Re.: PCT Minimum Documentation – List of Periodicals;
C.SCIT 2542

In response to Circular C.SCIT 2542 of July 31, 2001, I would like to inform on behalf of the Austrian Patent Office that the office has no objection if the “IBM Technical Disclosure Bulletin” would be replaced by the journal “Research Disclosure” in the PCT Minimum Documentation List.

The office also has gratefully noted that its request for removing the journal “Funkschau” from the PCT Minimum Documentation List is being brought to the attention of the International Searching Authorities and International Preliminary Examining Authorities.

Vienna, August 22, 2001

President:

Dr. O. Rafeiner
