau before the technical preparations for international publication have been completed)
- The receiving Office or International Bureau may invite the applicant to correct any declaration that is not worded as required or, in the case of the declaration of inventorship (Rule 4.17(iv)), is not signed as required

WIPO | PCT
The International
Patent System

Declaration-5
04.02.13

Publication of declarations

- Declarations received within the applicable time limit will be mentioned on the front page of the published international application
- The full text of the declarations will be published as part of the international application

WIPO | PCT
The International
Patent System

Declaration-6
04.02.13

Declarations referred to under Rule 4.17: Additional issues

- National forms should not be used for declarations in the international phase (for instance, a combined declaration of inventorship/ power of attorney) since they do not use the standardized wording
- When a declaration is furnished after the international filing date, no further page fee would be required
- If a defective declaration is not corrected during the international phase:
 - does not affect the processing of the declaration by the International Bureau
 - DOs/EOs may accept defective declaration
- No provision for the withdrawal of declarations

PCT-SAFE (Secure Applications Filed Electronically)

Agents (Rule 90)

■ Who can act as agent?

- any person (attorney, patent agent, etc.) who has the right to practice before the RO can act as agent and automatically has the right to practice before the IB, the ISA and the IPEA (Article 49);
- an agent who has the right to practice before the ISA and/or IPEA can be appointed specifically for the purposes of the procedure before that ISA or IPEA (Rule 90.1(b) and (c));
- sub-agents may be appointed by agents (Rule 90.1(d)).

■ What is a common agent?

- an agent appointed by all the applicants

Common representatives (Rule 90)

- Who can act as common representative?
 - one of the applicants, who is entitled to file an international application (i.e., who is a resident or national of a PCT Contracting State), may be appointed by all the other applicants, or
 - where neither a common agent nor a common representative has been appointed, the first named applicant in the request who is entitled to file an international application with the RO with which the international application was filed is automatically “deemed” to be common representative.

Agents and common representatives (Rule 90)

- Any act by or in relation to a common agent or a common representative has the effect of an act by or in relation to all the applicants, except for:
 - a withdrawal made by a “deemed” common representative (Rules 90.3(c) and 90*bis*.5(a)); and,
 - where an RO does not require that powers of attorney have to be submitted (Rules 90.4 and 90.5), a withdrawal made by an agent or common representative who has not submitted powers signed by all applicants (Rule 90*bis*.5(a))

Appointment of agents and common representatives (Rules 90.4 to 90.6)

- Agents and common representatives may be appointed in any of the following ways:
 - in the request or, under Chapter II, in the demand;
 - in a separate power of attorney relating to a given international application;
 - in a general power of attorney relating to all international applications filed in the name of the applicant.
- General powers of attorney are to be filed with the RO or, where applicable, with the ISA or IPEA.
- For provisions on revocation of appointment of agents and renunciation by an agent of his appointment, see Rule 90.6.

Waiver of requirement that a power of attorney be furnished (Rules 90.4(d) and 90.5(c))

- RO, ISA, IPEA and IB may waive the requirement that:
 - a separate power of attorney; and/or
- RO, ISA and IPEA may waive the requirement that
 - a copy of a general power of attorney has to be furnished
- Any Office or Authority that has waived the requirement in general may nevertheless require that a power of attorney be furnished in particular instances
- For the table of Offices that made such a waiver, see www.wipo.int/pct/en/texts/pdf/p_a_waivers.pdf

Common agent

Agent X is a common agent if he has been appointed by all applicants

Appointed common representative (Rule 90.2(a))

- Applicants B and C appoint applicant A as their common representative.
- A may be so appointed only if national or resident of a PCT Contracting State.

Agent of the appointed common representative

- Applicant A (e.g. corporate applicant), who has been appointed by the other applicants (e.g. applicants/inventors) as their common representative, appoints agent X.
- Agent X can, on behalf of the appointed common representative, sign all documents for all applicants including any withdrawal (Rule 90.3(c)), provided that where a PCT Authority has waived the requirement that powers of attorney have to be submitted, such powers are on file.

“Deemed” common representative (Rule 90.2(b))

- There is no common agent and the applicants have not appointed a common representative. Consequently applicant A is the "deemed" common representative (i.e., the first applicant named in the Request, who has the right to file an international application with the receiving Office with which the international application was filed).
- Agent X, appointed only by applicant A, can sign all documents for all applicants except any withdrawal (Rules 90.3(c) and 90bis.5(a)).

Priority Claims

- PCT requirements
- Priority documents
- Correction/Addition of priority claims
- Restoration of the right of priority

The right of priority (1) (Article 4 of the Paris Convention)

- Any filing of an application for a patent by an applicant in one member country, entitles that applicant (or his successor in title) to have certain rights when applying for patent protection in all other member countries within 12 months
- For prior art purposes, the later applications will be regarded as having been filed on the same date as the first application
- The right of priority can be based only on the first filed application on the subject matter (see Paris Convention Art.4C(4) for exception)

The right of priority (2) (Article 4 of the Paris Convention)

- Multiple and partial priorities may be claimed
- The later application must concern the same subject as the first application the priority of which is claimed
- Withdrawal, abandonment or rejection of the first application does not destroy its capacity to serve as a basis for priority

Priority date (PCT Article 2(xi))

- The priority date for the purposes of computing time limits means:
 - where the international application contains a priority claim, the filing date of the application whose priority is claimed
 - where the international application contains several priority claims, the filing date of the earliest application whose priority is claimed
 - where the international application does not contain any priority claim, the international filing date

Claiming priority (PCT Article 8, Rule 4.10)

- The international application may contain a declaration claiming the priority of one or more earlier applications
 - filed in or, by way of a regional or international application, for any country party to the Paris Convention and/or
 - filed in any Member of the World Trade Organization (WTO) that is not party to the Paris Convention

Contents of priority claims (Rule 4.10) (1)

- Earlier national application:
 - filing date
 - application number
 - country party to the Paris Convention or Member of WTO in which earlier application was filed
- Earlier regional application:
 - filing date
 - application number
 - authority entrusted with the granting of regional patents (in practice, the regional Office concerned)
 - where at least one country party to the regional patent treaty is neither party to the Paris Convention nor Member of WTO, at least one country party to that Convention or one Member of that Organization for which that earlier application was filed

Contents of priority claims (Rule 4.10) (2)

- Earlier international application:
 - international filing date
 - international application number
 - receiving Office with which the earlier international application was filed

Furnishing of priority documents (Rule 17.1)

- Where the priority of an earlier national, regional or international application is claimed, the applicant must provide a priority document for each corresponding earlier application (that is, a certified copy of the earlier application)
 - by furnishing such document directly to the receiving Office or the International Bureau (Rule 17.1(a)), or
 - by requesting the receiving Office to prepare such document and transmit it to the IB (Rule 17.1(b)), if the earlier application was filed with that Office, or
 - by requesting the IB to obtain the priority document from a digital library (Rule 17.1(b-bis)) (only for Offices participating in the Digital Access Service (DAS))

Digital Access Service for Priority Documents (DAS)

■ Legal Basis:

- PCT Rule 17.1(b-bis)
- Administrative Instructions 715 and 716

■ Applicants may request the IB to retrieve priority documents from digital libraries (may also be possible at some DOs)

■ Participating Offices: AU, CN, DK, ES, FI, GB, IB, JP, KR, SE, US

■ For detailed information on DAS, see: www.wipo.int/das/en

Retrieval of priority documents via DAS

■ Possibility to request the IB to retrieve a copy of the priority document of an earlier application, in electronic form, via DAS

■ The service is available for earlier national applications filed with AU, CN, DK, ES, FI, GB, JP, KR, SE and US and for earlier international applications filed with DK, FI, SE and RO/IB

■ The Office with which the earlier national application was filed is known as the Office of First Filing (OFF) or the Depositing Office

■ The Office that retrieves the document is known as the Office of Second Filing (OSF) or Accessing Office

Main steps for the use of DAS

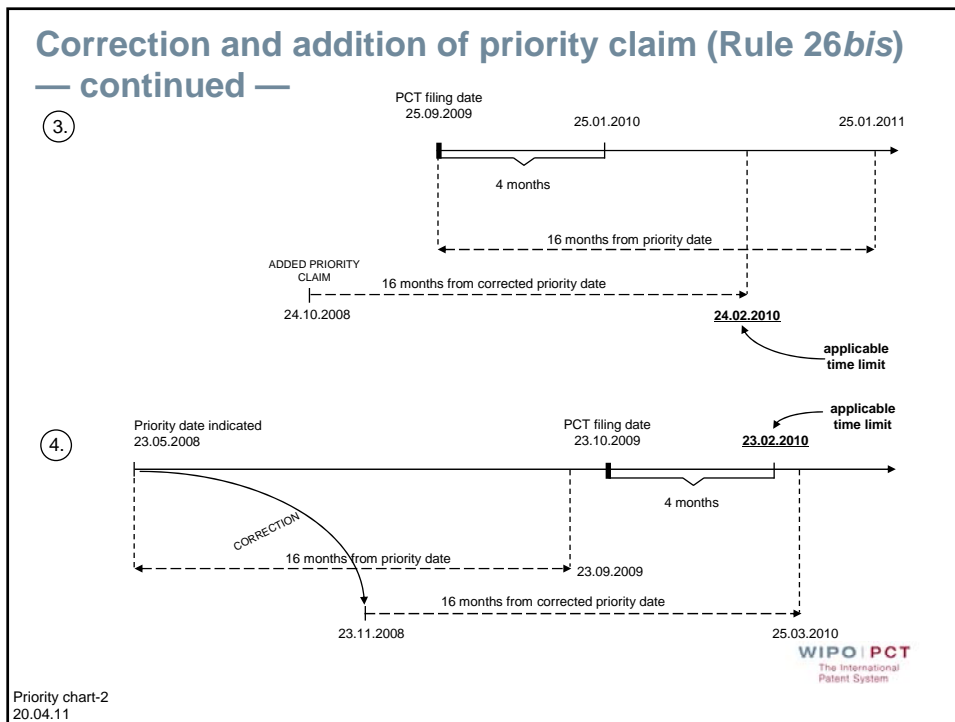

- Request the OFF to make the earlier application available via DAS
- The OFF (or, in some cases, the IB on behalf of the OFF) provides the applicant with an access code
- File the PCT international application and request the IB to retrieve the priority document via DAS by checking the appropriate box on the request form and include the access code
- The IB retrieves the priority document via DAS and sends a confirmation of retrieval to the applicant by means of the form PCT/IB/304

Requesting DAS p-doc retrieval

- Select the checkbox on the Priority details page for the corresponding priority claim and indicate the access code.

Time limit for the furnishing of priority documents (Rule 17.1)

- Direct submission by the applicant to the RO:
 - within 16 months from the priority date
- Direct submission by the applicant to the IB:
 - before international publication
- Request to the RO to prepare and transmit the priority document to the IB:
 - within 16 months from the priority date
- Submission via DAS to IB:
 - The priority document must be made available to the IB via DAS and the request to the IB to retrieve the priority document must be made before international publication

Correction/addition of priority claims

■ What can be the problem?

- missing priority claim
- missing priority date
- missing indications of the date, number or country of filing
- filing date of earlier application more than 12 months before the international filing date
- earlier filing not in a country party to the Paris Convention or a Member of WTO

■ Applicable provisions:

- Article 8
- Rules 4.10, 26*bis*, 48.2(a)(vii) and 91

Correction/addition of priority claims affecting the priority date (Rule 26*bis*) (1)

■ Cases concerned:

- adding a priority claim with an earlier filing date than any priority claim present in the application
- correction of the filing date of the earliest priority claim

Correction/addition of priority claims affecting the priority date (Rule 26bis) (2)

■ Applicable time limit:

- within 4 months from the international filing date; or
- possibly later, if the earlier of the following two time limits expires later than the 4-month time limit:
 - 16 months from the priority date before the correction or addition
 - 16 months from the priority date after the correction or addition
- any correction received before the RO or IB has declared the priority claim to be void and not later than one month after the expiration of the above time limit, will be considered as timely received (Rule 26bis.2(b))

Priority-16
11.02.13

NOTE: This does not apply to late additions of priority claims

Correction/addition of priority claims not affecting the priority date (Rule 26bis) (1)

■ Cases concerned:

- corrections which do not affect the filing date of the priority claim
- adding a priority claim with a later filing date than the earliest priority claim present in the application (e.g. second priority claim)
- corrections of the filing date of a priority claim which is not the earliest one

Correction/addition of priority claims not affecting the priority date (Rule 26bis) (2)

■ Applicable time limit:

□ Rule 26bis.1(a):

- within 4 months from the international filing date; or
- within 16 months from the priority date, whichever time limit expires later
- any correction received before the RO or IB has declared the priority claim to be void and not later than one month after the expiration of the above time limit, will be considered as timely received (Rule 26bis.2(b))

NOTE: This does not apply to late additions of priority claims

□ Rule 91: within 26 months from the priority date

Invitation to correct by RO or IB (1)

■ Forms:

- receiving Office: Form PCT/RO/110
- International Bureau: Form PCT/IB/316

■ Invitation (Rule 26bis.2(a)), is issued if:

- priority claim does not comply with requirements of Rule 4.10
- any indication in the priority claim is inconsistent with the corresponding indication appearing in the priority document
- International application has an international filing date outside the priority period

WIPO | PCT
The International
Patent System

Priority-19
11.02.13

Invitation to correct by RO or IB (2)

- The RO will also draw the attention of the applicant to the possibility to request restoration of the priority right (Rule 26*bis*.3) if the international filing date is outside of the priority period but within a period of two months from the date of expiration of the priority period
- If the applicant does not correct the priority claim in response to the invitation, the priority claim concerned will be considered void, for the purposes of the procedure under the PCT (Rule 26*bis*.2(b))

Invitation to correct by RO or IB (3)

- However, a priority claim will not be considered void only because (Rule 26*bis*.2(c)) :
 - the indication of the number of the earlier application is missing; or
 - an indication in the priority claim is not the same as the corresponding indication appearing on the priority document; or
 - the international filing date is outside of the priority period but within a period of two months from the date of expiration of the priority period

Invitation to correct by RO or IB (4)

- The finding that the priority claim is considered void for the purposes of the procedure under the PCT, would not prevent any designated Office from recognizing such a priority claim for the purposes of the national phase if so permitted or required by national law
- Warning to third parties: different priority dates may apply in different designated States (Rules 26*bis*.2(d) and 48.2(a)(ix))

Publication related to priority claims (1)

- Information concerning a priority claim considered void or only not considered void because:
 - the number was missing
 - inconsistency with the indications on priority document
 - the international filing date is outside of the priority period but with a period of two months from the date of expiration of the priority period

will be published by the International Bureau free of charge together with, where applicable, information furnished by the applicant concerning such priority claims (Rule 26*bis*.2(d))

Publication related to priority claims (2)

- Correction and addition of priority claims under Rule 26*bis*.1(a):

After the expiration of the applicable time limit to correct or add a priority claim, applicant may request the International Bureau (Rule 26*bis*.2(e)) to publish information concerning the priority claim concerned:

- within 30 months from priority date; and
- subject to the payment of a fee

Restoration of the right of priority - Competent Authorities

- RO during the international phase
(Rule 26*bis*.3)
- DO during the national phase
(Rule 49*ter*.2)

Restoration of the right of priority

Applicable criteria

- Applicable Rules: 26*bis*.3(a) and 49*ter*.2(a)
- Two possible criteria for restoration:
 - failure to file the application within the priority period occurred in spite of due care required by the circumstances having been taken
 - failure to file the application within the priority period was unintentional
- All Offices must apply at least one of these criteria and may apply both; designated Offices may also apply a more favorable criterion in accordance with their national law

Restoration by RO (Rule 26*bis*.3)

- Conditions:
 - request to restore must be filed with the RO
 - time limit: within a period of 2 months from the date of the expiration of the priority period
 - filing of statement of reasons for failure to comply with the time limit
 - statement should preferably be accompanied by a declaration or other evidence to support such statement
 - where applicable, payment of the required fee

Effects of refusal to restore by RO (Rule 26*bis*.3)

- Any priority claim to an earlier application filed less than 14 months before the international filing date
 - will not be declared void even if priority is not restored by the RO (Rule 26*bis*.2(c)(iii))
 - will serve as a basis to calculate time limits during the international phase
- The validity of such a priority claim in the national phase is not assured

Effects of restoration in the national phase (Rule 49*ter*.1)

- Effect of restoration by RO in the national phase:
 - RO restoration based on the “due care” criterion is effective in all DOs
 - RO restoration based on the “unintentional” criterion is effective in those DOs which apply that criterion (or a more lenient one)
 - RO restoration is not conclusively binding on DOs: limited review by DOs is possible
 - RO refusal to restore is not binding on DOs
- For declarations of incompatibility with the national law (reservations), see the WIPO website at:
www.wipo.int/pct/en/texts/reservations/res_incomp.html

Confirmation of incorporation by reference (Rules 20.6 and 20.7) (2)

- If not all requirements for incorporation by reference are fulfilled
(for example, if a missing element or part is not entirely contained in the earlier application):
 - the international application is assigned a later filing date (date of receipt of missing element or part),
 - applicant may request that missing part be disregarded (Rule 20.5(e))

Invitation by RO to correct defect under Article 11(1) (Rule 20.3)

Where the entire description or all claims are missing, RO invites the applicant to either:

- furnish a correction under Article 11(2) and the international application is accorded a later filing date or,
- confirm under Rule 20.6(a) that the element is incorporated by reference under Rule 4.18 and the international filing date is maintained

Effect of incorporation by reference in the national phase (Rule 82*ter*.1(b))

- DOs may, to a limited extent, review the decision allowing the incorporation by reference
- Declarations of incompatibility with the national law (reservations) were made by a number of ROs and DOs
See WIPO website at:
www.wipo.int/pct/en/texts/reservations/res_incomp.html

Declarations of incompatibility with the national law

The following Offices have notified the International Bureau of the incompatibility of Rules 20.3(a)(ii) and (b)(ii), 20.5(a)(ii) and (d), and 20.6 with its national/regional law:

- Authorized request for rectification:
 - if this is received after technical preparations for publication have been completed, the IB will publish a statement reflecting the rectifications, any replacement sheets and the request for rectification together with the republished front page (Rule 48.2(i))

- If the applicant wishes that a particular change be taken into account for the international publication of the international application, the request for recording of that change must reach the International Bureau before the completion of technical preparations for international publication (normally, 15 days before the actual date of publication).
- If the request for recording of a change reaches the International Bureau too late to be reflected in the international publication, the International Bureau will notify all designated or elected Offices concerned.

Furnishing of priority document(s) in respect of PCT/IB applications (1)

- Where priority of an earlier national, regional or international (RO other than RO/IB) application is claimed in a PCT application filed with, or transmitted under Rule 19.4 to, RO/IB:
 - RO/IB cannot be requested to establish a certified copy of such application (“priority document”) since RO/IB is not the Office with which that earlier application was filed

The International Searching Authority (1)

- Checks unity of invention (Rules 13 and 40)
- Checks title (Rule 37); checks abstract (Rule 38)
- Searches claimed invention (Article 15(3), Rule 33.3)
- Authorizes rectification of obvious mistakes if the mistake is:
 - in any part of the international application other than the request, (Rule 91.1(b)(ii)) or
 - in any paper submitted to that Authority (Rule 91.1(b)(iv))

The International Searching Authority (2)

- Establishes international search report (ISR) (Rules 42 and 43) and/or declaration that no international search report will be established (Article 17(2))
- Establishes written opinion of the ISA (Rule 43*bis*): non-binding first opinion on novelty, inventive step (non-obviousness) and industrial applicability of claimed invention

Prior art for international search (Article 15(2) and Rule 33)

- Prior art:
 - everything which has been made available to the public,
 - anywhere in the world,
 - by means of written disclosure,
 - which is capable of being of assistance in determining that the claimed invention is or is not new and that it does or does not involve an inventive step,
 - provided the making available to the public occurred prior to the international filing date.

- PCT Minimum Documentation (Rule 34)

International Search Report (ISR) (Rules 42 and 43)

- Contains:
 - IPC (International Patent Classification) symbols
 - indications of the technical areas searched
 - indications relating to any finding of lack of unity
 - a list of the relevant prior art documents
 - indications relating to any finding that a meaningful search could not be carried out in respect of certain (but not all) claims
- Time limit to establish ISR and written opinion of the ISA:
 - 3 months from the date of receipt of the search copy by the ISA (usually within approximately 16 months from the priority date if priority is claimed); or
 - 9 months from the priority date, whichever time limit expires later

Search-5
21.04.11

Cases where no international search report will be established (1)

- The application relates to a subject matter which the ISA is not required to search, and in the particular case decides not to search (Article 17(2)(a)(i) and Rule 39.1))
- The description, claims or drawings do not comply with the prescribed requirements to such an extent that a meaningful search cannot be carried out in respect of any of the claims (Article 17(2)(a)(ii))
- The application contains the disclosure of a nucleotide and/or amino acid sequence, but:
 - no listing of that sequence is furnished,
 - the listing furnished does not comply with the Standard set out in Annex C of the Administrative Instructions or is not in electronic form (Rule 13*ter*.1(d)), or
 - the fee for late furnishing of the sequence listing has not been paid within the applicable time limit (Rule 13*ter*.1(d))

Search-6
21.04.11

Cases where no international search report will be established (2)

■ Consequences:

- the ISA will declare that no international search report has been established and that declaration will be published as part of the published international application (Rule 48.2(a)(v))
- the application remains valid but the IPEA will not be obliged to carry out the international preliminary examination for lack of an international search report (Rule 66.1(e))

Written opinion of the ISA (Rule 43bis) (1)

- Initial preliminary non-binding opinion on:
 - novelty (not anticipated)
 - inventive step (not obvious)
 - industrial applicability
- A written opinion will be established for all international applications at the same time as the ISR
- The written opinion is sent to applicant and the International Bureau together with the ISR

Written opinion of the ISA (Rule 43bis) (2)

- The written opinion is NOT published together with the application
- No formal procedure for applicants to respond to written opinion of the ISA
- Possibility to submit informal comments to the International Bureau which will communicate such comments to DOs together with the IPRP (Chapter I) if and when it is sent

Prior art for written opinion of the ISA (Rules 43bis.1(b) and 64.1)

- Prior art:
 - same as for international search purposes; BUT:
 - relevant date: everything made available to the public prior to the priority date
- The ISA may request a copy of a priority document from the International Bureau (Rule 66.7(a)); however, even if, at the time of establishment of the written opinion of the ISA, a copy cannot be made available to the ISA, the written opinion will nevertheless be established on the assumption that the priority date is the relevant prior art date, except if the applicant had failed to comply with his obligations under Rule 17.1

International preliminary report on patentability (IPRP) (Chapter I of the PCT) (Rule 44*bis*)

- If applicant does not file a demand for international preliminary examination:
 - IB establishes IPRP (Chapter I) on basis of the written opinion of ISA
 - IPRP (Chapter I) and any informal comments by the applicant
 - are sent to designated Offices
 - are made publicly available (but not “published” like the international application and ISR)
 - but not before the expiration of 30 months from the priority date

Search-11

Use of the written opinion of the ISA for the purposes of the Chapter II procedure (Rule 66.1*bis*)

- If applicant files a demand for international preliminary examination:
 - written opinion of the ISA becomes written opinion of the IPEA (exception: IPEA decides not to accept written opinions by certain ISAs)
 - informal comments by applicant on written opinion of ISA will not be sent to IPEA (Article 34 amendments/arguments only)
 - if an international preliminary examination report is established, any informal comments submitted to the IB will not be sent to DOs or EOs

Search-12
21.04.11

Objectives

- To address PCT applicants' concerns about new prior art being found once they have already incurred significant costs and entered national phase
- To reduce this risk by introducing optional supplementary searches in the PCT international phase
- To expand the scope of search in the international phase taking into account the growing linguistic diversity in prior art

Main Features

- An optional service for applicants,
 - it is currently offered by : AT, EP, FI, RU, SE and XN
 - more Authorities are expected to offer SIS in the future
- An applicant can request supplementary search by any Authority offering this service, except the one responsible for main international search
- Each Authority determines the scope and fees for its supplementary search
- Supplementary international search (SIS) covers only one invention – there is no option for paying additional fees

Deciding When to Use the Service (1)

- The main international search report is intended to be of a high quality, sufficient for normal purposes
- Consequently, this service need not be used for every international application, but to give extra information in some cases where the applicant believes that this additional expense in the international phase will be worthwhile
- Before requesting supplementary search, applicants should consider:
 - the main international search report
 - the commercial value of particular application
 - the number of disclosures relevant to the particular technical field which are known to be made in languages that are not a speciality of the main ISA

Deciding when to Use the Service (2)

- Interest in a search being carried out by a particular International Authority (free choice of SISA)
- Interest in a search being carried out in prior art documents in a particular language
- Interest in a particular subject matter not searched by the main ISA in accordance with Article 17(2) (e.g. methods of treatment, Rule 39.1(iv))

Timing and Fees

- The supplementary search request must be filed with the **International Bureau** within 19 months from the priority date
- Fees must be paid **in Swiss francs within 1 month** of filing the request:
 - supplementary search fee*
 - supplementary search handling fee*
- The Authority begins SIS on receipt of the request and international search report (ISR), or 22 months from the priority date, at latest, if the main ISR is late
- The SIS Report is established by 28 months from the priority date

Supplementary Search Request (1)

- The request must be filed using the supplementary search request Form PCT/IB/375, specifying
 - which Authority is to carry out the supplementary search
 - (in certain circumstances - see Unity of Invention) which claims are to be searched

- The request may need to be accompanied by:
 - a translation of the international application into a language accepted by the Authority*
 - any sequence listing in electronic format*

Supplementary Search Request (2)

- There is no requirement that an agent be appointed to represent the applicant before the Authority specified for supplementary international search; applicants may, however, appoint an agent if they so wish
- A late payment fee may also apply if fees are not paid within one month and the IB issues an invitation to pay fees (Form PCT/IB/377)
- The request is considered withdrawn if the fees for supplementary search are not paid

Unity of Invention

- Only one invention is searched – there is no option of paying additional fees for additional inventions
- Usually the first claimed invention is searched, but if the main ISA has found lack of unity of invention, the applicant may request supplementary search to focus on an invention other than the first
 - note that the Authority is not obliged to search inventions which have not been searched by the main ISA (Rule 45bis.5(d))
- The Authority is not obliged to follow the views of the main ISA on unity of invention
- A review procedure is available which is similar to the “protest” procedure for the main search

Scope of Search (1)

- Supplementary search is carried out on the claims as filed, usually on the first claimed invention (Article 19 and 34 amendments are not taken into account)
- The Authority is not required to search:
 - subject matter which it would not normally search in accordance with Article 17(2)
 - claims which have not been searched by the main ISA
 - any international application which is subject to a limitation set out in the Agreement between WIPO and the Authority defining the scope of their service (see www.wipo.int/pct/en/access/isa_ipea_agreements.html)
 - limitation of number of supplementary searches carried out
 - limitation of number of claims searched

Scope of Search (2)

- The range of prior art to be searched is determined by the Authority
 - the search may be either a new search which takes into account all PCT minimum documentation as well as documents held in other languages by that Authority or
 - the search may be a complement to the main search, typically including a subset of language-related documentation held by that Authority

Services currently available (1)

- SISA/AT: three search options
 - search of only the German-language documentation
 - search of only the European and North American documentation
 - search of only the PCT minimum documentation
- SISA/EP: supplementary search includes the PCT minimum documentation as well as documents held in its search collection
- SISA/FI and SISA/SE: supplementary search includes the PCT minimum documentation as well as documents in Danish, Finnish, Norwegian and Swedish held by the Authority

Services currently available (2)

- SISA/RU: two supplementary search options
 - The first includes Russian-language documentation and certain other patent documentation of the former Soviet Union and CIS States
 - The second is only available for applications where the main ISA has made an Article 17(2)(a) declaration because of subject matter referred to in Rule 39.1(iv) (methods of treatment): Includes the PCT minimum documentation, plus the above
- SISA/XN: supplementary search includes the PCT minimum documentation, as well as documents in Danish, Icelandic, Norwegian and Swedish held by the Authority

Supplementary International Search Report

- The supplementary international search report (Form PCT/SISA/501) is very similar to the ISR, but:
 - it does not contain the classification of the international application or comments on the title and abstract
 - it need not contain citations of documents contained in the ISR unless cited in conjunction with a new reference not cited in the ISR
 - it may contain explanations regarding:
 - citations that are considered relevant (these are more detailed than references in the ISR)
 - the scope of the SIS (particularly where the ISR is late and assumptions have been made on the likely scope of main search)
- No written opinion is issued with the supplementary international search report

Further Processing of Report

- The supplementary international search report is transmitted to the applicant and to the IB
- The IB makes the report publicly available (if the international application has been published)
- If the report is not in English, it will be translated into English by the IB
- The IB sends the report and translations, where appropriate, to the IPEA and designated Offices

Refunds When No Search Is Carried Out

■ If the Authority **commences** work, but **no** search is carried out:

- for reasons equivalent to those available for the main international search (subject matter, lack of clarity or lack of sequence listing in electronic format) or
- because the main ISA has made an Article 17(2)(a) declaration

the supplementary search fee **will not** be refunded

- because of limitations specific to the scope of the service offered by the Authority, the supplementary search request is considered not to have been submitted and

the supplementary search fee **will** be refunded

Basics of international preliminary examination (1)

- Optional procedure for applicants from a PCT Contracting State bound by Chapter II (at present all Contracting States are bound by Chapter II)
- Requested by filing, directly with the International Preliminary Examining Authority, a “demand” which contains the automatic “election” of all the States bound by Chapter II and which had been designated
- Results in a preliminary, non-binding opinion by IPEA on novelty, inventive step and industrial applicability
 - Does not give an opinion on patentability according to the national laws of the various elected States

Basics of international preliminary examination (2)

- Gives applicant the opportunity to amend the entire international application before entering the national phase in the elected Offices
- In respect of designated Offices for which the 20-month time limit under Article 22(1) continues to apply, it defers entry into national phase from 20 to 30 months from the priority date if examination is requested within 19 months from that date

Who is entitled to make a demand? (Article 31(2)(a) and Rule 54.2)

The applicant, or if there are two or more applicants, at least one of them,

- who is a resident or national of a PCT Contracting State bound by Chapter II, and
- whose international application has been filed with a receiving Office of or acting for a Contracting State bound by Chapter II (currently all States)

Where to file the demand? (Rule 59) (1)

- Directly with the competent IPEA
- The competent IPEA(s):
 - is (are) specified by the RO
 - if more than one is specified by the RO, applicant has the choice
- In making his choice, the applicant must take into account:
 - the language(s) accepted by the IPEA
 - that some IPEA(s) accept only international applications which have been searched by certain ISAs (that is the case, for example, of IPEA/EP)

Where to file the demand? (Rule 59) (2)

- If the international application was filed with IB as RO, the competent IPEAs will be those which would have been competent if the international application had been filed with (any of) the national Office(s) which, on the basis of applicant's nationality or residence, could be a competent RO
- Choice of IPEA should be indicated on the first sheet of the demand

Transmittal of demand to competent IPEA (Rule 59.3)

- Where a demand is submitted to a non-competent IPEA or to a RO, an ISA or the IB, that Authority or Office must:
 - mark the date of receipt on the demand and,
 - either forward it to the IB, which will in turn transmit it to the competent IPEA (or, if more than one, to the competent IPEA chosen by the applicant)
 - or transmit it directly to the competent IPEA (or, if more than one, to the competent IPEA chosen by the applicant)
- Any demand so transmitted to the competent IPEA will be considered to have been received on behalf of that Authority on the date on which it was received by the RO, ISA or IB or the non-competent IPEA concerned

 - 22 months from the priority date
- In respect of designated Offices for which the 20-month time limit under Article 22(1) continues to apply, prior to the expiration of 19 months from the priority date, in order to delay national phase from 20 to 30 months from the priority date

 - no eligible applicant for filing the demand (Rule 54.2(i))
 - international application not identifiable (Rule 60.1(b))
- A demand filed after the expiration of 19 months from the priority date but within the applicable time limit under Rule 54*bis*.1(a), is valid but entry into the national phase will not be postponed until 30 months (Article 39(1)(a)) for LU, TZ and UG

- Defects which can be corrected without any adverse consequences:
 - demand not filed with a competent IPEA (Rule 59.3)
 - form of the demand (Rule 53.1)
 - indications relating to applicants and agents (Rules 53.4 and 53.5)
 - language of the demand (Rule 55.1)

 - the preliminary examination and handling fees

provided that the IPEA shall not start the international preliminary examination before the expiration of the applicable time limit under Rule 54bis.1(a) unless the applicant expressly requests an earlier start
- If the demand contains a statement about amendments, when copies of these amendments are available (see Rule 69.1(c), (d) and (e))
- If international preliminary examination is to be carried out on the basis of a translation of the international application, when that translation is available (see Rule 55.2(c))

International preliminary examination (1)

- The purpose of the international preliminary examination is to provide a preliminary non-binding opinion on
 - novelty (not anticipated) (Article 33(2) and Rule 64)
 - inventive step (not obvious) (Article 33(3) and Rule 65)
 - industrial applicability (Article 33(4))
- Relevant prior art (Rule 64, see also Rule 33)
- Only claims relating to the invention(s) searched by the ISA will be examined by the IPEA (Rules 66.1(e) and 66.2(a)(vi))

International preliminary examination (2)

 - applicant can select invention as “main invention” and those inventions for which additional fees are paid

Prior art for IPE (Rule 64.1)

■ What is considered prior art?

Everything made available to the public anywhere in the world by means of written disclosure (including drawings and other illustrations) provided that such making available occurred prior to the relevant date

■ What is the relevant date?

- the date of the earlier application of which priority is claimed unless the IPEA considers that the priority claim is not valid for reasons other than the fact that the international filing date is later than the date on which the priority period expired, but is within two months from that date; or
- the international filing date of the international application in all other cases

The international preliminary report on patentability (Chapter II) (3)

- May contain “annexes” (Rule 70.16):
 - earlier amendments when later amendments are not used as a basis for the report because they are
 - considered to go beyond the disclosure in the international application or
 - not accompanied by a letter indicating the basis for the amendments
- Not annexed to the report: any other correspondence or copies of amendments superseded by later amendments

The international preliminary report on patentability (Chapter II) (4)

- No provisions for appeal or further proceedings during the international phase before the International Authorities
- Sent to the applicant and the IB (Rule 71.1)
- IB forwards copies of the report, and any required translation of the report into English (prepared by the IB), to the elected Offices (Article 36(3)(a) and Rule 72.1)

■ On the part of the IPEA:

- finding of lack of unity
- late issuance of written opinion

Requirement of unity of invention (Rule 13)

- An international application must relate to
 - one invention only or,
 - if there is more than one invention, those inventions must be so linked as to form a single general inventive concept (Rule 13.1).
- Inventions are considered linked so as to form a single general inventive concept only when there is a technical relationship involving one or more of the same or corresponding “special technical features”.
- The expression “special technical features” means those technical features that define a contribution which each of the inventions, considered as a whole, makes over the prior art (Rule 13.2).

(For further details and examples, see paragraphs 10.20 to 10.59 of the International Search and Preliminary Examination Guidelines)

Lack of unity of invention before ISA (1) (Article 17(3) and Rule 40)

- Where there are several inventions, the first claimed invention (“main invention”) is always searched; further inventions are searched only if additional search fees are paid.
- The ISA will:
 - specify the reasons for the finding of lack of unity of invention (ISA/EP will send together with this notification the results of a partial search on the main invention); and
 - invite the applicant to pay, within one month from the date of the invitation, additional search fees and, if the applicant wishes to pay the additional fees under protest, a protest fee to those ISAs which require it (AT, CN, EP*, KR, RU, XN)

Lack of unity of invention before ISA (2) (Article 17(3) and Rule 40)

- Failure to pay additional fees does not affect the application; however, the additional inventions will not be searched and the written opinion will not contain a preliminary opinion on the unsearched claims; subsequently, the claims relating to unsearched inventions need not be examined by the IPEA.
- No provisions for filing divisional applications during the international phase. This may only be done in the national phase before certain DOs (refer to applicable national law).

Protest procedure before the ISA (1) (Rule 40.2)

- If the applicant pays any or all additional fees under protest, the ISA carries out the search on the additional inventions and, in parallel, reviews the invitation to pay additional fees.
- Depending on the ISA, the review may be subject to the payment of a protest fee (AT, CN, EP*, KR, RU, XN).
- If, upon review, the ISA concludes that the protest was justified, the additional search fees paid will be refunded either totally or partially; the protest fee will only be refunded if the ISA finds that the protest was entirely justified.

- Applicant can select part of the application to be examined as “main invention” and for which additional fees are paid

Form of publication

- Published international applications are available at www.wipo.int/patentscope/search/en/structuredSearch.jsf
- Official notices (PCT Gazette) are available at www.wipo.int/pct/en/official_notices/index.htm

Frequency of international publication

- International publication of international applications and publication of the Official Notices takes place every Thursday,
 - except where that Thursday is a day on which the International Bureau is not open for official business, for example, Ascension Day or the Thursday that follows the first Sunday of September and certain Thursdays in the Christmas/New Year period.
- In such cases, inquire at the International Bureau as to what will be the publication date (possibly, but not always, the preceding Wednesday).

Technical preparations for international publication

- The technical preparations for international publication are normally completed 15 calendar days before the actual publication date.

For example: if the publication date is: Thursday, 24 January 2013, technical preparations are completed on Wednesday, 9 January 2013.

Consequently, any document that reaches the International Bureau on Tuesday, 8 January 2013, is still taken into account for international publication (for example, change of name or address, amendment of the claims under Article 19, withdrawal of the international application or of a designation or of a priority claim).

- Technical preparations may be completed more than 15 days before the publication date where that publication date is not the “usual” Thursday because the International Bureau is not open for business or where there are a number of official holidays falling within that 15-day period. If in doubt, inquire at the International Bureau as to what will be the date of completion of technical preparations.

 - Such protection may be made conditional
 - on the furnishing of a translation (which may be of the claims only)
 - on receipt by the designated Office of a copy of the international application as published under the PCT, and/or
 - in the case of early publication under Article 21(2)(b), on the expiration of 18 months from the priority date

- Published as part of the international application at 18 months, together with the claims as originally filed (Rule 48.2(f))

Amendments under Article 34 (Rules 53.9 and 66.3 to 66.9) (1)

- Description, claims and drawings may be amended in connection with the international preliminary examination under Chapter II
- They should be filed
 - together with the demand for international preliminary examination so that examination will be based on the application as amended (Rule 53.9); or
 - at least before the expiration of the time limit to file a demand (Rule 54*bis*.1(a))
- Attention: amendments need not be taken into account by the examiner if they are received after he has begun to draw up another written opinion or the report (Rule 66.4*bis*)

Amendments under Article 34 (Rules 53.9 and 66.3 to 66.9) (2)

- Amendments shall not go beyond the disclosure of the international application as filed (Article 34(2)(b))
- If an amendment goes beyond the disclosure in the international application as filed, the international preliminary examination report shall be established as if that amendment had not been made, and the report shall so indicate. The report shall also indicate the reasons why the amendment is considered to go beyond the disclosure in the international application as filed (Rule 70.2(c))

Comparison between types of amendments during international phase

Chapter I (Article 19)

- have effect in all DOs
- claims only
- filed upon receipt of the ISR and written opinion of ISA
- filed directly with IB (not ISA)
- formality examination by IB
- published as part of the international application by IB
- serve as basis for examination by IPEA unless reversed

Chapter II (Article 34)

- have effect in all EOs
- description, claims, drawings
- filed best together with the demand, or during examination by IPEA
- filed directly with IPEA
- formality and substantive examination by IPEA
- are confidential between IPEA and the applicant, are not published during the international phase
- serve as basis for examination by IPEA unless superseded

How to make amendments (Rules 46.5 and 66.8)

- Where claims are amended under Article 19 or 34, they have to be presented in the form of replacement sheets containing a complete set of claims
- Applicants must indicate the basis for the amendments in the application as filed, otherwise the IPRP (Ch.II) may be established as if the amendments had not been made
- In case of cancellation of certain claims, no renumbering of the remaining claims is required
- An accompanying letter explaining what has been amended is required
- Further details: Administrative Instructions Section 205

Replacement sheets containing amendments under Article 19 or 34

- May not be filed with the receiving Office
- If filed under Article 19 (claims only), must be filed directly with IB in Geneva
 - If, however, they also contain rectifications of obvious mistakes (Rule 91), they must also be submitted to the ISA for authorization of rectification
- If filed under Article 34 (description, claims, drawings), must be filed directly with competent IPEA
 - If they also contain rectifications of obvious mistakes (Rule 91), that IPEA will also be competent to authorize rectification

Amendments upon entry into the national phase (Articles 28 and 41 and Rules 52 and 78)

- Description, claims and drawings may be amended
- Time limit = normally at least one month from the date of fulfillment of the requirements for entry into the national phase (i.e. not from the time limit under Article 22 or 39(1))
- Any later time limits under the national law apply
- Different amendments possible for different DOs and EOs
- Generally, any claims fee due for the national phase will be calculated on the basis of the number of claims valid at the time of entry into the national phase

Decisions to be taken by the applicant

- Whether
 - to proceed with or drop the international application ?
- When
 - at the end of 30 months (in some cases 31 months or more)
 - under Chapter I ?*
 - under Chapter II ?
 - early entry ?
- Where (choice limited to designated/elected Offices)
 - which national Offices
 - which regional Offices

Time limit for entry in the national phase

The time limit applies irrespective of possible delays in the international phase due to:

- late international search report and written opinion of the ISA
- international preliminary examination delayed
- late international preliminary report on patentability (Chapter II)
- late translation of international preliminary report on patentability (Chapter II)

General national requirements Art. 22(1) and 39(1)(a)

- Requirements:
 - Translation, if applicable
 - Payment of national fee
 - Copy of international application in particular circumstances only

- Time limit under Art. 22(1): 30 months from the priority date
 - For additional time, see PCT Applicant's Guide, national phase summaries
 - For exceptions, see www.wipo.int/pct/en/texts/reservations/res_incomp.html

- Time limit under Art. 39(1)(a): 30 months from the priority date

Special national requirements (Art. 27 and Rule 51 *bis*.1)

- Time limit under Rule 51 *bis*.3:

Examples of special requirements under Rule 51 *bis*.1 (1)

■ Oath or declaration by the inventor (US only):

Where the corresponding declaration has been furnished during the international phase or directly to the DO/EO, no documents or evidence as to that matter may be required by DO/EO/US unless that Office may reasonably doubt the veracity of the declaration

■ Assignment documents (of the priority rights or of the application):

Where the corresponding declaration has been furnished during the international phase or directly to the DO/EO, no documents or evidence as to that matter may be required by the DO/EO unless that Office may reasonably doubt the veracity of the declaration

Examples of special requirements under Rule 51 *bis*.1 (2)

■ Translation of the priority document may only be required (Rule 51 *bis*.1(e)):

- where the validity of the priority is relevant to the determination whether the invention is patentable
- in cases of incorporation by reference

This rule does not apply to DO/EO/ES*

- Appointment of local agent and submission of power of attorney
- Translation or other documents relating to the international application in more than one copy
- Certified translation of the international application (only where the Office may reasonably doubt the accuracy of the translation)

* See PCT Reservations on
www.wipo.int/pct/en/texts/reservations/res_incomp.html

National requirements simplified for PCT applications (1)

■ Priority document

- The applicant does not need to furnish the priority document since the IB transmits copies to the DO/EOs
- If the DO/EO did not receive a copy of the priority document from the IB, it must request a copy from the IB (not from the applicant)

■ Drawings

- If the drawings do not contain any text matter to be translated, a simple copy of the drawings as filed is required by a few DOs
- If the drawings contain text matter to be translated, a set of drawings containing the translated text matter needs to be furnished

National requirements simplified for PCT applications (2)

■ No legalized or certified translation of the international application

- Otherwise, a simple translation is required
- A few Offices (such as, AU, GB, IN, NZ, SG, ZA) require a "verified" translation

■ No special form required (but strongly recommended) for entry into national phase

Communication with DOs/EOs (Rule 93bis)

- Any communication, notification, correspondence or other document relating to an international application will be communicated by the International Bureau to DOs/EOs only upon their request and at the time specified by the Offices
- Most DOs/EOs will receive the majority of documents concerned only after an applicant has entered the national phase before its Office
- Almost all PCT Contracting States now receive the DVD collections containing the full texts of the published international applications

Furnishing by International Bureau of copies of priority documents (Rule 17.2(a))

- The International Bureau provides copies of priority documents to designated Offices:
 - upon request
 - after international publication, unless the applicant made a specific request for early processing under Article 23(2)
- Almost all Offices request a copy of the priority document only after the application entered the national phase
- Only the European Patent Office systematically receives copies of all priority documents

Recommendations for preparing entry into the national phase (1)

- Leave sufficient time, where necessary, to prepare the translation of the international application
- Send your local agent, copies of the (relevant) documents on file: the published international application, the international search report and written opinion by the ISA, the international preliminary examination report, priority documents; note that none of these documents are required to be filed by the local agent at the local patent office

Recommendations for preparing entry into the national phase (2)

- Where you would prefer avoiding paying additional claims fee or other fees that are applicable under any particular national law, prepare the application, and any amendments thereof, according to the national practice
- Even though several designated/elected Offices provide for longer time limits, it is preferable to docket the 30-month time limits for all Offices (See www.wipo.int/pct/en/texts/reservations/res_incomp.html for exceptions under Article 22 (1))

A few further tips to remember

- Remember to monitor time limits for entering national phase
 - they apply irrespective of delays in the international phase
- Make necessary indications that application is entering the national phase, i.e., that it is not a direct national filing
- Translation of the international application must be correct and complete (no subject matter may be added and/or deleted)
- Pay the required fees (amount may be different from that applicable to direct national filing)

 - 2 months from the date of removal of the cause of the failure to meet the time limit to enter national phase; or
 - 12 months from the date of expiration of the time limit to enter national phase;
- whichever period expires first

Reinstatement of rights by DO/EOs (Rule 49.6) (3)

- Longer time limits and/or further requirements may apply depending on the applicable national law
- For further details, see for each DO/EO, the relevant National Chapter in the *PCT Applicant's Guide*, National Phase

DO/EOs to which Rule 49.6 does not apply

CA	Canada	LV	Latvia
CN	China	MX	Mexico
DE	Germany	NZ	New Zealand
IN	India	PH	Philippines
JP	Japan*	PL	Poland
KR	Republic of Korea		

- The national law applicable by some of these Offices may nevertheless provide for other forms of protection against loss of rights - for further details, see for each DO/EO, the relevant National Chapter in the *PCT Applicant's Guide*, National Phase

* Notification withdrawn effective 1 April 2012 (JP)

Withdrawals under Chapter I (1) (Article 24(1)(i) and Rule 90*bis*)

■ What?

- international application, designations (also for certain kinds of protection), priority claim

■ When?

- before the expiration of 30 months from the priority date

■ How?

- by a notice of withdrawal (use of Form PCT/IB/372 recommended) signed by all applicants, their agent or the appointed common representative, and filed with the RO or the IB

Withdrawals under Chapter I (2) (Article 24(1)(i) and Rule 90*bis*)

■ Effect:

- withdrawal effective upon receipt by the RO or the IB
- withdrawal has no effect in DOs where national processing or examination has already started
- withdrawal of international application or designations:
 - effect ceases in each designated State concerned, with same consequences as withdrawal of a national application in that State
 - if notice of withdrawal received by the IB before completion of technical preparations for international publication, there will be no international publication (withdrawal can be made conditional on receipt in time to prevent publication)
- withdrawal of priority claim: time limits which have not expired are re-computed on the basis of the revised priority date resulting from the withdrawal

■ How?

- by a notice of withdrawal (use of Form PCT/IB/372 recommended) signed by all applicants, their agent or the appointed common representative, and filed with:

- withdrawal has no effect in DOs/EOs where national processing or examination has already started
- withdrawal of demand or elections: withdrawal after expiration of Chapter I time limit for entry into national phase is considered to be withdrawal of the international application in relation to the State(s) concerned
- withdrawal of priority claim: time limits which have not expired are re-computed on the basis of the revised priority date resulting from the withdrawal

Microbiological inventions

- Deposit of a sample in order to meet the requirement of full disclosure:
 - Many national laws require that, where a patent application refers to biological material which has not been made available to the public, a sample thereof be deposited with a recognized culture collection
- The Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure (Budapest Treaty)
 - provides for the recognition by its Contracting States of deposits made with any International Depository Authority (IDA) under the Budapest Treaty
- The IDAs are recognized by all PCT Contracting States, whether they are Contracting States of the Budapest Treaty or not

When must the deposit be made?

- Many Offices require the deposit to be made before the filing date of the PCT application
- A late deposit, however, is no excuse for filing a PCT application claiming priority after the expiration of 12 months from the priority date (restoration of the right of priority may not work)
- Some Offices require that the deposit be made before the filing date of the application of which priority is claimed in the PCT application and that the priority application also makes reference to the deposited biological material, e.g. BY, CN, US

- A space is provided in form PCT/RO/134 to make such indication
- The request must reach the IB before the completion of technical preparations for the international publication of the application
- Some Offices also require the applicant to notify them directly before international publication takes place, e.g. DO/AU, DO/DE, DO/DK

 - the name and address of the depositor to be included in the reference and
 - a statement specifying that the depositor has authorized the applicant to refer to the deposited biological material in the application and has given his unreserved and irrevocable consent to the deposited material being made available to the public

- Section 208 and Annex C of the Administrative Instructions

- Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, the description must contain a sequence listing complying with the standard provided for in Annex C of the Administrative Instructions (“PCT Sequence Listing Standard”) (that standard has replaced the previously applicable various requirements of the ISAs, IPEAs and designated/elected Offices)

- must be identical to the written sequence listing
- must be accompanied by a statement to that effect

- Where the sequence listing part of the international application contains free text, that free text:
 - may, and preferably should, be in English (irrespective of the language of the main part of the description) (Rule 12.1(d))
 - must be repeated in the main part of the description (“Sequence Listing Free Text”) in the language thereof (ISA invites to furnish correction if not contained in main part of description as filed) (Rules 5.2(b) and 13~~ter~~.1(f))

Procedure where the sequence listing does not comply with the Standard (1)

- If the international application as filed does not contain:
 - a written sequence listing complying with the Standard; and/or
 - a sequence listing in electronic form complying with the Standard,

the ISA invites the applicant to furnish to it a listing (in such format) complying with the Standard, unless such a listing is already available to it, and to pay to it, where applicable, a late furnishing fee (Rule 13*ter*.1(a) and (b))

Procedure where the sequence listing does not comply with the Standard (2)

- Any sequence listing which is not contained in the international application as filed but which is furnished subsequently must not go beyond the disclosure in the application as filed and must be accompanied by a statement to that effect (Rule 13*ter*.1(e))
- If the applicant does not comply with the invitation within the time limit fixed in the invitation, the ISA is not required to search the application to the extent that a meaningful search cannot be carried out without the listing (Rule 13*ter*.1(d))

- Less restrictive unity of invention requirements permit a reduced number of applications in the US
- Provisional protection after publication at 18 months from the priority date (in countries which afford such protection)
- 90% reduction in PCT fees for applicants from certain Contracting States

Benefits-4
19.04.11

Strategies (1)

- Early or late filing in the priority year
- Automatic designation of all States bound by the PCT at the international filing date
- Withdrawal of certain designations to avoid automatic withdrawal of priority application (DE, JP, KR)
- Final decision by management or client needs to be made only prior to entry into the national phase

Strategies (2)

- Filing of a demand for international preliminary examination
 - to ensure a 30-month time limit for all designated States
 - only if needed to overcome any objections in international search report and written opinion of ISA through amendments/arguments
- 8 or 18 months more time during which improved translations can be prepared for entry into the national phase

Strategies (3)

- Gain time to
 - better identify possible markets
 - find partners (licenses)
 - better evaluate the technical value of the invention
- Increased chance for obtaining stronger foreign patents
- The final version of the claims is drafted when the commercial value of the invention is better known
- Early entry into the national phase - early issuance of patent

Strategies (4)

- Better information about possible conflicting applications by competitors prior to national entry, enabling adjustment of filing strategy and negotiating position
- International publication does not inform third parties before which designated Offices patent protection will be further pursued

Main strategies for applicants

- Need to gain time to
 - better identify possible markets
 - find partners (licenses)
 - better evaluate the technical value of the invention
- File a PCT application or file multiple regular national / regional applications
- File at the national/regional Office or the International Bureau
- File the PCT application at the end of the priority year or earlier
- File the PCT application first or file a national application first

PCT Rule Changes Relating to the America Invents Act (AIA)

- US national law changes, which removed the requirement that the inventor has to be the applicant, had a direct impact on the PCT system
- PCT applications can now be filed in the name of an entity (e.g. corporate applicant, university, NGO) for all States
- Consequently, a statement explaining the lack of signature is no longer required (Rules 4.15(b), 53.8(b) and 90*bis*.5(b) were deleted)
- Rules 51*bis*.1 and 2 were modified accordingly in order to remove references to the national requirement that the inventor be the applicant
- Effective as from 1 January 2013 for applications filed on or after that date

Recent Developments

- Licensing availability
- Third Party Observations
- PATENTSCOPE enhancements
- PCT and PPH

Licensing availability (1)

- Applicants interested in concluding license agreements in relation to their international application may request the International Bureau to make this information available in PATENTSCOPE:
 - ❑ How? Applicants should submit a “licensing request” (see Form PCT/IB/382) directly to the IB (preferably by means of ePCT)
 - ❑ When? At the time of filing or within 30 months from the priority date
 - ❑ Free of charge
 - ❑ Applicants can file multiple licensing requests or update previously submitted ones (within 30 months from the priority date)

Licensing availability (2)

- ❑ Licensing indications will be made publicly available after international publication of the application
- ❑ The licensing indications will be visible on PATENTSCOPE under the “*Bibliographic data*” tab with a link to the submitted licensing request itself
- ❑ International applications containing licensing information can be searched for in PATENTSCOPE
- ❑ The licensing indication displayed under the “*Bibliographic data*” tab may be revoked by the applicant at any time, that is, also after 30 months from the priority date

Third Party Observations - Main Features

- Allows third parties to submit prior art observations relevant to novelty and inventive step
- Web-based system using web-forms in PATENTSCOPE
- Free-of-charge
- Submissions possible until the expiration of 28 months from the priority date
- Applicants may submit comments in response until the expiration of 30 months from the priority date
- Anonymous submission of third party observations possible
- Third-party supplied documents will not be available via PATENTSCOPE, but will be made available to International Authorities and national Offices

Third Party Observations – Role of the IB

- Check for spam
- Notifies the applicant of submission of observations
- Makes observations available in PATENTSCOPE
- Sends to International Authorities and designated Offices observations, cited documents, and applicant responses
- Available since July 2012

PATENTSCOPE enhancements

- Information on national phase entry for more than 40 countries
- Access to more than 25 searchable national and regional patent collections
- Cross-Lingual Information Retrieval (CLIR)
 - Allows the search of terms or phrases and its radiants in Chinese, English, French, German, Japanese, Korean, Portuguese, Russian, Spanish while entering the query in only one language
- Search of PATENTSCOPE on a smartphone possible
- Corpus of English/French titles and abstracts (20 years of data) available for purchase, or free for research purposes

**WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY**International application No.
PCT/EP2009/060890

Box No. I Basis of the opinion

1. With regard to the **language**, this opinion has been established on the basis of:
 - the international application in the language in which it was filed
 - a translation of the international application into , which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1 (b)).
2. This opinion has been established taking into account the **rectification of an obvious mistake** authorized by or notified to this Authority under Rule 91 (Rule 43bis:1(a))
3. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
 - a. type of material:
 - a sequence listing
 - table(s) related to the sequence listing
 - b. format of material:
 - on paper
 - in electronic form
 - c. time of filing/furnishing:
 - contained in the international application as filed.
 - filed together with the international application in electronic form.
 - furnished subsequently to this Authority for the purposes of search.
4. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
5. Additional comments:

**WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING
AUTHORITY (SEPARATE SHEET)**

International application No.

PCT/EP2009/060890

Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Reference is made to the following documents:

D1: WO-A-2007/ 143483

D2: WO-A-2006/ 113649

D3: XP002504935

2. Novelty

Prior art document D1 discloses unit dosage forms comprising 0.5mg to 1000mg of lapatinib, which is below the amount claimed in the present application (p. 8, para. 3). Furthermore, a daily dose of 1250mg or 1500mg lapatinib is disclosed in D1 without, however, further specifying the amounts of active agent per unit dose (Table 1). Tablets comprising 250mg lapatinib are further known from D2 (ex. 1) and D3 is the package leaflet of Tyverb® 250mg, of which 5 tablets have to be administered per day.

Thus, in view of the cited prior art, the subject-matter of claims 1-9 seems to be novel (Art. 33(2) PCT).

3. Inventive Step

D3, which is regarded as closest prior art, differs from the subject-matter of the present application in the amount of active agent per unit dose.

In view of the cited prior art, the technical problem of the present application seems to be the provision of an alternative dosage form of lapatinib, which is convenient to administer and which contains the whole daily lapatinib medication in a unit dose.

The provision of a unit dose comprising between 1200 and 1300mg lapatinib is not obvious in view of the cited prior art. As shown in the examples, the lapatinib

AUTHORITY (SEPARATE SHEET)**

formulations of the present application are even superior compared to the reference with regard to in-vitro parameters (fig. 1).

As a result, the subject-matter of claims 1-9 of the present application seems to involve an inventive step (Art. 33(3) PCT).

Re Item VII

Certain defects in the international application

As the wording "not constructed as being limiting" is not deleted in the description (p. 8) the requirements of Rules 5 and 9.1 PCT are not met.

The demand must be filed directly with the competent International Preliminary Examining Authority or, if two or more Authorities are competent, with the one chosen by the applicant. The full name or two-letter code of that Authority may be indicated by the applicant on the line below:
