**Questions about citation references provided by your IPO: Sections 2-5**

**Section 2: Citation reference availability:** Citation references relevant to a patent document can be suggested or decided to be included by people including Applicants, Examiners, and interested third parties. A citation reference may occur in a patent description, a search report or other location associated with a patent document.

2. Does your IPO publish citation references associated with your IPO's patent documents? In the context of this survey "citation reference" refers to the identification of (part of) a document, not the text or other information contained within the cited document.

Yes       No

Please comment if necessary

---

3. Citation references are: **Select one**

Available to the public     Availability is limited     Not available

If limited, please comment on how the availability is limited? e.g., limited to type of person trying to view the citation reference (e.g., applicants only) or limited to the part of the life cycle in which the citation reference was included (e.g., references suggested during opposition are unavailable)

---

**Section 2: Citation reference availability (continued)**

4. Select the location(s) within the patent documents published by your IPO where citation references can be found:

- Search report       Patent description       Other patent document location       Bibliographic data

Please comment on any of  
the above mentioned  
locations, if appropriate

5. If citations are part of the bibliographic front page information, are citation references included in INID code (56)?  
for INID codes see <http://www.wipo.int/export/sites/www/standards/en/pdf/03-09-01.pdf#INID>

- Yes     No     Sometimes

---

6. Select the location(s) outside the patent document where citation references can be found:

- Summary information (Internet)       End of document (Internet)       Other location:

Please specify if "Other location"

7. Are hyperlinks included for Internet locations?     Yes     No     Not applicable

Please comment if necessary

---

8. Does your IPO give information about a patent document that cites the specific patent document the user is looking at (i.e., a forwards citation)?       Yes       No

9. Are hyperlinks back to the citing document provided?     Yes     No

Please comment if necessary

---

**Section 2: Citation reference availability (continued)**

10. Does your Office follow the recommendations set out in WIPO Standard ST.14 for the identification of citation references?  
see <http://www.wipo.int/export/sites/www/standards/en/pdf/03-14-01.pdf>

Yes       No       Partially

Comment, if  
necessary

---

11. Does your IPO provide indications, to the general public, informing about who suggested or decided on including the citation references? e.g., suggested by applicant, included by examiner. Such indications can be helpful for deciding how relevant a citation reference may be. As an example, the front page bibliographic data (in image format) of US 7,353,465 B1 indicates under INID code (56), by the use of an asterisk \*, that the references were cited by an examiner.

Yes       No

12. If available, where can indications of who created a citation reference be found by the general public?  
select as many items as are applicable.

- Bibliographic data on patent document       End of patent document  
 Search report       Other

please comment if  
necessary, and if  
"Other", please  
specify where an  
indication can be  
found

**Section 3: Search Report Information**

13. Does your IPO publish International Search Reports (ISR) under the PCT?  Yes  No

14. Does your IPO publish IPO-specific national/regional search reports (non PCT)?  Yes  No

---

15. For the remainder of the questions in section 3 (if you answered "Yes" to either 13 or 14) please indicate what search reports your answers are based on:

ISR  National / regional  Both ISR and non-ISR  Other

Please specify if "Other"

---

16. Do you have quality control on citation references entered on search reports?  Yes  No

Please comment if necessary:

---

17. Are relevance indicators stated?: e.g., X, Y (see paragraph 14 of WIPO Standard ST.14)  Yes  No

---

18. Do your citation references include online URLs?  Yes  No  Sometimes

---

19. Are unique document identifiers used?: e.g., DOI  Yes  No

20. If applicable, which unique document identifiers are used?

Digital Object Identifier (DOI)  ISBN and ISSN

Other: If "Other" please specify:

---

21. Please comment on any major differences between the provision of ISR and other search report citation references

General questions about Citation Practices: Sections 8-9

**Section 8: Examples of citation references published by your IPO**, if this information is available.

40. If possible, please provide a patent (application) number and a publicly available Internet address that contains one or more typical examples of patent and non-patent literature citation references.

CN1283826A

Specify application number and kind code, e.g., *WO 2005/110961 A1*

<http://search.sipo.gov.cn/sipo/zljs/hyjs-yx-new.jsp?recid=CN200410047625.X&leixin=fmzl&title=便携式计算机&ipc=G06F1/00>

Specify Internet address and any instructions helpful to find patent (application) number, e.g., *http://www.wipo.int/pctdb/en/ia.jsp?IA=IB2005001265&REF=RSS*

page 1, INID[56]

Specify where in the document the citation references can be found, e.g., *page 1, lines 19 and 25, search report at end of document*

---

**Section 9: Additional comments about citation practices**

41. If applicable, please make any further comments, e.g., you may wish to comment on difficult aspects of citation practices for your IPO:

e.g., users are confused about the part of a document a citation reference was referring to

e.g., citation references do not refer to the authentic rendering of a patent document

e.g., it is not clear how or whether to state a url as part of a citation reference
