01

Re: Proposal for the restructuring of the Standing Committee on Information (SCIT)

Dear Madam / Sir,

We have considered the different options described in the Annex of the above-mentioned document. It seems to us that the proposed Option III would perhaps be the most preferred one. The ad hoc structure enables offices to focus their resources so that it is possible to use different persons for handling different issues. That would be a benefit for small offices with restricted resources.

Yours faithfully,  
Riitta Larja
