**ORGANISATION MONDIALE DE LA PROPRIÉTÉ INTELLECTUELLE**  
GENÈVE

**COMITE PERMANENT DES TECHNIQUES DE L'INFORMATION**

**GROUPE DE TRAVAIL SUR LES NORMES ET LA  
DOCUMENTATION**

**Deuxième session**  
**Genève, 2 – 6 décembre 2002**

**RAPPORT SUR L'ETAT D'AVANCEMENT DE LA TACHE N° 20**  
**(ELEMENTS FIGURATIFS DES MARQUES)**

*Document établi par le Secrétariat*

1. Dans la liste des tâches du Groupe de travail sur les normes et la documentation, la tâche n° 20 se rapporte à l'élaboration d'une recommandation concernant la manière de saisir les éléments figuratifs des marques sous une forme électronique et de les afficher sur écran.
2. Conformément à la décision du Groupe de travail sur les normes et la documentation, un questionnaire a été diffusé en juillet 2001 aux fins de recueillir auprès des offices de propriété intellectuelle, pour le 20 octobre 2001, des données qui seraient ensuite compilées et présentées lors d'une session ultérieure, en même temps qu'une recommandation sur les étapes ultérieures du processus.
3. L'annexe I du présent document contient une vue synthétique des résultats du questionnaire dans les langues originales des réponses. L'annexe II contient le questionnaire proprement dit.
4. À titre de prochaine étape, il est proposé d'analyser les résultats du questionnaire en vue d'élaborer un document qui contiendra une recommandation sur la manière de saisir et d'afficher les éléments figuratifs des marques et qui sera présenté au SDWG à sa prochaine session.

5. *Le SDWG est invité à prendre note du contenu du présent document et de ses deux annexes et à entériner les prochaines étapes indiquées au paragraphe ci-dessus.*

[Les annexes suivent]

## ANNEXE I

	<b>Armenia</b>	<b>Austria</b>	<b>Belarus</b>
<b>1</b>	Yes	Yes	Yes
<b>2</b>	No	No - an internal regulation is applied.	No
<b>3a (i)</b>	TIFF 635 dpi bitmap or Grayscale	GIF	BMP 300 dpi
<b>3a (ii)</b>	TIFF 200 dpi RGB color	GIF	BMP 300 dpi
<b>3b(i)</b>	TIFF 635 dpi bitmap or Grayscale.	The paper images filed by the applicant are used for publishing. These images are published in black/white in the gazette.	BMP 300 dpi
<b>3b (ii)</b>	TIFF 200 dpi RGB color		BMP 300 dpi
<b>3c (i)</b>	TIFF 635 dpi bitmap or Grayscale.	None	BMP 300 dpi
<b>3c (ii)</b>	TIFF 200 dpi RGB color	GIF	BMP 300 dpi
<b>3d</b>	None	Similarity check	—
<b>3d (i)</b>	None	None	—
<b>3d(ii)</b>	None	JPG - will be changed to GIF.	—
<b>4</b>	Half screen image with bibliographical text or full screen image.	See 5b	Vignettes et agrandissements

	<b>Armenia</b>	<b>Austria</b>	<b>Belarus</b>
<b>5a</b>	No	None	No
<b>5b</b>	Yes, The dimensions of trademark must be 5x5cm to 21x29.7cm.	Yes - in the browser with < IMG SRG=..> represented in the dimension in which the image was filed on paer but not greater than 8x8 cm and not less than 1x1 cm.	80x80 mm max
<b>5c</b>	None	None	None
<b>6</b>	The required trademark must be on smooth and solid paper, which makes the reproduction by modern technology possible.	Scanned images are processed with the program "photo impact" for calibrating the colors.	-

	<b>Armenia</b>	<b>Austria</b>	<b>Belarus</b>
<b>7</b>	The 8120 images (only TIFF format).	50 000 in GIF format (national trademark in the registry)	20 800 images (bmp files)
<b>8a</b>	None	No	No
<b>8b</b>	None	Yes	Yes
<b>8c</b>	Yes, TIFF	Yes	Yes
<b>Further comments</b>	None	None	None

	<b>Bulgaria</b>	<b>Canada</b>
<b>1</b>	Yes	Yes
<b>2</b>	No	Yes - The Canadian Trade-mark Regulations (1996) were amended to remove references to the form of media that could be used. The Registrar can specify the format of all correspondence to be received by the Office. In addition a Practice Notice was published which specified that the Official Register of registered trade-marks would be the electronic database.
<b>3a (i)</b>	GIF 89 a 100/100 dpi	TIFF Group 4, 300 dpi
<b>3a (ii)</b>	GIF 89 a 100/100 dpi	N/A
<b>3b(i)</b>	GIF 89 a 100/100 dpi.	TIFF Group 4, 300 dpi
<b>3b (ii)</b>	GIF 89 a 100/100 dpi.	N/A
<b>3c (i)</b>	GIF 89 a 100/100 dpi.	TIFF Group 4, 300 dpi
<b>3c (ii)</b>	GIF 89 a 100/100 dpi.	N/A
<b>3d</b>	None	N/A
<b>3d (i)</b>	None	TIFF Group 4, 300 dpi
<b>3d(ii)</b>	None	N/A
<b>4</b>	Expandable thumbnails, full screen image.	Pop up window with zoom capabilities

	<b>Bulgaria</b>	<b>Canada</b>
<b>5a</b>	None	For electronically filed applications, the applicant or their agent, is required to submit an electronic version of the design. For paper based applications the applicant, or their agent, may submit the design on diskette. The Office encourages this, especially if the design is complex and/or has fine details.
<b>5b</b>	Yes - 7x7 cm	The Office scans all designs with the exception of those identified in 5(a) above. The Canadian Trade-mark Regulations (1996) indicates that the design must be no greater than 2 3/4" x 3 3/4". To improve quality of scanned designs the Office has published a practice notice encouraging applicants, or their agents, to supply larger designs, up to 8 1/2" x 14", especially if the design is complex and/or has fine details. During the scanning process all large designs will be scaled down to the 2 1/2" x 2 1/2" for storage, display and printing purposes.
<b>5c</b>	None	
<b>6</b>	No special measures.	The Office has the following steps in place to ensure a high level of design quality:  <ul style="list-style-type: none"> <li>- all designs are scanned by a single group within the Office, the Formalities Section. This ensures consistency in scanning and allows the Office to concentrate its design scanning training and quality requirements to this single group.</li> <li>- all designs are reviewed by the Quality Assurance group. This group may correct scanning quality issues and/or return the design for re-scanning to the Formalities Section. The QA group will also identify trends in scanning quality and recommend corrective action and/or additional training.</li> <li>- the Office sends out a Client Proof Sheet along with the Acknowledgement Notice or receipt of the application. The Client Proof Sheet will include a reproduction of the scanned design to allow the applicant, or their agent, the opportunity to ensure the quality and accuracy of the scanned design.</li> <li>- The Canadian Trade-mark Regulations (1996) allows the Office to request a better quality design where the original design is deemed not suitable</li> </ul>

C. SCIT 2541  
03

Le 31 juillet 2001

Objet : Formats des éléments figuratifs des marques (Tâche n° 20 du SCIT)

---

Madame,  
Monsieur,

À sa première session, tenue en mai 2001, le Groupe de travail sur les normes et la documentation (SDWG) a examiné le rappel des faits et la portée de la tâche n° 20 : “Élaborer une recommandation concernant la manière de saisir les éléments figuratifs des marques sous une forme électronique et de les afficher sur un écran de visualisation”. Le SDWG a convenu de certaines mesures requises avant qu’une décision puisse être prise quant à la poursuite de l’exécution de la tâche (voir l’annexe III, page 13 du document SCIT/SDWG/1/9 Prov.).

Pour donner suite à la décision du SDWG, le Secrétariat a élaboré, en coopération avec l’Office des brevets et des marques des États-Unis d’Amérique et l’Office de l’harmonisation dans le marché intérieur, un questionnaire qui vise à recueillir, auprès des offices de propriété industrielle, des renseignements sur les formats actuellement utilisés pour les éléments figuratifs des marques. Le questionnaire est joint en annexe à la présente circulaire.

Le Secrétariat vous saurait gré de bien vouloir lui renvoyer, d’ici au 30 octobre 2001, le questionnaire dûment rempli, de préférence par courrier électronique, à l’adresse suivante : [scit.mail@wipo.int](mailto:scit.mail@wipo.int) ou par télécopieur au numéro (41.22) 734 63 92, en indiquant le numéro de la présente circulaire.

Veillez agréer, Madame, Monsieur, l’assurance de ma considération distinguée.

Klaus-Peter Wittig  
Directeur adjoint

Service des normes et de la documentation

QUESTIONNAIRE RELATIF AUX FORMATS ACTUELLEMENT UTILISÉS PAR  
LES OFFICES DE PROPRIÉTÉ INDUSTRIELLE POUR LES ÉLÉMENTS  
FIGURATIFS DES MARQUES

INTRODUCTION

1. Le présent questionnaire vise à recueillir, auprès des offices de propriété industrielle, des informations sur les formats actuellement utilisés pour les éléments figuratifs des marques. Il s'agira ensuite d'analyser les normes ou techniques appliquées par les offices de propriété industrielle des différents États membres et par les organisations régionales et de déterminer s'il est possible d'élaborer une recommandation de l'OMPI concernant la manière de saisir les éléments figuratifs des marques sous une forme électronique.
2. La proposition visant à élaborer une recommandation de l'OMPI sur la question précitée s'explique par le fait que, avec l'entrée en vigueur du Protocole de Madrid et l'internationalisation des échanges de données relatives aux marques, il est devenu nécessaire de disposer de normes permettant de garantir une qualité impeccable pour les échanges de données largement normalisées. (Voir la tâche n° 20 dans la liste des tâches du SCIT et le document SCIT/SDWG/1/2).

Question 1 : Votre office traite-t-il électroniquement les éléments figuratifs des marques?

Oui .....  
.....

Non .....  
.....

Question 2 : Votre office dispose-t-il d'une base juridique pour le traitement électronique (y compris l'archivage et l'échange électroniques) des éléments figuratifs des marques?  
(Dans l'affirmative, veuillez préciser la législation nationale, la réglementation régionale, etc.)

Oui .....  
.....

Non .....  
.....

Question 3 : Quel format utilise actuellement votre office pour saisir, visualiser et échanger les éléments figuratifs des marques?

a) Pour la numérisation :  
Veuillez indiquer : le format de l'image (TIFF, JPG, GIF, PNG, CCITT... en précisant la version, par exemple, TIFF Groupe 4), sa résolution (en nombre de points par pouce - dpi), les techniques de gestion de la couleur (description des techniques permettant une reproduction en couleur fiable).

i) Noir et blanc ou échelle de gris : .....  
.....

ii) Couleur : .....  
.....

b) Pour la publication :  
Veuillez indiquer : le format de l'image (TIFF, JPG, GIF, PNG, CCITT... en précisant la version, par exemple, TIFF Groupe 4), sa résolution (en nombre de points par pouce - dpi), les techniques de gestion de la couleur (description des techniques permettant une reproduction en couleur fiable).

i) Noir et blanc ou échelle de gris : .....  
.....

ii) Couleur : .....  
.....

c) Pour la présentation sur écran de visualisation :  
Veuillez indiquer : le format de l'image (TIFF, JPG, GIF, PNG, CCITT... en précisant la version, par exemple, TIFF Groupe 4), sa résolution (en nombre de points par pouce - dpi), les techniques de gestion de la couleur (description des techniques permettant une reproduction en couleur fiable).

i) Noir et blanc ou échelle de gris : .....

ii) Couleur : .....

d) À d'autres fins (veuillez préciser) : .....  
Veuillez indiquer : le format de l'image (TIFF, JPG, GIF, PNG, CCITT... en précisant la version, par exemple, TIFF Groupe 4), sa résolution (en nombre de points par pouce - dpi), les techniques de gestion de la couleur (description des techniques permettant une reproduction en couleur fiable).

i) Noir et blanc ou échelle de gris : .....

ii) Couleur : .....

Question 4 : Indiquez comment les images des éléments figuratifs des marques sont présentées sur écran (par exemple, vignettes et agrandissements, vignettes seules, images plein écran).

a) Vignettes et agrandissements .....

b) Vignettes seules .....

c) Images plein écran .....

d) Autres (veuillez préciser) :

Question 5 : Qui se charge de la saisie électronique?

- a) Le déposant
- b) Votre office (dans ce cas, dans quelles dimensions doivent être soumises les images des éléments figuratifs des marques?)
- c) Autres (veuillez préciser) :

Question 6 : Comment votre office assure-t-il la qualité des images relatives aux marques compte tenu des différents niveaux de qualité ?

Question 7 : Combien d'images relatives aux marques sont mémorisées dans le ou les formats précités dans le ou les systèmes informatiques de votre office?  
(Veuillez ventiler par format).

Question 8 : Quelle option souhaiterait retenir votre office pour l'élaboration d'une recommandation de l'OMPI sur le traitement électronique des éléments figuratifs des marques :

- a) la définition et l'application d'un nouveau format?

Oui        .....

Non        .....

- b) l'utilisation de normes librement accessibles?

Oui        .....

Non        .....

- c) l'utilisation d'une norme exclusive (en l'espèce, TIFF)?

Oui        .....

Non        .....

Autres observations/remarques :
