

Questionnaire on codes used for internal purposes or individual use

**Name of the Reporting Office/
Organization**

GE (ST.3 two-letter country/organization code)

*National Intellectual Property Centre Sakpatenti
(Georgia)*

As requested by the Standards and Documentation Working Group (SDWG) of the Standing Committee on Information Technologies (SCIT) at its eighth session, held from March 19 to 22, 2007, the International Bureau would like to invite you to provide information on the codes regarding patents, trademarks and industrial designs, which are normally used by your Office/Organization for internal purposes or individual use but whose existence may be of interest to the industrial property community. Please note that the intention of this survey is not to collect ALL of the codes that your Office uses, but only those codes that, in your opinion, may be of interest to the users of industrial property information, (see paragraph 36 of document SCIT/SDWG/8/14).

Within each one of the three industrial property modalities (patents, trademarks and industrial designs) please provide, as far as possible, the codes grouped by kind of use. For each code, the following information should be given:

- the meaning of the code and the kind of use of the code by your Office/Organization (column “Meaning/Use”);
- the source of the code, e.g. name of the industrial property Office/Organization (column “Source”);
- the relationship, if any, to a WIPO Standard (column “Related WIPO Standard”);
- whether the code has been exposed to the industrial property community in external publications and/or fora (column “External exposure”);
- if the answer to the previous question is “Yes”, in what publications and/or fora the code has been exposed to the industrial property community (column “Publications/Fora”);
- date range of use of the code by your Office/Organization (column “Date range”); please be explicit in mentioning whether usage of this code is still active or has stopped at some point in the past, giving start date and end date; e.g., 2005-01-01 to present; 1998-04-01 to 2003-11-15; if the day and/or the month are not known, please indicate the month and/or the year, e.g., 1986 to 1998/10;
- comments that may provide useful information regarding the code (column “Comments”).
