**Subject:** SCIT strategic plan

Dear Mr. WITTIG,

Concerning the proposed strategic plan, the OHIM has the following comments:

As a general remark, the proposal includes a large range of information, but information on the SCIT actual work for the year 1999/2000 is lacking.

Point 4. Second point should read:  
"Reduce the information access gap....."

The information in points 1-8 could have been summarized as an introductory and more emphasis placed on point 9 concerning the Implementation plan, which should be, in our opinion, the main subject of the proposal.

Thanking you in advance for taking our suggestions into consideration.

Kind regards,

Natalie CHEVALLIER
