

Dear Mrs. Helen Frary,

With regard to Your letter C.SCIT 2515 01 dated october 13,2000 refering to the "Proposal for the restructuring of the Standing Committee on Information Technology", I have the pleasure to comment on behalf of the Federal Intellectual Property Office of FR Yugoslavia.

Concerning the Options for Structure, we support Option II replacing SCIT with an Advisory Group for Director General, convinced that it would be most flexible and dynamic. We also belive that Option III, due to most complicated organization would encourage entropyc syndrome andslow down the decission making process.

Thank you for your cooperation.

Sincerely,  
Ljubinka Radosavljevic, MSc  
Director
