INTRODUCTION

The present document contains Notes on the provisions of the draft Substantive Patent Law Treaty and the draft Regulations Under the draft Substantive Patent Law Treaty contained in documents SCP/7/3 and 4.

I.NOTES ONTHEDRA FTTREATY

NotesondraftArticle 1 (AbbreviatedExpressions)

- 1.01 Item(i) .Theterm"Office"includesboththenationalOfficeofanyStatewhichisa ContractingPartytotheTreaty,andtheregionalOfficeofanyintergovernmentalorganization whichisaContractingParty.Forexample,theTreatywillapplytotheEuropeanPatent Officeif,andonlyif,theEuropeanPatentOrganisationisaContractingParty.Thetermalso includesbranchofficesofsuchnationalandregionalOffices.Thereferenceto"other matters coveredbythisTreaty"coversthesituationinwhichtheOfficeofaContractingPartyisin chargeofotherproceduresinrespectofpatents,forexample,apost -grantopposition procedure,ifsuchprocedurewastobeincludedintheTreaty,ort heinvalidationofagranted patent.
- 1.02 <u>Item(ivvi)</u>. The term "claimed invention" is proposed to be used in the Treaty and the Regulations, since it is more precise than the term "invention," which is often used in relation to patents in ageneral sens e. In short, the expression "claimed invention" refers unambiguously to the subject matter for which protection is sought as it is contained and defined in a claim. It may be noted that the words "claimed invention" are also used in the Patent Cooperation Treaty (PCT) in relation to substantive matters of patenta bility (see for instance PCT Articles 33 to 35).
- 1.03 Item(+vii). The term "applicant" is used in the Treaty and the Regulation store fer only tothepersonwhoisindicatedassuchinthereco rdsoftheOffice.Accordingly.anvother personwhomighthave,orpurportstohave,alegalclaimofownershiporotherrightsisnot considered an applicant or owner for the purposes of this Treaty or the Regulations. The question of whom a yapply for a patent remains a matter for the applicable law of the ContractingPartyconcerned.Wheretheapplicablelawprovidesthatapatentmustbeapplied forinthenameoftheactualinventororinventors, the "personwhois applying for the patent" couldb etheinventororjointinventors. Whereapersonispermitted under the applicable law toapplyforapatentinplaceofaninventorwho,forexample,isdead,orlegally incapacitated,thatpersonisthe"personwhoisapplyingforthepatent.""Anothe rperson whoisfilingtheapplication" could, for example, under certain circumstances, bethe inventor's legal representative or so le heir in the United States of America. Where theapplicablelawprovidesthatanapplicationmaybesubmittedbyanynat uralorlegalperson, theapplicantisthepersonsubmittingtheapplication. Wheretheapplicable law of a Contracting Partyprovides that several persons may jointly be applicants or owners, the term "applicant" istobeconstrued as including "applican" ts" (see item (x)). "Another person who isprosecuting the application" could, in particular, bean assignee of record of the right, title and interest in an application, where the applicable law of a Contracting Partyrequires the patenttobeappliedfo rinthenameoftheactualinventorandalsoprovidesthatsuchan as signee is entitled to conduct the prosecution of the application to the exclusion of the namedinventor.

1.074 Item(ixviii). The priority date of an application is the date of the earliest application on which priority is claimed, and is used for setting time limits. However, the priority date is not always the date that determines the prior art for a particular claim, for example, where the claim contains elements that we renot included in the application in respect of which the earliest priority is claimed. The term "claim date" takes into account the situation where an application contains more than one invention contained each in different claims, and which may claim the priority of different earlier applications. This reflects the practice of many Offices, which consider each claim on a case - by-case basis. The claim date relates to a particular claim, not to the application as a whole, and establishes the date for the determination of the patent ability of the invention contained in the particular claim. Thus, different claims in an application may have different claim dates. The claim date of a claim in

anapplicationiseithertheactualfilingdateof thethatapp licatio	n containingtheclaim	or,
wherearightofprioritybasedonanearlierapplicationhasbeen	validlyclaimed underig	<u>n</u>
accordancewith the applicable law, the filing date of the earlier applicable law, the earlier applicable law applicable law, the earlier applicable law applicable	ationcontaining <u>t</u>	the
subjectmatterdefinedby theclaim. Itfollowsfromthewords"pric	orityisclaimedin	
accordancewiththeapplicablelaw"thattheclaiminquestionisentitle	dtothepriorityunder	
theapplicablelaw, which should be inconformity with Article 4	oftheParisConvention.	
Theterm"filing date"meansthefilingdateofanapplication,asprovi	dedforunderthe	
applicablelaw, which should, in accordance with draft Article 1	7,complywithArticle	<u>50f</u>
thePatentLawTreaty(PLT).		

1.085Inordertouseaconsistenttermtorefertothedate onwhichthepriorartisdetermined foreachclaim, it is suggested to adopt the aterm suchas—"claimdate." This term is already used in Canadian law in the same sense (see sections 2 and 28.10 fthe Canadian Patent Act (R.S. 1985, c. P-4)). The use of the term "claimdate" also allows to avoid the use of the term "priority date" throughout the Treaty and the Regulations in relation to substantive examination (see, however, the exceptions in draft Article \$8(2) and 9, and related draft Rule \$\frac{1.06}{2}\$. It is further to be noted that this term is not used in Article 40 fthe Paris Convention. Rather, the Paris Convention refers to a priority period for each earlier application referred to in the priority claim.

1.096Thesecondsentenceofite m (ixviii)coversthesituationwhere aclaimdefinesits subjectmatterinthe several alternative limitations contained in one claim have different prioritydates. Thealternatives contained in square brackets reflect the different practices of Offices, some of which allows single claim to have multiple priority dates, while others do not.Inthefirstalternative,theclaimdateforthewholeclaimwouldbethelatestofthedates applicable to the different limitations, while under the second alternative, each limitation couldbeentitledtoadifferentclaimdate. Theterm"alternative"means,accordingtothe Webster's Collegiate Dictionary (tenthedition), "asituation of fering a choice between two or morethingsonlyoneofwhichmaybechosen". Therefore, the second sentencedeals, within thecontextoftheclaimedsubjectmatter, with the cases where a claim contains more than one element or step and each of those elements or steps is entitled to a different claim date. It also a different claim date is a different claim date of the different claim date of the different claim date. It also a different claim date of the different claim date of the different claim date. It also a different claim date of the different claim date of the different claim date. It also a different claim date of the different claim date of the different claim date of the different claim date. It also a different claim date of the different claim date of the different claim date of the different claim date. It also a different claim date of the different claim date of the different claim date of the different claim date. It also a different claim date of the datecoversbothclearan dself-evidentalternatives, suchas Markush -typeclaims, and the case wheretheclaimcontainedintheearlierapplicationcoversonlyapartoftheclaimed inventiondefinedbyabroadexpression. There is no substantive difference between the two textswithinbrackets. According to the first option, each alternative could be afforded a different claim date, i.e., the one to which that alternative is entitled to, while according to the secondoption, forthepurposes of the claim date, the fiction is es tablishedthateach alternativeshallconstituteaseparateclaim, and could therefore have a different claim date.

1.07 Item(ix).SincetheTreatyandtheRegulationswouldalsobeapplicabletodivisional, continuationandcontinuation -in-partapplic ations(seeNote 3.04),fortheseparticulartypes of applications,theterm"claimdate"mustbedefinedastheclaimdateoftheclaiminthe relevantparentapplication.

 $\frac{1.10 \ \ Item(x). The expression "general knowledge of a personskilled in the art" as used in the Treaty and the Regulations is intended to include everything that could reasonably be expected to be known by a personskilled in the art clearly derived from his or her general knowledge, for example trivial features or information containe dinbasic text books on the substitution of the art of the art$

1.11 <u>Items (xvii),(xviii)and(xx)</u> areinsquarebrackets,sincetheywillbeneededforthe finalandadministrativeprovisions,whicharenotincludedinthepresentprovisionsyet.

NotesondraftArticle 2 (GeneralPrinciple)

2.01 <u>Paragraph(1)</u> .Thisprovisions tates,inexpressterms,aprinciplewhichwasagreedat
the fifths ession of the SCP, namely that the Treaty and the Regulations do not deal with any and the Regulations do not deal with any description of the SCP. The support of the SCP is a support of the SCP in the SCP is a support of the SCP in the SCP
substantive requirements related to infringement issues. The Treaty and the Regulations
thereforeapply <u>,asageneralrule</u> , toquestionsofpatentabilityandvalidity(duringboththe
pre-grantandpost -grantstages). Consequently,theprovisionsrelatingtoinfringement
contained indocuments SCP/5/2 and 3, such as those on equivalents and on "filewrapper"
estoppel"areproposedtobedeletedfromthepresentdraft. The Treatyand the Regulations
wouldthereforenotpreventanyContractingPartyfromapplyinganysubstantive——
requirementsrelatedtoinfringement, suchas, for example, intervening third part yrightsor
thedeterminationofthescopeoftheclaimsforthepurposesofinfringement. <u>Asagreedat</u>
thesixthsessionoftheSCP,however,thewords"SubjecttoArticle 11(4)"provideone
exceptiontothisprinciple:forthedeterminationofthescop eofprotectionoftheclaim,
provisionsconcerningtheinterpretationofclaims(seedraftArticle 11(4)anddraftRule 12)
shallbeapplicable.ItistobenotedthattheSPLTdoesnotinterferewithothertypesoflaws,
suchasantitrustandunfaircom petitionlaws,orgeneralrulesrelatingtofraud.

2.02 Paragraph(2). Asimilar provisionis contained in Article 73(b) of the Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS Agreement) and in Article 4 of the PLT. The "essen tial security interests" of a Contracting Party which is an intergovernmental organization refers to the security interests of its member States.

$\frac{Notes ond raft Article 3}{(Applications and Patents to Which the Treaty Applies)}$

- 3.01 <u>Paragraph(1)</u>.Inpri nciple,andsubjecttoparagraph (2),thisprovisionappliesthe TreatyandtheRegulationstoallapplicationswhicharefiledwithorfortheOfficeofa ContractingPartyandtopatentsforinventionandpatentsofaddition,whichhavebeen grantedwith effectforaContractingParty.Asregardsinternationalapplicationsunderthe PatentCooperationTreaty,however,referenceismadetotheexceptionsprovidedunder paragraph (2)andRule 3,andrelatedNotes.Nodistinctionismadebetweenapplicatio ns filedby,andpatentsgrantedto,nationalsofContractingPartiesandapplicationsfiledby,and patentsgrantedto,othernationals.
- 3.02 <u>Item(i)</u>.Theexpression"applications...whicharefiled...fortheOfficeofa ContractingParty"covers,in particular,applicationsforaregionalpatentthatarefiledwith theOfficeofaState X,whichisamemberStateofaregionalorganization,foronward

transmissiontotheOfficeofthatorganization.However,aregionalapplicationwhich designatesSt ate XisanapplicationfiledwiththeOfficeoftheregionalorganizationbutnot anapplicationfiledfortheOfficeofState X.Accordingly, where, for example, both the EuropeanPatentOrganisation(EPO)andState XwerepartytotheTreaty,theTreat vandthe $Regulations would apply to European applications and to national applications filed with the {\it the application} and {\it the$ OfficeofState X.However,ifState XwerepartytotheTreaty,buttheEPOwerenot,the TreatyandtheRegulationswouldapplytonationalapplicatio nsfiledwiththeOfficeof State X, but not to European applications, even if State Xweredesignated.Conversely,ifthe EPOwerepartytotheTreaty,butState Xwerenot, the Treaty and the Regulations would applytoEuropeanapplications,includingt hosedesignatingState X,butwouldnotapplyto nationalapplicationsfiledwiththeOfficeofState X.

- 3.03 Theterms "applications for patents for invention" and "applications for patents of addition" are to be construed in the same sense as the seterm sin PCTArticle 2(i). Accordingly, the Treaty and the Regulations do not apply to the applications listed in that Article other than applications for patents for invention and applications for patents of addition, namely, applications for inventors cert if icates, utility certificates, utility models, certificates of addition, inventors certificates of addition, and utility certificates of addition. However, a Contracting Party is free to apply some or all of the provisions of the Treaty and the Regulations to onstouch other applications, even though it is not obliged to do so. Similarly, the Treaty and the Regulations do not apply to applications for "plant patents" or "design patents" which are not patents for invention, although they do apply to applications on sfor patents in respect of plants which are inventions, for example plants which are the result of genetic engineering.
- 3.04 ThescopeoftheTreatyandtheRegulationsis,unlikethePLT,notlimitedtothose typesofapplicationsforpatentsforinve ntionandforpatentsofadditionpermittedtobefiled asinternational applications under the PCT. Thus, subject to paragraph (2),theTreatyand Regulations apply to all types of applications for patents for invention and patents of additionincludingdivisional applications and applications for continuation or continuation -in-partof anearlierapplication .ThesituationmaythereforearisethataContractingPartytoboththe $PLT and the SPLT would not have to apply the Treaty and the Regulations to {\tt NPLT} and {\tt NPL$ acertaintypeof application, but would have to apply the substantive requirements of the SPLT to that same application. This difference appears to be justified, since, as far assubstantive requirements ofpatentlawareconcerned, there would be no ap parentreasontolimitthescopeoftheTreaty and the Regulations as is the case under the PLT, where, in order to avoid different standards asfarasformalities of patentapplications are concerned, the scope of the PLT was modeled tobenotedthatthisitemdoesnotregulatethetypesofapplicationsthata afterthePCT.Itis Contracting Partyshallaccept; this remains a matter for the applicable law of the Contracting Partyconcerned.
- 3.05 However, the Treaty and the Regulations do not apply to a pplications for patent term extension, for example, in respect of patents for pharmaceutical products under the laws of Japan, the United States of America and the European Community, since these are not applications for the grant of a patent. Similarly, they do not apply to applications for patent term adjustment, for example, as in the United States of America, in respect of the determination of additional patent term for delays in the issuance of a patent. In addition, they do not apply to an application on for the conversion of an application for a European patent into a

nationalapplicationforoneormoredesignatedStatessincethisisarequestforadifferent typeoftreatmentratherthananapplicationforthegrantofapatent.However,theTreaty doesapplytotheapplicationonceithasbeenconvertedtoanationalapplication,ifthe countryconcernedispartytotheTreaty.AContractingPartyisfreetoapplysomeorallof theprovisionsoftheTreatyandRegulationstoanytypeofapplicati onsnotcoveredby item (i),althoughitisnotobligedtodoso. Asregardsdivisionalapplications,referenceis madetotheexplanationunderitem (ii)(seeNote 3.06).

- 3.06 Item(ii) .Thisitemisinsquarebrackets,sincedivisionalapplicationsha vebeen includedatthespecificrequestoftheSCP.However,itmaybequestionedwhetherthisitem isneededinviewofitem (i),whichseemstocoverdivisionalapplicationsaswell.Formore detailedprovisionsondivisionalapplications,referencei smadetoArticle4GoftheParis Convention.Nevertheless,theSCPmaywishtodiscussthedesirabilitytoinclude,inthe Regulations,certaindetailsapplicabletodivisionalapplicationsgoingbeyondArticle 4GoftheParisConvention. Underthisite m,theprovisionsoftheTreatyandRegulationsapplyto internationalapplicationsforpatentsofinventionandpatentsofaddition.Referenceismade, however,toparagraph(2)andRule(3)(i),accordingtowhichtheTreatyandtheRegulations wouldnot applyinrespectofaninternationalapplicationunderthePCTwhichhasnotyet enteredthe nationalphase inanationalorregionalOffice. This exception is contained in the RegulationsratherthanintheTreatyinordertomaintainsomeflexibility inviewof possible futured evelopments of the PCT.
- 3.07 Item(iii) .TheTreatyandtheRegulationsapplybothtonationalandregionalpatents granted by the Office of a Contracting Party and to patents granted on behalf of a Contracting Party and to patent signature of the Contracting Party and PaPartybyanoth erOffice,inparticular,theregionalOfficeofanintergovernmental organization.irrespectiveofwhetherthatintergovernmentalorganizationispartytothe Treaty.Forexample,ifState XreferredtoinNote 3.02werepartytotheTreaty,theTreaty and the Regulations would apply both to patents granted by the Office of StateXandto patents granted by the European Patent Office in sofar as they have effect in StateX, irrespective of whether the EPO were party to the Treaty. If the EPO were party totheTreaty, the Treaty and the Regulations would apply to all European patents for the purposes of any the treaty and the Regulations would apply to all European patents for the purpose so fany the treaty and the Regulations would apply to all European patents for the purpose so fany the treaty and the Regulations would apply to all European patents for the purpose so fany the treaty and the Regulations would apply to all European patents for the purpose so fany the treaty and the Regulations would apply to all European patents for the purpose so fany the treaty and the Regulations would apply to all European patents for the purpose so fany the treaty and the Regulation for the purpose so fany the treaty and the Regulation for the purpose so fany the Regulation for the purpose so fany the Regulation for the Re $procedures before the European Patent Office, for example, the revocation of patents in {\tt Patent} and {\tt Pat$ oppositionproceedings, even if State Xwerenotpartytothe Treaty.
- 3.08 Theterms "patents for invention" and "patents of addition" are to be construed in the same sense as those expressions in PCTArticle 2(ii). Accordingly, the Treaty and the Regulations do not apply to patents which are listed in that Article other than patents for invention and patents of addition, namely, inventors' certificates, utility certificates, utility models, certificates of addition, inventors' certificates of addition, and utility certificates of addition (see also Note 3.03). How ever, a Contracting Party is free to apply some or all of the provisions of the Treaty and the Regulation sto such other patents, even though it is not obliged to do so. In addition, the Treaty and the Regulation sapply to patents for inventions and patents of addition granted on international applications.
- 3.09 <u>Paragraph(2)</u>. Thetypesofapplications {and patents } excepted under this paragraphare contained in draft Rule 3. In particular, the Treaty and the Regulations would not apply to international applications under the <u>Patent Cooperation Treaty PCT</u> as long as their processing or examination has not started before national or regional Offices [except for Article 8(2)].

 $\label{eq:constraint} O ne delegation further indicated at the $$ \frac{fifthsixth}{session}$ session of the SCP that one of the exceptions that may be envisaged was the so $$ -called re-issum policies of the exception of the exceptions that may be envisaged was the so $$ -called re-issum policies of the exceptions of the exception of the exceptions of the exception of$

NotesondraftArticle4 (RighttoaPatent)

4.01 Thisprovisiondealswiththequestionofwhohastherighttoapatent. Detailsare containedindraftRule 4(seeNotes R4.01toR4.03).	
4.02 <u>Items(i)and(ii)</u> —Paragraph(1) .ThebasicprincipleprovidedbytheTreatyisthatthe righttoapatentshallbelongtotheinventorortohissuccessorintitle.Theterm"inventor" meansthepers onwhoactuallyinventedtheclaimedsubjectmatter.Theterm"successorin title"coversanynaturalpersonorlegalentitywho,pursuanttotheapplicablelaw,isentitled totherighttoapatentbyvirtueoftransferoftherightfromtheinventor,su chasthrough assignment, <u>employmentcontract</u> , donation,inheritance,bankruptcyandthelike. <u>Incertailegalsystems</u> ,theemployerisconsideredtobethesuccessorintitleoftheinventor,whilein othersystems,thisisnotthecase(seeNote 4.03).ThespecificrulesindifferentContracting	n-
Partiesapplicabletothetransferofrightsassucharenotaffectedbythisprovision. The	
representativeofadeceasedorlegallyincapacitatedinventor(orhissuccessorintitle)isnot	
coveredbythispr ovision, since such are presentative would, in general, not actinhisown	_
name,butinthenameofthepersonhe/sherepresents.	
-	
4.03 <u>Item(iii)</u> .Thisitemcoversthesituationwhereapersonownstherighttoapatent	
withoutfallingunderoneofthe categoriesreferredtoinitems (i)and (ii). An example would be a categories of the categories	d
bewheretherighttothepatent,althoughtheinventionwasmadebytheemployee,arises

therighttoapatentwhereseveralinventorshavejointlymadetheinvention.Insuchacase,	_
theinventorsmayagreeonhowtherighttothepatentshallbedividedam ongthembywayo	1,
forexample,acontract.Intheabsenceofsuchanagreement,eachinventorwouldhavean	-
equalandundividedrighttothepatent.	

4.06 Paragraph(4). This paragraphis currently reserved since it relates to the first to-inventissue.

NotesondraftArticle5 (Application)

- 5.01 Paragraph(1). Thisparagraphcontainsalistofthedifferentpartsanapplicationmust containandseemstobeself -explanatory. The terms "where required they are necessary for the understanding of the claimed invention in the tintention is to make it clear that Tethey are not meant to allow Office storeq uired rawings, but rather to allow applicants to submit such drawings where it appears necessary for the understanding of the claimed invention. The term "drawings "in tem (iv) includes photographs and other forms of graphic representations using new text.
- 5.02 Paragraph(2) .ThisparagraphprovidesfortheinterfacebetweenthedraftSPLT, the Detailed Eexplanations are contained indocument SCP/6/5 ("Studyon the PLTandthePCT. InterfacebetweentheSPLT,thePLTandthePCT"). Inprincipl e, the requirements under the PCTrelatingtotherequest, description, claims, drawings and abstract, both formality requirements and substantive requirements, are incorporated by reference into the SPLT. However, if the PLT, the SPLT or the Regulations under those Treaties provide anyother $\underline{requirements different from or additional to the PCT requirements concerning the request,}$ description, claims, drawings and abstract, the former shall apply. For example, Article 3(3) of the PCT provides that the abs tract merely serves the purpose of technical information and cannotbetakenintoaccountforanyotherpurposes. A Contracting Partyofthe SPLT would, however,notbeboundbythisrequirement,sincedraftArticle 7(3)oftheSPLTallowsan amendmentor correctiontakingintoaccountthedisclosureintheabstractasofthefilingdate, wheretheabstractwaspreparedbytheapplicant.Inparticular,draftRules 4and 5ofthe SPLTprovidefurtherrequirementsconcerningthedescriptionandclaimswhich arenot identical to the PCT requirements.
- 5.03 InaccordancewithRule5.2ofthePCT,nucleotideand/oraminoacidsequencelistings are part of the description. Therefore, the requirements concerning such sequence listings under the PCT are incorpora ted by reference into the SPLT.
- 5.034Paragraph(3) .Thisparagraph seemstobeself explanatorycontainsthegenerally acceptedprinciplethattheabstractshallonlyserveinformationalpurposes, and shall, in particular, not be used for the purpose so finterpreting the claims, determining the sufficiency of the disclosure or the patenta bility of the claimed invention. Not with standing this general principle, the words "Subject to Article 7(3)(a)" reflect the fact that, in accordance with the opinion of the SCP expressed at its sixthsession, the contents of the abstract which are incorporated in the description, claims or drawing sto the extental lowed under draft.

 Article 7(3)(a) shall be taken into account for the purposes of determining the sufficiency of the disclosure. In the same context, attention is also drawn to draft Article 10(2) relating to disclosure. The SPLT does not regulate the question of who should establish the abstract.

 Therefore, the Office of a Contracting Party is free to establish an abstract its elfort oamend the abstract or to choose any figures that better characterize the claimed invention ex-officio.

<u>ItgoeswithoutsayingthatthosepartsoftheabstractwhichareamendedbytheOfficeshall</u> <u>notbetakenintoaccount</u> <u>forthepurposesofdeterminingthesufficiencyofthedisclosure.</u>

NotesondraftArticle6 (UnityofInvention)

- 6.01 <u>ThetextofthisArticleissubjecttotheoutcomeoftheWorkingGrouponMultiple InventionDisclosuresandComplexApplications.</u> <u>Thiseprovisioncontainsthewidely acceptedprincipleofunityofinvention. Theterms "theclaimsintheapplication" makeit clearthattheclaimsassuchmustfulfilltherequirementofunityofinvention, sincethey definetheinvention.</u>
- 6.02 Thees sentialpurposeoftherequirementofunityofinventionistofacilitatethe administrationandthesearchofapplications. Accordingly, reference is made to draft Articles 13 and 14, according to which the failure to comply with the requirement of unity of invention may be aground for the refusal of an application, but may not, if a patenthas been granted on an application that does not comply with that requirement, be aground for the invalidation or revocation of the patented claim or patent. Inoth erwords, failure to comply with the requirement can and needs only be corrected at the application stage. At that stage, the sanction for non-compliance is the refusal of the grant of a patentum less the claimed inventionis restricted through the elimin at ion of certain claimed subject matter. The subject matter so eliminated may then be included into one or more "divisional" applications.
- 6.03 Anobjectionoflackofunityshouldonlybemadewhenlackofunityseriouslydisturbs the procedure and, if made, it should be made as soon as possible, that is, normally at the latest at the stage of the first examination based on the prior art. At a later stage of procedure, it should not be raised unless as a consequence of a mendment of claims or for other claims or f

 discretion.
- 7.034 Paragraph(2) .Accordingtoparagraph (1),anapplicanthasthepossibilitytomake observationsandtomakeamendmentsandcorrectionsfollowinganotificationfromthe Officeonthenon -compliancewithanyrequirementsunderArticle 13(1).Inaddition. Tthis provisionpermitsanapplicanttosubsequentlyremedyanynon -compliancewiththe requirements providedunderthe Treatyand the Regulations — on his own initiative up to the timewhent heapplicationisinorderforgrant. The expression "when the application is in orderforgrant"istobeunderstoodasthetimewhenthetechnicalpreparationsforpublication arecompleted.Oncethesepreparationsarecompleted,i.e.,whenthepublica tioncannotbe stoppedbytheOfficeanymore Forexample ,theOffice may wouldnot need to allow the applicanttomakeanamendmentorcorrection uptothecompletionofthetechnical uldbeconsideredto beanamendmentoftheapplication.

7.045However, wherethe Office provides a substantive examination, itmay imistakes under paragraph (3)(b), further limit the period during which the applicant may amendor correct the application on his own initiative. "The first substantive communication from the Office may be, for example, a communication from the Office office stinding with respect to the none of the own of the own

7.056 Itistobenotedthat, sincethis paragraphon lydeals with the right of the applicant to amendor correct the application, if the applicable laws opermits, the applicant may amendor correct the application on his own initiative at a later stage than is provided in this paragraph. Concerning the scope of amendments and corrections permitted, reference is made to paragraph (3) (see Notes 7.067 to 7.089).

7.067 Paragraph(3)(a) .Theconsequence of the failure to comply with this requirement is provided indraft Article 13(1)(iii)(see Notes 13.01 and 13.02). The phrase "the disclosure of theinventioncontained in the claims, description, the claims, any or drawing sasfiled at the timeof-and, whereit was prepared by the applicant, the abstract on the filingdate "includes mattersthathadbeendisclosedintheclaims, description , or drawings atthetimeof—and abstract(whereitwaspreparedbytheapplicant)onthe filing date ,butsubsequentlydeleted from the claims, description or drawings—during the prosecution of the application before the Office. The provisional lows for the possibility to a mend the desc ription,theclaims,the $abstract and any drawing son the basis of what had been disclosed in the abstract as of the {\tt abstract} and {\tt abstract} a$ filingdate, where the abstract was prepared by the applicant. This would, for example, make itpossibletoincludemattersdisclosedint heabstractintothedescription, where such matters werenotcontained in the description. If, however, the abstract was established by, or under theresponsibility of, the Office, corrections or amendments of the description, the claims, the abstractan danydrawingsbasedonthedisclosureintheabstractwouldnotbeallowedunder thisprovision, since the general rule established in Article 5(3) would apply, i.e. that the abstractshallserveforinformationpurposesonly. Further, Tthisparagraphdo esnotprevent theapplicantfromamendingtheapplicationbyaddingnewlydiscoveredreferencestothe priorart, since such references would not extend the disclosure of the invention.

7.07 Paragraph(3)(b) .Thisparagraphseemstobeself explanatory.

7.08 Paragraph(3)(eb). Thisprovisioncontainsalternativetextinsquarebracketsinrespect oftherelevantpersonforthedeterminationoftheterm"clearmistake".Ifthepersonskilled intheartistherelevantperson, clearmistakeswouldals ocovermistakesofatechnical nature, suchasmistakesinchemicalormathematicalformulas, iftheywerecleartoaperson skilledintheart. Theexpression"personskilledintheart"iscontainedindraftRule 2(see Notes R2.01 toR2.03). Inthec aseofthesecondalternative, the possibility of amendmentor correction would be limited to those errors which are clear to any person, thereby not requiring any particular qualification of sucha person. Since, according to the secondal alternative, ami stakedoes not qualify as "clearmistake" if there is one single person who does not consider it clear, the practicability of the secondal ternative may be reviewed. In accordance with draft Article 16, in order to determine whether the mistake is a cone, any evidence may be taken into account.

NotesondraftArticle8 (PriorArt)

8.01 <u>Paragraph(1)</u>. The definition of prior artiso ffundamental importance for the determination of patenta bility, since novel tyand inventive stepare examined on the basis of existing art, i.e., prior art. According to this provision, first, the prior art with respect to the

subjectmatterofaparticularclaimshallconsistof allany information which has been made availabletothepublicanywhereintheworld,be foretheclaimdateofsuchclaim. expression"information"istobeunderstoodasencompassinganythingwhichcanbe captured by the fivehuman senses through, for example, hearing, reading, study or instruction. Inaccordancewiththedecisionoft heSCP, #-thewords contained insquarebrackets"timeof filingonthe" wereincluded, the precise time of filing of the claim on the claim date would be relevantforthedeterminationofpriorart. If these words were not included, - areproposedto bed eletedsothat thepriorartwouldconsistofanyinformationthathasbeenmadeavailable tothepublicbeforetheclaimdate,regardlessofthetimeoffilingofthatclaim,but information made available on the same day, even though earlier than the tim eoffilingofthe claiminguestion, would not form part of the prior art. Details concerning availability to the publicarecontainedindraftRule 8(2).

8.02 Second, the prior artshall consist of information that has been made available to the public nanyform, whether it is in written for mornot (seed raft Rule 8(1)andNote R8.01). Consequently, for example, no Contracting Party may exclude from the prior artin formationthat has been made available to the public by or alpresentation, regardless ofthecountryin whichthepresentationwasmade. Third, in accordance with the reference to paragraph (2),thepriorartwithrespecttoacertainclaimshallalsoinclude **former**earlierapplicationsthat arefiledin,orwitheffectfor,thesameContr actingPartybefore,butarepublishedafter,the claimdateofthatclaim,althoughthecontentsofthe former earlier application have not been madeavailabletothepublicbeforetheclaimdate. Fourth, in accordance with the reference to draftArticle 9.informationwhichmeetstheconditionsofthatArticleisnotconsideredtobe priorart, evenifthat information has been made available to the public before the claim date.

8.03 Thealternativespresentedwithinsquarebracketsregardingthedefin itionof"claim—date"underdraftArticle—1(ix)resultindifferentdefinitionsofpriorartwheremorethanone—limitationisincludedinoneclaimandthoselimitationsareentitledtodifferentclaimdates.

IfthefirstalternativeunderdraftArticle—1(ix)waschosen,thepriorartwithrespecttothat—claimwouldconsistofanyinformationthathasbeenmadeavailabletothepublicbeforethe—latestofthedifferentclaimdates,i.e.,theearliestdateonwhichallofthealternative—limitationswere—madeavailabletothepublic.Ifthesecondalternativewasincluded,thepriorartwithrespecttoeachalternativeclaimlimitationwouldbedeterminedindividuallyonthe—basisoftheclaimdateofeachlimitation.

8.04<u>3</u>Furtherdetailsconcerning theavailabilitytothepublicareprovidedindraftRule 8 (seeNotes R8.01toR8.05) and in the Practice Guidelines .

8.054 Paragraph(2) .Thisparagraphprovidesthatthepriorartwithrespecttoacertainclaim alsoconsists of formerearlier applicationsfiledin, or with effect for, the same Contracting Party, the filing date (or where applicable, the priority date) of which is earlier than the claim date of that claim, provided that the formerearlier application, or the patent granted on the formere arlier application, is published after such claim date. In accordance with draft Article 12(2) and (3), t. The formere arlier applications referred to in this paragraph form part of the prior art for the purpose of the determination of novelty, but not of inventive step. It is to be noted that if the words within square brackets "except for Article 8(2)" indraft Rule 3(i) are included, any international application under the PCT would constitute prior art under this provision, although the Treaty and the Regulations, as a general rule, would not apply to those

applicationsaslongastheyhavenotenteredthe "nationalphase" (seeitem (i) of draft Rule 3 and NoteR 3.01). According to Article 11(3) of the PCT, any international application accorded an international filing date shall have the effect of a regular national application in each designated State as of the international filing date, which date shall be considered to be the actual filing date in each designated State. Further, it should be noted that the Working Group on Reform of the PCT will reason in examine the concept and operation of the designation system under the PCT.

 $8.06\underline{5} Although the contents of a \underline{n} \ \underline{former} \underline{earlier} application have not been made available to the public before the claim date of the claim under consideration, that application forms part of the prior artinor der to avoid any possibility of double patenting, since the subject matter disclosed in the <math display="block">\underline{former} \underline{earlier} \underline{application} \underline{asom the filing date could lead to a separate patent. In addition, since the whole contents of the <math display="block">\underline{former} \underline{earlier} \underline{application} \underline{spublished later}, \underline{if the subject matter of the claim contained in the later application is not new having regard to the <math display="block">\underline{former} \underline{earlier} \underline{application}, \underline{that claim would not add any new con} \underline{tribution to the existing art}.$

8.07<u>6</u>Detailedconditionsasregardsthepriorarteffectof <u>formerearlier</u>applicationsare providedindraftRule 9(seeNotes R9.01toR9.0 78).

NotesondraftArticle9
(InformationNotAffectingPatentability(GraceP eriod)[AlternativeA]
GracePeriod[AlternativeB])

9.01 ThisdraftArticleisplacedinsquarebrackets, sinceits inclusion may depend on discussions to be taking place at a later stage.

9.021 <u>AlternativeA</u>. This Alternative is modeled afterdraft Article 12 of the Draft Treaty Supplementing the Paris Convention as Faras Patents Are Concerned ("1991 Draft"; see documents PLT/DC/3 and 69). <u>However, the use of the words "disclosure" in the title and "disclosed" in the preamble and in item (ii) (a) of paragraph (1) have been avoided, so that the terms "disclosure" and "disclose," which appear in draft Article 10 with a different meaning, are used consistently throughout the draft SPLT.</u>

9.02 Paragraph(1). Thewords "anywhereintheworldinanyfor m"inthepreamblehave beenaddedforconsistencywithdraftArticle 8. Inaddition, items (i) and (iii) are intended to coverthe cases where the information was made available to the public through experimental use by the inventor or by a third partyw hich obtained the information from the inventor. It follows from the general provision on evidence indraft Article 16 that, where the applicability of the grace periodiscontested, the party invoking its effects shall have the burden of proving, or of making the conclusion likely, that the necessary conditions are fulfilled.

9.03 Paragraph(3). The phrase "at any time" means that the effect of paragraph (1) can be claimed at any stage of the patent -granting procedure or the reafter, for example, during invalidation proceedings. It would prevent third parties from raising, during invalidation proceedings, the prior arteffect of a publication made by the inventor.

9.04 Paragraph(4).Inaccordancewiththeinterventionsofanumberofdelegationsatth e sixthsessionoftheSCP,thisprovisionintroducesinterveningrightsofthirdparties,who wereusingtheinventionorhadstartedeffectiveandseriouspreparationsforsuchuse,ingood faith,betweenthedateonwhichtheinvention,orinformationr elatedtoit,wasmade availabletothepublicunderparagraph(1)andtheclaimdate.Thepartyenjoyingsuch interveningrightshastherighttouse(ortocontinuetouse)theinventionforthepurposesof his/herbusiness.AContractingPartyis,how ever,freetoprovideanyremuneration mechanismforsuchuse.Asregardsthelimitationtotheclaimdate,referenceismadeto Article 4B.oftheParisConvention,whichstatesthatthird -partyrightsoranyrightof personalpossessioncannotbeacquir edduringthepriorityperiodbasedonanyoftheacts referredtointhatprovision.

9.035 <u>AlternativeB</u>. This Alternative does not change the substance of Alternative A. It simply provides for the principle to be contained in the Treaty, while furthe rdetails would be moved to the Regulations.

NotesondraftArticle10 (EnablingDisclosure)

10.01 <u>Paragraph(1)</u>. Althoughthisprovisionreferstotheapplication, sincetheabstract merelyservesthepurposeoftechnicalinformation, theabstractsha llnotbetaken into account forthedetermination of the sufficiency of disclosure, (seedraft Article 10(2)). Where the application refers to biologically reproducible material which cannot the application to meet the requirement sprescribed in this paragraph, supplemented that requirements shall be considered to be complied with syndepositofs uch material. Details concerning the deposit of biologically reproducible material are prescribed indraft Rule 11 (see Notes R11.01 and to R11.0 23). The notion of "aperson skilled in the art" is prescribed indraft Rule 2 (see Note R2.01) and in the Practice Guidelines.

10.02 Thesecondsentenceofthisparagraphclarifiesthephrase" sufficiently clearand complete for the invention to be carried out by a personskilled in the art. "First, the disclosureisaimedatapersonskilledintheart. This person may use it sgeneral knowledge tosupplementtheinformationcontainedintheapplication(seedraft Rule $\frac{10(1)}{2}$). Second, thedisclosuremustallowapersonskilledinthearttobothmakeandusetheclaimed invention. Therefore, if the disclosure of a claimed invention, for example, of a chemical compoundorbiologicalmaterialwhichisisolatedand purified, allows a personskilled in the arttoreproducesuchchemicalcompoundorbiologicalmaterial, butisnotsufficienttoteach howitcanbeused, such a disclosuredoes not comply with the requirement under draft Article 10.Third, although are asonableamountoftrialanderrorispermissible,aperson skilledintheartmust, on the basis of the disclosure of the claimed invention and the general knowledge, beabletocarryout the invention without "undue experimentation." This is applicable particularlyinthefieldofunexploredtechnologies. Factors to be considered in ordertoassesstheabsenceof"undueexperimentation"arelistedindraftRule 10(2). Fourth, itfollowsfromthephrase"asofthefilingdate"thatthedisclosureshall besufficienttocarry out the invention on the basis of the knowledge of a person skilled in the art at the time of the action of the contraction ofilingdate, notatthetime of the examination or the grant of the patent.

10.03 Paragraph(2) .Forthepurposesofassessingsuff iciencyofdisclosure, the description, claimsanddrawingsshallbeexamined assubmitted-onthebasisofthedisclosuremadeinthe description, claims and drawings on the filing date, including any amendments or corrections made as a mended and corrected in accordance with draft Article 7. Although, as a general rule, the abstract shall not be taken into account for purposes other than information purposes, thereferencetodraftArticle 7wouldallowtotakeintoaccountthecontentsoftheabstract which has been incorporated into the description through a namendment permitted under draft Article 7(3), provided the abstract was prepared by the applicant. The sufficiency of disclosureshallbeassessedonthebasisoftheclaims, description and drawings asawhole. Therefore, where a claimed invention is sufficiently disclosed in the claims, but the descriptionanddrawingsalonedonotdisclosetheinventioninasufficientlyclearand completemanner, the enablement requirement under draft Article 10 ismet. However, in this case,the"supportrequirement"underdraftArticle 11(2),i.e.,thattheclaimsshallbefully supported by the description and the drawings, may not be met.

NotesondraftArticle11 (Claims)

- 11.01 <u>Paragraph(1)</u>. Therequir ementunderthisparagraphisasubjectiveone, sinceitisthe applicantwhodetermines what here gards as his invention and what the subject matter for which hese eks for patent protection is. Therefore, non -compliance with this requirement is not agro-undforce fusal of a claimed invention or for revocation or invalidation of a claim or a patent (seedraft Articles 13 and 14).
- 11.02 Paragraph(2). Therequirementthattheclaimsshallbeclearisimportantsince, oncea patentisgranted, the claimsd efine the scope of its protection. This requirement applies to individual claims as well as to the claims as a whole. Since the interpretation of the claims shall be made primarily on the basis of the wording of the claims (seed raft Rule 12(1)), the meaning of the terms of a claim should, as far as possible, be clear for a person skilled in the art on the basis of the wording of the claim alone. The claim is deemed to be clear enough if a person skilled in the art can determine the boundaries of the claim is deinvention with a reasonable degree of certainty. For example, in consistency between the terms of a claim and the description or prior art teaching, the use of terms such as "essentially," "relatively" or "similar" in the claim, or absence of the basis so freference, whereaword or a phrase refers to an earlier citation, could be considered as not complying with the clarity requirement.
- 11.03 Therequirementthattheclaimsshallbeconcisealsoappliestotheindividualclaims aswellastotheclai msintheirentirety. Forexample, unduere petition of words or a multiplicity of claims of a trivial nature which render it unduly burden some to determine the matter for which protection is sought, could be considered as not complying with this requirement. However, it is not the intention of this provision to form a basis for allowing Officestoreduce the number of claims where there is no absence of clarity or conciseness in respect of the claims. Is sue sconcerning the number of claims and the requir ement of "clear and concise" claims will also be discussed by the Working Group on Multiple Invention Disclosures and Complex Applications.

- 11.04 <u>Paragraph(3)(a)</u>. Thisparagraphprovidesthatthedescriptionordrawingsshould provideabasisforthecl aimedinventionandthatthescopeoftheclaimsmustnotbebroader thantheextentofthedescriptionanddrawings. Inotherwords, the claimed invention must be fully supported by the disclosure in the description and drawings in a manner allowing a personskilled in the arttoextend the teaching of such disclosure to the entirescope of the claim.
- 11.05 However,non -compliancewiththesupportrequirementunderthisparagraphcould oftenbeconsideredasnon -compliancewiththeenablementrequireme ntunderdraft Article 10aswell.Forexample,wheretheclaimistoobroadtobesupportedbythe descriptionanddrawings,thedisclosuremayalsobeinsufficienttoenableapersonskilledin thearttocarryouttheclaimedinvention.Therefore,the SCPmaywishtodiscusstheneedof thissubparagraphinviewofdraftArticle 10.
- 11.06 InaccordancewithdraftArticle 14(1),onceapatenthasbeengranted,non -compliance withtherequirementunderthissubparagraphshouldnotbeagroundforthe invalidationor revocationofaclaimorapatent.
- 11.07 <u>Paragraph(3)(b)</u>. This paragraph provides that the claimed invention must be supported by the disclosure of the application as filed in a way to allow a persons killed in the art to recognize that a softhefiling date, the applicant actually was in possession of the claimed invention as his own intellectual creation.
- 11.08 Paragraph(4)(a) .Thisparagraphprovidesthebasisforthemannerofinterpretation of claimsforthepurposesofdetermi ningcompliancewiththerequirementsinrespectof the claims(seeparagraphs (2) and (3)), enabling disclosure(seedraft Article 10), patentable subject matter(seedraft Article 12(1)), novelty(seedraft Article 12(2)), and-inventive step/non-obviousness(seedraft Article 12(3)) and industrial applicability/utility(seedraft Article 12(4)). Details concerning themannerofinter pretation of claims are prescribed in draft Rule 12. It follows from the wording of draft Article 2(1) that paragraph (4) and draft Rule 12 are also applicable to the interpretation of patented claims during infringement procedures.
- 11.09 Paragraph(4)(b).Thisparagraphreflectsthedecisiontakenatthesixthsessionofthe

NotesondraftArticle12 (ConditionsofPatentability)

12.01 Thisprovisioncoversbotheligibilityastopatentablesubjectmatterandtheconditions ofpatentability whichwere,informerdrafts,containedindistinctprovisions—. The eprovision isofaveryimportantnature, since it will constitute the basis for a possible future mutual recognition of search or examination results or even patents in different Contracting Parties.

12.02 Asregardstheconditionsofpatentability,the provisiondoesnotprovideadistinct
condition of patenta bility with respect to either industrial applicability or utility, but requires
thatpatentablesubjectmattershallincludeproductsandprocesseswhichcanbemadeand
usedinanyfieldofactivi ty(seeNote12.04).Thereasonsforthisarethefollowing:although
theyoverlapinpart, there are differences between the requirements of industrial applicability
usedbysomesystemsontheonehandandofutilityappliedbyothersystems,ontheot her
hand.Thesedifferencesappeartobedifficulttoovercome,but,inpractice,onlyveryfew
applicationsarerefusedonthosegrounds.Inaddition,inmanycases,theconditionof
industrialapplicability/utilitycanbesubsumedunder,oratleastov erlapwith,other
requirements, such as patentable subject matter, the definition of invention or the enabling
disclosurerequirement.Forexample,inmanycases,ifaclaimedinventionfailsto———
${\color{blue} demonstrate its practical application, it is probable that the application will also fail to enable}$
apersonhavingordinaryskillsinthearttocarryouttheinvention.Further,applications
concerningcertaintypesofinventionsarerefusedonthebasisofthedefinitionoftheterm
"invention"insomecountrie s,orareconsideredtocontainnon patentablesubjectmatterin
othercountries, while in a third category of countries, applications concerning the same
inventionsmayberefusedonthegroundoflackof"industrialapplicability."Forexample,
inventionsconcerning"methodsfortreatmentofthehumanoranimalbodybysurgeryor
therapyorofdiagnosispracticedonthehumanoranimalbody"areconsidered
${\color{blue} non-industrially applicable in some countries, while they may be excluded from patenta bility}$
inthe interestofpublichealthinothercountries.Further,underthelawofsomecountries,
aestheticcreationsmaybeconsideredasnotbeingapplicablein"industry,"whileinother
countries, they may not be regarded as "inventions." In addition, under many national laws,
$the effects of the patent right do not extend to acts of making or using patented in ventions for {\color{black} }$
privatepurposes. Therefore, even if a patent is granted to an invention which only serves for
privateuse, that patent would not be enforce eable in practice.

12.03 Itisapparentthatthenotionsof"industrialapplicability"and"utility"arebroadand, atleastinpart, overlapamong each other as well as with other substantive requirements of patentability. Inview of the objective of full larmonization of substantive patent law, it is therefore suggested nottoin clude industrial applicability/utility as a distinct condition of patentability into the Treaty, but to deal with the issue inconjunction with patentable subject matter or any other requirement. As far as the compatibility of this suggestion with the TRIPS Agreement provides for minimum requirements only, and that the term "industrial applicability (utility)" used in that agreement is not further defined.

12.042 Paragraph(1)(a) .Thisp—Paragraph (1)explicitly sets out that an invention, to be patentable, must fall within the scope of patentable subject matter , which eligible for patentable subject matter , which el

- 12.04 Item(i).Thisitemwouldexcludefrompatentabilitymerediscoveries, such as things that exist assuch in nature without any human intervention or natural phenomena without any concrete application.
- 12.05 Item(ii).Theexpression"abstr actideasassuch"wouldencompass,inparticular, meredescriptiveideasandconcepts perse, suchasforexamplementalactivities, abstract rulesorthemerepresentationofinformation.
- 12.06 Item(iii). The expressions "scientificand mathematical theories assuch" and "laws of nature assuch" are included for the purpose of completeness, since they could, at least in part, becovered by items (i) and (ii). This item covers only the mere description of such theories and laws of nature, but not inventions based on them.
- 12.07 Item(iv).Purelyaestheticcreationsaregenerallynotprotectedbypatents,butby industrialdesignsorcopyright.Thisitemcoversonlythecreationwhichhasexclusively aestheticaspects.Ifthecreationcontainsanyp atentableelementorfunction,thoseelements orfunctionswouldbepatentable.
- 12.058 Paragraph(2) .Thisparagraphprovidestheconditionofnovelty.Thenovelty requirementisconsideredtobecomplied with where the invention does not form part of the priorart. The definition of priorart is contained in draft Article 8, draft Rules 8 and 9 and the Practice Guideline sunder Rule 8. dD etails on the requirement of novel ty are contained in draft Rule 14 and in the Practice Guideline under that draft Rule.
- 12.069 Paragraph(3) .Theconditionofinventivestep/non -obviousnessisfulfilledifthe invention, compared to the prior art, would not have been obvious to a person skilled in the tiesbetweentheclaimed art. The terms "having regard to the differences and similari invention <u>asawhole</u> andthepriorart" arenotintendedtounderminethefact <u>pointtothe</u> stepswhichareusuallyappliedinpracticewhenassessingtherequirement, butalsomakeit clear thattheinventionasawholemustbein ventive/non-obvious, butratherpointtothesteps whichareusuallyappliedinpracticewhenassessingtherequirement—. The limitation of the priorarttothedefinitioncontainedindraftArticle 8(1)excludesthepriorarteffectofearlier applications as provided in draft Article 8(2) with respect to inventive step/non inconformitywiththeopinionofthemajorityoftheSCP atitsfifthsession—.Detailsonthe requirementofinventivestep/non -obviousnessarecontainedindraftRule 15andinthe Practice GuidelineunderthatdraftRule.

- 12.10 Paragraph(4).Thisparagraphcontainstheconditionofpatentabilityofindustrial applicability/utility.InordertoreflectthedebateattheSCP,threealternativesareproposed inthispro vision:thesecondandthethirdalternativereflectthestandardcontainedinmany national/regionallegislationconcerningindustrialapplicabilityandutility,respectively.The firstalternativeattemptstotakeintoconsiderationtheessenceofboth requirements,including realpractices,andreflectsamoreglobalapproach,wherebyaninventionwouldhavetobe abletobemadeorusedinanyfieldofcommercialactivity.Thisalternativesisintendedto coverbothindustrialapplicabilityandutili ty,sinceitcontainstheaspectofmakingorusing theinventioninanyfieldofcommercialactivityandtheaspectofexploitation,whichimplies acertainutilityoftheinvention.
- 12.11 Paragraph(5).Thisparagraphprovidesthelegalbasisforthei nclusion,inthe
 Regulations,ofgroundsofexclusionofcertaininventionsfrompatentability.Therelevant
 RuleisdraftRule13.

<u>NotesondraftArticle13</u> (GroundsforRefusalofaClaimedInvention)

- 13.01 <u>Paragraph(1)</u>. This paragraph provides for the ground son which an application shall be refused. It aims at covering all the requirements relating to the examination of an application and to the grant of a patent on a claimed invention. For that reason, the requirements of the Patent Law Treaty, which relates to formality requirements, are also covered under this provision.
- 13.02 Itfollowsfromthewords"wheretheOfficefindsthat"thattheOfficeisnotobligedto examinealltherequirementsreferredtointhisparagraphbeforethegrant ofapatent.If, however,theOfficefindsthatthereisanynon -compliancewithoneormoreofthose requirementsduringtheexaminationprocedure,itshouldrefusetheapplication.
- 13.03 Paragraph(2). Thisparagraphexplicitlyprovidesthat, as fara srequirements relating to the examination of an application and to the grant of a patent on a claimed invention are concerned, a Contracting Partymay not refuse an application on the basis of any requirements different from or additional to those prescribed in paragraph (1). Additional consequences of the non-compliance with the requirements contained in this provision are not regulated by the Treaty or the Regulations. For example, where new matter was included in the application after the original filing date, a Contracting Partywould be free to provide the possibility of according a different filing date to the relevant parts relating to the new matter.

$\frac{Notes ondraft Article 14}{(Grounds for Invalidation or Revocation of a Claim or a Patent)}$

14.01 <u>Paragraph(1)</u>. Thisparagraphprovidesforthegroundsonwhichapatent,or,where applicable,apatentedclaim,shallberevokedorinvalidated. Thewords "subjectto...the PatentLaw Treaty" are included to ensure that Article 10(1) of the Patent Law Treaty continue to apply, i.e., non -compliance with one or more of the formal requirements referred to in Articles 6(1) [formor contents of application], (2) [request form], (4) [fees] and (5) [priority

document]and8(1)to(4) [formandmeansoftransm ittalofcommunications,languageof communications,modelinternationalformsandsignatureofcommunication]ofthePLTwith respecttoanapplicationmaynotbeagroundforrevocationorinvalidationofapatent,either totally,orinpart,exceptwher ethenon -compliancewiththeformalrequirementoccurredas theresultofafraudulentintention.

- 14.02 Similarly,thisprovisionexpresslyprovidesthatnon -compliancewiththerequirements referredtoin <u>draft</u> Articles 6[unityofinvention] and 11(3) (a) [supportrequirement] may not be a ground for the revocation or invalidation of a patentor a claim. These requirements, although they may be needed for the processing of the application, are not essential to the issue of patenta bility of the claimed invention.
- 14.03 Thisparagraphappliestothesegroundsindependentlyofwhethertheyareexamined beforetheOfficeorbeforeanyothercompetentauthority,includingacourt. Thewords "the invalidationorrevocation" is intended to also coversanct ions which are of equivalent effect to revocation or invalidation, such as no -enforcea bility of rights.
- 14.04 <u>Paragraph(2)</u>. ThisparagraphexplicitlyprovidesthataContractingPartymaynot invalidateorrevokeapatentedclaimorapatentonthebas isofanyrequirementsdifferent fromoradditionaltothoseprescribedinparagraph (1). Concerningthewords "the invalidationorrevocation," reference is made to the explanation underparagraph (1) (see Note 14.03).

NotesondraftArticle15 (Observationsand Review)

- 15.01 <u>Paragraph(1)</u>. ThisprovisionparallelssimilarprovisionsunderthePLTwithrespect toformalityrequirements, for example, Articles 6(7), 7(5) and 8(7). The time limit under this paragraphis prescribed in Rule 16.
- 15.021 Paragraph(2). This paragraph provision seems to be self explanatory.

NoteondraftArticle16 (Evidence)

16.01 Thisarticleprovidesthegeneralprincipleswithrespecttothesubmissionofevidence andtheburdenofproof.Undertheseprinciples,an applicantoranythirdpartymayinitiate, ortheOfficeofaContractingPartymayrequire,thesubmissionofevidencesupportingthe veracityofanyallegedfactinrelationtothepatentabilityoftheclaimedinventionandthe validityofthepatented claim.

NoteondraftArticle 1 67 (RelationshiptoPLT)

167.01ThisprovisionregulatestherelationshipbetweenthepresentTreatyandthePLT.The differencebetweenthetwoalternativescontainedinsquarebracketsarethat,inthefirstcase, whichismodeledafterArticle 15ofthePLTandArticle15oftheTrademarkLawTreaty ("TLT"),ContractingPartieswouldhavetocomplywiththeprovisionsofthePLTinthe applicablelaw,withouthavingtojointhePLT,while,inthesecondcase,theywould haveto becomeapartytothattreaty.WhilethefirstalternativepreservesthefreedomofContracting PartiestojointhePLT,thesecondalternativewouldensurethesamemembershipinboth treaties. AccordingtoArticle 1(x),theterm"PatentLawTr eaty"includestheTreatywith futurerevisions,amendments,andmodifications,ifany.Therefore,aprovisionsimilarto Article 16ofthePLTwillberequiredintheSPLT.

II.NOTES ONTHEDR AFTREGULATIONS

NoteondraftRule 1 (AbbreviatedExpressions)

R1.01 Thisprovisionappearstobeself -explanatory.

NotesondraftRule 2

 $(PersonSkilledin\ the Art Under Articles\ \frac{1(x),}{7}(3)(e\underline{b}), 10(1), 11(3)(b)\ \underline{and}(4)(\underline{a})\ \underline{and}12(3),\\ and$

Rules $\underline{1(c)(i)}, \underline{54(1)(vii)}$ and $\underline{(2)(b)}, \underline{8(2)(b)}, \underline{10(1)}$ and $\underline{(2)}, \underline{(iii)}, \underline{11(1)}, \underline{12(15)}$ and $\underline{(3)(a)}, \underline{14(1)(ii)}, \underline{and}, \underline{(2)(a)}$ and $\underline{(2)}, \underline{(3)}$ and $\underline{(4)}$

R2.01 Thepersonskilledin theartasdefinedunderthisprovisionisa kindof hypothetical person, who is supposed not only to have access to all the prior art which is a vailable to him/her intherelevantfieldoftheart ontherelevantdate,butalsotohaveunderstoodthat priorart withintheboundariesofhis/herordinaryskillsandcommongeneralknowledgein $\underline{the art on the relevant date} \quad . The reference to the ``relevant date'` takes into account the fact$ that,in eertain-the cases relatingtothedisclosure,i.e.,draftArti cles 7(3)(b),10(1),11(3)(b) and(4)(a)anddraftRules 4(1)(vii)and(2)(b),10(iii)and12(5) ,it—therelevantdate is the actualfilingdate whichistherelevantdate , whilein other the cases relatingtothe determinationofinventivestep(non -obviousness), i.e., draftArticle 12(3) and draft Rule 15(2),(3) and (4) ,that date is the priority claim date. Some further details on the notion of "personskilledintheart" are contained in the Guideline under the present draft Rule. regardstherefe rencetothe "relevantdate" indraftRule 14(1)(ii) and (2)(a) and (b), since it $\underline{concerns the prior art relevant to the determination of no velty, that date is the date on which the date of t$ therelevantpriorartwasmadeavailabletothepublic, exceptwheretherele vantpriorartisan earlierapplicationreferredtoinArticle 8(2).Inthatcase,therelevantdateisthefilingdate or, where applicable, the priority date of the earlier application. As regards the term "general" knowledge,"referenceisalsomadet odraftRule 1(c)(i).

R2.02 Thedefinitionunderthisprovisionisapplicabletotheterm"personskilledintheart" throughouttheTreatyandtheRegulations,includingthePracticeGuidelines.However,the relevantinformationathis/herdisposalmay differbetweenthedeterminationofnoveltyand inventivestep(non -obviousness)andofsufficiencyofdisclosure.Fornoveltyandinventive step(non -obviousness)purposes,thepersonskilledintheartmakesthatdeterminationbased onhis/herknowledge ofthepriorart,whileforthesufficiencyofdisclosurepurposes,the personskilledintheartknowsthedisclosureoftheclaimedinventionintheapplicationin additiontothepriorart.

R2.03 ItfollowsfromthetextofdraftArticle 8(2)thatthe scopeofthe"priorartunder

Article 8"includesan"earlierapplication"underdraftArticle 8(2)onlyforthedetermination
ofnovelty.

NotesondraftRule 3 (ExceptionsUnderArticle 3(2))

R3.01 Asageneralrule, item (i)exceptsinternationalap plicationsunderthePCTfromthe scopeofapplicationoftheTreatyandtheRegulations,aslongasthe"nationalphase"in respectofsuchapplicationshasnotstarted. Thus, the provision sunderthePCTwould continuetoapplytointernationalapplicat ionsinthe"internationalphase."Itisproposedto include this exception in the Regulations, rather than in the Treaty, in order to maintain some flexibilitywithregardtopossiblefuturedevelopmentsofthePCT.Itistobenoted,however, thatlue to if the introductory words "Except for Article 8(2)" presentedwithinsquarebrackets initem (i) are included , international application sunder the PCT would constitute prior art underArticle 8(2), evenifsuchapplications have notentered the "nationa" lphase."This exceptionisproposed fordiscussion inviewofArticle 11(3)ofthePCT, according to which anyinternationalapplicationaccordedaninternationalfilingdateshallhavetheeffectofa regularnationalapplicationineachdesignatedStat easoftheinternationalfilingdate.

R3.02 Further exceptions provided under draft Article 3(2) are reserved at this stage.

Notes ondraft Rule 4 (Details Concerning the Rightton Patent Under Article 4)

R4.01 <u>Paragraph(1)(a)</u> .According to this provision, a Contracting Party is free to decide how it wishest or egulate the right to a patent in the case of employee's inventions. Although the provision does not a chievefull harmonization, it follows the majority of the SCP which expressed the wish, a tits fifths ession, to maintain some flexibility on this issue. The alternative sprovided in draft Article 4 allow to cover the different legal regimes which may be applied under different systems.

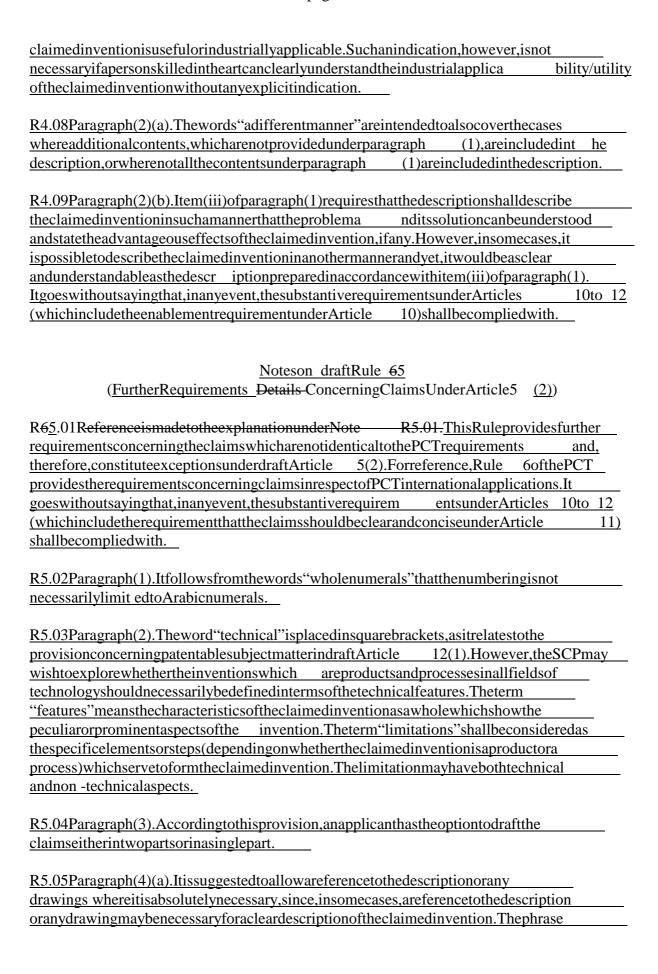

R4.02 <u>Paragraph(1)(b)</u> . This provision deals with the cissue of applicable law for the determination of the right to a patent in the case of employee's inventions, where employer

determinationoftherighttoapatentinthecaseofemployee'sinventions,whereemployer andemployeeareindifferentcountries.Sinceitisnotaprovisiononsubstantivepatentlaw, butratherdealswiththeapplica blelaw,itisplacedwithinsquarebrackets.Ithasbeen includedinordertoobtainguidancefromtheSCPonwhether,inviewofthefreedom providedinsubparagraph (a),suchaprovisionmightbeusefulforusersinordertodetermine whichlawisappl icablewheretheemployerandtheemployeeoperateindifferentcountries.

R4.03 <u>Paragraph(2)</u>. Thisparagraphmaycontain, if the SCP so decides, the applicable rules under the Treaty concerning the right to a paragraph where several inventors have jointly made the invention. The corresponding text is reserved, since no request by the SCP to include such a provision has been formulated. It may further be noted that the case where several inventors have independently made the invention is not addressed under this Treaty, since it relates to a first-to-file system.

R5.07Paragraph(4)(c).Thewords"thatdrawingorto"aredeleted,sincethewords"the applicablepartofthatdrawing"covertheentiredrawing.These condpartofthis subparagraphcontainedindocumentSCP/6/3ismovedtodraftRule12(3).

R5.08Paragraph(5). Thetextofthisparagraphissubject to the outcome of the Working Group on Multiple Invention Disclosures and Complex Applications.

Notes on draft Rule 76 (Details Concerning the Requirement of Unity of Invention Under Article 6)

R76.01ThetextofthisRuleissubjecttotheoutcomeoftheWorkingGrouponMultiple InventionDisclosuresandComplexApplications.Paragraph(1)contain sthemethodfor determiningwhethertherequirementofunityofinventionissatisfiedinrespectofagroupof inventionsclaimedinanapplication.Accordingtothatmethod,unityofinventionwillexist onlywhenthereisacertainrelationshipamong theinventionsinvolvingoneormoreofthe sameorcorresponding"specialtechnicalfeatures."Theterms"specialtechnicalfeatures" containedinRule 4(1)ofthe1991Draft,havebeenreplacedbyadescriptionofthoseterms, originatingfromthelast sentenceofRule 4(1)ofthe1991DraftandPCTRule 13.2.

R76.02Paragraph(2) is not intended to constitute an encouragement to the use of alternatives within a single claim, but is intended to clarify that the criterion for the determination of unity of invention (namely, the method contained in draft Rule 7(1)) remains the same regardless of the form of claim used.

R76.03Thisprovision does not prevent an Office from objecting to alternatives being contained within a single claim on the basis of considerations such as clarity, the conciseness of claims or setting up a claim sees ystem applicable in that Office.

NoteondraftRule <u>167</u> (TimeLimitUnderArticle <u>15</u>7(1))

R167.01ThisRuleseemstobeself -explanatory.

NotesondraftRule8 (AvailabilitytothePublicUnderArticle8(1))

R8.01 Paragraph(1). This paragraphobliges a Contracting Partytoaccept, as prior artunder draftArticle 8(1), anyinformation that has been made available to the public in any form, includingwrittenform, oralcommunication, display , oruse , saleorofferingforsale ... Use may consist of producing, offering, marketing or exploiting a product, or offering or marketingaprocessoritsapplication, or applying the process. Marketing may be effected, forexam ple, by sale, offering for sale or exchange. Display may take the form of, for example, demonstrating a productor process in public or on television. Informationthathas beenmadeavailabletothepublicviaanelectronicdatabaseortheInternetalso formspartof the prior art. Since this is not an exhaustive list, other forms of making available information tothepublicwouldbecovered bythisprovision aswell.

R8.02 Paragraph(2)(a) .Thisparagraphprovidesfortheinterpretation of the words "made availabletothepublic"underdraftArticle 8(1).Itfollowsfromtheexplicitlanguageofdraft Article 8(1)that, if the relevant information was actually accessed by the public, and therefore, made available to the public, it forms part of the p riorart.Inaddition,ifthereisa reasonable possibilitythattheinformationcouldbeaccessedbythepublic,itwouldalsoform partofthepriorart. Theword "reasonable" isplaced within square brackets for discussion by the SCP. Without thewor d"reasonable," any theoretical possibility of access to the informationwouldbesufficientfortheinformationtoqualifyaspriorart.Forexample,inan extremecase, one single copy of abook placed on the shelf of a library in a remote village maye onstitutepriorart. On the other hand, if the word "reasonable" was retained, the level of publicaccessibilitywouldbehigherinawaythattheavailabilityrequirementwouldbefulfilledonlywheresomeprobabilityexistedthat,accordingtotheconcr etecircumstances, thepublic was able to access the information. The means by which the information was made accessible may offer some guidance on the interpretation of the words ``areas on ablepossibilitythattheinformationcouldbeaccessedbythepub lic,"asprescribedinthePractice Guidelines. Theword "public" shall be construed within the meaning of draft Rule 8(2)(b), according to which the public constitutes any person who is free to disclose the information.

R8.03 Paragraph(2)(b) .Thispar agraphprovidesfortheinterpretationoftheword"public" forthepurposesofthedefinitionof" priorart." It follows from the words "any person .who maynotbeapersonskilledintheart "thatthepublicmaybeoneormore thanone persons who does not need to be a person skilled in the artand who, therefore, doesnotnecessarily have the capability of understanding the prior art in the relevant field. However, such person (orpersons)mustnotbeboundbyaconfidentialityobligation,and,therefo re, is(are) mustbe freetodisseminatetheinformationtoothers, whether he(they) understand(s) theinformation ornot. Thus, whereinformation was made available to a limited circle of persons, as long as these persons are free to disclose the inform at ion and, therefore, to pass the knowledge to others, they fall under the term "public" under this paragraph.

R8.04 Paragraph(3). Inaccordancewithdraft Article 16, evidence may be submitted to the Officeinordertodemonstratethattheinformation concernedqualifyaspriorart.Such $\underline{evidence may include the establishment of the date of \underline{d} is closure and the contents of the$ disclosed information, or the existence of a reasonable possibility that the public could access theinformation. What constitut es "corroborative evidence" is left to the applicable law of

ContractingPart <u>yies</u>.Itmayconsistofwrittenevidence,testimonialevidenceoranyother kindofevidenceallowedunderthelawof <u>the-</u>ContractingPart <u>yies</u>.

R8.05 <u>Paragraph(43)</u>. Thispro visionaimsatharmonizingthedeterminationofthedate of <u>publication-onwhichtheinformationwasmadeavailabletothepublic</u> forthepurposesof priorart, whereonly they ear or the month, but not the date of <u>publication-isspecified.</u> It follows from this provision that, in such a case, the last day of they ear or the month should be considered as the date on which the information is was made available to the public. However, a Contracting Party would be free to consider any evidence which could determine establishes another date as the publication date of such on which the information was made available to the public.

Notes ondraft Rule 9 (Prior Art Effect of Former Earlier Applications Under Article 8(2))

R9.01 Paragraph(1)(a)and(b) .These provisions provide further conditions to be fulfilled for an former earlier application to be considered as part of the prior art under draft Article 8(2). First, the "whole contents" of the formerearlierapplication, that is, the claims, description, and anydrawings and the abstract, where the abstract was prepared by the applicant, of the former earlier application (see paragraph (1)(b)), shall be considered as prior art. Since the abstracts erves the purpose of technical information only, it does not for ofthepriorart(seedraftArticle 5(3)). Theinclusionofthecontentsoftheabstractofthe earlierapplicationpreparedbytheapplicantintothe"wholecontents"isjustified, since, in accordancewithdraftArticle 7(3)(a),theapplicantm ayincorporatethecontentsofthat abstractintotheclaimsoftheearlierapplicationbywayofanamendmentorcorrectionduring the prosecution of the application before the Office. Second, the prior art consists of the wholecontentsofa n former earlier application as of the filing date. This means that the subjectmatterwhichhadbeencontainedin, for example, the description as of the filing date, butwassubsequentlydeletedduringtheprosecutionoftheapplicationbeforetheOffice, also formspartofthepriorart. Third, the formerearlierapplicationorapatentgrantedonthat applicationshouldbepublishedonoraftertheclaimdateoftheclaimcontainedinthe applicationunderconsiderationbythecompetentauthority. It goes without sayingthat, if the formerearlierapplicationispublishedbeforetheclaimdate, it forms part of the prior art under draftArticle 8(1).

R9.02 <u>Paragraph(1)(c)</u>. AccordingtodraftArticle 3(1), the provisions of this Treaty and the Regulations shall apply to applications for patents for invention and for patents of addition aswellasto—including divisional continuation and continuation—in-part applications of these applications. However, where a Contracting Party provides any other titles of protection an invention under the applicable law of the Contracting Party, such as autility model, a short termpatent or an innovation patent, this provision obliges that Contracting Party to consider <u>former earlier</u> applications filed under the set it less of protection as part of the prior art under draft Article 8(2), provided that the other conditions under draft Article 8(2) and draft Rule 9 are met. <u>The last part of the provision contains the generally recognized principle of the prohibition of double protection</u>.

R9.03 <u>Paragraph(2)</u> . Thisparagraphseemstobeself explanatory. The expression "subject	
matterthatiscontainedinboththatearlierapplicationandthatpreviousapplication"doesn	ot
meanthatthesubjectmatterhastobeliterallyidenticalinbothapplicationsorthatithastobe	
containedinaspecific part of the application (for example the claims). It rather means that	
themainelementsorfeaturesofthesubjectmattermust beclearlyidentifiable, foraperson	
skilledintheart,inboththeearlierapplicationandthepreviousapplicationasawhole.	

R9.04 <u>Paragraph(3)</u>. This paragraph covers the situation where the formerearlier application isnolongerpendingbefore theOfficeonthedateofitspublication.Inviewoftheperiod which is necessary for the preparation of the publication and for the administrative procedure, therecouldbecaseswherethe former earlier application is still published despite its withdrawal, or abandonment orrefusal beforethepublicationdate. This provision therefore provides that, under these circumstances, the former earlier applications hall not be considered priorartforthepurposesofdraftArticle 8(2).Ontheotherhand,wh erethe formerearlier applicationwaswithdrawnorabandoned, was considered with drawnorabandoned, orwas rejectedonorafterthedateofitspublication,that former earlier applications hall be considered as prior art, provided it was still pending bef orethepublicationdate.

R9.05 <u>Paragraph(4)</u>. This paragraphobliges a Contracting Party to provide the so called "anti-self-collision." Therefore, although the whole contents of a <u>n former earlier application</u> shall be considered as prior artinaccord an cewith draft Rule 9(1), if an applicant has claimed invention X in the <u>former earlier application</u>, and the same applicant claims invention Y, which has been disclosed in the description or the drawing soft he <u>former earlier application</u>, in the subsequently filed application, the <u>former earlier applications hall not form part of the prior art with respect to the latter application. In addition, where a Contracting Party allows in ternal prior ity, the applicant would have the possibility to claim the internal prior ity and to with draw the <u>former earlier application</u>.</u>

R9.06 Theconsequenceofaddingthewords"ortheinventoridentifiedin",asrequestedby the SCP atitssix thsession is that the benefit of this paragraphex cluding self -collision would be available also in the cases where the inventor named in two applications is the same, but the applicants of these applications are different because, for example, the inventor changed employer.

 $R9.06\underline{7} The effect of the phrase ``atthe filing date of the application under examination" is that this paragraph excluding self-collision would not be applicable in the cases where the applicants were not originally the same, but became the same as a consequence of, for example, an assignment. \\$

R9.078 Further, wheret heinventors named in two applications are the same, but the applicants of these applications are different, the benefit of this paragraph excluding self-collision would not be available. It follows from the phrase "one and the same person" that, where the erearemore than one applicant, or inventor, all the applicants, or inventors, of the former earlier application and the application under examination must be the same. Further, the term "same claimed invention" means that the main elements or features of the claimed invention must be clearly identifiable for a person skilled in the art, as being contained in both application staken as a whole.

NotesondraftRule10 (SufficiencyofDisclosureUnderArticle10)

R10.01 <u>Paragraph(1)</u>.Thedefinitionoft heterm"generalknowledgeofapersonskilledin theart"isprescribedindraftArticle 1(x).

 $R10.02\underline{1} \ \underline{Paragraph(2)}. This \ \underline{paragraphprovision} provides a non beconsidered when assessing whether "unduce xperimentation" is out the invention on the basis of the disclosure in the application. \\ -exhaustive list of factors to equired in order to carry out the invention on the basis of the disclosure in the application.$

R10.032 <u>Item(i)</u>. Apersonskilledintheartmustbeabletomakeandusetheentirescope of the claimed invention without undue experimentation.

 $R10.04\underline{3}$ <u>Items(ii)and(iii)</u>. The subject matter to which the claimed invention pertains is essential to determine the common knowledge of a person skilled in the art and the state of the art.

 $R10.054 \ \underline{Items(iv)and(v)} \ . \\ ``The amount of direction provided in the application" refers to the information explicitly or implicitly contained in the description, claims and drawings, including references to other applications or documents. The more apersons killed in the art knows about the nature of the invention and the more the art is predictable, the less information in the application itself is needed in order to carry out the claimed invention.$

R10.065 <u>Item(vi)</u>.Inadditiontothetimeandexpensesneededforcarryingoutthe experimentation,thecharacter oftheexperimentation,forexample,whetheritconstitutes merelyroutineworkorgoesbeyondsuchroutine,shouldalsobeconsidered.

Notes on draft Rule 11 (Deposit of Biologically Reproducible Material Under Article 10)

R11.01 Paragraph(1). Theda teonwhichbiologicallyreproduciblematerialhastobe depositedislefttothediscretionofeachContractingParty.However,harmonizationis achievedasregardstheearliestdatewhichcouldberequiredforthedeposit, i.e., the filing dateofthea pplicationconcerned. The expression "personskilled in the art" is defined in draftRule 2(seeNote R2.01). This provision establishes the legal effect of a deposit of biologicallyreproduciblematerialreferredtoinanapplication. The deposits hall intoaccountindeterminingthecompliancewiththerequirementregardingsufficiencyof disclosureunderdraftArticle 10totheextentthatsuchrequirementcannototherwisebe complied with. It should be noted, however, that are ference to the edepositint heapplication wouldnotcreatethepresumptionthatthedepositisrequiredtocomplywiththerequirement regardingsufficiencyofdisclosure.DraftArticle 5(2)incorporatesbyreferenceRule 13bisof the PCT, which provides detailed requirements concerning the reference to deposited biologicalmaterial. A Contracting Party is free to determine what constitutes "adepository" institution"underthisprovision. However, inaccordance with paragraph (3), any Contracting Partyshallacceptt heeffectofadepositmadewiththeInternationalDepositoryAuthority undertheBudapestTreaty.

R11.02 Paragraph(2)(a)and(b).Accordingtosubparagraph (a),thegeneralruleisthatthe
depositmustbemadeatthelatestonthefilingdateofthea pplication.However,wherethe
depositismadeincompliancewiththerequirementsunderdraftArticle 7(3),i.e.,itdoesnot
addnewmattertotheapplicationasofthefilingdate,subparagraph (b)providesforthe
possibilitytomakethedepositafter thefilingdate. Thealternatives in square brackets would
eitherpermitorobligeContractingPartiestoacceptsuchlaterdepositundertheprescribed
conditions. Whereadepositafterthefilingdateis provided, the applicant would have to
submitev idencethatthedepositedbiologicalmaterialandthematerialdescribedinthe
applicationasfiledarethesame.

R11.023 Paragraph(23). This paragraphobliges a Contracting Partytoaccept the effect of a deposit made with an International Depositary Authority under the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure (Budapest Treaty; see also <u>draft</u> Rule 1(1)(c)), even if that Contracting Party is not a party to the said Treaty.

Notes on draft Rule 12 (Interpretation of Claims Under Article 11(4))

R12.01 <u>Paragraph(1)</u>. Asageneralrule, each claim should be interpreted on the basis of the words of the claim itself. However, incertain cases, in particular, where the reared out the meaning of the wording, the description, drawing sandthegeneral knowledge of a person skilled in the artshall also be taken into account.

R12.021 Paragraph(21)(a). Thewordsofaclaimmustbereadastheywouldbeinterpreted byaper sonskilledintheart, and should not be limited in their meaning by what is explicitly disclosed in the description and drawings. However, where the description provides a special meaning by way of, for example, defining the term appearing in the claim, the description can be used for interpretation of the claim.

R12.032 Paragraph(21)(b). This subparagraphseem stobeself -explanatory.

R12.043 Paragraph(32)(a). This subparagraphseem stobeself -explanatory.

R12.054 Paragraph(32)(b). Thissu bparagraphisincluded for avoidance of doubt. It follows from paragraph (2)(a) that the claims should not be interpreted in a limited manner by what is explicitly disclosed in the description and drawings _except where the applicant introduces or agrees to a specific limitation ("disclaimer") _. In particular, the interpretation of the claims should by no means be limited by the scope of the examples of the claimed invention contained in the description.

R12.05 Paragraph(3). This paragraphseem stobes elf-explanatory.

R12.06 <u>Paragraph(4)(a)</u>. This subparagraphrelates to the interpretation of a claim which defines the structure or material of a product <u>[,orthestepsofaprocess,]</u> by <u>its their function</u>, work or characteristics (means [orstep] - plus - function claim). For the purposes of

determiningthenoveltyandinventivestep(non -obviousness)ofsuchaninvention,in principle,theclaimedinventionshouldbeconstruedasanystructureormaterial [oract] whichperformsthedefinedfunctionorhas thedefinedcharacteristics,exceptinthecase providedinparagraph (4)(b).Forexample,aclaimaimedat"abuildingmaterial incorporatingalayerwhichinsulatesheat"shouldbeinterpretedasabuildingmaterial incorporatingany"product"thatis" alayerwhichinsulatesheat."Itshouldbenoted, however,thattheissuesofwhethersuchmeans -plus-functionclaimsareclear andconcise or notandwhetherthedisclosureoftheclaimedinventionissufficientforapersonskilledinthe artornotsh ouldbedeterminedseparatelyinaccordancewith draft_Articles 10and 11.

- R12.07 <u>Paragraph(4)(b)</u>. This subparagraph provides an exception with regard to the interpretation of means <u>[orstep]</u>-plus-function claims. Where the defined function or characterises sentially derived from a certain structure or material <u>[oract]</u>, the claims hould be construed as the structure or material <u>[oract]</u> as such. For example, concerning a claim such as "chemical compound X having anti-cancer effect," where the anti-cancer effect is a characteristic which is inherent in the chemical compound X, the claims hould be interpreted as meaning that "chemical compound X" perse.
- R12.08 <u>Paragraph(4)(c)</u>. This subparagraph concerns a claim defining a product by the manufacturing process (product -by-process claim). Such a claim should be construed as the final product, whatever the manufacturing process stated in the claim is, for the purposes of determining novel ty and inventive step (non -obviousness). For example, as regards a claim "protein which is obtained by process P(steps P1, P2,... and Pn), "if protein Z manufactured by a different process Qisidentical to the claimed protein, and it is part of the prior art, the claimed protein is not considered novel whether or not the process Phase en publicly known as of the claimed at each of the process Phase en publicly known as of the claimed at each of the process Phase en publicly known as of the claimed at each of the process Phase en publicly known as of the claimed at each of the process Phase en publicly known as of the claimed at each of the process Phase en publicly known as of the claimed at each of the process Phase en publicly known as of the claimed at each of the process Phase en publicly known as of the claimed process Phase en publicly known as of the proc
- R12.09 Paragraph(4)(d) .Thissubparagraphconcernsaclaimdefiningaproductbyits particularuse(product -by-useclaim).Suchaclaimshouldbeconstruedasaproduct perse, unlessthepro ductisusedsolelyforthatpurposeand/orisparticularlysuitableforsuchuse. - R12.10 Paragraph(5). Asrequested by the SCP at its sixths ession, this provision provides that Contracting Parties shall take into account equivalent elements when interpreting claims for the purpose of the determination of infringement. The doctrine of equivalents has a bearing on the drafting of claims, since it affects the literal scope of the claims. The provisi on intends to prevent that a different interpretation of the scope of the claims in different countries would lead to the need for applicant stodraft their claims in a different way. The text as proposed is based on draft Rule 11(2) as contained in document SCP/5/3.
- R12.11 Paragraph(6).Thisprovisionprovidestheso -called"prosecutionhistoryestoppel"

$\frac{Notes ondraft Rule - 13}{(Exceptions \ to Patentable Subject Matter} - Under Article - 12(15))$

R13.01 Followingthediscussionsatthefifthses sionoftheSCP,aprovisiononexceptions
topatentablesubjectmatterunderdraftArticle 12(1)hasbeenincludedintheRegulations.It
issuggestedtodividetheprovisionintotwoparts:paragraph (1)wouldcontainthesubject
matterwhichisnotco nsideredtobeinventions, such as merediscoveries, abstractide as and
thelike, while paragraph (2) would contain the subject matter which are considered to be
inventions, but which could be excepted from patenta bility.
R13.02 Paragraph(1), item(i) . This itemwould exclude from patenta bility mered is coveries,
suchasthingsthatexistassuchinnaturewithoutanyhumanintervention,naturalphenomena
orlawsofnaturewithoutanyconcreteapplication.
R13.03 <u>Item(ii)</u> .Theexpression"abstractid easassuch"wouldencompass,inparticular,
meredescriptiveideasandconcepts perse, suchasforexamplementalactivities, abstract
rulesorthemerepresentationofinformation.
R13.04 <u>Item(iii)</u> .Theexpressions"scientifictheoriesassuch"and "mathematicalmethods
assuch"areincludedforthepurposeofcompleteness, sincethey could, at least in part, be
coveredbyitems (i)and(ii).Thisitemcoversonlythemeredescriptionofsuchtheoriesand
methods, but not inventions based on them.
R13.05 <u>Item(iv)</u> . Aestheticcreationsaregenerallynotprotected by patents, but by industrial
designsorcopyright.Thisitemcoversonlythecreationwhichhasexclusivelyaesthetic
aspects.Ifthecreationcontainsanypatentableelementorfunction ,thoseelementsor
functionswouldbepatentable.
R13.061 Paragraph (2) Thisprovisionisintendedtocontaintheinventionswhichcouldbe
exceptedfrompatentability.It doesnotcontainanyproposalsyet,sincetheSCPmaywishto
consider, forexam ple, either the inclusion of Article 27.2 and 3 of the TRIPS Agreement, or a
referencetothoseprovisions intoparagraph (2). Itistobenoted that this paragraph provision
isnotsuggestedtobeofamandatorynature. This is in line with the relevant provisions of the
TRIPSAgreementreferredtoabove, which read as follows:
"2. Membersmayexcludefrompatentabilityinventions,thepreventionwithintheir
territoryofthecommercialexploitationofwhichisnecessarytoprotect ordrepublic or
morality,includingtoprotecthuman,animalorplantlifeorhealthortoavoidserious
prejudicetotheenvironment, provided that such exclusion is not made merely because
theexploitationisprohibitedbytheirlaw.

- 3. Membersmayalsoexcludefrompatentab ility:
- $(a) \quad diagnostic, the rapeutic and surgical methods for the treatment of humans or animals;$

(b) plantsandanimalsotherthanmicro -organisms,andessentiallybiological processesfortherroductionofplantsoranimalsotherthannon -biologicaland microbiologicalprocesses. However, Membersshall provide for the protection of plant varieties either by patents or by an effective suigeneris systemor by any combination thereof. The provisions of this subparagraphshall be reviewed four years after the date of entry into force of the WTOA greement."

<u>NotesondraftRule 14</u> (ItemsofPriorArtUnderArticle12(2))

R14.01 Paragraph(1). Thisparagraphcontainstwowidelyrecognizedprincipleswith respect to the assessing novelty: firstly, ite m (i) states that a "mosaic" approach to assessing novelty, where by a plurality of items in the prior artare combined to defeat the novelty of an invention, may not be used. Secondly, item (ii) contains the self - evident principle according to which the primary item of prior art must enable apersons killed in the art to make and use the claimed invention, since otherwise, lack of novelty could not be justified. The primary item of prior art should be enabling as of the date on which it was made available to the public. However, where the primary item of prior art is an earlier application referred to indraft Article 8(2), the relevant date is the filing date or, where applicable, the prior ity date of the earlier application.

<u>R14.02</u> Itshouldbenotedt hatthewords" <u>[an] any item(s)</u>ofpriorart"donotmeana particularphysicalitem, such as abook, a journal or a patent application, which contains a teaching that forms part of the priorart. Rather, they should be considered as a reference to the particular teaching itself. Therefore, in accordance with this paragraph, where a book contains more than one teaching, each teaching should be taken into account individually for the determination of lack of novelty.

R14.023 Paragraph(2). referstofurt heritemsofpriorart, which are closely linked to the primaryitemofpriorart, suchas explicit references or explanations of terms contained in the primaryitemofpriorart. Theseotheritemsofpriorartlistedinitems (i)to (iv)havetobe takenintoaccountforthedeterminationofnoveltytogetherwiththeprimaryitemofpriorart, provided they would have been known to a person skilled in the art. With respect to item referenceismadetoparagraph (3)oftheGuidelineunderdraftRule 14,whichpermitstotake intoaccountevidenceshowingthatacharacteristicnotdisclosedintheprimaryitemofpriorartwasinherentontheclaimdate, even where that evidence has a later date than the claim date. The scope of the primary item of primary orinherenttoapersonskilledintheartasofthedateonwhichtheprimaryitemofpriorart wasmadeavailabletothepublic.Forexample,evenifacertaincharacteristicisnotdisclosed explicitlyintheprimaryitemofpriorart, such characteristic is inherent, where it could be recognized by a person skilled in the artthat, taking into account his/hergeneral knowledge, the characteristic is necessarily contained in the disclosure. The critical time for the determinationofthegeneralknowledgeofapersonskilledintheartisthedateonwhichthe primaryitemofpriorartwasmadeavailabletothepublic, exceptinthecases where the primaryitemofpriorartisanearlierapplication filedbefore,butpublishedafter,theclaim dateoftheapplicationconcerned.

R14.034 Further details on the methodology for the assessment of novel tyare contained in the Practice Guideline under this draft Rule.

R14.05 Paragraph(3). This paragrap his emist be self -explanatory.

<u>NotesondraftRule 15</u> (ItemsofPriorArtUnderArticle12(3))

R15.01 Paragraph(1). Unlikeforthedetermination of novelty, multipleitems of prior art maybecombinedforthedeterminationofwhethertherequirement ofinventivestep /(nonobviousness)ismet. Asregards the words "items of prior art," reference is made to the explanationinNote R14.0\frac{1}{2}.Theterms"multipleitemsofpriorart maybecombined,... intendtocoverthedifferentsituationswheretherea reseveralteachingscontainedindifferent priorartreferences, for example, different published patents, or several teaching scontained in thesamepriorartreference, such as one particular book. **Thecombination of differentitems** ofpriorartmayon lyleadtotherejectionofinventivestep/non obviousnesswhereaperson skilledintheartwouldhavebeenexpected, with areasonable likelihood, to combine the differentitemsorembodimentsofpriorart.Conversely, wheresuch combination could not havebeenexpectedtobedonebyapersonskilledintheart, the requirement of inventive step/non-obviousnesswouldbemet,evenifeachsingleitemwasobviousiftaken individually.

R15.02 Paragraph(2).Indeterminingthescopeofthedisclosureoft heitemsofpriorart,in additiontotheexplicitdisclosure,animplicitdisclosure,i.e.,ateachingwhichaperson skilledintheartcouldreasonablydrawfromtheexplicitdisclosure,shallbealsotakeninto account.Thecriticaltimeforthedeter minationofsuchdisclosureistheclaimdateofthe applicationconcerned.

R15.023 Paragraph(23) contains the general and widely accepted principle that the general knowledge of the personskilled in the art shall be taken into account for the determination of inventive step $\frac{1}{2}$ non-obviousness).

R15.034 Paragraph(4).Thisparagraphdealswiththeassessmentofinventivestep(non obviousness).Thecombination,substitutionormodificationofoneormoreitemsofpriorart mayonlyleadtoalackof inventivestep(non obviousness),whereapersonskilledintheart wouldhavebeenmotivatedbythepriorartorhisgeneralknowledge,withareasonable likelihood,tocombine,substituteormodifyoneormoreitemsofpriorart.Conversely, wheresuch combinationcouldnothavebeenexpectedfromapersonskilledintheart,the requirementofinventivestep(non obviousness)wouldbemet,evenifeachsingleitemwould havebeenobviousiftakenindividually. Furtherdetailsonthemethodologyforthe assessmentofinventivestep /(non-obviousness)arecontainedinthe Practice Guidelineunder thisdraftRule.
