Section I: General

This section is intended to obtain general information on exceptions and limitations to patent rights that are provided under the applicable laws. For the purpose of this questionnaire, the term "applicable law" refers to relevant national and regional statutory law and, where applicable, case law.

The terms used in the questionnaire are drafted in a general way aiming at providing a broad understanding of each concept used, assuming that the exact wording of these exceptions and limitations might differ under the applicable laws. More detailed explanations of the various exceptions and limitations may be found in the following documents: SCP/13/3, SCP/15/3 and CDIP/5/4.

1. As background for the exceptions and limitations to patents investigated in this questionnaire, what is the legal standard used to determine whether an invention is patentable? If the standard for patentability includes provisions that vary according to the technology involved, please include examples of how the standard has been interpreted, if available. Please indicate the source of law (statutory and-or case law) by providing the relevant provisions and/or a brief summary of the relevant decisions.

Section 4 of the Industrial Property Act

An invention is patentable if it is new, involves an inventive step and is industrially applicable.

Correspondingly, please list exclusions from patentability that exist in your law. Furthermore, please provide the source of those exclusions from patentability if different from the source of the standard of patentability, and provide any available case law or interpretive decisions specific to the exclusions.¹

Section 3 (3) of the Industrial Property Act excludes the following from patentability-

- a) **Discoveries, scientific theories and mathematical methods;**

¹ This question does not imply that the topic of exclusions from patentability is dealt with in this question exhaustively.

- b) **Plant and animal varieties or essentially biological processes for the production of plants or animals, other than microbiological processes and the products of such processes;**
- c) **Schemes, rules or methods for doing business, performing purely mental acts or playing games;**
- d) **Methods for treatment of human or animal body by surgery or therapy, as well as diagnostic methods practised on the human or animal body, and this provision shall not apply to products for use in any of those methods**

2. As background for the exceptions and limitations to patents investigated in this questionnaire, what exclusive rights are granted with a patent? Please provide the relevant provision in the statutory or case law. In addition, if publication of a patent application accords exclusive rights to the patent applicant, what are those rights?

Section 12 of Industrial Property Act grants exclusive right to exploit the patent. Section 12(2) defines "exploitation" of patented inventions as

- (a) **when the patent has been granted in respect of a product-**
 - (i) **making, importing, offering for sale, selling and using the product,**
 - (ii) **stocking such product for the purposes of offering for sale, selling or using;**
- (b) **when the patent has been granted in respect of a process-**
 - (i) **using the process;**
 - (ii) **doing any of the acts referred to in paragraph (a) of this subsection in respect of a product obtained directly by means of the process.**

3. Which exceptions and limitations does the applicable law provide in respect to patent rights (please indicate the applicable exceptions/limitations):

Use of articles on foreign vessels, aircrafts and land vehicles;
Exhaustion of patent rights;
Compulsory licensing and/or government use;

If the applicable law provides for any of the above-listed exceptions and limitations, please fill out those parts of Sections II to X that apply to you. If the applicable law does not contain all of the exceptions and limitations provided in Sections II to X, then you should respond only to the other parts of the questionnaire. If the applicable law includes other exceptions and limitations that are not listed above, please answer the questions under Section XI "Other Exceptions".

Where reference is made to case law, please indicate, if possible, the official source in which the case has been published (for example, the publication number, issue, title, URL, etc.).
