Subject: Survey on the grant and publication of supplementary protection certificates C.SCIT 2539,06

When checking the survey the Swedish Patent Office wants to correct the answers to Question 7 (b) and 9 (b). Yes, the publication in the field of phytopharmaceutical products must contain a number assigned to receipt of the application and a registration number assigned to the granted SPC. We will also draw your attention to the fact that our answer to Question 9 (a) has been recorded both as Yes and No. Correct answer is Yes.

We regret not giving you this information at an earlier date.

Best regards, Ingela Söderlund
