Subject: SCIT 2534

Dear M. Solanas,

We apologise for not having replied to WIPO Circular SCIT 2534. We had confused it with WIPO Circular SCIT 2542, which also dealt with PCT Minimum Documentation, and thought that we had replied.

The updated information for Australia for the 'Inventory of Patent Documents according to PCT Rule 34.1 (Period from 1920 to 2000)' is as follows:

AUSTRALIA B Complete Specifications Accepted

Number Range: 405,922-729236
Publication Years: 1970-2000
Number of Documents actually Published: 44,878
Type of Series: a

AUSTRALIA A Complete Specifications Lapsed

Number Range: 56,216/58-30090/00
Publication Years: 1970-2000
Number of Documents actually Published: 22,879
Type of Series: a, b

Please get back to me with any questions.

Kind regards,
Bill Major
Director ORD
IP Australia
