

# **Policy Assessment for Adaptation and Mitigation Technologies**

## **--A Close Look at the Role of IP System**

Dr. Li Yuguang  
Deputy Commissioner  
the State Intellectual Property Office of P. R. China  
July 13, 2009 Geneva

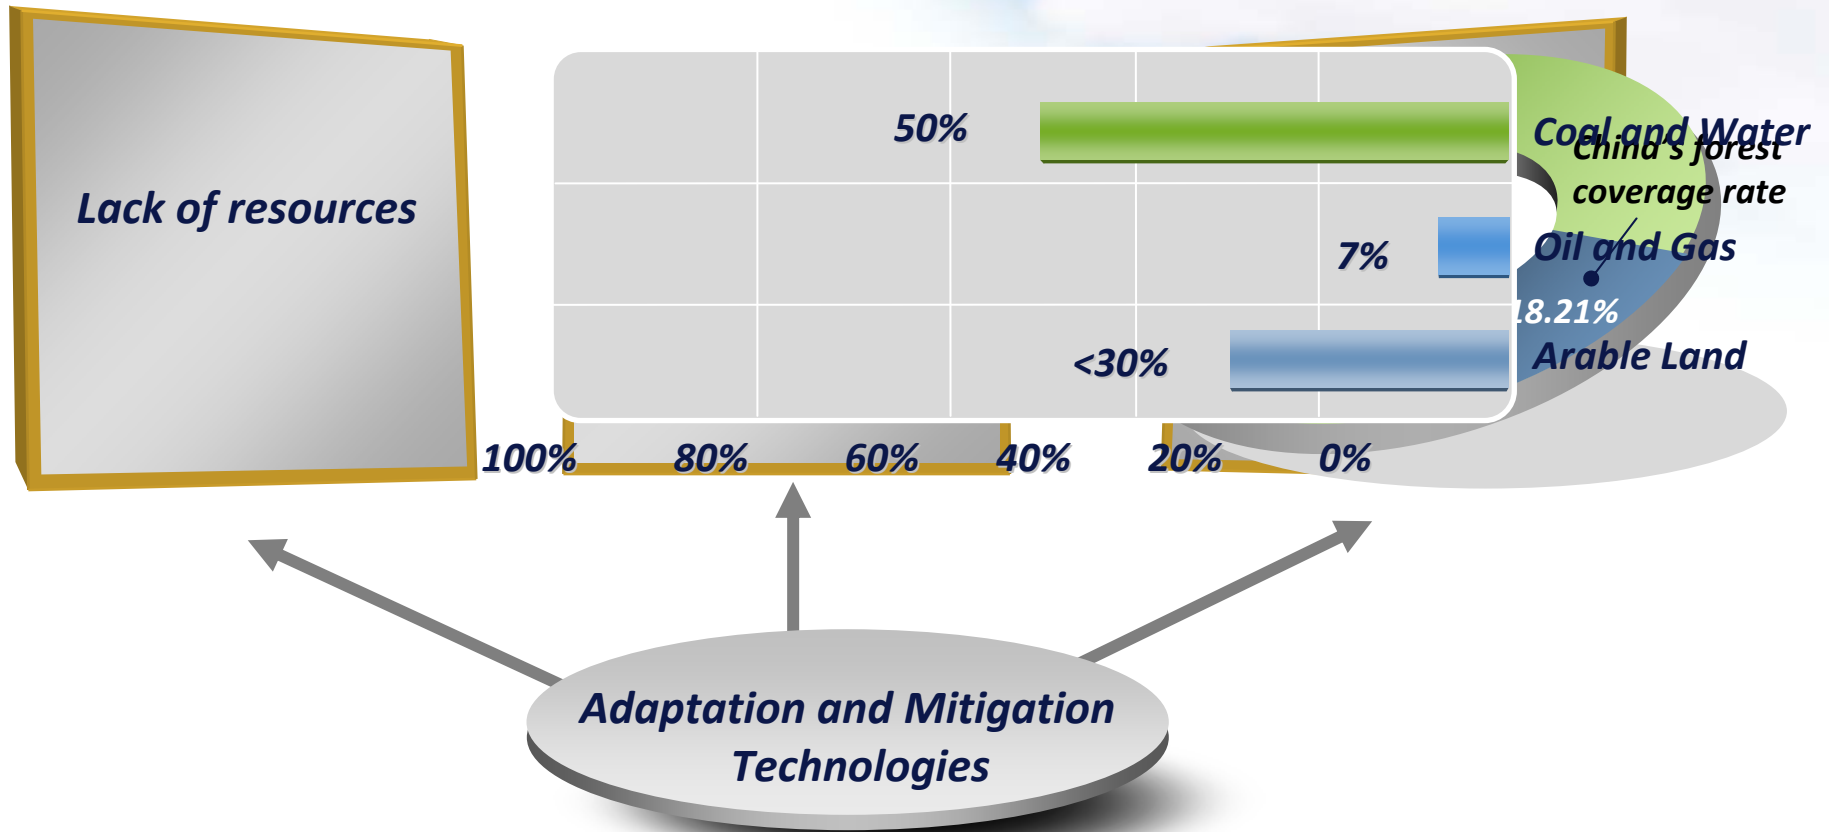

# Preface

*Science and Technology*

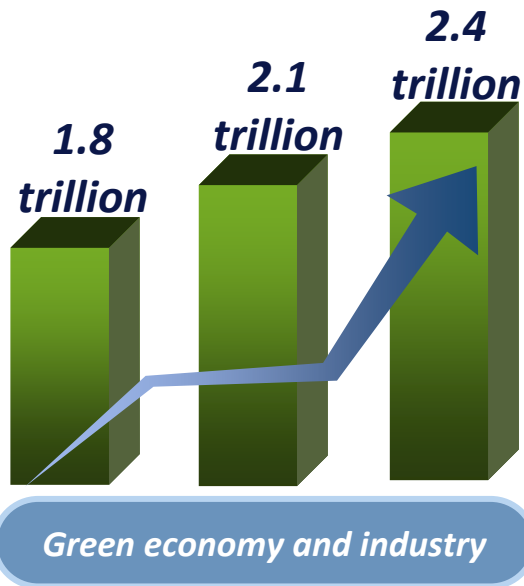

*IP System*

# Importance of adaptation and mitigation technologies to China

# Importance of adaptation and mitigation technologies to China

¥ 60 billion

18 million

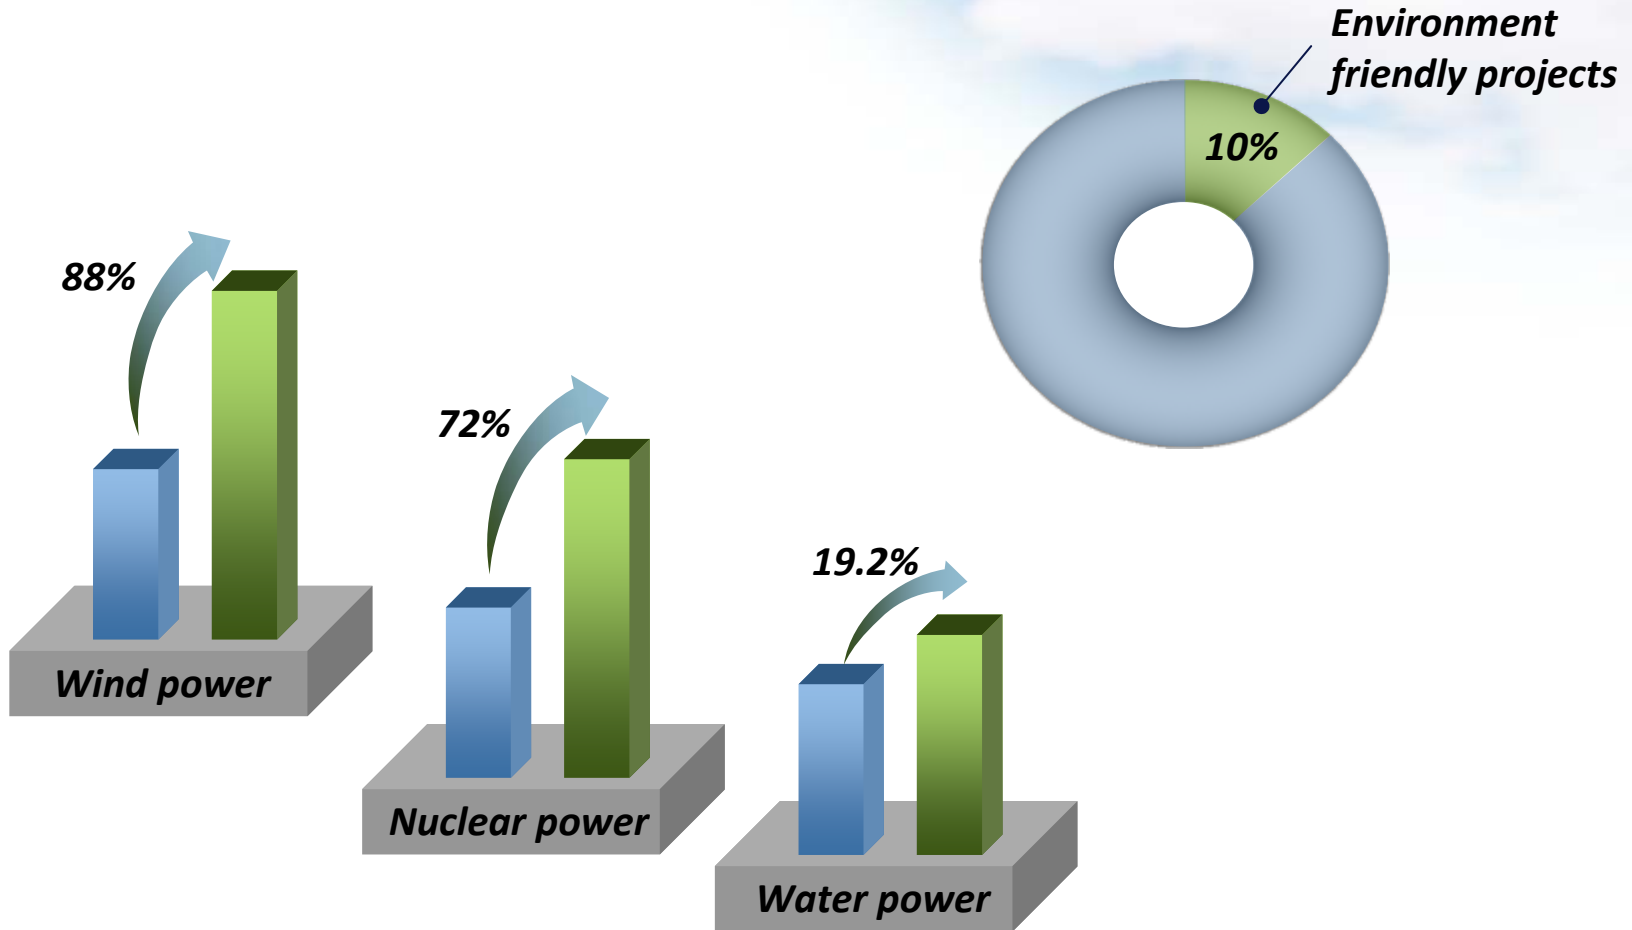

2 trillion

Great economic benefits

Adaptation and Mitigation Technologies

# Importance of adaptation and mitigation technologies to China

# IP tools and adaptation and mitigation technologies

*Personal opinion*

*SIPO deliberation*

*How to use IP tools to promote  
innovation and diffusion of adaptation  
and mitigation technologies?*

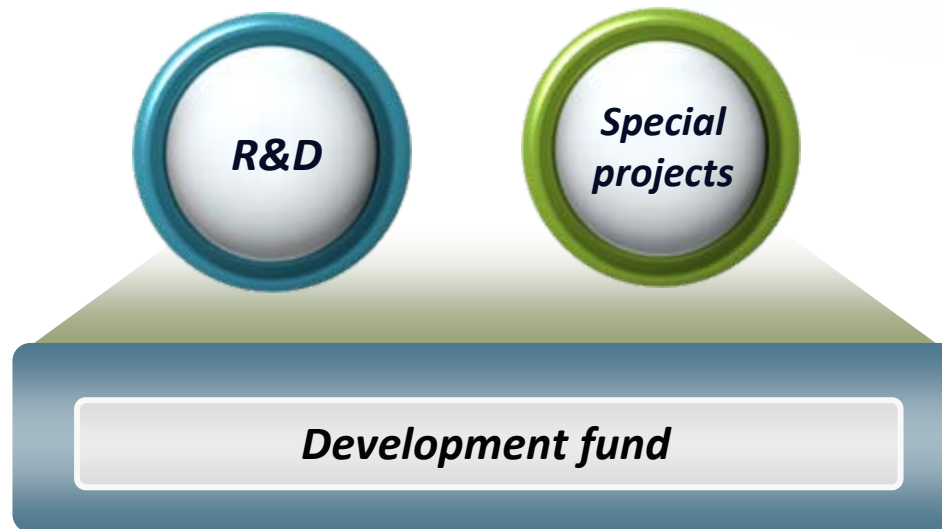

# Options of IP tools tackling climate change

- 1 Increase investment through more diversified means**
- 2 Encourage IP application and create a sound legal environment**
- 3 Provide professional guidance and compile model brochure**
- 4 Increase the utilization of relevant patent information**
- 5 Engage enterprises in active innovation and applications**
- 6 Strengthen IP human resources training**
- 7 Attach importance to the use of other IP tools**

# Options of IP tools tackling climate change

## 1 Increase investment through more diversified means

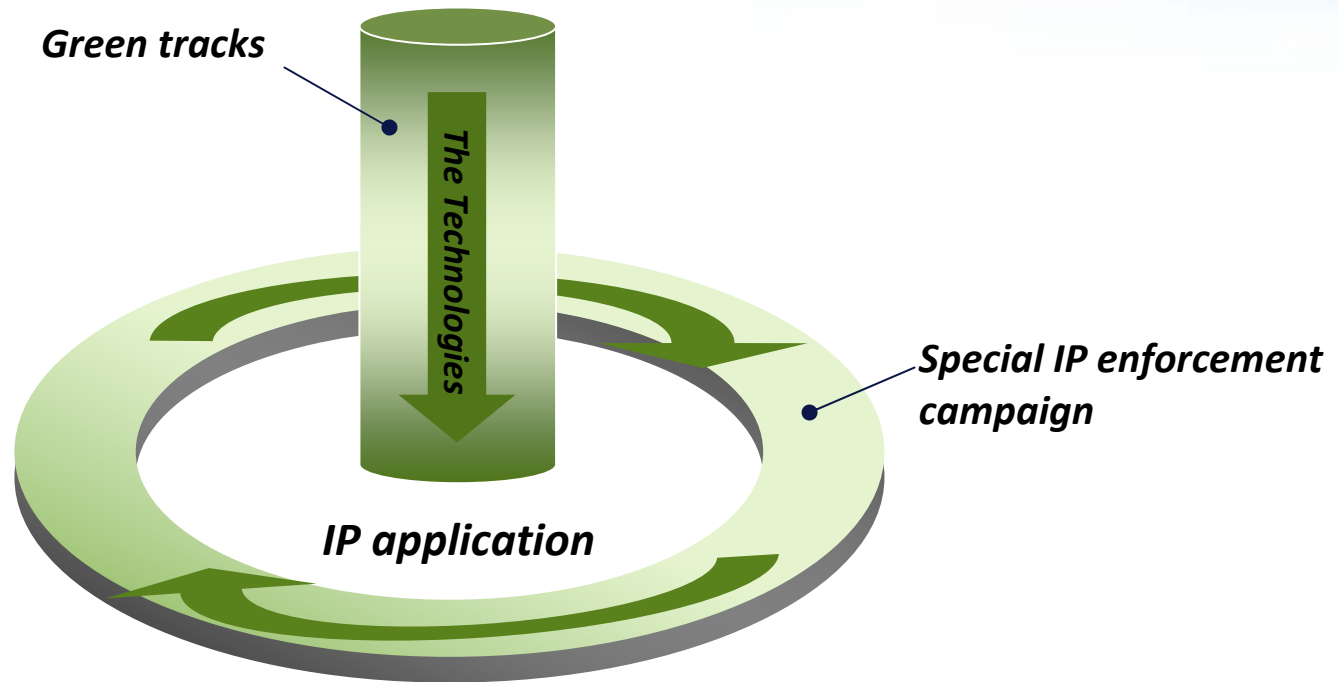

# Options of IP tools tackling climate change

## 2 Encourage IP application and create a sound legal environment

# Options of IP tools tackling climate change

## 3 Provide professional guidance and compile model brochure

*IP working group*

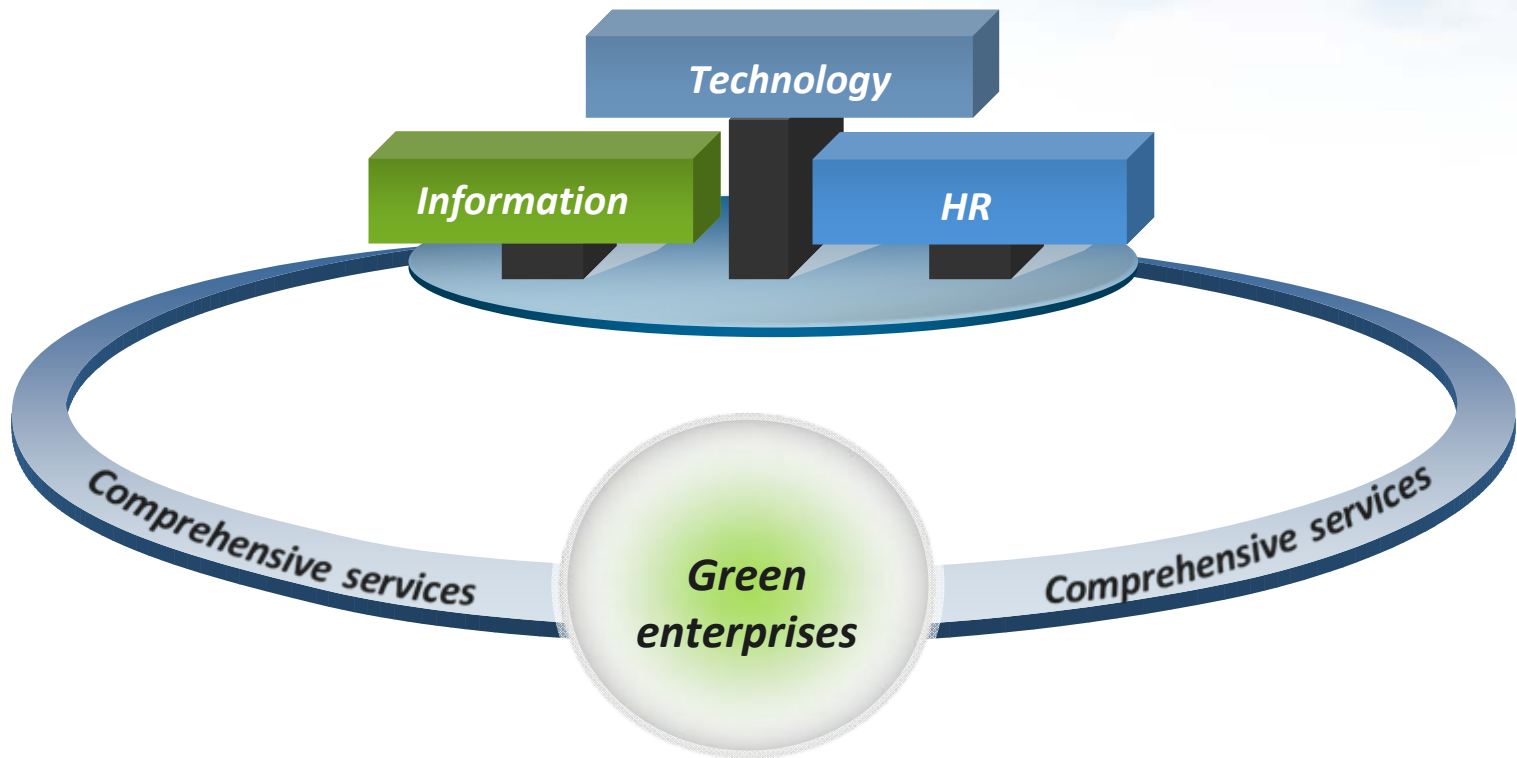

*Model brochure*

*Summarize development models and compile positive experiences*

# Options of IP tools tackling climate change

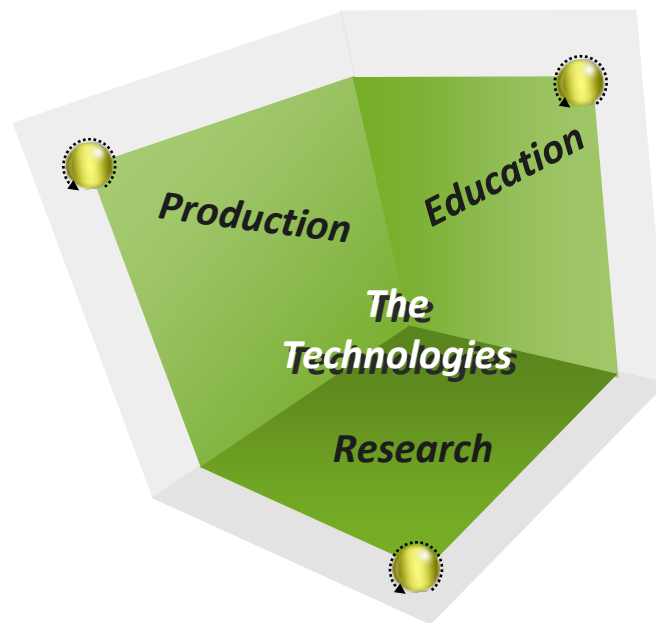

## 4 Increase the utilization of relevant patent information

# Options of IP tools tackling climate change

## 5 Engage enterprises in active innovation and application

# Options of IP tools tackling climate change

## 6 Strengthen IP human resources training

*Seminars*

*Distance learning*

# Options of IP tools tackling climate change

## 7 Attach importance to the use of other IP tools

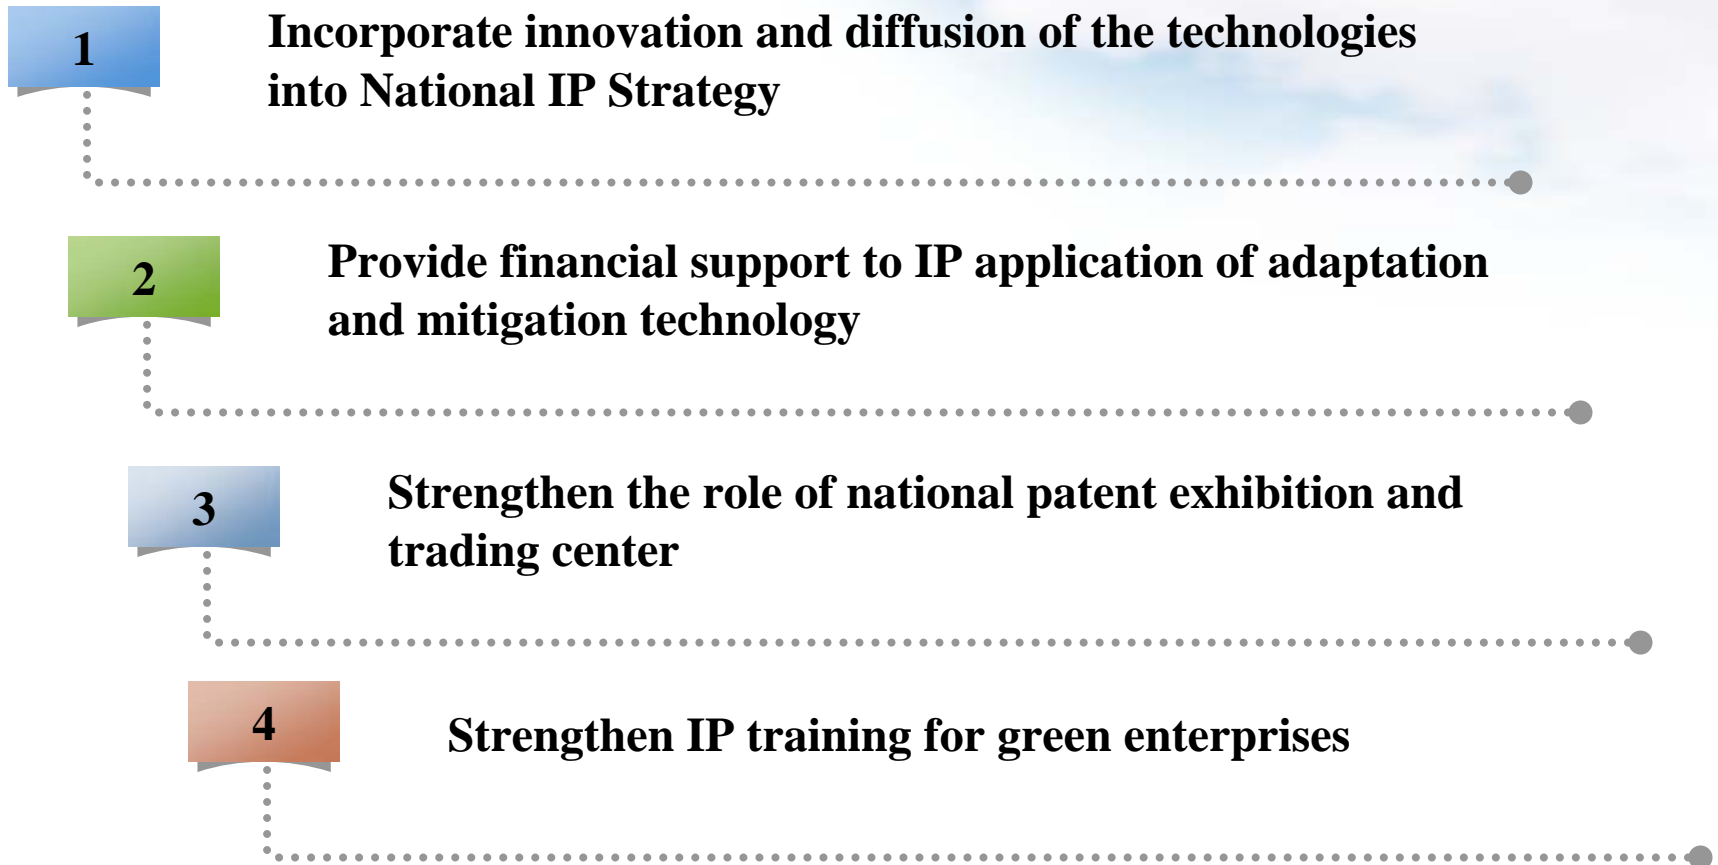

*Geographical indications*

*New plant varieties*

# China's deliberations on innovation and diffusion of adaptation and mitigation technologies

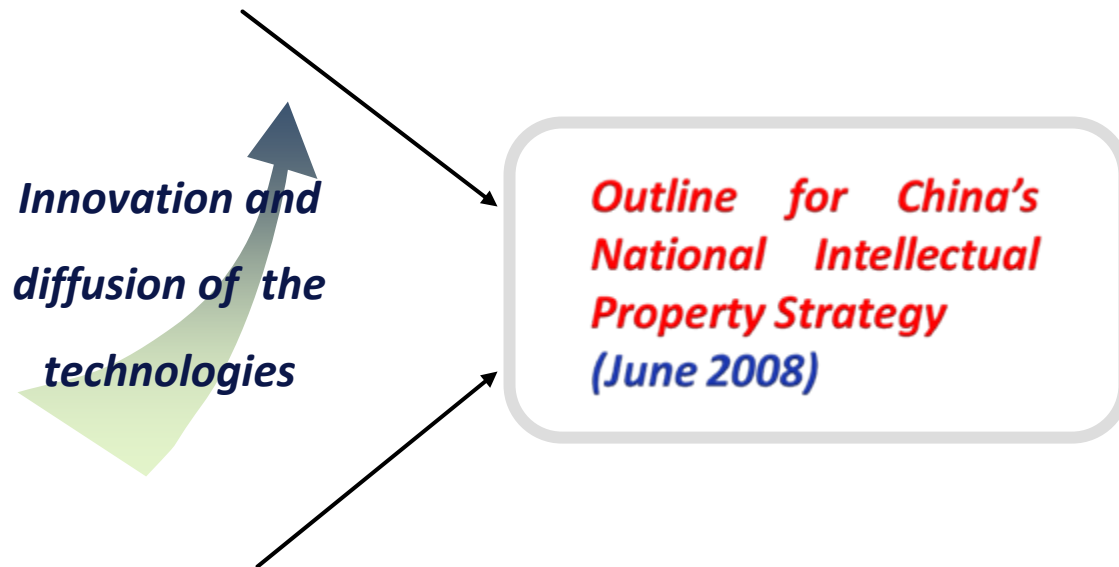

# China's deliberations on innovation and diffusion of adaptation and mitigation technologies

1

**Incorporate innovation and diffusion of the technologies into National IP Strategy**

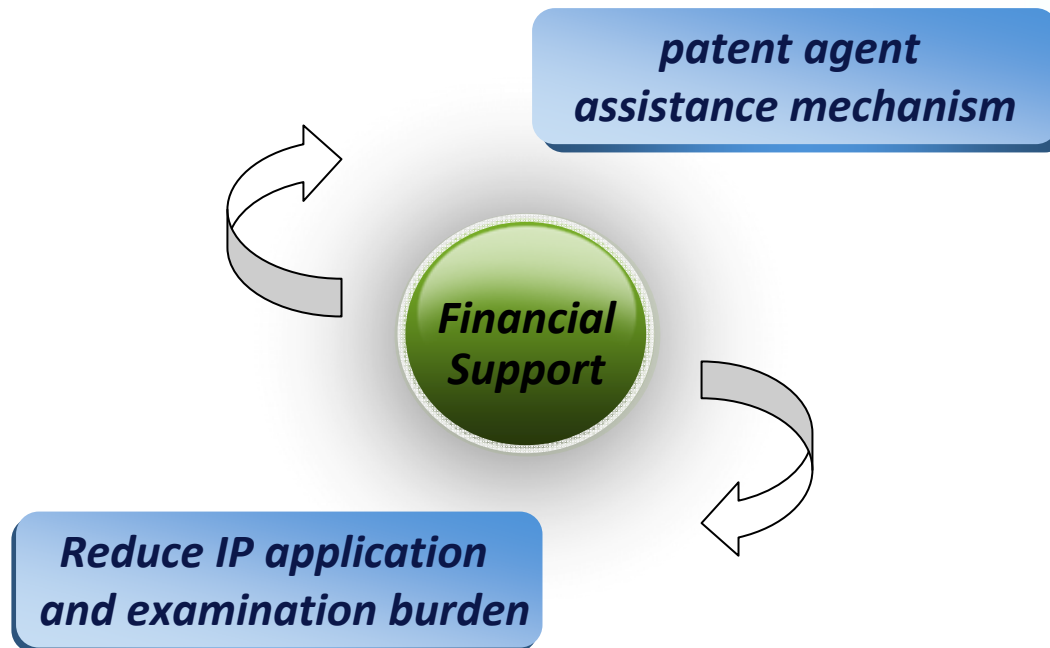

# China's deliberations on innovation and diffusion of adaptation and mitigation technologies

2

**Provide financial support to IP application of adaptation and mitigation technology**

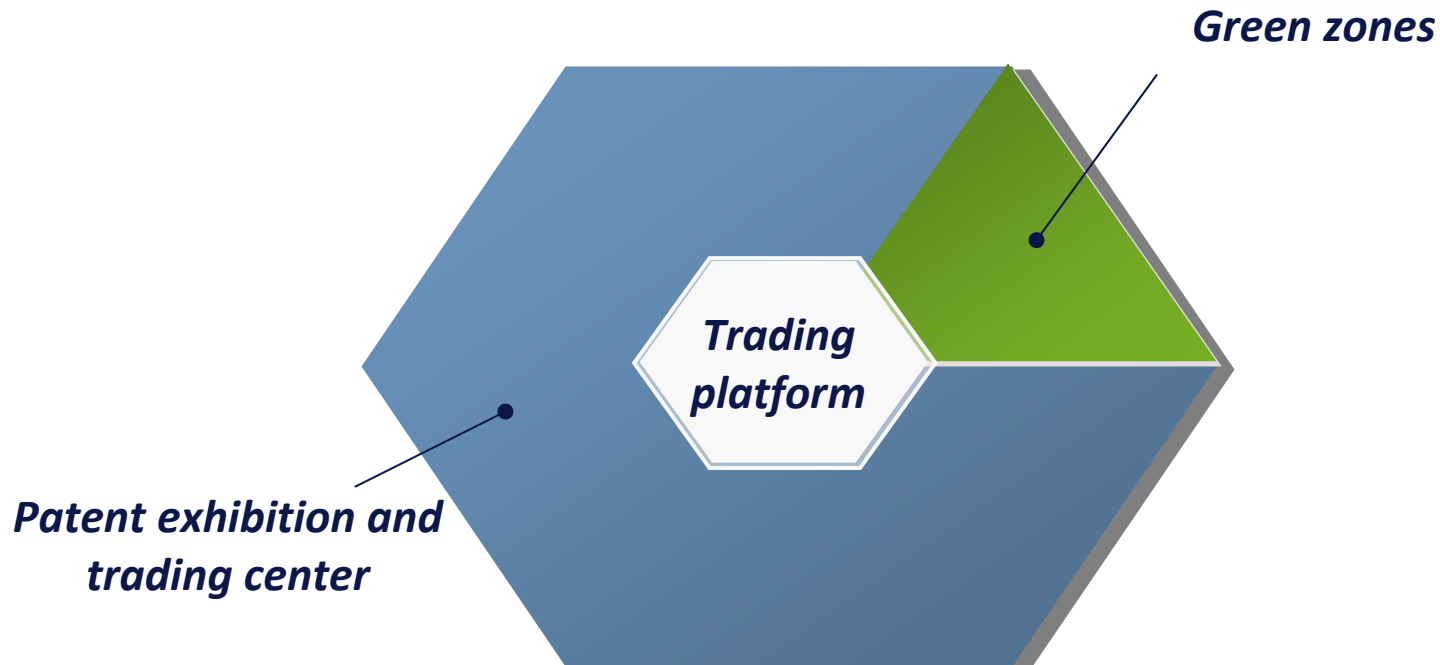

# China's deliberations on innovation and diffusion of adaptation and mitigation technologies

3

**Strengthen the role of national patent exhibition and trading center**

# China's deliberations on innovation and diffusion of adaptation and mitigation technologies

4

## Strengthen IP training for green enterprises

***Special curriculum for green enterprises***

***Free training courses for small and medium sized enterprises***

***The proportion of trained green enterprises***

# Conclusion

***Collaboration***

***Confidence***

**Thank You!**
