Subject: C.SCIT 2583, two-letter-country code for Serbia and Montenegro

Dear Mr. Roach,
Because of several business trips unfortunately I could only find time today to react on the proposal of a new ST.3 code for Serbia and Montenegro. I see that the ISO made an effort to find an appropriate code. However, the fact that the proposed new code was formerly used by another state (Czechoslovakia) causes some technical problems in existing IP documentation systems. Therefore, I would appreciate if this matter could be put on the agenda of the next meeting of the SDWG enabling the delegates to discuss and examine the consequences and possible alternative solutions thoroughly.
Best regards,

Hubert Rothe
