To:
Mr. Klaus-Peter Wittig
Deputy Director
Standards and Documentation Service

Dear Mr. Wittig,

With reference to the Circular 2350 we inform you, that the Hungarian Patent Office is prepared sending the data about the entry into the national phase of PCT international applications to the European Patent Office, for their inclusion in the EPIDOS/INPADOC database.

Considering that the HPO can give the data (WO application number, WO publication number, Date of entry into national phase) of the PCT applications without their National application number at the time of their entry into national phase, we asked Mr. Georg Huber about the details of our data export.

Now we have his detailed proposal and are going to send our data shortly after some programming works.

Sincerely yours,

Zsuzsa Torocsik
Dep. head of ITD
